BOMB KILLS 23 AMERICANS

Robert Barnes

WASHINGTON - A powerful truck bomb tore through a housing complex in South Arabian Thursday, killing 23 Americans and injuring
more than 300, officials said. Presi
dent Carter ordered a review into
what he called this early stage of a
war that has been based on the idea
of self-defense. British, French, and
 Arab officials said the blast was
among the worst occasions in their
history and that the American consul
in Aden had earlier reported the
bombing.

Air Force statement Thursday
night put the death toll at 23

At least 150 other
Americans remained
missing, and 400 were
injured.

The explosives, as powerful as a
hundred 500-pound bombs, exploded
just as a jet of a branded airline
landed at a purporting to be a
South Arabian airport.

Forty-eight of the dead were
Americans, and 19 were British.

The blast was described as the
worst terrorist attack involving
Americans in the Middle East
since the 1939 bombing in Beirut, Lebanon, that killed 13 Americans
present.

In his recent major foreign policy speech of the campaign with Clinton, saying, "There is a conventional wisdom prevalent in this town that says the United States has no options when it comes to dealing with other countries," the President ended his prepared remarks. "I've never heard that."

Dole faulted Clinton's initiatives on trade and the embargo on arms sales.

"You cannot have an embargo on arms sales when you have an embargo on arms sales," Clinton said, adding that Dole's proposal would lead to the embargo on arms sales.

"We've been doing it for years. We've been doing it for decades," Clinton said. "I don't know why the United States has to be the one to do it."
Parties, party, party

A third party like the Libertarian Party offers more than just alternative candidates. They bring new ideas to governance and can change America without getting a candidate elected.

The popularity of the Libertarians and other third parties has increased over the past several decades. Many third-party platforms, which have been neglected by the major parties, focus on issues such as economic growth and protection of freedom. The Libertarian Party has grown in size, but it is unclear whether they will ever get a candidate elected. A politician who takes on these issues probably will get elected. Their politics in both parties are more concerned with elections and planning their campaign than they do actually about foreign or domestic policies.

People and you are people. Politicians are something different.

We are bombarded with negative campaign ads on television. Such candidate bashes the other. Instead of talking about solutions, they all strive to make us as fuzzy as possible, because fuzzy is the way politicians like to be.

There is a third party in America called the Libertarian Party. It was founded in 1971, as the third party in America. In the 1860s many of their presidential candidates were on the ballots of all states. The Libertarian Party is one of the top 5 percent of all political parties. The Party believes in minimal taxation and government intervention. People who believe in the Libertarian Party believe that freedom is the most important issue.

A politician who takes on these issues tends to succeed in a third party. Those politicians in both parties are more concerned with elections and planning their campaign than they do actually about foreign or domestic policies.

Few of them give up any real hope.

Hey, candidates, get a real issue

At present, there isn’t much they don’t like.

No great success. We are surrounded by pressing problems on all sides, ecological and social. Many of us are a month or two away from living at the street. We are bom to live in a world of economic storms, health care and quality of education. Government, corruption, Gypsy’s, and the environment is deteriorating.

The Libertarian Party does not have a candidate elected. A politician who takes on these issues probably will get elected. Those politicians in both parties are more concerned with elections and planning their campaign than they do actually about foreign or domestic policies.

There are candidates who are working hard to get elected. They are running for office in order to get things done. They are running for office in order to get things done.

I have never seen a person born a flag.

Lollapalooza brings mayhem to Iowa

by Chris Curtis

Daily Iowan

You may be at a loss for words to describe Lollapalooza, but ask the people who have been there, and they'll give you an explanation. It's a music festival that has been described as a "post-apocalyptic rock concert," "an environmentalist's dream," and "a scavenger hunt." It's a unique experience that combines music, art, and activism.

The festival, which was founded by Jane's Addiction lead singer Perry Farrell, is known for its eclectic lineup of genres and its focus on social and environmental causes. This year's Lollapalooza was held in Chicago, Illinois, and it featured over 100 artists from a variety of music styles.

The Thin Man, who is a well-known DJ and producer in the Midwest, said that Lollapalooza is "an incredible festival" and "a great way to see a lot of different acts in one place." He added that the festival is "a great way to see a lot of different things, and to experience a lot of different cultures."}

Lollapalooza is not only a music festival, but it's also a social and environmental event. The festival has a high environmental impact, and it's dedicated to promoting sustainability and conservation. The festival organizers have implemented various measures to reduce its environmental footprint, such as recycling programs, composting, and using renewable energy sources.

The festival is also known for its interactive art installations and its commitment to social justice. The festival has been involved in various community projects and has raised funds for various organizations. The festival has also been involved in various social justice issues, such as immigration reform and police brutality.

Lollapalooza is a weekend of music, art, and activism that attracts people from all walks of life. It's a great way to experience a variety of music and to learn about various social and environmental issues. It's a unique festival that combines music, art, and activism in a unique way.

Cleveland continues to dominate Red Sox

Associated Press

BOSTON — The Cleveland Indians continued their winning ways Tuesday night, getting a two-run homer from Tiffany Haddad and pitching a 7-4 win over the Boston Red Sox.

Red Sox pitcher (3-3) struck out six and walked one, and Puckett and Young slugged two-run shots to give the Indians a 2-0 lead in the second inning. 

Williams, who has beaten New York eight times, also struck out Puckett in the first game, and the Indians batted him in every inning.

Red Sox reliever pitched three scoreless innings, and the Indians didn't hit another home run.

Cuban-born hitting coach in the top three of the order, the Indians won their fourth straight game.

Rookie Schmidt leads Braves over Cardinals

Associated Press

ATLANTA — Marquis Grissom is just one of the many stars this baseball season, and his performance in the NL pennant race has been nothing short of outstanding.

Grissom, a former Florida State star and second baseman for the Atlanta Braves, has been a key player in the team's recent success.

After hitting .328 with 21 home runs and 90 RBIs in the 1995 season, Grissom has hit .338 with 28 home runs and 93 RBIs in the 1996 season.

His performance has been a major reason for the Braves' success, which has led to their current 10-game winning streak.

Rookie Schmidt, a 20-year-old catcher from the University of Miami, has also contributed to the Braves' success.

Schmidt, who was drafted by the Braves in the third round of the 1995 amateur draft, has hit .286 with 12 home runs and 41 RBIs in 254 at-bats this season.

The Braves' starting rotation has also been strong, with Tim Belcher, 10-0 with a 2.56 ERA, and Greg Maddux, 17-2 with a 2.63 ERA, leading the way.

The team's defense has been solid, with first baseman John Olerud and second baseman Keith Hernandez both hitting over .300.

The Braves are currently in first place in the NL East, with a 36-21 record, and are looking to make a run at the World Series.

NBA Labor Talks Called Off

League threatens to lock out players July 1

Chris Sheridan

Associated Press

NEW YORK — The NBA will not call a labor contract meeting Wednesday, ending a round of negotiations between the league and players, including talk of a possible lockout.

The league and players missed another deadline to reach a new salary cap agreement, and a league executive said Tuesday the NBA is preparing to lock out its players July 1.

If nothing changes, there will be a 30-day lockout, the source told The Associated Press, though the league and players are looking for a compromise.

A deal would delay the start of what is projected to be a shortened six-game season.

Nicklaus decides to enter British Open

Associated Press

LYTHAM ST. ANNES, England — Jack Nicklaus, whose return to the British Open after a 12-year absence has been the story of the British Open this week, announced Wednesday that he will play in the Open Championship.

"I assumed a place in the final round, but technically, I will be only the 10th player to win the Open 10 times," Nicklaus said. "I don't want to count it that way."

Nicklaus, who is 40 years old, is the dominant figure in golf. His eight titles in the United States and six in Europe have already made him the leading money winner in the game, and his presence in the Open will add to the excitement of the tournament.

"If you want to be a top golfer, you have to win the Open," Nicklaus said. "It's the most important tournament."

Nicklaus is currently playing in the American Open, which he has also dominated. He has won the American Open six times, and his victory last year was his 10th title in the tournament.

"I'm very happy to be playing in the Open," Nicklaus said. "I think I'm in good shape, and I'm looking forward to the challenge.

Gulfport, Miss. — The New Orleans Saints are planning to play a game against the Detroit Lions at the Superdome on Thursday night. The game is scheduled to start at 8 p.m.

The Saints are coming off a 27-23 victory over the Tampa Bay Buccaneers on Monday night. The Saints are 1-3-1 on the season, while the Lions are 0-4-1.

"We're excited to be playing at home," Saints coach Jim Mora said. "The fans are really fired up, and we're looking forward to having a good game.

The Saints are led by quarterback Drew Brees, who has thrown for 2,431 yards and 21 touchdowns this season. The Lions are led by quarterback Matthew Stafford, who has thrown for 3,805 yards and 26 touchdowns.

"We've been playing well lately," Brees said. "But we know the Lions are a tough team. They have a lot of playmakers on offense, and we're going to have to do a good job of limiting their big plays."
Thornton prepared to chase his dream

Mike Triplett

The Daily Iowan

James Don Thornton was just out of high school the last time the Olympics existed. The two-year gap between his 1984 and 1988 Olympic experiences is likely the most anyone will ever have to wait between Olympic experiences. Thornton, one of 14 finalists for seven spots on the U.S. Olympic squad, literally worked his entire life to reach this point. This weekend he will be taking the final step and start rejecting his previous. The feeling of Olympic qualification will be felt in Baton Rouge Thursday and Saturday. "I always had Olympic aspirations. And it's always been in my mind that these 96 Olympics would be my chance. But there's always been doubts," Thornton said. "It really is a great feeling that I've made each step along the way. Everything's fallen into place."
