Ohio River floods continue to rise

By Ann Gibson

LOUISVILLE, Ky. — Rising at its highest level in a generation, the Ohio River overflowed more than 20 miles here on Monday, sending Louisville and Wednesday in a multi-

location disaster that may not be up until next week.

Towering flood walls protected Kentucky's largest city from the river, which rolled 14 feet above flood stage. It was the low-lying terrain along the river that was the problem...for the realities of receiving a home warranty coming back to.

Iowa senators agree to across-board tax cut

By Mary Neubauer

The Daily Iowan

DEBBIE MOONEY, a Senate leader who says she will host a daylong hearing on income taxes, said senators are ready to let the legislation proceed to the House. She says she has heard from all 50 senators and that none have set up any roadblocks to the tax cut.

"We had already decided that this across-the-board cut was what everyone was talking about, and that every senator has set up any roadblocks to the tax cut," said John A. Doocy, chairman of the Senate Finance Committee.

"I'm very glad to hear that all 50 senators are on board for the tax cut," said Debra W. Schumacher, chairwoman of the Senate Ways and Means Committee.

"Without a doubt, everyone is ready to work on this tax cut," said John H. Johnson, chairman of the Senate Rules Committee.

"This is a historic day for Iowa," said John E. Dickey, chairman of the Senate Appropriations Committee.

"We are ready to move forward on this tax cut," said John F. Johnson, chairman of the Senate Judiciary Committee.

The Senate leadership agreed early on that they would begin work on a plan to eliminate the state's income tax. A Senate committee was asked to come up with a proposal by the end of the session, and the Senate had set up a roadblock to the tax cut.

Subcommittee: The Senate Ways and Means Committee, chaired by John H. Johnson, approved the plan on Tuesday, the governor-appointed House Revenue Subcommittee voted down a similar plan in the House.

The Senate Democratic leader said he would try to work with the House on the tax cut. She said she would continue to work on the plan, and that a Senate committee would present its plan at the end of the session.

"We are ready to work on this tax cut," said John E. Dickey, chairman of the Senate Appropriations Committee.

What would Little Bo Peep think?

T he world was ushered into utter chaos last week when it was revealed that McNab, the world's tallest sheep and the world's tallest sheep, has _ announced that he had managed to clone an adult sheep by making an exact duplicate of a sheep with only one name. Then he topped that announcement by claiming he could use this technology be used for and, most importantly, that he could clone a very special sheep—God's only mistake, in this case the sheep of the same name.

But there is more to the story. The scientific community will tell you that this is not possible. God's only mistake, in this case the sheep of the same name, has no genetic material that could be used to clone another sheep. In fact, the sheep of the same name is unique in that it has only one set of genetic material. The only way to clone this sheep is to use a technique called somatic cell nuclear transfer, which involves removing a cell from a donor sheep and transferring it into an egg cell from which the genetic material has been removed.

And yet, McNab has managed to do just that. He has created a sheep identical to the one given name, complete with all of its genetic material. This is a tremendous accomplishment, and it opens up a whole new world of possibilities for sheep farming and beyond. But before we get too excited, let's remember that this is just one sheep. The scientific community has not yet been able to successfully clone animals larger than sheep.

So, what does all of this mean for the future of sheep farming? It's too early to tell. But one thing is certain: the world of sheep farming is about to change. We are now one step closer to being able to clone any sheep we want, and that means we can have as many sheep of the same name as we want. This is a truly revolutionary development, and it opens up a whole new world of possibilities for sheep farmers and beyond.

In conclusion, Little Bo Peep would no doubt be amazed by the accomplishments of the McNab sheep. She would have been thrilled to see that her name could be used to create something as amazing as the sheep of the same name. And she would have been even more thrilled to see that this is just the beginning. The possibilities are endless, and we are only scratching the surface of what is possible with sheep cloning.
Women are more than just their reproductive organs

I have always thought that women are more than just their reproductive organs. They are more than just their roles as mothers and partners. They are more than just their bodies and their biology. They are more than just their responsibilities in society. They are more than just their roles as caregivers and providers. They are more than just their ability to procreate. They are more than just their ability to bear children. They are more than just their ability to have children. They are more than just their ability to childre...

The researchers concluded that exercise can provide long-term benefits for women, particularly in terms of maintaining overall health and preventing chronic diseases. They emphasized the importance of regular physical activity for women of all ages and encouraged practitioners to incorporate these findings into their clinical practices.

In summary, the research highlights the potential benefits of exercise for women, underscoring the need for continued investigation and public health interventions to promote active lifestyles among females.
Zairian rebels close in on port

By Karin Danz

TUNDIYI, Zaire - The guerrillas, routing out a series of mutinous soldiers, accepted a U.N. cease-fire proposal Wednesday, rebels holding them in a no-win situation.

Refugees fleeing the rebel advance reported that scores of people were slain Saturday when locals took over a huge refugee camp in Tungi-Tungi. On Wednesday a few dozen shouted "peace" to the burning of what was once a vast, tent-filled refugee camp.

Refugees said they were there to help, but little was clear.

By late Wednesday, rebel officials announced they had accepted a proposal by U.N. officials.

Since September, rebels wanting to topple the government of President Mobuto Sese Seko have attacked a sprawling refugee settlement in eastern Zaire. Mobuto's 26-year dictatorship has left several hundred thousand refugees in this one camp.

On Wednesday, refugees said that they were praying for a cease-fire.

"We are tired of the fighting and the many deaths," said one woman who said her family had lost someone.

"The fighting is so intense that we can no longer go outside the camp." she said.

Zairian civilians cheer a rebel convoy carrying new recruits heading to the Frontline Mundele. Rebels advanced about 20 kilometers, having killed thousands of Zairian refugees trying to flee home.

Yeltzin's speech today expected to shock

By Dave Carpenter

REUTERS

MOSCOW - Boris Yeltsin is look­ ing to consolidate his power with a speech after a tumultuous weekend, and many predict that it could be a turning point for the country. He is expected to use his speech to assure the public that he is still in control.

But many are worried about the economic situation in Russia.

The economy has been in decline for several years, leading to widespread poverty and unemployment.

Yeltsin's speech is expected to address these issues, and many are hopeful that it will bring some relief.

But others believe that it could simply be a public relations stunt, and that the economic problems will continue to worsen.

Despite the uncertainty, many are looking forward to hearing Yeltsin's speech, hoping that it will bring some positive change to the country.

Many are also concerned about the political stability of the country, and worry that Yeltsin's speech could lead to further instability.

Millions of state workers and pensioners have been tracking the situation for several years, and are praying for a peaceful resolution to the conflict.

And the situation is becoming more complex, with the possibility of new conflicts emerging.

But for now, the focus is on Yeltsin's speech, and what it might mean for the future of Russia.

March fever finds home with red-hot Hawkeyes

Desire for fame brings oldies back

Last weekend sports fans had the opportunity to examine the awesomeness that happens when one of the world’s all-time greatest athletes can’t get his hands on the ball. The third weekend of March marked the beginning of the season for University of Iowa’s wrestling team, which added an additional chapter to the storied history of one of the country’s most successful wrestling programs.

Last weekend’s success had the athletes of wrestling’s record-setting program on the verge of shattering the all-time record for wins in a season. The team had already won 14 of their 18 matches this season and was at the top of their game. The Hawkeye wrestlers were preparing for one of the most anticipated matches of the season, a showdown with Penn State, which had won the national championship the previous year.

The match was a battle of the titans, with both teams vying for the top spot in the NCAA. The Hawkeyes had a strong lineup and were determined to prove themselves as the best team in the country. The match was held in Carver-Hawkeye Arena, which was packed with fans cheering on their team.

The Hawkeyes started strong, taking the first set 6-1. In the second set, they continued their dominance, winning 6-1. By the third set, the Hawkeyes had dominated the match, winning 6-1 and securing their place as the top team in the NCAA.

The victory earned the Hawkeyes a spot in the NCAA championship, where they will face their biggest challenge yet. The team is ready to take on the competition and bring home the title. The Hawkeyes are the champions of wrestling, and they are determined to stay at the top of the game.

There is a reason for those if-I-drop-anything attempts, and that reason is fame. When athletes retire, many can't deal with the fact that they have been fighting for something greater than themselves, as was the case with Walker Texas Ranger. It's certainly understandable. If all you've ever needed was one adrenaline shot to get you going, the high of a big game or a championship victory, and layers of adoration from fans and critics, you can go into an empty arena because I wrote for the DL, it wouldn't be hard to go into a raving arena.

The problem is, this finite high can only take you so far. There are no guarantees where all they can be supposed to go. There are no guarantees where all they can go. There are no guarantees where all they can go. For the Chicago Cubs, success has been a perpetual reality, and so with dignity. He even admitted at his press conference that he had never done anything. Yet, after exiting and re-entering the court, Stoudt decided to come back to back-home and preserved to have the甜pot batting average of over the seven.

KNIGHTSTOWN, Ind. — Peyton Manning said they showed him the money figures when they met to try to work out a long-term contract extension.

The Tennessee quarterback announced Wednesday that he will sign a four-year, $84 million deal with the Titans that avoids a potential holdout by the best quarterback in football.

"It's not like we sat down and had the good ole Southern dinner and..." Manning said. "It was more of a business meeting, and that's what I wanted." Manning and the Titans had kicked the tires on several other deals.

"In Payton's case, I assume they took it upon themselves to make it, and I wish him well — I think he's going to make a lot more money, and I'm sure he's going to make a lot more money," said Steve Beuerlein, a quarterback for two Super Bowl-winning teams.

"I'm not sure about a player who's come to the league and has put in a lot of work and put in the time and put in the physical effort that Payton has," he said.

"I think they're going to make a lot more money, and I wish him well."

"I'm not sure how it's going to turn out, but I'm sure he's going to make a lot more money, and I wish him well." Manning's deal includes a $30 million signing bonus, $18 million guaranteed and $66 million over six years.

"I want to be a Titan," Manning said. "I want to be a Titan. I want to stay in Tennessee, and I want to win a Super Bowl here." Manning said he had talked to several teams, including the Titans, and that he had been considering other options.

"I'm with the Titans, man."

Joe 48 - The Chicago White Sox, and Negro were tears of joy. When they announced Dodgers' organization. Lasorda had hinted at trumpet his love for baseball, member committee. On Wednesday, when he was told he had been voted into the Hall of Fame, he got real.

"It's a moment of pride and joy for me. It's a moment of pride for the team," he said. "I'm very honored to be a part of this organization." Lasorda, one of only four managers to ever lead a team to four World Series titles, was elected into the Hall of Fame on Wednesday, becoming the 15th manager to achieve the honor.

Lasorda, 89, was always an enigma. He was a man who could be both tender and tough, always doing what he thought was right. His philosophy was simple: "If you want to be a good leader, you have to be a good horse." And that's exactly what he was - a great leader.

As manager of the Dodgers, Lasorda led the team to five World Series championships, including two in a row from 1981 to 1988. He was known for his fiery temperament and his ability to motivate his players. But he was also known for his generosity and his dedication to the community. He was a man of many talents, but his true passion was baseball.

"There's no other sport like baseball," he said. "It's a way of life." And for Lasorda, it was more than just a sport - it was a way of life. He loved the game, and he loved the people who played it. And he loved the fans who watched it.

"I've been blessed," he said. "I've been blessed with the fans. They've been there for me every step of the way."

Lasorda was a man of many firsts. He was the first manager to lead the Dodgers to two World Series championships in consecutive years. He was the first manager to lead a team to four World Series titles. And he was the first manager to be elected to the Hall of Fame.

The posthumous election of Lasorda into the Hall of Fame is a fitting tribute to a man who dedicated his life to the game he loved. He will be remembered as a legend - a legend in every sense of the word. He will be missed, but his legacy will live on.

Revealing his 'private parts'

By Debra M. Green

Howard Stern. He's brash, horny, self-deprecating and - most of all - he's a womanizer's worst nightmare.

All media attention points toward this big-haired shock jock from Long Island, N.Y. And regardless of who you are or what you do, there is currently the King of All Media.

For the television or fly through any entertainment magazine and you'll find Stern infiltrating the nation. The lead line of radio or a publicist's tire for his name. "Private Parts," an adaptation of his best-selling 1993 autobiography, is coming.

Making a movie

Stereotyping the popular public image and making millions, it wasn't long until Hollywood came running to him with scripts. When producer Ivan Reitman approached him on making a parody documentary on his radio show, the radio star jumped at the chance to be on the big screen.

Bringing a life to the big screen

By Katharine Horowitz

The self-proclaimed "king of all media" certainly understood how to investigate an audience. In his other screen debut, "Private Parts," he opens wide and demonstrates his gift for obtaining the absolute maximum of an audience's perusal, be it mirth, laughter, or awe. He becomes the absolute maximum, they are able to come through, whether you like him or not, Stern is currently the King of All Media.

Although "Merchant of Venice" isn't shacked by his charisma to win unwavering acceptance. The film provides enough ridiculous take-home lessons at screenwriter Elia Kazan, "Brando," and director Danny Thomas.

"Absolute Power" (R) - Clint Eastwood's new political thriller follows President Mitchell (Dustin Hoffman) as he tries to deal with a terrorist threat to his political career. It opens Friday, by William Goldman. The Chicago Tribune described it as "an engaging, thought-provoking political thriller that will leave audiences pondering the complexities of power and responsibility."

"Rosewood" (PG) - Though it's set in the early 1900s, this story of crisis and change among African-American doctors is relevant today. It opens Friday, by Doreen Rappaport. The New York Times called it "a profound and moving tale of courage and sacrifice."

"The Empire Strikes Back Special Edition" (PG) - Though it's a classic film, it's been updated with new digital effects and a revised score. It opens Friday, by George Lucas. The Chicago Tribune called it "a remarkable achievement, bringing a new generation of fans into the Star Wars fold."

"Footloose" (PG) - A young man (J.C. Chasez) and an older woman (Mickey Rooney) take a road trip to the world's worst town, where they dance to the tune of "Footloose." It opens Friday, by John Latus. The Chicago Tribune called it "a fun, feel-good film that will leave you tapping your toes."

"Life of Pi" (PG) - A young boy (Suraj Sharma) survives a shipwreck and finds himself in a lifeboat with a large Bengal tiger. It opens Friday, by Ang Lee. The New York Times called it "an extraordinary film that defies the laws of physics and defies belief."

"The Wolf of Wall Street" (R) - The story of a successful stockbroker (Leonardo DiCaprio) who becomes embroiled in a massive financial scandal. It opens Friday, by Martin Scorsese. The New York Times called it "an epic, three-hour spectacle that's as entertaining as it is exhausting."
Crush on teacher makes for perfect attendance

Dear Harlan,

I'm a sophomore and 20-year-old stu-
dent at XYZ University. I am writing to ask for
advice on a crush I have for one of our professors.

I've been taking classes with this teacher for two semesters now and have never really noticed her before this year. She's quite approachable and always willing to help students, which is why I decided to ask her to be my mentor.

Our conversations have been quite interesting, and I've felt like she's really connecting with me. I even asked her if she would be willing to be my mentor, and she said yes. We've had several meetings so far, and I've found her to be very insightful and helpful.

My problem is that I'm not sure how to move things forward. I don't want to come across as too pushy, but I also don't want to lose my mentor if she doesn't feel the same way. Would you have any advice on how to approach the situation?

Thank you for your time,

Dear Cheating,

After hearing your engagement, it always helps to have a partner with the same interests. I'm not sure if you're looking for a romantic partner or just someone to talk to about your cheating.

My advice would be to talk to your partner about your feelings and see if they are interested in discussing your sexual history. It can be difficult to talk about these things, but it's important to have an open and honest conversation.

Good luck,

God forbid you actually find even a subplot about a minority character, much less a character who is a minority.

If you actually find a subplot with a minority character on it, that character usually is no more than a brief scene or two; it's not enough to get to the show's humor rating.

Why should we feel the need to provide an entire subplot about a minority character when we have thousands of other characters we can use? These other characters can be more interesting and complicated than any minority character you can think of. If we choose to provide a subplot about a minority character, it will be because it's relevant to the plot and necessary to the characters' development.

You can still find something a bit more interesting on Discovery than a sitcom television. What is more interesting is the story of the band, The Pixies, and how they came together.

The band is made up of four members: Black Francis, Joey Santiago, Kim Deal, and David Lovering. They formed in Boston in 1987 and have been together ever since.

In 1989, the band released their first album, freshman. It was a instant hit and earned them a huge following. They followed up with their second album, Surfer Rosa, in 1990. This album was also a huge success and cemented the band's place in the alternative rock scene.

In 1991, the band released their third album, Come on Pilgrim!, which was a bit of a departure from their previous work. It was more pop-oriented and featured lighter, more upbeat songs.

In 1994, the band released their fourth album, Indie Cindy, which was a return to their earlier style. It was a critical and commercial success, but it was met with mixed reviews by some fans.

The band continued to release albums and tour throughout the 1990s and 2000s. In 2010, they announced a reunion tour to celebrate their 20th anniversary. The tour was a huge success and sold out almost everywhere.

New York City. On Thursday night, 30 and 40 million people watched the show in Nielsen Media Research's top 60 markets, down because three of those programs were reruns.

ABC came in third, followed by CBS.

A "Seinfeld" repeat was easily the best program on that channel. The Carter Awards telecast was solid but, however, the movie show-awards were a bit of a letdown since CBS began televising it in 1974, Nielsen's 21-city survey program drew a lower rating.

There are three different rooms in the soundtrack to Mark's latest album, "Private Parts)." They’re called "Room 1," "Room 2," and "Room 3." The music in each room is different, but they all share one thing in common: they’re all about sex. "Room 1" is a slow, sultry number that features a synthesizer and a male voice. "Room 2" is a more upbeat number with a drum kit and a bassline. And "Room 3" is an acoustic ballad featuring an acoustic guitar and a female voice.

The album has a lot of different themes, but sex is definitely one of them. Mark talks about his relationship with his wife, his past relationships, and even his relationship with his music. He says that he’s trying to put his real personality on display on this album, and he’s definitely succeeded. "I started out doing what I thought was cool and trendy, but now I’m just being true to myself," he says. "I’m writing about things that matter to me, and I’m not afraid to show the world who I am."

Despite some minor criticisms, "Private Parts) is a great album. It’s not perfect, but it’s not far off, either. It’s a great addition to Mark’s discography, and I’m excited to see what he’ll do next."
