**Drugs fight**

President Bush Tuesday said the U.S. would cooperate as much as possible with the U.N. in a $2.5 billion campaign to stop drug traffickers. See Nation World, page 6.

**Back on the cross**

Just when you thought it was safe to be a fundamentalist Christian in the nation's capital, along came Patrick N. Berg, the "temple evangelist." To the chagrin of many of his followers, who support his work to preserve the "temple" on the Hill, Berg will be going back in the pulpit after his resignation in effective. Berg, who owns a 48-story building near lower Manhattan, is a conservative and has been a vocal opponent of the gay rights movement. He is an opponent of the 1993 Religious Freedom Restoration Act and has been a vocal supporter of the straight marriage institution. Berg's resignation will be effective immediately.

**Iran's parliament accepts new govt.**

Deputies chant 'Death to America!'

TEHRAN (AP) — Iran's parliament approved all 22 members of President Hashemi Rafsanjani's new government Tuesday, opening the way for economic relief and gradual restitution of ties with the West.

The official Iranian News Agency said the 250-member Majlis backed "the signature of the extension of the moratorium on oil sales, lifting of U.S. sanctions and removal of the U.S. from our nuclear energy projects." Earlier reports suggested three Cabinet members would resign to avoid the U.S. embargo on Iranian oil. No such resignations were announced Tuesday.

Rafsanjani has had no luck in the past for opening up to the West, U.S. officials said. The government has promised to return to the negotiating table, but has not made any public statements about the potential for economic relief.

"We see Mr. Hashemi's Cabinet as a successful one and one that is open to the West," U.S. State Department officials said.

Rafsanjani was elected president in 1989, but his government had been under a sanctions regime for years. The U.S. has imposed sanctions on Iran since the 1979 revolution.

"I see Mr. Hashemi's Cabinet as a successful one and one that is open to the West," U.S. State Department officials said.

Rafsanjani was elected president in 1989, but his government had been under a sanctions regime for years. The U.S. has imposed sanctions on Iran since the 1979 revolution.

"The appointment of President Hashemi to the U.S. Embassy in Tehran, which has been closed due to the Iran hostage crisis, will be seen as a positive step forward," the officials said.

Rafsanjani's government has said it would be willing to negotiate with the West. But the officials said it is not clear if the government will be able to negotiate with the U.S. in the future.

"We see Mr. Hashemi's Cabinet as a successful one and one that is open to the West," U.S. State Department officials said.

Rafsanjani was elected president in 1989, but his government had been under a sanctions regime for years. The U.S. has imposed sanctions on Iran since the 1979 revolution.

"Our government will not try to negotiate with the West, but will continue to support the U.S. in the fight against terrorism," the officials said.

Rafsanjani's government has said it would be willing to negotiate with the West. But the officials said it is not clear if the government will be able to negotiate with the U.S. in the future.

Iowa City woman dies in accident

Katherine Pont-Ruiz, 21, of Iowa City, was killed Tuesday in a traffic accident on Interstate 380 near Atlantic. According to the Iowa State Patrol, Pont-Ruiz was killed when the car she was riding in crashed into another car that had slid off the highway.

The accident occurred on Interstate 380 near the junction with Interstate 80 in Atlantic. The car was traveling northbound when it hit a Utilities pole, causing the car to roll over and hit a utility pole.

The accident is currently under investigation by the Iowa State Patrol. No other information is available at this time.

Shawley named to laser science group

William Shawley, George Cash, and Pat A. O'Conor have been named to the National Laser Science Group. This group is a temporary group created by the U.S. government to address the growing need for laser science research.

Shawley, who is a professor of physics at the University of Iowa, said he is excited to be part of this group.

"We're going to be working on some really important problems," Shawley said. "I'm excited to be part of this group and to be working on these important problems."

Homeopathic docs prescribe minimal pharmacal use

"Like cures like," according to theory from the 1700s

Jim Mathews

"The whole care for injured eyes and ears seems almost ridiculous — the very idea of using the same substance that produces injury as a treatment for it is so farfetched that it is hard to look at for a box of linen."

In fact, there are homeopathic practitioners and school that believes homeopathic medicines were developed in Germany in the late 1700s by a person named Hahnemann. And it is based on the concept that whatever you do when you're sick, it makes another sick. This is one of the principles of homeopathic medicine. "It is the act of producing a medicine that is so similar to the person's condition that the person becomes better."

But homeopathic medicines were developed in Germany in the late 1700s by a person named Hahnemann. And it is based on the concept that whatever you do when you're sick, it makes another sick. This is one of the principles of homeopathic medicine. "It is the act of producing a medicine that is so similar to the person's condition that the person becomes better."

One of these principles is that substances that cure one person only mimic the disease.

Student senators prepare for Big Ten conference

Deborah Gobbo

UI student senators are busy planning a session to be held in Minneapolis that will be the biggest. Big Ten student leaders and administrators have scheduled a meeting in November to be attended by the first-time delegates from the Twin Cities universities, and they will be joined by the student legislators from universities in the Midwest that have never before sent senators to the conference.

An impressive list of speakers, including University President Bruce Harreld, the Big Ten commissioner, and Senator John D. Delany, will address the senators on a range of outside-the-box topics, from economic development to life sciences and innovation.

UI's Schnoor to study effects of acid rain on the environment

The Daily Iowan

A UI professor's study is expected to help Congress make meaningful decisions about acid rain. The study, led by professor Richard Schnoor, is a major component of the Minnesota Acid Rain Study, and it is being funded by a $1,000,000 grant from the Environmental Protection Agency.

The study will investigate the effects of acid rain on the environment and will help Congress make decisions about how to address the problem. The results of the study will be presented to Congress later this year.

Deregulated insurance could lower prices and compensate businesses

The Daily Iowan

UI senator Robert Sawall has introduced a bill that would allow insurers to offer competitive rates and compensate businesses for losses caused by acid rain. The bill, which is being considered by the Senate, would allow insurers to offer competitive rates and compensate businesses for losses caused by acid rain.

The bill is expected to be passed by the Senate and signed into law by the governor. The bill is being supported by business organizations and environmental groups.

makes sure the outlines of the bill are well seen," he said. "Our goal is not to be afraid of.

"We're very pleased. We've be­
come aware of our obligation to be a good neighbor and to be sensitive to the needs of our neighbors," May said.

"The county commissioners have agreed to this," said May. "We're going to work with them closely to see what the best way is to do this."
Barco won't negotiate with traffickers

BOGOTA, Colombia (AP)—The father of three reputed drug barons was arrested Monday at a ranch near Medellin, identified as a top drug trafficker, said Tuesday that Abraham Ochoa Restrepo said in an open letter to President Virgilio Barco.

Colombia's police intelligence chief said Tuesday that Abrahán Mejía, identified as the top drug cartel's official in Medellin, was arrested Monday at a ranch near Medellin, authorities said Tuesday. Mejía had been wanted by authorities for some time.

Mejía had run a ranch near Medellin for decades, and as tensions rose between the government and the traffickers, Mejía was arrested Monday at a ranch near Medellin.

The role of Mejía in the Medellin cartel has been widely reported, and his arrest is seen as a significant blow to the organization. Mejía was reportedly responsible for much of the cartel's logistics and operations.

The Medellin cartel is known for its involvement in the drug trade, and Mejía's arrest comes amid ongoing efforts by the Colombian government to crack down on drug trafficking.

Syrian gunners blast tanker

REVIEW SUNDAY LEADER (AP) — Syrian gunners on a warship captured off the coast of Namibia fired a 202mm rocket that exploded in a station, killing seven badly wounded crew members; two of them civilians, since fighting in the next few days.

Security council criticizes South Africa

UNITED NATIONS (AP) — The Security Council has condemned South Africa for failing to fully cooperate with the U.N. in an investigation of police brutality in Soweto.

The report was welcomed during days of negotiation between African and Western members of the council.

The original draft attached South Africa for "not cooperating" with the U.N. plan, but Britain and the other major powers succeeded in weakening that language.

The resolution also condemned the South African police as a "police state" and called on the government to end the violence.

The South African government has denied that there were incidents of police brutality.

The resolution was approved unanimously by the council, which has 15 members, including five permanent members.

It was the first time that the council has condemned South Africa.

Burglars 'kiss' offices in silver heist

ST. LOUIS (AP) — Burglars succeeded in a brazen heist of a silver dealer's vault in St. Louis, police said today.

The thieves reportedly entered the vault on Friday night, after a series of failed attempts during the day.

They removed about $300,000 worth of silver coins, bars, and bullion.

Police said the burglary was one of the largest in the history of St. Louis.

The investigation is continuing.

**Prediction of doom**

Though the article was published in last month's newspaper, its message deserves page-one headlines. Soviet and U.S. scientists are warning that the threat to global warming is at the top priority if humans are to survive to the next century. Soviet scientists and nearly 250 American meteorologists, environmentalists, industry leaders and university men last weekend to sign up world leaders to halt global warming of the planet. Conference attendees came to some agreement on the following conclusions that the public needs to know:

- The conference said antidote of global warming is at present feasible but will require an effort of 100 million dollars in the next 20 years, but that such an approach may not be as effective as preventing the warming of the planet.

- The conference said the warming of the planet is due to the increase in the release of carbon dioxide from factories and power stations, which is causing a rise in the earth's temperature.

- The conference said the warming of the planet is likely to be irreversible if not checked, as it has been going on for several thousand years.

- The conference said the warming of the planet is causing changes in the world's climate, such as the melting of glaciers and the rise in sea levels.

- The conference said the warming of the planet is causing changes in the world's agriculture, such as the loss of crops and the rise in food prices.

- The conference said the warming of the planet is causing changes in the world's health, such as the spread of diseases and the rise in drownings.

- The conference said the warming of the planet is causing changes in the world's economy, such as the rise in energy costs and the decline in tourism.

- The conference said the warming of the planet is causing changes in the world's politics, such as the rise in international tensions.

- The conference said the warming of the planet is causing changes in the world's culture, such as the loss of traditional ways and the rise in materialism.

- The conference said the warming of the planet is causing changes in the world's religion, such as the rise in religious fundamentalism.

- The conference said the warming of the planet is causing changes in the world's science, such as the rise in scientific ignorance.

- The conference said the warming of the planet is causing changes in the world's art, such as the rise in art imitations.

- The conference said the warming of the planet is causing changes in the world's music, such as the rise in music imitations.

- The conference said the warming of the planet is causing changes in the world's literature, such as the rise in literature imitations.

- The conference said the warming of the planet is causing changes in the world's philosophy, such as the rise in philosophical imitations.

- The conference said the warming of the planet is causing changes in the world's science, such as the rise in scientific ignorance.

- The conference said the warming of the planet is causing changes in the world's art, such as the rise in art imitations.

Field of dreams: The real estate band has been reprinting their hits on vinyl in the wake of renewed interest in the genre. The band's latest release, "Field of Dreams," features an updated cover and additional tracks from their 1980s albums. "We're grateful for the support of our fans and the resurgence of interest in our music," said band member Bob "B.J." Johnson.

Getting down to business: The Men's and Women's Track and Field teams have announced their schedule for the upcoming season. Both teams will participate in the NCAA Outdoor Championships, with the Women's team set to compete next weekend and the Men's team the following weekend.

The oars have it: Iowa's rowing team has begun training for the upcoming season, with the focus on building strength and stamina. Coach John "Jack" O'Connor said, "We're excited to see how our athletes perform this season." The team will compete in the NCAA Championships later this year.

Sports

Kickoff: Irish vs. Virginia

EAST RUTHERFORD, N.J. (AP) — Lou Holtz has managed the 1987 Yankees, he probably would have been more successful. But after watching his former team, which is 2-14 against New England, he wouldn't want to be the guy who is quoted as saying that the club was leading for a super bowl. So he isn't surprising that the coach of defending Super Bowl champion New England, Norv Turner, has been found guilty of violating his team's rules.

Still, the Dolphins, 2-14 against New England, the last game of the season against the Patriots, has a consistent year at quarterback. But with Turner's team, there's inexplicably out of the game.

The last-place finish. So it isn't surprising that the coach of defending Super Bowl champion New England, Norv Turner, has been found guilty of violating his team's rules.

TOUCH THE OUTDOOR PROGRAM

The Touch The Earth program is designed to give anyone with interest and inclination toward a particular activity the chance to participate. Experience in the activity is not necessary. Most trips are of short duration, consisting of a single day or weekend. Several highlight trips of longer duration are always offered.

The trips and seminars for the 1989-90 academic year are listed below along with the dates and cost of each trip. More information can be obtained by calling 335-9293.
