**SJJC acquires GSS of misuse charges**

By Ann Healy

The Daily Iowan

The UI Student Judicial Court, a group of law students, accused of charges of misuse of UI Student Assembly Funds for political purposes, has been dissolved.

The court has been dissolved after the SJC (Student Judicial Council) addressed the matter in a meeting on Monday.

The SJC, which is made up of law students, investigated the misuse of the funds and found that the funds were used for political purposes.

**Next phase of war may use 3-pronged attack**

By Mike Glover

The Daily Iowan

The U.S. Army's "Allied Battle" concept has three elements for attacking the enemy's security. The concept starts with local forces attacking the enemy's deep rear by land and sea, engaging the enemy deep rear and compromising conventional and electronic warfacing weapons.

The three elements are:

1. **Air Assault**
   - Engages the enemy's rear area with airpower.
   - Network of integrated air and ground operations to destroy the enemy's deep rear area.
   - Supports other elements of the "Allied Battle" concept.

2. **Sea Assault**
   - Engages the enemy's rear area with naval power.
   - Supports other elements of the "Allied Battle" concept.

3. **Land Assault**
   - Engages the enemy's rear area with ground power.
   - Supports other elements of the "Allied Battle" concept.

Historical perspectives need to be broadened

By Ann Marie Williams
The Daily Iowan

Black parents must be prepared to tell their children how to handle their race because their children are taught white racial history. This is what Brooks, a local social worker and writer, believes.

Brooks spoke Friday afternoon as hundreds of community members gathered in the Women’s Room of the Iowa Women’s Business Network to hear Brooks’s speech. The network, which was founded by Black History Month, is an organization that facilitates the sharing of stories from the community.

Brooks informed the audience he does not believe the stories from his parents were accurate, which is why he wants to teach his children how to handle their race.

On the other hand, Cynthia Otis-Charton, will be speaking Friday night at Westlawn from 7 to 8:30 p.m. at the youth group, stemming from an incident that took place on Feb. 2, concerning how she obtained the ring, worth $820,260. She was supervised by loaned executives, analysis, and representing United Bank in advertising and promotions, recruitment, and training of all three divisions — the branch manager, general manager, and lending executive.

“I have a system that was developed at the Chicago Branch, Iowa, woman was a writer. In meeting A 0’W.

W. County” will speak about the Afro-centric movement in the classroom, with their children learn about Black history, of education, Brooks said.

Becoming Opportunities in John

3:30 p.m. — TV Forum 101 — Johnson County Convention Center — room 700

“Managing a Team under Stress” — Thomas J. Pollock, assistant director and assistant, sponsored by the Department of Journalism and Media Studies.

Kayenda spoke to United Way regarding the impact of health programs in the community.

Kayenda’s speech was focused on United Way’s efforts to create more pathways for people to access healthcare and basic needs.

Kayenda’s campaign responsibilities include overseeing the annual fundraising drive, supervising the execution of recruitment and training of essential volunteers, and creating a way to share best practices and lessons learned through presentations and the media.

Unsung hero, according to Kayenda, are the individuals who give their time and energy to ensure the success of United Way’s mission.

Ford grant used to help UI use multicultural information technology

By Leslie Davis
The Daily Iowan

The UI is currently implementing several programs and ideas with the assistance of a grant received from the Ford Foundation.

The grant was awarded in September to the University of Iowa's Diversity Program. It is intended to help the institution develop multicultural information systems that will assist students and faculty in their work.

The grant, which is a three-year project, will be used to fund a variety of initiatives, including the development of multicultural information systems, the creation of multicultural curriculums, and the provision of multicultural training for faculty and staff.

The grant is intended to help the University of Iowa become a more diverse and inclusive institution, and to help students and faculty actively participate in multicultural initiatives.

The grant is expected to have a significant impact on the University of Iowa, and is expected to help the institution become a leader in multicultural education and research.
Baltics

permit them to resolve these differences through dialogue. "Now we've made it very clear that we want to see the integration of the Baltic people for independence fulfilled, and we will continue to take that position in our relations with Soviet Union and other countries." He added that "the USSR is a partner in the process... that's very important to us."

We have a disagreement with the Soviet Union, but it's based not only on political aspects but also on economic, cultural and social aspects. We are trying to bring these differences together in dialogue.

Soviet army officials have told leaders in the Baltics they plan to 10 days of maneuvers this beginning Sunday. The Lithuanian parliament on Thursday approved a request to the government to send troops overseas in response to the dangers.

"We have a disagreement with the Soviet Union, but it's based not only on political aspects but also on economic, cultural and social aspects. We are trying to bring these differences together in dialogue."

The maneuvers come four weeks after soldiers of the Baltic peoples for independence for independence. The maneuvers began in Missouri Valley on April 6. The military officials in Moscow have refused to comment.

The maneuvers were criticized by the Baltic leaders for being a threat to stability in the region. However, the Latvian government has defended the maneuvers, saying they are necessary for self-defense.

"The maneuvers are a threat to stability in the region," said a Latvian official. "We do not accept any conditions for the withdrawal of our troops."

The Lithuanian government has given the go-ahead for RAGBRAI XIX, the annual bicycle ride across Iowa. The ride will begin in Bellevue on the Mississippi River.

According to the Arkansas Gazette, 140,000 cyclists and 200,000 spectators will be expected to participate in the 840-mile ride. The ride begins on July 21 and concludes on July 29.

"I'm excited to be a part of this event, which has become such an iconic part of our state," said Governor Asa Hutchinson. "This ride is a testament to the strength and resilience of the people of Iowa."

Branstad’s position for no taxes might sacrifice many programs

By Mike Glover

**The Associated Press**

**Des Moines** — By starting a very well-chosen words, Gov. Terry Branstad made his very explicit commitment to run for another term as Iowa’s governor. His message was not so much about a four-year term as it was about the state he像素 was determined to run from.

A lot of people were hearing that the governor — who has made his own gladness of issue campaign a part of his strategy for another term — might even exist. The words were simple enough, but their implications were clear: "I mean it," Branstad said. "I made it clear to them that major tax increases are not of the cards." That tended to very simply translate into not tax on last month. It has been wresting with nearly budget, problems that has left taxpayers in a distinctly awkward position.

They’ve been formal to find ways to eliminate another $60 million deficit by March. Even the laws in the budget that was rejected by the Senate on Thursday.

Iraqi divisions by as much as 88 percent. Although Cheney did not say when a ground assault by the allies, who are now poised to move away from the desert, would be launched, he did mention that the air campaign had been "estimated over 88 percent of Iraq’s air defense." It was a claim that the Iraqis had rejected, and a Soviet envoy traveled to Baghdad for talks.

Iraq said it would begin assembling its forces, simulating a major air-strike on the American military. In the air war, Iraqi claimed to have shot down 88 American columns, but their implications were clear. The politician’s campaign strategy was that the air campaign had been "estimated over 88 percent of Iraq’s air defense." It was a claim that the Iraqis had rejected, and a Soviet envoy traveled to Baghdad for talks.

The politician’s campaign strategy was that the air campaign had been "estimated over 88 percent of Iraq’s air defense." It was a claim that the Iraqis had rejected, and a Soviet envoy traveled to Baghdad for talks. **The political correctness surrounding the war is complicated.** Demo- 
cratic legislators believe the threat of the Iraqi regime to America is as real as any threat from Saddam Hussein. **The July 14 Bridge was destroyed by Iraqis and the Martens Bridge was damaged.**

The governor would have to find a very clever dodge to get out of the new taxes line, he should be careful of the four percent tax. From time to time, he’d go out of his way and ask people what they thought about the last tax increase. The first line of his campaign is a simple maneuver to see if the tax increase will go through. He’s already been warning for months that the next tax increase will be a very difficult sell.

As the Legislature stands, there is no way to move away from the 88 percent, unless the so-called "supermajority" of the voters to forget the state. The Legislature is going to be a very difficult sell. It’s already been warning for months that the next tax increase will be a very difficult sell.

Residents of Baghdad deprived of modern life
City endures without electricity, food

By Dipa Gargani
The Associated Press

BAGHDAD, Iraq — Relentless rocket fire has pounded the city of the Thousand and One Nights for more than a month. Damage to homes and public buildings is extensive. Residents cut off from the outside world have struggled to find food, water and medicine.

"We are suffering a lot," said Mohammed A’Ali, whose 18-year-old son was killed in a raid when he was with friends. "We have problems getting ammunition, medicine and food."

Near the market, século the 51-year-old al-Khadim mosque where President Saddam Hussein has often worshiped was a woman chatting at the top of her voice. She was a-might for 10 years," she said. "We are not going to die. They can't kill us."

About a dozen women and men stood in a group at the gate to Kosum Alavi, a 21-year-old resident of the area. "We really want to stay the way we are, but not under American order," she said.

"We like our leader. He's our hero," she said of the Saddam as officials of Information Ministry, who talked a group of journalists in a tour of Baghdad, said by. "But many Iraqis seem satisfied with a savoration existence, some lamenting to President Bush for his money."

Elsewhere, children could be seen warping toy rifles in much attacks in "Hezbollah.""To play with the air rifle," a woman shouted at the top of her voice.

As a Navy officer, you'll lead the adventure while gaining high-level experience that will help make you a competitive candidate for one of the world's highest industries. In addition to the professional advantages, nuclear-trained officers get an unparalleled benefits package, travel opportunities, promotions and a solid salary.

Find out more about the Navy Nuclear Propulsion Officer Candidate Program, and make your education start paying off today.

Call Navy Management Program:

1-800-228-6068 or 1-402-555-1576

HOW TO ENRICH YOUR EDUCATION BY $1,100 A MONTH.

If you're a math, engineering or physics student, you could be earning $1,100 a month during your junior and senior years.

This excellent opportunity is part of the Navy Nuclear Propulsion Officer Candidate Program. It is one of the most prestigious programs in the United States Navy.

You get a $4,000 bonus upon entrance into the program, and $2,000 more when you complete your nuclear training. You also receive a year of paid graduate-level training that's the most comprehensive in the world. And you acquire expertise with state-of-the-art nuclear reactor and propulsion plant technology.

Naval Nuclear Training Officers are required for the Navy's nuclear submarines and ships. The program is a means to obtaining a nuclear-powered submarine or ship. It is a challenging and demanding job, but it also offers a high level of responsibility.

You are expected to serve in a nuclear-powered submarine or a nuclear-powered surface ship. You can choose to serve in any of the Navy's nuclear-powered submarines or surface ships, and you will be stationed at a location that suits your interests.

As a nuclear-trained officer, you will be responsible for ensuring the safe and efficient operation of the nuclear system on your vessel. You will be involved in the design, construction, testing, operation and maintenance of the nuclear system.

You will work closely with other officers and sailors to ensure the safe and efficient operation of the vessel. You will be responsible for ensuring the safety of the ship, its crew and its passengers. You will be responsible for ensuring the proper operation of the nuclear system and you will be responsible for ensuring the safe and efficient operation of the vessel.

You will be responsible for ensuring the safety of the ship, its crew and its passengers. You will be responsible for ensuring the proper operation of the nuclear system and you will be responsible for ensuring the safe and efficient operation of the vessel.

**Latest ‘Medea’ interpretation lives up to classic standards**

By Henry Olsen

T he problem of rearranging a chorus in dance to make a dramatic statement is one that has been solved in many ways. In this case, the director has used the chorus to good effect, but the change in sequence at the start of the play makes it more confusing. The audience is not always involved, but the director is in his element in the last scene. The chorus is a very important part of the play, and must get the balance right.

The play, which is titled "Medea," is directed by John Matthewson. The chorus has been adapted from Euripides' play, "Medea."

Despite war, Mardi Gras set to roll

By Mary Foster

NEW ORLEANS - The beauifull, bustling street parade Mardi Gras line for streets this week only slightly tempered by war and recession.

The estimated lineups, reported as 90 percent occupancy last year, for the final four days of February, which coincides with the big Mardi Gras bash Thursday. Currents began Jan. 6.

The Persian Gulf war initially set it all, but it would really hurt Mardi Gras, and University of New Orleans president James McGee says, "People were worried that maybe they wouldn't celebrate, but mountains were huge, he said. "People were afraid of terrorism, but they knew they were going away from the country war, and they knew they had relations don't cost this far." This year's celebration will not match last year's when $456 million was spent around New Orleans and produced $414 million in local and state taxes, reported said.

Mardi Gras, French for Fat Tuesday, takes place throughtout the French Quarter. Monday through Friday is the major celebration day.

The University of New Orleans' 12th annual Mardi Gras Parade will be held Saturday. The parade is scheduled to begin at 3 p.m. at the main entrance to St. Louis Cathedral and end at the French Quarter.

The parade will feature floats, marching bands, and various groups, including the University of New Orleans' cheerleaders and dance teams.

The parade is sponsored by the University of New Orleans' Office of Student Activities and is open to the public.

Don't Delay! Final Week.

Feb. 13-16 at 8 p.m. Theatres, bars, and dance halls.

STRATEGIC DEFENSE INITIATIVE

Infatuation

The Strategic Defense Initiative has run its ugly head once again. The recent successes of the Patriot antimissile batteries have been interpreted by some as proof of the validity of RID. President Bush seems to echo this sentiment in his recent State of the Union address. He has announced the "incredible" success of the ballistc missile strikes, whatever their score. No doubt "hype" is a word that springs to mind.

Americans may feel it inappropriate to get carried away over the newspaper hoopla surrounding the latest missile defense test. When the joke comes from a public figure and draws in from the war, one can't help but view it differently than we would a costly bomb fired off by an RS Bagger. When the administration's enthusiasm in testing new technology, RID exists as a necessary, obvious illusion that is dispensed by惊喜.

Bush admires the use of the phrase "whose impact is to" to RID from obsessiveness brought on by the end of the Cold War. As originally conceived, RID would shoot down Iranian missiles and may have nuclear weapons or the capability to two ignore rather than attack other countries. Western republic has to gain by any means of developing a missile defense system. The "net win" for Western republic would be to look at a nuclear threat and become a more serious case against RID.

Inflation

The feasibility and effectiveness of RID is largely irrelevant to the current political climate. While it is true that the Cold War has vanished, a credible threat and the prevention of using technology rather than human intervention to resolve conflicts continue to make a strong case against RID. The political climate is more interested in having a missile defense system as part of national defense strategy.

In addition to the problems in using the success of Patriot missiles as an argument for RID, shooting down a single threat with a land-based Patriot missile is very different than downing dozens of ICBMs with space-based and not at all. The impossibility of the situation would not be resolved by attacking other countries. Western republic would be left as the only other way.

The current success of RID and the impact of the surge in national defense spending makes it imperative for RID to be finished with as much haste as possible. The money spent on RID is a waste of taxpayer's dollars.

While the war debate has eclipsed all other issues on campus, if you do not feel that the war is a waste of taxpayer’s dollars, you should take note of what is happening on Capitol Hill as well. Senator Burch has submitted a plan to Congress which could be a real boon to college students. The plan will provide all undergraduate students with a $5000 credit as part of the war-guaranteed student loans are distributed. The federal government would give GIS directly to schools to be used to defray the cost of financial aid to students. In return, the banks receive a "special allowance" of full percent for each dollar of student loans they make. The Treasury Hill will get out of the business. The student would get to keep the extra $5000 per year in (the $12 billion student loan surplus), and that money would go to students instead. Also, it would simplify the frustrating procedures of getting a student loan and eliminate the ballyhoo passing fee that students now pay.

As might be expected, banks aren’t thrilled to lose this large source of income. But Congress is moving at a snail’s pace to implement measures which could be a real boon to college students. A secession by graduate students now is hasty and inappropriate

To the Editor:

What the Senate thinks that soap operas are, because even a preschooler
has proven them wrong. While the Senate tries to determine who
in the crowd the president's role didn't want to take their
student senate was the only one
worst about, that is, what the
the president wouldn't want to
take their role, I'll state that
students, when the University
of the recent past, should be fruitful,
but not yielding. The Editor.

Lately, for example, students
at the University of Iowa, under the
Kistler and Wise, the President of
the Graduate and Auditing Committee,
was informed early in
the issue of travel funds, the entire UISA budget
would be frozen.

However, our own student government disgusted me. The daily tales of
back-stabbing, lying, incompetence, and outright financial and political
crisis of the recent past, should be fruitful,
and good. This is proven
by the recent victory of
Daddy Kistler's ancestor Troy Raper in the
Student Senate, which, by the
way, is paid for by
mandatory student fees.
The act of Nancy and Kistler to have a
great grand senates doesn't come from the insignificance of
the ASPURS, due to the
terrorism of a few individuals to accept such
ideas from other members of
the Graduate Senate. Nancy
and Wise, while saying that since
she didn't like him
she was obviously
untrue to life. The
Graduate Assembly Minnesota recently split from their student government;
thus such a
crisis of the recent past requires cooperation and
compromise of the three senates to compromise their
ineptness of the
current system.

Cheney: Allies seek time before next step

By Suzanne M. Schuetz

The Associated Press

SIGONELLA, Sicily — Defense Secretary Dick Cheney and Sen.-
tor John Warner, whose break-neck schedule had already reduced the.
ability of the two officials, detained for a few minutes with soldiers
there, had no more than two hours to prepare for the "fateful" week
in the Gulf war.

In a tense meeting with President Bush, Cheney said the air Cam-
pany had reduced the number of zero hour to push back the
Iraqi forces. But, he said, the weather had been so dif-
ferent that it was not suitable for a rainier.

Speaking with reporters aboard the aircraft, which emerged in
the press reports of the Cabinet meeting at Camp David, Md.

"We've got a lot of things to talk about when we meet with
Cheney and Powell. We're going to have the report of the
General joint Chiefs of Staff and the top Desert Storm commanders.\" They said the Iraqis were now asking for an end to the
Iraq War and that the Iraqis have been asking for an end to the
war.

"Now we've got to get going. It's got to come. But don't forget
Iraq. And don't forget Saudi Arabia. And don't forget Kuwait.
"We've got a lot of things to talk about when we meet with
Cheney and Powell. We're going to have the report of the
General joint Chiefs of Staff and the top Desert Storm commanders.\" They said the Iraqis were now asking for an end to the
Iraq War and that the Iraqis have been asking for an end to the
war.

Iraq War and that the Iraqis have been asking for an end to the
war.
Hawkeyes manhandle would-be spoilers

Oklahoma St., ASU no match for Iowa

By Jay Hendy

The Daily Iowa

The Hawkeyes were coming off a
1-00 loss to Oklahoma State. Iowa had
ended its road trip at 2-0, but some
would have liked to see a 1-00 road
win over the Sooners.

Iowa lost that battle, but it took a
lot of overtime to lose the game.

Iowa scored 57 points in the first
half, compared to 37 for Oklahoma
State. The Hawkeyes were leading
by 20 points at halftime.

Iowa's big lead held throughout
the game, but the Sooners made a
run in the second half to make it a
close game. Iowa held on to win,
104-100.

The Hawkeyes had a strong
offensive showing, with five players
scoring in double digits. Guard
Raymond Felton scored 19 points
for Iowa, while center Acie Earl
added 16 points.

The Sooners were led by guard
Derek Williams, who scored 23
points on 9-of-15 shooting.

Despite the loss, the Sooners
remained competitive throughout
the game. They fought back,
re bounded the ball well, and
scored 17 points in the last
minute of the game.

Iowa's defense was key in the
win, holding Oklahoma State to
just 100 points. The Hawkeyes
limited the Sooners to 46% shooting
from the field and 38% from the
bench.

Iowa's win sets up an interesting
matchup against the University of
Michigan in the Big Ten Tournament.

The Wolverines are currently 18-0
and have won their last 10 games.

The Big Ten Tournament begins
next week, and the Hawkeyes will
hope to repeat their performance
from last year's tournament, where
they won the championship.

Iowa's next game is against the
Michigan Wolverines, who are
ranked #2 in the nation. A win
against Michigan would be a
statement game for the Hawkeyes,
and could solidify their
qualifications for the NCAA
Tournament.

By Brad Litz

The Iowa Daily

Hawkeyes 14-pounder Troy Steiner helped Iowa hand No. 4 Arizona a 4-2 setback Saturday night at Carver-Hawkeye Arena.

The Hawkeye lightweight improved to 8-0 this season and moved up to No. 6 in the NCAA rankings.

"I just told my ball club that I
wouldn't be happy with this
team of ours," said Iowa head coach
Rick Barnhizer. "I'm not trying to
see that, but I think that's who
that's put together a pretty
young team."

Husker Invitationals: a success for Iowa

By Jon Vos
The Daily Iowan

The Iowa women’s track and field team compiled strong individual performances with some balance, a successful showing at the 600-meter meet and an overall victory for the Big Ten at the 600-meter race. The team came out with a total of 135 points, 30 behind the second-place finisher, the University of Illinois. The Hawkeyes have now won seven consecutive meets, and are ranked 15th nationally.

Women’s Track

Under the guidance of head coach Gary Hanson, the team put forth a solid performance. Hanson said, “About one third of the team in the country were at the 600-meter meet, and then it looked like it might fail. Garcia said: ‘But that was a real tough race as it was our meets last week, and we didn’t do it as this time.'”

If “we didn’t get off, he would have been in a high school kid in the field as in it. We did have a good day...”

In the 600-meter race, senior Joanne Leclaire left high school with a 1:54.16, second in the meet. Leclaire also took part in the 1,500-meter run, finishing with a time of 4:28.04. The team also put forth performances in the 4x100-meter relay and the 4x200-meter relay.

Hawkeyes rip SIU to stay undefeated

By Michael Watkins
The Daily Iowan

The Iowa men’s swimming and diving team continued its streak of dominance, topping Southern Illinois with a 168-135 victory in the Big Ten meet. The Hawkeyes have now won eight consecutive meets, and are ranked 13th nationally.

Men’s Swimming

The Hawkeyes, lead by three individual victories from Big Ten and national champion freestyler Andy Whiting, took part in an eight-person meet. The Hawkeyes put forth a solid performance, with a total of 138 points, 30 behind the second-place finisher, the University of Illinois. The team came out with a total of 135 points, 30 behind the second-place finisher, the University of Illinois. The Hawkeyes have now won seven consecutive meets, and are ranked 15th nationally.

"It looked on paper like they would really give us a good, tough meet, but everybody swam really well," said Whiting.

For the Hawkeyes, four of the nine victories were won by a margin of more than 20 points, with the team setting personal records in the 100-yard freestyle, 50-yard freestyle, 200-yard freestyle, and 400-yard freestyle.

"I was pleased with my time with my time in the first event, and how consistent I was," said Whiting.

"That’s the kind of meet we want to see," said Hawkeyes coach Andy Whiting. "We want to see our team come together and do what we’ve been trained to do."

Headbang horde rocks out
By Bryt Reiter
The Daily Iowan

Friday's performance by Pinna, Slashfinger and In the Presence of God in the HawkEye Arena was an experience that transcended merely listening to music. The sound, rather than beauty of the music, in the audience's attention on something that was beyond the music. From the moment the lights went down until the end of the concert, there was no one looking towards the stage or the band. Everyone was either sitting or standing, eyes closed, feeling the music and moving to the rhythm. The audience was an extension of the band, creating a collective experience that was beyond anything that could be described simply as a concert. There were no individuals, only a horde of people united by a shared love for music. It was an experience that left a lasting impression, reminding us of the power of music and the ability of an audience to create a community that transcends mere entertainment.
Brown pumps his way to top

By Bill Bernard
The Associated Press

CHARLOTTE, N.C. — Dee Brown is hoping to
match the Celtics' winning streak, but now he
aims to return to the playoffs for the first time in
five years. Brown missed the postseason last sea
son because of an elbow injury, but he is back and
playing his best basketball.

Brown has been named the NBA's Most Valua
ble Player for the second straight season. The 6-foot,
1-inch Brown, who had surgery on his right elbow
earlier this month, averaged 23.7 points per game
last season and led the league in scoring.

The 21-year-old Brown, who is in his fourth sea
son, has been a key player for the Celtics, who are
4-0 to start the season. He has scored at least 20
points in all four games so far.

"I'm just trying to do my job," Brown said. "I'm not
looking for anything. I'm just trying to play my best
basketball and help the team win."
Rebels not impressed by No. 2 Arkansas
UNLV stays unbeatable

The Associated Press
UNLV is still unbeatable, going on unbeatable.
On Sunday, the top-ranked Run-
ning Rebels won their 23rd straight
game, handing one of Arizona's two
left homes a 74-73 loss at Tucson-
ville, Ariz.

When there were questions about
how UNLV would do against a top-ranked opponent, on the road, they were all answered.
"They're a great team with great
talent. They need to get to the
NBA," Arizona center Oliver
Akinjode said.

Arkansas (23-2) had won 21 in a
row and led 36-34 at halftime, but
UNLV (20-5) started the second
half with a 15-2 run that gave the
Rebels a 60-32 lead with 16:19 to
play.

UNLV is trying to become the first
team go through a season unbeaten
and the first to win consecutive
national championships since
UNLV in 1990.

Virginia On Saturday. Virginia
is still No. 14 since 16-2
Sunday, would do
No. 2 to become the
top-ranked Run-
ners had won

And it set up an easy to master,
computer, the
computers that can display only 16 colors at once, the
Macintosh
technology that lets you personalize your work by

McClymonds played his second
game in his 44th start, and Duns
scored six points in the second
half, and McPherson had 9 of those
points in the second
half.

The Citadel closed
33-27 in the first half, but
retained by 2, not 3, when he drove
the baseline with six sec-
tion.1,000-point career of
in the Big Ten,
and Pat Graham and Eric has lost 43 straight conference

و

If you thought that finding a color Macintosh
system you could afford was just a dream, then the
new, affordable Macintosh LC is a dream come true.
The Macintosh LC is rich in color. Unlike many
computers that can display only 16 colors at once, the
Macintosh LC expands your palette of colors. It
also comes with a microphone and new sound input
technology that lets you personalize your work by
adding voice or other sounds.

Like every Macintosh
computer, the LC is easy to
set up and easy to master.
And it runs thousands of
available applications that all
work in the same, consistent
way—so once

You never see twice that you
play great defense run, and none that
field.

Apple introduces the Macintosh LC

North Carolina's Dennis Price and Virginia's John Crytby race for a
pass ball during the TarHeels' 75-60 win over No. 1 the Carolina
Saturday. Virginia has lost three straight.

For more information on the new Macintosh II, call 689-7300.

The color Macintosh II...

You've heard of the color Macintosh.
Now you can afford to dream in color.

If you learned one program, you're well on your way to learning them all. The Macintosh LC even lets you
share information with someone who uses a different
type of computer—thanks to the versatile Apple
SuperDrive," which can read from and write to
Macintosh II disk and Apple II floppy disks.

Take a look at the Macintosh LC and see what it
gives you. Then pinch yourself.

It's better than a dream—it's a
Macintosh.
