Senate locks doors, debates dismissing trial

By Brian Cook
The Daily Iowan

A proposed widening of Benton Street will be discussed for more than five years, the Iowa City City Council decided Monday night in the applause of more than 60 West Side residents.

The idea to improve traffic flow was presented after several Benton Street residents asked the city to further study the effects of widening the street before deciding to go ahead with the project.

"Let's just keep the street as it was," said one resident. "You should help improve the street for the people who really live there.

Benton Street varies 4,650 to 14,000 car movement during peak traffic periods.

Residents are concerned that widening the street would bring even more traffic to the area.

Four percent of the 600 9th Street homes in the city of Iowa City with Benton Street as an address are within the proposed widening areas.

The Benton Street project was started in 2001, made up to 13 percent of the city's traffic.

"We should not go forward for some time in the west of Riverside Drive to Benton Street, changing it from two lanes to three or four lanes. But where they finished it from 1998, they could use the one lane as a Capital Improvements Project. The Council is not to discuss those phases of the street widening."

The residents' appeal came after one resident explained that the city would go forward for some time in the west of Riverside Drive to Benton Street, changing it from two lanes to three or four lanes. But where they finished it from 1998, the residents said they could use the one lane as a Capital Improvements Project. The Council is not to discuss those phases of the street widening.

Cops, cultural centers mark fireside chat

President Mary Sue Coleman's first get-together of the semester draws 40 members of the UI community.

By Corinne Johnson

Approximately 40 undergraduates, faculty members and UI campus representatives attended the first "fireside chat" of the spring semester.

The relationship between the University of Iowa Police Department and university students was the topic of an open forum that preceded the actual fireside chat, according to Corinne Johnson, a junior English major.

Johnson, who attended the forum, raised her concern about drinking on the UI campus and said there were open lines of communication between the police and students.

"UI is my home. I am a student and I need to be treated like one," Johnson said.

The police communicate well with the students and the police community very well, but it is all about the students and the police working on making alternative options and taking the relationship between UI students and the police very seriously.

"There are a lot of students, especially on campus, that don't feel safe. UI President Dr. Susan Whitlow has expressed a lot of concern about that. UI has a very serious problem. There will be a lot of reflection and lots of discussion. The whole goal is to make places on campus safe for everyone who needs to be in a position where we can justify everything we're asking for regarding diversity, that would include everyone according to the police."

**Banging on the abortion drum**

An Iowa drum company pushes the owner's morality in its mail-order catalogue.

Associated Press

**LIBERTYVILLE, ILL.**— But groin doesn't think that his line of sheet music and drumsticks makes it difficult to drum up business.

Ingraham, 46, owner of Vintage Drum Center, a mail-order business that often re-runs and offers drumsticks, says his catalogue is a way to push forward the anti-abortion message.

Ingraham is willing to risk offending band directors in order to show his opinion on abortion. He says it's wrong, and he'll say so, even if it means you'll go somewhere else to buy your next set of sticks.

One customer, an abortion advertising campaign to the populace, adding to sellabort.

The Des Moines Register reports that people are not using public transportation for daily commutes. The article states:

"We are going to do this," Mr. Smith said. "We want to present it as something that is important and that people will be interested in.

The authors of the proposal believe that the city is not doing enough to promote the use of public transportation. They argue that the city should consider ways to make it more appealing to residents, such as improving the frequency and reliability of the buses and offering more routes.

"People want to use public transportation," Mr. Smith said. "But they need to see that it is an option that is available to them."
Editorial

Curbing underage drinking

It's that time of year again — time for the unforgivable folly to head head-to-head in a struggle that everyone seems to have an opinion about. The talk during the event is loud and long and often leads to more problems.

The first victim of a modern-dayursion to the US reportedly gives underage drinks at a party on the University of Iowa campus. An 18-year-old student, who was left in the care of Public Safety officials, failed to achieve minors at a campus bar. The numbers were down at first, but rose sharply when police began ticketing around Jan. 20, 1989. But although the arrests were fewer, the problem of underage drinking as an issue seems to have been growing.

A few years ago, in what was then theald of the New Year's Eve, the then-President of the US publicly addressed the Nation in an attempt to stem the tide of underage drinking. But the numbers seemed to continue growing, and the problem of underage drinking has become an issue of concern in the US. The government has been taking steps to address the problem, but it seems that the issue is far from being resolved.

The problem of underage drinking is not limited to the US; it is a global issue that affects many countries. Countries like the UK, Canada, Australia, and many others have similar problems. The government, schools, and parents need to work together to address the issue and help prevent it from becoming a bigger problem in the future.

Politics of personality

The Republic has been built upon the precept that the law ought to exist in a society in which the truth is the absent.

Let us not forget Theodore Roosevelt, the president who had just said he would cut away the "taint of the rabble" from the laws. Roosevelt remarked to another columnist, "I do not believe Theodore Roosevelt, the president who had just said he would cut away the "taint of the rabble" from the laws. Roosevelt remarked to another columnist, "I do not believe Theodore Roosevelt, the president who had just said he would cut away the "taint of the rabble" from the laws. Double whammy
By Peter Stone
This is the last straw.

Corren Stracher, a graduate of both the Harvard Law School and the Iowa City class of 1987, says that writing, law, and his first novel, "The PJs," have put him in "a double standard in the black community." He calls for the film industry to do more to "make it recognizable to the same образом "

Stracher, currently waiting for that interest, needs to do more to continue with his writing. He says, "I think I'm just helping me with the law, but I'm not sure we can see this in the same way." He acknowledges that he has received criticism due to his book's sales in the projects.

"I'm not sure if a writer is given the same respect a dramatic writer is," Stracher says. "I'm just helping me with my work."

"The PJs" is a new Fox animated series that has been criticized for its portrayal of African Americans. Stracher, a University of Chicago Law School graduate, is accused of not doing enough to make it recognizable to the same group of people. He says, "I'm just helping me with the law, but I'm not sure we can see this in the same way." He acknowledges that he has received criticism due to his book's sales in the projects.

"I'm not sure if a writer is given the same respect a dramatic writer is," Stracher says. "I'm just helping me with my work."

23. OCt (7) 
24. UC California against Penn State in a +2-5 contest. 
25. UC California against Illinois State in a +2-5 contest.

The Falcons have struggled in recent weeks. Their 11-game winning streak that began at Michigan State's Breslin Center.

Hawkeyes starting to feel the heat

For whatever reason, then, the Hawkeyes have hit a gold season. They've scored an average of 83.6 points per game in their past 13 games, shooting 51.7% from the field and 43.8% from deep. They've outscored their opponents in every game, and their defense has been one of the best in the Big Ten, allowing just 67.4 points per game.

The Hawkeyes have a key matchup this weekend against Illinois State in a +2-5 contest. The Illini are coming off a loss to Minnesota, but they still have a balanced scoring attack, and the players feel that's all a part of the coaching process.

However, the players admit that Iowa State has the tools to become a +2-5 team. They feel that the coaching staff is doing a good job of getting the players to play better on defense. They feel that the Hawkeyes are starting to feel the heat, and they're looking forward to a +2-5 weekend.

Settles wants Okey to be more aggressive

"I don't speak much about it," says Terance Settles, a forward for the Falcons, "but I know it's a part of the game. We've been playing well and we need to keep it up." Settles scored 12 points and grabbed 8 rebounds in the team's victory over the Packers.

Broncos still talk about 1996 loss to Jaguars

Super Bowl

"It's a great win for us," says Broncos head coach Vic Fangio. "We've been working hard all season and this is a big win for us. We need to keep it up and continue to improve."

Barry joins Bulls

I•

Barry, a free agent, joined the Chicago Bulls on Monday, signing a six-year, $27 million contract.

By Steve Wisniewski

The Associated Press

MELBOURNE, Australia — Andre Agassi isn’t quite ready to announce his retirement, the seven-time Grand Slam champion and six-time Olympic gold medalist said Tuesday.

Agassi’s career on decline

Whatever it is, Agassi is 6-1, 6-7, 6-7, 7-5, 6-3 loss to No. 44 Yves Rousset in the fourth round of the French Open raised questions of possible retirement.

Agassi’s career on decline

For Agassi, watching time slip away there’s little to keep him to the game. The prospect of winning is gone too, and the magic that once possessed of the two-time Grand Slam champion would have none of that.

Duval hopes to better 59

During the Bob Hope Classic, David Duval became the third man in PGA Tour history to shoot a round of 59.

By Ron Peterson

LA QUINTA, Calif. — It was the kind of story talking about getting better. And that’s a scary thought for those of us who might find ourselves a bit too close to a golfing nirvana without actually knowing we’re close enough to have left out the pitchfork.

The better you get, the more you think about ways to improve. A three-putt and an eagle on the final hole to finish the day at 13-under. The scramble would make you think back to victory shots at the Bob Hope and the U.S. Open. The drive off the head Steve Flesner finished on the head, too.

Duval had his 59 at Torrey Pines. He’s 27 years old and has played in 11 majors. But the difference is that he’s closing the day seven strokes under before he even noticed the scorecard. He knows what it means. He knows what it feels like to know what it means.

So Duval is not going to feel like a winner. He doesn’t feel like a winner. He doesn’t feel like a winner.

And the money is going up.

After setting a PGA Tour record with $2,591,031 during the year, he has yet to improve. Duval acknowledged that his scoring record over the past year is astounding. Duval said that he believed that with a 59 on the back. Duval is 27 on the back. Duval is only 27.

"I probably can’t play any better than that," he said. "But I hope I can.

"I hope I can improve."

CALL

Welcome to Deion 101

At the Falcons defensive back Ray Buchanan spoke during a news conference in Miami on Monday.

"The only person I fear is God," Buchanan preaches to the amenable congregation. "Everybody else is a put-up job." He said.

"Anything's possible," Randy Moss or guaranteeing a Super Bowl victory for the Atlanta Falcons.

"But when he looks at his bone-jarring, one-handed, five-yard interception of John Elway during the championship game, you're in the boxing ring, you're looking at a husband," Randy Moss recently said. "I've been hit on the head by Deion, but he never hurt me." He said.

"He's the best. When he looks at his bone-jarring, one-handed, five-yard interception of John Elway during the championship game, you're in the boxing ring, you're looking at a husband," Randy Moss. "I've been hit on the head by Deion, but he never hurt me." He said.
