The Daily Iowan

Regents give criteria go-ahead

Patrick Harr

Daily Iowan

CEDAR FALLS — It took just three minutes for the Iowa Board of Regents to unanimously vote to approve the search criteria for the next UI president.

The set of 17 points, put together by the 17 Presidential Search and Nominations Committee, was met with high praise from the regents, who made no changes to the list. New College, head of the committee and interim president, and vice president and comptroller Ray Meyer, said he was happy the list was passed without change.

"The regents were actually quite laudatory about our efforts," he said.

The criteria evolved through the regents' process because the list was broad enough to produce a diverse candidate pool but spelled out what the UI wants in a president, said New College. The regents "thought they were very conscious and the committee did a great job," he said.

"I think that the criteria sets up a feasibility to consider many different kinds of candidates, and I think we will get a good pool," the search committee's next move will be to unanimously vote to approve the criteria for the next UI president.

They will place ads in educational journals and send letters to colleagues asking for recommendations to nominate BTN President George Bush, left, and Gerald Ford, right, Bank of America President Clinton as they practice on the Pro-Am round of the Bob Hope Chrysler Classic golf tournament Wednesday in Indian Wells, Calif.

They best stick to politics

INDIAN WELLS, Calif. — "Oh, I don't know the president of the United States," he said in his sand trap. At least he didn't finish it. Former George Bush Administration officials have been accused of trying to dodge the press by hitting a very first shot into the sand.

Three men who answer to "Mr. President" went golfing with Bob Hope on Wednesday and between them produced as many bloopers as feats of athletic brilliance.

"These presidents and a husband," Hope declared, "are beginning to look like the Old Faithful."

But a lot of business owners were willing to help, he said. "It's amazing how we've been able to come together." Under the direction of the Small Business Development Center at the Iowa State Business Administration, they have begun to form advocate efforts.

"One of the goals the regents are quite serious about is that of a diverse pool of candidates," Steve Collins, presidential search committee chairman, said.

The bill approved by the committee Wednesday would maintain the current payment for a limited number of consumers. Instead of the current one-time $50 payment, the bill would offer a $200 payment for those that qualify. The bill was approved by a unanimous vote. Rep. Rich Werner, who sponsored the bill, said he believed it was the right thing to do. "We should be helping those in need," he said.

The Iowa Senate, on the other hand, voted 27-13 on the death penalty bill. The bill was introduced by Sen. Jason Raskin and sponsored by Sen. Tommy Wicker. The vote was close, with both parties split on the issue. The bill would allow for the death penalty for certain crimes, including murder and rape. The vote came after a heated debate on the floor of the Senate. The bill now moves to the House for further consideration.

LEGAL MATTERS

POLICE

Gregory Harris, 42; Eric Lakin, 23; Sherry Logsdon, 25; and Larry O'Leary, 27, were arrested Wednesday for the first-degree murder of 18-year-old Michael Cruise in Des Moines. Cruise was found dead in a ditch on the west side of town.

A severance pay dispute was settled between the United Steelworkers and the Iowa Steel Company. The company has agreed to pay its employees severance pay based on their length of service.

Several local and out-of-town businesses have announced their plans for the upcoming summer job fair. The fair will be held on June 10 and will feature over 100 employers from various industries.

Wednesday's summer job fair was well attended. Students and employers had the opportunity to network and explore potential job opportunities.

Friday's graduation ceremony was held at the State Fairgrounds. Over 1,000 students received their diplomas.

The Iowa Association for Retarded Citizens held its annual conference on Saturday. The conference featured various workshops and speakers on topics related to the needs of individuals with disabilities.

Richard Laurel, 56, a member of the Associated Firearms Club, was arrested Wednesday after a small firearm was found in his possession. Laurel is a member of the Club, which is located in Des Moines. The police officer who found the firearm was responding to a call about a possible disturbance.

The incident occurred at 2:30 pm, when Patrolman John Thomas and Officer Gary Anderson responded to a report of a disturbance at the Club. The police officer found the firearm in Laurel's possession.

Laurel was arrested and charged with operating while intoxicated and an out-of-state warrant for theft.

Laurel is scheduled to appear in court on Wednesday for a preliminary hearing.

Laurel's attorney, John Smith, said Laurel has no prior criminal record and is a businessman in the area.

The police officer who found the firearm said he was surprised to find it.

"I was just doing my job," the officer said. "I thought it was a good thing to find out something like that."

DECATUR, Ill. — The man accused of killing last year’s deadly Illinois school shooting hit his rifle stock to advance and practiced firing bursts at close ranges for a few days before the attack, a prosecutor said Wednesday.

John C. Hines III, 17, is charged with killing two people and wounding six others during a February 1995 school shooting at Lyle Elementary School in Decatur.

Assistant District Attorney John Kivlan described how Hill practiced a 10-shot burst before his fatal shooting.

"He was noticed because he fired in a rapid fire manner and with some accuracy," Kivlan said.

After the close shooting, the tumor appeared at a Conquest-R

**AMERICAN EXPERIENCE**

CD-ROMs detrimental?

O

ve the past several years, technology has changed dra-

matically, especially with the many new features attached to com-

munications. CD-ROMs are one of these new communications tools

that may be detrimental to the sport of basketball.

The real stars of the NBA's past have always played within

the system. This once great game needs to focus more on its team play

and less on the individual players. The trend of individualized

showdowns between Jordan and Dominique Wilkins? Saturday

against one another in the slam dunk contest. Remember those

isolated stars and a crop of unproven young athletes.

Karl Malone and Isiah Rider and possibly new slam dunk champion

Harold Miner could be classified as anything close to "rising

stardom." The most pathetic showcase of star power ever assembled

was the most recent slam dunk contest. Ken "Hollywood" Davis, James

Worthy, Kevin McHale and Robert Parish showed off their

skills. The presence of these stars only made the contest more

pathetic. It is a shame that some of the present talent in the

league allowed other teams and players to rise to

stardom.

The problem stems from the fact that the conservative point

view is very different from that of Apple. They state that the

computer needs to be set up for a birth-control device and a poem written by a

feminist. The problem is that the conservative point of view is putting

too much emphasis on the technology and not enough on the

content. Today's spotlight shines on a few

writers who are offended by the material

and want to see their beliefs reflected in the

computer. CD-ROMs

are far from being the solution for our current

problems.

Does anyone really want to be an "expert" in

computer science? The problem is that the

computer is not being used for its intended

purpose - to provide information. Today's

computer user is more concerned with the

coolness of the new features attached to

the computer than with actually using

computer. CD-ROMS are just one example of this.

Put a top computer professional in front of

a computer and he or she will have no idea

what to do with the new features - they are

not relevant to the work that is being done.

I'm not about to trade a triangle against Kate,

but I do think the time has come to put the focus back on the

team and not the individual. After all, the

baseball player that not only

had a great season, but also turned their

team around is the one that will win the

MVP. The same holds true for basketball.

The best teams are the ones that

are able to work together and overcome

handicaps.

Dr. Foster of the Daily Iowan, "We're now running a special on human worth"

It's been less than two years since the nasty death of TV personality Nancy Spungen. She was killed by her boyfriend, David

Bowie. As the idea of rape and murder permeates our collective

consciences, it is important to remember that sad events like this

happen, even in the realm of the rich and famous. The media's

fascination with the Spungen/Bowie saga is a reminder that we

are all human beings and are capable of committing horrendous

acts. The media's fascination with the Spungen/Bowie saga is a

reminder that we all need to be careful of each other and to

remember that we are all human beings.

Laura Lazlo

**Producing sports stars**

As an ex-labor lawyer in professional sports, the National Basketball Association has been privy to the fallout of a professional sports scandal, impartially, the marketing strategy which saved the NBA. In the 1970s and 1980s, basketball was

in a financial bind. The NBA decided to use the stars

of the league to sell the league. This is a classic example

of how the NBA was able to turn their

league's numbers into profits.

In the beginning of the NBA, the league

had a problem with exciting games. The

team owners realized that their players

were not able to draw fans. The NBA

decided to use the stars of the league to

sell the league. The NBA decided to use

the stars of the league to sell the league.

Penguin population poses problems

For one thing, there are three different types of penguins that breed on the same summer island: the erect-crested, the macaroni, and the king penguin. Throughout the years, different species have disappeared from the island, and some populations have recovered. But today, only the king penguin remains.

What would you have to do to protect penguins?

For one thing, you would have to stop the overfishing of the polar cod, which is a major food source for penguins. You would also have to protect their habitats from pollution and climate change. You would have to ensure that the animals have enough space to breed and raise their young. Finally, you would have to help the animals cope with any changes in their environment caused by human activities.

Northwestern Summer Session '95

Everything under the sun

Northwestern University Summer Session '95 offers courses of eight weeks or longer during the months of June, July, and August, and on Saturdays in May and September. Northwestern Summer Session offers courses in a variety of subjects, from business and law to the arts and sciences. The University is located in Evanston, Illinois, a north suburb of Chicago, and is a private, coeducational institution. Northwestern offers 200 courses, including 30 for credit, in a diverse program of study.

Hawks finally figure it out

Iowa hangs on late to upset Gophers

Associated Press

MINNEAPOLIS — Iowa guard Joe Toussaint scored all 30 of his points in the second half, including 14 in the last two minutes, as the Hawkeyes came from behind to beat Minnesota 100-89 on Wednesday night.

"The energy and intensity was there from the start," said Iowa coach Tom Davis. "The players were prepared and focused.

"The Hawkeyes had a 34-point lead at one point in the game."

Hawkeyes swept the season series with the Gophers, who had earlier defeated Iowa in Minneapolis.

"We're off to a good start," said Davis. "We're playing well on both ends of the court."

Clear-cut tournney favorite? No way

Welcome to the 1996 NCAA women's basketball Final Four, where the traditional favorites are no longer in the mix.

"Teams like Connecticut, Tennessee and Stanford are no longer in the mix," said ESPN analyst Jay Bilas. "The top teams are now teams like Maryland, Texas and Kansas State.

"This is a wide open tournament, and anything can happen."

Jaguars make Beuermann No. 1

NEW YORK — Steve Beuerlein, a 14-year NBA veteran, has been named head coach of the NFL Jaguars.

"I am honored to have this opportunity," said Beuerlein. "I have always wanted to be a head coach in the NFL, and this is the perfect time.

"I am looking forward to working with the Jaguars and making them a championship team."
Iowa 16 - Penn St. 29. The Iowa Hawkeyes were led by Jordan Bohannon with 14 points and 6 assists. Northwestern's Pete Nance had 19 points and 10 rebounds. The Hawkeyes dominated the game, winning by 13 points with a final score of 16-29. The Hawkeyes improve to 16-7 while Northwestern falls to 4-20 in the Big Ten Conference.
Spring Training

Baseball's grapefruit and cactus season

When the major league teams play during spring training.

Chris Sheridan
Associated Press

The Seattle Mariners begin their spring training Thursday at the Reach, the team's new field in Surprise, Ariz. The first scheduled game is with the Los Angeles Dodgers.

The Seattle Mariners have a lot of star power, but they also have a lot of young players. The team has 27 players on their 40-man roster, 11 of whom are 25 or younger.

The Mariners have a young core of players who are expected to make an impact in the major leagues soon.

The team's pitching staff is led by ace Felix Hernandez, who is coming off a Cy Young Award-winning season.

The lineup is anchored by All-Star designated hitter Kendrys Morales.

The Mariners have a lot of speed and power up the middle with Ichiro Suzuki and Dustin Ackley.

The team has a deep farm system, with prospects like Ryon Healy and Mike Zunino.

The Mariners are expected to be a playoff contender in 2015.
Illini ax offensive coordinator

Associated Press
CHAMPAIGN, Ill. — Both Greg Landry and Illinois coach Lou Tepper put the end of speculation to rest as they both have moved on from the offensive coordinator job that both men held in Champaign.

"It was very premature," Landry said Thursday. "There's a lot of work here. I think the program is moving in the right direction."

"I think the team is in good hands," Tepper said Friday. "I'm excited about the direction the program is going in."

"Agnes of God" mixes spirituality with homicide in performance

Tasha Robinson
The Daily Iowan

The resurrection of religion mingle with a more mainstream mystery of murder in "Agnes of God," which opens tonight in the UI Performing Arts Center.

"Agnes of God" is a play about a young nun who has been accused of murder. The play is directed by UI senior Lisa Dun, who is directing the play as an honors project, and she chose to put together a production in "Agnes" because the story reads more currently in terms of today's religion.

Throughout the play, the young nun, Agnes, and the other nun, Martha, are in constant conflict. Agnes is the one who is accused of murder, and she believes that the church is not helping her defend herself.

"Agnes of God" is a play that is very relevant to today's society. The characters start out having all the answers, but then they realize that they are wrong. They have to fight for their rights, and they have to fight for their beliefs.

But as the play unfolds, all these characters are forced to re-evaluate their beliefs, which have been thrown out the window. The story is a very relevant one to today's society.

Yahzi Robinson

The Daily Iowan

It's not hard to see why Allen, a second-year professor at the University of Iowa, might find this "Eyes Wide Shut" experience a bit frustrating. He's had the experience of his students getting better through their relationship with men.

In contrast, second-year critic Ivi, "Blind Man's" Lee" is in the mood to take the audience on a journey of discovery through the eyes of a blind man who has found new hope and a new way of life after losing his sight.

The story follows the life of a blind man named Fredrickson, who has recently had a surgical procedure to restore his sight. As he navigates the world around him, he learns to appreciate the beauty and wonder of the world in a way he never has before.

The film is a touching exploration of the human spirit and the power of hope, as Fredrickson discovers new meaning in life through the simple pleasures of sight.

Amen.

Sandler just eked by in "Billy Madison"

Ivan Cuervo

The Daily Iowan

"Billy Madison" was a bit of a disappointment. The film had a few moments of humor, but overall it was a bit too predictable and formulaic. The chemistry between the main characters was good, but the overall story just didn't come together as well as it could have.

The Daily Iowan

It's not hard to see why Allen, a second-year professor at the University of Iowa, might find this "Eyes Wide Shut" experience a bit frustrating. He's had the experience of his students getting better through their relationship with men.

In contrast, second-year critic Ivi, "Blind Man's" Lee" is in the mood to take the audience on a journey of discovery through the eyes of a blind man who has found new hope and a new way of life after losing his sight.

The story follows the life of a blind man named Fredrickson, who has recently had a surgical procedure to restore his sight. As he navigates the world around him, he learns to appreciate the beauty and wonder of the world in a way he never has before.

The film is a touching exploration of the human spirit and the power of hope, as Fredrickson discovers new meaning in life through the simple pleasures of sight.

Amen.

Sandler just eked by in "Billy Madison"

Ivan Cuervo

The Daily Iowan

"Billy Madison" was a bit of a disappointment. The film had a few moments of humor, but overall it was a bit too predictable and formulaic. The chemistry between the main characters was good, but the overall story just didn't come together as well as it could have.
Deadly Scholarship' delves deep to find sense for Nov. 1 murders

Paul Ferguson

The Daily Iowan

Anyone reading this should check out Paul Ferguson's novel that took place Nov. 1, 1995.

It's a story that revolved around a Ph.D. candidate; physics was one of those things that led him to the killing of three University of Iowa physics professors, his dissertation proposal was rejected and he was forced to write aintendent. What most of these who read the book that made the headlines may not have understood was the profound impact.... There that may have driven him to kill. Within the book, Edvin Chen examines the tragedy in "Deadly Scholarship." The story of Lu Gang and Lisa MuRder is the heartland of America's.

Lu Gang was a successful scholar at the University of Iowa during the late 1980s, but his success was marred by numerous setbacks - including the initial rejection of his dissertation. The book describes the circumstances that led up to the tragedy, as well as its aftermath.

The book also explores the short, difficult life of a talented graduate student and his final desperate act that led to his murder. The novel is a gripping story of ambition, struggle, and the final moments of a man who succumbed to his demons.

PRESS HIGHTOUS BANDS

2 musical showstoppers arrive in I.C.

The Daily Iowan
