Council unanimously approves deer-kill plan

The measure allows up to 240 deer to be shot.

By Julian Coyle
The Daily Iowan

Iowa City became the first major city in the state to approve the depopulation of deer within city limits, the latest step in its efforts to get the population under control. The measure, known as the "Kill Plan," was approved by the city council, 7-0, on a voice vote.

After hearing opposition from six local residents on the plan to kill up to 240 deer within city limits, the council approved the plan to keep the deer population under control. The measure, known as the "Kill Plan," was approved by the city council, 7-0, on a voice vote.

The plan aims to reduce the deer population in the 350-acre park to 200 per square mile. Currently, some areas of Iowa City have as many as 30 deer per square mile, resulting in increased deer-vehicle collisions and damage to property, according to city projections.

Molly S. Gibbons, who has been one of the most vocal critics of the plan, said the city's failure to consult with the community was "unacceptable." Gibbons said the council's decision to approve the plan was a "mishandling of information." She said, "This is a matter of life and death," said Mary Peoples of the Iowa City Animal Protection League.

The decision was made by the city council, 7-0, on a voice vote. The plan aims to reduce the deer population in the 350-acre park to 200 per square mile. Hochschild talks about Congo genocide

The brutality of King Leopold II's Congo was depicted in an overwrought crowd Tuesday night.

By Erin E. Pope

Blinds of Congolese women slashed and their heads boasting flower buds were displayed among the podium-lining the sides of St. Austin Auditorium. The presentation by freelance journalist and author Adam Hochschild depicted the iniquities Congo during the late 1800s and early 1900s.

The presentation told the story of the Congo Free State," describing the historical events and personalities at the end of the last century. He described an incident that mobilized international protest after Europeans approved the work of Africans.

"Leopold was a stringy, sickly, out-of-fashioning himself head of such a small country," Hochschild described King Leopold II, drawing from his book, "The Itearest: Leopold in the Congo.

His and others were taken to the Congo as a way to demonstrate to those who lived in the state's "Free".

The Atlantic research team was joined by some people who lived in the state at the time of the Free State. The man said he was born in the Free State.

The story of the Congo Free State was told to the audience as a way to demonstrate the utilization of the proposed doctrine of the Congo Free State. The story of the Congo Free State was told as a way to demonstrate the utilization of the proposed doctrine of the Congo Free State.

Committee OKs funds subpoenas

**The impeachment panel in the House of Representatives has demanded enrolment to obtain articles of impeachment next week.**

By Jay Newton

The 22-member House Judiciary Committee voted Wednesday to subpoena about 9,000 teaching assistants and other employees of the University of California at Berkeley, in what is described as the most significant subpoena yet in the impeachment inquiry.

The committee has been investigating whether the university’s hiring practices have violated federal law. The university has said it will not comply with the subpoena.

California grad assistants strike for unionization

**The University of California Berkeley TA’s are students, not employees.**

By Michelle Landa

BERKELEY, Calif. — With final exams underway, a teaching assistant walkout ended Tuesday without a deal for recognition. The assistants, who are enrolled in the university, said they would return to the classroom the next day.

The walkout was the latest in a series of strikes by graduate assistants at Berkeley, who have been seeking recognition for several years. The university has refused to negotiate with the students, who are enrolled in graduate programs.

The university system does not recognize the United Auto Workers in California, believing that the university employees are not employees. The assistant union is not recognized by the university.

Paving over I.C. history

Some members of the Iowa Avenue resident group are voicing the historical consequences of their proposal.

Projects on the horizon

In a recent edition of the Viewpoints, a proposal was put forward to pave over Iowa Avenue, a historic streetscape.

While discussions of paving are always a sensitive topic in Iowa City, it is always important to consider the potential impacts on the history of the area.

Iowa Avenue, known for its unique architecture and historical significance, has been a focal point for many events and activities throughout its history. Paving over the street would not only alter its appearance, but also potentially erase a part of its rich history.

In the past, Iowa Avenue has been the site of many notable events, including protests and community gatherings. These events have helped shape the identity of the area and contribute to its cultural heritage.

The proposal to pave over Iowa Avenue highlights the ongoing debate over how to balance development with preservation.

This is a decision that should be made thoughtfully, taking into consideration the unique characteristics and history of the area. It is important to ensure that any changes made are in keeping with the values that make Iowa Avenue such a special place.

Yulon: China and the anti-US pressure campaign

A MANA International Conference on the Anti-US Pressure Campaign

China: Yulon

The anti-US pressure campaign has been a significant issue in recent years, with China playing a key role in trying to influence the international community to pressure the US.

Yulon, a town in China's Hunan province, has become a symbol of this anti-US pressure campaign. According to reports, Yulon has been using various strategies to pressure the US, including economic sanctions and diplomatic pressure.

The anti-US pressure campaign has been ongoing for several years, and it has become a major topic of discussion in many countries around the world. China's approach has been criticized by some for being aggressive and unproductive, while others have praised it for being effective in bringing about change.

The anti-US pressure campaign is expected to continue in the coming years, and it will be interesting to see how it develops and what impact it will have on global politics.

An empty Iowa City is easy pickings for criminals

IOWA CITY - It's been almost a week now since Thanksgiving, and I'm sure most of us will remember it for what it was - a chance to spend time with the family, eat something besides Ramen noodles and Asian food and skip class a few days. But may details may vary, but the short story likely represented something similar for most people.

For some, however, the Thanksgiving weekend wasn't exactly a time to relax. Many had to work to ensure that the holiday was a success for those around them.

In Iowa City, some residents and businesses were hit especially hard by the lack of people.

The city is known for its vibrant arts scene, and many local businesses rely on tourists to stay afloat. With so few people around, many businesses were forced to close or operate at a reduced capacity.

Some people were able to adapt and find ways to continue their businesses, but for others, the holiday weekend was a difficult one.

Overall, it seems that the Thanksgiving weekend was a mixed bag for many in Iowa City. While some were able to enjoy the break, others were left to face the challenges of a less-than-busy holiday season.
Chinese police detain two leading dissidents

The action was one of the most severe since dissidents announced their attempt to form an opposition group in June.

By John M. Brehm

BEIJING — The arrest of two of China's most influential dissidents on Wednesday is a major blow to the government's attempts to shape the new opposition group that has been formed in the wake of the recent death of an elderly intellectual.

The two men, who were arrested in the early morning, are Wang Youcai and Mr. C., both of whom have been critical of the government's anti-religious policies and have called for greater political freedom.

The government issued a statement that the dissidents had been detained for "political reasons," but it did not specify what those reasons were.

A young Chinese girl looks over some items for sale at a street vendor's stall in Beijing.

Yule comes to Cuba, again

The Communist Party drops its anti-Christmas stance and welcomes the day as a permanent holiday.

By Judy Wajstein

HAVANA — Christmas is coming to Cuba this holiday season.

The Communist Party and the official newspaper, Granma, have announced that the New Year's holiday will begin at 6 p.m. on Dec. 23 in a show of solidarity with the Cuban people, who mark the holiday with festivities.

"It makes me very happy," said one of the young men who was watching the festivities.

The government signed a labor contract with the unions and announced that the New Year's holiday would not be interrupted in Cuba, the first time that Cuba's Constitution prohibits such a move.

The government is accused of not recognising the loyalty of the Cuban people and their leaders, who have expressed concern about the holiday.

The government is also accused of not recognising the loyalty of the Cuban people and their leaders, who have expressed concern about the holiday.

They're down to four (without giving any sort of guarantee that the other four aren't also in the mix for a job? Would he tell Jimmy Bowlsby how much he wants to go anywhere with them in the end? And if they feel comfort- able enough to make that move, then they'll go with them probably.

Bowlsby refused to comment when asked if any additional candidates had been scheduled for interviews.

Stanford coach Tyronn Lueke-
smith's name has been mentioned as one of the possible late additions to Iowa's list, but Cardinal spokesman Kevin Maas said it would not comment on that issue.

"There's absolutely no truth in that report," Maas said.

Colorado State coach Rocky Lujan, UT coach Larry French and Western Michigan coach Tim Lester also have been mentioned as candidates.

"We thought they would have some one defense," Lubick said.

Big Ten and ACC to start 9-team challenge next year

ChICAGO JlIP — The Big Ten, Atlantic Coast Conference and Sun Belt announced a new football scheduling arrangement Wednesday that will begin next season.

The arrangement requires the league's members to agree to yearly schedules with nine opponents. All schools in the league will play each other in the seven-game conference slate, and the remaining two games will be non-conference games for the separating pool.

Bowl games will be determined by the ACC, Big Ten and SEC, with the highestFinancial Times

"It would be a big plus for football," Big Ten Commissioner John抖uys said. "We've got a great group of schools, and if we can get a good joint agreement on the bowl game, that's great."

For Bowlsby, the league will not participate in this year's bowl game. The league has been excluded from the New Year's Six Bowl games.

The new agreement also would allow the ACC and Big Ten to keep their separate bowl affiliations by taking all of their teams to bowl games that are not designated as New Year's Six bowls.

The new agreement also would allow the ACC and Big Ten to keep their separate bowl affiliations by taking all of their teams to bowl games that are not designated as Big Ten games. The ACC and Big Ten also would be able to take all of their teams to bowl games that are not designated as ACC games.

The new agreement also would allow the ACC and Big Ten to keep their separate bowl affiliations by taking all of their teams to bowl games that are not designated as Big Ten games. The ACC and Big Ten also would be able to take all of their teams to bowl games that are not designated as ACC games.

The Big Ten and ACC have 12 members each, while the Sun Belt has 10.

Each conference will be 10

SOUTH BEND, Ind. — Notre Dame football coaches have been talking about the upcoming season for months, and now they're ready to get started.

The Fighting Irish have been in full football mode since the team's first practice on Aug. 14, and they're ready to hit the field for the first time.

Notre Dame coach Brian Kelly said the team is excited to get started, and he's looking forward to seeing how his team will come together.

"We're ready to get started," Kelly said. "We're excited to see how we'll come together, and we're ready to get started."
OKLAHOMA FOOTBALL

Stoops: No excuse for not succeeding

By Ron Carroll

SAM HOPKINS - Bob Stoops is new in town. He has taken over a football program at Oklahoma that was a national champion just three years ago.

But Stoops, who was hired on Tuesday to succeed John David Crowe, was not hired as an interim coach. He will not coach for one day and then walk away. He will be with the program for at least four years.

"I want to be here," Stoops said during a news conference Tuesday. "I want to be here four years."

Crowe was fired last Saturday after the Sooners lost to Missouri in the Alamo Bowl. Stoops was announced as Crowe's replacement on Tuesday.

Crowe's departure was the result of a 22-33-1 record in three years. He was also the defensive coordinator in the Sooners' 55-10 win over Iowa in the Orange Bowl last season.

The Sooners have struggled in the past three years, finishing at 3-9 in 1995 and 5-7 in 1996.

But Stoops, who has been a head coach at the university level since 1987, said he was not surprised by the Sooners' recent struggles.

"I have been very conscious of the shortcomings of the team," Stoops said. "I have been aware of the shortcomings of the team. I have been aware of the shortcomings of the team."

Stoops will be the 17th head coach in Oklahoma's history. The Sooners won 13 national championships under coach Tom Gifford, who is Stoops' father.

"I have been very conscious of the shortcomings of the team," Stoops said. "I have been aware of the shortcomings of the team. I have been aware of the shortcomings of the team."

Stoops is the fourth defensive coordinator in five years for the Sooners.

"I have been very conscious of the shortcomings of the team," Stoops said. "I have been aware of the shortcomings of the team. I have been aware of the shortcomings of the team."

The Sooners have struggled in the past three years, finishing at 3-9 in 1995 and 5-7 in 1996.

But Stoops, who has been a head coach at the university level since 1987, said he was not surprised by the Sooners' recent struggles.

"I have been very conscious of the shortcomings of the team," Stoops said. "I have been aware of the shortcomings of the team. I have been aware of the shortcomings of the team."

Stoops will be the 17th head coach in Oklahoma's history. The Sooners won 13 national championships under coach Tom Gifford, who is Stoops' father.

"I have been very conscious of the shortcomings of the team," Stoops said. "I have been aware of the shortcomings of the team. I have been aware of the shortcomings of the team."

UConn starts slow, but routs Washington

The Connecticut Huskies used a 20-2 run to polish off the otherwise resilient Big East foe Tuesday night at the United Center.

The Huskies (12-1), led by the double-doubles of Chiney Ogwumike and Kaleena Mosqueda-Lewis, improved to 6-0 in Big East play and 2-0 in road games this season.

Washington (2-5), which had not lost a game since a loss to Connecticut on Nov. 12, was outscored 48-28 in the second half.

The Huskies, who had five players in double figures, used a 20-2 run to finish off the losing ball club, which had been playing at a high level since its rout of Marquette last Wednesday.

Washington entered the game with a 7-4 record and was coming off a 79-76 win over Florida Atlantic.

The Huskies had been playing in front of a home crowd, but the game was moved to the United Center for a 7:05 p.m. tipoff.

Chiney Ogwumike, who had 19 points and 11 rebounds, was named Big East player of the week.

Mosqueda-Lewis scored 18 points and grabbed 10 rebounds.

As the Huskies continue to dominate the Big East, they will be looking to improve their record in road games as well.

Tuesday's game was a showcase for Connecticut's depth, as six players scored in double figures.

The Huskies finished with a 48-28 rebounding advantage and forced 15 second-half turnovers.

Washington was held to a season-low 34 points, the lowest total for a Big East opponent this season.

The Huskies are now 6-0 in Big East play and 2-0 in road games.

They play their next home game on Jan. 13 against Providence.
Baseball fun: 3-way trade; Palmeiro to Baltimore
