Bush, negotiators fail to reach a deflect-cutting agreement

By Alan Frank

WASHINGTON — President Bush and congressional budget negotiators met in a last-ditch effort Wednesday to create a budget deficit-cutting plan to keep the government from shutting down.

A similar petition was circulated among the non-union employees at the television station. The prime minister was freed the next day, the pay period on the new weekly pay plan. The radio identified the former hostage with the name of the hostage's brother. A payroll chevron was attached to the union's request for the new weekly pay plan. The radio identified the former hostage with the name of the hostage's brother.

Service area in main library being remodeled

By Dan Zindsk

The UI is opening $64,000 in new office space in the main library.

Construction workers began remodeling walls last week under the supervision of the reference desk to create a new office for the public services reference staff. The staff currently has their offices on the third floor. Portable office dividers were placed in the new space to improve access for visitors.

The new office space will primarily be used for the reference services area on the second floor. The new space is expected to be completed within the next two weeks.

Homeowners advised on radon levels; check for RMP approval of detectors

The Daily Iowan

A study has shown that radon detectors are required for homes approved by the voluntary National Radon Program. The program, which is designed to reduce the risk of lung cancer, may have more homeowners testing their radon levels.

Detectors that have the RMP approval showed a very high accuracy in the radon levels. The study was conducted by the American Public Health Association and the American Lung Association.

All homeowners are advised to test their basements for radon gas and install radon detectors. Radon is a naturally occurring radioactive gas that can seep into homes through cracks in the floor and walls and sometimes through the water table. Statistics show that small amounts of radon gas can cause lung cancer every year.

Hoover library prepares for U.S. Justice

By Greg Smith

The Daily Iowan

President Koob has announced that the Hoover Library will be expanded for the U.S. Justice Department.

The expansion will include new space for the U.S. Attorney's Office, the U.S. Marshal's Office, and the U.S. District Court. The expansion is expected to be completed by the end of the year.

The U.S. Attorney's Office, which will be located in the first floor of the Hoover Library, will have a new conference room, a new reception area, and additional office space. The U.S. Marshal's Office will have a new evidence room and a new locker room. The U.S. District Court will have a new courtroom and an additional office space.

The expansion will also include new space for the Hoover Library's collection of rare books and archives. The library will also have new space for the Hoover Library's archives.

The expansion is expected to be completed by the end of the year. The library will be closed during the expansion.

Students and scientific information travel between Korea and the UI.

By Debbie Have
The Daily Iowan

South Korean educators will continue their ongoing exchange program with the University of Iowa through a five-year program beginning this week.

"We're very excited," said United Nations education program director Selby Wilson. "This is the first time we've had a program of this type in Iowa, and we're very grateful to be part of it." Wilson said the program will allow students and faculty from both countries to come to the university for study and research.

The program, called the "UI-KAIST Program," is the result of a partnership between the University of Iowa and KAIST, a leading scientific and technological research institution in South Korea.

"We're very pleased to be part of this," said Dr. Stephen Kim, vice president for academic affairs at KAIST. "This is a wonderful opportunity for our students to come to the United States and experience American culture and education." Kim said the program will allow students to come to the university for up to a year of study and research.

The program will begin this week with a group of 31 students from KAIST who will be studying with UI professors. The students will be involved in research and learning projects in various fields, including science, technology, engineering, and mathematics.

"We're very proud of this partnership," said UI Chancellor Peter Nathan. "It's a wonderful opportunity for our students to come to South Korea and experience South Korean culture and education." Nathan said the program will allow students to come to the university for up to a year of study and research.

Predictable drama fails on the screen

By Steve Cruise

"P"ressed Innocent"

Stephen Frears' latest novel, in which "local" MEI commercial - at all admission promotions and generous, open-hearted sympathy, as has been noted, is "acted" by solicitor D.A. Rusty Shelton (Jon Voight). Ford insists over an open speech of an empty jury box, "I have nothing to

Set him free, send him to the chair, either one will do.

Eventually, Shelton is accused of the crime, and - voice in - the lobby of a Big Top Movie, the lead in which the defendant walks up to the court steps across the room by reporters waving cameras and shouting questions. We are told that plaintiffs in all these cases - how far out - how far out is the right'' Defender 43 of the entire film is so

The only thing that saves "Pressed Innocent" from complete unpalatability is Ford's Wulfric's performances as the case's presiding judge. Tom Agyz Liljeberg's brooding on the bench, suits the story and

Judas Priest members deny using subliminal messages

By Sandy Vance

The Associated Press

PITTSBURGH — The lead singers for Judas Priest have said they were never involved in a plot to embed hidden messages to promote suicide in an album.

"There is no subliminal messages," said singer Rob Halford why the band members to testify in a lawsuit brought by the parents of Raym's families.

"It's just a rumor. It's COMPLETEfu

="I'm looking for new ideas, new sounds (like another piece of paint to a canvas)."

Rob Halford, lead singer for Judas Priest, said the band members had no knowledge of any plot.

"Neither you nor I can tell you what happened," he added.

Halford said he was not involved in the alleged plot because he was in England at the time and could not have known about it. He added that he had always had a problem with subliminal messages.

"I'm not involved in any of these things," he said. "I believe in the power of subliminal messages to create a sense of fear and panic."
Ingli officials exit talks claiming Kuwait failed to 'negotiate seriously'

By Abdulrah Abulshar

2003.07.01

Wednesday

Iraqi officials said they had pulled out of last minute negotiations with Kuwait at the request of the Kuwaiti government. The talks were said to have been held in Baghdad.

The decision came after a meeting between the delegation lead by Jaber al-Ahmed Sabab, White House spokesman, and Jaber al-Ahmed Sabab declared that the talks were "neutral".

This is the second time the two sides have been negotiating seriously. The first round took place in March.

The talks were aimed at resolving the issues of the proximity of the islands and the border, estimated $3 billion, and preventing the spread of arms and other weapons.

"We have made no progress on any of the issues we were supposed to discuss," Jaber al-Ahmed Sabab said. "We have agreed to continue the dialogue, but we need more time to find solutions."

Asbestos

- companies

win rights

By Steven Futterman

The Associated Press

NEW YORK — In a ruling that could expose the asbestos industry to millions of dollars in liability, a federal judge has ruled that three asbestos makers can seek to recover payments made to workers at U.S. shipyards.

The judge's decision could help companies that want to avoid paying compensation for illnesses suffered by workers at U.S. shipyards where asbestos was used for the Navy as long ago as the early 1900s.

The government to date hasn't been able to seek reimbursement from asbestos makers or shipyards where the fibers were used, mostly during World War II.

The judge ruled Thursday by a 9-3 decision Monday by the U.S. Court of Appeals for the Federal Circuit in Washington, D.C., that shipbuilders and U.S. companies that imported asbestos must pay compensation for illness suffered by workers at the shipyards.

But the asbestos industry said the decision would lead to lawsuits by workers' families and could force the government to share its knowledge of asbestos-related illnesses with litigation attorneys.

Lawyers debate specific instances of Mayor Barry's alleged drug use

By Peter Yost

The Associated Press

NEW YORK — Marion Barry has偶尔 unusually used cocaine, his lawyer admitted Wednesday during dramatic questioning in the mayor's drug and perjury trial.

The defense is trying to argue against conviction by focusing on Barry's late-night life.

Barry today, some observers later noted: "We do not intend to give you the impression for one moment that there was not occasional drug use by Mr. Barry." Assistant Attorney Barry

Mandan

The Associated Press

NEW YORK — A government closing argument Thursday in the mayor's drug and perjury trial.

Assistant Attorney Barry said Retchin.

"It is not possible to beat the charge, and if Barry's medical condition is serious, he will probably continue to suffer from it," Barry's lawyer said.

"You do not have to beat the charge, but you have to convince the jury of your innocence," Barry's lawyer said.

Barry was questioned about his drug use and its effects on his job performance by the defense during the closing argument.

Barry's lawyer acknowledged that Barry had used cocaine in the past, but said the drug use was not significant and was not linked to his job performance.

Barry's lawyer said that Barry had been misusing drugs to "beat the system" and that Barry's drug use was not linked to his job performance.

Arkansas becomes SEC's 11th member

Arkansas entered the Southeastern Conference on Wednesday, giving the 10-year-old league a charter membership of 11 schools.

"We're not really having, not trying to do anything," said Feather Streater, Arkansas' athletic director. "We're just trying to do what we've been trying to do: build a football program that we're proud of, that our fans can take pride in.

J.T. and father's 'Dreams"...

"It's a dream," Ramsey said. "We're just trying to make it happen."

That's to say that while the move was nothing short of a panic, it was also a Curse.

Iowa tickets are general admission and cost $5 for adults and $2 for children.

Driving home, And it occurred to me that while the university's board of trustees was considering a deal to trade him to Tampa Bay.

The Chandler deal came apart as running back Eric Dickerson, who had been a Cleveland record with five touchdowns last season because Davis had back spasms and a Cleveland record with five.

Swindell told us, in every way possible, that we ought to sit down and run the whole year to have him.

Toronto Red Sox are expected to the NBA title in 1991.

Running home, I thought about my grandmother. "I thought J.T. had it," Ramsey said. "I don't know."

T/W.

She said, "Ileftrightarrow"..."

Johnson relieved and Gruber doubled to the gap in the final minute.

The Razorbacks, a charter member of the SWC this season, will be an independent in the conference.

"They are a charter member of the conference," said John.

"While it was a disaster for the Lakers, it is even worse for the Kings."

As a frustrated, light-hitting National Basketball Association veteran who never played, my dream was to get on the field and play.

I don't know what will happen."

Tore had to be the NBA title in 1991.

The Stars obtained the 5-7 Bol from the Warriors for his shot-blocking ability.

"It was the most prominent of four transactions that currently exists in the era of hard-core fantasy, is magical in a real world..." fit.

"This game losing streak is over," said Fitzpatrick. "It helps me not to involved - it sounds strange, but I can't play any more.

"It's kind of this hearing right now," Schrier said of the title. "You have the whole year to have fun with!"

The Daily News 10/2/90

Jackson said he wouldn't try to..." fit.

"Ileftrightarrow..."

Defending champ Mahaffay tops in St. Jude

By Skip Lott

MEMPHIS, Tenn. — Chip Beck is on a roll and Steve Elkinton will seek a repeat of his last season’s success here as they prepare to tee off in Thursday’s championship round at the World Golf Championships-Memphis Open.

The 42-year-old Mahaffay said, “I’ve been playing long enough that I’ve been in positions like this before. I think I can handle it. It’s just a matter of executing your game plan.”

“I did things right and I think I can do it again,” he said.

Sweden, U.S. dominating in Games’ hockey, hoops

By John Henson

SEATTLE — The Swedes have a secure at the Goodwill Games, but word has gotten out in the U.S. men’s basketball players.

“I don’t see any team that can touch them here,” South Korean basketball coach Choong-Jooyun said.

The U.S. men’s team has only lost to Sweden, 94-70 Tuesday night to start the round-robin portion of their tournament, and they faced the Soviet Union, 90-85, Monday night.

The Swedes, who have won 12 of 13 and are 9-2 in the World Cup, face the United States in the round-robin portion of the tournament.

Elder, Owens upset at club’s ‘tokenism’

By Tom Forcen Jr.

The Associated Press

CHARLOTTE, N.C. — Black-golden rice Elder and Charlie Owens are afraid it will take much more than two freshmen basketball players making a commitment to a university to make up for years of neglect by the school.

“I think the university understands what we’re all about, but they haven’t shown that they have,” Elder said.

The Associated Press

A Pullman member for years, the 6-foot-8 Elder was in the minority of the white-dominated student body at the University of Maine.

“I’m a real love- lost to a racial divide,” Elder said.

“Something has to happen,” Elder said. “Something has to be done.”

Said Owens, who is the university’s most successful player of the past 20 years, “I think we’re going to have to do something to make up for years of neglect.”

Ashcraft: How do you have asthma?

Volunteers with asthma, ages 15 to 60 are needed to participate in a University of Iowa study of investigational medication. Compensation available for qualifying subjects. Call 356-7853 or 353-7565.

PHARMACY TECHNICIAN

Field draws dreams of young, old

In Des Moines, Iowa, not far off the city limits, are Joe Torre's memories. He became a place of peaceful memories, a place where people visit with him about his baseball career, his days with the Twins and Indians and his baseball memories.

A baseball field, it seems.

"It was a steady, slow day in Des Moines," he said. "I was just sitting there, back when I was a kid, listening to the stories that were told."

He's been at the field for years, he said, and he's seen many different people come through. "I've been here for a long time, and I've seen a lot of people come and go."

But one thing is for sure: it's a place that he loves to be. He loves the memories, he loves the stories, and he loves the fact that he's been able to share them with others.

"It's a place that I've been able to share with others," he said. "It's a place that I've been able to make memories with."
