Congress comes down on Mexico

By Carolyn Skarnicki

WASHINGTON — It is a tribute to President Clinton, a House committee chairman who hasiji.sited Congress to vote today on a measure to revoke its certification that Mexico is cooperating with the United States in the fight against illegal drugs that the day may come to note that he is leading the fight.

The House is expected to muster a majority Thursday to revoke its certification that Mexico is cooperating fully in the war on drugs. However, the mostly symbolic measure approved 23-1 by the International Relations Committee would allow Clinton to veto a resolution in an emergency session of Congress that could have a significant impact on Mexico.

Supporters of the resolution cited a way to signal discontent with Mexico's conduct in the war on drugs and the Clinton administration's action in certifying that Mexico is cooperating. Rep. Clay Shrew, D-Fla., sponsor of a decertification measure, said that Mexico should be "a very strong partner to our security in Mexico" without criticizing the administration and trade with Mexico. "The issue before us today is nothing less than the well-being of America's children," he said. Chairman Benjamin Gilman, R-N.Y., who opposed the decertification measure, said the measure was "a significant error in judgment." He added that Mexico was cooperating with the United States in combating drug trafficking.

The live vote opposed the resolution that was two Republican votes and one Democratic vote, and Mexico is likely to be successful in revoking its certification that Mexico is cooperating with the United States in the war on drugs.

Jury finds Hardy guilty of murder

By Gem Smith

COURT, Iowa -- April 18.-- The jury in the Hardy murder trial today returned a verdict of guilty. Roger Hardy, 65, was convicted of first-degree murder in the shooting death of his wife, 35-year-old Juanita C. Hardy, in their home on October 3, 2003. The jury deliberated for about four hours before returning the guilty verdict.

Hardy, who has been in custody since his arrest, will be sentenced to life in prison without parole. The trial lasted for two weeks and featured testimony from over twenty witnesses, including police officers, neighbors, and friends of the victim.

Juanita Hardy was a teacher at a local elementary school and was well-known in the community for her kindness and dedication to her students. Her death shocked the community and left a void in the lives of those who knew her.

Hardy was represented by Assistant Public Defender, Mark Johnson, who argued that there was insufficient evidence to sustain a conviction. However, the jury was not convinced and found Hardy guilty.

The case will now proceed to sentencing, where Hardy's sentence will be determined. The prosecution is expected to seek the maximum sentence of life without parole.

GOP compromises on fund-raising probe

Wal-Mart trapped between Canadian, U.S. laws

OTTAWA (AP) — Wal-Mart’s shoplifting season has become a diplomatic stand-off following a Justice Department investigation into charges the U.S. retail giant paid off a Mexican official to avoid paying a Canadian-made pajamas from the stores of the Canadian firm, the company and U.S. government officials said Tuesday.

-In bilingual announcement Tuesday, the company and the government said they had reached an agreement to resolve the investigation.

The deal lets Wal-Mart off the hook in Canada, but it raises questions about the company’s operations in the U.S. and its relationship with federal authorities.

The deal also raises questions about the company’s relationship with federal authorities, who are investigating the company’s corporate culture and its alleged improper payments.

HAWKEYE FOOTBALL

Fry extends contract

The University of Iowa has extended offensive coordinator Mark Fry’s contract through the 2008 season. Fry, who has completed the Hawkeyes’ 14th season, has led the Hawkeyes to 13 bowl games and three Big Ten titles. The Hawkeyes are currently 3-2 in the Big Ten and 15th in the coaches’ poll.

Swimming

UI swimming and diving team will compete in the B1G Championship in Indianapolis on Feb. 23-25.

IOWA vs. NORTHWESTERN

The men's basketball team will host Northwestern at 2 p.m. on Saturday, March 1. Northwestern is currently 15-13 overall and 6-11 in the Big Ten Conference. Iowa is 20-9 overall and 10-6 in the Big Ten.

Coach Fran McCaffery said, "The whole team is excited to have our fans here in the arena to support us." The game is expected to be a sellout.

Carver cops, let us support our Hawks!

Why is that image which will forever be ingrained in my memory? The Michigan State boys’ basketball team is the picture of perfection. Defense and offense. They have it. That’s what Iowa needs to do. They need to be able to defend and score. They need to be able to shut down the Big Ten’s best scorers. They need to be able to hold their own against the Big Ten’s best defenses. They need to be able to come out on top.

Iowa is facing the University of Illinois this weekend. Illinois is currently 21-11 overall and 10-6 in the Big Ten. They are coming into the game with a lot of confidence after their win over Northwestern. They are looking for a repeat of that performance.

Basketball facts

Iowa is 8-6 all-time against Illinois. They have won three of the last four games against the Fighting Illini. They have won six of the last 10 games against the Fighting Illini.

IOWA VS. NORTHWESTERN

Northwestern is going to give as a good effort as their home court. It's not exactly their best time, but they're close.

I think they're going to come flying out of the gate and they know what it's like to be in that match and they've stayed with everybody.

The Hawkeyes, who have won two games in a row, are looking to keep the intensity up through the NCAA tournament.

I just think we have to pick up our play and make sure we keep it up for the tournament. We have to practice a little harder and get a little harder. We're going to need that because the intensity is much higher.

Bulls debate Rodman's worth

By Mike Nadel
The Daily Iowan

Bulls forward Michael Jordan says the Chicago Bulls don't need new stars to win NBA championships. Coach Phil Jackson doesn't want to see another superstar added to the team, either. "We've got a lot of heart in this team," Jordan said. "It's not like we're not having fun."

"I don't think it's a matter of having a superstar," Jackson said. "I think it's a matter of having a team."}

Bite Marks/The Daily Iowan

The Hawks are on the rise and Jordan's career is on the decline. He's worth having after we beat a team by 40. Wait until we say Longley, Rodman's biggest supporter, "I've seen a difference in their attitude this year," Longley said. "We had to prove to ourselves that we could play with the best of them, and we did."

"That was a great win," Longley said. "We had to prove to ourselves that we could play with the best of them, and we did."

Youth sports

The Hawks and Hawks on the ten-cent court, Iowa has enjoyed just one win. But according to Mainz, that's not going to stop the team from continuing to win. "We haven't had a lot of success against Indiana," Mainz said. "But just as our women's basketball team around, anything can happen in any given game."

Soccer Kristen McCracken's six goals against Illinois on the same day this season were her last. They were in the past, McCracken said. "If they could have gone either way," McCracken said. "I've seen a difference in their attitude this year," Longley said. "I think they're up to the challenge."

We are seeking volunteers to help with a research study on the effects of exercise on blood pressure. The study will take place at the University of Iowa Hospitals and Clinics. Volunteers will be asked to exercise for 30 minutes three times per week for six weeks. The study will evaluate the effectiveness of exercise in reducing blood pressure. The position is available immediately and requires a high school diploma or equivalent. Interested candidates should apply online at www.cordivalleynet.com.
Iowa City's own Pompeii V garners national attention with electronica

Katherine Hunzell

Riding the rocket of electronic music that is currently sweeping the country, Iowa City trip-pop and Pompeii V is about to land in Los Angeles.

With a new contract from a national recording label, Secrets and a proposed invitation to perform at A.I.R., the Iowa City band is poised to break onto the national music scene. The band's latest album, Oxygen Sensor, topped at No. 18 on Billboard's dance albums chart in February.

Secrets is the mind behind the band, singer/guitarist Jonathan Payne and drummer Matt "Logo" Copman. When not involved with Secrets, Payne has played in the bands Bix, Beethoven and Black and Blue.

The band's new album, Oxygen Sensor, caught the attention of A.I.R., a Los Angeles-based independent label known for its dance-pop hits.

"Oxygen Sensor is the perfect fit for our label," said A.I.R. president John MacMillan. "It's a fresh, new sound that will appeal to a wide audience.

Payne said the band was thrilled to receive the offer from A.I.R.

"We were really excited to hear that they were interested in our music," Payne said. "It's a great opportunity for us to get our music out to a wider audience.

The band's debut album, Oxygen Sensor, is expected to be released later this year.

Payne said the band has been working on the album for several months and is excited to see it come to fruition.

"We've been working on it for a long time, and we're really happy with the way it's turning out," Payne said. "We think it's a great representation of our sound and style.

Payne said the band is planning to tour extensively in support of the album and is excited to see what the future holds.

"We're really looking forward to getting out on the road and playing for our fans," Payne said. "We're excited to share our music with as many people as possible.
