Blizzard plows through Iowa City

A March snowstorm blankets the area, striking slick streets and causing the campus to cancel classes.

By Rebecca Anderson

The UI canceled classes for the first time since 1966 due to a severe winter weather Monday and stopped about 10 a.m. after all schools closed.

University officials said they were unable to estimate how many students were on campus and the number of classes canceled. The university was closed to the students and faculty throughout the night to determine what Students would return.

"It looks like things could be tapering off," said Steve Parrent, assistant director of University Relations, late Monday night.

The snow began to fall around 2 p.m. Monday, and students were busy plowing the sidewalks and streets after the snow stopped falling.

"The snow began to fall around 2 p.m. Monday, and students were busy plowing the sidewalks and streets after the snow stopped falling."

The snow continued to fall until about 5 p.m., when the last time the UI decided to close around 2 p.m. Monday, the snow fell throughout the night to determine what Students would return.

Girls’ tourney blizzard right on time

By Mary Honeander

DOUGLAS — For a second consecutive year the City of Douglas has found itself in a state of winter weather. This year’s blizzard, which was accompanied by high winds and heavy snow, caused roads to close and schools to be closed. With the blizzard of 1999, the blizzard of 2000, and now the blizzard of today, the Douglas community has learned to brace for the worst.

The blizzard of today, which hit the area on Friday night, was the most severe in recent memory. With winds gusting up to 60 mph and snow accumulations reaching 1-2 feet, many residents were forced to stay indoors for the duration of the storm.

According to the National Weather Service in Sioux City, the blizzard was caused by a combination of factors, including a cold front moving in from the north and a warm front moving in from the south, creating a perfect storm for heavy snowfall.

“Conditions were right for a blizzard to occur,” said Mike Anderson, a meteorologist with the National Weather Service. “The combination of a strong low pressure system and a cold front moving in from the north created the perfect conditions for heavy snowfall.”

Families throughout the Douglas area were forced to huddle around the fireplaces and listen to the sound of the blizzard outside. Many residents reported being unable to leave their homes due to the severe weather conditions.

The blizzard caused significant disruptions to daily life, with many businesses and schools closed for the day. The local airport was closed, and many residents were stranded at home.

Despite the challenges, the Douglas community came together to help one another. Local businesses donated supplies to those in need, and volunteers helped clear snow from sidewalks and driveways.

As the blizzard began to ease on Saturday morning, residents looked forward to a day of recovery and rebuilding. The Douglas community is known for its resilience, and residents are confident that they will be able to bounce back and recover from this challenging event.

The blizzard of today serves as a reminder of the power of nature and the importance of preparation and resiliency in dealing with such events. The Douglas community will continue to work together to ensure that everyone is safe and well cared for during this challenging time.

“I think this blizzard is a reminder of how important it is to be prepared for such events,” said Mayor John Anderson. “We will continue to work together to ensure that everyone is safe and well cared for.”

EDITORIAL

Doing good on getting votes

The candidates for USG president campaigned hard and stressed the importance of cooperation and unity. The need for students in the USG to work well together was evident. The candidates were each given a platform, and the platform was a main topic of discussion during the course of the campaign.

Do you think we've been successful in getting the candidates to come together and work on their campaigns?

LETTERS TO THE EDITOR

Sayles good choice for editor

The Daily Iowan has selected a promising student, Sayles, as its new editor. Sayles has a consistent background of active editorial roles on the Daily Iowan. He has been involved in the White House and has worked on a variety of campaigns. Sayles has a unique approach to editorial roles, which makes him a valuable addition to the team.

Has anything you've written in the Daily Iowan before?

Waiting for justice in a burgeoning culture of violence

A new law in the United States has been enacted to provide better protection for women and children. This law aims to prevent violence against women and children and to hold perpetrators accountable for their actions.

Why is this law important?

Stanford

Karate

The team is doing well in the recent tournament. Last weekend, they won against a strong opponent.

How many students participated in the tournament?

President

The President has called for a government in which the people are truly the rulers of the nation. This government would ensure that the will of the people is represented in all aspects of government.

What does the President believe is the role of government?

Quayle

Quayle is a strong candidate for the presidency. He brings a wealth of experience and is known for his strong leadership abilities.

How is Quayle different from his opponents?

Reagan

Reagan is a highly respected figure in politics. He is known for his strong leadership and commitment to the country.

What has Reagan accomplished during his presidency?

Campaigns

The campaigns have been intense and exciting. Each candidate is working hard to win the vote of the American people.

What is the most important issue in the campaign?

In the end, the American people will vote for the candidate they believe will best represent their interests.

Thanks for your thoughts on the campaign.

Snow Wolverines Iowa City

BLIZZARD

Continued from Page 1A

The snow will continue today before the attempted Saturday or Sunday weather. As of this morning, there are no plans for the meeting to be moved. Although Governor Robert Gates would have liked to have the meeting moved, the weather was not the reason. Gates said he was not concerned until the weather was out of hand. The meeting was held in a heated area, and the only concern was if the weather would hold up. The meeting was planned at the last minute, and the weather was not taken into consideration.

The meeting is expected to come to a decision on sanctions to be taken against members of the basketball team. The meeting was held in the University Union, where the basketball team was practicing. The meeting was expected to take place today, but was delayed due to weather conditions.

Students were also concerned about the weather conditions and the impact on their studies. "I think it's such a problem walking," Valley said. "If you miss a week of class, you have to go out," she said. "The parents want to meet with a representative, and they want to know a lot more about what happened." Valley said that the meeting was expected to come to a decision on sanctions to be taken against members of the basketball team.

Like, slouching toward Valleydom

The Valley Girl goes totally '80s and a "cultural" icon passes away.

By Deborah Hartline

Associated Press

LOS ANGELES - The Sherman Oaks Galilea, originally named neighborhood of the Valley Girl, is all the rage. Little news outlets are out of business.

"Remember, it was the Valley Girl dead, the Valley Girl alive."

April does exist still talk like this.

Our story is the tale of two up-and-coming moms - 252,000 adults and 281,000 children - and the Galilea, the 1,500-acre town near the airport.

"The Galilea was the architectural style of a two-generation monolith - some say it was an artifact of old for comfort, some say it was a better single.

Several stores are like little Girls like the Galilea. And, all like, really goes down stairs.

The Galilea was the architectural style of a two-generation monolith - some say it was an artifact of old for comfort, some say it was a better single.

New store is nearly deserted, a victim of the earthquake, which forced it to close for the day. The store is in a shopping center that has been repeatedly ownership changes.

Near Boston, people have Angels at their table

In a tough Massachusetts town, an influential motorcycle gang is back.

By Leslie Miller

LOUISVILLE - In this tough town, nicknamed the City of Sin, it's the Angels that strike fear in the hearts of the locals.

It's been more than 10 years since the Angels took hold of this city, and the fear has only grown.

"They've been around for a long time," a local resident said. "They're not the kind of people you want around here."

Alvarez makes five errors; McGwore homers

By Associated Press

Oakland Athletics' Canseco is the only one who got through the series without an error. Houston's Valenzuela made four.

Alvarez said he was proud of it.

"I was inconsistent last year," Gwynn said. "There were periods when my weaknesses were just terrible."

"How does a guy who's topped .500, first baseman, who enters the season 72 for an inside-the-park homer."

"We're going to play."

"As a hitter for me it would be, I think, incredible because it's what I've done so far through my whole career," said the San Diego Padres' Gwynn.

McGwore isn't pulling much significance from the same.

"Hey, guys, this is spring training," said Gwynn. "We're going to do things different."

"It's hard to get out because you just don't have much," Gwynn said. "I wonder what the hell was going on."

"For us, this is spring training.
