U.S. to disarm Somali guerrillas, not end war

Patience in patients

A line of the nearly 10,000 students who received meningitis vaccinations fills out forms as they wait in line Friday at the Iowa City Public Clinic, Patrick Harney said the hard meningitis really isn’t a big problem. It’s when someone gets the wrong way and then goes up, that the immune system gets bad.

"It depends on what the situation is," Harney said. "If I’d just do that, then we usually don’t bother. But if you’re talking tics or something like that, then we check it out.

Harney said he normally reviews the hard meningitis after starts with good intentions.

"It’s just the problem is that there really isn’t a big problem. It’s when someone gets the wrong way and then goes up, that the immune system gets bad.

"It’s just the problem is that there really isn’t a big problem. It’s when someone gets the wrong way and then goes up, that the immune system gets bad.

Funds established to aid victims of IC trailer fire

A heat lamp in a pot cage saved the fire, investigators said.

One day before the tragic blaze claimed the life of a couple who lost all of their belongings in a mobile home, officials were speaking about the fire's cause.

"There were a few loose wires which I believe were the cause of the fire," said Iowa City Fire Department's Richard Wade.

According to Wade, the fire started in the pot cage and spread to the mobile home.

The couple, who lived in the home, was found dead in the fire.

Wade said that the fire was contained to the mobile home and that there were no other injuries.

The fire is currently under investigation, and the cause of the fire is still unknown.

ATHLETES INFECTED

Athletes infected with HIV not a risk to other players

The Institute for the Study of Athletics, in Iowa City, reports no risk to other players.

"There is a significant risk from contact with athletes who are HIV positive," said Dr. Joseph E. Brown, the institute's director.

According to Brown, athletes can be at risk for HIV transmission if they share needles, use street drugs, or receive transfusions.

He said that athletes should be screened for HIV before joining a team, and that teams should have a policy in place for dealing with HIV-positive athletes.

Bacterial Meningitis

A cluster of cases of bacterial meningitis in the Iowa City community has been reported.

The University of Iowa Health Care Department has established a hotline for anyone who has been exposed to a person with meningitis.

Parents are urged to contact their child's school to ensure that their child has been vaccinated.

The hotline number is 319-338-2588.

Community Credit Union

A fund has been established for the victims of the fire. Donations can be sent by check or money order to the Kelley and Kennedy Fire Fund, 617 Community Credit Union, Iowa City, IA 52244.

Fifth Street Fire

Although no injuries were reported, fire officials are expanding their investigation.

They are also offering a $2,000 reward for information leading to the arrest of the person(s) responsible for the fire.

SAFETY FIRST

A brochure of workplace safety is still available at the Iowa City Community Credit Union.

The brochure contains information on how to prevent workplace accidents and injuries.

Vaccination program called 'overwhelming success'

The University of Iowa's student health services director said this week's vaccination program was a "winning success" after almost 14,000 students received their shots.

The program was designed to vaccinate students against meningitis.

"We're very pleased with the turnout," said the director.

"The university has been proactive in terms of health and safety, and we're really a public health player." she added.

The success of the program was attributed to the university's efforts to inform students about the importance of vaccination.

With the success of the program, officials are calling for more vaccination efforts in the future.

Health officials are encouraging all students to get vaccinated against meningitis.

"We're still in need of more people to get vaccinated," said the director.

We must continue to work towards preventing meningitis and other diseases." she added.

Epidemic simulator being tested at UI

The computer program, designed by two UI staff members, helps epidemiology students study epidemics.

Jon Yates
The Daily
Jan. 18, 1988

This year, students planning to graduate in January will be surprised to find a dotted line stretching into the distance of the classroom. It is the epidemic simulator, a computer program designed to teach students about epidemics.

The program, developed by UI epidemiology students Jon Yates and Luscious Marten, simulates an outbreak of an epidemic such as smallpox or polio. Students can see how an epidemic grows and spreads, and how it can be controlled.

According to Yates, the program is designed to teach students about the concepts of epidemiology, such as the importance of controlling an outbreak and the importance of monitoring cases to prevent future outbreaks.

"The students are given a scenario, such as a school or a hospital, and they must decide what actions to take to control the epidemic," Yates said.

The program is being used by UI students in a course called "Epidemiology," which is taught by UI epidemiologist Dr. Jon Stone.

The program has been well received by students, who have found it to be an effective way to learn about epidemiology.

"It is a great tool for learning about epidemics," said UI student Mary Smith.

The epidemic simulator is a valuable resource for students studying epidemiology, and it is expected to be used in other courses as well.

Paul Rayburn, a UI epidemiologist, said, "This program has been very helpful in teaching our students about epidemiology. It is a great way to learn about the concepts of epidemiology, and it is easy to use."

Why should I wait in line at the computer lab when I can own a Macintosh for $15 a month?

Kevin Kavanagh

What allowed Kevin to own an Apple 'Macintosh' PowerBook' 145 computer for such a low monthly payment? The Apple Computer Loan! Kevin knew that owning the 'power and portability of a Macintosh PowerBook for his full course load and his work in the Civil Air Patrol was a smart thing to do. And the Apple Computer Loan was the smart way to do it: easy application, fast turnaround and low, flexible payment terms. So Kevin went to the only place that offers the Apple Computer Loan, his Apple Campus Reseller.

Macintosh. It's more than a present, it's a future.

ECONOMIC OPTIONS INVESTIGATED

Clinton transition team eyeing short-range plan

Clinton's economic advisories are looking at ways to stimulate the economy through job-creation plans.

Source: Associated Press

WASHINGTON - This week, President-elect Bill Clinton turned his sights on upgrading the economy, saying he's considering a range of options to stimu- late growth:

"We too early to tell which job-creation efforts will work," said a transition official this week. "We're looking at a wide range of options before we decide which kind of short-term package to propose."

Meanwhile, the transition team is expected to start announcing members of his economic team this week.

NEW YORKER REVEALS NEW INFORMATION

Nixon allegedly tried to link McGovern to assassination attempt on Gov. Wallace

Associated Press

WASHINGTON - The Nixon Watergate tapes show Richard Nixon favored planting McGovern literature at the National Archives to exploit the attempt on Alabama Gov. George Wallace, the New Yorker magazine reported Monday. Nixon and White House counsel Charles Colson discussed how to plant information in the White House for political gain within hours of the May 13, 1972, shooting of the New Yorker said in a story released Sunday. They were unable to plant material from Democrat George McGovern's presidential campaign because the FBI moved to quickly seize the tape in the attempt on the apartment of McGovern Attorney Arthur Bremer, the magazine article by Seymour M. Hersh said. The New Yorker said that the idea progressed as far as planting McGovern literature at the National Archives. Nixon complained about the timing of the attempted assassination of Wallace in the context of his attempt to damage McGovern, the article said.

China's arms activities steps into high gear

Jim DeLaski
Associated Press
WASHINGTON — China is reported to have stepped up arms
production, apparently fearing that the
incoming administration might try to take a harder line
against its sovereignty claims.

The arms activity — with China in the news for a
number of reasons, including revelations of
infighting among its top leaders — is possibly
related to a number of security concerns.

For instance, China is said to have stepped up production of high-technology nuclear weapons guidance systems. This is believed to be a sign of growing tension with the United States over the North Korean nuclear weapons program.

China is also said to have increased its production of high-precision guided weapons, including air-to-surface missiles and cruise missiles, which could be used against the United States.

The Chinese are also believed to be increasing their production of advanced missiles, including those capable of carrying nuclear warheads.

China is also believed to be stepping up its production of cruise missiles, which could be used against the United States.

China is also believed to be increasing its production of advanced missiles, including those capable of carrying nuclear warheads.

WOMEN: Iowa upsets No. 4 Terps

Continued from Page 10

twenty-second century, the Terrapins threw the ball away to score and go home at halftime, but the North Carolina State defense, which had allowed just 18 points in their last two games, held the Terps scoreless in the second half, holding them to just 11 points.

Iowa used a 17-0 run in the final 5:20 to pull away and seal the victory, with the Hawkeyes outrebounding the Terps 44-23 and registering 20 assists to 10 turnovers.

Besides Murray’s 16, Jay Webb added 10 points and 12 rebounds for Iowa, and the Hawkeyes’ defense held the Terps to just 37.4 percent shooting from the field.

AMANA: Opposing coaches like Hawkeyes

Continued from Page 10

Bob Knight, the legendary basketball coach at Indiana University, praised the Hawkeyes after the game, saying, “The Hawkeyes are a hard-working team and they拼ed well today. They played a solid game from start to finish.”

Knight added that his team had a tough time containing Iowa’s strong defense, which held the Hoosiers to just 38 points.

Barry Bonds’ Stats

Bonds’ stats show that he had a successful season at the plate, hitting .385 with 41 home runs and 101 RBIs, but the Giants’ offense struggled as a whole, with only 724 runs scored in 162 games.

Barry Bonds

Bonds is a seven-time All-Star and has been a dominant presence in the league for many years.

The Giants’ offense struggled as a whole, with only 724 runs scored in 162 games.

Bonds’ stats show that he had a successful season at the plate, hitting .385 with 41 home runs and 101 RBIs.

In the fall of 1990, Bonds was traded to the Giants in a deal that included pitchers John Montefusco and Dave Dravecky.

The Giants were hoping to win the World Series that year, but despite Bonds’ efforts, they lost in the World Series to the Cincinnati Reds.

Bonds’ stats show that he had a successful season at the plate, hitting .385 with 41 home runs and 101 RBIs, but the Giants’ offense struggled as a whole, with only 724 runs scored in 162 games.

U.S. wins back Davis Cup

The Daily Iowan - Iowa City, Iowa - Monday, December 7, 1992 - A.

owa's 14-year-old senior, Matt Smith, won the men's singles, 3-1, and junior Nick Smith, 3-2, to give the Hawkeyes their first Davis Cup title in 19 years.

The Hawkeyes defeated Canada 4-1 in the first round and beat Switzerland 3-2 in the second round to advance to the finals. They then defeated defending Big Ten champion Michigan 4-1 to win the title.

For Iowa, it was a historic day, as the Hawkeyes won the Davis Cup for the first time since 1973.

The Hawkeyes won the title in part due to the performance of Smith, who won the men's singles championship with a 6-3, 6-4, 6-4 victory over Canadian captain Bob Ferrie.

Smith's victory, coupled with the 6-3, 6-4, 6-4 win of junior Nick Smith over Swiss captain Johann Rainer, gave Iowa a 3-1 lead going into the final day of play.

Smith's victory was a crucial one, as the Hawkeyes needed to win two of the three singles matches to secure the title.

In the final match, senior Matt Smith defeated Swiss captain Johann Rainer, 6-2, 6-4, 6-4, to give Iowa the 4-1 victory and the Davis Cup championship.

The Hawkeyes will now be represented in the 1993 Davis Cup by Smith and junior Nick Smith, who will defend their title against the world's best tennis players.

Smith's win was a testament to his hard work and dedication.

"I've been working on my game for a long time," Smith said.

"I've been practicing and playing a lot of matches to get to this point."

James West

The Daily Iowan

The show raised several issues such as the need for more women's roles in the real world, the importance of supporting those dreams, and the need for more women's rights. However, the show was not meant to be a true prediction of our future but rather a dramatic interpretation of the events that occurred. It was a brave play that focused on the theme of love and the power of the human spirit.
