De Klerk promises: ANC legalized, Mandela freed

Release conditions still being negotiated

**PAARS, South Africa**—Berti
Deynchta said Monday that he would release the Nelsont Mandela, and the 39 other anti-apartheid leaders who have been on parole since before he came to power from nearly three years in prison, as he had said Sunday. Deynchta said that the government was still negotiating the terms of the release of the leaders, some of whom he said would be turned over to the group that was responsible for the leaders' incarceration.

In Pretoria, amnesties such as the one granted to 39 other anti-apartheid leaders, he said, Deynchta said in his speech. "We are going to make it our business to turn around the regime in South Africa and bring about a new era of hope and peace," he said.

But in South Africa, where a bloody revolt against the government has been raging for months, the leaders were greeted with a cacophony of cheers and jeers.

### Former student hopeful about S. Africa

Brian Dickson

Following promises of impending political change in the country, a former student writer and political activist in the country, Brian Dickson, said that he was hopeful for the future.

"I have been in this country for a long time, and I have seen the government turn a blind eye to the suffering of the people," Dickson said.

But he said he was hopeful that the government would change and that the people of South Africa would have a better future.

"I see a glimmer of hope in the air, and I hope that the government will listen to the people," Dickson said.

### Post-it note creator stuck to invention despite doubt

MAPLEWOOD, Minn. — It was in 1974 that 3M scientist Art Fry, sitting through a boring church sermon, noticed the idea of sticky notes that would later become the Post-it note. Fry said he was not happy with the result.

"I was not happy with the product when I first saw it," Fry said. "I thought it was a failure, but I was wrong." Fry said the idea of sticky paper was a solution to an annoyance that he had for years.

Fry said he decided to stick the note to the wall, and the result was a product that has sold millions of dollars in the United States and around the world.

### Soviets clash with minor party reforms

Auditors oppose registration law

CEDAR RAPIDS — A law allowing election-day voter registration would be an invitation to fraud and would "be a disaster," according to representatives of the Iowa Secretary of State's office.

The law, which would allow registered voters to register and cast ballots on the same day, is opposed by a coalition of public officials, including the Iowa Secretary of State's office, the Iowa State Medical Association, and the Iowa State Board of Education.

The coalition argues that the law would make it easier for people to vote fraudulently, and that it would be too costly to implement.

"This is a bad idea," said a representative of the Iowa Secretary of State's office. "It would be a disaster."

Guerrillas attack busload of Israelis to vindicate alleged prisoner torture

CAIRO (AP) — Masked guerrillas armed with guns and grenades attacked a bus carrying 25 Israelis on a desert road to Cairo Sunday, killing at least 11 people and wounding 17.

An unidentified man telephoned the Cairo bureau of a Western news agency and said the attack was to punish President Hosni Mubarak and security officials for the alleged torture in Egypt, guerrillas claimed.

It was the second attack on Israelis since Aug. 1987 when Israel and Egypt dealt a second single act of terror in the entire war. Mubarak, who was killed President Anwar Sadat and seven others with him on a Paris road near the French Foreign Ministry on Oct. 6, 1981.

Israel Prime Minister Yitzhak Shamir, speaking in a telephone interview with Israeli TV and the Associated Press, said: "We got a letter and now I see it's real."

And Israeli military officials said: "We are not going to give away this situation."

East German party releases assets

WEST BERLIN (AP)—East Germany’s Communist Party Thursday changed its name and promised to hand over 800 million marks in assets to the government in an apparent attempt to improve its image ahead of the June elections.

Also Friday, West Germany’s foreign minister proposed to seek multilateral financial aid to stabilize East Germany’s currency while it adjusts democratic reforms that could lead to its unification.

Hans-Dietrich Genscher, who was born near Halle, is said to have readily rallied to the cause of unity after neighboring countries have warned that they might pull out of a United Germany because of the official’s apparently willing to see off future claims to ethnic German regions as the new part of Poland, Czechoslovakia and the Soviet Union.

Leaders of East Germany’s Communist Party met and formally changed its name to the Party of Democratic Socialists in what is seen as the first big step by the East German Communist chief Erich Honecker on October 10.

The Communist, who dominates the current interim government backed by Premier Hans Modrow, is widely blamed for the nation’s economic problems. Genscher, noting the split state of the East German economy, said there will have to be its struggle against inflation, unemployment and burdensome debt burden.

West Germany also is considering other measures to help East Germany.

Mets star seeks help for alcohol problem

Newark papers (AP) - Darryl Strawberry entered a treatment center for alcohol rehabilitation yesterday, the latest chapter in the story of the Mets' free-spirited star, who has battled drug problems most of his career. His latest trouble flared up in Los Angeles this week, when he was arrested on suspicion of domestic violence.

Strawberry, jailed last week in a dispute with his girlfriend, was held without bail after his arrest near the same facility that treated teammate Dwight Gooden for cocaine addiction.

An eight-member Newark panel found Darryl's had a drinking problem for any length of time, but didn't really know if Darryl's had a drinking problem for any length of time, and we are confident that Darryl's had a drinking problem for any length of time.

Unfortunately for the Hawkeyes, it's the latest chapter in the story of the Mets' employee assistance program. He is with Darryl and has spent several days with him in Los Angeles this week, and we are confident that this will be the best for Darryl's.

The Boilermakers made only 29 percent of their shots, including 3 of 11 from three-point range, and were held without hitting the three in the final two minutes of the game.

Dunn's 100th comes from alma mater

The Daily Iowan

Volleyball

"Victory was definitely sweet for Dunn's 100th career match," Tom Dunn said. "This is our 49th win. The last time we played a game and we showed a lot of heart and we played very well."

Dunn's 100th career win was a 3-0 victory over Iowa State. The Hawkeyes swept the Cyclones in three sets, 25-18, 25-12, 25-19.

"It's great," Dunn said. "It's hard to believe that we have played 100 games."

The Hawkeyes, who are now 49-1 overall, are off to the best start in school history. Dunn has guided the Hawkeyes to 100 victories in 11 years.

The final set was won in 29 with 8-0 lead. The Hawkeyes' first 10 points ended the Cyclones' last run and set the tone for the match.

"It was really exciting," Dunn said. "I've never been in a game with that much excitement.

The Hawkeyes scored 176.1 to the Cyclones' 172.9 in the team's fifth straight sweep of the class.

"We wanted to do it for Tom," Dunn said. "It's the first time we have had a legitimate score." The Hawkeyes have been ranked in the Top 25 for the past 10 weeks and are now ranked No. 3 in the country.

MIWAKI (AP) — Charles Barkley, bothered for those weeks by the knee and back injuries that kept him out of the NBA All-Star game in Miami.

Barkley said Friday that he had a foot cramp in the All-Star Game because I don’t want to have it worse and I want the line to rest,” said Barkley, who leads Philadelphia’s 76ers with averages of 25 points and 12 rebounds per game, 55.2 percent of the Eastern Conference, an average of 20 points and 12 rebounds as well.

The school said Cunningham’s investigation found that a number of basketball players involved in the case.

Athletic Director ladder Dodds said he spoke with UT coach David McElwain about the situation over the weekend.

“I don’t think we’re involved here,” Dodds said.

Thomas B. Reinhart

The term "banana republic" is often used to describe countries with corrupt governments and weak economies. However, the phrase itself was coined by President Franklin D. Roosevelt in the 1930s to describe Central American countries that were seen as being controlled by foreign interests, particularly those of the United States. The term has since been applied to any country that is perceived to be either dominated by foreign powers or ruled by a corrupt government. The concept of a banana republic is often associated with the political issues of the time, including the Tariff Act of 1930, which protected U.S. farmers from foreign competition, and the subsequent importation of Caribbean sugar and bananas. The phrase has since been used more broadly to describe any country that is perceived to be weak or vulnerable to outside influence.
