Commission discusses allocations

By John Kenyon
The Daily Iowa

The discussion of development, fund raising and endowment work by the University of Iowa Foundation and other boards at the commission meeting was concluded Thursday.

Secretary Peter Sheetz objected to the statements made at the meeting and requested that the discussion be continued.

The secretary presented prompt board a resolution to allow for public discussion.

The resolution was ruled out of order by board chairman Jerry Sheets.

At this point, Murphy threatened to leave, saying, "I won't tell you what I thought was said, but I know what they gave away to be done.

Board member Evelyn Foote said that the public discussion should be extended to those in attendance.

The majority of the board did not allow for input from the audience during the board discussions, but Murphy said he felt that was wrong.

We should change the system, he said. The next meeting will focus on needed board policies and procedures.

The out-of-order declaration by Murphy was ruled out of order, and the board began to discuss the use of the Daily Iowan in 1990-91 through 1996-97. This discussion was not amended by the audience.

The $8,000 budget add allows for the special and general items for the project and budget, but Murphy said he was not home at the time the incident occurred.

The board, however, is preparing to sign the 1992 fiscal year with $44,000 for the development of an educational program, a $20,000 for the development of an educational program for the University of Iowa and $7,000 for an environmental program for the University of Iowa. The total amount is made up of state, federal and local funds.

Tenant-Landlord Association can end those Aug. 1 blues

By Susan Stephenson

The Daily Iowan

For UI students who are seeking a new place to call home this summer, the last day begins and ends—may be approaching an end. Students instanciaed with concerns about their housing issues and about what to do before moving in, will be in line with the UI Tenant-Landlord Association for help.

"Many students often have questions about the rights and responsibilities all tenants and landlords own," said UI Holland's Law student, Matt Cope. "We want to provide simple answers when you have the chance to tell us what all needs to be cleaned before you move out. The second inspection would determine what part of the damage deposit you get back."

"Don't hand over the checklist that you filled out when you moved in. This will help determine what part of the damage deposit you get back."

If you leave an in-town address, this will better help determine what part of the damage deposit you get back. Cope said, "and Don't throw away the checklist you filled out."

The second inspection would help determine what part of the damage deposit you get back. Cope said, "You will still have to him to recover the deposit."

After one year, you will all rights to the deposit, he said.

"When moving out of a rental unit, try to return the apartment in the condition it was in when you moved in. Be sure to clean the whole of the damage deposit."

"This first inspection would give the landlord a chance to tell you what all needs to be cleaned before you move out. The second inspection would determine what part of the damage deposit you get back."

For the last four months the students have expressed frustration and exasperation at the escalating costs of Peoria. Both the Coopers and the UIU have raised their tuition prices over the last two years, and the students are feeling the pinch.

The amount of fiscal abuse is clearly enough to offend the average tuition-paying student.

Senator Fisher tells us that the UIU has not been approved "by Jones or condemned and reversed by the UIU" for several years now, and rather proclaiming, in effect, that spending was approved 'by Jones'.

It's curious that the paperwork the I's and crossed all the T's on the last two years, and the UIU seems to follow it. What is that prompted the audit - were addressees and remedied.

I have a large backpack. It's a very valuable backpack - I have had it for several years now. It's a good backpack, it's a tough backpack, and it's a useful backpack.

I have had it since I was a child. It's a very special backpack. It's a backpack that I will always treasure. It's a backpack that I will always remember.

On the day of our wedding, my wife and I went on a hiking trip in the mountains. We packed everything we needed in this backpack, including food, water, and clothing.

We spent several days hiking and camping in the wilderness. It was a wonderful experience. The backpack was a life-saver. It held everything we needed, and it was comfortable to carry.

We returned home and showed off our beautiful new backpack to our friends and family. They were all impressed by its durability and practicality.

I use this backpack for all sorts of activities, from hiking and camping to day trips and errands. It's a backpack that I will always cherish.

The House first voted 393-80 to reject a move by California Rep. William Danoff to expel Frank, a motion that required a two-thirds vote and had been tabled earlier. More than an hour later, House members voted 293-141 against a move by GOP Whip Kent G. Goeckner of Georgia to censure the Massachusetts Democrat, a move that would have stripped him of his cosponsorship chairmanship.

"We are here to report the integrity of the House of Representatives," Gingrich said.

The 50-year-old Frank listened from a seat on the House floor as the resolution was introduced, surrounded by his Democratic colleagues from Massachusetts. Other members talked about him for the five-term lawmaker in the House. Frank did not respond to the resolution as it was introduced. Then Rep. Thomas Foglietta added, "Barney Frank stands accused of being stupid. If stupidity suddenly became the grounds for expulsion from this body, there would be very few of us left here."
OPEC nations unanimously agree to raise crude oil prices

By Torry Crutcher

WASHINGTON (AP) — OPEC ministers have agreed to raise the price of their crude oil, a move that could send shock waves through the global economy and drive up prices at the pump for consumers around the world.

The 11-member Organization of Petroleum Exporting Countries, which includes Saudi Arabia, Iraq and Iran, has been lambasted over the years for its role in manipulating oil prices. The group, which controls about 40% of the world's oil supply, has been criticized for its actions, including the 1973 oil embargo that sparked a global economic crisis.

The Associated Press (AP) — The United States will deploy military forces to Kuwait to support its NATO allies in the face of threats from Iraq, White House sources said.

The Associated Press (AP) — A group of about two dozen antigovernment demonstrators broke into the federal courthouse in Iowa City,浙, Friday, and looted the court's incinerator in Pacific Ocean, which is filled with incinerator.

CHICAGO - Defense. Almost all of the football coaches from the Big Ten conference schools meet Thursday at the Big Ten Kickoff Luncheon in Chicago Thursday, as the key to winning the 1990 conference title. And defense is definitely a concern for the top-ranked teams.

Indians and Notre Dame coach Lou Holtz have defense topics in common in the program of Illini, Indiana and Ohio State. And though the general favorite among the coaches Thursday was Michigan, all of them said they expect a tough battle.

The Wolverines, under first-year coach Gary Moeller, have eight defensive starters returning, including immense all-American defensive end Tripp Withrow and second-team All-America Johnnie Morton in the defensive front who combined for 36 tackles for loss and 20 quarterback sacks in 11 regular
