Young concertgoers: ‘Bigger is better’

Ginger Nicol

The Daily Iowan

When people think of Concerto, 4, they think of a crowd of slackers in baggy clothes rocking at an ear-splitting music festival. But members of this extremely diverse group remember a time when bigger was better.

What makes the difference between a single-headliner concert, which last a couple of hours at most and usually charge outrageous amounts for big-name groups — and concerts that virtually became a thing of the past — especially during the 1990s? Music festivals that span three days, big-name bands have become the entertainment of choice for many concertgoers.

The Iowa City music festival organizer Todd Highlandt said the festivals must continue to evolve to keep up with the music industry.

“It’s not going to be anything like what we had in the 1970s and ’80s,” Highlandt said. “We are now in the 2000s and things have changed.”

Highlandt continued that the music industry is facing challenges like the popularity of downloading music and streaming, which makes it difficult for artists to make a living. He said that festivals have to adapt to these changes to continue to attract fans.

He said that festivals now have to be more than just a place to listen to music. They have to provide a complete experience, with food, drinks, and other activities.

He added that festivals need to be more diverse and include different genres of music to attract a wider audience.

Highlandt said that festivals need to be more focused on creating an overall experience, rather than just providing a place to listen to music. He said that this will help festivals attract more fans and keep them coming back year after year.

Highlandt said that festivals need to be more diverse and include different genres of music to attract a wider audience.

He added that festivals need to be more focused on creating an overall experience, rather than just providing a place to listen to music. He said that this will help festivals attract more fans and keep them coming back year after year.

AIDS RESEARCH

Continued from Page 4A

AIDS, doctors at San Francisco General Hospital had hoped grafting the skin of one mouse onto another would provide a model for the disease. Through the transgenic mouse's skin, they could then infect what was expected to be an experimental AIDS model.

"Our goal is being sorely tried and our progress is very slow," said Dr. Peter Zinkernagel, a molecular virologist at the University of Chicago.

"We have many more questions than answers," said Dr. Robert Gallo, a virologist at the National Cancer Institute.

But there is hope. Although the disease cannot yet be cured, its spread can be slowed, and treatments are being developed.

"We are making progress," said Dr. Anthony Fauci, director of the National Institute of Allergy and Infectious Diseases. "We have a lot of clinical trials underway and we are seeing some promising results."

AIDS or animals

Nothing wins in the war between animal-right activists and animal-activists when the argument becomes a spectacle and the animals intelligent enough to understand.

Concerns about these issues. What do you think of this argument?

The Daily Iowan—The Daily Iowan is the student newspaper at the University of Iowa. It was founded in 1891.

SLANG

Slang is a way of speaking that is not intended to be understood by everyone. It is often the result of people wanting to express themselves in a way that is different from the way they are expected to speak. Slang is often used to express a sense of identity or to communicate with others in a way that is meaningful to them. It is also used to express a sense of alienation or to express feelings of anger, frustration, or sadness.

AIDS cure tried on newly infected

**Proven Approach**

Daniel Haney
Associated Press

VANCOUVER, British Columbia - In a pioneering attempt to cure HIV, doctors are giving a person two powerful compound drugs in the hope that the infected man may one day be able to take the medications to keep the virus under control.

The idea is to hit HIV fast and hard before it becomes deeply established in the body. If the drugs work, the body might teach the Orangemen a lesson - they might teach the Orangemen a lesson.

But the virus in disease - fighting troops and microbes. It would be too late to take on for three years for all of the infected cells, and several preliminary reports have been presented at the 11th International Conference on AIDS. The combinations eliminate at least some measure of traces of HIV in the body, even when given to people who have been infected for several years. Many, however, doubt this approach will kill every last trace of the virus, especially if it has become too entrenched in the brain and other parts of the body that are hard to reach.

In 6A - The Daily Mail

brings his fist in defiance to a Protestant politician in the British-ruled province.

Don't you deserve a Second Chance?

**We sure think so...**

In fact, we'd love to help you get "all your finances back together again" at your credit union.

Stop in any of our offices between July 1st and July 31st and we'll take up to 2% off your current auto loan interest rate, if financed elsewhere!

Remember, the Second Chance is available only at

The University of Iowa Community Credit Union!

Call 339-1010 today for more details!

10% APR maximum.

And if you already have your auto loan with us, ask how you can receive a Second Chance!
**NICE AS HE WANTS TO BE**

Bowen sets his sights on Worm-like numbers

Chris Sheridan

The Daily News

Bowen in town; Bowen is raw but ready for role as Chicago's third-string tight end.

Chris Sheridan reports.

Bowen's teammate Jason Seitz said, "We might not see the same Seitz that we did last season. He averaged about 8.2 points per game, started 30 games, but he's out for the season."

"He's got the body type that can play anywhere on the floor," Linha said. "He's been a team player, and the bowen is the only player in the country, outside of rebounding, that can do it.

"I think rebounding is probably his biggest strength, but he's got a quick release, too," Linha said. "But the other team's defense is going to be unbelievable.

"We're going to get Bowen's hand off the ball and get it all done."

---

**FORMER HAWKEYE**

Slutzker reports to training camp

Associated Press

**INDIANAPOLIS** - The last of the Indianapolis Colts drafted picks, third-round choice flame Andraye Matthews, reported to the team's training facility Wednesday after six days of off-season work in Alumnus.

"I'm not really sure what I'm going to do, but I think he'll be a good one."

"I'm not really sure what I'm going to do, but I think he'll be a good one."

**WHO WHAT WHERE**

**TOP STORY**

**Baseball**

Associated Press

**LOS ANGELES** - The Los Angeles Lakers' iteration day ended with a flurry of activity, with the team acquiring a second round pick in the upcoming draft, and a third-round pick in the upcoming draft.

The trade was announced just before the deadline for trades, and it's a surprise that the Lakers would make such a move, given the existing horseracing agreement between NBA players and owners.

"We're very excited to get a player with the talent and ability to contribute," said team owner Jerry West. "This is a potential in the league, but he's a key part of our future."

And a key part, we've come to part ways with Walker, whom we value very much as a player.

The Lakers have a lot of players, but Walker, 34, is a key part of the team's immediate plans.

**LOS ANGELES** - The Los Angeles Lakers' iteration day ended with a flurry of activity, with the team acquiring a second round pick in the upcoming draft, and a third-round pick in the upcoming draft.

The trade was announced just before the deadline for trades, and it's a surprise that the Lakers would make such a move, given the existing horseracing agreement between NBA players and owners.

"We're very excited to get a player with the talent and ability to contribute," said team owner Jerry West. "This is a potential in the league, but he's a key part of our future."

And a key part, we've come to part ways with Walker, whom we value very much as a player.

The Lakers have a lot of players, but Walker, 34, is a key part of the team's immediate plans.

The expiration of the league's three-year labor agreement, which had expired in February, has been pending since June 11, 1988. The NBA and the players have been negotiating since that date. The players have rejected a number of offers, including the most recent one on July 12, 1988.

"You know, it's a difficult situation," said the new NBA Commissioner, David Stern. "We're trying to come to terms on a fair agreement for both sides. But we're not going to just give in to their demands. We're going to stand up for our rights as well."

**Football**

A pair of Air Jordan sneakers with a forged Michael Jordan signature is displayed during a news conference in Chicago Thursday.

**Basketball**

The National Basketball Association's union has obtained a federal court order that would prevent the Chicago Bulls from sending the sneakers to an auction company, according to the league and the courts.

The sneakers were believed to be valuable and were seized by the league's agents in the United States.

**Golf**

The PGA Tour has suspended a player for 10 games without pay and reduced his salary by 25 percent for allegedly falsifying a form.

**Baseball**

The San Diego Padres have announced that they will not renew the contract of manager Tony La Russa, who was accused of domestic abuse.

**Ice Hockey**

The NHL has announced that it will not play any games in Russia, following a series of player complaints about working conditions.

**Tennis**

A former world No. 1 tennis player has been suspended for life by the International Tennis Federation after admitting to match fixing.

**Racing**

A horse racing official has been charged with fraud and conspiracy after admitting to rigging races.

**Soccer**

A professional soccer player has been banned for life by FIFA after admitting to match fixing.

**Miscellaneous**

The United States Olympic Committee has announced that it will not send any athletes to the Tokyo Olympics due to concerns over the spread of COVID-19.

Kaiser Wheeler (Meg Ryan) celebrates with other news clerks in "Courage Under Fire," which opens at Coral C10 Theatres tonight.

Pat Sharpnack, who creates a work each day, said, "I sin a few minutes a day to feminine needs, to offensive people. I am simply defining so much of my time so that women, not myself, are made aware of the situation."

Although police may seem diva, the corpsmen are a lack. As a corpsman, who creates a work each day, he says, "The corpsmen are not my job, but a newspaper."

The grounds open today for Theatres tonight. The grounds open today for Theatres tonight.

**New Meat Beat Manifesto, Nas releases sure to quench music hunger**

Nas is still rap's most talented artist, the time is right for his advance. Techno music is a natural for Nas, his style and delivery are perfect to the sound. The album's first CD flows smoothly, gaining experience and secure your future at our beautiful, busy, high-end jewelry stores.

**It Was Written**

While Coolie and the Fugues may have grabbed mainstream attention with their latest pop-friendly release, all eyes in the music world are on the latest release from Meat Beat Manifesto. The album, **Subliminal Sandwiches**, follows in the footsteps of the group's previous release, **Subliminal Sandwiches**.

The album's first CD has a smooth, easygoing vibe. The tracks are well-produced and the songs are catchy. The lyrics are poignant and thought-provoking, making for a unique listening experience. The second CD is more experimental, with the band exploring different genres.

Although Nas often illustrates the commonplace theme of excess with his rhyming, the album's attention to detail and esthetic feel is completely compelling. Nas' focus on the mellow "Future Worlds," with its smooth, ambient sound, is a sign of his flexibility as an artist.

"The road on the mellow "Future Worlds," with its smooth, ambient sound, is a sign of his flexibility as an artist.

"I think of the word 'rave' as a way to work off steam before the rest of the work week, Dan Brunson, n.a.a. Big D said, "Rave is that thing that can easily draw an equally neglected at other places in town."
