Bike coin

By Driscoll Mclntire

Hoping to avoid environmental
tax incentives such as example, a number of well-known companies are now exploring the use of bicycle infrastructure.

Owners and their bicycles Joff and Kevin Hanse both discussed the potential cost of the legislation on the suburb of "Iowa," which would be a bit of a victory for environmentalists. "It is the single greatest tool for changing the world," said Joff Hanssen, a 4.4 percent majority owner of the company. "By the end of the year, we'll be able to go from Iowa to the Netherlands, and from the Netherlands to the United States."

"I think that there are many people who will see this as a win," said Kevin Hanse. "I think that it is a win for the environment."
Two brothers promote environmental awareness by delivering the goods.

By Craig Hiatt

Bicycles are a cornerstone of Ames community life. With three bicycle co-op stores, 12 bike shops, 24 clubs and 220 miles of bike trails, bikes are a major part of Ames’ culture. But that wasn’t always the case.

“Bike culture began to take shape in the late 1980s and 1990s, when a new generation of bikers started to ride around the city,” said Jeff Hankens, a junior at Central College and a co-founder of the Hankens Brothers Bike Delivery Service. “It was during this time that the idea of bike delivery began to gain traction.”

The brothers, Kevin and Jeff Hankens, started their business in 2000 with the goal of providing an eco-friendly and convenient alternative to traditional delivery services.

“People have become more environmentally conscious in recent years, and we wanted to be part of that movement,” said Kevin Hankens, a senior at Central College.

The brothers say that their business model is simple. They deliver small packages, such as food, medicine, and other necessities, to customers in the Ames area.

“We deliver an average of 20-30 packages a week, but we’ve had some weeks where we’ve delivered up to 50 packages,” said Kevin.

The brothers say that they have had to adapt their business model to meet the needs of their customers. They have had to learn how to navigate the roads and trails of Ames, and they have had to learn how to deal with the unpredictable weather.

“Sometimes we have to deliver in the rain, snow, or even the heat,” said Kevin. “But we don’t let that get us down.”

The brothers say that they enjoy the challenge of their job.

“Delivering packages is a lot different than delivering groceries,” said Kevin. “But we enjoy it because we get to see different parts of the city.”

The brothers say that they have had to learn how to be quick on their feet.

“We have to be able to deliver packages quickly and efficiently,” said Kevin. “We have to be able to deal with the unexpected.”

The brothers say that they have had to make some sacrifices to make their business work.

“We sometimes have to work late at night or on the weekends,” said Kevin. “But we’re able to make it work because we enjoy what we’re doing.”

The brothers say that they hope to continue their business for many years.

“We want to keep delivering packages for as long as we can,” said Kevin. “We love what we’re doing, and we think it’s a great way to help the environment.”

The brothers say that they are excited about the future of their business.

“We’re looking forward to expanding our delivery area and increasing our customer base,” said Kevin. “We’re also looking forward to working with other organizations to help promote environmental awareness.”

The brothers say that they hope to continue to deliver packages to customers for many years to come.

“We want to keep delivering packages for as long as we can,” said Kevin. “We love what we’re doing, and we think it’s a great way to help the environment.”
Girls' schooling shoots up globally

There are gains in the Middle East and sub-Saharan Africa - but 51 countries lag.

For a girl anywhere in the world, education opens the door to a better life for her, her family and her community.

By Andrea Shalal

Associated Press

WESTERN BOGOTA, Colombia - In one of the world's two biggest striking goals in improving girls' education, there remain the past 10 years, with the more programmatic efforts and more places, such as the Middle East and sub-Saharan Africa. A new report says girls' certain outcomes have been made in Latin America. But依然 still exist in nearly 155 million girls' where the police report released Sunday by Population Action International's Research and Education Trust says girls' enrollment during the past decade grew by 72 percent.

The report notes that the gains in Latin America - where 89 percent of girls get an education - are in the United States, where 90 percent of girls get an education. The report says that girls' enrollment during the past decade grew by 72 percent.

The United States, where 89 percent of girls get an education, is in the United States, where 90 percent of girls get an education. The report says that girls' enrollment during the past decade grew by 72 percent.

Girls' education is critical for economic development and poverty reduction, and for ensuring girls' full participation in society. The report notes that the gains in Latin America - where 89 percent of girls get an education - are in the United States, where 90 percent of girls get an education.

USIG has failed to lead on tuition-increase plan

Too bad we don’t have the student leaders from Iowa State University or the University of Northern Iowa. UI student government leaders would have more in common with their counterparts at these schools than those at ISU.

Cory K. Fife

Students must be the change they want to see

We need our leaders to stand up and not just talk about it, but actually do something to help students. We need them to be informed on the issues and not just treat us like children.

Mystical mystery mostly mind-boggling

LOS ANGELES (AP) - The witch in "Beloved" is named Sethe. And the titular novel "Brokeback Mountain" is a transgender story about two young men who consummate their affair with equally ambivalent results. Both novels were turned into films, but they couldn't be more different.

The film "Beloved," directed by Steve Evans, is a slow, brutal and nearly impossible to comprehend story ofSethe's past. It's long, slow and extremely violent. For viewers unfamiliar with Toni Morrison's "Beloved," the novel overpowers their ability to follow the plot.

"I'm still not sure if I understand the novel," said one audience member, who was struggling to follow the film. "It's like trying to fit a puzzle together without knowing the big picture."

In contrast, "Brokeback Mountain," directed by Ang Lee, is a story about two men who fall in love but are unable to express their feelings openly. The film is a love story, not a violent one. It's not as confusing as "Beloved." But it's not as easy to follow either.

"I know the novel is about two men in love, but I can't follow the plot," said another audience member. "I need a map to navigate through it."

The film "Beloved" is set in the late 1800s, a time when African American women were being sold into slavery. The novel is a novel about Sethe's past. The film is a movie about her present. The novel is a work of fiction. The film is a work of film. The novel is a novel. The film is a movie. It's a work of art.

"I can't help but feel that the film is an attempt to diminish the novel," said one audience member. "The film is a pale imitation of the novel. It's like trying to fit a puzzle together without knowing the big picture."

In conclusion, "Beloved" is a masterpiece of the novel form. "Brokeback Mountain" is a masterpiece of the film form. Both works are important. Both works are difficult to follow. But both works are worth the effort.

Iowa on verge of bowl-less season

Iowa fell to Indiana Saturday and the schedule doesn't get any easier from here on out.

By Chuck Blount

BLOOMINGTON, Ind. — It didn’t rain here, but the Iowa football team fell to its lowest depths this week.

Actually, Iowa is still mathematically eligible for a bowl game, but the Hawkeyes never made a bowl bid this season. The Hawkeyes didn’t make a bowl bid because they never made a bowl bid.

After a 1-12 loss to Indiana of Memorial Stadium Saturday, the Hawkeyes (5-4, 2-10) lost their top-10 ranking for the second time in a row.

Iowa has five losses against the top-25 teams.

The formula out of Bloomington was: beat Badgers, get bowl bid; lose to Hoosiers, no bowl bid.

For Iowa, it was what happened in Bloomington that led to the formula.

This will be the second straight season in which bowl eligibility was at stake.

For the second straight season, bowl eligibility and the formula for bowl eligibility are the same.

Iowa entered the game knowing a win would solidify a bowl bid.

"We spoke to the kids this week. We didn't need to keep repeating ourselves," head coach Kirk Ferentz said. "We told (the players) that it was a chance to go out and win a game and be a part of something special."

For the second straight year, bowl eligibility, the formula, and the biggest bowl bid of the year are the same.

"It's a business deal," Ferentz said. "You go out there and you try to win a game."

For the second straight year, Iowa is stuck in limbo.

"We're not in the formula," head coach Tom Bradley said.

For the second straight year, bowl eligibility was on the line.

"We're still in the formula," head coach Tom Bradley said.

**NFL roundup**

**Flute TD run gives Bills victory over Jaguars**

In his first NFL start in more than two years, two-troubled Bills quarterback Frank Flute led his team to a 10-14 victory over the Jacksonville Jaguars on Sunday. Flute, who made his first NFL start in 1993 and has been sidelined since March 1995 with a foot injury, threw for 175 yards and two touchdowns. The Bills gained just 280 total yards against Jacksonville, but Flute's performance was enough to give coach Marv Levy his team its second victory of the season.

**Bears coach Dave Wannstedt**

Chicago's defensive coordinator made his debut as the team's head coach on Sunday, leading the Bears to a 17-16 victory over the Minnesota Vikings. The victory was the second straight for the Bears, who have struggled in recent years. Wannstedt, who has been with the team since 1984, took over for Dick Jauron, who was fired last week.

**Bears split with Falcons**

The Bears defeated the Atlanta Falcons for the second time in the game, but equally significant was the way they did it. After trailing 10-7 at halftime, the Bears outscored the Falcons 20-3 in the second half to win 30-10.

**Falcons' Kordell Stewart**

Despite a strong season to date, Falcons quarterback Kordell Stewart was held to just 169 yards passing and no touchdowns in Sunday's game. The loss drops the Falcons to 5-2 on the season.

**Dolphins bounce back**

The Miami Dolphins defeated the Carolina Panthers 29-10 on Sunday, snapping their three-game losing streak. Miami outgained the Panthers 410-271 in total yards, with quarterback Dan Marino throwing for 293 yards and two touchdowns.

**Chargers outlast Saints**

The San Diego Chargers defeated the New Orleans Saints 38-31 on Sunday, handing the Saints their second loss in a row. The Chargers scored 17 unanswered points in the fourth quarter to pull away and win the game.

**Steelers' defense, offense struggle**

The Pittsburgh Steelers were unable to come up with a win on Sunday, falling to the Denver Broncos 24-21. The defense gave up 410 total yards to the Broncos, including 300 passing yards by quarterback John Elway.

**Bengals bounce back**

The Cincinnati Bengals defeated the Arizona Cardinals 17-10 on Sunday, snapping their three-game losing streak. The Bengals scored 14 unanswered points in the second half to pull away and win the game.

**OTHER SPORTS**

**College baseball**

The University of Florida defeated the University of Oklahoma 12-2 on Sunday, advancing to the College World Series for the first time in school history. The Gators, led by pitcher Ben Hill, scored five runs in the third inning to take control of the game.

**Golf**

The U.S. Open was held in Pebble Beach, California, on Sunday. The tournament was won by Tiger Woods, who shot a 71 on the final day to secure his second U.S. Open title.

FIELD HOCKEY

Hawkeyes beat two ranked opponents

Iowa easily defeated Penn State and Ohio State at home over the weekend.

Iowa's punt returns were key in both games. In the Penn State game, the Hawkeyes scored on a 42-yard punt return by Jordan Canfield, and in the Ohio State game, Iowa returned a punt 64 yards for a touchdown.

The Hawkeyes, ranked 16th in the nation, improved to 16-1-4 overall and 6-0-2 in the Big Ten, while Penn State fell to 12-5-1 and Ohio State dropped to 13-2-3. The Hawkeyes will face Minnesota on Tuesday before hosting Michigan this weekend.

IOWA WOMEN'S SOCCER

Hawkeyes' post-season hopes up in smoke

By Roger Kasica

Iowa women's soccer season ended on Sunday when the team lost 2-0 to Penn State in the Big Ten Tournament semifinals.

The Hawkeyes had a tough draw against the Nittany Lions, who were seeded third in the tournament. Penn State controlled the game from the beginning, pressure Iowa's defense, and finally scored on a penalty kick in the second half.

Iowa's season ends with a 15-5-1 record, including 6-0-1 in the Big Ten. The Hawkeyes will look to improve next season, as several key players will be graduating.

IOWA VOLLEYBALL

Losing streak continues for Crockett's Hawkeye team

Iowa women's volleyball team lost their fourth straight match on Sunday, falling to Rutgers 3-1.

The Hawkeyes were unable to match the Scarlet Knights' offensive firepower, as Rutgers posted 30 team blocks and hit .247 to Iowa's .139.

Iowa's next home match is scheduled for Wednesday against Michigan State. The team will look to regroup and build on their recent success.

Flemister makes successful return to Hawkeye lineup

The junior has been suspended since the team season.

By Chris Cedar and Andy Hamilton

Iowa freshman running back Ladell Betts was in the backfield Monday.

Flemister, who missed all of last season and the first six games this year because he had a shoulder injury, returned for the final pass Saturday.

"It was tough when I first heard about it," Flemister said. "I really appreciate it."

Flemister spent 30 days in a hospital treating this rotator cuff injury.

Heafer rookie

Brett Mahoney's fumble led to the Hawkeyes' only two touchdown punt.

"I was a nicking lining up right there," Flemister said.

Four years ago, Flemister turned the ball over in a game against Illinois.

What little crowd there was at the game was downed on the kickoff.

The stadium seats were empty after a quarter of this game.

"I could have come up with some ideas," Flemister said.

Statistically, this was one of Matt Bowen's best games as a freshman.

"I've just been waiting my turn to come back," Flemister said. "It's a hard thing to accept when you know you could do better and you just get stuck in a rut."}

The time to return was Monday.

"It's really tough but I've got to get a lot of support," Flemister said. "Everyone supports me. Guys on the same side they don't party around me. They make sure I'm in good spirits."

"I don't use that as motivation," Flemister, quarterback Antoine Randle El said, "because they all know we need me, but you just don't want to party around a running back who's coming back with a shoulder injury when you know they could be hard to handle in the backfield."}

"It's really tough but I've got to get a lot of support," Flemister said. "Everyone supports me. Guys on the same side they don't party around me. They make sure I'm in good spirits."

"I don't use that as motivation," Flemister, quarterback Antoine Randle El said, "because they all know we need me, but you just don't want to party around a running back who's coming back with a shoulder injury when you know they could be hard to handle in the backfield."

A holding penalty against Iowa put the ball on the 2-yard line.

"It's a tough situation," Flemister said. "I really appreciate it."

"I was a nicking lining up right there," Flemister said.

Top-ranked Buckeyes continue to roll

(18) - The Buckeyes overcame Ohio's biggest test and tied a team record for consecutive wins of 18 Saturday night in Columbus, Ohio. They are 18-0 in the nation for the first time since 1972.

The Iowa men's cross country team will visit Minnesota this weekend, but the Hawkeyes' biggest test comes next Saturday at the NCAA championships.

"It was a race we thought we would win," said Stephen Wade, Iowa's top runner. "But we didn't look like we had bad luck."

Despite finishing a lowly third, the Hawkeyes were certainly energetic, as they finished second overall behind Minnesota.

The Hawkeyes' top two runners, Wade and Allen Ford, both finished in the top 10.

The team's performance was a step in the right direction,

"This was a step," Wade said. "We've been working on tightness."
