Plane crashes, nearly missing house

Pilot pinned in cockpit

Christine Middith and Jared Caves
The Daily Iowan

An Iowa City man and his best friend escaped with minor injuries Tuesday when the small plane they were in hit a tree in his lawn around 5:40 p.m.

Vivian Sexton, 400 12th Ave., and he had just placed the ditty dish on the porch behind their house and turned to his two children.

"The tree is dead and we found a giant one hanging over there. Then the lights went out," he said.

The plane was bound for a nearby rustling Station Line Road and became entangled in power lines, an area adjacent to UI residence halls.

Sexton said he had hung all the lights, which split apart, leaving pieces of the plane, which split apart, leaving pieces of the plane in the air. Two passengers were hurt because there was blood dripping from the plane.

"I was walking back from the building and saw a plane fall," Sexton said.

Sperm is in taking over the nation - sperm shampoo, sperm nail gel and sperm worm crease. No one can easily escape the sperm craze as it sweeps through the media, literature and modern science. sperm beauty products are hot. At least that's what Madge and Kevin, a pop Beverly Hills boutique.

When the first reports surfaced, the raw sperm was priced at a cost of $90,000 per kilo. However, the response to the wave of sperm beauty products was immediate.

"People are very responsive to our product, even though it is only sold as sperm and nothing else. We know our customers," he said.

Melanie Lang, managing editor of "Cosmopolitan," said, "I think people are interested in sperm beauty products because they are different."

The Newsweek cover featuring a sperm shampoo was an immediate success.

"It is not a real shampoo, but it is a different kind of shampoo," she said.

Although both the sperm beauty and shampoo are made from a combination of eggs and sperm, the sperm shampoo is a great deal more expensive than the shampoo.

"The sperm shampoo is a great deal more expensive than the shampoo. It is made from eggs and sperm, which are very expensive," she said.

The sperm shampoo is also said to have a different smell.

"The smell is different. It is not the usual shampoo smell," she said.

The sperm shampoo is said to be very effective in the treatment of hair loss.

"It is very effective in the treatment of hair loss," she said.

The sperm shampoo is also said to have a different texture.

"The texture is different. It is not the usual shampoo texture," she said.

The sperm shampoo is also said to have a different color.

"The color is different. It is not the usual shampoo color," she said.

The sperm shampoo is also said to have a different feel.

"The feel is different. It is not the usual shampoo feel," she said.

The sperm shampoo is also said to have a different effect.

"The effect is different. It is not the usual shampoo effect," she said.

The sperm shampoo is also said to have a different use.

"The use is different. It is not the usual shampoo use," she said.

The sperm shampoo is also said to have a different price.

"The price is different. It is not the usual shampoo price," she said.

STEINEM WINS FALL OF DIVERSITY

Kathleen Phillips
The Daily Iowan

An issue brought to the Iowa City City Council on Sept. 26 was the diversity issue.

The council met to discuss the diversity issue.
The electric bus provides Cedar Rapids with a cleaner, more ecologically sound alternative to the diesel buses of the past. The new electric buses are much quieter and do not emit any fumes contributed to air pollution. Also, the buses do not require brakes to stop, the electric motor reverses its direction, which goes against the forward motion of the bus in order to bring it to a stop.

Electric bus makes spark in C.R.

**Vijay Pantekay**

The Daily Iowan

A new bus has hit the streets of Cedar Rapids, but you wouldn’t notice the differences unless you helped under the hood — to check its battery. In operation since Monday, an electrically run bus has given customers and managers quite a charge.

“They love it,” Tom Petersen, IDU Utilities senior communications coordinator said. “We see a bright future in electric buses, pure electric.”

Other than the details on the front featuring identifying “Electric Powered,” the blue and white bus looks just like the others in the Cedar Rapids fleet. A test ride proved the bus is quieter than ordinary buses, with little engine noise and no diesel smell.

“It was impressed with how smooth the bus was,” said electric bus driver Bob Wernimont. It took about 30 minutes to get used to it. And I was thinking, ‘My God, how good this must be for the Earth.’”

Bob Wernimont, electric bus driver

One of only two buses in the United States to run on pure-electricity, the bus is a result of a $32 million grant from the Federal Transit Administration, which studies the feasibility of alternative-powered mass transit vehicles.

The grant was enough to purchase five buses, the other four were expected by the end of the year.

The four electric buses and one diesel electric hybrid bus are similar in features to existing transit buses and include capacity for 36 passengers, air conditioning and space for four wheelchairs.

The electric engine weighs 40 pounds and delivers 200 horsepower. Power is stored in 33 lead-acid batteries, which store an average of 24 hours of charge.

Electric powered propulsion is also a 10 per cent lower than a conventional bus, owing to the lack of such things as exhaust parts or spark ignition.

The bus uses special electric brakes, which reduce the burden on the bus. Not only can they be driven longer, they are also smoother and quieter, Wernimont said. Because the brakes only slow the rear wheels, front disc brakes are switched on during full work. An onboard computer monitors engine performance and transmits the information to Westinghouse.

Cedar Rapids Transportation and Parking Director Bill Hoekstra said he was impressed with how much the bus to be quieter than ordinary buses, with little engine noise and no diesel smell.

“It was impressed with smooth the bus was. It took about 20 minutes to get used to it. And I was thinking, ‘My God, how good this must be for the Earth.’”

Bob Wernimont, electric bus driver

Ten reasons for purchasing an Iowa City Transit monthly bus pass:

1. Save money — only $18 per month!
2. Convenient — no need to always have exact change.
3. Good for an unlimited number of trips.
4. Can be used on the Corvallis Transit and CAMBUS systems.
5. Transferable — can be used by spouse, friend, or child.
6. Good way to meet people.
7. Allows you to be chauffeur-driven.
8. Good way to stay cool and dry on your way to work or class.
9. You can read The Daily Iowan during your ride.
10. You can just relax.

Introducing a new way to help bridge the gap between what you’ve saved and what you’ll need during retirement.

*Teachers Personal Annuity* now offers more flexibility with the new Stock Index Account. It’s a variable account specifically developed for the long-term investor who is willing to accept more risk in order to achieve greater growth opportunities and to increase their retirement fund.

When you’re planning for the future, every dollar counts. Now you have more choices to help make the most of your retirement. With Teachers Personal Annuity, you can select either our Stocks Account or our new Stock Index Account. And you can choose to pay in one lump sum or in any number of installments, which will allow you more flexibility in future withdrawals.

However, if you withdraw money before age 59 1/2, you may have to pay a federal tax on any earnings that are not returned to you, which will affect your future earnings.

With a low initial investment, no front-end sales charges or transfer fees, and no surrender charges at any time, Teachers Personal Annuity can help bridge the gap between what you’ve saved and what you’ll need during retirement.

For more information, call 1-800-322-8000 weekdays from 8 a.m. to 6 p.m., Monday through Friday. Ask for Compliance, or contact a Teachers Financial Advisor in your area.

Construction forces drivers, pedestrians to change paths.

Seven local construction projects, scheduled to begin in the next few weeks, will require pedestrians and motorists to adjust their routes for up to 30 months.

Construciton of a short-cut backpack part of the Iowa Interstate Railroads’ Corridor development network, will close the sidewalk running from the south side of the Old Capitol to Clinton Street.

Wreathing for the extension of Cedar Street to Schaefer Hall will close the north-south sidewalk on the east side of Mockridge Hall.

New landscaping will change the sidewalk at the east entrance of the Old Capitol and will require other Pedestrian walkways.

Also expected to close a sidewalk, replacement and landscape projects will follow.

Bus schedule changes will result in the south entrance of Van Wezel Hall on the west and south sides of Phillips Hall.

Balkan agreement would give Serbs legislative rights

After Serbs rejected the parliament's offer to sit on the committee that would handle the constitution, it appeared as if the country was on the verge of yet another breakdown.

But now, with a new deal on the table, the negotiations seem to be heading in a positive direction.

Serb leaders have agreed to a formula that would give them a voice in the new government.

The formula includes a three-member presidency, with each member representing one of the three main ethnic groups in the country: Serbs, Croats, and Muslims.

Each president would have the right to veto legislation, and a two-thirds majority would be required to override any veto.

The agreement also includes a mechanism for resolving disputes, with a special body to mediate any disagreements that arise.

Serb leaders have promised to support the constitution, and there is hope that the new government will be able to work together for the benefit of all Bosnians.

If all goes well, this could be a turning point in the troubled history of Bosnia.

The country has been torn apart by war for the past decade, and many believe that this new agreement offers the best chance yet for a lasting peace.
Clinton, Yeltsin to meet

Tom Raum
Associated Press
WASHINGTON -- President Clinton will meet with Russian President Boris Yeltsin in New York late Wednesday for an 
official session on an international nuclear
arms agreement.

The Oct. 23 meeting with Yeltsin was timed to coincide with the 50th anniversary of the U.S.-Soviet
arms control treaty.

Clinton also expects to meet with representatives of Palestine in New York this week.

The meeting is expected to focus on the interim agreement reached with the Palestinians during the Middle East peace talks.

Israel treaty awaits final details

Michael Jane
Associated Press
JERUSALEM -- Foreign Minister Shimon Peres said Tuesday it was a "watershed" moment for the peace
process because it was the first time in 25 years that most
of the 3 million Palestinian
refugees were included in an official treaties.

The treaty was signed in Amman by the Palestinian Liberation Organization, headed by Yasser Arafat, and
the Jordanian government.

Peres said the treaty, which he described as a "historic step," was a significant step forward in the peace
process.

"This is the first step toward a peaceful solution to the Middle East conflict," Peres said. "This is a historic
moment for the peace process and for the future of the Middle East."
The Best Way To Save Money On Stuff (Other Than Borrowing Your Roommate's).

Roommates tend to get a little weird when you borrow their stuff. (They're funny like that.) Better to get yourself a MasterCard® card. Then you could use it to buy the things you really want. And with these College MasterValues® coupons, you'll save up to 40%. And until you get your own place, it's the smartest thing you can do. Roommates are weird enough as it is. MasterCard. It's more than a credit card. It's smart money.\*
Capitol protest

A person dressed in a chicken costume stands behind House Democrats during a protest of the Medicare hearing Wednesday on the front lawn of the Capitol. The Democrats held their protest hearing on Republican Medicare plans, renewing warnings that the plans would hurt those who could least afford it.

DECLINING MEMBERSHIP A FACTOR

Male Elks organization votes to allow women members

Eric Fuller

CHICAGO — The way Gloria Freshour figures it, she worked on every major function the Brookline, Ohio, Elk Lodge had put on in 13 years, as right as well as wrong, as a member, the lodge's treasurer, and as president and later as a member and president of the national organization and later as "Tennie." She submitted it on the Fourth of July. "It was being very poetic about it," Freshour said.

But even with her years of volunteer work and the support of her husband, who is a member, the lodge turned her down.

No woman in the 137-year history of the American Legion and Presidents of Elks Lodges has held the national position of president of the national organization of Elks.

That would change this week.

Best by declining membership and pressures from women seeking to join, the Elks' national legislative body voted in July to delete the word "male" from the organization's charter.

The vote, expected at the 2,230 lodges for a final vote, which should be tallied by the weekend.

The vote is whether to admit women will be weighted according to the size of each lodge.

If a lodge has 500 members, and a majority of those casting ballots favor, the elimination of the word "male" from the lodge's charter would be put to vote.

The Elks hold various social and charitable functions. Nationwide, the Elks gave over $1.1 billion last year to various causes, including college scholarships and a drug awareness program.

Membership, however, has declined about 1.5 million since the peak time high of 1.6 million in 1980.

Funding cuts approved by Senate

H. Josef Hobert

WASHINGTON — One Democratic objection, the Senate passed a $66 billion spending bill Wednesday which would slash money for environmental protection, housing programs and veterans benefits. A Senate Majority Leader Thomas Daschle, D-S.D., cited the bill's "v�ntumism on parade" and said the only reason was to sign a presidential veto.

There's an action in trying to "sign a presidential veto," Freshour declared.

The Senate bill would cut Environmental Protection Agency's budget by one-fourth to $8.4 billion, including a $66 million slash in its Superfund program for toxic waste cleanup. Clinton had sought $11.4 billion.

If the vote would court continued pressure from senators for current spending, elimination Clinton's American national service initiative and reduces veteran programs by $800 million.

Three Democratic senators, Bob Kerrey of Nebraska, who was the lone Democrat to join the Republicans in passing the bill.

The reduction in the EPA budget — though two senators than that approved by the House — is "to assuage the American public at serous risk," said EPA Administrator Carol Browner.

Third Parties Early Succeed

Perot attempts to defy history

Mike Feinblatt
Special PAr

WASHINGTON — Texas billionaire Ross Perot, who has made a sizeable fortune in electronics, is running as an independent candidate for a third time. He tried in 1976, again in 1992, and now he's at it again.

Perot's campaign is based on the idea that he can appeal to a broad base of voters who are dissatisfied with the two major parties.

"It's a massively complicated machine whose function is to try to keep third-party candidates and parties off the ballot," said Bill Winter of the Libertarian Party.

Another problem is Perot's continued insistence that he cannot lose. "If he loses, he'll be just as angry as he was in 1992," said John Major, a political science professor at the University of Texas.

"It's a centrist operation," said Walter Dean Burnham of the American Political Science Association. "It's trying to do in 1996 what it did in 1992, but it's not as effective now as it was then.

But running thousands of candidates and parties can be a difficult task. "It's a massively complicated machine whose function is to try to keep third-party candidates and parties off the ballot," said Bill Winter of the Libertarian Party.

Perot is also known for his lack of political experience. "He needed the signatures of more than a million voters, and he hasn't carried a single state since 1992," said John Major.

But Perot's campaign is not without its problems. "It's a centrist operation," said Walter Dean Burnham of the American Political Science Association. "It's trying to do in 1996 what it did in 1992, but it's not as effective now as it was then.

‘The move makes sense for several reasons,” said one analyst. “Two months ago, we were seeing a significant drop in the price of gold, which has a negative impact on the gold mining sector. With a positive outlook for gold, the mining companies are more likely to invest in new projects and expand their operations. This move will also help to reduce the risk of losing capital.”

In other news, the Federal Reserve has announced that it will maintain its interest rate at 0.25%, which is expected to keep the economy stable.

GAROH

"We haven't received permission from the league," said Grant. "I was told it would be handled as a urgent situation and last night Brown was in the press conference. He said they will take care of it."

NBA Stackhouse rookie picked overall pick by Philadelphia 76ers, signed contract for $8 million over the next five years. "A great opportunity to be in the NBA," said Stackhouse. "I'm very excited and I'm looking forward to the future."

SPORTS QUIZ

Name the last Iowa State, Davidson to win the National League for the baseball or softball.

See answer on Page 28.

Angels keep things close out West

Michael Lutzen
Associated Press

CINCINNATI (AP) - The Los Angeles Angels' Don Mattingly is the National League's first baseman.

"I have never seen a good, but I really didn't go out there with the thought the whole organization was riding on my back," Mattingly said. "I really didn't do much, I didn't want to reevaluate the value of the game. All I was trying to do was hit the ball out of the park."

"I didn't want to do anything to let people know I'm not the right man," Mattingly said. "I'm not sure if I'm still good enough out there."

In addition to Mattingly, the Angels have three solid sup.

NEW YORK - Kids of the City, Iowa - Thursday, September 28, 1995 - 38
Bledsoe's backups have big shoes to fill

Howard Ulman
Associated Press

FOXBORO, Mass. — Reporters buried around the practice field at New England Patriots headquarters covered every angle of Tom Brady and the quarterback depth chart.

"In a way, it's a question of who will step in and make the biggest impact," said one coach Wednesday.

The Patriots were preparing any player to go after Brady this week, with two names mentioned for top replace on Sept. 17 at Oakland and assuming the rest of the season a game of musical chairs at quarterback.

"We have to have a productive season and Jay Barker probably would be signed when he's ready," said a coach.

Bledsoe was recruited with the 3rd-round selection in the 1993 draft by the Patriots and has been around the game of football for many years, but playing against Denver.

On Tuesday, he'll have a productive season and Jay Barker probably would be signed when he's ready.

Mad Dash prizes

New I.C. band pursues originality

Jonathan Hansen

The Daily Iowan

"It's good to have lots of different names," said Mike Duff, guitarist, bassist and vocalist for one of the numerous local bands Mad Dash for the Cake.

"It's important that we don't have a name that means anything," he said later in the same interview. What Duff was referring to is the many names of his all-acoustic band. The members of the band have made a point of changing their name every four or five years. Originally named Mad Dash for the Cake, recent variations on the title have included Mad Dash from the Cake, Mad Dash for the Soggy, Mad Dash for the Barn Owl and Mad Dash Meets the Phantom.

Changing their name often is not the only thing that makes the group stand out. "We use pedals and pedals and pedals," Duff said. "We play on instruments not common to the folk rock gypsy violin, cello, a playground telephone, and a percussion section consisting of whatever works.

"The explosion of live music in Iowa City has featured such bands as Uncommon Garage, Dugabah, looming away at Gunnerz, Dagobah, blazing away fans at the sounds of new bands are adding to the essence of the play is the intensity, we are not forced to do is show business, forced into the slavery of self-absorbed greed, who will teach you in business school."

John Pszyk

"It's an older generation," says John Pszyk, a local musician. "It's based on capitalism," says Pszyk, who has been playing music in Iowa City for over 20 years. "It's about the economy." Pszyk, who is involved in a contest to take care of themselves. "It's ugly ... it is a (strong) lesson in business."

The essence of the play is the theatre descends into salesmen's hell of capitalism. The number of live music venues has doubled, with live music popping up in some unexpected places. Along with the new places to play, there has been an increase in number of Iowa City bands. A friend and I named over 50 local bands and solo musicians.

"Part of what has allowed this to happen is the current coffee-house boom Iowa City has to offer. The Coffee Cellars, 128 S. Linn St., which has been known for its music scene and spring, is one of the new venues bringing in lots of all ages for mainly punk and rock shows."

"There's definitely a number out there hungry for new shows, and they're definitely finding in Coffee City, the modern, the new. It's a more live, less for price, more for the players and music."

"It's an older generation," says John Pszyk, a local musician. "It's based on capitalism," says Pszyk, who has been playing music in Iowa City for over 20 years. "It's about the economy." Pszyk, who is involved in a contest to take care of themselves. "It's ugly ... it is a (strong) lesson in business."

"Part of what has allowed this to happen is the current coffee-house boom Iowa City has to offer. The Coffee Cellars, 128 S. Linn St., which has been known for its music scene and spring, is one of the new venues bringing in lots of all ages for mainly punk and rock shows."

"There's definitely a number out there hungry for new shows, and they're definitely finding in Coffee City, the modern, the new. It's a more live, less for price, more for the players and music."

"It's good to have lots of different names," said Mike Duff, guitarist, bassist and vocalist for one of the numerous local bands Mad Dash for the Cake.

"It's important that we don't have a name that means anything," he said later in the same interview. What Duff was referring to is the many names of his all-acoustic band. The members of the band have made a point of changing their name every four or five years. Originally named Mad Dash for the Cake, recent variations on the title have included Mad Dash from the Cake, Mad Dash for the Soggy, Mad Dash for the Barn Owl and Mad Dash Meets the Phantom.

Seven’ pumps life into tired story line

John Robbins

In a recent interview, David Fincher talked about his new film, “Seven,” and the challenges he faced in bringing it to the screen. The director, known for his visually stunning and emotionally powerful films, described the process of creating a movie that is both visually stunning and emotionally engaging. He discussed the importance of storytelling and the need for strong, well-developed characters. Fincher also spoke about the importance of sound design and the role it plays in creating a immersive cinematic experience.

Fans of David Fincher’s films will not be disappointed with “Seven.” The film is a dark, gritty tale that explores the nature of human violence and the complexity of human motivations. Through its powerful narrative and cinematic style, “Seven” offers a thought-provoking exploration of human nature and the complexities of the human experience.
Risky documentary staves off Nazi extremes in the face of a public debate.

MAD

"In my opinion, an electric instrument or amplification is the biggest thing that has hit the house," says Bill Pekkonen, who plays guitar, vocals and stage.
The difference has been more than just noise. When the band plays live, it packs a much stronger punch, with the audience more engaged and the music more powerful.

The club is a haven for punk rock, attracting some of the most intense and passionate fans. At a packed Coffee Club show several weeks ago, MAD effectively charmed their audiences, with positive reviews on the music and the atmosphere.

The event was sponsored by the local music venue, and the proceeds went to support a local charity. The audience was enthusiastic, and the band was thrilled with the turnout.

"We're a live music club. That's what we're about," said Pete Ronson, apart from "the girl in the audience" who was singing along.

"We're a live music club. That's what we're about," said Peter son. Apart from "the girl in the audience" who was singing along, "we're a live music club. That's what we're about."

"It's easy to rely on the largest groups, and it's easy to follow," said Ronson. "But it's not just about the size. The band is really hard, and they have the chance to be really hard and successful."

"It's easy to rely on the largest groups, and it's easy to follow," said Ronson. "But it's not just about the size. The band is really hard, and they have the chance to be really hard and successful."

"I love the idea of people participating," he said, suggesting that the band and its audience are committed to keeping the music scene vibrant.
