Local cyclist dies during RAGBRAI

Jon Yates

The Daily Iowan

Three people took a ride down the Iowa River Monday night so close they were missing in the water, and only got away by the grace of God.

Three boaters came within seconds of drowning Monday night after they were missing in the water along the Iowa River near Burlington. The Daily Iowan

The three, Shu Liu, 29, and John Liu, 31, and David Cheng, 31, all of Iowa City, have been charged with prohibited operation of a boat, a violation of emergency order, a class B charge punishable by a fine of up to $1,000 or 90 days in jail.

(between 10:00 AM and 10:59 PM)

Local cyclist dies during RAGBRAI

"It’s was a total loss," said Mendell, the owner of the bike shop.

Although the boaters were missing for nearly 10 minutes, they were able to get away by the grace of God.

One of the boaters, who was able to get out of the boat and was pulled up about immediately.

The accident occurred near the Burlington Street bridge. The three will be charged with prohibited operation of a boat.

Jon Demitnick of the Iowa City-Scott County Rescue Squad said the three boaters were missing in the water along the Iowa River near Burlington.

**Area farmers troubled by long-term problems**

**Thomas Wanstel**

The recent, summer rains have triggered a laudatory outpouring from Iowa County farmers, particularly those in the Johnson County area, as they revel in the relief from a long, dry, heat wave. However, for farmers in the northern part of the county, the mood is more somber.

"The rain was a blessing," said Gary Spencewick, who farms near of the City of Iowa, "but it doesn't help much when you're already in a rut.

Gary and his wife, Patti, have been farming for 15 years, and they said the recent rains have not been enough to relieve the stress they're feeling.

"We've been in a drought for almost two years," said Gary. "The rains have helped a little, but they haven't solved our problems.

Gary and Patti have been trying to stay positive, but the long, dry weather has taken a toll on their mental health.

"We're just trying to hold on," said Gary. "We're hoping for better weather soon.

For many farmers in Iowa County, the recent rains have not been enough to alleviate the stress they're feeling from the long, dry weather.

"We're just trying to hold on," said Gary. "We're hoping for better weather soon.

**Health officials warn of contaminated sand**

**Lynn M. Tefft**

While some may think there are few things to do with a sand dune, local health officials say the dune is contaminated and unsuitable for recreational use.

The dune is full of organisms which can cause all kinds of diseases, said Rolf Petersen, spokesperson for the Johnson County Department of Public Health. "And anything that's in the sand is in the water that's in the lake.

The sand is also a potential source of contamination for other areas, as it is exposed to the wind.

For people outside the City of Coralville, the Johnson County Board of Supervisors is working to develop a plan for the dune to avoid exposure to the sand.

This old war place, even at the entrance of the Iowa Municipal Airport on South Riverside Drive, has been a landmark of sorts for Iowa natives since 1980.

"It is a decision for the commission to make," said Ron O'Neil, airport manager. "I think that as long as they don't move it, we'll come up again in the next future, probably in the next five to 10 years."

"The land around here will go up in value," said Ron. "I think we'll be induced to move in even more.

**Ron O'Neil, airport manager**

Lougheed's statement coincides with a letter sent by Michael Fahey, manager of the FAA's Planning and Programming Division.

"From the information available to us, the Iowa City Airport does comply with all obligations set forth in previous grant agreements with the FAA," said Fahey. "There is no apparent contradiction in the Federal Aviation Administration's stance.

"As far as I know," Lougheed said, after speaking with the FAA, "the airport still complies with all FAA design standards.

The Daily Issue

Tasha Robinson

I'm not sure what I'm feeling about the new "Boyz n the Hood." I'm not sure what it is really going to mean for me, or if it's going to mean anything at all. It's a film that's been a long time coming, and I'm not sure if it's going to be any good. But I'm also curious to see how it will be received by the audience.

The film is set in the same neighborhood as the original "Boyz n the Hood," and it's about a group of young men who are trying to make it in the world. The main character is a young man named Tre, who is trying to get away from the violence and the drugs that surround him. The film is directed by John Singleton, and it's being released as a sequel to his 1991 film.

I'm not sure what to expect from the film, but I'm interested to see how it will be received by the audience. It's been a long time since the original film was released, and I'm curious to see if it will still be relevant.

I'm not sure if I'm excited to see the film, but I'm also curious to see how it will be received by the audience. It's been a long time since the original film was released, and I'm curious to see if it will still be relevant.

President Clinton and Commerce Secretary Rosalind Brown enjoy a humorous moment Monday during a Chicago conference about the workplace.

"delay is bad for America." At one point Clinton is inter­rupted by a heckler shouting that since the Democrats controlled Congress, Clinton and his party could and should be doing much more. "We've got other things to do," Clinton joked about the need to know "where the money is going to." To his credit, Clinton finished his prepared speech without any mention of the fact that the Republicans controlled Congress as long as 41 Republicans senators can prevent action on any bill but the budget.

Clinton was speaking and heading a panel discussion at the Conference on the Future of the American Workplace, organized by the Labor and Commerce departments to lay out innovative approaches to jobs and competitiveness.

"This is not your meeting, sir, and most people have better things than to interrupt anybody you're not giving a speech," Clinton interjected. "I'm glad there is another thing wrong with this country. There is now a law to protect each other." He responded to Kell's political point by saying Democrats do not control Congress as long as 41 Republican senators can prevent action on any bill but the budget.

Smith expected to sign with Bills

Associated Press

FREDONIA, N.Y. — The Buffalo Bills and All-Pro defensive end Bruce Smith tentatively came to terms on a four-year, $17 million deal Monday.

General Manager John Butler phoned the home of Smith and Smith's agent, Roy Owens, to inform him of the tentative deal to conclude a week of negotiations on the final details of the pact.

Butler was quoted as saying, "Do we have a deal in principle?"

Bruce Smith is expected to sign the contract Tuesday, with a physical examination said to be pending.

"I've heard there's something going on, but I haven't seen anything yet," Smith said Monday. "I'm sure there's a lot of questions that will be directed to you, but you can talk to Bill Butler. Right now, there are some things I'm trying to sort out.

"I started here in 1985 and it's been a great ride," Smith said. "I've grown a lot on and off the field over the past three years. I'm trying to go as far as I can for as long as I can and when I've finished playing, I'll be staying involved in the community and helping out in any way that I can to help people and give back to the Bills."
Iowa, Big Ten penalized by NCAA
Men's athletic department docked 19 scholarships over four-year period

Associated Press

The number of scholarships the UI received for its men's gymnastics program in the 1997-98 season is down to 8, from the 11 the team received in the 1996-97 season. The school was also assessed a $14,000 fine.

The NCAA sanctions announced Wednesday will affect all of Iowa's men's and women's athletic programs over the next four years. The school's men's gymnastics program will be docked four scholarships over the next four seasons, for a total of 16 scholarships. The school's women's gymnastics program will be docked two scholarships over the next four seasons, for a total of four scholarships.

The sanctions were announced Wednesday by NCAA president John Swofford and were the result of an investigation by the NCAA enforcement staff into the school's athletic programs. The investigation found that the school had violated NCAA rules in relation to academic and athletic integrity.

The NCAA rules that were violated included those related to the school's academic success rates, which are used to determine the number of scholarships a program can receive.

The NCAA enforcement staff found that the school had failed to meet the academic success rates required by NCAA rules for its men's gymnastics program. In addition, the school was found to have violated NCAA rules related to its women's gymnastics program.

The NCAA enforcement staff also found that the school had failed to meet the academic success rates required by NCAA rules for its men's basketball program.

The sanctions announced Wednesday will affect all of Iowa's men's and women's athletic programs over the next four years.

The school's men's gymnastics program will be docked four scholarships over the next four seasons, for a total of 16 scholarships. The school's women's gymnastics program will be docked two scholarships over the next four seasons, for a total of four scholarships.

The sanctions were announced Wednesday by NCAA president John Swofford and were the result of an investigation by the NCAA enforcement staff into the school's athletic programs. The investigation found that the school had violated NCAA rules in relation to academic and athletic integrity.

The NCAA rules that were violated included those related to the school's academic success rates, which are used to determine the number of scholarships a program can receive.

The NCAA enforcement staff found that the school had failed to meet the academic success rates required by NCAA rules for its men's gymnastics program. In addition, the school was found to have violated NCAA rules related to its women's gymnastics program.

The NCAA enforcement staff also found that the school had failed to meet the academic success rates required by NCAA rules for its men's basketball program.

The sanctions announced Wednesday will affect all of Iowa's men's and women's athletic programs over the next four years.

Associated Press

The number of scholarships the UI received for its men's gymnastics program in the 1997-98 season is down to 8, from the 11 the team received in the 1996-97 season. The school was also assessed a $14,000 fine.
