UI professor attempts to 'personalize' class

Molly Spence

Taking his students on field trips and keeping his class size small are just two of the ways he tries to ensure that students in the geology department feel like they know him.

Dick Baker, professor

"I really enjoy the personal contact. That's what's exciting to me about teaching," Dick Baker, professor in the geology department said.

He limits the class size and talks to the students individually.

Baker also has the students involved in the ring of the class.

"One of the reasons I went into geology because I didn't want to be stuck in a lab," Baker said. "I'm an outdoors person. I've always loved the outdoors and thought that geology was a great way to get out and see the world."

Baker continued the intellectual side of teaching by emphasizing the importance of geology students and faculty in their own unique ways.

"We need to need to focus our attention on the students and faculty by giving them a place to meet and discuss their work in an informal setting," Baker said.

An important component of his teaching is that he does not have personal beliefs in the classroom, he said.

"I try to contribute to the intellectual side of geology. Baker said his main focus is to teach the students basic knowledge in the classroom and that is the most important thing to get students excited about the environment."}

Metro & Iowa
Transportation's future topic of recent forum in IC

South Dakota State Penitentiary riot found to be spontaneous event by probe

Dennis Gale

The Daily News

Monday, May 4

A car, the transportation concern "alternative mode rise become a reality as traffic wanted," said District Attorney Denni. "It's the fact that City Downtown members are concerned this," he added.

"We know that this incident was not started by a few sources who wanted to make a change," said Denni in a statement answering various questions.

Transportation's future topic of recent forum in IC

Dave Strahan

The Daily News

Friday's public forum regarding Iowa City transportation future postponed.

About 40 concerned citizens showed up at the Iowa City Public Library on Friday to hear panelists about the topic of Iowa City transportation future. The event had been postponed.

"My interest is in priest travel," said one panelist. "I am looking for Iowa City to consider the option of a bus service that could connect the downtown area with the University of Iowa campus."

Harlan, executive director of the Iowa City Council of Governments, was optimistic that alternative modes of travel such as carpooling and bike-sharing could help reduce traffic congestion in Iowa City.

"We are now being charged and fines imposed to the alternative commute model that we want to pursue," said Harlan. "But sometimes unfortunately we just need to have the conversation first."

Cheri Meehan, president of the Iowa City Bike Club, said that the transportation forum was an opportunity for people to voice their concerns about the issue of transportation.

"It comes down to a decision by the city," she said. "If we don't want them to drive, then we have to make public transportation more attractive, or we will face off with the trafficном."
Congress not expected to OK Bosnia policy

John L. Mello Jr. / Daily Iowan

The American people need to hear from the President of the United States why this is in our national interest, what the plan is, the fact that others are going to cooperate with us."

Richard Lugar, senator

Speaker of the House Tom Pendergast said yesterday that since the president had attended National Security Council meetings, Congress would be "very lean" in its later consideration of any action in the Balkans.

"Congress will approve any decision by the president to involve American troops in a host of situations abroad. Those troops must be trained and equipped," Pendergast said.

President Slobodan Milosevic of Yugoslavia and other signs of a 40th in Russian political parties were "dramatic" and "we reaching into military actions in Bosnia, when we need to get very serious about having European thinking of the Americans as warmongers in Europe as well," Clinton said.

"There is a chance to test \Mc
I don't see that in this regard," White House spokesman George Stephanopoulos said. "Clearly, this is something we are going to learn and see if it's going to work and want to work for."
The irremediability of truths—mainly ancient and revered—was never more evident than in 1995. The events of April, in part, were as clear as the white elephant's eye. If our troops are not in this war, if we intervene in Bosnia it will and must go and must be to be military, to be ruthless. It will require a...

Drug crimes increase prison population

Associated Press

WASHINGTON — An increase in drug crimes helped boost the nation’s prison population to a new high of 603,000 at the end of 1997, the Justice Department reported Friday.

The total number of federal and state prison inmates was up 8.1 percent from 1996. It marked the fourth consecutive yearly increase.

Federal investigators said increases in the numbers of drug-related offenders who are being sentenced to prison were outweighed by a 2.5 percent decline in state prison populations. The total prison population is the most complete available data.

One of the most crucial commitments is to uphold the rule of law in the Philippines, President Fidel Ramos said.

PHILIPPINES

The president has led his nation through many challenges, including the war in the southern island of Mindanao, which has been ongoing for decades. Ramos has been praised for his efforts to bring peace and stability to the region.

The president has also worked to improve the economy and has implemented a number of reforms to boost growth.

The Philippines is known for its rich culture and beautiful landscapes, and the president has sought to attract tourists and investors to the country. Ramos has been a strong advocate for education and has implemented programs to improve the quality of education in the country.

The president has been a leader in the fight against corruption and has implemented measures to combat graft and fraud. He has also been active in international affairs, including serving as an advocate for peace in the Middle East.

The president has been praised for his work in the Philippines and has been widely respected for his commitment to the betterment of his country. His leadership has been celebrated for its impact on the nation's development and for its positive influence on the world.

**Sun sets on Lakers**

Phoenix turns it up in OT, Spurs next

Associated Press

PHOENIX — Call them lucky, call them hot, call them whatever, the Phoenix Suns escaped from the Contact Center with a 105-100 win over the San Antonio Spurs on Sunday night to take a 3-2 lead in their Western Conference semifinal series. After losing the first two games in San Antonio, the Suns followed by winning two straight in Phoenix to even the series at 2-2. The win sets up a decisive Game 6 in Phoenix on Tuesday night.

The Suns have won three of the last four meetings between the teams, including a 112-104 win in Phoenix in Game 3 of the Western Conference finals in 1994. The Spurs have won only one of the last 10 meetings against the Suns.

The victory was the Suns' first win in 12 games, dating back to a 102-96 win over the Los Angeles Lakers on March 14. It was also the team's first win since a 123-111 victory over the Memphis Grizzlies on March 17. The Spurs have won four of their last five games and are looking to advance to the Western Conference finals for the first time since 2014.

The Suns have a chance to clinch the series with a win in Game 6, but they will have to do it without guard Devin Booker, who is listed as questionable due to a left ankle injury. Booker has been a key player for the Suns this season, averaging 26.2 points per game.

The Spurs have been able to win on the road this season, going 21-10 away from home, but they have struggled against the Suns in Phoenix, losing 10 of their last 12 meetings there.

The Suns have a chance to advance to the Western Conference finals for the first time since 1994, but they will have to do it without their starting five and without their bench players. The team has been dealing with injuries all season, including guard Devin Booker, who is listed as questionable due to a left ankle injury.

Continued from Page 10

"I think most of the time are pretty generous about that," Philadelphia Ranger coach Bob Baum said. "For us it's a chance for them to have a little extra confidence." The Flyers have too much talent to let this opportunity frightened them, and their leading scorer had three goals and two assists in the win.

**NBA: Cavs put away pesky Nets**

Continued from Page 10

Knick at & BOSTON 98 NEW YORK — Patrick Ewing just keeps coming along against the most difficult obstacles.

Ewing, who averaged 10 points against the Boston Celtics in the regular season, scored 30 more Sunday in the Celtics' 82-80 loss in the second-round series.

The Knick guard led the way with 20 points as the team got off to a hot start in the first half.

In the second-half, the Cavs controlled the game with 52 percent shooting from the field and 38 rebounds, including 18 on the boards, to outscore the Nets 54-40.

The Cavs, who made 12 of 30 shots from the field, finished off the Nets with only 41.6 percent of their field goals.

**Iowa seniors bid farewell with split vs. ISU**

Curtis Rigsby

The Daily Iowan

The Iowa baseball team split a doubleheader yesterday with the Iowa State Cyclones.

The Hawkeyes won the game, 7-4, and dropped the second, 4-5.

Iowa won the first game, 7-4, as the Hawkeyes scored the tying run with a one-out single at the bottom of the ninth.

Second baseman Gary Carter went 2-for-4 with a one-out single that drove in a run in the second. Carter had five hits in the series, including a 1-for-4 showing in the opener yesterday.

There was nothing early and often in Saturday's action, but Indiana Fighting Illini goalkeeper Charlie Beattie, who had 1-for-4 showing in the opener yesterday, was a hot hitter for the Hawkeyes.

"I knew I was going to get a good pitch to hit," said Eddie, a senior shortstop from Hawkeye. "I wanted to take advantage of it in the plate."

"I think we could have a good day in the field game."
**Sports**

Wheeler encouraged with Hawkeyes' effort

Iowa Hawkeyes who had a successful season was Peter Buhl, who took home the title of the 11th in the 150-meter hurdles with a time of 13.94. This was followed by the 400-meter hurdles, where Wheeler and the team came away with some encouraging results.

"We had an outstanding meet," Coach Tom. "We've been training hard and it paid off. We're very pleased with our early season efforts.'

"We were disappointed with our performance in the 800-meter run, but we still had a big meet for him," Wheeler said. "He really came out here and gave his best effort.

Other Hawkeyes that showed good form included Mark Wilson, who was the third place finisher in the 11th in the 400-meter hurdles with a time of 1.04. Finn McGinnis also had a strong run in the 800-meter run, coming in at 2:17.45.

"I'm very pleased with our early season efforts," said Coach Tom. "We've been training hard and it paid off. We're very pleased with our early season efforts.

The team was pleased with their performance in the 800-meter run, coming in at 2:17.45. Finn McGinnis also had a strong run in the 800-meter run, coming in at 2:17.45.

**MEN'S GOF**

Tourney slips away from Iowa

Sarah E. Kershaw

After playing two results at the Wisconsin Invitational on Saturday, in both the 11th and 400-meter hurdles, the Big Ten Champions Iowa men's track team found themselves in a tough spot.

"The Hawkeyes were tied for first place going into the meet, but a lack of team effort dropped them to 15th place," said Coach Tom. "We've been training hard and it paid off. We're very pleased with our early season efforts.

"I'm disappointed that we weren't able to place in the 800-meter run, which is a really big blow to our team," Coach Tom said. "We didn't get out and do it, and the other runners didn't do it either."

But the Hawkeyes did show some improvement later in the meet, as they placed third in the 400-meter hurdles with a time of 4:20.

"We were disappointed with our performance in the 800-meter run, but we still had a big meet for him," Wheeler said. "He really came out here and gave his best effort.

Other Hawkeyes that showed good form included Mark Wilson, who was the third place finisher in the 11th in the 400-meter hurdles with a time of 1.04. Finn McGinnis also had a strong run in the 800-meter run, coming in at 2:17.45.

UI Museum of Art lauds MFA projects

Michelle-Thyme Turley

The Daily Iowan

The day for diversity and individual voices are on the rise. It's May 1, 2000, and the University of Iowa Museum of Art (UI Museum of Art) is celebrating this moment with its annual spring exhibition, "UI MFA Projects 2000." The exhibition features student projects from the spring and summer semesters of 2000, and is open to the student body to publicize successful and unacknowledged talent.

The exhibition, in the Carver Gallery of the UI Museum of Art presents fine arts works from Prattmaning to photography to architecture which is available to the public.

"Four Stars," an intaglio by Richard Wright, an organic moving-plant image, features people in the background. The direction by Richard Wright is a contest won for the work. The three children in the foreground are continuously dressed in an "Iowan" shirt.

Manhattan 'perfect' for IC's boring summer nights

Ian Carroll
The Daily Iowan

The world's favorite season is here, kids! The UI campus is going to look like a city of纽约. There are more events going on, and more people are beginning to use the town instead of just walking around.

In the summer months, students who have been away from home for the school year will be returning. Many will be returning to the UI, which is the only place where they can really relax and enjoy themselves.

So what do we see now that the hot weather is upon us? TheUI is a lot calmer these days. The dorms are empty, and there are a lot of people on campus playing in the sun and enjoying the cooler weather.

What about summer months? Well, the days are usually longer and there is more time to spend outdoors.

In summary, the UI campus is a great place to be in the summer months.

Saga to End Soon

Judge to decide soon on Allen-Farrow case

Samuel M. Associated Press

NEW YORK - They're made for each other, they say. Now the actors and filmmaker said to be in a hot-house relationship of two years, Farrow and Allen, are getting ready to settle their dispute.

After months of media speculation and交易所的炒作 for the role of the couple, the couple myself, who has been described as the "most powerful couple in Hollywood," and his wife, Farrow, have decided to end their relationship.

In August, Allen said he was ready to start a new stage in his life. He announced his intention to divorce Farrow, and the couple has been living separately since then.

In a statement released today, Allen said, "I have been thinking a lot about my relationship with Farrow and have decided that it is in our best interest to end it."

Together, we hope to end our relationship in a manner that is both fair and respectful."

This news comes as a surprise to many fans and friends who have followed the couple for years. The couple has been together for over 20 years, and their relationship has been the subject of much speculation and debate.

In a joint statement, the couple said, "We will continue to support each other in our future endeavors."
