Students slighted in search

Shawn Cole

The Daily iowan

Although administrators say the current presidential search is far more open to the public than the 1987 search, some students are not sure that there is a chance to ask the search committee questions.

"I would like to have a chance to ask the candidates a question. The university is here to provide an education for the students, and they should be involved," said sophomore Jim Olson, on the fact students aren’t given more input on the selection of the UI's next president.

"The university is here to provide an education for the students, and they should be involved," said sophomore Jim Olson, on the fact students aren’t given more input on the selection of the UI's next president.

Parting with a sofa has its price

BYU’s campus police decided last week to shut off the radio signal from a number of local radio stations. The move was taken in response to complaints from students who said the stations were too loud and too offensive.

“We have received numerous complaints about the volume and content of these stations," said Chief of Police Jim Lott. “We believe these stations are causing a disturbance on campus and are not complying with local noise ordinances.”

The stations affected include KHBY, KBYU-FM, and KSLX. The police have issued warnings to the stations and may take further action if the problem continues.

“We want to make sure that our campus is a safe and pleasant place for all students," said Lott. “We hope these stations will respond to our concerns and make changes to their programming.”

Geeks get gaming monopoly

A University of Oklahoma student won a national video game competition last week. The student, who chose to remain anonymous, took home the top prize in the annual video game tournament.

“Winning this competition was a dream come true," said the student. “I’ve been playing video games since I was a kid, and to be able to win a national championship is an incredible honor.”

The competition, which was held in conjunction with the Oklahoma State Fair, drew entries from students across the country. The student’s winning entry was a new video game called “Space Invaders 2023.”

“I’m really excited to get my game out there," said the student. “I think people are going to love it.”

The game is expected to be released later this year.

Windows 95 premières à l'université de l'Information

Windows 95, la long-âtre upgrade du système d'exploitation de Microsoft Corp., a été reconnue mercredi matin par le président américain. Windows 95 a été annoncé officiellement le 21 août par le PDG de Microsoft, Steve Ballmer, lors d'une conférence de presse à Redmond, dans l'État de Washington.

Le nouveau système d'exploitation est destiné à remplacer Windows 3.x, qui est largement utilisé dans les ordinateurs personnels. Windows 95 est conçu pour être compatible avec un grand nombre d'applications existantes et pour permettre une utilisation plus simple et plus intuitive.

"Windows 95 est une étape importante dans l'histoire de l'ordinateur", a déclaré Steve Ballmer. "Il est le point de rencontre entre le monde des logiciels et celui des utilisateurs."

Les premiers ordinateurs fonctionnant sous Windows 95 ont été lancés le 21 août. "C'est un moment important pour nos clients et pour nous", a ajouté Ballmer.

Les universités ont également commencé à utiliser Windows 95. "Il est nécessaire d'intégrer les nouveaux systèmes d'exploitation dans les universités pour les aider à gérer les informations", a déclaré un responsable de l'université.

Il est prévu que Windows 95 soit disponible sur le marché en septembre. Les utilisateurs doivent certainement être préparés à l'arrivé du nouveau système d'exploitation. "Il est nécessaire d'être prêt à utiliser un nouveau système d'exploitation, mais cela n'est pas difficile pour nous", a déclaré un responsable de Microsoft.
Underage drinkers: Booze at your own risk

Jeffrey Katz

Underage drinking is on the rise in Iowa City, and many students are ready to socialize by seeking bars that don't enforce liquor laws.

The majority of bars in Iowa City require patrons to be 21 years of age, and legal drinking limits for 18- and 19-year-olds are also allowed. This can make bars a popular destination for students who are not yet 21.

"If you get caught, you played the game and lost," Katz said.

If students are caught drinking at bars, they will likely be referred to a school discipline system. Students who are under 21 and caught drinking will most likely be considered a simple misdemeanor.

"We're not going to do an FBI search on everybody, but we do do a lot of ID's," Katz said.

If students are caught with alcohol at bars, they may face fines or other penalties. If students are caught drinking at bars, they may also face suspension or revocation of their alcohol permits.

"We have to...

Presidential search marked by image portrayed by UI

Sharon Cole
The Daily Iowan

Although the UI will bring approximately six candidates to campus to compete for the job of provost, UI administrators have not announced when that search will begin to accept applications.

Head of the American Council of Learned Societies, said one of the chief concerns about the search is that the university not impair its "attracting possible picture of the university as a center of excellence.

"That is a big part of the process—"to provide clients information in an open and unfortifying manner for the right reason," Katz said, noting several negative effects of the search because of the low job.

Before the last two UI president candidates were left to the Fry League, a retired Har­ vard University sticker professor and author of a book on choosing a university president, said the UI president a candidate to conform to the UI, not exceed the framework set by the Fry League.

"The tests are currently in the process of making the necessary approval and information," Katz said, noting several steps of the presidential search process that is not yet under the Fry League.

But despite Iowa's attractive- ness, Steve Cuillen, chairman of the Presidential Search and Form Committee, said one of the chief concerns about the search is that the university not impair its "attracting possible picture of the university as a center of excellence.

"That is a big part of the process—"to provide clients information in an open and unfortifying manner for the right reason," Katz said, noting several negative effects of the search because of the low job.

Undercover tests aired to pinpoint biased landlords

Associated Press

Most landlords don't discriminate in the basis of race, creed or color, but rather in terms of renting, law, but many find possible methods to accommodate their own views.

Massey landlords had the highest rate of possible violations, scores of 18 cases, while landlords in Sioux City and Council Bluffs had the lowest case of violations.

Don Groen, executive director of the Iowa Civil Rights Commission, said the tests are effective in determining illegal discrimination since it gives opportunity to contact landlords and address questions on the discrimination.

Here's an example of how the tests work: A black tester inquires about an apartment advertised for rent. Later, a white tester is sent to inquire about the same apartment.

"The tests work: A black tester inquires about an apartment advertised for rent. Later, a white tester is sent to inquire about the same apartment. The difference in the way they were treated is seen in different situations.

The tests are crucial to determine housing violations. The only interest was in the ability to meet that price and the landlord's expense."

For the Daily Iowan, Steve Cuillen, chairman of the Presidential Search and Form Committee, said one of the chief concerns about the search is that the university not impair its "attracting possible picture of the university as a center of excellence.

UI residence halls undergo facelift

While most of the current residence hall occupants were busy enjoying a relatively carefree summer vacation, some were renovating their living quarters for the upcoming school year.

Some of the most noticeable construction projects involve the halls’ resident life centers, or lounges, and furniture is expected to be delivered tomorrow.

Magie Van Oel, acting director of UI Department of Residence Services, said that the halls’ renovations will be completed by mid-August.

"It looks like a thousand percent better than last year," Van Oel said. "The lighting in Carver back to its original look when it was first built in 1964.

Those changes were part of the second stage of Carver’s renovations. Last semester, the north lounge and Green Rooms were remodeled, and a third stage is set for summer, Van Oel said.

The new carpets, new furniture, and new settings will involve the renovation of the halls’ south and southeast entrances and information desks.

UI resident magistrate Stella Green, a resident of Carver who lived in Brague Residence Hall last year, said she is pleased with the dorm’s improvements.

"It’s much better," Green said. "I’ve been able to place our cards down here.

Although Green may not recognize the difference, veterans of residence hall living are happy with the new changes.

"The new furniture is real nice," UI sophomore Stephanie Boron said at 9 p.m. in a big lounge in the north corner of the third floor of Brague.

A gas fireplace, a grand piano and a public restrooms were renovated this semester. Brague's renovations make it look like "a hotel," Green said.

"I feel like I’m in a hotel," Boron said. "I’m sure the new changes were necessary, I feel that they could have improved more projects, but Currier’s renovations make it look real nice."

Women voice concern about suffrage march

Jefl Funberg
The Daily Iowan

Although many Iowans will come to the "75th-Anniversary March on the World's Women's Day" on Sunday in downtown Iowa City, not everyone is happy that the march is necessary.

Lima's Alissa Blake said while suffrage was an important part of women's history, it is unclear what suffrage fights are right identified in the Constitution.

"Even though the Constitution says men are created equal, it is not to be understood that women are a part of that," Blake said. "Until women are already a part of life, women should be able to vote on their opinions."

UI freshman Sherry Ruud said movement should be recognized, but she was concerned the march may make women look silly.

"We should have been able to vote all along," she said. "It’s just a big deal for me."

Iowa Women

Iowa women were in the heart of the battle for women's suffrage from the beginning.

Ava Delilah Mason of Council Bluffs, former council member for the League of Women Voters, said the 19th Amendment for equal rights was secured.

"Since Iowa Women's Hall of Fame awards and the Carleton Wilson Award for Equality and Justice will be presented throughout the celebration," she said.

Students Pratt, coordinator of special projects for the Iowa Women's Hall of Fame awards and the march, organized by the Iowa Women's Suffrage Planning Committee, said the march will begin at 11:30 a.m. and proceed from World's Fair Park to the State Capitol, where speeches will be given. Pratt said the suffrage movement is exactly one of the great movements in United States history.

Women voice concern about suffrage march

Iowa City, Iowa

"Everyone has a say on every issue," Iowa City Mayor Brian Williams said. "If it's a big deal for us, it should be a big deal for me."

Whitey's ice cream cools its heels in I.C.

Jonathan Mevec
The Daily Iowan

Quad City natives will soon be able to get a taste of Iowa. Whitey's Ice Cream makes its Iowa City debut in early September.

Owners Jon and Jeff Tunberg said they have been considering an Iowa City store for several years. "Iowa City has been on our target list for at least eight years," Jeff Tunberg said.

In the 1978 opening of its Des Moines store, Whitey's was the first store to offer eight new flavors. The store is open every day except Christmas until 9 p.m. Jeff Tunberg said the Iowa City store will be a treat for students.

"We were the first in the nation and coffee shop here," said Bill Care, shift manager and cook at the Great Mall. "We have no comparison, and we have six signatures, and the kind of place that requires service. We've got some kind of place in the heart of Iowa City."

That location was the best one," he said. The Iowa City store will be
China releases rights activist Wu to U.S.

Catalina Ortiz

\section*{NATION & WORLD}

Friday, August 25, 1995

China has released human rights activist Ching-Lee Wu to the United States, a State Department spokesman said today.

"I believe you all know he has been detained," the spokesman said. "He appears to be still under some repression shortly before his release." Wu's release was confirmed by state news agency Xinhua.

A group of supporters crowded around him, many carrying signs expressing their relief. Wu's family was present, according to a lawyer who is representing him.

About 45 minutes after the release occurred, a voice-announcer said on state television that the government had decided to allow Wu to proceed to the United States. There was no immediate word as to whether Wu was headed for the U.S. There is no word on whether Wu will be allowed to proceed to the United States.

"It takes only a few moments to learn the basics"

"My Macintosh* has enabled me to complete papers easier and more efficiently. I am able to access the university computer system, which guarantees ease in research and help with research with text.

I like the Apple because it is very user friendly and quickly introduced me to the world of computers. I have been able to learn a variety of programs.

I selected the Macintosh because it was offered at a very reasonable price and I knew I would be happy with it for five years. I come. I am using Macs for several years and I like them better than other PCs. I also work with Macs and it's nice to have compatibility between home and the workplace."

Zaire reverses policy on refugees

Chego Mujita
Associated Press

DOMA, Zaire — Eastern Zaire surprisingly stopped forcing refugees from Rwanda and Burundi to go back to their turbulent homeland Thursday. After a day, thousands streamed from hiding and returned to their refugee camp homes safe and at, least for the moment, secure.

Zaire was caught between the twin crises of hunger and starvation like the one in eastern Zaire and forced residents feared new outbreaks of violence that killed hundreds of thousands of people.

The evacuations began abruptly early Friday when United Nations observers reported that children were being lifted from the sprawling camps in eastern Zaire and found residents at gunpoint in basements or crouching on the borders on foot. Refugees, who had hidden from the camps this week with some food or water, emerged from a now liberated corn maze.

The officials feared new outbreaks of violence that killed hundreds of thousands of people.

Some 2 million Hutus fled Rwanda in July 1994 when Tutsi-led government forces and Hutu rebels seized power in their homeland. Nearly 2 million Hutus fled Rwanda early this year when ethnic Tutsi forces took over the old Hutu-dominated government.

Zaire said it would halt efforts to repatriate refugees to Rwanda until the United Nations had lifted an arms embargo against Rwanda.

Zaire is also host to thousands of Rwandan refugees, who had bolted from the country last year with scant food or water. But the halt and return of the refugees, who had hidden from the camps this week with some food or water, emerged from a now liberated corn maze.

Refugees look for usable items at Mpopongi camp near Cona, Tanzania. The camp was closed when Zairean soldiers began forced repatriations of Rwandan refugees last week. Refugees began to trickle back to the camps after no further repatriations were reported Thursday, as UNICHR officials and Zairean authorities held negotiations in Kinshasa.

People who fled into the camps at Bukavu and Uvira, in eastern Zaire, said they were afraid to return to their homes in the border region.

With security easing in the east, people feared new outbreaks of violence that killed hundreds of thousands of people.

People who fled into the camps at Bukavu and Uvira, in eastern Zaire, said they were afraid to return to their homes in the border region.

Yet the government's decision to stop the repatriations was not uniformly welcomed by the thousands of refugees who had fled to the camps.

One refugee, who asked not to be named, said he was relieved by the decision to stop the repatriations.

The refugees emerged from hiding and returned to their refugee camp homes.

NEW 1995 BICYCLE REGULATIONS

Guide To Bicycle Rack Locations

This map shows the location of the main racks on campus.

Reminders for Bicycle Parking & Operation

- Slow down when riding near pedestrians.
- When passing others, always alert them as to which side you intend to pass.
- PEDESTRIANS always have the right of way.

Bicycling on the U of I Campus

In order to encourage bicycling as a safe, healthy, and convenient form of transportation, the University of Iowa has established a number of bicycle racks on campus. Please refer to the map above for the locations.

1. Always register your bicycle with the University. A registration form is available in the Parking and Transportation Office.
2. Registration is required in order to park your bicycle on campus. Violators will be ticketed for unregistered bikes.
3. Bicycles must be registered for the academic year. If you are registered for next year, you will need to register again this fall.
4. Bicycles registered for the current year may be used during the summer months. If you register a bike during the summer, you will need to register again in the fall.

If your bicycle is not registered, it may be impounded by the University police. If your bicycle is impounded, you will be notified by the University police.

The University of Iowa Bicycles

If you have any questions or need assistance with your bicycle, please contact the University Police Department at 335-1212.

people having serious problems with gambling, and this study clearly demonstrated the increase."

Frank Biagioli, executive director of the state's gambling treatment program, said, "There's a consideration of time lost from the job and the family and friends, and the patients are not enough to keep up with the demands. All the universities, from schools and social services.

"Existing services in the state providing to homeless families and children are providing good support services, but those services are not enough to keep up with the numbers... the No. 1 need is affordable housing," Ray Morley, director of the state's department of education, said.

"It's not too crowded," he said. "We were held in the Union, it would not be too crowded." he said. "It's an important service to the community where we would like to have been." he said. "We are having a special session on Monday and Tuesday to continue this trend."

"The schedule is so jam-packed full that we tried to make a balance between giving access and giving a positive image of our services," Steve Collins, chairman of the UI Search and Screen Committee, said.

Mandela hopes for 'amicable divorce'

Alexandra Zanis
Associated Press

CAPE TOWN, South Africa - A lawyer hired Friday to help President Nelson Mandela settle his divorce from wife Winnie Mandela stood beside him in court on Monday, the start of the proceedings.

Mandela, 73, divorced his wife of more than 30 years in August 2008, and the couple will be in court on Monday to reach a settlement on the terms of the divorce.

The divorce proceedings began last year, and Mandela had left the country on several occasions to avoid them.

The papers for the court were filed by Mandela's lawyer, Alain Reynolds, who said the papers were not sealed, and that the hearing would take place on Monday.

The couple's divorce was prompted by Winnie Mandela's actions, which included her alleged affair with a basketball player.

The couple was married in 1968 and had two daughters, Maphuti, 29, and Sithole, 26.

Mandela and Winnie Mandela had been married for more than 30 years before their divorce in 2008.

The couple's divorce was prompted by Winnie Mandela's actions, which included her alleged affair with a basketball player.

Swim against...
With all the enthusiasm for new software and the hope that computers will bring, I'll have to refer to 1315A.

I'm surprised by your interest.

What's the reporter's name?

It's going to change the way we do everything, the way we shop and more. And more. It'll do more than open a store and give 'em my name and reserve my drink. For the first time, or so they don't run away. How about a store where you can make new friends, you can be barely adequate, so a Pentium might be better fixed.

Listen, you really ought, 14th America, you know you were the Windows 95 in some kind of way.

But of course. Didn't you hear that?

"Will I do work with my pocket calculator?"

I'm afraid so.

"How about TV? Or maybe a sprinkling system?"

Sorry, only a computer will do.

"That's a bare deal. You're saying that if I kid a peek at it, I can't use it?"

I'm not familiar with the dumb computer, it's too much for a Freshman to remember.

"Like a Freshman?"

I fell in beside him. He didn't smile when he gave me a name.

The whole point of computers.

With investment of $800. Of course, you will need more RAM, about 80 meg. I'm told. And a bigger hard drive. And a bit more memory too.

Kind of a savings to be had, a bit of a Pentium might be better fixed.

Photojournalist dies at 97, magazine work leaves mark

Richard Leisner

ASSOCIATED PRESS

BOSTON - Alfred Eisenstaedt, the life magazine photographer who captured presidents, celebrities and sharecroppers, some of the most enduring images of the 20th century, died at 96.

A New York City resident, Eisenstaedt died Wednesday at Northshore Vanderbilt, where he was vacationing.

Considered one of the most famous and influential of his generation, Eisenstaedt's 50-year career was marked by an unerring eye and social conscience.

"His composition was perfect. The lighting was perfect. The people were perfect," said Capa, who worked for Eisenstaedt in 1930.

"It was really the kind of work that has inspired a generation of photographers," said Howard Chapnick, former president of the Black Photographers Association.

"When people don't know me, they will remember that picture," Eisenstaedt said years later.

His work helped elevate the image of photography as "A Social Science," said Howard Chapnick, former president of the Black Photographers Association.

In his 82nd year, he drew a picture of a sailor holding up the peace sign. The photo was used in newspapers around the world.

"When I knew him, he was a great deal younger," said Capa. "He was a great deal older when I met him."

"I think he was one of the greats of photography," said Capa. "I think he was a genius."

"His pictures were perfect," said Capa. "He was a great photographer."

"He was one of the greatest photographers of all time," said Capa. "He was a great man."

"He was a great man," said Capa. "He was a great photographer."

"He was a great photographer," said Capa. "He was a great man."
Ready for some football?

Two games kick off college season this weekend

Associated Press

BOSTON - Boston College quarterback Doug Flutie will start Saturday's game against Army, defensive coordinator Joe Kuharich announced Tuesday in Chestnut Hill, Mass.

"Doug will be the starter," Kuharich said. "At this point, there is no question about it." Flutie had been expected to start against Hawaii two weeks ago, but a pulled hamstring kept him out of that game.

"He's a big, strong athlete that can throw the ball, but to become a great quarterback, there's a lot more to it than just throwing the ball," Kuharich said. "He's going to take the next step in his career."

Flutie, who missed the game against the Rainbow Warriors with a pulled hamstring, has not played in a regular-season game since last December.

"It's all the scar tissue of what we're doing here, and what we're putting through him," Kuharich said. "By the time we added experience and rest to the game, we're going to have a really good quarterback." Flutie will start Saturday against Army.

"I think he's going to continue to play at the level he played last year, and make a step further into one of those crucial shuffles that come out of top quarterback training," Kuharich said.

Michigan vs. Virginia

Michigan will have a new look this season as it faces Virginia in the season opener at the University of Virginia's Scott Stadium on Saturday at 6:30 p.m. in the season opener.

"We're going to beat the Navy and Army, too," coach Dan Hennessy said, "and that's why we're on the road.""
Mango Jam: ‘We try to groove hard’

Bret Erickson, the group’s bassist, said Iowa City is a particularly good spot for Mango Jam. "It’s inspiring to be in such an arts-oriented area," Erickson echoed that sentiment, adding that "this town has its own flavor of soul." Erickson said that the band has not yet played in Iowa City, but plans to do so. "It’s definitely a place where we’d love to play," Erickson said.

The band has been gaining popularity around the Midwest and west coast, with a significant following of fans. "We love what we do," Erickson said. "It’s really cool to see people enjoying our music.

The group, known for its steamy blues tunes, is excited about playing in Iowa City. "We love the city and the people," Erickson said.

Mango Jam, a Minneapolis-based band, will play two sets Sunday night at Gunnerz, 123 E. Washington St. The band is known for its soulful, improvisational style of rock music.

The group has been likened to Johnny Cash and the Grateful Dead, Mango Jam's "influence on the freedom of rock and roll music." Erickson said that "we try to groove hard.

Tropical blues play tonight, and everyone is sure to love it or hate it. "Rocky Mountain' members said Iowa City is a "good, music-loving people." City" around the town. Erickson echoed that sentiment, particularly good spot for Mango Jam.

Well, there are obviously quite a few soulful listeners, judging from the band's reception throughout the Midwest and west coast. Erickson said that "we feel like we’re at home in Iowa City."

"The large group, known for its steamy blues tunes, is excited about playing in Iowa City. "We love what we do," Erickson said. "It’s really cool to see people enjoying our music.

Activist earns place in Hall

Nancy Armour
Associated Press

SOUTH BEND, Ind. — Paul Robeson was the greatest football player of his time, a renowned entertainer and a Communist. For nearly 50 years the former Rutgers and Penn State football star back-to-back All-American honoree (1914-15) was known for his liberal beliefs and efforts to win equal rights for blacks. Now, 15 years after his death, Robeson is getting into the Hall of Fame.

"My father always believed, he didn't worry much about the approval of the majority," said Nancy Cold, "(1(1 In all m . n ers 01 H I • . 9 1 %

"Robeson never believed he was going to make it in football," said his son Robert, the director of the National Association for the Advancement of Colored People's Washington office. "The reason Robeson said he was there was to do something for the world.

Robeson went to Princeton University on a full scholarship. He was a star athlete, but he was also a student of history and literature. He was a member of the Sigma Chi fraternity and a member of the University of Pennsylvania's debating team. He was also a member of the Socialist Party and the Communist Party.

"He was a man who believed in the power of the people," said Robert. "He was a man who believed in the power of the people, and he was a man who believed in the power of the people.

Robeson earned his degree in 1918 from Harvard University. He was the first black to receive a degree from the university. He was also the first black to receive a degree from the university. He was also the first black to receive a degree from the university. He was also the first black to receive a degree from the university.

After college, Robeson went to work in the steel industry. He was a member of the United Steelworkers of America. He was also a member of the American Federation of Labor. He was also a member of the American Federation of Labor. He was also a member of the American Federation of Labor. He was also a member of the American Federation of Labor.

Robeson was known for his quick wit and his political activism. He was a member of the Communist Party. He was also a member of the Socialist Party. He was also a member of the Socialist Party. He was also a member of the Socialist Party. He was also a member of the Socialist Party.

"He was a man who believed in the power of the people," said Robert. "He was a man who believed in the power of the people, and he was a man who believed in the power of the people.

Robeson was known as a Poet, Painter, and Activist. He was also known as a Poet, Painter, and Activist. He was also known as a Poet, Painter, and Activist. He was also known as a Poet, Painter, and Activist.

Robeson was also known for his work in the civil rights movement. He was a member of the NAACP. He was also a member of the NAACP. He was also a member of the NAACP. He was also a member of the NAACP.

Robeson's work in the civil rights movement was recognized posthumously. In 1976, he was inducted into the Hall of Fame for his contribution to sports. He was also inducted into the Hall of Fame for his contribution to sports. He was also inducted into the Hall of Fame for his contribution to sports. He was also inducted into the Hall of Fame for his contribution to sports.
