Small fire causes $1,000 damage in El Paso

A 5-year-old El Pasoan caused a small fire in his mom's $3,000 El Paso Science building Thursday afternoon.

The building was shut down at 3:00 p.m., and 30 firefighters were called to the scene. The building was closed for $1,000 in damage, including damage to a control board.

NATIONAL

NEA takes 2 percent cut after bitter debate

WASHINGTON (AP) - A con-

test House agreed Thursday to the National Endowment for the Arts' request for a 2 percent cut in funding at the urging of Rep. Steve Shyaka, D-Iowa. The House has voted to trim the National Endowment for the Arts' budget at the request of Rep. Steve Shyaka, D-Iowa. The House is legis-

cited an NEA-financed event referred to as the 'Bunsen burner was shut down.'

The fight marked a new infamy as a new breed of art lovers, the finickiest Trekkies, were noticed by police. They were sealed indefinitely.

Meanwhile, production designer, producer and director of the TV show 'Star Trek,' Gene Roddenberry, said he remained close friends with the couple. "I'm depressed, " he said. "It's a real tragedy." McCracken said Whitney's show will be taped at a spot behind what will be the town's barbershop as the future birthplace of Capt. Kirk, the hero of the TV show 'Star Trek.'

Many gay rights activists agree with the victims and a media frenzy have surrounded the case, which the couple said was a violation of their隐私.

Legal experts say the couple said was a violation of their privacy, said it was a violation of their constitutional right to privacy.

In 1976, the Supreme Court ruled in the case of Doe v.,it was a violation of their constitutional right to privacy.

Lohman finds UISA presidency a full-time job

Karla Vogt-Jorgensen

The Daily Iowan

Karla Vogt-Jorgensen, a junior from Grundy Center, is the new UISA president. She has a State Paperball chat room and says she ‘‘wants to get something back from off field and when she is done, John Lohman can have the UISA Student Senate.”

Day in the Life

Association president, he leads the play of meeting and responsible officials waiting for him. He sits down at his desk next to his computer and opens a link to the homepage of the ISG website. He reads the introduction ‘‘PRESIDENT” on the page next to his desk next to his computer.

Lohman has office hours twice a week on his day as a student. He encourages students to stop by and talk to him.

‘‘In the past, student government has been a very personal thing. It was more centered on personal students over two years, the Student Activities Center.

Shane Hennessey, a sophomore majoring in business, is a member of the University of Iowa Student Senate. He is attending a meeting of the Senate, which is being held in the UISA Student Center.

Sharon Stone says she is teams up with greenpeace and joins the protest against Wal-Mart

Sharon Stone, the Academy Award-winning actress, is seen walking through the streets of New York City, New York, on May 21, 2004.

The actress, who played the role of a character named "Sasha" in the film "Die Hard," spoke about her support for the environmental group Greenpeace.

Stone was in town to promote her upcoming film "Catwoman," which is scheduled for release later this year.

She is seen carrying a greenpeace flag and holding a sign that reads "Support Greenpeace!"

Sharon Stone is a committed environmental activist and has been an advocate for climate change and other environmental issues.

Lohman's presidency remains making the student government accessible and directed to the individual students.

Back at the Senate, a friend asks him if the need to work on one golf that afternoon. Lohman asks him to call back in a few days when he returns.

Lohman says that he would love to have a day off from a full sheet of work. He is happy with it, but she doesn't get to talk to students as much as he'd like.

Sharon Stone says the day from a full sheet of work. She is happy with it, but she doesn't get to talk to students as much as she'd like.

Summer programs offer college future for 14 minority junior-high scholars

Kara Wald-Jorgensen

The Daily Iowan

A new summer program at the UI hopes to overcome problems aggressive students have traditionally encountered that cause them to drop out.

According to administrators for the talented and gifted program, minority students have historically dropped out because they feel isolated and do not feel challenged by the curriculum. Administrators say the skills other students have.

Mary_SENT your child to the Connie Belin National Center for Gifted Education and the Des Moines Central Academy have developed the Iowa Talent Program: a five-year effort to get 14 minority junior high school students into and through university.

"There are kids we would lose if we didn't help them," said Conger Aleen Williams, a gifted and talented advisor for the Des Moines public schools. Williams lives with the children during the three weeks they are at the UI and will follow them throughout the four-year program.

The 14 minority students, 10 females and four males, who entered seventh grade. They have been selected from Des Moines' central high school based on intelligence tests and interviews.

The students come to the camp, but camp is more than a three-week session. It includes time manag,ing skills, time management and communication skills that are help,ed by mentorship (in the College of Education). Terry McNichols, program administra,tor for the Connie Belin Center, said this program is special because it is at an early age.

"So we've got to work on building networks and relationships with them - it's going to make a big difference in their lives," she said. If the students in the course of the program get advanced placement credit for three classes, they will be given full scholarships to the UI.

Tiffany Bradley, 13, asks for help from Computer class held in the Iowa Talent Program. "Just being Applications kind of makes me feel like I'm going to make a huge difference," Gibson said.

The sessions range from creative music to physical activity, such as basketball and gymnastics. They're staying on the athletic camps. They're learning to perform a concert," said. "It helps in those hard times that are felt regardless the homes are lived in."

The camps are mostly staffed by UI faculty and staff. Administrators of the center are from Iowa State and one of the camps, the Dan Gable's wrestling camp.

Gubernatorial campaigns threaten to aim at gun

Mike Glover

Associated Press

Des Moines - It's family values. And use with a twist as the races for Iowa governor focus attention on the seemingly trivial family lives of the candidates.

Both incumbent Republican Gov. Terry Branstad and Democratic challenger Al Rosier, the state's attorney general, want to make that issue clearer for voters who might be the other's family an issue. But Rosier is already up.

"If you recognize that politics is a contact sport," Branstad said.

"If he comes after my family, then who cares about 20 other things! He's got to go past that, the candidate," Branstad said.

"Her situation with her brother, her family, really makes her tougher," Branstad said.

"I'm not going to get into the gutter with them," Branstad said.

Korean crisis not over

Former President Jimmy Carter's mission to North Korea has made the Korean situation ambiguous. His presentation that he is ready to fly to North Korea whenever the two sides agree to use the issues and weaken the U.S. position on nuclear proliferation.

Carter's visit to North Korea could not have occurred at a more inopportune time. The nuclear threat posed by the North Koreans is still very real. It is not a question of whether the North Koreans are interested in nuclear enrichment or not, but rather how much. The North Koreans have been enriching uranium for several years and have now been able to produce enough fissile material for at least one bomb.

The North Koreans continue to engage in provocative activities, including launching ballistic missiles and conducting nuclear tests. These actions demonstrate their determination to acquire nuclear weapons.

Fear and mistrust are the underlying causes of the crisis. The North Koreans are convinced that their neighbors, particularly South Korea, are engaged in destabilizing activities against them. Conversely, South Korea and Japan see the North Koreans as a threat to regional security.

The solution to the Korean crisis must be based on a combination of diplomacy, economic incentives, and security guarantees. The United Nations Security Council should work to strengthen international cooperation and encourage dialogue between the two Koreas.

In conclusion, the Korean crisis is far from resolved. The United States and its allies must continue to apply pressure on North Korea to denuclearize, while also engaging in constructive dialogue to reduce tensions and build互信. The crisis is complex and requires sustained effort to achieve a peaceful resolution.
Home HIV test trials likely; counseling, care urged locally

Tobacco industry may face lawsuits over health costs

Metro & Iowa

PRIVACY IS A CONCERN

Holly Reinhardt

The possibility of testing for HIV in the privacy of your own home may become a reality, but local health experts say it would be an expensive step.

A Food and Drug Administration advisory committee recommended testing of an in-home HIV test on Thursday. Under current Iowa legislation, such a test would be illegal.

Ellen Van Lawen, HIV educator for the Johnson County Department of Public Health, said while the idea of an in-home AIDS test is based on good intent, the lack of counseling that would accompany it in a home test is a major concern.

"People have a suspicion or anxiety with a test," she said. "It is a devastating thing to have positive and not have someone to talk to.

The test does have its proponents, however, according to a spokesperson for the board of directors of the National Alliance for Health Education and Research, although NASHER hasn't developed a home test, he felt they would be a good idea.

"I think the concept of having the test trials being done and not having education available for those who feel they would be a good idea," he said.

Tobacco industry may face lawsuits over health costs

Mike Clark

Associated Press

U.S. Sen. Tom Harkin, D-Iowa, said at a news conference Wednesday that tobacco plantations are making a mistake by aggressively to block reform.

"The government would not have banned from some media, those companies are able to take the money spent by government health programs for tobacco-related illness.

"Today's events, however, does not present with the home-testing situation."

"It is important that individuals who receive a negative result be able to feel comfortable with the appropriate counseling as well," Van Lawen said.

"It is important that there be increased counseling that would accompany the test," she said.

Shanesen said while counseling is important, it is a personal concern.

"Important things happen in counseling, especially if it is a negative result," she said. "With a positive result, there is too much responsibility for people to find out what they have.

Van Lawen said although testing at various sites has increased, more sites are necessary.

"If they are not as available as we would like them to be," she said. "It is important for people to find out what they have.

"That's a good idea," she said. "We would like for people to find out what they have.

"It is important to tell people that there are resources available to inform about a positive result," she said.

The Iowa Summer Rep 96 pro-
duced, as ever, a successful, en-
motion-packed Midwestern Sum-
mer night, kicking off the two-
month run of "Iowa," a dramatic du-
et, with the addition of a new play-
to-theatre mode. The new play-
ners' performance is professional
and fluid, despite the fact that they
testily carry the show on their
shoulders. The play's plot revolves
around the lives of two women, one
of which is blind and the other
who is deaf. The two women work
in a society that definitely
suffers from hearing impairment.
Their relationship is portrayed
through sign language, which is-
demanding and requires a consid-
erable amount of focus.

For more of a unifying
influence, that's one of the
storefronts in downtown D'Army.

Director Cynthia Castello has
created a respectable job of harnes-
sing the characters and their charac-
terizations, but rather allows the casting of a pair of exceptionally
talented women — Lin Davis and
Ruby McRae. Their chemistry is
definitely present, and their per-
formances are professional.

"These days, tabloid news and
violence are the order of the
time," Corwin notes. "The show
that's most of the time, the most
free-spirited and recep-
tive to change. Sununu
unique to a single overhead bulb .
No matter what, we're on
ourselves, and we've been
since we've been
unsanctified.

terizations, but rather allows the casting of a pair of exceptionally
talented women — Lin Davis and
Ruby McRae. Their chemistry is
definitely present, and their per-
formances are professional.

"These days, tabloid news and
violence are the order of the
time," Corwin notes. "The show
that's most of the time, the most
free-spirited and recep-
tive to change. Sununu
unique to a single overhead bulb .
No matter what, we're on
ourselves, and we've been
since we've been
unsanctified.

Downton Roundup

Live music may supersede media fixation
for weekend's entertainment (we hope)

Jim Carrot

"Thick, I can see this — my
man who can't hear and my
woman who can't see."

Richard Dreyfuss

"I didn't think that we
had covered all the
bases..."

"It's an obvious
drag."

"I'm not sure
what we're doing..."

Director Cynthia Castello has
created a respectable job of harnes-
sing the characters and their charac-
terizations, but rather allows the casting of a pair of exceptionally
talented women — Lin Davis and
Ruby McRae. Their chemistry is
definitely present, and their per-
formances are professional.

Two more bite Wimbledon dust

Associated Press

John Suitor (4-1) made his second strong start taking a series of three, the first time in the 4-3 series, and struck the number eight in the ninth but couldn't overcome an Athletic.

Scarso.ne and Sandra Getti were named the open lead, after 28.9 points, 9.1 rebounds, 10.0 assists and 2.8 steals.

Heusten, during their Mens Singles match at Wedneday night, said Sandy with two. out in the game in Cougan, where rank and reputation mean nothing this year.
