United States to keep skeptical eye on Iraq

WASHINGTON - Diplomats at the United Nations, faced with pressure to approve a second round of inspections, are in a quandary over whether to send more inspectors to Iraq or to begin the process of drafting a final weapons disarmament agreement.

The diplomatic offensive to pressure Saddam Hussein into disarming has been marked by a number of setbacks, including the failure of the U.S. and Britain to win U.N. approval for a second round of inspections last month. The U.N. Security Council recently approved a six-month inspection period, but the deadline for disarmament was extended to the end of the year.

City nixes adding bus fare to tax ballot

A citizen group says bus fare reduction should be included on the March 30 sales-tax ballot.

By Steven Cook
The Daily Iowan

The group, Iowa Taxpayer Action, would like to see a tax say, after Iowa City city councilors rejected adding a preclude reducing bus fares, Kubby said, low-income people would have to be reduced if the tax plan didn’t reduce the size of the tax. The tension between small-town residents and those who have been charged with public intoxication was charged with operating while intoxicated.

States OK accord with tobacco firms

Cigarette makers have agreed to pay more than $20 billion to settle several lawsuits.

By Barbara Swerczek

WASHINGTON — Cigarette makers have agreed to pay $20 billion over the next 40 years to settle lawsuits from state attorneys general and thousands of lawsuits by individual smokers, a huge victory for those who have fought to restrict the sale of tobacco.

The agreement, reached Monday by British pharmaceutical company GlaxoWellcome PLC and the tobacco industry, would be one of the largest corporate settlements in history.

The settlement would include a $15 billion payment to state and local governments and $5 billion to plaintiffs who have been injured by smoking.

The settlement also includes a $2.4 billion payment to the state of Maryland, which expanded its smoking prevention and treatment program.

The settlement is expected to be announced later this week.

The deal comes after months of negotiations between state attorneys general and the tobacco industry, which has been fighting to avoid paying large sums of money to settle smoking-related lawsuits.

Under the terms of the settlement, the tobacco companies would be required to pay a total of $20 billion over the next 40 years.

The settlement would also require the tobacco companies to make changes to their marketing and sales practices, including a ban on advertising tobacco products on television and radio.

The settlement also includes a provision for the tobacco companies to pay $2.4 billion to the state of Maryland, which expanded its smoking prevention and treatment program.

The settlement is expected to be announced later this week.

Patience with Iraqi stunts wears thin; action needed

Now that Saddam Hussein has backed down and allowed UNINSPECTORS to re-enter Iraq, the United Nations will undoubtedly put itself on the back-burner for another job well done. Unfortunately, someone who considers this a victory for the United Nations is only fooling himself or herself in a most dangerous manner.

Saddam Hussein's retreat cannot solve the problem of weapons of mass destruction. If the United Nations cannot do anything with the inspection process, it will have to turn to the world to do what it has failed to do. The United States will have absolutely backed down from U.S. obligations. Why did it happen? UNINSPECTORS were required to inspect thousands of sites in the Middle East. UNINSPECTORS have inspected for a period of several weeks. Were these sites destroyed or damaged as a result of a U.S. threat? Of course not. For that to happen, it would require the United Nations to actually make good on its threats, something that has not happened since the Sanctions ended.

Clearly, the United States needs to take action against this dictator. After all, with Kofi Annan now checking the end of his second term with the United Nations, Saddam Hussein has no other reason to comply with post-war treaties.

Having said that, we will still support the nations around the world who are committed to making this world a safer place. And that is why we need to make sure Saddam Hussein is punished for his clear violation of the U.N. Security Council's edict.

Kofi Annan and the rest of the United Nations. Someone must teach Saddam Hussein a lesson. We think this would be nice if more of the students attending the University of Iowa can participate in this effort.

Janae White is a Dailly Iowan editor.

Raise the bar on admissions

The UI is thinking about raising the standards for enrollment, and it is about time. Raising the standards, students and faculty are on the same page. If the drop-out rate is a bit too high, it's time to make sure that the standards are met.

The UI admission process needs to be re-examined. Drop-out rates, less money wasted, at elite student body and a more diverse group of students are among the benefits of higher standards. If the admission standards were raised, then the "students" who would only fail at semester's end wouldn't even be accepted into the university. Thus, the UI should reject candidates who don't meet the minimum standards.

No longer will UI students be allowed to graduate without making all the necessary transcripts. Standards for graduation will have to be raised to meet the standards for admission. This means less money wasted, a more elite student body, a more focused group of students.

If raising the admission standards will only draw in a more elite group of students, then the UI needs to have the admission standards. It's time to look at the quality of the students who are coming in and what we need to do to improve it.

Raising the standards means less money wasted, a more elite student body continues to demonstrate the UI's educational commitment.

100.

Several years ago this was a current war. Concerns over weapons of mass destruction were high. But when the Secretary of Defense showed the Secretary of State stood behind the effort.

The real issue here is not the United States; it is the United Nations. The United Nations has not been able to get the job done. The United Nations needs to step up to the plate and make sure that this is done.

If Saddam Hussein refuses to do what the United Nations has mandated, get all nations involved and put them all on notice.

There is no more a "what if" when it comes to the United Nations. Someone must step up to the plate and make sure that this is done.

Saddam Hussein needs to be punished for his clear violation of the U.N. Security Council's edict.

When the United Nations is committed to making sure that this is done.

Kofi Annan and the rest of the United Nations. Someone must teach Saddam Hussein a lesson. We think this would be nice if more of the students attending the University of Iowa can participate in this effort.

**LETTERS TO THE EDITOR**

**W.J.D.** wearers often miss the point

W.J.D. (Wilson's Disease) is a rare disease that affects liver function. To the Editor: I am a W.J.D. sufferer and deeply concerned about the impact of killings and the use of cigarettes on our society. I urge people to stop smoking and seek medical advice.

Anti-smoking campaign should rethink its focus

I don't support other students, but I do think quitting smoking is a healthy thing to do. I have started to notice that I am more sensitive to the messages of anti-smoking campaigns. I think they could make it more effective.

**Party ordinance has many faults**

By the time

On this issue, I agree with the party ordinance. However, I think the ordinance has many faults. Only non-smokers should be allowed into public places, and the fines should be increased.

Planning for March gladness, not March madness

TRAVEL
Continued from Page 1A
the Bahamas," Gordon said. "Last year, we got delayed twice on our way down to Cancun, all because of the weather. We
never got our reservations, so we had to sleep in the lobby the first night." Really, travel anxiety gets a lot of business from students who have sworn off using "big
by-night" companies again because of bad past experiences.
If anything goes wrong, there is no one there for con- sultation," she said. Despite her 36 years of experience, Gordon said she's going to take a chance in January, because she thinks that package-deal companies charge makes large group travel affordable. In March, he said about 40 of the students who spent a week in Acapulco, Mexico.

Sick of the "con jobs"

Kyle Luehmann, owner of the National Weather Service at the Quad City area, said weather conditions for the mete- ors are near ideal.

The best advice he could give someone wishing to go on a meteor shower in the sky above Iowa is to go outside, have your coat on and be ready to wait.

"It looks to be mostly cloudy, but that's mainly just for viewing," he said.

McGranahan, who learned of the meteor shower in Iowa's Modern News, explained that the event is worth a day of school.

"It's being advertised close the first day, so I'm going to stay out here for a few hours," he said. University of Northern Minnesota can be reached at 218-726-5411.

Disability services to provide for more accommodations

ENROLLMENT

With Bowlsby

**1st in a 3-part series**

As director of athletics at the UI, Bob Bowlsby has earned a reputation as one of the most highly respected, energetic, and ambitious athletic administrators in the country. He earned a distinctive offer from the Big Ten group just in time to help carry the Hawkeyes over the next few seasons. It was a wise decision, though, with basketball coach Dan D'Amico in the final year of his contract extension. Despite difficulties in recent years, the Hawkeyes are still a highly competitive program. They are one of the most respected programs in the Midwest.

**Hawkeyes in the Spotlight**

**Hawkeyes in the Spotlight**

The Hawkeyes have had a successful season so far. They have won three of their first four games, and they are currently ranked 15th in the nation. The team is led by senior quarterback Tyler Brands, who has thrown for over 1,000 yards and 12 touchdowns in three games.

**Bowlsby's Philosophy**

Bob Bowlsby's philosophy is built around the idea of building a program that is not only successful on the field, but also successful in the community. He has implemented several initiatives to improve the student-athlete experience, including adding academic, citizenship, and community service programs.

**Future Expectations**

The Hawkeyes are expected to continue their success in the coming years. With a solid recruiting class and strong coaching staff, the team is poised to compete for Big Ten championships and potentially even a national title.

---

**WOMEN'S TOP STORIES**

**Iowa State's women's basketball team** has had a successful season so far. They have won six of their first seven games, and they are currently ranked 15th in the nation. The team is led by senior guard Kari Byington, who has scored over 1,000 points in her career.

**Future Expectations**

The women's basketball team is expected to continue their success in the coming years. With a solid recruiting class and strong coaching staff, the team is poised to compete for Big Ten championships and potentially even a national title.
Iowa safety gives off-field advantages to teammates

IOWA - Following the season, Bleacher Report writer Chris Shierley indicated that one of the factors giving Iowa a competitive edge was the safety duo of Stevie O'Neal and Matt Hankins. Shierley's analysis was based on the comprehensive roles that O'Neal and Hankins played, their understanding of the game, and their ability to make adjustments on the fly.

Shierley's article points out that while both players have experienced injuries, they have maintained a high level of performance throughout the season. O'Neal, who had surgery on his knee during the summer, has returned to the field with renewed vigor, displaying exceptional speed and agility. Hankins, on the other hand, has played through several injuries, including a foot sprain, and has continued to provide a solid presence in the secondary.

The safety duo's ability to communicate with each other on the field has also been a key factor in their success. Their ability to anticipate the opposition's moves and adjust their strategies in real-time has given Iowa a significant advantage on the field.

Shierley notes that the Iowa defense, led by O'Neal and Hankins, has been a cornerstone of the team's success this season. Their contributions have not only helped Iowa secure victories in critical games but have also set the stage for future success in the upcoming season.

The Iowa safety duo's performance this year is a testament to the team's commitment to preparation and dedication. Their efforts have not gone unnoticed, as their hard work has been recognized by their coaches and teammates alike.

As the season comes to a close, it is clear that O'Neal and Hankins' contributions will be remembered as a significant factor in Iowa's success. Their off-field advantages, coupled with their on-field performance, have made them invaluable assets to the Iowa defense and have set the stage for future greatness.
Rucker leads frontcourt

Iowa vs. Illinois

Hawkeyes, Gophers playing for a pig named Floyd

By Megan Mawhinney

WHY: The day before Iowa plays its 28th game of the season, coach Hayden Fry's Hawkeyes are 10-17 and struggling to find any offensive consistency. By Thursday's matchup with Minnesota, the Hawkeyes (3-7, 2-5) and Gophers (16-10, 6-6) will be one step closer to wrapping up the Big Ten regular season. The winner and has spent the past two seasons playing for a pig named Floyd of Iowa. In 1992, 28-13. A win in Michigan would assure the Hawkeyes of a 10th straight win and inch closer to reaching the NCAA tournament. The league said vendors and sponsors could not set up in time. The game is still scheduled for Feb. 14 in Philadelphia.

Haykewyes, Gophers playing for a pig named Floyd

Neither Iowa nor Minnesota can afford a losing game with both teams struggling.

By Andy Hamilton

In five of the past six meetings, Minnesota has been holding the Hawkeyes at bay. Despite being heavy favorites to win, however, the Golden Gophers (6-3, 1-3 Big Ten) have failed to cover in seven of their last eight losses. Iowa (10-17, 2-5 Big Ten) has been betting the Hawkeyes at home against the spread in five of their last six games. Look for the Hawkeyes to hit at least two of their last three losses.

long physical, while Jacks thrives on his movement and the ability to get to the hole. "You've got to be able to get to the hole." Hawkeyes' porter guard Dean Rucker said.

But it would mean the world to the young Hawkeyes to win.

"It's so satisfying to win, it's not even funny," Rucker said. "We have a lot of young guys on the team. There was a time there was a whole lotta motivation to win. You're here to win. You're not here to go out of here with a_losses. ifyou want to win, you want to get to the hole."

"We've got guys fighting for positions," Rucker said. "We've got a lot of young guys fighting for positions. So practices are tough." "Obviously, it would be nice to win on the road. It's never easy, it's never easy to go into a new environment and win. It's never easy to win on the road. If you want to win, you've got to be able to get to the hole."

Football on hold, Kentucky mortuors loss

Kentucky has a game against No. 1 Tennessee this weekend, but it’s more than just a football game. The Cats are dealing with the death of a teammate, who died in a truck crash. The player, starting center Jason Watts, was reported to have been headed to a farm near Arthur County, Kentucky, when his pickup truck went out of control and flipped over. Watts was among three players investigated, but is more focused on the death of his teammate, who was a key player for the Cats.

Coach, who spoke of the accident, said he had visited Watts. “I just told him I’m not blaming myself,” he said. “We’re a tough person until you’re a football player.”

The cause of the crash is being investigated. The truck flipped over when the accident happened just before 7 a.m. "We’re a tough person until you’re a football player, you think you can beat anything, and sometimes you can’t," Coach said. "I think it’s hard for people who aren’t football players to understand what we go through, but we’re a tough person until you’re a football player."

Broncos remain unbeaten

Denver's first 1-0 team in the NFL in 1991.

By Dave Sanders

ASSOCIATED PRESS

KANSAS CITY, Kan. — The Denver Broncos are making their claim as a Super Bowl contender, and it sounds like a plan that has been seen every week — with and without John Elway. They've run for 390 yards in the league's top-ranked ground game, and they now have the NFL's first unbeaten team. The Broncos (7-0) defeated the Kansas City Chiefs 38-31 Sunday, a week after beating a whole bunch of teams.

A 67 yard drive that contained almost nine minutes of the second quarter and was capped by a 27- yard touchdown to Terrell Davis, who was named AFC Player of the Week, was the big moment.

"I've just been doing it for Denver," Davis said.

The game had started with a 50- yard field goal by Ryan Longwell for a 3-0 lead, then a 44-yarder for a 6-0 lead, and a 27-yarder 13 seconds into the second quarter, then a 38-yarder with 13 seconds left in the quarter. With 11:06 left in the third quarter, a 57-yarder put Kansas City up 16-0. That was the most points the Chiefs had scored against the Broncos in five years.

It took 25 minutes, 50 seconds and 21 plays for the Chiefs to do it.

"I've just been doing it for Denver," Davis said.

The Broncos are 7-0 in 2019 and sit atop the AFC West division.

Denver remains unbeaten.

"I'm just happy for Denver," Davis said.

The Denver offense has been key to the Broncos' success. They've scored 24 touchdowns in seven games, the most in the NFL, and have the NFL's best scoring defense, allowing 4.2 points per game.

"We've got to keep doing it in every game," Davis said.

Drew Brees remained perfect by completing 18 of 22 passes for 230 yards and two touchdowns.

"We've got to keep doing it in every game," Davis said.

The Broncos have won six straight, including a 42-7 victory over the Chiefs last week. They've scored at least 27 points in each of their last four games.

"I'm just happy for Denver," Davis said.

Hall of Fame inductions, from left: Yvon Perreault, Paul Coffey, Peter Stastny and Howieaton the Red Wings, with 31 goals and 45 points in 62 games. Stastny, 40, said, "I'm just happy to be there." He will represent the St. Louis Blues, and used to represent the Quebec Nordiques, were inducted.

Goulet, who starred for the old Quebec Nordiques in the 1970s, moved to Denver to become the team's head coach, and Michel Goulet, the first Quebec's left side and shoot pucks."

"The top teams were really close to each other, and when we played Montreal the feeling was that building going up," Stastny said. "I think Goulet joined the Nordiques in Quebec's capital, Montreal, in 1980 and went through the development for the Avalanche, where he had 65 goals and 116 points in 63 games. Stastny finished his career with the Blues and Goulet with the Chicago Black Hawks in the Western Conference."

"We all miss it," Stastny said of Quebec's capital, Montreal. "The arena was a little bit smaller."

"I have a great respect for Quebec's history, and I think it's important to remember the contributions made by Canadian athletes," he said. UI bands bring ‘Extravaganza’ to Hancher

The Daily Iowan

Hancher Auditorium will be filled with musical styles ranging from traditional jazz selections to modern rock — tonight and Wednesday night when the annual “Extravaganza” features the University of Iowa’s UI bands.

Providing the more “serious side” of the event will be the UI Marching Band, under the direction of Samuel Smith. The concert will incorporate both traditional and contemporary works, jazz selections and all the songs that entertain state fans at Hawkeye football games.

The marching band, under the direction of Kirk Kastner, will present the “light-hearted” portion of the concert with selections from the band's own shows. The concerts will be broken up into two, two-hour performances. The events will feature every work, jazz selections and all the songs that entertain state fans at Hawkeye football games.

“This concert is one of the biggest for the UI School of Music, and it always brings in as well as any familiar faces,” said Rapson. “Each group brings in their own style of performance, some more young and the old for fine entertainment.”

Tickets for reserved seats are still available for the Wednesday performance for $40 from the Hancher Auditorium box office. UI students may charge their tickets to their University accounts if the option of pay later is used.

Tickets can be purchased at the door. For more information about the event, call 319-335-1616.

IU students cost $300.
