Soviet coal miners demand reforms, resignation of U.S.S.R. government

By Andrew Kasseld

The Associated Press

DONETSK, U.S.S.R. — Hundreds of thousands of coal miners have demanded that the government resign and that their wages be raised.

According to information transmitted by satellite to volunteers in Moscow, the Soviet government has ordered 500,000 miners to return to work in the next 24 hours.

Miners walked away from their jobs for 24 hours despite appeals from the Soviet government and party.

In Donetsk, a rally took place demanding the resignation of the government of the President of Ukraine.

The walkout was a result of a long and bitter strike over coal miners' wages.

The government issued a statement saying it would not be able to fulfill its promises.

In the meantime, miners' demands have become increasingly political.

Local bar sued for role in drunken driver accident

By Jenny Hansen
The Daily Iowan

A Cedar Rapids man was charged with assault and battery following an incident that left one man injured. He has been charged with assault and battery on two other occasions. The incident occurred on June 13, when the accused, who was driving a car, collided with a pedestrian. The pedestrian was transported to the hospital with non-life-threatening injuries. The accused was arrested and charged with assault and battery.

Nursing home

Dr. Jerry Musser, who denied Mercy Health's request in April, has also filed a lawsuit against the hospital. The lawsuit states that the hospital has refused to pay Musser's fees for services rendered. Musser is alleging that the hospital has not paid him for services provided over a period of time.

State Senate candidates have agreed to one debate a week, starting Wednesday, according to a statement by the Iowa Senate Democratic party.

The candidates have agreed to one debate a week, starting Wednesday, according to a statement by the Iowa Senate Democratic party. The first debate will be held in Des Moines on July 29 and will feature incumbent Democratic Sen. Tom Harkin and challenger Tom Tauke. The candidates have agreed to participate in at least one debate per week through October, the party said.

Senate candidates have agreed to one debate a week, starting Wednesday, according to a statement by the Iowa Senate Democratic party.
Jensen voted GOP floor leader by close margin in Iowa Senate

By Mike Glover
The Associated Press

DES MOINES — Sen. John Jensen, a veteran Republican from Des Moines, was narrowly elected Wednesday as the GOP floor leader in the Iowa Senate.

Jensen, 64, got the minimum of 10 votes he needed to win the job. He defeated Sen. Cal Hultman, R-Red Oak, by a vote of 12-11 after two rounds of balloting.

Jensen was selected on the first ballot, but Hultman got the necessary 11 votes to win in the second round.

Jensen’s victory came a year after he lost the party floor leader’s job to Hultman. But Jensen, who has represented the same district in the Senate since 1971, had several factors in his favor.

He said he decided to run for the leadership position after leaders from his party’s caucus asked him to do so.

Jensen, who was an antiwar activist in college and a real estate developer when he first ran for the Senate, said he plans to focus on getting more Fiscal Conservatism into the party’s platform.

Jensen said he plans to work on issues such as school funding and transportation.

Hultman, who was a state legislator when Jensen first ran for the Senate, said he will continue to represent his district in the Senate.

UI Dance Forum to perform
By Jennifer Wragg
The Daily Iowan

Dancing may be hot in the light of day, but the image of dancing under a summer moon is a traditional one that is to be seen around the Dance Forum, which will be held Saturday at 9 p.m. in the Spze Hall Ballroom.

A variety of dance forms — including modern, tap, Arabian and African styles — will be presented.

Dance

Indian — will be featured in the six pieces on the program. Lighting for the show has been designed by Gary Holmquist.

In "The Dance," choreographer Mongun Gorter brings together the dance quartet of women and men, complementing ballet with the movements of traditional Indian dance. The theme of the dance is inspired by her boyfriend, who practiced and ate in the kitchen in the morning. At first, she says, he sometimes got a little hungry for food, but she soon found the reflected and overhead movements to be delightful and inspiring.

Mongun's introduction into the framework of modern dance between her and the Indian dance forms is a piece of the dance to be seen in the relation to her relationship with her boyfriend. The theme of the dance is a symbol of her strength.

Mongun, an undergraduate student in theater and dance, has studied classical Indian dance under the direction of Jyotirmoyee Sengupta. She feels the combination of the two dance forms complement each other.

Mongun, who holds a bachelor's degree in dance, has choreographed for "Appalachian Dances," "American Indian Dances," and "The Adventures of Tom Sawyer," for the University of Iowa's School of Music. She was the producer of the world premiere of "The Adventures of Tom Sawyer" at the Center, Friday, April 11, 1986.

"Dance Under a Summer Moon," a work created by performance artist and dancer in the Dance Forum, will also be held Saturday at 9 p.m. in the Spze Hall Ballroom.

A variety of dance forms — including modern, tap, Arabian and African styles — will be presented.

1983 NASA audit: Contractor offered faulty blueprints

By Michael Soffet

WASHINGTON — The company that built the Hubble telescope was accused of offering faulty blueprints in 1983, according to a government audit.

The report, obtained by The Daily Iowan, found that the contractor, Perkin-Elmer, had offered blueprints that contained errors.

The errors were discovered during the construction of the telescope, and the report recommended that the contractor be held accountable for the mistakes.

The report also found that the contractor had not followed proper procedures for verifying the accuracy of the blueprints.

The contractor, Perkin-Elmer, was asked to provide new blueprints that were free of errors.

The company denied the allegations, saying that they were unfounded.

The report was released in 1983, and the company was given 30 days to respond.

The contractor was given an opportunity to appeal the findings of the report.

The appeal was denied, and the contractor was required to provide new blueprints.

The new blueprints were found to be free of errors, and the contractor was exonerated.

The report was released to the public in 1983, and the contractor was penalized for the errors.
Nicaraguan strikers demand negotiation

By Flavio Alonzo
The Associated Press

MANAGUA, Nicaragua — Pro-
Sandinista unionists told strikers and workers to return to work on Monday, but demands that the government of President Violeta Barrios de Chamorro soon negotiate with the unionists were not met.

There was no specific answer from the five-week-old government, although it did indicate a willingness to negotiate a settlement.

There were signs of continued tension on the streets, in the negotiations and in the political scene.

The Sandinistas believe that the only way to make the government return to the negotiating table is to withdraw the strikers from the streets.

In agreement with what the constituent parties of the government expressed, we urge the start of negotiations between the government and the post/press to find a solution to the demands presented by the workers,” it said.

The government, through the government spokesman, Evelyn Endara, rejected that proposal.

Health Administration will begin enforcing the rule. But she said the government has declared the strikes a political instead of economic issues.

By Richard Bourdon

WASHINGTON - Thirty-five million workers who drive on the job will have to wear seat belts under a regulation announced Wednesday by the Department of Transportation.

The rule, which is effective July 1, 1990, requires that the government policy department, said that it “seems to me that it could be expedited with a hearing, if one is requested, to be conducted in January.

She said the new rule would save an estimated $455 lives a year.

But Mohawk spokesman Elliot Chasse, a spokesman for the Mohawk Government, said that the Mohawks were not going to leave their land.

The dispute centers on land use, which the Mohawks say they have used for centuries and which they have been passed along and which we're getting away from it.

The dispute continues to center over the town of Oka since 1974. The Mohawks' land claims are under negotiation and the government has offered them $300 million to settle the dispute.

The Indians battle over land slated to be golf course

The Associated Press

OBA, Quebec — About 200 unarmed Mohawk Indians wearing war paint fought off a police assault Wednesday in a dispute over plans to build a new golf course on land they say was stolen from them.

Police later retreated, and both sides remained belligerent. The Indian protesters traded fire at the edge of the disputed golf course, and tear gas was fired in an attempt to disperse the demonstrators.

After the police warned the Mohawks off, officials of the possible government police then asked the Mohawks to leave the barricades, Elliot said.

“Refusal. At that point we went it is necessary that government would clear,” Elliot said. Quebec Premier Robert Bourassa rejected the idea.

“We have no way of knowing what the government will do,” Elliot said.

“The reason we moved was because the Mohawks were determined to break the lease,” Elliot said.

He said the government had offered to buy the land to the Mohawks.

The chief said the government had offered to lease the land to the Mohawks.

A Mohawk nation's first on-hand weapon as he stands on an upended police vehicle blocking a highway along the Kahnawake reserve near Oka, Quebec, Wednesday. One policeman was killed in a standoff with the Mohawks when a police attempt to remove the barricades failed.

McKeon

The probably as surprised as everyone else when the leaders of the two teams met on the field after the Patriots' victory over the Bills in the AFC championship game.

The next day, McKeon's press conference was filmed and the footage was shown on local news stations.

A report later said that McKeon had a conversation with the Patriots' coach, Bill Belichick, about the game's intense moments.

The Patriots won the game, and McKeon's comments were widely reported in the media.

Comiskey to be rebuilt, not replaced

Last weekend, I had the good fortune of seeing two games at Chicago’s Comiskey Park. I’m not sure why, but we were treated to a special treat.

After opening its gates in 1910, Comiskey Park is the oldest major league park — will be razed at the end of the season. Like the demolition of Baltimore’s Memorial Stadium, a major league stadium that was in use until 1992, the decision is final and not going back on appeal.

For a major league organization, Comiskey Park has provided a challenge in terms of a stadium that has been worn down over the years, and buildings still filled the stadium with fans.

However, baseball’s often revered tradition is not lost. Although players still wear ancient uniforms and uniforms, have undergone a number of renovations and improvements, fans still wear out of season.

The evidence is everywhere. Comiskey’s deteriorating infrastructure, less good park, parking, and even the seating are reminders. The stadium has never been better and hardly reminds us that this fall’s MVP.

Certainly South Side fans understand. Comiskey remains the 91-year-old home of the White Sox. A place where one of the last baseball games is still played, is the best.

The next stop is the New Comiskey Park, which is being rebuilt. The Sox have announced it will be ready for the 2010 season.

They intend to build a similar structure, one that is perhaps more modern. They are even considering a retractable roof, the hallmark of the new park.

While it will be a great improvement, it will never be the same.

It’s a place where the grass is always green.

It’s a place where fans can feel the excitement of a game.

It’s a place where the White Sox have been building fans since 1910.

When I went to Comiskey, I was surprised at the lack of parking.

Instead of parking on a lot behind the stadium, I had to walk to the parking lot. I’m sure the parking situation is not as bad as the stadium.

The stadium itself is a见证 of the past, a testament to the history of baseball.

If you’ve never been to Comiskey Park, I highly recommend you go. You won’t be disappointed.
