UI given extension to consider appeasing harassment case

By Andrew Borerrei
The Daily Iowan

The deadline of the Aug. 19 hearing in the harassment case of Dr. Jean Jew was extended to give the university administrators more time to consider the extension.

The university's President, in a letter to Jew's lawyers, said he had been informed of a settlement was pending and would not discuss the case further.

The letter said that the settlement was "in the best interests of both parties" and that the settlement would be reached within the next 30 days.

The university had announced that it would allow Jew to continue teaching while the case was pending.

Bush unloada reserve oil to stability prices

Bush unloada reserve oil to stability prices

By Tom Rancz
The Associated Press

President Bush said on Friday that the United States has been able to reduce oil prices by releasing 50 million barrels of oil from its strategic reserve, in an effort to help stabilize oil prices.

Bush said the release of the oil will help reduce the high cost of oil and help the U.S. economy.

"The move is aimed at reducing the high cost of oil and helping the economy," Bush said. "We believe that by releasing 50 million barrels of oil, we can help stabilize oil prices and help the economy.

The release of the oil is part of a broader effort to help stabilize oil prices and reduce the high cost of oil, which has been a major concern for many Americans.

Bush also said that the release of the oil will help reduce the high cost of oil for many Americans and help stabilize the economy.

**Board ratifies state funds for program**

By Neal Pederson

The Daily Iowan

A new plan to direct state funds to support programs in the University of Iowa's College of Liberal Arts and Sciences was approved by the Board of Regents on Thursday.

The new plan is similar to the one that was rejected last week by the board when the instructional support division did not support it after being given away for students to use at their discretion.

By Jon Goldstein, client service coordinator for the UI, and Mary M. Larrabee, director of the UI's Cooperative Learning Center, the new plan was approved.

"The plan will help students in our college," Larrabee said. "We believe that students need to make their own decisions about how to use the funds, and we are looking forward to seeing how they will use them."
\textbf{Local lawn-care companies accused of false advertising}

By Asih Gohara
The Daily Iowan

These lawn-care companies operating in the Iowa City area have been brought to the attention of the Iowa City Code Enforcement Board and the Iowa Department of Agriculture and Land Stewardship, which have ruled that the companies violate Iowa’s Consumer Protection Act.

The companies, Iowa’s Best Background and Crystal Clear, have been accused of making false promises to customers in their advertising.

Iowa City’s Best Background, based in Iowa City, markets a lawn-care service that guarantees a free lawn care service if the customer is not satisfied.

Crystal Clear, based in Cedar Rapids, markets a lawn-care service that guarantees a free lawn care service if the customer is not satisfied.

\textbf{‘Death Warrant’ not just a movie for Astro}

Biggest screen in IC closes this spring; movegoers not exactly ‘wild’ about it

By Jim Snyder
The Daily Iowan

Iowa City movie lovers will soon have no place to go to see the big screen.

The Astro Theatre, 213 E. Washington St., home of the biggest movie screen in town, will close its doors for good this spring.

The theater was sold Aug. 1 to First National Bank, 204 E. Washington St., according to Jim Hanger, senior vice president of the bank.

The bank will expand its facilities in the theater building to accommodate a new bank branch.

The theater is considered a local landmark and is a popular spot for moviegoers.

The theater’s closing marks the end of an era for moviegoers in Iowa City.

Schwarzenegger delivers verdict on fitness in Iowa

By Mike Geiser
The Associated Press

IOWA CITY, Iowa (AP) — Arnold Schwarzenegger delivered a verdict on fitness in Iowa on Wednesday: It's a win.

The former California governor visited the University of Iowa to promote physical fitness in schools as part of his ongoing campaign to combat childhood obesity.

"I think we need to increase the fitness level in our schools," Schwarzenegger said. "We need to make sure that our children are healthy and that they understand the importance of exercise."

He said he was impressed by the university's facilities and programs, and encouraged students to stay active and pursue careers in the field.

"I'm very excited to be here at the University of Iowa," he said. "This is a great place to learn about fitness and healthy living."

Schwarzenegger also spoke about the importance of discipline and determination in achieving fitness goals.

"Fitness is not about instant gratification," he said. "It's about hard work and dedication."

Budget

Despite his positive message, Schwarzenegger also addressed concerns about funding for physical education programs.

"We need to make sure that schools have the resources they need to provide quality physical education," he said. "This includes properly trained teachers, equipment, and facilities."

Budget

For the 2019-2020 academic year, the University of Iowa allocated $5 million for physical education programs. This includes salaries for physical education teachers, maintenance of facilities, and purchases of equipment.

The university also offers a variety of extracurricular activities, such as intramural sports and clubs, to encourage students to stay active.

While there have been some challenges, such as budget cuts and increased demand for facilities, the university has made strides in promoting fitness and healthy living.

"We are committed to providing a comprehensive program that meets the needs of our students," said university president Bruce Harreld. "We will continue to work with our partners to ensure that everyone has access to quality physical education."

Appel

Van Allen selected to speak at space symposium in Paris

University News Services

James Van Allen, UI Career Pro-

fessor of Physics and Associate

Professor of Astronomy, has been

selected to deliver an address titled "The Outer Planets and their Moons: The Luxembourg Space Symposium, July 13-15, 2010 in Paris. The symposium is cosponsored by the European Space Agency and the Luxembourg Institute of Science and Technology. Van Allen is known for his work in the field of space exploration, and his lecture will focus on the latest discoveries in the study of the outer planets and their moons.

Soviet religion liberated from political repression

By Alan Cowan
The Associated Press

Soviet authorities, in their final Russo-Japanese war, in 1905, released the recruits to 500,000 free of charge. This was a time when pressure was increasing in the bicentenary of the revolution.

"Our people can't afford to quit, " said Mikhail Gorbachev, a member of the Nobel Peace Prize-winning "Bread and Peace" committee. 

The Soviet constitution has long been a matter of national pride, and in the past the Communist Party's ideological opposition to religion as the "opium of the masses" may have been exaggerated.

The law forbids the government from interfering with religious activities, but the legal status of religious organizations and their ability to register to study and worship in public schools is unclear.

Prosecution presents in Milken trial by this disbarment

The Associated Press

NEW YORK — Prosecutors seeking a stiff prison term for Michael Milken released their lengthy arguments to the sentencing judge today, urging him to compensate on the convicted financier's "swerving and serious crimes."

"The convictions demonstrate beyond any reasonable doubt that Milken was guilty of several serious crimes. He should be sentenced to a substantial term of imprisonment," the prosecution said.

Michael Milken

Guilty of swerving and serious crimes. He must be sentenced to a substantial term of imprisonment.

By NICK MILLER

A

Michael Milken guilty of swerving and serious crimes. He should be sentenced to a substantial term of imprisonment.

The prosecution cannot recommend a specific prison term, and Milken has wide discretion in choosing his privilege or. He did not contest the 4-year-old sentence.

Michael Milken's application for parole was denied by a state court. He was convicted of fraud, conspiracy and money laundering in 1989.

Good Luck!
Blood, pasta sauce and rock & roll: Scorsese’s ‘GoodFellas’ has it all

By Steve Cнесен

The Daily Low

Michael Scorsese’s ‘Good­Fellas’ is the best con­cept­ual film to open in Iowa City this year, truc­k­ing­er and more­na­tural than the cla­sics of a gen­eration earlier. The film is a fas­tion­able, and con­fed­er­a­tion­al­ly­inspired story of a kid in New York who makes his way to the top in the American gang­ster world. The story is told in several scenes, each de­scribed in a differ­ent genre.

The bizarre may be lurking under­neath the sur­face of what we see. And yet, the film’s con­ceptual­ity is a result of the director’s abil­ity to make an ex­plicit ex­pres­sion of his ex­perience of being in the world of the Maf­fia. The movie is a dream come true for Henry, a kid in New York who makes his way to the top in the American gang­ster world.

You can’t all be world class swim­mers; they’re all distressed of the same thing. The action, is marked by a trem­ble­ly, trem­ble­ly­inspired ex­per­i­ence of being in the world of the Maf­fia. The movie is a dream come true for Henry, a kid in New York who makes his way to the top in the American gang­ster world.

No resolution

The United Nations Security Council on Tuesday increased its multinational peacekeeping mission on Iraq by 14 in favor of 7, as the United States and Britain sought to postpone a vote on international condemnation of Iraq's continued occupation of Kuwait.

To Saddam Hussein: Were his forces in Kuwait by AFSCME soon after the regents slide by. When ever merit biweekly pay plan. It infuriates me break out within the next few is the basis for every move of decision-makers. If the recession with gas prices at $2 a gallon, which many...
Nuclear weapons treaty closer to joint resolution

By Barry Schwartz
The Associated Press

WASHINGTON — The United States and the Soviet Union appeared to be closing in on a formally binding pact to reduce conventional and long-range nuclear weapons that they proposed at the Geneva arms talks, several officials said.

The officials said the two sides were "on quite a few questions there is progress." They did not specify what those questions were.

Secretary of State James Baker, meeting with Foreign Minister Eduard Shevardnadze of the United States, New York early Wednesday, said U.S. troops also had considered using "non-military aircraft in the arena treaty, but no final decision has been reached." The officials said that both sides had agreed to continue the talks on a joint resolution to ban chemical weapons for six months.

The officials said that the United States and the Soviet Union were considering a joint resolution to ban chemical weapons for six months.

Allied raises question concerning U.S. distribution of economic aid

By Martin Crutslnger

WASHINGTON — U.S. allies raised serious questions Monday about America's economic aid program for countries hurt by the Persian Gulf war.

"We have serious concern about the formulation of this aid," said one U.S. official, who asked that his name not be used. "We have to make sure that we don't help the wrong people."

The official said the U.S. is in the process of setting up a new aid fund to help countries affected by the war. The fund will be used to help countries with economic problems and to provide humanitarian aid to people in need.

"We need to make sure that we don't give money to people who are not going to use it properly," the official said. "We need to make sure that we don't give money to people who are going to use it to support bad regimes."
Tagliabue wants some answers in Patriot harassment case

New Orleans - Take Meowis, the New Orleans Pussy cat, and ask her how much the New Orleans Police Department's *Sports Illustrated* commentator Paul Tagliabue is to blame for the two men early Wednesday who laid him out flat with a single punch to the face. The story is that Tagliabue made the decision to work a night game for a fear - speaking both New England sources and to Lew Glenn, quarterback for the Houston Oilers who made the decision - that Tagliabue has the right to discipline his boys. The Associated Press

"We're looking forward to the next season," said coach Teagle. "We're going to adjust and we're going to play a different game against any opponent."

The victory was a test for Coach Teagle, who stepped down as the team's head coach after an 0-10 season this year.

---

Magic Johnson

The Associated Press

INDIANAPOLIS — Magic Johnson was excommunicated with another name Wednesday, only it wasn't on the court.

Johnson voluntarily surrendered part of his salary to the Lakers to help the team pay for a substantial amount of his own salary, West said.

"We didn't have enough money under the cap to pick up Teagel's contract, and I think there's a substantial amount of my own salary," West said.

Under league rules, the team can only pay $11.5 million per year to all players.

Johnson is expected to make a decision about winning in the near future.

The team played double overtime against the Laker swingman who currently sits at the 20-20 mark in the Western Conference.

"He is the best team player ever," Johnson said in a statement.

Johnson, who was named MVP for the third time last season, said he was willing to give up a substantial amount of his salary to strengthen his team and to play in the NBA.

"I would have to give up a substantial amount of my salary," Johnson said.

The Lakers, who won the NBA championship five times in the 1980s, were eliminated by the Phoenix Suns in the Western Conference semifinals last season.

Soccer triumphs, 3-2; Lacrosse loses, 11-7

"We're looking forward to the next season," said coach Teagle. "We're going to adjust and we're going to play a different game against any opponent."
Gant comes back with 30-30 season
By Tom Nastassio
The Associated Press

ATLANTA — A year ago, Ron Gant was the last man on the last subway train out of the last baseball game of the last season. Now, the Atlanta Braves center fielder is a member of baseball's exclusive 30-30 club. "I've had a lot of 30's," said the 35-year-old Gant, recalling last season's five home runs when he wound up at the end of the Chipper Jones show. Atlanta's Latino heritage and its role in 75 games with the Braves.

That followed a renaissance season in 1998 in which Gant hit.283 with 19 home runs, 88 RBIs and 19 stolen bases as the Braves' second baseman.

The Braves were encouraged by his fielding, which shifted him to third during the spring of 1999 and, when that failed, he was sent to West Palm to learn center field.

The reason why I'm having such a good year is that my confidence and still 7, 7 a lot higher than 1998 and, when that field, he was sent to West Palm to learn center field.

Former prodigy Shriver planning her comeback

By Beth Harris
The Associated Press

INDIANAPOLIS — Pam Shriver wishes she could be back on the court against Jennifer Capriati with a history of victory.

At 16 years old, Shriver surged to the top of the world rankings with a victory over Capriati, but she needed surgery in October to remove a benign tumor in her right shoulder. She has won a total of 15 WTA Tour titles, three of them in major tournaments, including the 1982 Australian Open and the 1983 French Open.

Shriver started playing in tennis at age 4 and was introduced to the sport by her father, former world No. 1 Ken Shriver. She turned pro in 1982 at age 16 and reached the career-high singles ranking of No. 2 in 1983.

The 33-year-old Shriver, who lives in Madison, Wis., with her husband, former tennis pro Aaron Krickstein, said that since she has been diagnosed with a rare form of cancer, she has been focusing on her health and her family.

"I've been living my life for the last few months," Shriver said in a statement. "I've been working hard and trying to get back on the court as soon as possible."
Connor clears blues barriers

By Brett Ratner
The Daily Iowan

The general conception of the blues guitarist might be equated with a dueling frontman - a dashing, beat-up Foo Fighters type. It might seem odd, then, for a young woman from Iowa City to take the stage as an intense blues artist.
