Inside

This 1979 file photo by the Viking 1 whiter shows landed on the surface of Mars in the late 1970s. The Viking 1 mission was a success, but the Viking 2 mission was not. On the surface of Mars, the Viking 1 mission was able to study the geology and chemistry of the planet, while the Viking 2 mission was unable to land on the surface due to a technical failure.

Clases to be relocated

All evening classes and activities scheduled in the Papajohn Business Administration Building will be moved to other buildings this week. Beginning Friday, Aug. 27, the building will be closed 8:30 a.m. to 3:30 p.m.

New locations will be posted in the entrance to the week's classes and can be viewed through 1083 beginning Aug. 16. Students may also find new locations by calling 552-3194, 335-0212 or 335-0219.

Want to adopt a UI student?

A volunteer program to provide temporary housing for displaced low-income students has been established by UI faculty to alleviate residence hall overcrowding.

Faculty members who may be interested in helping displaced students need to keep in mind that "everybody doesn't mean anywhere from a few weeks to the end of the semester," said Richard Hunt, president-elect of the Student Union.

Call UI Residence Services at 335-1000 for more information.

CORALVILLE DAY OUTLOOK

as of 9, 1993

19,000 cfs

Coraille Lake levels:

Today: 718.46 feet

The Coralville Lake and Iowa River basins are showing their slow decline. This time of year, water levels usually are around 3,000 cubic feet per second. People who are interested in knowing more about the lake can call Scott Case.

"Anything over 5,000 cfs is pretty unusual this time of year," said Mike Johnson.

The current outflow will range around 18,000 cfs, and temperatures behind the dam decrease significantly. The normal water level is about 5,000 feet.

Coraille Lake Dam

Coralville Lake levels:

Thursday: 718.46 feet

The Coralville Lake and Iowa River basin are continuing to decline. This time of year, water levels usually are around 3,000 cubic feet per second. People who are interested in knowing more about the lake can call Scott Case.

"Anything over 5,000 cfs is pretty unusual this time of year," said Mike Johnson.

Bosnian Croats: 'You are helping murderers'

Srijana Vukic

Associated Press

MILAN, Yugoslavia — U.N. trucks piled high with food and medicine entered embattled Mostar Wednesday, bringing what officials called "the beginning of a war imaginary" to an end. The convoy took hours to negotiate the 12 miles from Mostar, where it had been delayed for days by Croat attacks. Relief officials said that thousands of Muslims are near starvation in the besieged city.

"We have been flooded out, and we will not be returning this year for business," the recording says, raising "the need for the intervention." We will be getting back into as much as we can at the time it's available.

Food related issues are already in the millions of dollars for area companies and are expected to increase as flood waters recede and affecting operations continue.

Who ya gonna call? Toastmasters!

Swetty Patty Naude: If they sound like the symptoms of speech phobia... then you need the doctors...

Lynn M. Teft
The Daily Iowan

For many, the mere thought of giving a speech is enough to induce speech shyness, shakiness and butterflies in the stomach. There is help, however, for those who want to overcome their fear. Getting started is the first step.

Toastmasters International, founded in 1905 by Ralph Browning of Santa Ana, Calif., is a public speaking group devoted to the improvement and development of individual communication and leadership ability. Cathy Chenard, a member of the local Euphonia Toastmasters Club, said the group provides an alternative to oral communication and formal public speaking.

"It's academically less threatening because you have a similar interest group. It's an environment where we all have the same concern," Chenard said.

Chenard said her Toastmasters group has more than 7,200 clubs in the United States and over 52 other countries, with presentation skills and other skills as company training tools. In 1945, when local youths tried to make their summer-to-win weekend in Iowa City, they called in the Cedar Rapids and Iowa City areas. Everyone can benefit from Toastmasters skills.

Chenard is a non-profit organization and has more than 170,000 members in over 5,000 clubs. Though this one meets at 9 a.m. in the western part of the United Kingdom, "Children would be giving in to the British Prime Minister, Grant Schel, spokesman for the Scottish National Party. "These may say they can help in London and the southwest of England, but because of the current situation, it wouldn't be right," Schel said.

The4 past month of the season, all 16 clubs made their presentations by phone, and the presentations were shown on a television screen to the other clubs.

"The overall goal of this is to get members to think off the cuff," said Chenard, who is the Cedar Rapids and Iowa City area director and member of the Euphonia Club.

Chenard said she is preparing a career in marketing and is an organization that helps people prepare for public speaking skills. (Photo by Davey Frazier)

132 tons of tomatoes and 25,000 spectators.

Wouldn't it be nice to take a trip back in time and be able to experience the world as it was during the 20th century? The Daily Iowan is taking a trip back in time with our British divided over proposed time change Andrew Hirsch
Associated Press

LOMNO - Cud, glad, glorious Britain is busy planning their winter meetings, and now President John Major wants to make the darkness last an hour longer.

Major has proposed putting British Standard Time on the last Sunday in March and ending it on the first Sunday in October. The move is expected to save money and help the British business community, which now opens and closes later than their continental counterparts.

Some experts hope that delaying darkness will win over fewer greenhouse emissions.

Putting the clocks back the day would save more money than putting them forward.

"Why not moon, butter and cheese?" said Davey Frazier. "It's simple. If we change it back anyway. Let them make the darkness last an hour."

British divided over proposed time change
Holstein imparts wisdom at ‘Welcome Week’

The UI planned the event to help freshmen familiarize themselves with the campus.

Molly Spann
The Daily Iowan

Many lights and much applause resounded Friday evening as the UI invited incoming freshmen to learn and experience the unique atmosphere of the university. The Welcome Week event was designed by explaining what freshmen can and should expect from their college

"Many people are surprised by this and other universitites. They think we do weird, even perverted things. And sometimes we do stupid things. But if we do our job, which is to nurture your intellect, that in itself is to give you a better citizen and we make awareness of your ignorance so you will want to know, we will make you a better citizen and we will make a better country." Holstein said.

Professor Jay Holstein spoke to a full house. "Holstein on Stage" was a part of the UI-sponsored Wednesday night at the Union’s Triangle Ballroom, "Welcome Week.

The reason students should come to college is to learn from their mistakes. "I knew you came to the university expecting a variety of things, and I hope the university delivers," he said. "But the university is not here for any of the above. These things can be done better somewhere else. This university is here for one reason and one reason only. The university is here to put you into society with teachers.

Holstein said there were three teachers who made a special impression in his life. One of those was a pagan professor of philosophy, the third was a fundamentalist. "The university is like a large box in fulfilling Holstein said.

"Many people are surprised by this and other universities," he said. "They think we do weird, even perverted things. And sometimes we do stupid things. But if we do our job, which is to nurture your intellect, that in itself is to give you a better citizen and we make awareness of your ignorance so you will want to know, we will make you a better citizen and we will make a better country." Holstein said.

"Holstein on Stage" was a part of "Welcome Week," a week with planned events designed to familiarize freshmen with the UI.

Target

The Daily Iowan - Iowa City, Iowa - Thursday, August 24, 1993 - 3A
The health-care bite has gotten so bad in student insurance that it is costing the state more than it should. Some believe there is a problem with the way the state is handling the issue.

Chris Patterson
The Daily Iowan

A growing number of deer at Kent Park is prompting local conservation officials to consider a solution to the problem. The increased deer traffic when they travel through the park is causing damage to the landowners' crops and other vegetation.

Conservation officials to consider a solution to the problem. The increased deer traffic when they travel through the park is causing damage to the landowners' crops and other vegetation.

The increased deer traffic when they travel through the park is causing damage to the landowners' crops and other vegetation.

"We're having an increased number of deer at the park," said Tim Thompson, DNR wildlife biologist. "They're causing damage in the material plant in the park and the damage to the landowners' crops is going to get worse as bad weather continues and the damage is going to get worse as bad weather continues.

Benefits of free trade trade mapped out

Jodie Sanderbruch
Business Editor

Although its drawbacks are trying to pop up in the 10th round of the Free-Trade Agreement as a disad-

vantage for America because it would be taken off American markets, the benefits of free trade have been outweighed by the advantages around the world. When companies and individuals produce whatever they feel like and cannot be stopped, the international market, more and more, is created. Mexico's lower wages would not seem to be the United States. Mexico or Canada to

Canada has been polluting its fields. However, this argument failed to approve the land, air and water for years. Jude Sunderbruch, the President and CEO of the Environmental Defence Fund, said the environmental in which consumers and producers in all three nations could benefit greatly.

Canada, and the United States already have a free-trade agreement, but schools and individuals produce whatever they feel like and cannot be stopped, the international market, more and more, is created. Mexico's lower wages would not seem to be the United States. Mexico or Canada to

McTaggart said that of the nine letters she sent, five businesses
were happy with three of the four items they had to work with.

"We were happy with three of the four items they had to work with," she said. "It is important to point out that the Emma Goldman Clinic made sure to prevent unwanted and misguided pregnancies in less than any of those groups do in a year."

Andrea said that the businesses listed as donors helped to understand the cost of the newsletter, a cost borne on adoption and management.

"They are already in the community." We just want to show them what we have done," said Andrea. "We just want to show them what we have done.

The French company's commander, McTaggart said the letter was a "real boost."

"We are in no way against abortion," she said. "We understand the desire to contribute to health providers and even women's health providers in particular. The problem is mistaking abortion for health care or a help to women. It is neither.

VIOLATIONS

U.S. levies sanctions on China, Pakistan

George Gedda
Associated Press

WASHINGTON — The United States will impose limited sanctions against Pakistan and China, a senior U.S. official said, as part of an overall strategy to stop the sale of arms and other military items to both countries.

CIA's director, George Tenet, told reporters that Pakistan has not yet been notified of the sanctions. He said that Pakistan was not notified of the sanctions because it had not threatened the United States.

Pakistan is a key ally of the United States, and its military is one of the largest in the world.

The sanctions come in response to Pakistan's continuing efforts to develop a nuclear weapon.

Pakistan has been under U.S. sanctions since 2003, when the Bush administration cut off military aid to Pakistan over its nuclear program.

Pakistan has denied that it is developing a nuclear weapon, and it has said that it plans to continue its efforts to develop a nuclear weapon.

China is a key ally of the United States, and its military is one of the largest in the world.

The sanctions come in response to China's continued efforts to develop a nuclear weapon.

Cope with ‘the cancer’

Remember the first time you heard a CD? Remember how your ears perked up at the slightest nuance in the music and you longed to listen to it over and over again. Other of a kind, you were to hear that those wonderful CDs with their poetic memories - the threads that bind us, store or seen the "previous" music that left a mark on the ground in filth including a black and white, to look beyond the surface.

Many in the record industry say that CD prices never went down and that the cost of manufacturing CDs fell by two-thirds, the cost of business went down. For one, a lot of these CDs were sold to store owners for less than $10,000, meaning that those wonderful CDs with their poetic memories - the threads that bind us, store or seen the "previous" music that left a mark on the ground in filth including a black and white, to look beyond the surface.

"I love to listen to CDs and CD prices never went down and that the cost of manufacturing CDs fell by two-thirds, the cost of business went down. For one, a lot of these CDs were sold to store owners for less than $10,000, meaning that..."
Campaign to unionize graduate student employees

The Campaign to Organize Graduate Student Employees, or COGS, is working to create a union. COGS was formed this past April when more than 80 graduate and professional students signed a letter to the Editor in support of graduate student unionization. The letter was signed by more than 200 members of the university community.

Graduate student employees, who will be voting on whether or not to form a union, are valued members of the Michigan community and have a right to form a union. United we stand, divided we fall. Today, we are united again.

The vote to form a union will be held on Thursday, September 2 at 7 p.m. at Phillips Hall. All in attendance will be able to vote. If our union is certified, the University will be required to negotiate with us on important issues such as compensation, benefits, and working conditions.

If you support graduate student unionization, you can attend the meeting, help organize your colleagues, and contact Susan Smith at 354-3128 to support the union campaign.

If you are interested in learning more about COGS, please email COGS at cogs@umich.edu or visit our website at www.cogs.umich.edu.

The Daily Iowan - Iowa City, Iowa - Thursday, August 24, 1995 - 11A

An Important Message for UI Students:

As you are well aware, The University of Iowa begins the fall semester on Monday, Aug. 23, under conditions that are far from normal. Because of continuing rain and high water levels on the Iowa River, these areas will not be open: Art Building rooms W7, W18, W19, W27, W28, W33, W34, S160, S116, and the Auditorium; and North Hall rooms B1 and B11.

The Music Building will not be open until Aug. 30. Some classes scheduled there have been relocated and others have been postponed. Check ISIS or the Music Department office for that information.

To check on classes relocated because of flooding, consult ISIS (Iowa Student Information Service).

ISIS is the comprehensive computer system you may use to register for classes. You can access ISIS through a computer or terminal or through any personal computer or terminal connected to Weeg Computing Center.

Main Library South End of Second Floor
Open 7:30 a.m. to 7 p.m. and 1-5 p.m. on Sun
North Hall
North Mus (Near West Hill's Cafe)
Open 9 a.m.-5 p.m.
Quadrangle Residence Hall
Quadrangle Residence Hall
Open 8 a.m. to 5 p.m.
International Center
International Center
Open 8 a.m. to 5 p.m.

If for any reason you are unable to access ISIS, you can also check class locations by calling 335-1398, 335-0222 or 335-0219.

For general flood information, call 335-1993.

BATTERING WOMEN IS A CRIME.

For confidential information or help, call 1-800-942-0333.
See bags at Iowa Book and Supply Co.
Talk about bags at 1-800-262-8282.

**Braves make deal with Exposit for Martinez**

MONTREAL (AP) - The Atlanta Braves agree to trade pitcher John Smoltz, for which he is due the final two years of a $10.5 million, two-year contract, to the Montreal Expos for reliever reliever Greg Maddux, Monday.

**Olerud, Molitor keep Blue Jays on top**

TORONTO - John Olerud and Paul Molitor, key to a 1-0 win over Detroit today, keep the Cleveland Indians at a forlorn distance in the American League Easticy.

**Olerud want, 4-for-4 with two home runs and four runs scored, winning his major league-leading 11th game this season. The Blue Jays' second baseman also lost at least one base hit and two more runs on the day.**

Molitor, the AL's second leading hitter, had a 2-3 average for his 6th home run in 71 games.

Pet Hedges (15) added to his team-high 10 RBIs with a sacrifice fly in the 9th.

The Indians have scored only 1-10 in 10 days.

Greg Maddux pitched one inning for his second save.

The Indians have scored only 1-10 in 10 days.

Cowboys close to writing off Smith

The Dallas Cowboys are closing in on signing Dallas Smith, their first-round draft pick, and are ready to start negotiations. The Cowboys, who have been advising Smith not to speak with agents, have made an offer to Smith, and the Cowboys expect to have a deal in place within the next few weeks. The offer is reportedly close to $1.6 million, which is still $0.6 million apart in a contract between the two parties.

Smith's agent, Richard Howell, said that Smith is interested in signing with the Cowboys, but that he has not made a decision yet. "If he gets a better deal, he might go to another team," Howell said. "If he doesn't, he'll sign with the Cowboys." Smith is expected to be the team's starting quarterback for the upcoming season.

The Cowboys are hoping to get Smith signed as soon as possible, as they need to start preparing for the team's training camp, which is set to begin in late July. The team is scheduled to play its first preseason game on August 18th against the Green Bay Packers.

Cowboys head coach Mike Ditka said that he is confident that Smith will be signed soon. "I think we'll get him signed soon," Ditka said. "He's a good player and we need him badly." Ditka said that Smith is a good fit for the team, and that he is looking forward to working with him.

The Cowboys are also hoping to get wide receiver Jimmy Smith signed soon. Smith, who was taken in the second round of the draft, is expected to be the team's starting wide receiver.

The Cowboys are also looking to get their top two picks, quarterback Tony Romo and wide receiver Roy Williams, signed as soon as possible. The team is hoping to get all three players signed by the end of the month.

The Cowboys are expected to have a busy off-season, as they need to get their roster in shape for the upcoming season. The team is expected to have a lot of money to spend this off-season, as they have a lot of salary cap space.

The Cowboys are expected to have a lot of interest in the off-season, as they are one of the top teams in the NFL. The team is expected to have a lot of players interested in signing with them, and the team is expected to have a lot of money to spend.

Tennis

COURIER, Graf earn top seeds

Associated Press

Monica Seles, who has not played many matches, is seeded No.1 at the U.S. Open, named the No.1 seeds for the sixth time in the last seven years.

Last year, Graf was seeded 12th but was unable to look at the computer to find her seed due to theMiracle.

Seles was top-seeded from 1987-91 for the U.S. Open and has never been as high as No.1, this year.

"I don't think that's the case," she said.

"It's much of what actually happened," she said.

"I have to get back to any level...

I mean for me to get back to any level...

I'm going to have to deal with it emotionally...

I have to deal with the back at a tennis tournament for the first time and..."

She was stabbed in the back at a tennis tournament for the first time.

She has been the last two U.S. Open champions.

The remainder of the women's field is seeded following Bruguera in the men's tournament for the U.S. Open.

Several others have "lost their composure..."

"I don't want to do it..."

"That's a girl who I'm going to have to look..."

"I was a strong person mentally, and this is just another hurdle that I just have to jump..."

"I don't want to do it..."

"I have to deal with it emotionally..."

The second tournament for the U.S. Open champi­

nate, Garrison also.

"It's a hard thing to talk about but it brings back that day..."

"That's the hardest thing to understand..."

Reggae Revolution brings unique mix of music styles to TC

Ted Friedman

The Daily Iowan

Chill again, Iowa City — the good news is that the on-set of the cold front is actually a welcome new, cooling, cutting-edge musical genre here in Iowa. In fact, local Panchero's-blessed territory hardly ever gets a chance to deny its musical diversity, or at least to admit it. That the DJs here make every available effort to keep their listeners informed with acts representing unquestioned-old-school genres. And while reggae is a major interest in any Iowa City portrait, reggae has yet to make its mark here in Iowa City. But soon, this might change.

Panchero's and Waterloo's will become the home for the new and innovative, 1:11 Reggae Revolution. The DJs will be spinning hit records, and eager vocalists will bring the hot beats around the room -- anything from reggae to hip-hop to reggae to rock and more. The beat is the key, making the whole production house on fire.

The DJs would also patch in microphones, and eager vocalists would be "toasting," a sure-fire way to keep their gig going. The band's repertoire ranges from cutting-edge reggae to bombastic rock bands. The band's line-up has been designed around the music, and it's sure to be a hit.

In addition, Banton's sponsors, Banana's Funky Reggae Party, will be spreading word about the party. Together since November 1992, the six-member band has been sending up and down the Midwest in a display of innovative and developing reggae music. The band's two lead singers pack a vocal wallop with the band's seven-piece rhythm section, strung together on the perfect mix of cut-and-run reggae vocals and smooth performances. The band's two lead singers pack a vocal wallop with the band's seven-piece rhythm section, strung together on the perfect mix of cut-and-run reggae vocals and smooth performances.

Banton got his start as a "MC," traveling around the world and promoting his own music throughout the world. His socially conscious music has caught the attention of music lovers around the world, inspiring them to work together, producing the hall of fame album "Revolution." His first single, "Dance Hall," was released on Toshiba, and his second single, "Puts On A Go-Go," was released on the label's "Special Beat Service." Banton has also had success in Jamaica, where he was signed to a major label and has released several successful albums.

But this time, Banton's openers, "Funky Revolution," will perform tonight, you can get your fix tonight, you can get your fix.

Help Wanted

**HELP WANTED**

**BICYCLE TRASH SAFETY OFFICERS**

**START IMMEDIATELY**

**An Honest, Reliable Group Seeking Men**

Do you like taking care of the environment? Do you enjoy the outdoors? Our company is looking for men to help promote the environmental safety of bicycle trash. You will be responsible for collecting trash from bicycle racks and ensuring the area is clean. Full-time and part-time positions are available.

**Requirements**

- At least 18 years old
- Good physical condition
- Ability to lift and handle trash

If you are interested, please apply in person at the Iowa City Justice Center, 206 S. 10th St., Iowa City, IA 52240. Interviews will be scheduled as necessary. Please bring a resume and photo ID.

---

**HELP WANTED**

**UP TO $2000 HOURS**

**HELP WANTED**

A reliable group is looking for a child care provider to assist with their child's care. The provider will be responsible for watching the child for a few hours each day. The hours are flexible and can be adjusted to fit the provider's schedule.

**Requirements**

- At least 18 years old
- Good physical condition
- Experience in child care

If you are interested, please apply in person at the Iowa City Justice Center, 206 S. 10th St., Iowa City, IA 52240. Interviews will be scheduled as necessary. Please bring a resume and photo ID.
