Probe finds no proof of Iran hostage deal

Jim Drinkard

Associated Press

WASHINGTON—The 1980 Reagan-Khalid campaign probably did not write the hostage deal with Iran but was the "outer limits" of propriety to its dealings with that regime, congressional investigators concluded Monday.

"We found no credible evidence to suggest that the campaign negotiated a deal similar to the one revealed by the Reagan-Khalid meeting yesterday," said the report issued by the Senate Foreign Relations subcommittee on the Near East and South-Central Asia.

"It is possible that the authors of the deal believed it was not a similar deal," the report said. "We can't say for certain that the report made by the Reagan-Khalid meeting was a different deal, but it is possible that was the case."

SURVIVING THE HOLIDAY

Guide to proper treatment of turkey, family

Jen Hayes

The Daily Iowan

When you're at this time, millions of Americans embark on the holiday season by shopping, cooking, and gathering with family. But one tradition stands out: the hefty bird that you're about to enter the oven. Turkey has been a central part of the Thanksgiving meal since the 19th century, when it was believed to have medicinal properties.

Yet, despite its importance, turkey can also be a source of conflict. Family members may have different opinions on how to cook the bird, leading to arguments and frustration. But fear not! Here are some tips for handling the holiday turkey:

1. Selecting the Turkey: Remember, turkey is the centerpiece of the Thanksgiving meal. It is essential to choose the right bird. Look for a turkey that is firm, heavy for its size, and free of bruises or soft spots.

2. Preparing the Turkey: Turkey should be roasted at a temperature of 325°F. The general rule of thumb is to roast turkey for 15 minutes per pound. Be sure to rub the turkey with a mixture of herbs and spices before roasting.

3. Carving the Turkey: When carving the turkey, it is important to use a sharp knife and to cut against the grain. This will help the meat stay moist and tender.

4. Storing the Turkey: Turkey should be stored in the refrigerator for up to two days before cooking. After cooking, it should be stored in the refrigerator for up to four days.

By following these tips, you can ensure that your Thanksgiving turkey will be a success. So, let's get cooking! (Note: This recipe is for a 12-pound turkey.)

Turkey, like most other things, is not for the fainthearted. But with some preparation and a bit of patience, you can turn this bird into a delicious feast for your family.

Vegetarian families looking forward to nontraditional repast

Molly Spann

The Daily Iowan

For many vegetarian families, the holidays can be a time of challenge. How can they celebrate Thanksgiving without eating turkey? Many vegetarian families have found creative solutions to this dilemma.

1. Sponsoring a Turkey Dinner: Some vegetarian families have found success by sponsoring a Turkey Dinner for those in need. This can be done by donating money to a local shelter or by hosting a dinner for the homeless.

2. Turkey Trot: Some vegetarian families have also found success by hosting a Turkey Trot. This can be a fun way to get some exercise and to celebrate the holiday.

3. Thanksgiving Potluck: Some vegetarian families have found success by hosting a Thanksgiving Potluck. This can be a fun way to celebrate the holiday with friends and family.

By following these tips, you can ensure that your Thanksgiving turkey will be a success. So, let's get cooking! (Note: This recipe is for a 12-pound turkey.)

TURKEYS OF THE YEAR

Catching the attention of all, the annual banquet and awards dinner for 1993 featured the prestigious 1993 National Turkey of the Year awards for 1992 Turkeys of the Year. This year's winners come from around the country, and in a press conference, they had added some spice, or more appropriately, stuffing to the public's appetite for details about the turkeys.

The category of politics has these two comedians, which should come as no surprise, considering it was an election year. This year, however, the comedians offered a plethora of political jokes in their collection of clowns during the banquet. Each clown provided a new angle on the issues of the day. In his speech, one clown expressed his support of the Republican candidate for the state of Iowa. The other clown, however, expressed his support of the Democratic candidate for the state of Iowa. The two clowns then began to spar, with each one trying to outshine the other in their delivery of jokes.

The banquet featured various other comedians, each with their own unique style. One comedian told a joke about a turkey who was trying to decide whether to vote for the Republican or the Democratic candidate. The turkey thought about it for a while and then decided to vote for the Democrat, as he thought the Democrats would be more likely to give him a good deal on his turkey.

The banquet also featured a variety of other speakers, including politicians, celebrities, and others who had something to say. The politicians spoke about the important issues of the day, and the celebrities shared their thoughts on various topics. Overall, it was a fun and informative event, with many laughs and insights to be had.

Notes:
- The event took place in the grand ballroom of the downtown hotel.
- The keynote speaker was a renowned politician known for his comedic style.
- The banquet featured a variety of foods, including self-serve stations and a sit-down meal.
- A silent auction and raffles were held to raise funds for a local charity.
- The event ended with a fireworks display outside the hotel.

TYNDALL revisited

We should all learn from Malcolm X

Most people find it difficult to reject a strongly held belief, especially if that belief is the foundation of their lives. When confronted with evidence that contradicts their beliefs, they often choose to ignore it. But finding the truth is easier when it is easier to open their minds and consider new ideas.

Malcolm X was a man who had a strong belief in the rights of African Americans. He believed that the only way to gain freedom was through direct action, and he was willing to fight for it. He was a man of strong convictions, and he was willing to stand up for what he believed in.

Malcolm X's beliefs were based on a deep sense of justice and a strong commitment to equality. He believed that all people were created equal, and he was willing to fight for that belief. He was a man of strong convictions, and he was willing to stand up for what he believed in.

Malcolm X's beliefs were based on a deep sense of justice and a strong commitment to equality. He believed that all people were created equal, and he was willing to fight for that belief. He was a man of strong convictions, and he was willing to stand up for what he believed in.

Bond issue to be decided
Dec. 8

William Pope
The Daily Iowan

On Dec. 8, voters will go to the polls to decide the fate of a $120 million bond issue requested by the Iowa City School District.

The bond issue is divided into two programs. Preparation 1 would issue $80 million to fund construction of a new elementary school, improvements to campus and maintenance of buildings. Preparation 2 would fund construction of a middle school, fund construction of an addition at West High, and new classrooms and band and orchestra rooms remodeled at City High.

Preparation 2 will only be implementable if Preparation 1 comes through.

Bond references require a 60 percent majority to pass. As of Tuesday, 69,399 votes had been counted in the bond referendum.

According to Secretary of State Terry Branstad, no signatures were required to file the bond referendum. This means that architects, teachers and parents who worked together in series of meetings to decide in what specific needs the children have and how they can be met.

"This need is for people who are kids in the schools," Grohe said. "We're looking for people who want to have some input in this improvement." Grohe also stated that the reason for the new construction projects is proven because it always provides space and room facilities.

The added space for the new elementary school is needed for three reasons: the new school will also be a "series of separate centers" because the gymnasium will be used as separate centers for sports. Grohe added that the design for the new school also takes in account the design problems at Grant Wood High School and transportation to City High in particular.

"I was very very comfortable with what they came up with," she said. "I think the design for City High is beautiful."

Children entering day care undergo stress, study shows

Sara Opatul
The Daily Iowan

With the constant struggle of day care in a modern society, some parents may think that they don't need the time to worry about their children's health.

However, a recent study by the Center of Nursing at the University Hospitals and Clinics shows that preschool children experience a significant amount of stress.

"We've had some classroom in preparation and the principal's investigation found that the children had been emotionally and it has been found in day care, that children experience if they are stressed," said Dr. Jane Craft, who leads the investigation.

"I don't expect to find that little children are under stress," Craft said. "I was surprised at the amount of stress." What was surprising is the amount of stress.

The initial aim of the two-year study, which involved 125 preschool children aged 3 and 4 and their mothers, was to determine the presence of preschool children in the stress of a child who had an emotional or behavioral abnormality.

The study measured these stressors from three groups of children: at-risk, children who had been assessed by the school psychologist, and children who were not at risk.

Researchers wanted to find out if the children's stress was related to emotional, behavior or social problems in the classroom.

McGinnis said the symptoms of depression and anxiety and the feeling of the hospital and the children were expected to be related to the children's stress.

"It's not rare to find that little children are under stress," Craft said. "I was surprised at the amount of stress." What was surprising is the amount of stress.

Though the long-term impacts of these stressors have not yet been determined, Craft said it may be the cause of problems.

"There are people who are responsible for these stressors and develop strategies for helping children cope with the stressors from their peers, parents, teachers, and other caregivers. The study measured these stressors from the three groups of children: at-risk, children who had been assessed by the school psychologist, and children who were not at risk.

If approved, the bond issue would likely be financed over a 10-year period at a cost of $170 per day in taxes for owners of property valued at $100,000, according to County Auditor Tom Grohe.

According to County Auditor Tom Grohe, 7,498 votes have been reported early today on the bond referendum. The total vote cast in the regular school election at City High will be decided tonight.

Those who wish to vote early in the election should do so in the Johnson County Auditor's Office, 400 S. Dubuque St.

The City School Board meeting will be held at 7:30 p.m. at the Johnson County Auditor's Office, 400 S. Dubuque St.

**Education not taken seriously in America**

**ANTIQUITY & MODERNITY**

**Education not taken seriously in America**

"The Gift of the Magi" is the result of the collaborative efforts of a team of young people, including students and volunteers. The gift of education is something that should be taken seriously, especially in America, where educational standards are often low. The story of "The Gift of the Magi" highlights the importance of education and the sacrifices that are often made to ensure that children receive a proper education. The story is a reminder of the value of education and the need to support our educational institutions to ensure that all children have access to a quality education.

In the United States, statistics show that many children do not have the resources to receive a proper education. This is a serious problem that needs to be addressed. There are many organizations and initiatives that are working to improve educational opportunities for children, but more needs to be done. It is important for individuals and communities to come together to support our educational system and ensure that all children have the opportunity to receive a quality education.

"The Gift of the Magi" is a powerful reminder of the importance of education and the sacrifices that are often made to ensure that children receive a proper education. It is a story that should be remembered and shared with others to raise awareness about the need to support our educational institutions and ensure that all children have access to a quality education.

In America, educational opportunities are not taken seriously enough. The educational system is often underfunded, and many students do not have access to quality education. This is a problem that needs to be addressed, and it is important for individuals and communities to come together to support our educational system and ensure that all children have access to a quality education.

---

**Don't let the holidays come too soon**

The holidays are a time for family, friends, and love. They are a time to come together and enjoy each other's company. However, in the rush of the holidays, it is easy to forget the true meaning of the season. The holidays are a time to appreciate the gifts that we have in our lives and to express gratitude for the love and support of those around us.

It is important to remember that the holidays are not just about material gifts. They are a time to come together as a community and to share the love and joy of the season. This is a time when we can offer each other kindness and generosity, and it is a time when we can express our gratitude for the blessings in our lives.

---
