Earthquake victims
receive aid

Congress approves
excess of $3 billion

WASHINGTON (AP) — Congress boosted aid
for area victims of the magnitude 7.1 earthquake
that struck Southern California on Sunday by
passing a $3.2 billion relief package aimed
at helping 250,000 people. The bill, which
would be the largest ever for a single
disaster, was approved by a joint vote of
97-1.

The measure, which comes on
the heels of a $1.1 billion relief
package that was approved
earlier this month, is expected
to benefit those who lost
their homes, businesses,
and jobs during the
earthquake.

The bill includes $2.5 billion
for housing and home
repair, $300 million for
business and job
reconstruction, and
$200 million for
health care.

The legislation was
passed by a voice vote, with
no recorded votes. The bill
now heads to the House for
final approval. If passed,
the measure will be sent to
President George Bush
for his signature.

The earthquake, which
struck Central California
earlier this month, has
claimed at least 22 lives
and injured hundreds of
people. It is the largest
earthquake in California's
history and the third
largest in U.S. history.

Bush has previously
said that the federal
response to the
earthquake has been
adequate, but that
more can be done
to improve it.

The legislation will provide
funding for emergency
response, rebuilding,
and recovery efforts,
and will also include
funds for psychological
support and mental
health services.

The bill is expected
to be signed into law
this week.

Preservation or deterioration: UI departments keep history from becoming just paper
Mark Dayton
Special to the Daily Iowan
Millions of books are printed each year by the University of Iowa's Press, just a fraction of the publishing industry in one university. While most are academic refereed titles, some of such books will probably never see the light of day.
With their unique resurrection process, the Preservation and Conservation Depart-
ments, along with the UI Center for the Study of the History of the Book, are charged with preserving the books that are:

The Iowa City Press is the state's largest printer, according to the Iowa City Press's annual report for the fiscal year ending June 30, 2000. The report states that the press has a circulation of 50,000 subscribers and is licensed to publish books in all major book categories. The Press is owned by the University of Iowa.

The Press, however, does not publish books on a commercial basis. It is a non-profit organization that operates under the auspices of the University of Iowa Library. The Press is a member of the Association of American University Presses and the Association of American Universities.

The Press publishes books in a variety of formats, including hardcover, trade, and library binding. The Press also produces special editions, such as the Limited Editions Club and the Folio Society.

The Press is committed to preserving and promoting the history of the book. It is one of the few institutions in the world that has the expertise and facilities to preserve rare and unusual books. The Press also produces special editions of classic works, such as the Limited Editions Club and the Folio Society.

The Press is located in the University of Iowa Library's Rare Books and Manuscripts Library, which houses one of the largest collections of rare and unusual books in the world. The Library is open to the public, and visitors are welcome to browse the collection and learn about the history of the book.

The Press is an important resource for students, scholars, and researchers interested in the history of the book. It is a vital part of the University of Iowa's mission to preserve and promote the history of the book.

Raffle gives student day with Rawlings
Winner has 'dream fulfilled'

LISA WEST
The Daily Iowan

Spending a day with Hunter Rawlings would be a dream come true for any junior on campus who has joined the Student Government. For a lucky student, that dream will become a reality.

On October 3, the winner of the Student Government's "Day with the President" raffle will spend the day with Rawlings. This is the first time SAOG has sponsored the raffle.

The raffle winners will spend the first half of the day attending their classes with Rawlings. This will allow Rawlings to answer any student and to get a small glimpse into his daily life.

The second half of the day will be spent with Rawlings as he goes through his average day of administrative duties. The event is sponsored by the SAOG, UI Student Association in cooperation with the student government, Hawkeye, the University and UI Student Association.

Hawkeye, the purpose of the raffle is to give the raffle winners an insight into the interaction between UI students and UI officials.

OFFICIALS IN 6 STATES SEARCH FOR KIDNAPPED 11-ASPECT GIRL

ST. PAUL, MINN. (AP) - State officials are searching for a 13-year-old Minnesota girl who disappeared during an after-school activity with a务

"On one hand, it's important that the public person involved with this young girl because of her. On the other hand, it's important to protect the girl's identity," said Mark Skidmore, superintendent of the state Bureau of Criminal Apprehension.

Jacob Waterberg was kidnapped around 1:55 p.m. Friday by a man wearing black clothing and carrying a pipe. The abduction occurred on a rural road near St. Joseph, a town of about 3,000 in central Minnesota.

Autopsy: Woman murdered

Authorities seek victim's husband

KELLY DAVIS
The Daily Iowan

The Adair County medical exami-
niner ruled Tuesday that a woman
found dead at the University Inn in

Kewanee, Ill., was the victim of a
murder.

The results of the autopsy —
which took a longer time because
of the autopsies — showed that
Susan Emrys, 43, of Kawa-
near, Ill., was strangled in her
room on October 6, according to
Coralville Police Department repor-
ters.

The autopsy may have been delayed due to pathological tests according to Coralville Police Sgt. Terry Rauke.

Medical Examiner T.T. Stahl was unavailable for comment Wednesday.

Police are still looking for Sve-

n

"There is nothing else going to be done to the victim at this point. We are not comment-
ing on any aspect of the investigation," Rauke said.

Frank Cooper, a former executive assistant to Governor's Office, has control-
ing the death from the start as it is not part of the case and not part of the case.

Frank Cooper, who has control-
ing the death from the start as it is not part of the case and not part of the case.

Sales managers, police and some out-of-state officials are also investigating the victim.

Moving up in the area
Quad Cities top list as Iowa's most livable area

Iowa's most livable cities

Here is a list of Iowa metropolitan areas and their overall rating as judged in the Places Rated Almanac. The almanac ranked 333 metropolitan areas for investment, education, climate, crime, transportation, arts, culture and recreation. Six months later the list got the top 150.

The highest rated 11 Quad Cities area, which includes Des Moines and Waterloo, was ranked No.1. followed by Des Moines, Iowa City, Cedar Falls-Waterloo, Cedar Rapids, Quad Cities, Sioux Falls, Dubuque, Brown County and Topeka.

"Since four years ago we had the big layoffs, but it seems like everything is moving back to life. I am surprised we increased that kind of ranking," said Steve Atkins, director of development services at Cedar Falls.

But he said the almanac under-rated the Midwest and western cities.

"When you're raising a family, nothing beats the Midwest," he said.

"I have to tell you, I don't think those things are very serious," said Iowa City Manager Steve Atkins. "I am sure their ranking is too low, but I am not really worried about it."

"I want to see that you can redact my name," said the list is too subjective to be accurate.

"I always did think the rankings are something. You can still walk out of your house and leave it unattended, and you can still walk down the street and know 50 percent of the people," she said. "I don't think it's true."

The other Iowa officials said that the ratings ranking may not have been given enough weight.

"It's something," Des Moines City Clerk Mary Davis said, "that's fine. We think so. No.1 in the Iowa rankings."

"I am surprised we increased that kind of ranking," said Steve Atkins, director of development services at Cedar Falls.

Abortion

"Abortion is a human right," said the pro-choice leader, and must be protected for all women. She argued that reproductive rights are fundamental to women's autonomy and dignity.

"If we don't protect this right, we are not a free society," she said, highlighting the importance of empowering women and challenging the status quo.

The pro-choice leader emphasized the right to make decisions about one's own body, free from interference and discrimination. She said that restricting access to abortion is a violation of women's rights and a denial of basic human freedoms.

"Without reproductive freedom, women are trapped in situations they cannot control," she stated, "and this is unacceptable in a society that professes to value equality and freedom for all.

The pro-choice leader called for legal protections for abortion, arguing that the current laws are outdated and inflict unnecessary harm on women. She advocated for comprehensive reproductive health care, including access to birth control and safe, legal abortion.

"Our goal is to create a world where women have the right to choose," she concluded, "and we will continue to fight until we achieve this basic human right for all women."
Welcome ban

Last week, U.S. House and Senate negotiators reached an agreement to ban smoking on all domestic flights and all flights from Alaska to Hawaii of less than six hours. To win the approval of lawmakers, the negotiators had to offer several sweeteners, including a ban on smoking in all Senate and House office buildings, a higher penalty for people caught hiding cigarettes on flights, and a higher penalty for people who sell tobacco products to children. The agreement is expected to be signed into law by the end of the week.

Opponents of such legislation argue that it's a violation of an individual's right to choose. They say such a ban is an infringement on personal freedom. However, opponents are swarmed.

The ban is an unjustified limitation on personal freedom, that the "right to smoke" is protected by the U.S. Constitution.

Evidence supports legalization

President Ethan Nadel, who is with the Department of Police at Princeton, has been quoted as saying, "This agreement is a step in the right direction." Nadel has been praised for his leadership in the fight against smoking. He has been instrumental in the development of new policies that address the issue of smoking.

Legalization would almost certainly increase the availability of products, dampen the production of cigarettes, and reduce the demand for tobacco products.

Opponents of such legislation argue that it's a violation of an individual's right to choose. They say such a ban is an infringement on personal freedom. However, opponents are swarmed.

The ban is an unjustified limitation on personal freedom, that the "right to smoke" is protected by the U.S. Constitution.

Tribute to a capitalist

Last week, during a speech in West Branch, Iowa, former-President Gerald Ford expressed the view that no specific role is shared by the horde of critics who have thrashed Ronald Reagan's ideas, as well as his current multimillion dollar tour of Japan, which was supposed to transpire during summer orientation never happened. Ford said, "I'm the one who's supposed to attend these events, and I'm the one who's supposed to speak at them." He added, "I don't know if they're going to have the event, but I'm the one who's supposed to be there." Ford was referring to his current tour of Japan, which was supposed to begin on September 1st.

"SOVIET PARANOIA"

Extremely readable

To the Editor:

"Big Tuna," which was recently released, was a truly fantastic book. The author did an excellent job of capturing the essence of the sport and its participants. The book was well-written and well-researched. It was a pleasure to read.

I would like to express my gratitude to the author for providing such a wonderful piece of literature. I believe that "Big Tuna" is a must-read for anyone interested in the sport of fishing, or for anyone who simply enjoys a good story.

**Briefly**

**Nation/World**

**Man warns of disasters, slugs Glenn**

WASHINGTON (AP) — A man named Iowan strode into a Capitol Hill news conference and stalked after President Reagan, who was making an appeal for the economy.

"One cigarette a day," the man said, "is as harmful as a tree-planting ceremony." Just then, two fires started in the same area of the Capitol, where a Capitol Police officer and two Capitol Police sergeants were on duty.

"Do not accept a kiss, the spokesman said." After hitting Glenn in the jaw at a tree-planting ceremony, the man was taken into custody by police, who said he insulted the German group and had to be dragged from the area.

**Gadafi admits to banking terrorist groups**

CAIRO, Egypt (AP) — Col. Muammar Gadafi, the first time acknowledged Libyan bankrolling terrorist groups, had said the money had been lent in the past to finance the war against the United States.

"We have no definite information on the extent of injuries," the spokesman said. "The earthquake is still rising from one area of the Capitol, where a Capitol Police officer and two Capitol Police sergeants were on duty.

Also, a man named Iowan scheduled to speak at a Capitol Police officer and two Capitol Police sergeants were on duty.

"Do not accept a kiss, the spokesman said." After hitting Glenn in the jaw at a tree-planting ceremony, the man was taken into custody by police, who said he insulted the German group and had to be dragged from the area.

**Polish govt. disbands Stalinitic secret police**

**WARSZAWA, Poland (AP) — The secret police will be disbanded under new laws that will ban listening devices to try to win back public confidence in a government and a place in Poland's future.**

"The functions of the security service not only accept charges, but also approach the view that the changes are irreversible," the spokesman said. "Either we are faced with a different view, or we will be called to new development."

"It is high time we look into thinking war," the spokesman said. "The security service will be disbanded under new laws that will ban listening devices to try to win back public confidence in a government and a place in Poland's future."
High tech unites quake-stricken Bay Area

SAN FRANCISCO (AP) — When Carl Geary (R-New York) and his colleagues were looking into pork projects last week, they were dealing with a quake in which 670 people were killed in the Los Angeles area and in which 25 homes were damaged. Officials investigating the possibility of a new Iran-Contra war "raised a serious question" about the legislation. They were convinced that the projects would come to a halt if the Iran-Contra war were won. Geary and his colleagues were discussing this project when they learned that the projects were being investigated by a special committee, which was due to meet Wednesday.

FNRAI it was true, they would stop the projects. But the projects were not won, and the cuts in foreign aid would continue. The projects were worth $250 million, a large sum of money.

The projects were to be halted by a special committee, which was due to meet Wednesday. The projects were not won, and the cuts in foreign aid would continue.

Women anxious to begin swimming, diving season

COLUMBUS, Ohio (AP) — The students attending Ohio State University in Columbus, Ohio, are anxious to begin swimming and diving season.

The season is expected to be one of the best in Ohio State's history.

The students are eagerly waiting for the team to start practicing, and they are hopeful that this year will be a successful one.

In the last few days, the team has been training hard to prepare for the upcoming season.

The swimming and diving team is one of the strongest in the country, and the students are looking forward to seeing their performance on the pool.

The team has a lot of talented swimmers and divers, and they are expected to perform exceptionally well this year.

The students are excited about the upcoming season and are looking forward to watching their team compete in various competitions.

With the team's dedication and hard work, the students are confident that this year will be a record-breaking one for the swimming and diving team at Ohio State University.

Athletics leave Bay for tuneup

SAN FRANCISCO (AP) — Before the World Series begins Friday at Candlestick Park, players for both teams will take a break to get their minds and bodies ready for the next series.

The Oakland Athletics are scheduled to leave for San Francisco on Thursday and the San Francisco Giants are scheduled to leave on Friday.

The Athletics will play in the World Series if they win the American League championship game, while the Giants will play if they lose.

"We're excited to be in San Francisco," said Athletics manager Tony La Russa. "It's a great city and we're looking forward to playing there.

"The World Series is a very special time of year and we're looking forward to making some memories," said Giants manager Bruce Bochy.

The game is scheduled to begin at 5 p.m. (PDT) on Friday, October 28 at Candlestick Park.

"It's going to be a great atmosphere," said La Russa. "The fans are going to be fired up and we're going to be ready to go."

The Daily Iowan

Two days after his 16th birthday, Chicago Bears running back Gale Sayers and another teenager were charged Wednesday in an arson case that investigators said was sparked by Sayers’ son. The 16-year-old Sayers and his 15-year-old companion have been charged with four counts of first-degree arson. District Judge Paul S. Brewster said Sayers was in fair condition at Oak County Hospital, said hospital spokesman Dr. John S. Gordan, who also said that Sayers’ son had visited the hospital.

Illness strikes iron Mike

The Daily Iowan

Although Mike Sauer is no longer playing due to illness, his senior is showing his support for his younger brother – Finks is 62 – who can take the NFL into the 21st century. They suggest that they need a man more familiar with matters entitle them to more of a say than owners like Behring. Dallas’ interest in taking the league more to get power for itself than to find a commissioner.

I will feel flies last season.

Texas students arrested for bookmaking

AUSTIN, Texas (AP) — Two University of Texas business students and a graduate with a degree in finance allegedly masterminded a gambling operation at their school yearly, authorities said.

University of Texas police said John Dugan, 24, of Saginaw, and Christopher J. Tropp, 29, were arrested by authorities of running the gambling business out of an apartment in the school community.

In addition to lodging police say were used to record the bets, phones used to make telephone wagers, a desk telephone, an answering machine, a computer, a business telephone, a personal computer, a personal computer, and a personal computer were also seized.

Tropp and Dugan, both business majors and D. Jerry Benton of the Austin Police Department said the business was open for business.

Dugan, charged with engaging in organized crime by promotion of gambling.

Two years later, Cardinal runner gets 2nd chance

LOUISVILLE, Ky. (AP) — Sprinting is a perfect sport for a 2-year-old thoroughbred who loves short trips.

"I'm fresh and already healthy," said Steve, 6. "I think my chances are good to win, but I'm not sure." He said he was going to race again Thursday in the $1.99, 100-yard and scored about to rise to the top again."

Smith, at the time a wide receiver, and cardinals. He caught six passes for 338-4103

"It's just a mistake, a lot to learn from it. My mistake," said Lt. Martin, 23, and Christophor J. Trapp, 23, both arrested Monday night in the raid. They said they had no immediate plans to pursue charges against the brothers but that the investigation is continuing.

The ledgers and other records seized in the raid indicated that about 200 people were arrested Monday night in the raid. Smith said he was trying to do whatever it took to get back on the track and not doing anything illegal, because it was an accomplishment he could have been proud of.

AUSTIN, Texas (AP) — Olympic champion Carl Lewis has begun recovering from injuries he sustained in a car accident.

Lewis brings suit on magazine

NEW YORK (AP) — Olympic champion Carl Lewis has filed a lawsuit against Atlantic Books and a Canadian company for reporting that he used performance-enhancing drugs, according to a published report.

The New York Times reported Wednesday that the lawsuit, filed by Lewis' lawyer Thomas Dennis, accuses a magazine of publishing an article about Lewis' use of performance-enhancing drugs.

"I'm not going to let you get away with that," Lewis said. "I was ready to be arrested. I was going to be arrested. I was going to do whatever it took to get back on the track."

Lewis said the article was a "false and misleading" story that "was out of control" and that he was "just a mistake, a lot to learn from it. My mistake." He said he was trying to do whatever it took to get back on the track and not doing anything illegal, because it was an accomplishment he could have been proud of.

"It's just a mistake, a lot to learn from it. My mistake," said Lt. Martin, 23, and Christophor J. Trapp, 23, both arrested Monday night in the raid. They said they had no immediate plans to pursue charges against the brothers but that the investigation is continuing.

In keeping with the tradition of previous years, the Iowa City Pantouflage Theatre is performing "Eulenspiegel," with a German twist. The show, "Eulenspiegel (pronounced spill; with a German twist) in Keeping with the Trickin of Old Engish," will be held at the University Cultural Center in Iowa City, Iowa, from Oct. 14 to 29.

The show will be performed four times a week, with a matinee and evening show each day. The performance times are 2 p.m. and 7 p.m. The show is sponsored by the University of Iowa Student Union and the International Writing Program.

The Pantouflage Theatre is a student-run theatre company that has been performing since 1969. The company is known for its innovative and experimental productions, often featuring a mix of Shakespearean and contemporary works.

"Eulenspiegel," written by Heinrich von Kleist and first performed in 1811, is a satirical, carnivalesque play about a mischievous trickster who challenges authority and conventions. The play's central character, Eulenspiegel, is a figure of both condemnation and celebration, embodying the spirit of rebellion and non-conformity.

The Pantouflage Theatre's production of "Eulenspiegel" is directed by Ryan Smith, who is a senior theater major. The play is cast with a group of local actors, selected through open auditions.

The production team includes a diverse group of students from various majors, working together to bring this classic piece to life on stage. The Pantouflage Theatre is committed to offering a unique and engaging theatrical experience to its audience, and "Eulenspiegel" is sure to be a memorable production for anyone who attends.

For more information on the Pantouflage Theatre and their upcoming productions, visit the University of Iowa Student Union's website or the International Writing Program's website.

Artist Frasconi does not shy from ‘bleaker aspects’ of life

Sid Sturrock
The Daily Iowan

Art and life can be seen as mirror images, as the medium to message, in Frasconi’s case, to his personal ideology, which is that as a draftsman and illustrator, he is used to reflecting the human condition. That condition is reflected in his woodcuts. He is also an Ida B. Wells scholar, a title he received in 2003, following the 100-year anniversary of Wells’ death. Wells was a black journalist, educator, and activist, and Frasconi is one of the few living black artists to receive the honor.

Frasconi is an innovator in the world of woodblock prints. He uses four blocks to make a print, and the medium is known for its liveliness and immediacy. In a recent interview, Frasconi said that he pays his homage to Wells by using the medium to express his ideas to other people, letting people see things they never saw before. He is just been through an exhibition of his work, and the event is called “Frasconi on Frasconi.”

Frasconi himself is used to reflecting the human condition. He has given you good reasons to be happy, and he has “risen to the challenge of the medium” in his work. He is not limited by the fact that he is a draftsman and illustrator, and he is also an Ida B. Wells scholar.

The Swingin' Teens

Hard-rocking 'Teen' band returns to I.C. for tour

Steve Coxone

The Daily Courier

The Swingin' Teens, Iowa's favorite band for the past two years, have evolved in songs like "Rater" and Matt Panschar on "Death Personified," while remaining improved by a rearranged lineup. "Death Personified," released in 1988, became one of the most anticipated albums in rock history. When the Swingin' Teens first got going four years later, "Definitely Maybe," the group's leaders decided to move to Minneapolis, for eminently practical reasons.

Bands

In January of 1988, the band's business was sizzling. "Definitely Maybe," released in 1986, had sold over 100,000 copies. In the excitement of the driving force and growth that the group was building, the band's management realized that they needed to keep an eye on their Iowa City roots. "We're not sure what kind of crowd we're building," says "Definitely Maybe" co-producer Matt Panschar. "Iowa City is the heart of the band's popularity, and we need to keep our roots strong." Meanwhile, the group's leaders became Iowa student. "Rater" received a degree in English in communications.
