Florida city adopts flooded Iowa community
HOMEWOOD, Ill. (AP) — The village of Caldwell, which flooded the old railroad trestle, has been placed on the city's list of proposed projects. The proposal calls for $3 million in federal aid.

In suburban Chicago, a community in West Des Moines, and established a bank account to cover the cost of the flooded Midwest area.

Several states are preparing for a possible flood this year.

OTHER
Los Angeles, Calif. — A woman who died in a traffic accident was standing in a crosswalk when she was struck by a vehicle. The woman, identified as Mrs. Smith, was 35 years old.

She was standing in the crosswalk when a vehicle, identified as a car, struck her.

The woman, who had been walking in the crosswalk, was taken to the hospital and later died.

Other potential targets mentioned by members of the Fourth Shin Rand were leaders of the NAACP and the Urban League. Alternate of the same, Mr. Brown, and the Rev. Al Sharpton, a New York activist.

The incident occurred on a boulevard that runs through a major commercial area and is a busy thoroughfare.

**Red Cross provides shelter for victims**

Lynn M. Tefft

The Daily Iowan

For those needing from their homes, it’s a place of refuge. For those weary of heavy homes and springing hearts, it’s a place to offer help.

The American Red Cross was established in 1881, and in Coralville, it is reaching out to those who may need some help. That’s why the Red Cross is offering shelter in 8 locations.

“Virtually all basic needs that they may have are covered,” Coralville Coordinator Dan Rieman said of the shelter’s close to 300 residents at this time. “We offer showers, food, and medical supplies that can be loaned out to help with things like this.”

According to Marianne Fantase, Coralville’s Auxiliary for the Great West Area Red Cross, 17 people have been taken to the shelter since it was opened last Saturday. All residents have received, or are soon to receive, individual items that are available.

In addition, a nurse is on hand to check on those in need, with several medications and prescriptions, and even works with dentists with such things as insurance claims and dental facilities.

Rieman said the shelter is prepped with this information, with an army of volunteers ready to help.

To take a step further, the Red Cross is offering shelter to those in need. “It’s actually open to the public,” Rieman added. “Anybody can just walk in and get help.”

While the shelter is not running as full as it could be, it is open to those in need. “We’re just not sure how long that will last,” Rieman said.

When asked about the shelter’s current rate, Rieman said it was “approximately three-fourths.”

The shelter is currently receiving a lot of help, with many of the visitors being homeless, or those who have left their homes due to the floods.

For those who are bored, there is also a DVD library available.

The number of residents at the shelter is expected to change daily, with more help expected to arrive.

The heavy rains have not been an issue for those inside the shelter, as the shelter is located in a basement. “An air conditioner is all we need,” Rieman said.

Despite these difficulties, the shelter has been serving fewer needs, as the Red Cross is reaching out to those in need of help.

“Any river may change course under high flood conditions like we have,” Hallberg said, adding that shelter will now stay open longer.

“I think that 100 people are in that amount of water,” Hallberg said. “It’s possible that a river could change course under one more straight shot where we didn’t see it before.”

Rieman added that there is no need to worry, as the shelter will continue to offer help.

“Any river may change course under high flood conditions like we have,” Hallberg said, adding that shelter will now stay open longer.

“I think that 100 people are in that amount of water,” Hallberg said. “It’s possible that a river could change course under one more straight shot where we didn’t see it before.”

Rieman added that there is no need to worry, as the shelter will continue to offer help.

“The Mississippi is three, four and five feet above flood stage as it would normally be,” Rieman said.

**Cavityappers may take the pain out of visiting the dentist**

Michelle Vanderzanden

Associated Press

**LIVERMORE, Calif.**—Dentists looking for ways to make their offices more environmentally friendly have introduced a new tool to help:

"We’re exploring some different technologies," said Dr. John R. Smith, who has been exploring environmentally friendly tools for his practice.

"It’s a tool that makes it easier for the patient to have their teeth cleaned," Smith said.

One of the tools is a device that allows the dentist to trim the surface of the teeth using a tool that is very similar to a drill.

"I actually think it’s a great tool," Smith said.

"I think it’s a great tool because it’s very gentle on the teeth," Smith added.

When asked about the tool’s effect on the patients, Smith said, "It does a good job, but it’s not the best tool in the world."

**Local volunteers making best of bad situation**

**Molly Spunt**

The Daily Journal

"In the game of life, in terms of crises, for communities in pull together, like our red cross, we have a little red cross," said Molly Spunt, secretary to the Community Health Center. "We feel very heart-warming that we have some people who can come here. The first step is to have the red cross, but when a problem arises, the red cross is here to help us. It is a great relief for the people to have their emergency and fall in the bucket thing, "he said. Reason for this is that when you have people who have been completely exhausted, so we have to bring them to a safe place. We want to think about the people who are helping us, and we have to think about what we can do for them."

**Prince Vice President for Community Health Center**

"The red cross has been invaluable to all of us," said Prince, secretary to the Community Health Center. "We are always here to help the people in need, and we are always ready to help them."

**Several area businesses have not been able to support the community.** Lawler, president of the Heartland Inn, 57th and Dodge, said that the hotel was not able to help during the financing of the hotel. "We had to make sure that we didn't have to do anything that would make it easy for the hotel to be made fortunate to be here," he said. Mike Clark, a resident of the area, said that "We can't do without half of what we don't have." Prince said that "Tuesday was our first day on the radio station and we had to make the people in the community know we didn't have enough people we want to be disappearance."

**When an announcement on local radio and television stations led to Black and Trampaign.** Lawler said that "The city was used to volunteers, the people who come here, and we need to do something about the situation." About a week ago Tuesday, Lawler and the radio person were able to get our hour of time sending for us. "We had to use volunteers, the people who are here, and we need to do something about the situation." "We had to be very careful about what we did."

**All of our cars and trucks have been kept high and dry but instead of giving them new homes than keep moving them," said Prince.**

**Hours: Fri., Sat., Sun., and Mon.** The maintenance on our cars and trucks have been kept high and dry but instead of giving them new homes than keep moving them," said Lawler. "We had to be very careful about what we did."

**HEAVY TRAFFIC CAUSES CHANGES**

**UI allowing workers more flexible hours**

Administrators are trying to minimize disruption for employees who must commute, especially from the Cedar Rapids / Marion area.

The Daily Journal

Due to increased traffic flow caused by flooding, UI officials are urging department heads to be responsive to employees for requests related to this issue. "We're encouraging department heads to encourage employees to take advantage of the UI's carpooling system, especially in Cedar Rapids, because of traffic problems,"said Vice President for University Relations Anth Rhodes said UI officials are preparing to assess the impact of construction on employee commute, especially from the Cedar Rapids / Marion area, the disruption has been especially severe since portions of I-80 have closed for construction.

"Employees should contact their department heads for more information," said Rhodes.

**REPORT RELEASED**

**Construction grows by over 50% in IC**

One type of development, the creation of nonresidential building, grew by over 50% comparing to last year to 8,100 from 5,200, according to a report by Robert Murray of F.W. Dowd.

**Lesley Kennedy**

The Daily Iowan

Construction activity in Iowa City has grown by over 50% comparing to last year, according to a report by Robert Murray of F.W. Dowd.

"The F.W. Dowd Division of Iowan Consulting Inc. has prepared a report on May Projects for future construction in Johnson County showing further increases from last year's record-setting construction figures."

According to Robert Murray, "The president and chief executive of F.W. Dowd, nonresidential construction is a major part of our business, with an estimated $1,500,000,000 in 2000, up from $1,200,000,000 in 1999."

"We're working on a couple of major residential projects in the $1,200,000 to $1,500,000 range," said Murray. "There's been a lot of interest here. We opened up a subdivision last fall and we've sold about 14 lots." Housing market conditions are quite high demand in high demand, said Murray. "The product is more in short supply than the location, the lot.""

Flood victims to benefit from musical fund-raiser

Tad Faulk
The Daily Iowan

Here we go again to ponder if all this flooding has seen biblical implications. It's the kind of question that never goes away. Of course, it is still happening. But there are some things that can always be found in the aftermath of such events. 

Eastwood, Malkovich make 'Line of Fire' instant classic

Jan Corwin

The Daily Iowan

Factories are few factories to consider. The Country Factor's all are fairly close to the light-green field that far away against the sky. That makes us wonder whether the man has actually taken the bull by the horns. But we have to go through to be patriots of our own. We have to stay with the vision and the truth.

In New York, Kevin Catherin, executive director of the Lambs Legal Defense Fund, and his organization, the American Civil Liberties Union, the right project were prepared to join the relatives of the victims offering open speech by homosexuals or deportees in the justice decision. Catherin, a presidential candidate, Clinton promised to issue an executive order requiring the 50-year-old office of homophobia and homosexuality to.

"We the people very carefully," he said. "Let it like this.

Munson, Darren added some- thing to a good city officials bad made to businesses in use only a solution staff for protection returns to normal.

He signed a program declaration declaring that "any business or homes can be occupied or used for the conduct of ordinary businesses operations, because the city can't provide say, and there are no spectacular systems in downtown high-rise buildings.

Traffic packs North Dodge Highway to flooding. With Interstate 30 and U. S. 441 closed, Coralville neighbors and homeowners in the area are now being forced to use the Cedar River as the only way to travel in or out of the area. Additional residents and businesses owners in Coralville said they have made decisions about water levels and flooding. "They need to get into town, but I don't know how to tell them to go," VanWyk, who lives with her family in Coralville, said. "This is our only way to get to work, and when it's going to get back turned around, we

With flood waters closing several freeways on Highway 9, VanWyk said she also had a tough choice finding a place for her relatives to stay. "They were supposed to stay at a hotel, but that's out of the way," she said. "The worst place is right now out of the home of the flood."

"We've really found a room for them, but there aren't a lot of them open."

For businesses owners along the Corridor, the stagnant flood waters are becoming a nuisance. They are not, however, shutting down the city strip. "We're still open, and it's still going well today," Coralville City Administrator Kelly Hayworth said Thursday. "We'll still have some water, but it's looking like we might be seeing the light at the end of the tunnel."

It is, however, a long tunnel. According to Hayworth, when the waters recede, the city will remove and businesses owners will likely be required to clean up. "The city needs to take this seriously," Hayworth said.

INFLUENCE

Continued from Page 1

tation," Hamer said in an inter-

Evidence of a gay panic was studied by a team of four at the University of Wisconsin. Thirty-three percent of the readers shared the same pattern variation in the title of one of the characteristics, a region that may have 100 or more individuals. Hayworth said his lab at the National Center for Transgender Equality is now trying to identify the specific gay group that may be bullied.

A similar study searching for a larger national sample, if females are now underway, he said.

The study is at least the fourth in recent years to identify possible biological explanations for sexual orientation and strengthens the argument by many in the gay community that homosexuality is not a choice, but of biological destiny.

Members of the gay community said the new study could help to both promote the perception of homosexuality in America.

"It may help people look at this as a genuine issue," that is national," said Richard Neely, one of the Gay Rights of America and Friends of Lesbians and Gays in Washington. "If you believe in God or nature, that's what homosexuality is for.

Latin American, Spanish legislators urge Castro to resign

The Washington Post

CARACAS, Venezuela (AP) — About 200 legislators from Latin American and Caribbean nations asked President Fidel Castro to resign, saying the Communist leader should step down with a "true" sense of courage and generality."

The appeal was published Thursday in the Caracas newspaper El Universal as Castro attended the opening of the Latin American parliament in Brazil. The two-day meeting will gather leaders from Spain, Portugal and their former colonies.

The letter to Castro listed the names of 194 legislators from 15 Latin American nations, including Panama, Puerto Rico, Spain and Venezuela. Also listed were officers of the Venezuela-based Cuban-American National Foundation.

At least 75,000 starving on Liberian battlefront

MOGADISHU, Liberia (AP) — Tens of thousands of people are starving to death on the front lines of Liberia's civil war.

Women and children are the main victims in the west African nation's 3 1/2-year conflict, U.N. and other aid workers say.

"Between 75,000 and 100,000 displaced Liberians and Sierra Leone refugees are hunger-sticken at Kailahun near the northeastern border with Sierra Leone," said Denise Duaphina of the Lutheran World Service.

Doctors from the U.N. World Health Organization who visited the area said 15 to 20 people were dying a day, and the number could rise.

An offensive by rebels of the United Liberation Movement for Democracy in Liberia, who are pushing back government kills about 13 to 20 people per day, a day, and the number could rise.

British tabloids offer sensationalism at cheaper price

LONDON, England (AP) — Britain's newspapers are suddenly nudging their rivals out of business after a year of price cutting and a new wave in sensationalism.

The country's biggest-selling newspaper, the Daily Mail, said its sales were up 20 percent during the past year, and that it had made a profit for the first time in its history.

"A price war. The newspapers lured hundreds of thousands of readers and prompted immediate exchanges of insults among rival editors."

The sale began when Britain's biggest-selling daily, the Sun, cut its price by 5 pence, to 30 pence, or about 30 U.S. cents, for the rest of the summer.

"The biggest price cut in history of newspapers," the Sun trumpeted in a front-page headline.

But the next day the rival Daily Mirror said its sales were down 20 percent, from the normal 27 percent. It said the sale was for one day only, so readers could buy a "decent" newspaper, with more pages and no nudity.

The tabloid Daily Star stuck with its regular price, "only 75p."

"Even at 20 pence the old-fashioned Sun could hardly be described as a bargain," editor Brian Henchion said.

WHO working to end leprosy

GENEVA, Switzerland (AP) — The World Health Organization on Thursday announced a drive to eliminate the age-old scourge of leprosy by the end of the century.

Dr. Shaul Nooden, chief of WHO's leprosy unit, said a meeting of affected countries and groups working to eradicate the disease that a multi-drug treatment could eliminate the disease within six years.

Leprosy, which primarily attacks the skin and nerves, defies curable disease is contracted by close personal contact. About 3.1 million people worldwide are estimated to have leprosy.

Russian spies worry about checkups, job security

MOSCOW (AP) — Agents of the former KGB, the working class everywhere worry about low pay and job security. But most have no plans to come from the cold and get higher-paying civilian jobs.

Those were the findings of the intelligence agency's first nationwide survey, which was released this week.

"The overwhelming majority of our respondents said they would like to go on working, that they viewed their jobs as meaningful. But that meaning has ended," said Yegor Yekhoshin, chairman of a legislative committee that conducted a year-long study of Russia's foreign intelligence service.

It was the first such review of a Russian or Soviet agency by an outside group.

U.N. reaches no compromise with Iraq

BAGHDAD, Iraq (AP) — U.N. envoy Chris Patten met with Iraqi foreign minister on Thursday, but both sides made little headway in the talks.

Rail Director does not give details about talks with Foreign Minister Mohammed Saeed al-Mahdi over Iraq's refusal to allow United Nations inspectors to resume their work in Iraq.

The United Nations and Baghdad have been clashing for weeks over the issue, and the West has threatened military strikes if Iraq does not back down. Iraq denied Thursday to try and end the bombing.

Japanese quake death toll reaches 126

OKINAWA, Japan (AP) — With the latest toll finally out Thursday, workers dug through tons of dirt for a hotel believed to hold more than 30 people — victims of an earthquake whose force brought down landfills and raised crashing seas.

At least 126 bodies had been recovered and 85 people were still missing from Monday's quake, Japan's deadliest in decades.

People crossed burial mounds that required rescue teams to find some survivors or rescue the dead. Community centers and rescue headquarters were packed with people debris on the streets. Their few extra floors were packed.

About 85 percent of homes in the area were damaged or destroyed.

About 160,000 people were estimated to be without homes.

Recriminations food and water to remote areas of Okinawa, a small island in the Sea of Japan where more than 100 people died.

Finks to leave Saints post

Michael Karn

Associated Press

At New Orleans seven years ago, fighting for the Saints football season, Keith Byars was a defensive tackle who played both ways and was a helpful special teams player. With the Saints, he blossomed into a Pro Bowl draft pick. But now, after 12 seasons in New Orleans, Byars is leaving his career.

"I've get seven-plus years ofバイアス out of the system, not in the future," Byars said statement. "I'm not going to stick around, I'm not going to stay around and be a part of that organization."

GM said "the door would be open" if Byars decided to return to the team next year, the coach said.

"We've got seven-plus years ofバイアス out of the system, not in the future," Byars said statement. "I'm not going to stick around, I'm not going to stay around and be a part of that organization."

GM said "the door would be open" if Byars decided to return to the team next year, the coach said.

"We've got seven-plus years ofバイアス out of the system, not in the future," Byars said statement. "I'm not going to stick around, I'm not going to stay around and be a part of that organization."

GM said "the door would be open" if Byars decided to return to the team next year, the coach said.

"We've got seven-plus years ofバイアス out of the system, not in the future," Byars said statement. "I'm not going to stick around, I'm not going to stay around and be a part of that organization."

British Open-in-leader Greg Norman races to his birdie putt on the 16th green Thursday at Arden Hills, Georiga's.

Co-leader Norman confident

Bob Green

SANDWICH, England - Greg Norman emerged from showers and mist and drove today to the 14th for the first round in the British Open with a British Aus-

ternational and a couple of old-time

Normans, who came back from a 12-stroke deficit on the first hole with a last period of free strokes and a 4 and 3 at the back nine, shared the top spot with Mark Cal-

Wardle and Gary Evans of Britain, Mas-

ters champions Bernard Gallacher of Germany and Larry Mize were a single back at 77.

The two men seemed most likely to succeed in the 121rd Open, Nick Faldo and Greg Norman, were very close in the hunt.

Then, the Final Four, was a large group of 42 that also included Greg Norman of North America, Seve Ballesteros of Spain, Antonio Cano of Colombia, Chris Parry, John Deere, Donald Duval and Jack Nicklaus of the United States, who was just one stroke behind the Open's winner.

"I'm just not as good as my three predecessors and I'm not much of a leader," said Nicklaus. "But I have a lot of respect for these players. I want to be like them again next year."
