ELESS COMMUNICATIONS

Empty voting booths were a common sight across the UI Monday due to the low voter turnout for the UISG elections. Ballots can still be cast today at any of the 19 locations around campus.

After 1 day at polls, **UISG turnout lags**

By Kristin Bauer The Daily Iowan

As the UI Student Government polls opened Monday at 9 a.m., students were in no rush to rock their

before polls closed Monday - just more than 1 percent of students had voted at the Union, Burge Residence Hall, the Main Library and the Lindquist Center combined. In an effort to rouse voter interest, polls were placed in high-traffic executive for the UISG, led to the areas and pollsters shouted to passersby to come over and vote.

the student body turned out in two Doellinger to trim the amount of ays of voting, but the year before only about 3 percent of students he did well before the deadline. Yet, took to the polls. Monday's low for some reason, the brochures still turnout left candidates disappoint- weren't printed. ed and hoping for a better day

is a well-trafficked area and if only a little over 100 students have voted, then I will be very disappointed.

Brochures with each candidate's platform were to have been printed and placed at every polling site. By about 5 p.m. - two hours However, those never appeared, which led to confustion for perspective voters

Carrie Pendroy, chairperson of the Student Elections Board, said a miscommunication involving Heather Kramer, public relations absence of the brochures.

Pendroy said Kramer had asked Last spring, about 11 percent of UISG presidential candidate Chad inform n for the brochure, which Doellinger was in no way at fault, Pendroy said. Still, candidates for UISG offices offered other hypotheses for the low voter turnout Erin Studer, a member of the Miller-Henry ticket, said he doesn't think any polling site was very busy because they were spread out around the campus, which gave students an opportunity to vote at a variety of places. "I hope that there are a lot more students voting tomorrow, at least as many as last year," Studer said. UI pollsters Melinda Tate, a freshman, and sophomore Mandy Zaransky said a profile or even a picture of the candidates would help the students to vote. "I had people voting today who

Pride and triumph

UI's animal tests come under fire

By Emily Shack The Daily Iowan

Although complaints have been raised about UI researchers' use of live dogs, monkeys, cats and frogs to conduct experiments, UI Vice President for Research David Skorton defended the UI's practices at an open forum Monday.

Members of the UI Animal Coalition and the Citizens for Animal Rights and the Environment, as well as Sandy Carlton, president of the Montcalm County (Michigan) Citizens for Animal Welfare, met with Skorton and other UI doctors to discuss concerns about the UI's research practices. Although the UI representatives said improvements had been made since a forum about the same subject two years ago, the animalrights activists said the im ments were not sufficient. Carlton said the use of dogs sold to the UI by Class B, or randomsource dealers, disturbs her because many of these animals are lost family pets that were not given a chance to be reclaimed. "I want people at the UI involved in procuring animals to understand that these dogs they buy for research may have been once loved by someone," Carlton said. "These dealers are often unscrupulous, and often scour neighborhoods, taking pets from their yards." Carlton said one notorious dealer in Michigan, R and R Research, has been selling dogs to the UI since 1978, charging about \$300 per dog. More than 90 large dogs were sold to the UI in 1996. Research institutions prefer to experiment on animals that are accustomed to humans because they tend to be docile and easier to handle. R and R Research could not be reached for comment. UI researchers did not deny the charges. We are asking universities such as UI to stop purchasing from random-source dealers," Carlton said. "Please protect our pets." Skorton said UI researchers now use fewer animals of all species except for rodents. A revised Animal Care and Use Review Form requires researchers to consider alternatives, such as a reduction in the number of animals used and the use of invertebrate species and

"I had people voting today who would just choose the top candidate or a person that was the same sex as them."

UI sophomore and pollster Mandy Zaransky

today, as students get a second chance to vote from 9 a.m. to 7 p.m. Presidential candidate Allison Miller said she didn't know the exact vote totals at each polling site, but she had overheard how low the Union total was.

"I think that it has been really slow from what I have heard," Miller said. "I know that the IMU

would just choose the top candidate or a person that was the same sex as them," Zaransky said.

Esteemed scientist Gould to lecture on evolution

By Emily Shack The Daily Iowan

UI Distinguished Lecturer Steven Jay Gould may not be singing or strumming a guitar, but the renowned evolutionary biologist's multimedia presentation scheduled for Wednesday is expected to draw pop-star sized crowds. Gould, a world-renowned Har-vard evolutionary biologist, zoologist, geologist and curator of invertebrate paleontology, is set to pre-

sent a lecture titled "The Interaction of Art and Science" in the Main Lounge of the Union. Gould is famous for using understandable and interesting metaphors to

5) 249-8800 or call (800) 876-2355

explain his com- Gould plex and controversial ideas about evolution.

The last lecture by Gould at the UI during the mid-'80s was wellreceived, anthropology Professor Tom Charlton said. His challenging presentations usually cover a broad range of controversial subject matter, ranging from theories on the

nature of excellence and scientific arguments for racial equality to the origins of humans.

"This is one of the most exciting lectures of the year, as far as I'm concerned," UI associate professor of anthropology James Enloe said. "He's a great writer and a great speaker who can make evolution understandable to everyone."

Gould has more than 15 books in print and is the author of more than 200 consecutive essays for his Natural History Magazine column, "This View of Life."

"I am really anticipating this event," anthropology Professor Russell Ciochon said. "Gould is a major figure, and I speak about his evolutionary paradigm in my work.

Although Gould is considered the world's leading evolutionist, he is extremely good in communicating the results of his research and thought to the public, Charlton said

"He's always interesting; he always has something to say," he said. "I predict that he may speak on Wednesday about the dynamics of art and science in terms of creativity."

Gould makes complex topics

Network says no to another year of 'Roseanne'

NEW YORK (AP) -"Roseanne" has been given its pink slip.

Recently, Roseanne

approached ABC seeking a 10th year for the blue-collar sitcom, but the network passed, saying the cost wouldn't be worth it, the Daily News re-

Roseanne ported Monday. The network spends \$2.5 million per episode.

"We've been informed that this is the last year," a spokesperson for producer Carsey-Werner Co. told the News.

The star, however, is talking with ABC about doing another sitcom.

"Roseanne," on the air since 1988, tied in 1989 with "The Cosby Show" for TV's No. 1 spot. However, the ratings have slipped in the last few years. The show is No. 20 this season.

Brooks & Dunn, Rimes, **Strait top Country Music Award nominations**

UNIVERSAL CITY, Calif. (AP) The boot scootin' duo Brooks & Dunn, teen singer LeAnn Rimes and gentleman cowboy George Strait were the top nominees Monday for the Country Music Awards.

Kix Brooks and Ronnie Dunn led the pack with six nominations, including entertainer of the year. Strait, Garth Brooks, Alan Jackson and Tim McGraw were also nominated for that honor.

Rimes, the 14-year-old Patsy Cline sound-alike who won Grammy Awards last week for best new artist and best female country vocal, was nominated for top female singer, new artist and album, song and single of the year.

Baton passed to new Golden Girl **By Lydia Lifvendahl** The Daily Iowan

People in the News

After a five-year run as the UI Golden Girl, senior Tanya Pennock is turning in her shiny gold uniform and passing on her baton to a younger halftime star.

Although she said she is sad to leave the UI, Pennock is pursuing her new dreams to try for a new title – Miss Iowa. While Pennock follows her goals, UI freshman Julie Canterbury has fulfilled a lifelong dream that began at the age of 3. A native of Norwalk, Iowa, Canterbury will take her place at the head of the marching band or on football fields and basketball courts.

Beginning her career as a twirler at 3, Canterbury has lived all of her life watching and dreaming of being a Hawkeye. Under the tutelage of a former Golden Girl, a twirling teacher who represented Iowa in the 1959 Rose Bowl, Canterbury said this was one goal she held for her entire life.

"I can't remember when it began, I just always thought that one day I would be the Golden Girl until I found out how hard it was to become one," Canterbury said.

To become the Golden Girl, Canterbury had to send in a videotape, a résumé and a picture of herself. Dr. Morgan Jones, director of the UI marching band, receives hundreds of applications for the job, and then narrows down the field to two candidates. The two candidates have to audition and interview before a panel of five judges.

This year's judges were the announcer for the Hawkeyes, Lou Crisp; the public relations director for the UI band, John Gilbert; UI professor of Music Dr. Myron Welch; Jones; and Pennock.

The final award is a full-tuition scholarship from the Men's Athletic Department and the title of "Golden Girl.

"The Golden Girl does all of her own choreography, and therefore must have good self-motivation to take on the job," Pennock said. "Julie (Canterbury) was already a freshman here, is a native Iowan and really seemed intent on winning the position - she stood out."

As a UI freshman, Canterbury said she was unsure whether she would win the Golden Girl position.

New Golden Girl Julie Canterbury practices her routine Monday night at the Fieldhouse. Canterbury, who was selected from hundreds of applicants, will receive a full-ride scholarship for her efforts.

When Canterbury came to the UI Girl, I was ecstatic." she knew Pennock only had one

year left as a fifth-year senior. "I really came to the UI because I always wanted to. I knew that Pennock was leaving, so I decided to take my chances and sent in my application," she said. "When I found out that I was the Golden Canterbury said receiving a

scholarship is the last thing on her mind right now as she prepares for her upcoming responsibilities. "I don't know how much I'm

receiving, but I'm not really concerned with that. I would've done it for free," she said.

Task force

By Renee Bovy The Daily Iowan

Kevin Costner plays ball with the big leagues

TUCSON, Ariz. (AP) - Kevin Costner is a pretty decent baseball player on- and off-screen.

He took a break from filming his latest movie, "The Postman," to work out Sunday with the Colorado Rockies. He hit several line drives during batting practice and then fielded capably at both shortstop and right field.

"When he put on a uniform and went in there, I thought he was one of the guys," said Rockies bullpen catcher Todd Maulding, who threw 70 mph pitches to Costner.

The players also didn't hold it against Costner that he's a Los Angeles Dodgers fan. They lined up to get autographs from the actor, who played high school baseball and has starred in a couple of baseball movies, "Bull Durham" and "Field of Dreams."

"They found a good equilibrium between trying to make me feel loose and ribbing me," Costner said. "But you know, this is the thing: They also don't want to baby anybody. The game deserves that kind of respect, and if I didn't think I could make some of the plays, I wouldn't be here."

Generous 'meter-feeder' fined \$500 **By Terry Kinney**

Associated Press CINCINNATI - Sylvia Stayton's random act of kindness will end up costing her much more than the dime and nickel she plunked in other people's expired parking meters. She was fined from \$500 Monday.

"I did nothing wrong. I stand on that," she said after being sentenced for interfering with an officer. "I wouldn't offer an apology because, in my heart of hearts, I know I didn't do anything wrong." For the 63-year-old grandmother of 10, it was the final indignity after she was handcuffed and

arrested Oct. 24 for feeding two ness. parking meters despite an officer's warning she was breaking an attention, and on Monday accused

obscure city ordinance. Her brief stay behind bars turned Stayton into something of a folk hero. Head-

lines called her the "meter-feeding granny," she received \$350 people donating to her "legal abuse

fund" and a church group that has been anonymously feeding parking Stayton

meters for years printed up T-shirts that read: "Sylvia Stayton ... guilty of kind-

Prosecutors bristled at the

Stayton of grandstanding.

"Every time the cameras popped up, there she was," prosecutor Ernest McAdams Jr. said. "She could have pled to a parking fine. This is what she wanted."

Stayton faced up to 90 days in jail and a \$750 fine on her conviction of obstructing the official business of a police officer - that is, writing parking tickets. A jury acquitted her of disorderly conduct.

Municipal Judge John West rejected a final request to throw out the conviction and imposed his sentence without explanation.

Stayton's attorney said an appeal is likely. Although she said the case "has been a strain," she has no plans to stop feeding the meters.

Mayor learns cousin lived under bridge

By Michelle Emery Associated Press

CONCORD, N.H. - Mayor Bill Veroneau was saddened by the story of a homeless man found dead in a snowbank. But he was shocked to learn the man was his cousin, who had been living under a bridge less than a mile from City Hall.

David Martel, 52, was in his dirt-floored, concrete cubbyhole under the Water Street bridge when he had a heart attack Feb. 13. He managed to crawl up a hill before he collapsed and died.

"I just think it's a tragedy," the 66-year-old mayor said. "I guess that's the luck of the draw. Those kind of stories are everywhere.'

contrasts - one a successful businessman and politician, the other living on the streets and dying penniless - Veroneau and Martel led similar, promising lives when they

were young. They grew up in the same house, went to the same school, served in the military and attended college.

Martel was a member of the high-school debate team and secretary of his graduating class. He earned a degree in communications from Boston's Emerson College and served in Vietnam. After the war, Martel returned to the Concord area and worked part-time as a

broadcaster at two radio stations. But his life apparently started cousin's fate.

Though the men were a study in falling apart in the late 1980s, after his mother died, Veroneau said. Martel's father died in the 1940s. At the time of his death, Martel

had been homeless for nine years.

He and Veroneau were never par-ticularly close, partly because of the 14-year age gap. Veroneau said he last spoke to Martel a decade ago.

When Martel died, city officials were unable to locate any relatives, so they had the body cremated and shipped the ashes to Bourne National Cemetery in Massachusetts.

Ten days after Martel's death, the Concord Monitor told his story on the front page. That was the first that Veroneau knew of his

Need a place to study where they won't kick you out after you're done with your coffee?

Come to the IMU!

The Late Night Study Area is open till 2 a.m. Sunday - Thursday. The Union Market is open for your eating pleasure and the SAC is open for computer use. There's quiet study in the Hawkeye Room and group study in the Landmark Lobby. Campus phones are available so you can call Safewalk when it's time to go home! Got questions or need assistance to use The Late Night Study Area? Call UISG at 335-3263.

The Late Night Study Area is brought to you by The University of Iowa Student Government, The Iowa Memorial Union, and the UI Parent's Board. Viewpoints

It's not who you are, but what you are in Belfast

was walking to work the other morning eating my breakfast scone when a security alarm went off at the bank across the street. A guard strapped into a lead tunic (the police fashion required here) ran out the front door, talking quickly into a CB.

As I waited to cross the street, the man next to me started to laugh and gestured at the guard. "Someone probably just robbed the bank and he has no idea," he said.

I replied, "Yeah, we should run across the road and really confuse him," in between bites.

"Ah, you don't do that in Belfast," he countered, brows raised, in a slightly firmer tone. "You aren't from here, are

From Belfast ye? Midwestern

I told him I was Illinois, from which was really Chicago. Then he asked me if there were really gangsters with violin cases shooting up the place.

I said of course, and I had moved to Belfast because thought it would be safer. Instead of leaving me to finish my breakfast in my early morning non-humor, he walked on with me

to work.

As is common, the man decided to talk to me about the troubles in Northern Ireland.

"The peace talks, you know, aren't going to accomplish anything unless they let both sides in," he said.

"I'm Catholic," he continued, which I had assumed when he implied Sinn Fein were getting a bum deal by being excluded from the peace process

Sinn Fein is known as the political or peaceful wing of the Irish Republican Army. Spokesperson Gerry Adams used to waste his breath telling people he had no contact with the IRA. Two weeks ago he admitted he sent them them a fax. Days later a Protestant officer was shot in the back at a roadblock-checkpoint. But the man on the street had a point - Sinn Fein is an elected party. Loyalist paramilitaries are not an elected party. The loyalist paramilitaries are representing themselves because they happen to be supportive of the English officials who are running the talks. Sinn Fein are not, and thus are barred.

roonb NOW SERVING 5B There may be some justice yet It has taken the interven-

Shaws. Miserably and repeat-edly.

SUMPHIKK

The recent decision by the Iowa City City Council to support the recommendation for R.J. Winkelhake to remain police chief is just one more bad decision being tossed on an ever-increasing pile of injustice

From the moment former police officer Jeffrey Gillaspie shot their son without warning to the words of Winkelhake saying Gillaspie did everything according to procedure up to the the moment he fired the bullet, law enforcement has failed the Shaws.

From the time White claimed there was "no reasonable basis for the use of deadly force" to his decision 16 days later that he would not file criminal charges against Gillespie, the judicial system has failed the Shaws. And now, with this decision of have failed them as well. It has taken the intervention of a district judge to make the city do what it should have done all along investigate the shooting ... thoroughly investigate it.

Not only was this unfair, but it prolonged the injustice. Again, nobody was held accountable. tion of a district judge to But the city would like to think otherwise and be done with the make the city do what it whole thing. Iowa City Mayor Nao-

should have done all along mi Novick said at a Council work investigate the shooting session on Feb. 19 "this is the end of the Eric Shaw discussion." ... thoroughly investigate it. This statement gives the appearsituation. The wagons circled so

ance that things are now "settled," the blood money was paid and we can move on. On Jan. 30, the very day the settlement was reached, former Iowa City Mayor John Balmer said, "Life has to go on."

"To have to win to quit? That's ridiculous. Am I a loser?"

team winning the national title

UI wrestling coach Dan Gable, on of his retirement hinging on the UI wrestling

The Shaws were forced to defend even the smallest shred of justice allotted them. "It breaks my heart to have settlement money instead of a son," Blossom Shaw, Eric's mother, said. "It does not substitute for justice."

No, it doesn't. And if we, the citizens of Iowa City, allow the city to

Working class frills: The dentist, paying bills

ast week, a patient called the clinic where I work to ask for cheaper pain medication. He was desperate, unable to return to work until his pain subsided but too poor buy the medicine to relieve his pain: the Catch-22 of being lower

class and needing health care. One of the nurses sighed and said, "I don't understand these people. Why don't they just cut back on the extras?" I told her about my father's missteeth, ing untreated back pain and tooweak glasses. "Sometimes, there are extras to cut," I said. "My parents

Karrie Higgins to have struggle with mortgage

payments and groceries." Like the nurse, most middle- and upper-class

Americans have no idea what it means to be poor, in part because our society is segregated almost entirely along class lines. Contact between doctors and patients is one of the few collision points.

We hear a lot about the booming economy, low unemployment rate and rising family incomes. The rosiness of the economic picture depends on whether you're one of the haves or have-nots. Have-nots have no voice in our pseudo-democracy run by corporate PAC money. They are ignored by election rhetoric except when being scapegoated as lazy baby factories who cheat the system. As a result, their side of the story is forgotten.

What is it like beneath America's "glass ceiling?" Poor people have lost faith in the American Dream. For every rung they climb on the upward mobility ladder, the glass ceiling is raised by nine.

How to clone yourse

, With the recent publicity co cerning the Scottish sheep clo from its parent's mammary ce there has been a great hullaba about the possibility of clonin humans, which Nature stated "likely to be achievable one to years from now."

Without one of the parties Northern Irish people support, and one that may or may not have direct connections to the violence of the situation, no peace can be resolved.

It was the man's next words that surprised me. "But don't get me wrong," he said. "I am married to a Protestant."

He then explained he and his wife had been married for 10 years and had two children together. They lived in a predominantly Protestant area. There had been a couple problems - threatening phone calls and a brick through the front window. People won't talk to him on the street.

"But it doesn't matter, the Catholic and Protestant thing. I am going to live with my wife in my home," he said.

Moving would only reinforce that Catholics and Protestant shouldn't mix, when his family is proof they can, he said.

have had similar conversations with students and strangers in my five months here. It seems many people have an eager obligation to explain how they see the "situation." While their stories are unique, they almost always are prefaced with their religion or home territory. More unnerving is that they almost all end with

something to the extent of - "It will never end." Bulletproof vests and bricks are the day-to-day in Belfast. But it doesn't have to be that way if more people were willing to talk and others are

willing to listen. The man on the street knows that.

Kathryn Phillips is a UI junior studying in Belfast. She is majoring in English and journalism.

Lawrence Revard **UI** graduate

tion Survey, the family income of a typical American with a college degree increased 28 percent in inflation-adjusted dollars from 1974-94, while the incomes of high-school graduates increased just 3 percent. Those without a high-school diploma experienced wage declines of more than 10 percent.

Compare this to the trend for CEOs. In 1974, the average executive compensation was 35 times that of the average production worker wage. Today, it is 200 times greater than the average production

The Post/Harvard/Kaiser survey found that, among the working class, 1 in 4 respondents delayed or had difficulty obtaining medical care. Nearly 6 in 10 were unable to save for future needs. One in 3 reported a family member had been laid off during the past five years. One in 5 had trouble making mortgage payments.

All of this and our social safety net has just been gutted.

Like the nurse where I work, a great deal of Americans believe the poor indulge in too many "extras." Or that they are lazy. "If family incomes have increased and the economy is strong," they say, "why can't these people pay their bills?" President Clinton, while basing a large part of

his campaign on the strength of the economy, never mentioned how families achieved higher incomes. Most of the increase resulted from spouses returning to the work force in greater numbers and working longer and longer hours just to get by. Election-year rhetoric led us to believe salaries had increased.

One study found poor people have quite simple wishes when asked what they would do with a million-dollar inheritance. Seventy percent responded immediately with, "I'd pay off my bills." Another 25 percent thought of paying off bills second. One 29-year-old father of two said, "I'd make

sure the kids would have everything they needed. Then I'd go to the dentist and get me some teeth where I've got some missing." Like the patient who called for cheaper medicine, he had put expensive health care on the back burner for the sake of basic survival. Equating wealth with the ability to obtain health care speaks volumes about the predicament of America's poor. Also, it is clear his children do not now have everything they need.

Other answers included buying shoes for the kids, getting the television fixed and taking care of elderly parents. I see reflections of my parents in these answers. My parents have always equated wealth with "not having to worry." If the most a person can think to do with a million dollars is get his/her teeth fixed, then he/she clearly wastes no money on "extras."

hese people who have been mischaracter-ized as baby factories, producing children for the sole purpose of a fatter welfare check, think first of their children and elderly parents. Only one middle-class respondent mentioned helping his elderly parents,

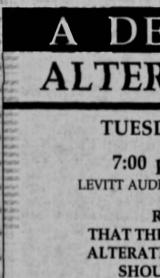

and he had working-class roots. One mother said she would take her kids to an amusement park because she hardly ever sees them happy or excited. It would "make her feel good" to see them that way.

It's a small dream, and one that ought to be possible in America.

Karrie Higgins' column appears Tuesdays on the Viewpoints Pages.

So, in your very own labor ry, for a few million dollars investment, you can clone yo self!

First, harvest cells by cutting some flesh. The sheep experi used mammary tissue, so con lopping off a breast to harvest required cells. Men have brea sue, too, so this does not excl male cloning. Look for cells th are not splitting. In biological terms, Gº phase.

> **Jessica Patton UI** alumnat

Marc Beltrame, the current UISG president, when he says students who go into these positions for the pay are in the wrong place. I would only add that they are the

wrong people. This in one reason that the salaries are not heavily publicized. Just for the record, most people in student government are not aware of them for that purpose as well. We want people who are dedicated to the job, not the meager paycheck.

Students who come into the job for that "hefty" paycheck will be sorely disappointed at their reimbursement. It ends up being below minimum wage (if you actually add up the hours spent working), the hours do not allow you to hold another job, and there is no pay increase in sight. In fact, we in student government have not received an increase in salary in at least five years. (That's right, people in student government have been paid for quite some time.)

We did however, just cut our own budget \$40,000 to ensure that all the General Student Organizations would receive money. That however, does

Dram shop laws only good on bar premises

To the Editor:

I just wanted to clarify a couple of points in Brian Sutherland's column (Feb. 17, "Can Jake's really be held responsible?"), and offer a few opinions. According to the *DI*, in fact it was not two and a half, but SIX hours between the time the young man left One Eyed Jake's and the time the accident occurred. And during that time,

he had purchased and consumed SIX additional drinks!

Sutherland mentions that the store that sold Jamie Johnson the additional beer is never mentioned in the lawsuit.

This is because they are specifically exempted from the dram shop law by an lowa court case, since they do not allow consumption on-premises. Therefore, as a result of this case, only establishments which allow on-premises consumption of alcohol are subject to the dram shop law.

As the law is, bars have some degree of responsibility for the actions of their patrons after they leave. This should not be the case. This responsibility should lie with the individual.

The fact is, this case does several things. It takes the responsibility away from the party at fault, and assigns it to the party with the deepest pockets, without respect to whether they are at fault. This is the case so often these days in our legal system. Not only is a large monetary settlement sufficient redress for most situations, but we allow that settlement to come from whoever can afford it (often on the sole basis that they CAN afford it), regardless of whether or not any fault lies with that party.

Scott Andrews UI College of Business Administration Some background on apartment deposits

To the Editor: In his editorial of Feb. 10, "Your security or the landlord's?", Brian

Sutherland observed that U.S. West has to pay interest on security deposits at the rate of 7 percent, while landlords in Iowa do not.

He suggested that perhaps the difference in the law is based on U.S. West's monopoly status. Maybe, but it's hard to see why;

other jurisdictions require that interest be paid on security deposits for rental properties.

For example, in Virginia and the District of Columbia, private security deposits earn interest at roughly the rate that a security deposit held by U.S. West earns - around 7 percent, last time I checked. A quick trip by Sutherland or someone else from your staff to the law library would allow the DI to write an article comparing how security deposits are treated in different states.

That lowa allows for a security deposit equal to two months' rent AND does not require that deposits accumulate interest is something that should have been changed a long time ago.

> **Eliot Blake** UI graduate student

Cambus should get more buses

To the Editor:

The DI was quite right to report on the poor Cambus service to Mayflower (Feb. 18, Cambus changes irk students)

It is terrible that students need to leave Mayflower at 8:10 to get to class by 8:30. But the DI needs to say more.

Mikhail Barushnikov and the

Turkish leader may defy military

By Zeynep Alemdar Associated Press

ANKARA, Turkey - Turkey's Muslim prime minister indicated Monday he might defy the military's sharp call to keep the country secular — a move that revealed widening fissures over Turkey's future.

Two days ago, the National Security Council, which includes top generals and President Suleyman Demirel, served notice to Prime Minister Necmettin Erbakan's government that it must guard against radical Islamic moves.

Erbakan signed a council statement in support of secularism, but he has resisted implementing the council's directives.

The council wanted him to close Koran study courses run by radical Islamic groups, keep radical Islamic elements out of local governments and ban Islamic-style head coverings for women at state offices and universities.

The prime minister held an emergency meeting Monday with his coalition partner.

COURT Continued from Page 1A

sary. If White determines he cannot proceed with the case, the order calls on the attorney general to fulfill the county attorney's duties. White said he was completely unaware that Eads intended to issue such an order and first learned of it when he called the judge about an unrelated matter just before it was filed.

"This order was unilaterally entered by Judge Eads. I had no idea he was doing this. I am surprised and disappointed," he said.

White said he had no opportunity to present any information and was upset that Eads took this action independently. White said he "didn't think the order substantively changes anything," because he already planned to convene the grand jury within the next few weeks and once convened, they are free to address any issue. He also questioned whether Eads has the jurisdiction to issue an order of this nature.

"This is a setback to the community," White said. "It takes us back to Oct. 3 when the decision was made not to file charges. Even if the court has the ability to do this, I don't know if the court should embroil itself in a public political debate.

"The court is unilaterally saying to a grand jury, 'Here's something

you should look at.' That's a slippery slope and something I have concerns about.' Eads declined to discuss any

aspect of his order, saying he could not comment on a grand jury mat-

Eric Shaw's father, Jay, said Monday's order gives new weight to calls for a grand jury investigation. "I definitely view it as a positive step towards justice — it seems like the first positive step the judicial process has taken," he said.

While White disputed the significance of the order, the Committee for Justice and Accountability in the Death of Eric Shaw (CJADES) was ecstatic at the news of Eads' action.

"This is what we've been asking for since the beginning, a full and real investigation, Pat White has denied the opportunity for that investigation," CJADES member Osha Gray Davidson said. "I can't say how much I admire Judge Eads for making what must have been a counterpoint to Pat White's cowardice.

White said he would have on the books. White said it was case over to the attorney general.

"There's no reason I need to dis- grand jury, period."

qualify myself," he said. "I was elected by the voters of Johnson County and the majority of them understand the decision I made. There is a minority, albeit a vocal minority, that will have renewed hope that some different result will take place."

White said he will contact the attorney general to discuss whether Eads is within his jurisdiction to issue the order. Previously White has said even if a grand jury asked for charges to be filed it would be his decision whether or not to proceed, rendering their investigation moot. In the wake of this order, White said he could not say what he would do if the 1997 grand jury determined charges were neces-

Jay Shaw said White's conflict of interest, whether real or perceived, should have been enough to convince the county attorney to remove himself from the initial investigadifficult decision. His courage is tion, let alone future grand jury proceedings.

"Here is a man who has already charged Gillaspie with negligent made up his mind," Shaw said. "He homicide, but Iowa, unlike some is in daily contact with the police. other states, does not have that law It's not right to have him in charge of the investigation. He should unnecessary for him to turn the have stepped aside. Patrick White should have no influence over the

PARKING

Continued from Page 1A

square one."

UI sophomore Tom Orrison, who said he receives about one parking ticket every two weeks, said he felt the new agency was a bad idea on the city's part.

"It's pointless to hire a collection agency if all they're going to do is help the city find more information," Orrison said. "I've always received my tickets in the mail. I put off paying them, but when the fine increases I eventually pay them." Yucuis said although students get

a lot of parking tickets, the problem comes from people of all ages. The city recovers about \$20,000 monthly in fees from parking violations, and the collection agency is estimated to increase that amount by \$6,000 monthly, bringing the annual total for this year to \$72,000. Iowa City Parking Manager Bill Dollman said the parking enforcement division gives out an average of 450-500 parking tickets a day.

"Collections have been good," Yucuis said. "But there is a lot that the city has to write off each year."

Iowa City parking fines range anywhere from \$3 for an expired meter to \$100 for parking in a marked handi-capped spot without a permit. The \$3 fine escalates to \$5 after 10 days from the issue date and maximizes at \$10 for unpaid tickets after 30 days from the date the ticket was issued.

UI senior Melissa Horn said she doesn't think the new collection agency will enhance the percussions of parking fines.

"Once students are out of here (the UI) they're not going to pay," Horn said. "If a parking ticket came to me, I wouldn't worry about it. But if it were sent to my parents then I would pay, because they get enough bills as it is." UI senior Alex Thiersch, who doesn't have a car, said Iowa City charges more for parking than a lot of places he has seen. "My friends who have cars want to

pay for their parking tickets but they're in a hurry and busy with oth-er things," Thiersch said. "(So) many of them just blow it off."

Pollsters inside the Union saw a larger turnout than the Main Library or Lindquist Center, UI "I think that it has something to freshman and pollster Amy Siegel said.

There are more people walking by here, so we draw in a bigger crowd," Siegel said. Siegel said the polling booth at Library polling site.

very year, a lot of people make a huge mistake on their taxes. They wind up sending Uncle Sam money they could be saving for retirement.

1040

Fortunately, that's a mistake you can avoid with SRAs-tax-deferred annuities from TIAA-CREF. SRAs not only ease your current tax bite, they offer an easy way to build retirement income - especially for the "extras" that your pension and Social Security benefits may not cover. Because your contributions are made in

before-tax dollars, you pay less in taxes now. And since earnings on your SRAs are tax deferred, your money works even harder for you.

.....

What else do SRAs offer? The investment choice, flexibility, and expertise of TIAA-CREF-America's foremost retirement organization.

Why write off the chance for a more rewarding retirement? Stop by your benefits office or call us at 1 800 842-2888 and find out how TIAA-CREF SRAs can help you enjoy many happy returns.

Visit us on the Internet at www.tiaa-cref.org

Ensuring the future for those who shape it."

McVeigh's lawyer accuses paper of stealing files

Steven Paulson Associated Press

DENVER - Timothy McVeigh's lawyer demanded an investigation Monday of The Dallas Morning News, accusing the newspaper of stealing hundreds of files from his computer, including a purported confession from the Oklahoma City bombing defendant.

Stephen Jones, while denying the statement was in fact a confesot grant the DI an sion, said: "There is no justification whatever for this criminal act.

Morning News lawyer Paul Watler said the newspaper "met the highest ethical standards." "We did not break any laws," he aid. "We have no fear of criminal epercussions." Jones said the newspaper broke

and obtained hundreds of docu- not received anything formally

ments for McVeigh and co-defendant Terry Nichols, as well as 25,000 FBI files. Jones offered no proof that theft was committed.

In a story the newspaper published on-line Friday - the deadline for 1,000 potential jurors to respond to a court questionnaire the newspaper cited what it said was a defense memorandum that said McVeigh admitted to driving the explosives-laden truck that demolished the Oklahoma

City federal building in April 1995. The memo said he chose a daytime attack to ensure a "body count."

"It is not a legitimate defense memorandum," Jones said. "It is not a confession of Tim McVeigh." Asked about Jones' demand for an investigation, U.S. Justice Department spokeswoman Leesa into the defense's computer files Brown said, "Right now we have

"We did not break any laws. We have no fear of criminal repercussions."

The Dallas Morning News lawyer Paul Watler, on the way the paper obtained its information on a story about Oklahoma City bombing suspect Timothy McVeigh

from him."

Jones said he is considering ask- Morning News executives filed a ing for a 90-day delay in the trial as a "cooling-off period." He also said he would seek to have the trial moved if the newspaper published any more stories from the documents.

He also said he would file a complaint with the Texas Supreme Court asking for an investigation case. into whether the reporter, Pete Slover, who is also a lawyer, statement was in answer to conshould be disbarred.

Before Jones' news conference, statement in court saying they would not report any more information "from material used as the source of the previous articles."

The newspaper said it "remains sensitive to the tension between Mr. McVeigh's fair trial rights and the national public interest in this

Editor Ralph Langer said the cerns about disrupting the trial.

He said the information already published by the newspaper was of overriding public significance, but "any further articles based on the defense reports would not rise to the same level of importance." All copies of the materials were turned over to the newspaper's lawyers for safekeeping, the Morning News said.

Jones demanded the documents be returned, saying they belong to the U.S. government.

On Friday, Jones said he thought the material was a hoax perpetrated by someone trying to 'set this newspaper up.'

Monday, an unidentified source told "CBS Nightly News" the defense had faked the statement as part of an attempt to get a witness to change his story by confronting him with McVeigh's "confession.

David Zalubowski/Associated Pre

Stephen Jones, attorney for Oklahoma City bombing suspect Timothy McVeigh, stresses a point during a news conference Monday in a downtown Denver hotel Jones accused The Dallas Morning News of stealing defense computer files that were the basis for a story containing a purported confession by the defendant.

U.N. survey: More young Americans are using drugs

By George Jahn Associated Press

VIENNA, Austria- Increasing numbers of young Americans are. sing cocaine, marijuana and LSD, while the use of heroin and cocaine n Europe is decreasing, a panel of U.N. drug experts said today. The annual world survey by the nternational Narcotics Control

loard confirmed the assessment of U.S. government studies that drug ise is rising among young people in he United States. From 1994-95, it said, cocaine

use among young Americans more han doubled - from 0.3 percent of he population to 0.8 percent.

a monthly basis in 1995, according to the report. Abuse of marijuana and LSD also rose among young Americans during the same period, after "positive results" in reducing drug demand and supply in the 1980s and early 1990s, the U.N. board said.

The group didn't say how it defined young Americans. Among older Americans, cocaine use leveled off, while about 200,000 Americans used heroin in 1995, "an estimate significantly higher than

that for 1994," the board said. The board is a 13-member group

late Monday.

of experts, set up by the United Nations but independent of U.N.

about 1.4 million people using it on studies done in the individual coun- including a five-fold increase in tries. For the United States, most of the data came from the National Household Survey on Drug Abuse 1980. and the U.S. Drug Abuse Warning Network

> Even as fewer Europeans used heroin and cocaine, more were using synthetic drugs, especially amphetamines, ecstasy and LSD, according to the report. Marijuana growing also is rising in Europe, it said.

The U.N. board also warned that many people were becoming infected with the AIDS virus in Eastern Europe and former Soviet republics by sharing needles to inject drugs. The survey reported some

locaine use overall leveled off, with control. It bases most of its data on progress in anti-drug enforcement, their jailed members.

global seizures of opiates and a 10fold jump in cocaine seizures since

It said the increasing seizures could be attributed partly to increasing use, but also partly to better law enforcement.

But the U.N. board said overall drug use was steady or increasing in most parts of the world.

"Illicit drug production, trafficking and abuse have expanded into regions not previously affected," the board said in the 76-page survey. "New trafficking routes have emerged, new drugs of abuse have been developed, and drug trafficking organizations have replaced

Ark. picks up pieces after fatal tornadoes

By Kelly Kissel Associated Press

LITTLE ROCK, Ark. - Needing a place to hide from the approaching tornado, Lee Rhodes ran from the auto shop where he worked to a cinder-block grocery store instead of his trailer just a few steps away.

He was crushed when a dairy case fell on him. His trailer was untouched.

"The store blew completely away," said Gordon "Pete" Caple, Rhodes' boss at Caple's Garage on the south side of Little Rock. "The funny thing - he would have been safer in the trailer. The storm didn't even touch it."

Rhodes was one of at least 24 people killed as a series of tornadoes hit the state Saturday; several hundred others were injured. Storms were also blamed for at least 17 deaths in Kentucky, Ohio, Tennessee and Mississippi.

President Clinton authorized federal emergency aid for storm victims in a 260-mile path stretching from southwest Arkansas to its northeast corner. The president also said he would visit the state today.

"Hillary and I are deeply sad-dened by this tragic loss of life and property," Clinton said Sunday. "The storm hit places and people we

know well, and our hearts and prayers are with everyone who lost loved ones, homes and businesses." Fifteen people died just south of Little Rock, while downtown Arkadelphia, 75 miles away, was reduced to rubble. Six died in the town and the surrounding countryside. Another three died in northeast Arkansas.

Arkadelphia's most noted resident, Whitewater convict James McDougal, came through unscathed.

"Well, I survived," he said. "The only way it affected me directly was my electricity was out.'

Sixty-one-year-old Rhodes moved to Little Rock from Nebraska about seven years ago and traded his labor for accommodations in the trailer behind the Quonset hut auto garage. He had finished work Saturday when a co-worker's mother called to warn of the coming storm. Rhodes had to choose between the grocery store and his unanchored trailer.

"They saw it coming and decided to get inside," Caple said. "They had gone down to the grocery store to get out of the storm when the roof blew off it, the wall came in and one of the big cooler boxes fell over."

Rhodes was killed. His co-worker needed stitches, but lived.

Gov. Mike Huckabee said the

Ken Lancaster (left) and Brian Brown remove wreckage from Robin Fannin's car as she watches (right) Sunday morning. Fannin was at work when a tornado blew apart many of the buildings in downtown Arkadelphia.

hour period Saturday - more twisters than the state had all of brother. He's gone." last year. It was the worst singleday death toll in Arkansas since May 15, 1968, when tornadoes killed 45 people.

At College Station, near Little Rock, the body of L.B. Porter, 62, was found in a muddy ditch nine and a half hours after the storm.

"My brother was sitting in his living room when the tornado hit," Austin Porter Sr. said as he picked up tattered photo albums and put them in plastic bags. "His body was

Radio stations to provide digital, CD-quality sound CD Radio of Washington, American

By Jeannine Aversa Associated Press

WASHINGTON - A new breed of radio stations will offer listeners topquality sound that can be heard anyadvance in broadcasting is still several years away.

After five years of work, the Federal Communications Commission Monday set aside a portion of the airwaves for the service. The service - possibly pay-to-listen - is to be transmitted nationally or regionally by satellite in digital CD-quality sound

Despite the approval, most of the broadcasting industry opposes the service - digital audio radio which they see as a threat to local radio service.

The FCC, however, says the new service is unlikely to divert enough listeners to jeopardize conventional local broadcast stations.

The action clears the way for four companies, which requested the FCC action, to bid on licenses to provide the service. The companies are

March 14 and 15, 8 p.m.

2 evenings of brilliant contemporary dance

Mobile Satellite Corp. in Reston, Va., Digital Satellite Broadcasting in Seattle and Primosphere in New York Like traditional radio broadcast. Tuesday, March 4, 19

where in the country. But the latest ers, providers of the new radio ser. vice will have to offer political candidates discounted advertising rates and equal opportunities to get on the air. The FCC will determine at a future date additional public interest requirements for the new service

After companies win licenses, it will take at least three years for stations to go on the air. Access to the new stations is likely to cost \$5 to. \$10 a month and will be marketed mainly to people who spend a lot of time in their cars.

It's unclear whether consumers will have an appetite for the new service, which will cost companies millions of dollars in start-up expenses. Under proposals filed with the

FCC, people could subscribe to pack ages of channels, such as weather, sports or opera. The satellite radio service also can transmit data such as stock quotes to car receivers.

Correcting levels of drug may fight HIV

By Paul Recer Associated Press

WASHINGTON AIDS patients may live longer if their medicines include a drug that is routinely used to fight overdoses of the pain reliever acetaminophen, a study suggests. Some experts, however, are skeptical.

Researchers at Stanford University Medical School said AIDS patients treated with a drug called N-acetylcysteine, or NAC, tended to survive longer than patients who did not receive the drug.

A report on the study is to be published today in the Journal of the National Academy of Sciences.

Dr. Leonore Herzenberg of Stan- cal study.' ford said NAC restores normal

similar over-the-counter pain to have low levels of the peptide. relievers.

Herzenberg emphasized that the survival study was only preliminary and a larger and longer trial would be required to prove the effect of NAC on survival among HIV patients.

Dr. Jeffrey Laurence, an AIDS researcher at Cornell Medical College, said the study was interesting, but it does not provide a clear and final answer on the effect of glutathione deficiency on HIV, or prove taking NAC would affect HIV survival. However, he noted, "there is

enough of a suggestion here that I would not be against a large clini-

Of the 69 patients with low GSH, 25 were given NAC and 43 took a placebo. Blood tests showed NAC did increase levels of glutathione in the patients.

At the end of two years, six, or about a fourth, of the 25 patients on NAC had died, said Herzenberg. Among the 43 patients on placebo, the death rate was 40 percent, she said

Though the study must be considered only suggestive, said Herzenberg, "it is consistent with the idea that if you increase glutathion in HIV patients then you can improve survival."

Glutathione, a combination of the amino acids cystine, glutamic Dr. Michael Giordana, director of acid and glycine, is not known to

Bill T. Jones/Arnie Zane Dance Company

blood levels of glutathione, a natural peptide that plays a key role in the function of cells. Patients infected with HIV, the virus that findings because a large study causes AIDS, tend to be deficient in using another drug to correct gluglutathione, or GSH, she said, and this deficiency may play a role in progress of the disease.

"People who have low glutathione levels don't survive as on 97 HIV patients who had CD4 well," said Herzenberg. "If they take NAC, their survival may increase.

NAC is routinely used in hospital emergency rooms to treat patients who have overdosed on acetaminophen, a pain reliever that reduces the level of glutathione in

clinical AIDS research at Cornell directly attack the virus that caus-Medical College, said "one needs to be skeptical" about the Stanford tathione deficiency failed to find any survival benefit for HIV patients.

The new Stanford study centered lymphocyte counts below 200 per cubic millimeter of blood. CD4 cells are the primary target of the HIV virus and low counts of these cells are life-threatening. Healthy levels are 800 to 1,200 per cubic millimeter of blood.

Herzenberg said baseline meathe body. Acetaminophen is the surements of GSH were taken on should discuss it with their physiactive ingredient in Tylenol and the 97 patients and 69 were found

es AIDS, but the peptide is vital to healthy cell function. Glutathione is thought to strengthen the immune system, protect cells against heavy metals and oxygen radicals and aid in cell metabolism. Herzenberg said both aceta-

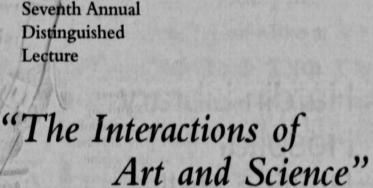

minophen and alcohol can cause a deficiency of glutathione in some people. This could be a particular problem, she said, for HIV patients.

"My recommendation is that they should not take any drugs that are not necessary - and that includes alcohol and (acetaminophen)," she said. "If they are using them, they cians.

team out of position.

Larry Wieczorek said.

By James Kramer The Daily Iowan

> Dan Gable made one point very clear at his press conference Monday: His retirement decision will not be influenced by how his team fares at this season's NCAA Wrestling Championships. Many observers feel Gable will step down if the second-ranked Hawkeyes

win the team title March 20-22. Conversely, it seemed unlikely Gable would leave on a losing note. The Iowa head coach put those notions to rest, saying his team's finish will have no bearing on his career plans.

"That is not a factor. I've had too much success in my life," Gable said. "To do that would put unbelievable pressure on me. What if I didn't win Iowa has won 14 NCAA team champi-

onships since Gable replaced Gary Kurdelmeier as Iowa's coach in 1976. Because

determine retirement plans

Dan Gable reacts to a question at his

press conference Monday. of that success, Gable said he will not feel pressure one way or the other.

"To have to win to quit? That's ridiculous," Gable said. "Am I a loser?" Gable listed two factors that will play a role in his ultimate decision.

Heart condition won't keep Bowen out of action thing's good." By Mike Triplett The Daily Iowan

Iowa's Ryan Bowen entered Monday's practice with so much padding around his left knee and elbow, he looked more like a crash test dummy than a basketball player.

But reporters were more interested in another of Bowen's health problems - his heart.

For the second time this season, the junior forward experienced atrial fibrillation last Wednesday in Wisconsin. Atrial fibrillation is an irregular heartbeat which doctors have assured him is common among athletes and certainly not life-threatening.

"It's fine. I just had that little atrial fibrillation again," Bowen said, referring to a similar incident in Maui last November.

"They got me back on rhythm Thursday morning. I have to do a few more tests, but for the most part, every-

Bowen seemed very casual about the incident, which he described as a pounding and tightening in the chest, accompanied by dizziness. But Bowen has been taking the problem seriously. He's talked to doctors - both this week and in November - and he has been assured that what he has experienced is in no way similar to heart related deaths of basketball players

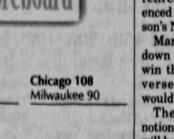

Hank Gathers and Reggie Lewis. "They said it's actually pretty com-mon with athletes. They'll jump into it, but then they jump out of it on their own," Bowen explained. "With mine, when I get into it, it stays into it. And it has to be converted in other ways."

Bowen feels very comfortable with what doctors have told him and he plans to "get on with it like it never really happened."

As for the banged-up knees and elbows, that's just another casualty of

always ready. This is a big game for where it will play and who it will face in the NCAA Tournament. If Iowa forwards Angela Hamblin and Tangela Smith were named to rounds, they will host rounds three and four at Carver-Hawkeye Arena.

GABLE RETIREMENT

Continued from Page 1B

The first is his health, which has steadily declined in recent years. In his 48 years of life, Gable has had upwards of 15 surgeries on various body parts.

The other factor involves his assistant coaches. Before Gable leaves the program, he wants to make sure his subordinates are working as a team.

"I need to talk with my assistants sometime in the near future," Gable said. "Just to get us all on the same page. I have to sit down with Jimmy (Zalesky) and Tom (Brands) just to make sure we're holding hands.'

Since stating last year that the 1997 season might be his last, Gable has admittedly gone back

he's seriously been considering staying another year. For the most part, however, he

has stuck with his original inclination

"I'm thinking about coming back more than before, but I wasn't thinking about it before," Gable said. "If you have to lean, I'm still probably leaning towards this being my last year."

Gable also suggested he might "redshirt" next season. In other words, he would still own the head coaching title, but his duties would be decreased.

Athletic Director Bob Bowlsby may give Gable that opportunity to keep him around. Bowlsby has told Gable he would like him to continue coaching.

"I'd have to definitely cut back,"

and forth on the subject. Lately, except be healthy."

Shannon Perry."

Nothing has been decided about Gable's future, but the Iowa coach hopes the situation motivates his athletes during the postseason. The Hawkeyes will go for their 24th-straight Big Ten title this weekend in Minneapolis.

The top six finishers from each weight class will automatically advance from Minneapolis to the NCAA Championships in Cedar Falls. In addition, nine wild cards will be chosen from the Big Ten.

The number of Big Ten qualifiers is up three from last season, when the conference sent 66 wrestlers to the national tournament.

"The bottom line is what takes place at (nationals)," Gable said. I'm hoping to have 10 solid guys. You could say, 'Well, you're not sol-

Angeles Valley Community Col-

lege, will not play for the remain-

der of the season because of a bro-

ken navicular bone in his right

in 23 games this season. He aver-

aged just two points per game, but

Simmons, a 6-6 forward, played

id at this weight and at that one, but compared to what?' "

While this year's Iowa squad has not been as dominant as others assembled by Gable, it still stacks up well against any other team in the nation.

"It just so happens that we don't have 10 guys that people automati-cally fear," Gable said. "We do have a lot of guys who are feared."

• Gable attended the Iowa state High School Wrestling Tournament last weekend in Des Moines. While there, he signed some autographs - and received one.

Gable sought out Colfax-Mingo's 152-pounder Nick Ackerman, who finished sixth in Class 1A despite having his legs amputated below the knees as a young child.

saw increased playing time in their home finale against the Nittany Lions is scheduled for 6:35 p.m. in Carver-Hawkeye Arena.

lowa wins Big Ten title after all

By Andy Hamilton The Daily Iowan

INDIANAPOLIS, Ind. Five months after being tabbed the favorites to win the Big Ten title, the Iowa women's basketball teams is where it was supposed to be. The Hawkeyes' 63-56 win over Illinois in the finals of the Big Ten

Tournament Monday gave them the conference championship and put Iowa in the NCAA Tournament, the hard way Before the season started, the

Hawkeyes were in just about every publication's top-10, but injuries and personnel adjustments hampered them early in the season. The Hawkeyes limped out of the starting gates when Big Ten play began and found themselves 4-5 in the conference going into February. At that point, coach Angie Lee said

winning the Big Ten Tournament would be the only way the Hawkeyes would make it to the NCAAs. Her team responded to the pressure, winning its last three regular

season games to assure the team a After that, every game was a "must win" for the Hawkeyes hopes of getting the automatic bid to the NCAA Tournament.

There's pressure of expectation and there's pressure of do-or-die," Lee said. "Our team doesn't respond well to pressure of expectation, they respond extremely well to a do-or-die situation. Don't back them in a corner because they're gonna come out fighting." Now the Hawkeyes will likely be

sent on the road for the first two rounds of the NCAA Tournament and they will once again be in a corner. But with a six-game winning streak heading into the tourna-ment, Iowa likely will be considered a team to watch out for in March.

"I think now we are starting to play where people predicted us to builder going into the NCAA Tourbe playing from the very begin- nament," forward Tiffany Gooden

Katie Coleman during the first half on Monday.

Yankees sign deal with adidas

By Ronald Blum **AP Sports Writer**

The New York Yankees shook up the baseball establishment Mon-'day, agreeing to a sponsorship deal with adidas said to be worth about \$95 million over 10 years.

Details of the deal were not released, and it is not clear if it violates the Yankees' agreements with Major League Baseball Properties Inc., the licensing wing of the sport. The deal is likely to set off a scramble among the large-market teams to sign similar agreements.

"A significant component of this arrangement will be the association of adidas in and around Yankee Stadium to further the presence of adidas in the New York market," the team and the company said in a joint statement.

"Adidas and the Yankees will also collaborate on joint programs involving certain athletic equipment and apparel, with the Yankees rights. All facets of the Yankees media, signage and publica-tions outlets will be used to strengthen the association between the two companies."

The deal does not cover the actual uniforms, one adidas official said on the condition he not be identified. MLBP sells uniform licensing

BAR

rights and they are held by Russell between major league teams and Corp. under a contract that ends following the 1997 season.

However, the Yankees and adidas intend to publicize their relationship and tie their identities to such an extent that the team's uniform rights may not be desired as much

by other sporting goods companies. "Obviously, until and when we see the deal, any comment coming from me would be most inappropriate,' acting commissioner Bud Selig said.

The agreement also does not cover shoes, the adidas official said. Under the settlement of a grievance filed in 1982 by the players' association against the Cincinnati Reds, each player is free to make his own shoe deal and display whatever equipment mark he chooses on their shoes.

das official said. The agreement that deal was rejected by owners.

MLBP requires clubs to clear sponsorship deals in advance with baseball officials before they are signed, but the Yankees apparently did not do so.

This agreement enables adidas to further strengthen its presence, not only in the baseball market, but in the entire sporting good industry," said Robert Erb, adidas' director of sports marketing.

Before the 1994-95 strike, each team received about \$3 million per year from MLBP, but sales of baseball's licensed goods - including uniforms, caps, jackets and hundreds of other items with logos dropped sharply during the 232day work stoppage, which wiped out the 1994 World Series.

Greg Murphy, baseball's new marketing head, negotiated a 10-year The Yankees and the company contract that would have had Nike signed the deal last weekend, the adi- outfit 18 teams and Reebok 12, but

Parcells meets with his new team

By Barry Wilner Associated Press

HEMPSTEAD, N.Y. - There were no messages to be delivered, except perhaps to a recalcitrant linebacker who didn't show. Nor were there any major decisions to be made this March Monday.

Bill Parcells simply wanted to meet and greet his new team, the New York Jets. And, by the way, remind them that he couldn't care less about their losing past.

Parcells, on the job as Jets coach and chief of football operations for three weeks, emerged from his bunker for a long get-together with his team, which comes off two straight seasons with the NFL's worst record.

"I talked to them a little bit about what we're going to try to do, what to expect from the coaching staff, what to expect from me, and what I kind of expected from them in terms of participation in things," Parcells said. "And what I was going to try to accomplish with the team, what kind of team I want to have, what kind of players I want on it.

"I mentioned some things that are important to me: to be a smart team, be able to do certain things well. Basically, it was football things, like not to be heavily penalized, know how to use the clock, have players who could make decisions the coach would make without having the coach tell him to make them."

One decision this coach appar-ently has made is to let linebacker Bobby Houston hang in no man's land. Houston was the only roster player who didn't show up, and his agent, Drew Rosenhaus, said it was for personal reasons.

Parcells was less evasive about Houston's absence.

"He told me he didn't intend to want to play here any longer," Par-cells said. "We'll deal with that as time goes on. I don't know what it was about and I am not really concerned with that.

"Bobby didn't quit the team. He's ust in limbo and he will stay there. He's on the roster and nothing will

happen; it can only get worse for Bobby. All that can happen is he winds up getting fined. "I won't try to accommodate any-

body. If I felt it was in the best interest of the team, I might do something. Letting a player shoot his way out, we're not letting that

happen." While Parcells preferred not to deal with specific positions or players, he did say he plans to move Marvin Jones from inside linebacker to outside and put one of his former players with the Giants, Pepper Johnson, in the middle. Johnson, a free agent, signed with the team on Monday.

But Parcells does not expect to see free agent center Steve Everitt join the salary-cap-strapped Jets. New York offered Everitt \$11.8 million for five years, but he wants more than the \$1.5 million signing bonus included in that deal.

"I don't think that is going to work out," Parcells said. "It may, but I would be surprised. We're shoveling sand uphill in our capacity to be totally competitive on some things. I'm not saying it's over, but my guess is he would probably be somewhere else."

The Jets also terminated the contract of backup quarterback Frank Reich, saving another \$575,000 under the salary cap.

Parcells made it clear to his players that he expects them to be around, beginning March 17, when the offseason workout program begins. He blamed the club's history of injury problems partly on the conditioning program.

And he emphasized the importance of forgetting the past.

"I don't talk about history in football," he said. "It doesn't mean anything to me, just what are we going to do here

"I didn't talk about attitude too come to this meeting and didn't much. I thought it was important I get them here and introduce my staff and myself to them, and kind of give them an idea of what is important to me. I used to have guys go all spring just on hearsay, talking to players who used to play for Bill and finding out what's he like.

"I'd rather tell them myself."

NBA ROUNDUP Boston avoids 14-game skid

Sports

TORONTO (AP) — No cigars were handed out inside the Boston Celtics locker room. M.L. Carr barely cracked a smile. Marty Conlon was concerned about boneheaded plays in the fourth quarter.

All the Celtics did with their 107-103 victory Monday over the Toron-to Raptors was avoid a 14-game losing streak, which would have been the longest in the team's storied, 50-year history.

The win was hardly cause for celebration. Not even for a day.

"It was no big deal," said Carr, the Celtics coach and general manager and a former player during the glory days in the 1980s. "We don't celebrate anything but championships in Boston. And we haven't been able to celebrate in a while." Reserve Todd Day scored 27

points for the Celtics, who won for the first time since Feb. 3, when they beat Toronto on the road. Boston's 13 consecutive losses tied the team record set in 1993-94.

The Celtics, whose 16 championships are the most in NBA history, improved to 12-46 this season. but are still on pace to break their record for losses in a season with 53. Boston also has the worst record in the Eastern Conference.

Day scored 16 points in the fourth quarter. He helped put the Celtics, who used only eight players because of injuries, ahead 92-82 when he followed up a missed shot and made a reverse layup with 5:10 remaining.

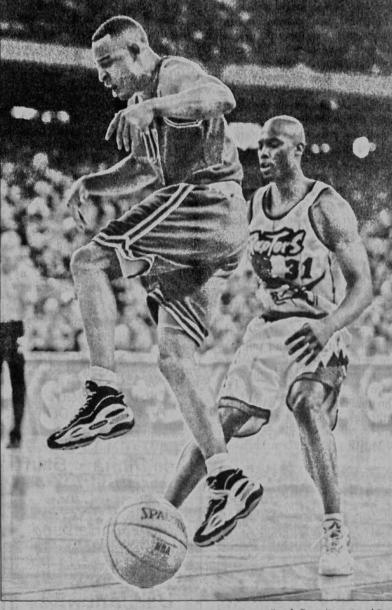

"A win is a win when you're a Boston Celtic right now," Day said. "At this point, we take anything. A forfeit will do."

and 10 rebounds, and Rick Fox had 13 points and 10 assists for the Celtics. Eric Williams added 20 points for Boston.

Carlos Rogers had 17 points to lead Toronto. Walt Williams added 16, and Damon Stoudamire had 11 points and 17 assists.

The Celtics actually would help themselves by losing at this time of the year because it would give them a better chance for the No. 1 pick in the draft. They also have Dallas' first-round choice, which also could be a lottery pick.

"Supposedly, the fans want us to lose," guard David Wesley said. "They want the No. 1 pick. So they like the fact that we're playing hard

Tight budgets, gender balancing puts chokehold on college wrestling

By Mike Hendricks Associated Press

LBANY, N.Y. - Joe DeMeo spent 17 years building the Awrestling program at the State University of New York into a small-college powerhouse.

"Everybody was so proud of it," he said. "We had Olympic athletes, world caliber, and national champions.'

The university suddenly dropped wrestling as a varsity sport in 1994 to balance the finances and gender equity of its athletic program. DeMeo considered that nothing less than a tragedy, but what happened to him and his Great Dane wrestlers is being repeated across the country.

From a peak in the early 1970s, when there were more than 9,000 wrestlers on nearly 400 college teams, the sport has steadily declined at the intercollegiate level. Last year, there were 257 schools with wrestling teams and 6,345 wrestlers, according to the NCAA. Louisiana State, Clemson and Tennessee wrestle no more. Fort Lewis College in Colorado and Western Montana College ended wrestling last year, joining a list that includes Illinois State; Rowan, Rutgers-Newark and Kean in New Jersey; Furman in South Carolina; and North Carolina A&T.

The sport that dates back to ancient Greece has developed into a popular target on campuses as the 21st century approaches.

Colleges say they are under pres-sure to comply with Title IX, a 1972 federal law that prohibits sex discrimination in schools that receive federal funds. That means colleges and universities must give women equivalent opportunities on the

playing field, as well as in the class- What's going to happen to all these

Albany State, which is upgrading its athletic programs toward Division I, added women's golf and field hockey at the same time it dropped wrestling.

DeMeo, who has spent 39 of his 55 years in the sport, does not see the logic in eliminating his team. "It is one of the cheapest sports to operate," he said. "The purpose

of the law is to give opportunity to women, not

future of the sport.

press for dropping it."

program.'

grams go. I'm afraid for my own

yracuse's current wrestling

while announcing it was cutting wrestling and men's gymnastics.

team is the last the school will

take away from

kids that want to go to college and participate in their sport? They can't," DeMeo said.

restling remains steady at the high-school level, ranked as the sixth mostpopular sport in the nation by the National Federation of State High School Associations.

More than 220,000 athletes wrestle on teams at 8,500 high schools, an increase of nearly 2,000 schools from the early 1970s, the federation said. More than 1,000 of those wrestlers are girls.

In upstate New York alone, Colgate, Potsdam State, St. Lawrence and Clarkson, in addition to Syracuse and Albany State, have dropped wrestling in recent years

Across the country, Bill Dotson has witnessed the erosion of his sport out West

> During years coaching at the New Mexico, Dotson

Sonny Greenhalgh, the Seton has seen fellow WAC and Big 8 Hall coach who wrestled on Syra- opponents Hawaii, Utah, UTEP, cuse's undefeated team in the Colorado State, San Diego State and Colorado drop wrestling. 1960s, said he is worried about the Twice, New Mexico has nearly tak-

SPRING TRAINING ROUNDUP

Sosa homer leads Cubs to win

TUCSON, Ariz. (AP) - Sammy Sosa hit his third homer in three games and drove in four runs, leadng the Chicago Cubs to a 7-3 exhibition victory over the Colorado Rockies Monday.

Sosa, whose 40-homer season last year was cut short by a broken hand on Aug. 20, raised his RBI total to seven this spring with a two-run single in the third inning and a two-run homer in the fifth. In his other at-bat, Sosa walked to lead off the second and, after

Dave Clark's double, scored on a ground out. Colorado starter Bill Swift, who pitched only 18% innings last season

because of shoulder problems, had a solid first outing of the spring despite taking the loss. In two innings, he allowed one hit and one run.

The No. 4 spot in the Cubs' batting order produced six RBIs. esides Sosa, Pedro Valdes had an RBI single in the seventh and Tyler Houston an RBI double in the ninth. The Rockies got two runs off Cubs starter and winner Steve Trachsel in the third. Walt Weiss tripled, pitcher Mike Farmer had a run-scoring double and Quinton McCracken an RBI single Orioles 16, Braves 2

Toronto Blue Jays' Angel Ramirez slides across home plate to score from first base on teammate Shannon Stewart's triple during the seventh inning against the Chicago White Sox in Sarasota, Fla., Monday.

unbeaten Boston Red Sox won their third game, beating the Philadelphia Phillies 8-6.

Mark Lieberthal had three hits, including a three-run homer, and Bobby Estalella had a solo homer for Philadelphia.

Royals 17, Pirates 14

decisive game of the 1996 World BRADENTON, Fla. - Joe Vitiel-Series, and the Baltimore Orioles lo hit two long home runs and drove went on to defeat the Atlanta in seven runs as the Kansas City Royals overcame Mark Johnson's Pete Incaviglia hit a grand slam for the Orioles, and Eric Davis, two homers and nine RBIs and beat the Pittsburgh Pirates 17-14.

Danny Clyburn and Wady Almonte Johnson took advantage of a 25 mph wind blowing to straightaway

center to hit a three-run homer, a two-run homer, a two-run double and a two-run single, all in five innings. Vitiello hit a pair of threerun homers to center. Indians 7, Reds 4

smacked a two-run homer in an 8-0 WINTER HAVEN, Fla. - Jim Thome and Matt Williams hit con-Alex Fernandez made his debut secutive homers during a four-run for the Marlins and gave up two fifth inning as the unbeaten Cleveinfield singles in two innings. land Indians collected 15 hits and Twins (ss) 9, Blue Jays (ss) 0 won their fourth game, 7-4 over DUNEDIN, Fla. - Rich Becker Cincinnati.

Pokie Reese drove in all the Reds' runs with a grand slam.

Dodgers 4, Expos 3 WEST PALM BEACH, Fla. -

Hideo Nomo allowed only one hit in three scoreless innings and the Los Angeles Dodgers scored four runs Mariners 7, Giants 3 off a wild Derek Aucoin in the sev-

Spehr and Rudy Pemberton home- outburst by the Padres in the sevred on consecutive pitches as the enth inning as San Diego defeated Oakland.

Gwynn, who also singled and scored in the first inning, homered off Bill Taylor.

Ernie Young hit a solo homer for the A's and Jose Canseco got his first hit of spring training, a double. Canseco struck out in his other two at-bats.

Damon Mashore had a two-run double in the eighth for the A's. **Brewers 13, Angels 5**

TEMPE, Ariz. - Mark Loretta had three hits and drove in four runs, leading the Milwaukee Brewers over Anaheim.

Loretta had a two-run double in the second inning as Milwaukee overcame a 3-0 deficit. He added a two-run single in the third and a double in the fifth.

Cardinals 13, Astros 7

KISSIMMEE, Fla. - Andy Van Slyke, making a comeback after sitting out the 1996 season, went 3for-4 and keyed a nine-run fifth inning as the St. Louis Cardinals beat Houston.

Van Slyke had a double and two singles and scored three times. He singled to start the fifth and scored the first run as St. Louis piled up five singles, three doubles and a triple against losing pitcher Mark Small and Mike Gardiner.

PEORIA, Ariz. - Jamie Moyer enth inning for a 4-3 victory over and Edwin Hurtado each pitched three strong innings and Chris Sabo went 2-for-2 as the Seattle PORT ST. LUCIE, Fla. - Former Mariners defeated the San Francis-

LaFrentz unanimous All-Big 12 selection

By Doug Tucker Associated Press

KANSAS CITY, Mo. - Raef LaFrentz of Kansas, the top player on the nation's No. 1 team, and Colorado's versatile Chauncey Billups were unanimous selections to the first Associated Press All-Big 12 basketball team announced Monday.

Joining them on the first team in balloting by a panel of 24 media observers, two per conference school, were center Tony Battie of Texas Tech, guard Dedric Willoughby of Iowa State and guard Reggie Freeman, who led Texas in scoring, rebounding and assists. Battie came within two votes of being unanimous on the first team.

LaFrentz, a 6-foot-11 junior forward, burst to stardom in January when a foot injury sidelined center Scot Pollard. The Jayhawks maintained the national No. 1 ranking as LaFrentz, a native of tiny Monona, Iowa, became the first player in Roy Williams' nine years as coach to top 20 points in eight straight games.

Although frequently doubleteamed, LaFrentz proved an unstoppable force offensively and defensively as the Jayhawks went 7-1 in that key stretch. He goes into postseason averaging better than 19 points and nine rebounds.

Billups is the reason Colorado is on track for its first NCAA tournament berth in 28 years. The 6-3 sophomore point guard finished fourth in the Big 12's inaugural season in scoring with 20.2 points per game, second in free throw percentage (.851), third in assists (116) and third in steals (2.3 per game).

Big 12 scoring champion Cory Carr, a junior from Texas Tech, leads a guard-laden second team in the guard-rich league. Other guards named to the second unit were Kansas senior Jacque Vaughn, the player of the year in the Big Eight last year who got off to a slow start this season after missing the first 10 games with a wrist injury; Nebraska's superquick sophomore Tyronn Lue; and Oklahoma senior Nate Erdmann.

Many point to LaFrentz as Kansas' finest player since Danny Manning was a two-time all-American in the late 1980s.

"LaFrentz has stepped up to be one of the premier players in America," Kansas State coach Tom Asbury said. "Last year, he was a

All-Big 12 team

FIRST TEAM

- Raef LaFrentz, Kansas, Jr., 6-11, 235, Monona, Iowa Chauncey Billups, Colorado, Soph, 6-3, 202, Denver,
- Tony Battie, Texas Tech, Jr., 6-11, 225, Dallas.
- Reggie Freeman, Texas, Sr., 6-6, 205, Bronx, N.Y.
- Dedric Willoughby, Iowa State, Sr., 6-3, 190, Harvey, La.
- SECOND TEAM Jacque Vaughn, Kansas, Sr., 6-1 195, Pasadena, Calif.
- Tyronn Lue, Nebraska, Soph, 6-0, 170, Mexico, Mo.

Nate Erdmann, Oklahoma, Sr., 6-5, 210, Portales, N.M.

- Cory Carr, Texas Tech, Jr., 6-4, 200, Kingsland, Ark.
- Brian Skinner, Baylor, Jr., 6-10, 245, Temple, Texas.

THIRD TEAM

- Paul Pierce, Kansas, Soph, 6-7, 220, Los Angeles.
- Kenny Pratt, Iowa State, Sr., 6-5, 230, Chicago
- Kelvin Cato, Iowa State, Sr., 6-11, 255, Decatur, Ga.
- Jerod Haase, Kansas, Sr., 6-3, 191, South Lake Tahoe, Calif.
- Corey Brewer, Oklahoma, Jr., 6-2, 180, West Memphis, Ark.

HONORABLE MENTION

Kelly Thames, Missouri; Ryan Robertson, Kansas; Chianti Roberts, Oklahoma State; Adrian Peterson, Oklahoma State; Jacy Holloway, Iowa State; Fred Edmonds, Colorado; Patrick Hunter, Baylor.

some other guys because he can do so many things.'

Battie, a 6-11 junior, led the Big 12 with almost 13 rebounds a game while astonishing fans and foes with his rapid improvement.

"He's the real deal. Tony Battie is the best center in this league, hands down," Baylor coach Harry Miller said. "When you get past Wake Forest's) Tim Duncan, I don't know that there's anybody in the country any better. He's quick, agile and can run."

The biggest scoring game in the Big 12 season belonged to Freeman, a 6-6 senior who hit 43 against Fresno State and will go down as one of the finest players in Texas history. Like Billups, he also made 15 free throws in a game. Averaging more than 22 points, second in the league behind Carr's 23, he was No. 8 with 7.6 rebounds and No. 6 with 97 assists.

Sports Briefs

TENNIS

World No. 1 not to return before end of April

FRANKFURT, Germany (AP) -Steffi Graf, nursing a knee injury, said Monday she probably won't return to tennis before the end of April, meaning she could lose the No. 1 ranking to 16-year-old Martina Hingis.

"The injury is worse than I thought. I have to have a break of four to five weeks, then we'll see," Graf said in a television interview.

Hingis has won four tournaments in a row, including the Australian Open, and could take over as the world's top-ranked tennis player at the end of this month.

Graf was forced to withdraw at the Toray Pan Pacific Open in Tokyo on Feb. 2, where she was to have faced Hingis in the final.

COLLEGE BASKETBALL

Garris and Jackson earn weekly Big Ten honors

PARK RIDGE, III. (AP) -Kiwane Garris of Illinois and Minnesota's Bobby Jackson earned Big Ten player of the week honors, the conference announced on Monday.

Garris averaged 28 points and three rebounds, while adding seven assists and shooting 60 percent on three-point attempts in Illinois' two wins last week.

Jackson averaged 14 points and 6.5 rebounds and had two assists and six steals as Minnesota won two games and clinched the conference championship.

NBA

NBA hands out monthly, weekly awards

NEW YORK (AP) - Glen Rice of the Charlotte Hornets was the NBA's player of the month, while Detroit's Doug Collins was selected coach of the month on Monday.

Also, Loy Vaught of the Los Angeles Clippers was chosen as player of the week, for the period

leading a split squad of Minnesota the Montreal Expos. Twins to a 9-5 victory over the Mexico City 6, Mets (ss) 4 Texas Rangers.

major leaguer Ty Gainey and LAKELAND, Fla. - Matt Wal-Eduardo Jimenez homered as the beck had three hits and three RBIs and five Detroit pitchers held New York to six hits in a 6-5 victory over squad game.

Scott Pose hit a two-run homer

Film chronicles men's 'swinging' lifestyle 'Partner' becomes brutal to read

By Stacey Harrison The Daily Iowan

Few things are as torturous in this world as the middle portion of a John Grisham novel.

It is downright expected for one of his books to grab the reader's attention with an amazingly compelling setup and conclude with a decent climax, but be fat in the middle with dull, circular plot mechanics that become almost brutal.

"The Partner," the latest wouldbe thriller from the chief justice of the modern legal drama, is no different, only worse. The beginning is not even that interesting.

The story begins at the end of a long search for one Patrick Lanigan. His capture in a Brazilian border town has raised the ire of sever- Grisham's other works, is the al parties back home, namely his old law firm and the FBI. The countless members of each of these organizations are just a few of the nameless, depthless characters Grisham plagues his scant prose with.

too many people in "The Partner" to try and care about. They're not so much characters as they are embodiments of certain responses to certain events. None of these characters are independent of their is the novel's greatest flaw, its greater purpose, which makes shoddy structure. A good popular them rather expendable in the novel can overcome even the shalreader's mind.

book, because it is the antithesis of twists and turns to keep readers throw it in the ocean.

OHN GRISHAM

almost complete absence of a true main character. When synopses of "The Partner" are given in the future, they will, of course, refer to Patrick in that role. But upon reading the text, this is not such a logical inference. Patrick spends most In other words, there simply are of his time bedridden and recounting his daring escape and life on the lam to several different parties, giving each of them a little differ-

ent piece of the puzzle. This points to what undoubtedly lowest of characters by focusing on What is most shocking in this the plot, and giving it enough

guessing and anxious for the end, something Grisham did accomplish in "The Pelican Brief."

You'll be anxious for "The Partner" to end, but for all the wrong reasons. Grisham gives his narrative about as much life as a set of stereo instructions. But at least with those, there's a nice payoff in the end. No such luck here. With such curious lines like "she ... gave him a look that would melt cheese,' there's just not much hope. But, even if this weren't the case,

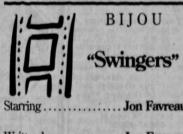

"The Partner" probably would have failed. Patrick is given little to no motivation for doing what he did. The reason given is a convoluted economic melee that is about as confusing as trying to make sense of the Whitewater scandal. In any case, the motivation is faulty and lame, which is no less than what this book deserves.

The only hope this actionless action novel has of redeeming itself is at the very end, when Grisham does insert an admittedly clever plot twist. But feeling the full effect of it depends on a full familiarity with the characters, something that is sadly missing here. How can you feel a betrayal in a relationship where the two characters do not share one scene together?

Grisham is the type of author whose books many people read while laying out on the beach in the summertime. No doubt, this summer, many beachgoers will be reading "The Partner." My advice:

By Greg Kirschling The Daily Iowan

The singles scene is a dismal world, especially in Los Angeles. In the low-budget "Swingers," every-body abides by the familiar yet unwritten laws of courtship. The guys play games, such as waiting two to six days to pursue a nightclub prospect, but the women don't. "What kind of car do you have?" is all they want to know.

Mired in this disheartening environment is Mike (Jon Favreau of "Rudy"), a likable but struggling Fighting over video games is an comic/actor who is still moping six months after a six-year relationship that went kaput. In one of the film's more bizarrely funny scenes, the electronic voice on his answering machine promises him there are always other fish in the sea. But Mike is tired of the whole game, which in his mind is full of nothing but "skanks" and "assholes."

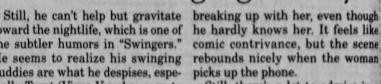

toward the nightlife, which is one of the subtler humors in "Swingers." He seems to realize his swinging buddies are what he despises, especially Trent (Vince Vaughn, soon to be seen in "The Lost World"), but he still gets along with all of them. Besides, he needs to get over his

woman, by any means necessary. Hey, what else is there to do anyway? The swinging life is depicted as a lazy guy's paradise. Putting on a golf green is the most strenuous sport these guys attempt, unless Sega hockey counts. We never see any of the struggling actors at work, although money doesn't seem to be a problem. Even at the bars, they guys try not to get too worked up. (Actually, with all the bar cruising and video-game rivalries, the movie just as easily might have been set in a residence hall, not Los Angeles.)

From this carefully established milieu, the film plucks a few hip laughs at a fairly constant rate, even though the humor is never exactly deep or very surprising. easy target, and some bits (like the "how-long-do-you-wait-to-call?" bit) are too "Seinfeld"-esque.

And some of the laughs push for too much. When a desperate Mike leaves a series of answers on a woman's machine, it's slightly and see which character you would touching, but eventually he ends up rather end up like.

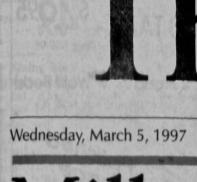

Source: Vibes Music, BJ's Compact Discs

Still, there's a lot to admire in a movie with the chutzpah to imitate the slo-mo opening of "Reservoir Dogs" and a tracking shot from "GoodFellas" after the swingers voiced their respect for those two shots specifically in an earlier bull

session. And while homages like this help place the movie in the unmistakable '90s, the costuming, music and nightclub design pull the movie back into the swing era. Moments of this movie are undoubtedly inhabited by the ghost of a young Frank Sinatra. It's a stylish touch especially in the end, when Mike runs into Lorraine (Heather Graham, "Drugstore Cowboy") in a bar, lending class to a potential romance

The look also redeems the characters, especially Mike, who's turned into an old-fashioned kind of guy. Favreau's "Mike" gives all the swingers out there (both male and female) some hope. Favreau's performance is "money," as his buddies would say, and his "Mike" presents a promising alternative to swingers like Trent, who is comically deluded. Guys, watch the goofy last scene

With a voter turnout of UI junior defeats Chad

e

By Kristin Bauer The Daily Iowan

At approximately 8:35 p.m. Tues day night, UI presidential candi date Chad Doellinger sat calmly in a chair in the corner, while presi dential candidate Allison Miller sa right outside the UISG office with her hands folded and her hea down

UISG Public Relations Executiv Heather Kramer waved the pres dential candidates into the UIS office and closed the door.

"They are doing this the slowes way possible," Erin Studor, under graduate collegiate senator of th Miller-Henry ticket, said.

Approximately 7.4 percent of th student body voted, totaling 1,91

'Garp' aut **UI** reading

By Greg Kirschling The Daily Iowan

Tonight the UI will be revisite by one of its most famous alumn who achieved world fame in 197 with the line, "But in the worl according to Garp, we are all term nal cases.

John Irving, whose eight novel (including "The World According t Garp") have been translated int more than 20 languages an spawned two films, is scheduled t read from his work-in-progres ninth novel, "A Widow for On Year," at 8 p.m. in Buchanan Aud torium of the Pappajohn Busines Administration Building. Irving attended the UI Writer Workshop as a student from 196 67, and he later taught at the L from 1972-75. In addition, Irving, voracious wrestler, trained wit the Iowa team during both stay which he said helped train him as writer as well. "I learned three essential word in the wrestling room, and, later, discovered their importance as a application for me as a writer: Di cipline, practice and repetition," h recently told the DI in a fax inte Irving still faithfully continue his daily wrestling workout, and I wrestling coach Dan Gable sa

ABC announces 'Ellen' will come out as a lesbian

By David Bauder Associated Press

NEW YORK - The months of coy references are over. ABC said Monday "Ellen" will come out as a lesbian.

The character played by actress Ellen DeGeneres will talk to a therapist, played by Oprah Winfrey, about her attraction to a gay woman in an episode of the sitcom set to air April 30.

have featured homosexual charac- remarks about it. ters, "Ellen" would be the first prime-time show to have an openly gay lead.

episode. ABC hasn't decided quality story line. whether the show will be an hour-

long special or air in its regular 8:30 p.m. slot. The network said a later "Ellen" episode will deal with Morgan telling her parents about "this

startling self-discovery." Since word first leaked last September that "Ellen" 's producers were considering the gay story line, DeGeneres has led a steady While other television shows stream of jokes and cryptic

Executives for ABC, which is owned by the Walt Disney Co., said they took their time giving "Ellen" Actress Laura Dern plays Ellen the go-ahead because they wanted of it.

Morgan's love interest in the to be sure the coming out fit into a

ability to respond explore the comcharacter," said Jamie Tarses, president of ABC Entertainment. "I'm thrilled," said Chastity

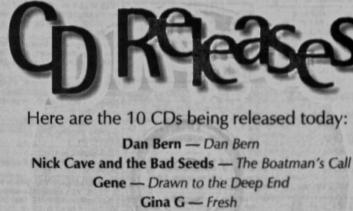

Bono, spokesperson for the Gay & Lesbian Alliance Against Defamation. "I think it's going to be a very positive event for the gay and lesbian community."

GLAAD even set up an Internet site for fans to talk about the "Ellen" plot twist and organized a letter-writing campaign in support

But the Rev. Donald Wildmon, head of the American Family Asso-"Ellen DeGeneres' strength as ciation and frequent critic of sex an artist has always been in her and violence on television, has threatened to organize an adverplexity and compassion of her tiser boycott if "Ellen" came out. Messages left Monday at Wildmon's office were not immediately returned

Strategy or not on the part of ABC, the story line's long gestation has served to quell much of the nervousness in the advertising community, said Walter Staab, chairperson of the SFM Media Corp. in Manhattan.

'Most of us have gotten used to the idea," Staab said. "It's going to be sort of a non-event."
