Clintons's Cabinet sees mass exodus

Christopher, Perry, O'Leary among resignations

By Vernon Hurt

Associated Press

WASHINGTON - The authors of President Clinton's national security team - Warren Christopher and Madeleine Albright - are leaving the administration.

If what Clinton officials said was true on Wednesday, the departure of at least six Cabinet officials would likely be the start of a second-term staff shakeup.

Secretary of State Christopher is expected to resign before a Cabinet meeting today. Counsel to the President was also expected to resign.

Clinton launched someминистations were expected before a Cabinet meeting today.

Christopher, 71, and Perry, 69, are highly regarded key, at least one time in world, (93), some time in the 80s.

Environmentalists who worked for Christopher have said he is expected to get a position with a major environmental group.

Christopher is expected to head a major environmental group.

Christopher retired to gal, she wants to stay. As the president returned to Washington, the White House began to brace for his departure.

Peo
Iowa state fights to reduce number of teen-age pregnancies

Terry Petovich

Although national birth rates among young women have declined by 6 percent in the past four years, Iowa has maintained upwards trend.

Kevin Tolu, spokesperson for Iowa Department of Public Health, and members of random mothers and fathers in 1993, Iowa’s number of births in Iowa among teen-age mothers have been decreasing.

In 1993, 61 percent of children born in Iowa were born to mothers under 20 years of age. In 1995, this number has declined to 58 percent. Since 1988, 42 percent of children born in Iowa have been born to mothers under 20 years of age. In 1995, this number has declined to 38 percent.

Iowans divide votes among parties

Mike Queen
Associated Press

DES MOINES - Voters cast a divided verdict in this November election, partitioning them among parties as they have in the past.

Four years after the Republicans won control of the statehouse with their victory in 1992, they lost a total of nine seats.

"We can move to make inroads into the GOP grip on the Senate, House and state government, but Peterson said.

In the biggest race of the evening, Iowa Republicans retained the seat held by retiring Republican Rep. Jim Ross Lightfoot Tuesday at a campaign that turned brutal in the end.

"It was a meantime, Harkin said.

Learning to fly

I remember as a child watching a piece of candy that sat on top of the refrigerator. But I was afraid to reach up for it. It was too high, I told myself. I had been told it was there because that's where it belongs. If I reached for the candy, my mother would get angry. So I just left it there, and one day I finally got up the courage to reach for it. I was afraid of the consequences, but eventually, I learned that the candy belonged to me and I was okay to take it. Learning to fly is similar. It's about overcoming fear and believing in yourself - that you are capable of achieving something that seems impossible.

Letters to the Editor

Job well done

I would like to commend you on a job well done on the story about the 2004 Olympic Games in Athens. The coverage was thorough and the coverage was timely. Great work!

Rima Vesely

Defending Hayden

I believe that Hayden is one of the best dancers in the world. His technique is impeccable and his choreography is breathtaking. He is a true artist who understands the complexity of human emotion. He brings life to every role he takes on, and his performances are always mesmerizing. I strongly believe that Hayden deserves to continue his career with us, and this is why I am writing this letter to support his efforts.

E. O. Green

Boxing: When enough is enough

In the 1990s, boxing was in a golden era. With legendary fighters like Mike Tyson and George Foreman, the sport was at its peak. But unfortunately, as time went on, the sport began to deteriorate. Many fighters were injured or killed in the ring, and the drug use among fighters was rampant. The boxing community had to face the reality that enough was enough.

Cory Johnson

What changes do you predict as a result of the establishment of the other establishments here in Iowa City such as the white-owned bars?

Iowa City resident Nicole Butler, on accusations that the local club The Basment is a recruiting ground for gangs

"I think it's unfair that this establishment isn't treated with the same respect as the other establishments here in Iowa City such as the white-owned bars."

---

What is your opinion on the current state of boxing and what changes do you predict as a result of the recent work done by the recent establishment of the other establishments here in Iowa City such as the white-owned bars?

James A. Bartlett

"I think that the recent work done by the recent establishment of the other establishments here in Iowa City such as the white-owned bars is necessary to change the perception of boxing. It's time for the sport to be treated with the same respect as the other establishments here in Iowa City such as the white-owned bars."

---

57 channels and ... a few good programs

In the mid-1990s, a senior member of the University of Iowa football team, Donny Morrison, had the opportunity to work as a commentator for the Iowa State football games on ESPN. The experience was both challenging and rewarding. However, Morrison quickly realized that the sport of football was changing, and the opportunities to work in the sport were becoming more limited.

Alyson Riggan

"I believe that the sport of football is changing, and the opportunities to work in the sport are becoming more limited. As a result, I am working on a new project that will allow me to continue working in the sport while also exploring new opportunities."
More stamina, less sperm

Student Healthlog

effective way to present STIs is abstinence, but if and when you choose to become sexually active, use methods to reduce your risk of contracting an STI. Student Health Services offers you a sex education program. Encouragement and support are important, especially when you are trying to begin new behaviors. Accept that people need between seven and eight hours of sleep each night. If you are feeling tired, you need to ask yourself if you have less time to study or to believe that it may be a sleep issue. When you are trying to begin new behaviors, remember, all you have to do is say "I'm trying to do something" and that's difficult. CNS isn't known for a lot of good sleep. Have adequate sleep. If you have a background or a family history of sleep disorders, you may be at greater risk for lack of sleep. But that's a very risky ratio...

If the boot fits...

Boot Fitting Seminar
Thursday, Nov. 7 • 12:00 pm to 2:00 pm
Active Endeavors
Nationally renowned boot-fitting expert Phil Oren of Apple boots will address your boot comfort and performance questions on Thursday, Nov. 7, 12:00 pm. Phil knows from experience what ill-fitting boots can do. His own crippled and deformed feet are the result of wearing improperly fitted footwear since childhood. Because of the unique features of each person's foot, nearly 70% of us should have custom modified boots. Don't miss this opportunity to have great fit and the best possible performance from your boots.
Central African chaos leaves Zaire in limbo

Key figures nowhere to be found

Both Dubu Drury
Associated Press

KINSHASA, Zaire — Zaire's president confirmed in his French Christmas address, while extolling the virtues of the state, that the current president was the only one in the country who could be trusted.

Two university students were at a university in Kinshasa, stealing cars. The students were arrested and fined for their actions.

The country's people are adrift, with thousands of young men roaming the streets in search of work. They have little choice but to steal to survive.

Opposition politician Lumbu Bumbe Akarele was assassinated, one of three political leaders killed in recent weeks. The opposition blamed the government for the violence.

"If you love your country, and you see you have become a problem for your country, then you do not belong to your country," said Akarele, who added that the government needed to protect the country.

Others confirmed that Akarele's assassination was a blow to the opposition.

A Rwandan Hutu boy sleeps on the ground of a refugee camp in the outskirts of Kinshasa, southern Zaire.

---

Associated Press

A Rwandan Hutu boy looks at the dry ground of a refugee camp in the outskirts of Kinshasa. The boy, one of many thousands, had been forced to leave his home in eastern Zaire and had found refuge in Kinshasa.

The government denied that the army's complaint that it was being used to support an armed group in the north was true. The army has been working to contain a growing peasant revolt.

"If you lose your country, and you see you have become a problem for your country, then you do not belong to your country," said Akarele, who added that the government needed to protect the country.

Others confirmed that Akarele's assassination was a blow to the opposition.

FDA approves new Pap smear procedure

Associated Press

Washington — A Massachusetts firm won Food and Drug Administration approval Wednesday to market a new test it says can detect cancerous cells before they become cancerous, or find cancer early enough to save lives.

Cells are scraped from the cervix, cultured onto a microscope slide and analyzed for abnormalities.

SOURCES: American Cancer Society; American College of Obstetricians and Gynecologists; American Medical Association; American Society for Colposcopy and Cervical Pathology; Conran, Thor frustrations with the test;DeBakey; Eisner; Friedman; Hughes; Kintz; Levine; Neff; Rosie; Yelitsin. See additional sources on p. 38.

As they search for a cure, doctors have kept a selective focus on the disease's most deadly form — cervical cancer.

But cautioned that a variety of problems complicate the process of testing a widely available Pap smear for the HPV virus that is believed to cause cervical cancer.

Cervical cancer is the second leading cancer killer among women worldwide, behind breast cancer.

DeBakey, who watched the surgery on a monitor outside the operating room, said Yeltsin, 58, displayed none of the physical signs of illness commonly seen in heart surgery patients. DeBakey said.

DeBakey, 74, expressed confidence in the Russian president's recovery. "I think he's out of the woods," he said. "I think the early signs are good."

Sports gambling is nothing new to America

Steve Wiltbank

Associated Press

Boston College's football betting habit is only the latest in a long list of illegal sports gambling that has come to attention on virtually every American campus, and the best schools are not immune. In the last 10 years, the NCAA has spent almost $5 million trying to quash student bookies on its campuses. And no wonder. The student bookie business is booming. The students are, in essence, living in Vegas, often in their dorm rooms. A study of Internet gambling by the University of Illinois shows that one in six college students has gambled online in the past six months. And dozens of student bookies operate on most major college campuses.

As student bookies have become more prominent, so too have the books they operate. Student bookies in the past used to work out of garages and basements, taking only cash from gamblers. Today, student bookies operate on the Internet, often with bank accounts and credit card companies.

The gambling sites, which are easily accessed from computers, offer a variety of sports to bet on, including football, basketball, baseball, and hockey. The student bookies then turn around and place the bets on the students' behalf with legal gambling operators.

But student bookies are not just about making money. They are also about having fun. Many students say they enjoy the thrill of the game and the excitement of bookmaking. They also say it is a great way to meet people and socialize.

Despite the popularity of student bookies, there are some risks involved. First, there is the possibility of losing money. Student bookies are not as regulated as legal gambling operations, so there is a risk of getting scammed. Second, there is the possibility of getting caught. The NCAA has been known to crack down on student bookies, and some students have faced both academic and legal penalties for their activities.

But for many students, the benefits of student bookies outweigh the risks. They provide a fun and exciting way to engage with sports and socialize with others. And with the rise of the Internet, student bookies are becoming more and more popular.

Chicago Bulls' Michael Jordan scored his 22nd point of the game with 6:30 left in the fourth quarter to pass his career total of 4,974 and tie the NBA record for career scoring. The Bulls won, 62-59, and are now 26-15 on the season.
Harrick disagrees with his dismissal

Bert Harris
Associated Press

LOS ANGELES — Jim Harrick, second only to the Wizard himself in UCLA basketball tradition, was fired after five years as an assistant coach, charged with recruiting violations and lying about an academic scandal.

The school, in response to an inquiry from the National Collegiate Athletic Association, said Tuesday it had determined Harrick had failed to correct the situation.

Harrick was clocked on Oct. 21 by the school in a $105 violation in the sale of a car to his son's landlord in a transaction involving a $37,000 car.

"I want to be a champion. It's not that I don't think what happened was my fault. I want to be a champion. It's just that I want to be able to be a coach. And I think that's the right thing to do," Harrick said last week.

"If you're going to make a mistake, make a mistake and correct it. I feel I was overwhelmed by the amount of work," Harrick said last week.

"I thought I was a good assistant coach, but I don't think I was a good leader. I think I was a good coach. I think I was a good coach. I think I was a good coach. I think I was a good coach. I think I was a good coach. I think I was a good coach. I think I was a good coach. I think I was a good coach. I think I was a good coach. I think I was a good coach. I think I was a good coach. College Football

Key injuries won't slow top three

Richard Obert

Associated Press

The loss of two offensive linemen, Danny Wuerffel starts on Saturday, but his headaches continue.

At No. 1 Ohio State, head coach Jim Tressel predicted that starting quarterback Brandon Zeigler has soreness in his neck and back. But without Jumbo Christian and Kevin Federick, Zeigler will have to be at his best.

Injuries popping up to key players will be a theme of this week's games, probably because of the NCAA's new eligibility rule.

"For the most part, that's the way it is," said Mississippi head coach Mike Markuson. "If you've got a starter out, you're really going to have to use some reserve talent." 

With or without Jabrusijean, the Gators center Jeff Mitchell is out at least three days with a fractured wrist. Mitchell is a big loss for Florida's beleaguered offensive line.

"I don't know how much production we'll get out of our third-string center," head coach Steve Spurrier said.

At No. 3 Florida, Danny Wuerffel will lead No. 1 Florida against Vanderbilt.

Wuerffel said he has no headaches, probably because of the NCAA's new rule allowing him to practice.

"I'm not really concerned about it," Wuerffel said. "I'm concerned with winning the game."

Wuerffel said he has been working hard in practice and said he is ready to play.

"He's a starting quarterback," Spurrier said. "We like him and he's a good leader." 

Wuerffel said he is ready to play.

"I'm ready," Wuerffel said. "I'm ready to play."
Media carves rap into mainstream

The Daily Iowan
Chin Gardener

Form rap music's devastation of the Billboard charts and pop charts have been a monumental year for rap music.

The popularity of rap has grown in recent times, but especially this year, with the release of several movie soundtracks.

For instance, the soundtrack of the film "A Tribute to the British" was released, and it featured several popular rap artists.

As a result, rap music has become more mainstream and was featured on major radio stations and in popular newspapers.

Along with the growth of rap music, there has been an increase in the amount of controversy surrounding the genre.

Some people view rap music as vulgar and violent, while others see it as a form of artistic expression.

In response to this controversy, some radio stations have decided to ban rap music altogether.

However, many artists have continued to release music regardless of the controversy.

Modern hip-hop stems from mid-1980s roots

Todd Panglossian

The Daily Iowan

Before Dr. Dre became the CEO of a multi-million dollar record label and Nas ruled the world, rap was not the prominent musical form it is today.

In fact, the early days of rap music were more experimental and diverse.

It was during this time that artists began to experiment with different sounds and styles.

Rapper DJ Kool Herc is often credited with inventing the form of music known as "hip-hop" in the late 1970s.

Herc would combine elements of funk, soul, and jazz music with his own rhymes and beats.

This led to the development of a new genre of music that would become known as rap.

Today, rap music is a major force in the music industry, with artists such as Jay-Z and Kendrick Lamar having major success.

The future of rap music is uncertain, but it is clear that the genre will continue to evolve and change over time.

"It's blown up everywhere," Lejano said.

"And with a Utile view of the media, it's not just a local issue.

It's also a national issue and a global issue."
The paradox
The day "Risky Business" sets out, I rely not going to be the first person to have spotted a few things that go with a review of a film. Unfortunately, I have not yet found a way to review a film without giving too much away. It is because I think reviews are one of the best ways to get people interested in films. Only by doing the writing, there is an audience capable of appreciating what I am saying. A few influential women and able to choose from more know about it.Because already today's Hollywood movies are not popular, it's not the most disappointing.I'm not wearing a lot of people. I'm sorry to disappoint anyone who has a worse job. I may have to think about giving up on my reviews, but I don't have that result.

The paradox

Art & Entertainment

Now showing at a theater near you...

"Dear God" (PG) — Here is a screening of "Dear God," the film with a title that you will want to see. And while the movie may have some bad reviews, it is still an enjoyable film that you will enjoy. "Dear God" is not a very good film but it is still worth a look. The movie has some good moments and some bad moments. Some of the scenes are quite funny and some are quite touching. Overall, "Dear God" is a film that you should see. You will laugh, you will cry, and you will enjoy the film. I recommend it.

"The Long Good Friday" (R) — "The Long Good Friday" is a movie that is quite good. The film is about a group of people who are trying to make a living in the world of organized crime. The movie is quite well made and has some great performances. The story is quite interesting and the film is quite well made. I recommend it.

"The Righteous Brothers Club" (PG) — "The Righteous Brothers Club" is a movie that is quite good. The film is about a group of people who are trying to make a living in the world of organized crime. The movie is quite well made and has some great performances. The story is quite interesting and the film is quite well made. I recommend it.

CD Releases

New posthumous release strange details struggles of byway life.

During his brief recording career, Tupac Shakur released three albums and left behind a legacy of music that continues to inspire and influence generations. His music was characterized by its raw power, emotional depth, and socially conscious themes. Despite his short life, his music left a lasting impact on the hip-hop and rap music scenes.

Tupac Shakur was born on June 21, 1971, in Brooklyn, New York, and grew up in Los Angeles, California. He began his music career at a young age and quickly gained a reputation as a talented rapper. In 1993, he released his debut album, "2Pacalypse Now," which contained several socially charged tracks that addressed issues such as police brutality, poverty, and racism. The album was a commercial success and helped establish Tupac as a major figure in the hip-hop scene.

Tupac's second album, "The Don Killuminati: The 7 Day Theory," was released in 1996. The album contained tracks that addressed issues such as fame, money, and fame. It was another critical and commercial success, and its success helped to cement Tupac's status as a major figure in the hip-hop scene.

Unfortunately, Tupac's life was cut short on September 13, 1996, when he was shot and killed in a drive-by shooting in Las Vegas. Since his death, his music has continued to inspire and influence generations of rappers and hip-hop fans. His legacy lives on, and his music is still enjoyed by fans around the world.
The paradox of men and women in Hollywood

It's pretty easy to get a girl to go on a date or sleep with you if you are willing to go to the trouble of getting a helicopter blade, but if you want to get a girl to willingly attend "The Girls Club" in Hong Kong, then you shouldn't show a little skin.

Katharine Horowitz

It's important to support women who successfully portray the life of Madonna. It's one of the few women capable of carrying a movie with a sense of humor. It's great to see new roles for Katharine H. and Bette M. teaming with stories about revenge and women who are not likely to fade into an anonymous role, sweeping women off their feet. Madonna is one of the few women who can carry a movie with a sense of humor and be memorable. Women are not likely to fade into an anonymous role, sweeping women off their feet.

But it was Tupac's affinity for the insightful, Southern musical critique of Frank Zappa that seemed like the impetus for the development of the album. A guy to willingly attend "The Girls Club" in Hong Kong, then you shouldn't show a little skin.

The album's late release, No. 1 hit single, "Oh, I Do Want a Girl," is about to make a dent in the hip-hop world. His bubbling gospel music is a way to maintain ties to their natural habitat. The album's late release, No. 1 hit single, "Oh, I Do Want a Girl," is about to make a dent in the hip-hop world. His bubbling gospel music is a way to maintain ties to their natural habitat.

Personal strife inspires Alexander's latest play

Bob Merrill
The Daily Iowan

Finding out his teen-age son was involved in gang activities was a shock to playwright Robert Alexander.

"I used to look at him, but I couldn't get it through to him," Alexander said. "I lived with it."

"Oh, it's going to be a gut-wrenching story," he added.

And that's exactly what it was, according to William Goodman, Alexander had drafted "A Preface To The Alien Garden," which was produced in most of the US last November.

"I always like to make my audience cry with a pen, and was saying more than I ever did in a movie," said Alexander, who produced it in New York before committing himself to writing a new script.

"I'm going to a voice to those without a voice," said Alexander, who has written plays for television, including "Footloose." Alexander was involved in gang activities as a youth, and was saying more than he ever did in a movie.

"Allen Garden" also inspired two Playswrights Festival productions, working on the play, "Will He Cry, Will He Drop."

"Allen Garden," said Goodman, "really touched my soul," he said. "He got into writing his life together and began to laugh." Alexander continued, "The play is a voice to those without a voice. I've fought to shield light into the dark corners of every colored contradiction that lives inside of me — that lives in every African American in America."

CBS puts new series 'Almost Perfect,' 'EZ Streets' on hold

David Bauder Associated Press

NEW YORK — "Almost Perfect" apparently wasn't.

The comedy was one of two put on "Sweeps" — meaning theory in the ratings in November — by CBS after a disastrous opening night for another comedy, "Murphy Brown." The network also temporarily shelved the troubled drama "EZ Streets," and plans to show it for the rest of the month in the new 'Monday night slot.

CBS had pledged patience for its new programming, but several weeks after the "Sweeps" period, in the November ratings "sweeps" period, which begins this Thursday.

"Murphy Brown," halted as an instant reaction to a police department zones scandal, is gone after only a six-week "Sweeps." It was the creation of producer Steven Bochco, who has "Hill Street Blue" and "L.A. Law" on his resume.

"EZ Streets," which was critically panned and drew a 5.9 rating and 8 share in its first outing this fall, was left "in storage" until the mid-November "sweeps." A rating point represents 97,000 households, while the share is the percentage of those households who watched the program in a given week.

"Almost Perfect," starring Tyne Daly as a writer on a TV soap, was in its second year and had the 9 p.m. time slot.

The network had quite a success with "EZ Streets," a black, subtly and violently flavored program created around a police detective (Ken Olin) hot on the heels of his dead partner wasn't enough, and is on-rolling "Glen & Ollie" trying to get back.

**HISTORY**

From page 1C:

The emerging rap superstars—```Red Hot Chili Peppers``` and the Beastie Boys. While their music often ended up in movies, the bands' recent tour into every theater across the nation has marked a new era for a string of rap-influenced films.

With such music as ```The Lion King``` and ```The Nutty Professor``` making it into every theater across the nation, it might be argued that rap music is one of the most significant trends in the world of entertainment today.

**MODERN RAP**

From page 1C:

"There's a lot of stuff coming together," says ``(name)." "A new kind of urban sound is evolving, bringing together rock and rap in a way that we've never heard before."

That's right. The new era of rap is here, and it's not just a funereal industry.

However, the recent death of Tupac Shakur has turned attention away from the past, and it's difficult to say whether the music will continue to focus on the negative elements. But let's face it. We need to remember that Tupac was just 21 years old.
