Cambus to make extra stops at Mayflower

Charlotte Eby The Daily Iowan

Mayflower Residence Hall residents will no longer be left behind by an already-filled Cambus if new attempts at improving service to the residence hall succeed.

Cambus will provide residents of Mayflower with additional service beginning Monday after students requested more buses

"Mayflower residents were complaining that they didn't have adequate service," Associated Residence Halls President and UI senior Chad Doellinger said. "A lot of students were being left behind and weren't getting to class on

The Mayflower Shuttle route will expand to provide three more buses each hour during the week leaving from Mayflower for downtown. The Mayflower Shuttle route will leave Mayflower for downtown at 10, 30, and 50 minutes after the hour, starting at 6:50 a.m. on weekdays. UI senior and Mayflower resident Ryan Mander said he was sometimes left behind at Mayflower when the Cambuses

were too full to allow everyone on. "They get really crowded," Mander said. "It gets irritating when they sit outside Mayflower and try to pack as many people as possible

Mander said he was encouraged by the increase in the number of epartures from Mayflower each

"It's good news to me. It'll definitely help in the winter," Mander

To accommodate the new service to Mayflower, the Interdorm route will be scaled back. Interdorm buses will leave four times each hour from Slater Residence Hall, rather than six. Red and Blue routes will

NEW BUILDING

Regents OK biology project

Jennifer Cassell The Daily Iowan

The Iowa state Board of Regents voted unanimously in favor of the UI Department of Biological Sciences' plan to construct several new biology facilities.

The regents were presented with Phase I of the construction plan of their renovation project at their meeting in Ames Thursday.

Phase I of the project includes renovation of the old biology facility, construction of a new biology building and a skywalk connecting the two across Dubuque Street. The new building will house teaching facilities, research laboratories and a greenhouse.

The renovations and construction will begin in spring and fall 1997, respectively. Phase I will cost \$17.7 million.

After the project's architect presented a computer-animated graphic visual of the new building and skywalk at the meeting, the regents took a role-call vote, in which all board members agreed to approve the construction.

Regent Tom Dorr said he was impressed with the presentation,

which gave a visual picture of the new facilities.

"It looks like a functional building and something that is needed on the campus," Dorr said.

The regents asked numerous questions on the details about the building in relation to the rest of the campus and Iowa City. Several regents voiced their concerns about the nost-modern design of the building and how it will look in comparison to other, older UI structures.

UI Director of Facilities Services Group Dick Gibson said the project's architects have been aware of those concerns, although they aren't certain what to do about it. He said the designers are more concerned with how the building will look on a larger scale.

"We are working within the environment of the entire campus," Gibson said.

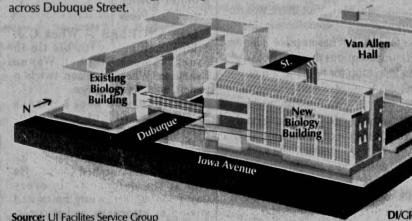

UI President Mary Sue Coleman said she is strongly in favor of the renovations and feels the new building and skywalk will be a

'beautiful addition" to Iowa City. "The renovations are going to

David Hogberg on the latest Washington scandal: Indogate

NEW YORK (AP) - Has the Material Mom finally had enough of New York?

Madonna is asking \$10 million för her digs on Manhattan's Upper West Side, the Daily News reported Thursday.

Citing an anonymous source, the

paper said the 38-year-old pop diva who rose to fame in New York clubs in the early 1980s would prefer not to raise her daughter in New York City.

She apparently prefers Los Madonna Angeles, where she has already been caught at home by paparazzi with newborn daughter Lourdes Maria and the baby's father, Carlos Leon.

The source also speculated that Madonna is trying to scale down her lifestyle as she comes to grips with motherhood.

Dennis Rodman changes image for Christmas ads

ROCHESTER, N.Y. (AP) -Another day, another style for Dennis Rodman.

The hair-dying, lipstick-wearing, nose-piercing basketball star of the Chicago Bulls is changing his image again, just in time for Christmas.

A series of six television commercials for Eastman Kodak Co. will show Rodman trying to prove he has behaved well enough to deserve a new

camera for Christmas. The commercials tout a line of easy-to-load cameras.

In one proposed commercial, a soft-spoken Rodman strolls into a

Rodman

thrift store to donate clothes to the needy and shocks the prim proprietor by dumping a box of spiked collars, women's platform shoes and leather sundries on the counter.

ER' actress Stringfield trades in fame for more free

NEW YORK (AP) — The doctor is out.

Actress Sherry Stringfield's last appearance as Dr. Susan Lewis on NBC's smash "ER" on Thursday couldn't come soon enough. Stringfield said she had a hard time convincing anyone she wanted to

"My agent was, like, spitting water over the table at lunch when I said what I wanted to do," she told The New York Times.

Stringfield, 28, said she was weary of 15-hour days on the set and off-hours spent memorizing lines. She said she wanted to spend more time with her family and her boyfriend in New York.

"I wanted to go home and cook pasta," she said. "But there was no time.

Getting out has its price. Her contract requires that she not work on television for two and a half years and must obtain permission before working on some movies.

"Some people may question this from the point of view of the American work ethic," she said. "But what about the American ethic of family values? There are people who seem to think it's weird that I don't want to be famous, that I don't want to be on magazine covers. I find that so alarming."

'Simpsons' craze hits UI students

Carie Sadkowski The Daily Iowan

Weekdays at 3:30 p.m., the UI is overrun with fans of "The Simpsons," who race to area televisions so they can catch their daily dose.

At the Union there is usually a standing room-only crowd as students cram together and laugh in sync at the antics of Homer and his politically incorrect sidekicks.

The Deadwood bar, 6 S. Dubuque St., also holds a full house when "The Simpsons" is on.

"We get pretty busy when 'The Simpsons' are on," said Christin Wenger, a bartender at The Deadwood. "The bar fills up."

UI senior Chris Pashler said he catches the show almost every day at The Deadwood to see his favorite character, Mr. Burns, who Pashler describes as "a ruthless businessman who is capable of almost any-

He said the attraction of "The Simpsons" can be explained by how the show portrays society.

"It mocks the traditional format of sitcoms and operates in poking fun at popular culture," Pashler

Students also cite the underlying among college students is because political humor strung through each "Simpsons" episode as a reason college students can't stop watching.

UI senior Bob Walsh, whose favorite episode is when Homer gained enough weight to collect disability money, said the political humor and the show's variety make it easy for college students to relate. "I like the political humor and

UI sophomores Scott Doonan and Maggie Hodopp watch an episode of "The Simpsons" in the Landmark Lobby of the Union.

views on life and institutions," Walsh said. "College students get such a variety on different aspects of life, which are always portrayed in the episodes." Pashler said the reason the show has gained so much popularity

of its cynical nature. "It's popular because students tend to be cynical and the show

tends to be cynical," Pashler said. UI junior Kirk Pratt said the show appeals to how college stu-

"The reason it's popular with college students is because it highlights negative aspects of situations, and if there is one thing colhow it closely relates to people's lege kids like to do, it's dwell on

negative ideas," he said.

Although "The Simpsons" is a cartoon, fans said it isn't geared toward children and can even be hard for adults to keep up with, as the show sneaks in subtle jokes and political references in each episode.

"Kids could not appreciate the humor on "The Simpsons.' It takes life experience," Walsh said. He also said the show overtly

comments on controversial issues in society like Homer's comment on religion as a waste of time, which could offend some people. Pashler said the show makes fun

of controversies.

"It serves as an allegory for political thoughts, and pokes fun at political issues," Pashler said.

Mystery footprints likely to be addressed when Simpson takes the stand today

Linda Deutsch **Associated Press**

SANTA MONICA, Calif. - After failing in a last-minute request to delay O.J. Simpson's testimony,

defense attorneys suggested Thursday that 23 mystery footprints at the crime scene belonged to the real killer.

Simpson is to take the stand today, and Robert Baker asked to delay the appearance until Monday, arguing Simpson

Simpson

has been in a "traumatic" court fight for custody of his children and needs time to "get his head on straight before these lawyers attack him."

Judge Hiroshi Fujisaki said, "I appreciate his dilemma," but refused the request because the judge in the custody case made a special arrangement to free Simpson for his civil testimony today, Monday and Tuesday.

After the ruling, Simpson's attorneys cross-examined FBI shoe expert William Bodziak and took direct aim at what could be the

most damaging evidence of the enhancements of the shoe pictures wrongful death trial - a picture of and tales of his trip to Italy in Simpson wearing Bruno Magli shoes Bodziak said matched bloody footprints around the bodies of Nicole Brown Simpson and Ronald

"There were 23 footprints you Magli shoes?" attorney Phil Baker "That's correct," Bodziak said.

"And you believe the assailant stepped in blood around Nicole Brown Simpson?" Baker asked. Yes," Bodziak said.

Bodziak, an FBI agent who has done FBI shoe analysis since 1970, said he based his conclusions on examinations of photos sent to him first by the prosecution in Simpson's criminal trial and later by plaintiffs in Simpson's civil trial. He acknowledged his analysis is only as good as the photographs he

The defense has suggested a photograph of Simpson wearing the Bruno Magli shoes at a 1993 football game is a fake.

the match between the shoes Simpson was wearing in the photograph and the prints on the blood-soaked tiles around the bodies. Bodziak captivated jurors with computer

search of the right shoe.

Baker noted FBI agents visited all 40 U.S. stores that sold the unique Bruno Magli style known

"And you are aware that not one couldn't associate with Bruno receipt was ever found showing that O.J. Simpson bought a Bruno Magli Lorenzo shoe?" Baker asked.

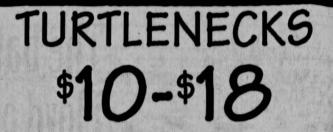

"That's my understanding," said Bodziak, who also acknowledged that no salesperson could remember selling such a shoe to the foot-

Simpson, who was acquitted of murder last year, is likely to be asked about the shoes when he takes the stand. In pretrial depositions he first said he never owned such shoes and considered them too ugly for his taste.

"I would have never owned those ugly-ass shoes," he testified in his Jan. 26 deposition.

In September, following publication of the photo Bodziak said shows Simpson wearing Bruno Magli shoes, Simpson backed off a On Wednesday, Bodziak made little, testifying, "I know I've had similar shoes. And when he was asked what

shoes he was wearing the day the picture was taken, Simpson said, "I

GAS WARS

Prices of ethar

Tracy Potocki The Daily Iowan

Prices at the pumps will begin an ongoing war for customer service as ethanol gasoline prices lower to unleaded gasoline levels.

Ethanol, an environmentally safer, corn-based alcohol blended with unleaded gasoline, rose in price last year as the prices of corn went up. However, ethanol gas prices have been declining over the last few months, becoming more comparably priced with regular unleaded gasoline. Ethanol fuel now sells for about 2-3 cents more than regular unleaded.

Lucy Norton, domestic market development director for the Iowa Corn Promotion Board, said sales of ethanol fuel were affected by the rise in price.

"Last year, 658 million gallons of ethnol-blended fuel were sold in Iowa," Norton said. "Ethanol sales did fall, and we expect to see a decline in our year-end consumption figures." A rise in corn prices due to

increased domestic and national demand caused many ethanol man ufacturers to reduce production a several plants. "The last three or four month:

have been tough for the ethano industry," said Ron Marr, executive vice president of the Petroleun Marketers of Iowa. Many of the fuel companies

absorbed the increased price of ethanol at first because the fue mixture contains 10 percen ethanol, but after a certain poin the companies were forced to pas along the cost to customers, said Pat Paustian, renewable fuel coordinator for the Department of Agri culture.

"The companies couldn't mak any money," Marr said. Midland Oil, which produce

about 42 percent of the nation' ethanol, cut its production by 2 percent, and other companies als have shut down, thereby reducin This production decline, com

bined with steady product demand

Jan Goldsmith, sTEP coordinator

ing traffic laws during the Thanksgiving weekend.

We're getting into the holiday season, which is notorious for drunken driving and lower seat belt use," Harney said. "We're going to do what we can to slow that down."

Lt. Ron Meyer of the Johnson County Sheriff's Office said this weekend will be one of the busiest automobile driving weekends in years and more officers will be required to ensure traffic safety.

"Anytime you can flood the highways with officers it makes those ghways safer," Meyer said.

The Governor's Traffic Safety Bureau has conducted four waves already this year. The last wave took place Nov. 1 on Highway 218, the Avenue of the Saints, from north of St. Louis through Iowa to the Minnesota border.

In the last crackdown, there were four operating while intoxicated arrests, 505 seat belt and child restraint violations, 977 speeding violations, 76 registration violations, 61 driver's license violations, 309 equipment violations and 21 motorist assists. Officers in Iowa and Missouri also wrote 537 other traffic citations and warnings and made 20 criminal arrests in a single

day.
UI sophomore Eric Petersen, who will drive through eastern Iowa to get home for Thanksgiving, said the crackdown on traffic violations will make his drive home safer.

"It's necessary because there will be more people on the road, which brings more of a chance of reckless drivers and more ingestion of the highway," Petersen said.

UI junior Brent Sorenson drives Interstate 380 to get to the UI from Cedar Rapids. He said the traffic safety wave would not make a difference in how people drive on I-

"Most people drive between 65 and 80 miles per hour, and I haven't really seen any erratic drivers," he said. "As long as people maintain control of their vehicles, I don't have a problem."

CALENDAR

TODAY'S EVENTS

Students Undertaking Mathematical Science will hold a lecture titled "What Is A Mathematical Proof?" by UI Professor George Nelson in Room 221 of MacLean Hall at 3:30 p.m.

SATURDAY'S EVENTS

First National Bank, Iowa City Public Library and Owl Glass Puppetry Center will sponsor "Popo's Puppet Festival' at the Iowa City Public Library, 123 S. Linn St., from 10:30 a.m. to 5 p.m.

Johnson County Conservation Board will hold a winter bird-feeding workshop for children in grades four through six at the Youth Group Lodge at F.W. Kent Park from 10 a.m. to noon.

Solon American Legion will hold its annual turkey dinner at the American Legion in Solon starting at 5 p.m.

SUNDAY'S EVENTS

United Campus Ministry will hold "Eat at Church" at First Christian Church, 217 Iowa Ave., at 5 p.m.

United Methodist Campus Ministry will hold a Sunday supper at the Wesley Foundation, 120 N. Dubuque St., at

St. Paul Lutheran Chapel & University Student Center will hold a folk service at 404 E. Jefferson St. at 10:30 a.m.

UI Animal Coalition, Citizens for Animal Rights and the Environment and Farm Sanctuary will host a booth for the "Adopt-a-Turkey" program in Meeting Room C of the Iowa City Public Library, 123 S. Linn St., from 1-4 p.m.

Mother and Child® is an original pendant design that eloquently expresses just how much your family means to you. It's the perfect way for new fathers, children and proud grandparents to joyfully celebrate their loved ones this holiday season. Available in three sizes in 14K gold or sterling with matching chains to fit. Also in earrings and ring design.

NewsBrief

Kum & Go robbed by armed woman

At about 5:40 a.m. Tuesday, an armed woman robbed Kum & Go Stores, 513 S. Riverside Drive.

Iowa City Police Department Detective Brian Krei said the woman entered the convenience store and pointed a large, semiautomatic handgun at one of the

employees and demanded cash. The employee complied and the woman left with an undisclosed amount of cash.

No one was injured.

Krei said the woman was described as a 5-foot-4 inch white female, with strawberry blonde hair weighing between 100 and 110 pounds. Employees said she was

wearing a thigh-length, Army green jacket with drawstrings around the hood and bottom of the coat.

The woman apparently left the store and headed southbound on

Police are searching for clues, and anyone with information is encouraged to contact the ICPD.

GAS WARS

Prices of ethanol fuel decline

The Daily Iowan

Prices at the pumps will begin an ongoing war for customer service as ethanol gasoline prices lower to unleaded gasoline levels.

Ethanol, an environmentally safer, corn-based alcohol blended with unleaded gasoline, rose in price last year as the prices of corn went up. However, ethanol gas prices have been declining over the last few months, becoming more reduced." mparably priced with regula unleaded gasoline. Ethanol fuel now sells for about 2-3 cents more

than regular unleaded. Lucy Norton, domestic market development director for the Iowa Corn Promotion Board, said sales of ethanol fuel were affected by the

rise in price. "Last year, 658 million gallons of ethnol-blended fuel were sold in Iowa," Norton said. "Ethanol sales did fall, and we expect to see a decline in our year-end consump-

A rise in corn prices due to increased domestic and national demand caused many ethanol manufacturers to reduce production at several plants.

"The last three or four months have been tough for the ethanol industry," said Ron Marr, executive vice president of the Petroleum Marketers of Iowa

Many of the fuel companies absorbed the increased price of ethanol at first because the fuel mixture contains 10 percent ethanol, but after a certain point the companies were forced to pass along the cost to customers, said Pat Paustian, renewable fuel coordinator for the Department of Agri-

"The companies couldn't make any money," Marr said. Midland Oil, which produces

about 42 percent of the nation's ethanol, cut its production by 20 percent, and other companies also have shut down, thereby reducing

Supply.

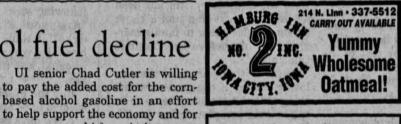

This production decline, combined with steady product demand, resulted in the price increase, Paus-

UI junior Kristin Holloway regularly purchases unleaded fuel for her car because she is unwilling to pay the higher price.

"Unleaded gas is cheaper — that's why I buy it," Holloway said as she filled her car at QuikTrip, 323 E. Burlington St., with \$1.23 per gallon fuel. "I buy ethanol once a month to clean out the car's engine, but I would probably use it regularly if it were cheaper.

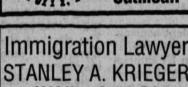

Ethanol's cheap price has previously attracted consumers to pur-chase the fuel, Marr said. It has also been popular because carbon monoxide emissions are reduced 25 percent and carbon dioxide is reduced by 30 percent.

Once ethanol prices become more than 1-2 cents higher, individuals began looking for other alterna-tives, said David Downing, program planner for the Department of Nat-ural Resources' Department of Energy.

concern over vehicle emissions.
"I guess it's because of my Iowa pride," he said. "I'm from a small farming town and use ethanol in support of Iowa's agricultural economy. Gas emissions (in general) are also a concern; we need to find dif-

ferent methods for running vehicles car emissions have to be

Quotable

"The reason it's popular with college students is because it highlights negative aspects of situations, and if there is one thing college kids like to do, it's dwell on negative ideas."

UI senior Kirk Pratt, on why he believes the TV show "The Simpsons" is so popular among college students

Predicting the fall guy for Indogate

s many of you probably know, there is a new scandal brewing around the Clinton administration. Referred to as "Indogate," it involves wealthy foreigners making illegal campaign contributions to the Clinton campaign.

Apparently, much of this money was laundered through people in the United States. The people in the United States who made the contributions have occupations such as gardener or Buddhist monk. Obviously they could not possibly have come up with the large sums of money they supposedly contributed without wealthy benefactors. The scandal so far has centered around four American officials: John Huang, Mark Grobmeyer, Mark Middleton and the late commerce secretary, Ron Brown.

Let's play a fun little game called "Guess Who Will Be Blamed for the Scandal?" Which of the four names listed above do you think is most likely to be held responsible by the Clinton administration for Indogate? Any guess yet? No? Okay, let me give you some hints.

There is a precedent in the Clinton administration by which we can determine who will be blamed for Indogate. That precedent is Filegate, where hundreds of FBI files were found to be illegally in the possession of the Clinton administration. When this scandal broke, it was quickly discovered that White House Chief of Security Craig Livingstone had collected the files. The next question was who was responsible for hiring this oaf? Members of the

administration found a convenient scapegoat: blame it on

TIME OUT: Any guesses yet as to who will be blamed for Indogate? Not yet? Okay, then let's proceed. Why was Foster blamed for hiring

Livingstone? Simple; he is dead. Passing the buck on to the deceased has two big advantages. First, the dead

defend themselves. We pretty much have

word of those

David Hogberg

who claim the deceased, while still

alive, was responsible for much of the doo-doo the

administration is now neck deep in.

Second, blaming the deceased causes no serious damage. You see, one of the things about dead people is they stubbornly refuse to be fined or go to jail. Thus, if the responsibility for a scandal can be laid at the feet (er, coffin?) of the deceased, then no one will be punished by law or suffer any real harm. Oh, sure, the reputation of the deceased will be tarnished, but that's another darned thing about dead people - they generally don't complain about such matters.

As most of you have probably guessed by now, the official who is most likely to be blamed for Indogate will be Brown. Perhaps you think the Clinton administration would never do that; after all, they said so many wonderful things about him after he died. Yet, they said many of the same things about Foster after he committed suicide, but that didn't stop many administration officials from blaming him for as much of Filegate as possible.

So prepare in the coming months to see Brown's name dragged through the mud as the Congress investigates the Indogate scandal. The Clinton administration has shown once before it is more than willing to tarnish the reputation of the deceased for the sake of convenience. When its neck is on the line, this administration has proven itself to be utterly shameless, and will probably do

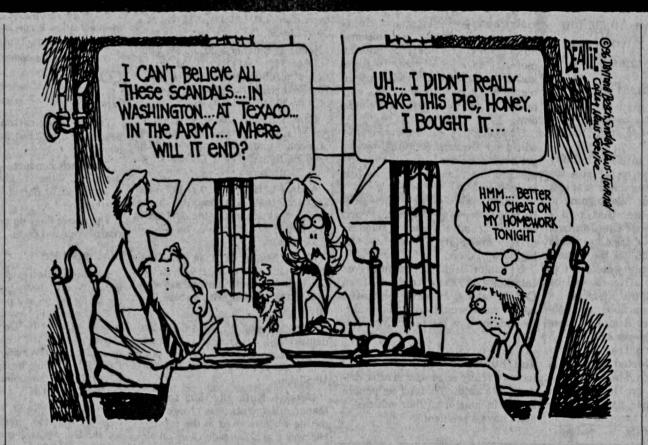

n a lighter note: Some of you have written letters to the editor in response to some of my columns in the last few weeks. I have appreciated your comments, so thank you. It means someone besides my mom is reading my diatribes. By the way, mom, thanks for sending the pumpkin bread.

David Hogberg's column appears Fridays on the Viewpoints Pages.

•LETTERS POLICY Letters to the editor must be signed and must include the writer's address and phone number for verification. Letters should not exceed 400 words. The Daily Iowan reserves the right to edit for length and clarity. The Daily Iowan will publish only one letter per author per month, and letters will be chosen for publication by the editors according to space considerations. Letters can be sent to The Daily Iowan at 201N Communications Center or via e-mail to daily-iowan@uiowa.edu.

 OPINIONS expressed on the Viewpoints Pages of The Daily Iowan are those of the signed authors. The Daily Iowan, as a nonprofit corporation, does not express opinions on these matters.

•GUEST OPINIONS are articles on current issues written by readers of The Daily Iowan. The DI welcomes guest opinions; submissions should be typed and signed, and should not exceed 750 words in length. A brief biography should accompany all sub-missions. The Daily lowan reserves the right to edit for length, style and clarity.

Still waiting for the Cambus

any people see the Cambus system as a reason to attend the UI, especially if transportation is a problem for

Cambus use is included in your tuition and fees. When students pay their U-bills, it is assumed that the student will get a complete bus system that will take them just about anywhere they will need to go, right?

Not exactly. Actually, it depends on what type of student you are. If you are a traditional student who lives in the residence halls, you'll get service at all times of the day, from 6 a.m. to midnight, at a maximum of every 15 minutes. So, if you miss a bus, you won't have to wait very long before another one comes along.

However, if you are a married student who chooses to live in the family/married student housing, you will still pay the fee, but will only get service every half-hour and only after 7 p.m.

Before that, if you need to catch a bus, which several students do. you will have to pay the Iowa City Cambus has been around since the mid-1970s, and the Hawkeye apartments have been around since

1968. Family/married housing still hasn't been able to get the service it deserves.

transit fare or get a bus pass, for a bus that will only run every halfhour during the busy hours of 6-9 a.m. and 3-7 p.m. The rest of the time, you will only get service on the hour. That makes it difficult for students to plan their schedule and get around.

Family/married student housing, which is almost in Coralville, is farther from the main UI campus than the residence halls. However, the fee is still paid. Cambus has been around since the mid-1970s, and the Hawkeye apartments have been around since 1968. Family/married housing still hasn't been able to get the service it deserves. Mayflower Residence Hall was bought and used as a res-

idence hall after the Hawkeye apartments were built, yet it receives almost immediate fulltime service. So, is this a matter of age? Not

likely. A matter of distance? No, these apartments aren't as far as some other routes the Cambus takes. Or is this a matter of poli-That could be the answer. The

Iowa City transit system has been around for years and had a claim on the service going to family/married housing before the Cambus came along. There is the concern of the city

losing money if that route, which brings in a lot of money, were to be taken over completely by the UI. The city has already lost money from the Cambus going to Mayflower.

No matter what, students should get what they pay for. If that is hard to do, than they should be compensated in another way.

Why they call them 'bouncers'

T Tell hath no fury like a bouncer scorned. Every time some-Tone gets thrown out of a bar against their will, the chance of injury is more than slight. Along with the natural chance of a mishap, sometimes bouncers put a little extra into the expulsion of

The thing most people see when a deviant is ousted is what looks to be unnecessary force by the bouncer. However, what is missed are the preceding events. Excessive life just that much worse for the force is often the only way to get rid of someone who is willing to fight anyone to stay. Rather than diplomacy, bouncers often take measures into their own hands, which is their right.

In a bar scene, it is the bouncers' job to control the masses. Leveling of patrons is not their objective; they only intend to get a dangerous person out the door any way possible. On some occasions, people get hurt in the process, including the bouncers. Virtually every person who is forced to leave tries to escape the bouncers' grasp, which

Leveling of patrons is not their objective; they only intend to get a dangerous person out the door any way possible. On some occasions, people get hurt in the process, including the bouncers.

person ousted.

Yet, when the person is being shuttled to the door in a agonized ball and no longer able to fight, people think the person is an innocent man who is in the clutches of an overbearing bouncer.

Omnipotent as they may seem, bouncers and the bars they work for often get sued over injuries sustained in their establishments. Undoubtedly, most of these injuries are the fault of the patrons themselves, but the bar would rather fork over a little cash than get into an expensive legal battle. makes it necessary to use more Knowing this, it makes no sense force. Every kick or elbow makes why a bouncer would deliberately

use any more force than necessary. In many cases, their jobs are on the line if the person gets hurt. And if the bar knows a certain bouncer is endangering their customers, it is in the bar's best interest to fire that person for fear of liability of any actions he may take.

One bouncer from a local downtown bar said, "We just want to get the person out of the bar. If they fight back, we have to take action that minimizes the risk to ourselves and the bar. If that means getting a little rough, so be it. But that is not our goal.'

Personal injury is also on the minds of the bouncers. When they break up a fight, fists often are flying and the possibility of getting hurt is high. In order to protect themselves, they sometimes have to take extreme actions.

But do not fault them. The bouncers' job is to simply keep the peace, not to pummel students.

Marriage, judgments and beauty in inconsistency

re you married?" the attractive woman asked me, her left eyebrow arching with impending disap.

"No. Are you?" I asked.

"No," she said, and looked away for a brief moment, until her eyes darted back to the ring on my finger, where she studied and considered it while she slowly queried, "So what's with the

I was in Alabama, at a conference. I had met this woman last year, and had

liked her very much. But I remember, even then, she had a striking "in your face" attitude that even this New Yorker-turned-Iowan finds to be a bit much. (I was glad to find out she is from California and not New York.) Last year, she asked me my sexual orientation in the following way:

"Are you a

dyke?" I told

Lea Haravon

bisexual, and that seemed, basically, to be OK with

But the diamond engagement ring of this year seemed to be another story.

A few days before I left for this conference, I proposed to Steve, my partner in love, adventure and, now, in life. I decided to do it at New Melleray Abbey, the Trappist monastery in Dubuque I visited the week before - the perfect place for a Jewish, bisexual, Quaker, feminist from New York to propose to a Midwestern, Irish Catholic, heterosexual, white male from Indiana, I figured. I did not tell Steve where we were going. I just said, "I need 24 hours from you. Bring a toothbrush." He oblig-

I guess you can not call New Melleray a romantic spot; after all, we had to sleep in separate "cells." But it is, to me, a sacred place. And that's what I wanted. I got down on one knee and asked a fourword question that changed our lives forever. After this discussion, we entered the chapel, sitting alone together in the silence, hoping God, or at least one of the monks, would see us and bless our union.

Steve stood up, reached into his jeans, and pulled out a gray velvet box he had been carrying around with him during our stay at the abbey. A toothbrush was not the only thing he had brought, it seemed. So much for surprising him with this proposal. He put the ring on my finger, which is how it found itself in Alabama, the subject of a conversation with a woman I hardly knew. So what's with the ring? "I got engaged a few

days ago," I told her. "Oh." She eyed me up and down. It didn't feel

very good.

It reminded me of the time I talked to some straight friends about my girlfriend. It reminded me of the time I told my rabbi I am also a Quaker. It reminded me that Steve and I cannot get married in my synagogue because he is not Jewish. It reminded me of some people's reaction to the number of chronological years between Steve and me. To some people, our loved ones will be the

"wrong" sex, age, religion, race or political persuasion. Our only real option when faced with such judgments, it seems to me, is to be our truest, deepest, fiercest selves, whatever that turns out to be. It is also our obligation to respect others' truest selves, whatever form that trueness may take.'

This woman from the conference may see my ring and think "boring mainstream, conservative, straight girl" just as someone else might have thought "angry, destructive, hateful, lesbian feminist" when I wore my "Dykes from Hell" T-shirt at a gay pride rally. Perhaps both are right. If there's one thing I have learned from Steve, it is that such assumptions are often wrong; they constrict our world, closing us down to wonderful, growing possibilities. Usually, our first glances, our first knowledge of people, do not provide enough information. We all know what it is like to be prejudged, and we have all done it to others as well.

seems we are going to get judged, particularly by our communities, when we tell our truths. Because our truths, our lives, are often inconsistent, contradictory and blurry, they rarely fit into preconceived schemes, even when they include something as mainstream as marriage. Once you know the details of a life, it rarely fits easily into a particular category, unless, of course, you censor and erase the parts that don't fit into a clear and seamless narrative.

But those jagged edges, those bumps and unclear spots, are what makes living such an interesting

For myself, I think life is too fascinating to be part of only one clear and simple story.

Lea Haravon's column appears Fridays on the View-

Texaco's rac of a very rea ne recent embarrassment

of the scandals and racial tensions ailing Texaco should serve as an opportunity for the academic community to raise some questions about the current status of race relations in the United States, on university campuses across the country and in our community.

The discovery of blatant racist employment policies, and the use of

racial slurs and "nicknames" in one of America's top oil companies, should, at the very least, call our attention to the troublesome nature, the deep roots and the staying power of this problem

American soci-

ety. I think all

Americans are responsible, whether black or white, Republican or Democrat, rich or poor, for making it clear to the executives involved in the Texaco scandal that this way of thinking is, or ideally should be thought of, as Anti-American. In the era of post-political correctness, and in the wake of anti-affirmative action initiatives, the Texaco situation is a sad wake-up call to all of us. We must reconsider and recognize there has always been, as there is now, the threat of racial tension

ready to explode. It's not just O.J. Simpson, it's not just Rodney King, or the Los Angeles uprisings. (Why do we have to call then "riots"?) It's not just the unrest caused by the recent acquittal of white police officers who have killed black men in southern states. In other words, it's not

Letters to the

Breaking down anti-affirmative action arguments

To the Editor:

from whites and Asians.

for minority students.

David Hogberg's Nov. 15 "Time to fix what affirmative action has done" analysis of the problems associated GPA/SAT scores as the sole factors determining African- and Latino-American collegiate success. This is at the expense of considering that those occupying the lower rungs of the social and often economic hierarchy are confronted with far different obstacles

With how many Latino or blacks has he developed meaningful enough relations to understand that there exists a crisis of confidences stemming from having one's intelligence questioned at every turn, with little or no regard to one's test scores? The alienation experienced by many minorities in confusing and hostile environments in which their mere presence is a personal affront and a smear on the prestige of their schools in an onus with which few are able to cope successfully or at least without scars. Dismantling affirmative action does nothing to make campus environments more hospitable

Secondly, Hogberg argues that affirmative action is not only responsible for admitting unqualified minorities, thus diabolically setting them up for failure, but for the Balkanization that has resulted in racial groups only mixing amongst themselves. Such a statement belies his ignorance on the topic (perhaps requisite for editorial journalism) and is naive, guided by a romanticized notion that before affirmative action, race relations were just hunky-dory.

Though not altogether wrong given the composition of colleges before social reform, omitted is any recognition that concomitant with changes in the student and professorial pool will be a healthy contestation of the "traditional" intellectual and ideological landscape, more democratically representing the makeup of the society at large. This is evident in the lively growth of gender and ethnic studies as well as the concerted re-evaluation of the "canon." Eliminating affirmative action will succeed only in narrowing the range of intellectual discourse, a decidedly undemocratic regression.

Stressing the shortfalls of affirmative action overlooks its positives. We have affirmative action to thank for Skip Gattes Jr., Cornell West, Lani Guinier, even Clarence Thomas and countless others, who all would have been excluded, not for their lack of qualifications, I presume, but because they were deemed inferior and their presence not serving white interests. If Hogberg doesn't like affirmative action because he doesn't see it in his best interest then he should say so; but, everyone knows that getting rid of affirmative action "fixes" nothing other than the people — ugly, stupid and

Breaking down anti-affirmative action arguments

To the Editor:

David Hogberg's Nov. 15 "Time to fix what affirmative action has done" analysis of the problems associated with affirmative action focuses on GPA/SAT scores as the sole factors determining African- and Latino-American collegiate success. This is at the expense of considering that those occupying the lower rungs of the social and often economic hierarchy are confronted with far different obstacles from whites and Asians.

With how many Latino or blacks has he developed meaningful enough relations to understand that there exists a crisis of confidences stemming from having one's intelligence questioned at every turn, with little or no regard to one's test scores? The alienation experienced by many minorities in confusing and hostile environments in which their mere presence is a personal affront and a smear on the prestige of their schools in an onus with which few are able to cope successfully or at least without scars. Dismantling affirmative action does nothing to make campus environments more hospitable for minority students.

Secondly, Hogberg argues that affirmative action is not only responsible for admitting unqualified minorities, thus diabolically setting them up for failure, but for the Balkanization that has resulted in racial groups only mixing amongst themselves. Such a statement belies his ignorance on the topic (perhaps requisite for editorial journalism) and is naive, guided by a romanticized notion that before affirmative action, race relations were just hunky-dory.

Though not altogether wrong given the composition of colleges before social reform, omitted is any recognition that concomitant with changes in the student and professorial pool will be a healthy contestation of the "traditional" intellectual and ideological landscape, more democratically representing the makeup of the society at large. This is evident in the lively growth of gender and ethnic studies as well as the concerted re-evaluation of the "canon." Eliminating affirmative action will succeed only in narrowing the range of intellectual discourse, a

decidedly undemocratic regression. Stressing the shortfalls of affirmative action overlooks its positives. We have affirmative action to thank for Skip Gattes Jr., Cornell West, Lani Guinier, even Clarence Thomas and countless others, who all would have been excluded, not for their lack of qualifications, I presume, but because they were deemed inferior and their presence not serving white interests. If Hogberg doesn't like affirmative action because he doesn't see it in his best interest then he should say so; but, everyone knows that getting rid of affirmative action "fixes" nothing other than the people — ugly, stupid and

wretched in Hogberg's eyes — who have been fixed enough already.

On Coach Beglin's comments

To the Editor:

Having followed the Iowa women's field hockey team, I was disturbed after reading the comments made by Coach Beth Beglin following Sunday's game. While the outcome was disappointing, I hardly think this constitutes failure for the entire season.

Having been around the sport a long time as an athlete, I understand the frustration and disappointment of losing. However, one loss does not a failure make. After all the team did win the Big Ten title, seven players and Beglin were honored by their peers for those accomplishments. Is this failure? I don't think so!

What kind of message does it send to these athletes when their coach deems their entire season a failure because of one loss. What will these women who give their sport and university everything they have to offer take away from this experience? Failure? I hope not. Are you implying, coach, that despite being the MVP of the Big Ten, undoubtedly an All-American before all is said and done and one of the best players in the nation, that Kristen Holmes and her entire season was a failure? That Lisa Cellucci, the best goal-keeper in the Big Ten and one of the best in the nation, too, is a failure? That Mary Casabian, Diane Demiro, Melisa Miller, Kerri Lessard

and Mandy Abblitt, all of whom were also honored by the Big Ten for their efforts, are also failures?

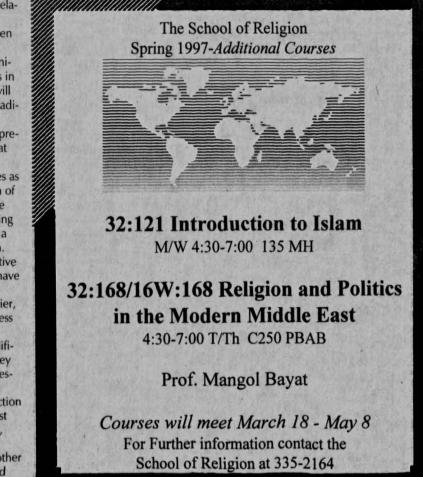

And the players who did not receive awards but who also balance school and athletics as well as continuously give their hearts and souls to the game are failures simply because they didn't reach one goal they set for themselves?

After the game on Sunday, all of the players surely felt bad enough without having to pick up the paper and read that their coach who is supposed to be someone they respect has dubbed them and their entire season a failure.

Perhaps it's time to put things in perspective. All too often we equate not reaching one's goal with failure and forget about the short-term goals that were met and the valuable lessons taken from this process. What kinds of lessons do we want athletes to take away from the sport, that winning equals success and losing equals failure? I hope not!

What's really important here is that the UI and the coaches are providing student-athletes the opportunity to participate in sports while also pursuing an education. Along the way, they are hopefully being provided with valuable lessons such as teamwork, discipline, hard work, setting goals and doing their best to reach those goals. If they are coming away from this experience believing that in order to be a success you have to win and that by not reaching one goal that they and their entire season are a failure, perhaps someone has failed THEM.

decided Thursday.

"He has the highest level of musical integrity," he said.

Working with him has given me an appreciation for his musicianship, an admiration for him as a person and an appreciation for his very interesting sense of

students has created admiration for the teacher by his pupils.

"Even though there is no call for awe on the part of students, there has been a lot of awe," he said. "There's a great deal of devotion and a willingness to take new and difficult repertoires. A lot of them have come here because of him."

In addition to his work at the UI, Dixon was music director and conductor of the Quad City Symphony from 1965-94. He has also lent his conducting talents to orchestras from Minneapolis to Peru to Greece.

Dixon said mixing his passion for teaching with his work for professional orchestras has given him a unique opportunity.

The university has provided me with the stimulation of being around young people and has kept me young," he said. "My

Quad City position gave me the chance to work with professional musicians and guest performers. So, from my point of view, I've been extraordinarily fortunate to have the best of both worlds."

Himie Voxman, UI professor emeritus of music, was director of the UI School of Music from Cross said Dixon's work with 1954-80. He said he had a personal interest in Dixon's success.

'Jim was my first appointment to the music faculty," Voxman said. "When friends asked me why I chose him, I answered that I felt he had an ability based on something more deep-rooted than diligence. His extraordinary success with our orchestra and the Quad City Symphony is proof of

As for the future, Dixon said he is looking at retirement with a wait and see attitude.

"I'm going to do little things here and there; nothing definite," he said. "I'm just going to take

time and regroup."

Cross said all his time working with Dixon has left him with a great sense of pride and no complaints, except one.

'My only complaint against James Dixon is that he's retiring while still too young," Cross said.

Pro-choice activists pledge to maintain efforts

Tracy Potocki

The Daily Iowan

Despite a Republican-controlled Congress and the recent passage of the Parental Notification Law in Iowa, local pro-choice activists say they will continue their efforts.

At a forum Thursday night, a group of about 20 gathered to discuss recent and upcoming legislative action and how it would affect their cause. The Emma Goldman Clinic, 227 N. Dubuque St.; Planned Parenthood of Greater Iowa, 2 S. Linn St.; and Women's Resource and Action Center (WRAC), 130 N. Madison St., sponsored the event, titled, "Our Bodies ... Our Lives: Legislative Update and Workshop on Reproductive Health Issues."

Des Moines Planned Parenthood lobbyist Mark Lambert said Republicans have become the majority in the Iowa Senate.

"The Senate is not the pro-choice institution it used to be," he said.

The discussion Thursday night was focused on creating a new generation of activists, in the hopes of involving students and community members and remotivating those who are already involved.

"We need to activate activists, if not equal in terms of numbers (to pro-life activists), then in terms of power and commitment," Emma Goldman Clinic Director Marilyn

Cohen said.

Lambert said the Parental Notification Law, which will take effect Jan. 1, will not reduce unwanted teen pregnancy. Under the law, minors seeking abortions in Iowa will have to notify their parents and wait 48 hours before going through

with the procedure. "The law may ... (cause) some minors to put off dealing with a pregnancy until it's too late to obtain a legal abortion - creating more births to teen-age mothers,' Lambert said. "(Currently) minors come to Iowa City or Des Moines from Minnesota (for an abortion) because (their home) state has a Parental Consent Law."

Lambert said there are many more constructive and effective ways in which the government could deal with this situation.

"The government should allocate more money for human sexuality

and birth control information rather than to force communication between parents and children," he

Although both houses of the state egislature are Republican-controlled, all is not lost, Lambert said. By getting to know your district representatives and keeping in contact, much can be accomplished, he

Lambert said action will make all the difference in winning support because there are more pro-life than pro-choice representatives right now and others who are mixed vot-

"(First Congressional District Rep.) Jim Leach portrays himself as a pro-choice, moderate Republican and he has voted in the past for restrictions on a woman's right to choose," Lambert said. "He's someone who's persuadable and needs to be talked to."

President tees off, snorkels in Australia

Terence Hunt

Associated Press PORT DOUGLAS, Australia -

After dueling on the golf course with the Great White Shark, President Clinton was swimming with the fish today at the Great Barrier

The shark, of course, was Greg Norman, Australian golfing star who treated the president to an 18hole "lesson" Thursday.

"He's beating me," Norman shouted to reporters at the sixth

"If you believe that," Clinton replied, "I've got some land I want to sell you.'

Actually, they didn't keep score, White House officials said later, a certain benefit for Clinton against the No. 1-ranked golfer in the world and holder of 16 PGA titles

After their match in Sydney, the president flew to this lush tropical beach resort in northern Australia for a snorkeling excursion and more

The president and his wife, Hillary, planned to take a boat out to the Great Barrier Reef, a snorkeling paradise and one of the great natural wonders of the world.

Stretching more than 1,200

coral reefs and islands in the world, comprising more than 2,600 individual reefs and some 300 islands.

The president's appearance was intended to lend support to the International Coral Reef Initiative, founded in 1994 by Australia, the United States and six other governments to promote the sustainable use of marine resources.

Photographers were told in advance there would be no pictures of the first couple in the water.

The two-night stay in Port Douglas was Clinton's last stop in Australia before a summit of Pacific Rim leaders in the Philippines. After that, the president will make a day long visit to Thailand before returning to Washington on the eve of Thanksgiving.

As the president golfed Thursday, Rodham Clinton delivered her first major speech since the election, addressing about 500 people beside Sydney Harbor. In a question and answer session, she was asked about her life as first lady and stereotypes about the role.

"There's really no way to escape the politics of one's time if you're in that position than to just totally withdraw, perhaps have a bag over she said.

President Clinton reacts to sinking a putt Thursday at the New South Wales golf club in Sydney, Australia. Clinton spent the afternoon golfing with professional golfer Greg Norman.

your head when you come out into

She closed her remarks by saypublic, or in some way make it clear ing, "I think the only answer is to you have no opinions and no ideas be who you are and do what you do about anything and will never and get through it and wait ... for express them publicly or privately," the first man to hold the position and see how that turns out.'

U.S., China hope to smooth 'rough spots' in relationship

Donald Rothberg Associated Press

WASHINGTON - The words out of Beijing sound encouraging for the future of U.S.-China relations. But Chinese deeds - war games in the Yellow Sea and arms and technology sales to Iran have an in-your-face quality that raises questions in Washington about the worth of the promises.

A test will come Sunday when President Clinton meets his Chinese counterpart, Jiang Zemin, on a former U.S. naval base in the Philippines.

It's unlikely the two presidents can make dramatic progress on the long list of differences between

their countries. The most positive signal to come from their meeting might be an announcement that Jiang will visit the United States next spring, and

the year. Secretary of State Warren Christopher, in Beijing to do advance planning for the Clinton-Jiang meeting at the Asian-Pacific Economic Cooperation summit in the Philippines, told his hosts "cooperation and dialogue will best advance our mutual interests."

But it will take more than words to smooth the rough spots in the U.S.-China relationship.

CIA officer accused of spying faced alimony payments

Robert Burns

GOVERNMENT

Associated Press WASHINGTON - At the time CIA officer Harold Nicholson was alleged to have started selling secrets to Russia, he was about to begin making alimony payments equal to one-quarter of his net monthly income, court and FBI records show.

The government, which charged Nicholson with espionage Monday and is scheduled to argue next week that he be held without bail, contends the CIA officer sold out to Russia for \$120,000. It has not publicly asserted any link to his divorce settlement or other personal financial matters.

"He betrayed his country for money," U.S. Attorney Helen Fahey said at the time of Nicholson's arrest. "He was not motivated by

ideology but by greed. Nicholson, a 16-year CIA veteran, is accused of providing the wide range of U.S. national security secrets, including the names and planned assignments abroad of new undercover CIA officers. He is the highest-ranking CIA officer

ever to face espionage charges. In the CIA's most damaging spy case, veteran officer Aldrich Ames confessed in 1994 to selling secrets

SPECIAL

to Moscow for nearly nine years for FBI says. \$2.7 million. Ames, who said he took an initial \$50,000 payment to ing the conclusion of a lengthy pay off debt, also was in the middle of a divorce when he turned to the

Russians in spring 1985. Nicholson's court-appointed attorney, Jonathan Shapiro, said Wednesday his client would plead innocent. Nicholson has made no public comment since his arrest

On Thursday, acting on Shapiro's request for help, U.S. Magistrate 31, 1994, required Nicholson to pay \$4,062, plus \$2,000 in legal fees. Thomas Jones Jr. appointed Washington lawyer Liam O'Grady to

help with the defense. The FBI says a series of unexplained cash payments and deposits in Nicholson's bank and credit card accounts started with a \$12,000 wire transfer to a savings account in Nicholson's name at Selco Credit Union in Eugene, Ore., on June 30, 1994 - one day after he allegedly met with a Russian spy officer in Kuala Lampur, the Malaysian capital where Nicholson was deputy CIA station chief. That summer he began a new CIA

assignment in the United States. The \$12,000 and other deposits totaling more than \$100,000 were not reported by Nicholson on annual financial disclosure reports the CIA requires from employees, the

The Smart Money is on Budget."

1104 S. Gilbert

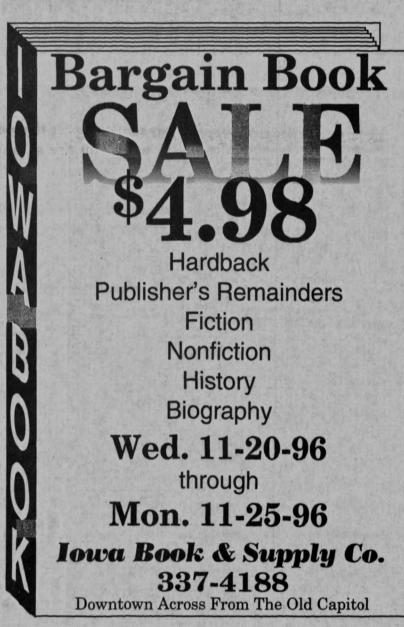

At the time, Nicholson was neardivorce and custody fight with his wife of 21 years, Laura Nicholson. They had separated in June 1992 when he took the Malaysia post; she went to stay with a brother in Shelton, Wash. That same month she filed for divorce in Mason County Superior Court.

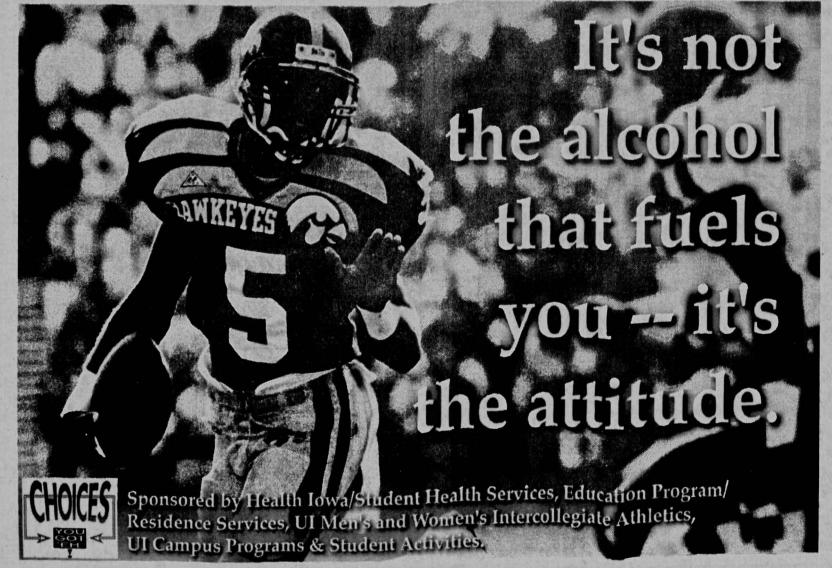

Records on file at the court say the final divorce order, issued Aug.

\$650 a month in alimony for two years, a period deemed sufficient to allow her to finish her college studies and find a job.

According to the court records, Nicholson's monthly gross income was \$3,418 and his net income (after taxes and insurance) was \$2,455. The \$650-a-month alimony therefore was nearly one-quarter his net income.

Nicholson also was ordered to pay his wife a cash settlement of

year-old college freshman facing harges of murdering his girlfriend's newborn son surrendered hursday while onlookers shouted baby killer!" and his mother wept. Surrounded by dozens of porters and photographers and companied by his parents and is lawyer, Brian Peterson Jr. furned himself in to the FBI nine ays after the baby was dumped in A federal fugitive warrant had en issued late Tuesday after authorities became frustrated with forts to negotiate the surrender.

Associated Press

Barbara Peterson has a few final moments with her son, Brian Peterson Jr., before he surrendered to the FBI in Wilmington, Del., Thursday. Peterson is wanted in the murder of his girlfriend's newborn son.

son's shoulder. She had her arms wrapped around her son and was sobbing when FBI agents and dozens of reporters and photographers surrounded the family about half-block from the FBI offices.

Peterson, wearing a blue Villanova baseball cap, blue jacket and jeans, looked dazed. As the young man was led into the building, his mother shouted: "I want to go with him! I want to go with him!"

Once inside, Peterson started crying, but also comforted his sobbing mother, telling her it would be all right, his attorney Joseph Hurley said.

Peterson was booked at the Newark police station and then brought before Magistrate Court Judge Vernon Taylor for a bail hearing. The judge ordered him held without bail at the Gander Hill Prison.

Small print to be removed from car-leasing ads

Darlene Superville Associated Press

WASHINGTON - Lease a car for just a penny down? Nice, but don't count on it, the government said Thursday in announcing that five major automakers have agreed to stop burying important leasing costs in the fine print at the bottom of their advertise-

From now on, details of those - such as taxes, title and registration fees - must be displayed as boldly as the print that blares "Zero Down," said Federal Trade Commission (FTC) chairperson Robert Pitofsky.

These disclosures are important and add hundreds and thousands of dollars to the cost," he said at a news conference. "The problem is they are not readable and they are not understandable."

The agreements with the FTC require General Motors Corp. and the U.S. subsidiaries of Honda, Isuzu, Mazda and Mitsubishi to include clear and understandable cost information in their nationwide advertising.

One-third of all new cars in this country are leased. That figure is expected to grow to half of all cars by the turn of the century, said Mary Ponder of the Consumer Federation of America.

Leasing is an appealing alter-

afford to buy a new car, the average price of which has climbed to \$21,600, said the National Automobile Dealers Association. Monthly payments for a new car can be up to 50 percent higher than the monthly cost of a leased

"That seems to be the bottom line, 'How much do I pay each month?' and that isn't the whole story," Ponder said.

But car leases also have led to a growing number of consumer complaints as shoppers gripe that they often don't know before they get to the showroom how much it will cost to drive away a new set

Donna Reichle, spokesperson for the National Automobile Dealers Association, said she believes consumers know to look at the "small print for those hidden

"Leasing provides a great way to get that monthly payment a new car for almost nothing when down and still get that vehicle you desire," she said.

In September, the Federal Reserve Board approved new rules to reduce confusion over carleasing contracts by requiring dealers to give consumers a single page explaining the agreement's key elements. That would include the base price of the car, the They're over with."

native among shoppers who can't monthly payment and how it was calculated, and possible penalties for ending the lease early.

The requirement will take effect in October 1997 with the goal of helping consumers quickly

understand important transaction

None of the five companies that settled with the FTC admitted wrongdoing. The consumer protection agency has brought actions against individual dealers over similar allegations, but this was the first FTC case against car

The agreements do not require refunds for consumers who believe they were cheated on a lease deal.

The commission will decide whether to make the agreements final after a 60-day period for public comment.

Pitofsky said the advertising was deceptive because consumers were led to believe they could lease that wasn't the case. He said the FTC would also review advertising

by other car companies. "Zero down means zero down," said Grant Woods, attorney general for Arizona, one of 23 states that struck similar agreements with GM, Honda, Isuzu and Mitsubishi. "These ads are done.

sociated Press

PORTLAND, Ore. - Weakened ly this week's downpours, a secon of one of Oregon's major highways collapsed "faster than fast" Thursday morning, leaving a 40foot-deep sinkhole that swallowed a tractor-trailer.

In Washington state, two people using a charcoal grill to heat their trailer died, apparently of carbon onoxide poisoning.

Both lanes of Interstate 5 were closed for hours after part of the orthbound lane collapsed into the South Umpqua River near Roseourg, about 70 miles south of

One truck drove into the 100pot-wide hole, one hung on the edge and a third swerved and ended up across the median strip, hit-ing a motorist who had stopped ear the sinkhole.

The motorist hit by the third tuck had a foot so badly injured it had to be amputated, but the drivers of the three semis, amazingly, uffered only, minor injuries,

authorities said. "You know how fast fast is? This happened faster than fast," said Albert Wilkinson, the driver whose truck wound up on the edge I the hole. "All of a sudden you're going along fine. The next thing you know you're at a dead stop and everything's crumpled in on

Wilkinson said his cab was mbedded in a guardrail while the truck's back end hung over the ole, its wheels sheared off.

"There was just a big bang, and then the whole tractor was just asintegrating," he said. "I couldn't get my seat belt undone; my leg was pinned in there. There was a by out in the highway yelling, 'Sinkhole!'

"I looked back and there was a uge, gaping hole," he said.

Water pouring off of Mount debo, a rock outcropping on the south side of the highway, com-bined with high river levels had andermined the soil beneath the highway, creating the sinkhole, said Sue D'Agnese, a geologist with the state transportation

Viewing the wreckage, Roseburg Pire Department division Chief Bob Scott said both Wilkinson and the driver who went all the way nto the hole should have been

Ten games later, entering Sat-urday's 7:34 kickoff against No. 24 Iowa at the Hubert H. Humphrey Metrodome, nothing has changed.

"On film, they are the most difficult team we see to try and figure out what they are going to do on defense," Fry said. "They are wild and dangerous, like a wild

"Defensively, they use every stunt and blitz in a lineman known to any football coach. They are very, very complex. If they are hot, they are really hot and look very good.

The Golden Gophers were hot in their 35-33 upset of Syracuse on Sept. 21, and again against Ohio State on Nov. 2 when they only trailed the Buckeyes by a 10-0 score at halftime.

But with the wild, risky defense comes problems as well.

A miscalled stunt or blitz can be disastrous, as was the case in a 48-25 loss to Wisconsin in which Ron Dayne rushed for 297 yards. The rushing defense had the

same problem last weekend against Illinois, when the Fighting Illini's Robert Holocombe ran for 325 yards, although Minnesota held on for a 23-21 win. "You never can anticipate what

they are going to do," Fry said. "They may run a scheme that may completely shut us down, but there is also a chance that we can exploit that if they make the wrong call."

That's good news for Iowa tail-back Sedrick Shaw, who needs 105 yards to become only the eighth player in Big Ten Conference history to rush for over 1,000 yards in three straight seasons.

"If winning the game means Sedrick running the football, then he'll get it," Fry said. "But we're not looking for it. If they load up the line, than we may pass 40-50

Iowa senior Sedrick Shaw needs 105 yards against Minnesota Saturday to surpass 1,000 for the year. Minnesota's offense is anchored the Hawkeyes in Iowa City, and by junior quarterback Cory Sauter, who ranks fourth in the Big Ten in passing. Fry considers

"He's a great big guy who throws the ball extremely well," Fry said.

The Golden Gophers enter the game with numerous motivational factors as well.

Not only will it be the final game in the career for 16 seniors, but the last at Minnesota for the well-liked Wacker as well.

In addition, the Golden Gophers selves for last season's 45-3 loss to

reach their fifth win, the team's highest total since 1990.

"I know last year, man, we really did a number on those people," Fry him the best passer in the confersaid. "I hope we can continue it. "But we seem to always catch people, from an emotional stand-

> point, at the height." One final item for both teams is

> the battle for Floyd of Rosedale, which is awarded to the winner of the game. The bronze pig has spent the last three years in Iowa City. "I don't know what it's all about,

but I'll do my best to keep that pig here," Iowa senior Bill Ennis-Inge will be motivated to redeem them- said. "If the pig stays here, then we know we've done our job.

the Rose Bowl last season, told Notre Dame officials he no longer wanted to be considered as Lou Holtz's successor. Holtz

announced his resignation Tuesday and later that day Barnett said he had been contacted by Notre Dame about the job. Reports said he was the leading candidate for one of college football's most prestigious positions.

"I am very humbled and flattered that Notre Dame has asked me to be considered a candidate for their head coaching football position," Barnett said in

a statement. "However, for very personal and private reasons, I have informed Notre Dame officials that I wish not to be considered as a candidate. Regardless of the rumors, an offer was never extended to me by Notre Dame. This is all I will say about this matter."

Northwestern athletic director Rick Taylor was elated by Barnett's announcement, which came as the team was practicing at its new indoor facility Thursday.

"It's obviously a great thing for the university," Taylor said. "It's great for Northwestern. It's a reaffirmation of where our program is and what we are trying to do and what we're all about and where we are going to go," he added.

Webb may go out with a bang

James Kramer The Daily Iowan

Things haven't always gone well for Iowa volleyball player Jennifer Webb. But through all of her setbacks, she has displayed perseverance and courage.

If all goes well this weekend, Webb could be rewarded for these virtues. The senior outside hitter needs 26 kills to break Iowa's all-time record, which is currently held by Barb Willis.

The Hawkeyes (10-17, 5-11 Big Ten) host Ohio State on Friday, Webb and Penn State on Saturday. Both matches are scheduled for

7 p.m. in Carver-Hawkeye Arena. 'It would be nice to leave my mark here at Iowa," Webb said. "It's an honor, obviously, but I'd rather be in the top part of the conference. "It's kind of like a consolation prize."

Milestones are set almost every day in sports, but Webb's quest is special. Both of her knees have been reconstructed through surgery, and many observers wrote her off.

"I've busted my ass to get where I am today, so nobody can say I didn't earn it,' said Webb, who enters this weekend with 1,718 kills.

Webb's comeback has astounded her See WEBB, Page 2B

IOWA SEASON OPENER

Brian Ray/The Daily Iowan

Senior Jess Settles will kick off his fourth season with the lowa men's basketball team tonight when the Hawkeyes face Western Illinois in Moline, Ill.

Hawks open '96 in Moline

Mike Triplett The Daily Iowan

After a pair of exhibition games in Carver-Hawkeye Arena, the Iowa men's basketball team kicks off the season, as well as a two-

week road trip, tonight at the Mark of the Quad Cities in Moline, Ill. The Hawkeyes will play Western Illinois. Tip-off is scheduled for 7 p.m.

Even with last year's 93-41 victory over the Leathernecks in the back of their minds, the Hawkeyes won't be taking this game lightly. It is Iowa's first test of the season,

and an important one, considering the Hawkeyes must head to a tough Maui Invitational field for three games in three days beginning Monday. That's going to be the best way for us to

prepare for a trip to Maui, is to get this win on Friday night and to see where it takes us," Iowa junior Ryan Bowen said. "We know time getting inspired to go back to work. we have to have a good game there to get there, we're going to have a lot of questions

See MEN'S BASKETBALL, Page 2B

Settles, Welsch didn't expect to be here

Six months ago Jess Settles was positive he'd be playing in the NBA by now. Brandon Welsch was pretty sure he would spend the season on the end of the Hawkeye bench without even a name on his jersey. They both were wrong.

And they both will play big roles when the Iowa men's basketball team kicks off the 1996-97 season tonight in Moline, Ill.

Settles bowed out of the NBA Draft in June and decided to return for his senior season at Iowa. Welsch had trouble finding many Division I offers despite a solid senior season in Muscatine, Iowa, so he decided to walk on with the Hawkeyes.

Though they are similar in that neither thought they would be playing against Western Illinois tonight, their reasons why are very different.

Whereas Welsch felt it would take some time to establish himself as a Division I player, Settles had hoped to get away from his college playing days. When he made the decision to come back, Settles had a difficult

"Down the stretch in the summer, it was ready for Maui. If we don't play a great game more of a chore to practice, which has always been something I love to do," Settles said. "I kept picking up the ball, but maybe not with

College Football

Michigan center Rod Payne celebrates his team's 31-23 victory over Ohio State in Ann Arbor last year. The Wolverines have given Ohio State coach John Cooper headaches over the last 8 years with a 6-1-1 series record. The two teams square off Saturday in Columbus.

doesn't make for any guarantees they're going to give great effort.

"The season isn't going to be complete or have a climax without finishing with a victory over Michigan.'

Mike Vrabel, Ohio State defensive lineman

Particularly not the way Michigan has been playing. The Wolverines were beaten 9-3 at Purdue two weeks ago and lost 29-17 last week at home to Penn State. Ohio State beat those two teams by a combined score of 80-21.

two of three heading into last down playing Ohio State." year's upset of the Buckeyes.

safety who is from Columbus, said, takes to win," Michigan coach total. Meanwhile Michigan piled "We've had their number, but that Lloyd Carr said. "I can assure you up 484 yards — more than the I've never been associated with a Michigan team that played in this game that didn't play with great effort and great heart.'

Because it's a red-letter day for fans from both sides, the game always is important. It takes on additional meaning for Ohio State because of national-title implications and for Michigan because the Wolverines can still salvage a decent bowl bid with a win. There's also the matter of ruining yet another perfect Ohio State season.

"It would mean everything in the world because they're the best team in the country," Michigan defensive lineman Will Carr said. "I know they're gunning for us. They'd love to beat us when we're Then again, Michigan had lost down. But we're not going to be

A year ago, the game spun on "You may have a question about Michigan's control up front. Ohio whether this Michigan team can State, averaging 231 yards rushing bounce back with the kind of effort and 500 total yards a game, was and intensity and execution that it held to 106 on the ground and 392 "It's a one-game season."

Buckeyes' two previous opponents combined - and tailback Tim Biakabutuka rushed for 313 yards, the most ever against an Ohio State defense.

This year, Ohio State has been led by a defense which has given up just 10 points and 238 yards a

There are questions about the quarterback position for both teams. Michigan's Scott Dreisbach has thrown five interceptions and lost three fumbles in the last two weeks alone.

Stanley Jackson is 10-0 as Ohio State's starter at quarterback, but he's played less and produced less the past month while backup Joe Germaine's role has increased. The starter won't be revealed until Ohio State's offense takes the field.

No matter who starts, both teams have unfinished business.

"Whether we're 0-10 or 10-0, we still have to beat Michigan," outside linebacker Greg Bellisari said.

THURSDAY NIGHT

Horned frogs fall to SMU

DALLAS - Ramon Flanigan assed for two touchdowns and Daniel Hernandez kicked four field goals Thursday night, leading Southern Methodist to a 27-24 win over Texas Christian in a Western Athletic Conference game.

The Horned Frogs (4-7 overall, 3-5 WAC) built a 17-6 halftime lead on two touchdown runs by Basil Mitchell and a 23-yard field goal by

But Flanigan came out firing in the Mustangs' run-and-shoot offense in the second half. He hit Kevin Thornal with a 6-yard TD pass then found Albert Johnson behind cornerback Corey Masters on a 65-yard scoring strike.

Hernandez, an All-American soccer player, made field goals of 45,

COLLEGE FOOTBALL ROUNDUP

Emotions running for Holtz's last home game

Associated Press

In a week of traditional games om Ohio State-Michigan to Alabama-Auburn to Harvard-Yale the most emotion of all could be one of the biggest mismatches utgers at Notre Dame.

This will be Lou Holtz' last home ame as coach at Notre Dame and he coach, who resigned Tuesday, insists that could be a problem ainst Rutgers.

When the coach informed his am of the decision, he said there Pas a strong, emotional reaction. "I orry about the focus of our footall team," Holtz said. "The distracons are the main concern I have." Rutgers, losers of seven of nine ames this season, would seem to ave more cause for concern. The Scarlet Knights would have been werwhelming underdogs under ormal circumstances. Now the cir-

Notre Dame (9-2) has one more ame, at rival Southern California, efore heading for a final bowl ame under Holtz.

nstances are not normal.

anked teams, with 19 of the top 25 The schedule is headlined by No.
