## I.C. library faces 2 options

The Public Library will either construct a new building, or it will remodel and expand its current facility.

By Heather Pavlica  
The Daily Iowan

The Iowa City Public Library Board and the Iowa City City Council discussed 15 options for a new or remodeled 80,000-square-foot Public Library and eliminated all but two Monday night.

The board and the council decided that constructing a new \$14.3 million building on the parking lot to the south of the current library or remodeling and adding on to the west of the current property at a cost of \$15.3 million were the two best ideas.

"Some variation of those two seems to be a good option," Mayor Ernie Lehman said.

Each of the 15 options, which were presented by Joe Huberty, an architect

from Engberg Anderson Design Partnership in Milwaukee, was ranked according to size, functional purposes for the library and public, parking and impact on the downtown economy.

Building a new facility on the parking lot to the south of the library, 123 Linn St., was the option that ranked the highest, Huberty said.

The proposed building would include a three-level facility with the first and second floors used for the library and the third floor used for staff. This layout is planned to include a 114-space parking facility under the building if the city chooses, he said.

This option fits the downtown "look" and would be an easy move because the library would not have to rent a space — estimated at \$1 mil-

See LIBRARY, Page 7

### Proposed options for new Public Library

Option	Cost (millions)
1 Entirely new building on south side of the existing library in city lot 64-1A	\$14.3
2 Remodel and expand to the west of existing library.	\$15.3

## Officials: Ex-student's death was a suicide

A former UI student was found Monday at the Old Capitol with a gunshot wound to the head.

By Gil Levy  
The Daily Iowan

In what UI officials say was apparently a suicide, a former UI student was found with a self-inflicted gunshot wound to the head on the steps of the Old Capitol Monday morning. He was pronounced dead at UI Hospitals and Clinics later Monday afternoon.

Jason Jeffries, originally of Lisbon, Iowa, was found by UI students in the doorway of the unused west entrance at 9:22 a.m. Monday, said Steve Parrott, the director of university relations.

The UI Department of Public Safety responded to an emergency call, and Jeffries, 21, was transported to the UIHC, where he was pronounced dead at 4:15 p.m.

A handgun and suicide note were found near Jeffries, Parrott said.

Jeffries left the UI early in the spring 1999 semester; he was enrolled this fall at Iowa State University as a pre-architecture major. His death came a month before his 22nd birthday.

The incident remains under investigation by Public Safety.

The students who found Jeffries went to MacLean Hall to call for help, said Margaret Driscoll, the office coordinator for the mathematics department.

"They came in here and let us know about it, and we called campus security," she said. "They said somebody was on the Old Capitol steps, and they were lying there, and they were bleeding. I didn't know how bad it was, if the person could get up and walk away."

A Public Safety officer called the Iowa City Fire Department and paramedics after determining the seriousness of the incident, she said.

Driscoll said the students who found Jeffries told her that people had walked by and noticed a body lying at the top of the steps but thought it was just a homeless person sleeping.

After Driscoll called Public Safety, she went to the steps to wait for officers.

"Where I was, you couldn't see him," she said. "If you walked up the steps and looked, you could."

Tipper Gore, wife of Democratic presidential candidate Al Gore, was at the UI Monday; she expressed her sympathy for Jeffries.

"Our hearts and prayers are with him," she said. "We need to do a better job of helping people know there is mental-health help available."

### BACTERIAL MENINGITIS GOT YOU DOWN?

Brett Roseman/The Daily Iowan

UI freshman Stephanie Davis gets vaccinated for bacterial meningitis by R.N. Gayle Nelson at Student Health on Nov. 11. Davis, who had meningitis six years ago, said she wanted the vaccination to ensure she would not get the infection again. Interested students can get a meningitis vaccination at Student Health for \$67.

## Meningitis fear prompts student vaccines

College freshmen living in dorms run six times the risk of contracting the disease, a report says.

By Carrie Johnston  
The Daily Iowan

UI freshman Liz Lorch was urged by her parents to get a meningitis vaccine after they heard of the high risk of developing bacterial meningitis in a college setting.

"My mom made me get the shot — she was like, 'Better safe than sorry,'" Lorch said.

The potentially deadly strain of bacterial meningitis has flu-like symptoms and can cause health hazards, especially for college-age students who live in residence halls.

According to a Nov. 2 article in the *New York Times*, recent studies have shown that freshmen living in dorms have a six-times greater risk of developing a meningococcal infection than do college students overall.

A federal health advisory panel,

which advises the Centers for Disease Control and Prevention, has urged the approximately 520,000 college freshmen who live in dormitories to receive the meningococcal vaccine before the peak season, which runs from November through January.

UI freshman Stephanie Davis contracted the disease six years ago; she went to Student Health on Nov. 11 to be vaccinated.

"I didn't want to get it again because it was really scary, and it can be fatal," she said. "My mom was worried about me getting it again."

The bacterial strand of meningitis is becoming a concern for a growing number of UI students, said Larry Afifi, the UI Student Health Service nurse manager.

Symptoms include high fever, headache, stiff neck, a possible skin

rash and arthritis. Meningitis is often difficult to diagnose because these are common symptoms for other illnesses, she said.

"One could have these symptoms, and it could not even be meningitis," Afifi said. "That is a problem for detection."

Wendy Mlady, a UI freshman, said her younger brother contracted meningitis and that led her to consider a vaccine.

"I didn't like watching my brother go through that," she said. "I am thinking of going home and getting the shot over Winter Break."

Lorch said she heard of meningitis cases at the UI last year and wondered why more prevention measures are not being taken.

"If it could potentially develop into an outbreak, why doesn't the UI

## UISG steps in to help rape-victim support program

Student government wants to ensure the Rape Victim Advocacy Program's future.

By Corrie Dosh  
The Daily Iowan

In response to funding cuts that threaten the Rape Victim Advocacy Program's support services, the UI Student Government announced Monday night that it will help support the program.

"Together, if everybody recognizes how important RVAP is, we can ensure that it continues to exist and provide valuable service in the future," said UISG President Lana Zak.

The advocacy program suffered a \$29,000 cut in funds, which resulted in staff and service cutbacks.

"It's been a really hard year for us," said Christie Munson, the program's director. "I think it's really important for all the services that deal with safety at the university to be well-funded and to be able to provide services on a consistent basis."

Samantha Karrel, the director of crisis services for the program, said the UISG funding is appreciated and appropriate.

"It's not only supporting us in offering services to the community and university, but also supporting everyone connected to the university by allowing our services to be available to them every day, 24 hours a day," she said.

Although constrained by its own budget concerns, Zak said, the UISG has pledged to help raise money for the program through regular supplemental funds already in existence to aid student services. UISG also plans to lobby the UI administration to provide additional funding.

UISG already provides \$16,704 to the program out of student fees. Although UISG will not be able to provide the entire \$29,000 that the program needs, Zak said, she hopes UISG will be able to provide enough to keep basic services.

"We hope with pressuring the administration we can identify the amount of money needed to sustain the program," she said.

On Thursday, UISG will meet with Phillip Jones, the UI vice president for student services, to discuss the issue.

See RVAP, Page 7

## Internet spins web of busy signals in dorms

The UI doesn't have enough phone lines to accommodate the residence halls.

By Michael Chapman  
The Daily Iowan

UI freshman Liz Gresher has had a hard time getting a phone line out of her Currier Residence Hall room. And she's not the only one on campus.

"When I try to get online, it's always busy," she said. "You just can't get a connection."

Because of an increase in Internet use on phone lines designed to handle only local and long-distance calls, the UI doesn't have enough outgoing lines to accommodate its residents, said Steven Fleagle, the director of Telecom-

munication and Network Services.

"We have seen a dramatic increase in the amount of Internet traffic in the past few months," he said. "Everybody wants to be on the Internet."

Additional capacity for phone lines was ordered Monday, Fleagle said, and the UI hopes to have the capacity available within the next few weeks. Until then, he said, he recommends that students go online early in the morning.

UI sophomore Sara Eifrid may take Fleagle's advice; trying to connect between 7 p.m. and 1 a.m. is almost impossible, she said.

"When I try to get online, it's always busy," she said. "There are certain hours of the night I just can't get an outside line."

The UI is in the process of finding a

permanent solution to the problem with Ethernet connections, Fleagle said.

"We're working hard with Information Technology Services and the residence halls to put together an accelerated schedule," he said. "We're trying to get this done as soon as possible."

The UI hopes to have every dorm outfitted with direct Internet connections by the fall of 2000, Fleagle said — which will not come soon enough for some living with limited phone access.

"There are ways to go about this," said UI sophomore Amy Frank. "I'm pretty sure they can do it."

Frank said she has had an especially hard time dialing off-campus numbers — she keeps getting a busy signal.

DI reporter Michael Chapman can be reached at: michael-a-chapman@uiowa.edu

Charlie Wittmack/The Daily Iowan

UI freshman Danny Yuska places a call from a friend's room Monday in Burge Residence Hall. Many students living in UI dorms have had a hard time getting an outgoing phone line.

**Fight to the finish**

NEW YORK (AP) — Makers of competing television movies about the life of Muhammad Ali are in a race to finish. ABC starts shooting *King of the World* on Nov. 22, starring Terrence Howard as Ali in his early years. Fox begins shooting *Ali* on the same day, with David Ramsey as the fighter from age 18 to 33. Ramsey said in the Nov. 20 issue of *TV Guide* that he has been preparing for the role by running and lifting weights — all of which has given him new respect for Ali.

Ali

**When the money's gone**

LOS ANGELES (AP) — Fourteen-year-old actress Jena Malone has filed a lawsuit against her mother, alleging she mismanaged more than \$1 million of the teen-ager's earnings. The lawsuit claims that Debbie Malone, 36, has lived off the actress' earnings for years, according to court papers filed recently in Los Angeles Superior Court. Mismanagement has drained the teen-ager's college fund and left her owing \$20,000 in back taxes, the lawsuit claims. A court appearance is scheduled for Nov. 24. Jena Malone has appeared in the movies *Contact* and *Stepmom*. Debbie Malone did not return a telephone call seeking comment.

**Pop queen takes break**

NEW YORK (AP) — The show will no longer go on for Celine Dion. The 31-year-old pop singer says she has decided to put her career on hold so she can spend time with her husband, whose cancer has been in remission for seven months. "I told myself, 'Life is sending you a message,'" Dion said in the Nov. 20 issue of *TV Guide*. "The message was: It is time that you are there for each other, that you get back to reality, be with your family and friends ... Show business is not your life."

Dion

**Institute forecast is rosy for Iowa**

Employment growth in Iowa was strong this year despite a low unemployment rate, according to the Iowa Economic Forecast released Monday by the UI Institute for Economic Research. Institute Director Beth Ingram says the institute's model predicts that real personal income in Iowa will grow by 3.7 percent in 1999 (down from 3.8 percent in September) and by 3.7 percent in 2000 (up from a forecast of 3.4 percent in September). "Real personal income in Iowa grew by 4.6 percent on an annualized basis in the second quarter of 1999, based on the most recent data available," Ingram said. "This put Iowa among the top three fastest growing states, along with Nebraska and Kansas." Meanwhile, the employment growth forecast for 1999 is down slightly from September. Employment growth in Iowa has been strong, and the rate is expected to climb by 2.4 percent in 1999 and by 1.2 percent in 2000.

**horoscopes**

Tuesday, November 16, 1999

**ARIES** (March 21-April 19): Your quick wit will win you points. Voice your opinion, but refrain from being pushy, or you'll have opposition.  
**TAURUS** (April 20-May 20): The legal matters or personal papers you want to tie up by the end of the year will cause frustration. Be satisfied that you started the ball rolling early.  
**GEMINI** (May 21-June 20): Take a short pleasure trip or attend clubs or events that will help you meet new friends or lovers. You may need to re-evaluate your motives.  
**CANCER** (June 21-July 22): Get together with colleagues socially after work. You not only will heighten friendships, but will gain support from those who may be able to further your interests.

**LEO** (July 23-Aug. 22): You'll be in the mood to do things with friends. Organize a competitive and challenging indoor sports event.  
**VIRGO** (Aug. 23-Sept. 22): You'll have trouble handling the confusion around you at home. Your temper will explode if you don't have a physical outlet for your anger. Difficulties with money will prevail.  
**LIBRA** (Sept. 23-Oct. 22): You'll find yourself attached to the phone. Communications will take up most of your time.  
**SCORPIO** (Oct. 23-Nov. 21): Don't be coerced into contributing to something you think is a waste of time. Learn to say no, or you'll find yourself paying for a multitude of unnecessary things.  
**SAGITTARIUS** (Nov. 22-Dec. 21): Don't

lend money to a friend. You will lose the cash and the connection when he or she can't pay you back.  
**CAPRICORN** (Dec. 22-Jan. 19): Don't get involved in secret affairs just because you are feeling neglected in your personal life. You need to clear up the relationship you're in before you start another one.  
**AQUARIUS** (Jan. 20-Feb. 18): Don't let emotional upset force you into the poorhouse. You may want to spend in order to lift your spirits, but, unfortunately, being extravagant will only contribute to your worry.  
**PISCES** (Feb. 19-March 20): You may feel emotionally upset if your romantic life has been going nowhere. Take time to reassess yourself and prepare to make the necessary changes.

# Job market for grads is rosy, says research group

■ Many UI students entering the job market will find lots of jobs and good salaries.

By Robin Wright  
The Daily Iowan

The graduating class of 2000 will likely enter the work force facing a less rigorous job search and higher salaries than recent graduates, according to a poll released by JOBTRAK.

"I'm not surprised at all," said UI senior Gina Monaco. "I'm looking for a public-relations job for next year, and it's more a matter of me deciding whom I want to work for than if I'm getting hired."

Officials at JOBTRAK predicted a 25.6 percent increase in salaries, compared with 1998.

"Unemployment is at its lowest in 29 years. Employers are looking for recent college graduates to fill positions. The last three years especially have seen enormous increases in jobs," said Ken Ramberg, co-founder of JOBTRAK.

According to the report, engineering and business are among the highest-paying fields, but liberal arts students may also reap rewards.

"I'm a psychology major and want to work for a big company," said UI senior Jon Rioridon. "If you've had any kind of business background, companies seem very receptive to you these days. I've had so much conversation with so many different companies, that there

Brett Roseman/The Daily Iowan  
Robert Burns (left), a recruiter with Fortis Investors, interviews UI senior John Connolly on Nov. 11 at the Business and Liberal Arts Placement Office.

must be a huge increase." JOBTRAK officials said that while more jobs are being offered to students this year, UI students may not find dramatic changes.

"I know that there are more jobs this year, but not necessarily

in business administration does not correspond with these statistics.

"I had expected to have to look in Chicago or Minnesota for higher paying jobs, but I'm finding equal opportunities in Des Moines, which pleases me because I'm from Iowa," he said.

A report issued by the UI Economic Research Institute released Monday says Iowa is among

the top three states for employment growth, with a 4.6 percent growth in real personal income. Kansas and Nebraska are also on the list for high employment growth.

DI reporter Robin Wright can be reached at: robin-wright@uiowa.edu

ly in Iowa. That still means there's lots of people retiring, and expanding technology everywhere that is resulting in increased jobs," said Keri Resch, the public relations director for JOBTRAK.

UI senior Justin King's job

# UI research steps up to corporate trough

■ Private funds are growing at the UI, but federal government still provides the most money for research.

By Chris Rasmussen  
The Daily Iowan

It was a record-setting year for the UI in procuring corporate money for research, as the university brought in 38 percent more corporate dollars — \$39.7 million — in 1999.

But some say making corporate ties is not necessarily the best thing for the UI because it could lose sight of its mission to serve students.

"I think the university should be an ally to the students first and foremost," said UI junior Zachary Wedemeyer. "As I understand it, that's its purpose. When an institution forms monetary ties to corporations, there is the danger that it will lose this commitment to the students."

Federal funding totaling \$167.2 million accounted for a greater proportion of the external funds the UI received for research. But while this amount increased from last year, its growth was only at about half the increase in corporate funding.

The UI plans to report the information to the state of Iowa Board of Regents in Ames Wednesday.

The UI has been trying to capitalize on the growth of private funding by establishing offices to seek corporate funding, said Brian Harvey, the UI director of sponsored programs.

Federal funding through the National Institutes of Health will remain the greatest source of external research moneys, he said.

"The NIH has always been the dominant player, and this is not going to change," Harvey said.

The increase in corporate funding in 1999 was due to the effort put forth by UI faculty and staff to get the right people to write the checks, said David Skorton, UI vice president for research.

"It's a combination of the very hard effort of the faculty and staff to apply for money," he said.

Contracts for research and licensing agreements that allow the UI to add value to existing patents fueled

the increase, said Bruce Wheaton, the director of the Oakdale Research Park.

"The components of that number (the monetary increase) are going to be contracts for research services for clinical trials — drug trials — and developments that enable the university to add value to patents," he said.

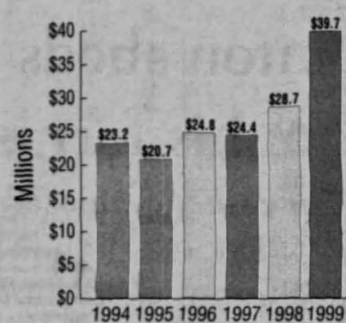

The UI adds value to its patents by "renting" them out to private companies that pay royalties for the use, Wheaton said. The fees the UI collected increased to \$2.2 million this year.

Obtaining more money to fund research is something the UI should pursue with vigor, said UI sophomore Jennifer Moss.

"I think they should spend more money on research," she said. "Speaking from a scientist's level, it will help our society if they do."

The amount of money the UI received from clinical trials alone was up from \$13 million in 1998 to \$16 million in 1999, but all sectors

## Research money awarded to the UI from corporations

Source: UI Annual Report of External Support

increased, Harvey said. Of the \$259.5 million total of external support for research at the UI, \$167.5 million goes to the College of Medicine. The College of Liberal Arts is second with \$30.7 million.

DI reporter Chris Rasmussen can be reached at: chris-rasmussen@uiowa.edu

## NATIONAL GUARD ARMORY

### COLLEGE FINANCING 101

Each year thousands of college students are forced to drop out. The problem is not with their academic standing, it is their financial status. They can't pass or CLEP out of "College Financing 101." The Iowa Army National Guard has over \$36,000 available to each student who qualifies. Through programs such as the Montgomery G.I. Bill and Guard Pay, students can concentrate on grades, not bills. The Guard offers hands-on experience, as well as technical and leadership training.

All it takes is about two days a month and two weeks a year. Serving your country and community today can help build a better tomorrow.

## Clinton sheds more luster from his tarnished legacy

In case you missed it in all the hulla-baloo over the Hawks' win over UConn (U Who?) last week, the annual Clinton-GOP battle over the budget is almost over. What battle? you say, cupping your ear, straining to hear over the din of delirious basketball fans.

Well, it's hard to blame you. That was an exciting, stunning basketball game. It's always great to see the Davids knock off the Goliaths, especially when the Davids are on your team. It doesn't happen all that often in sports anymore, as any long-time Hawk fan can tell you (most of whom are long-time Cubs fans, so they are thoroughly intimate with this David-Goliath thing). It happens even less often in so-called real life.

But there has been a budget battle going on in Washington this fall, albeit a rather quiet one — quiet mostly because the Republicans don't want to really get in a fight with Bill Clinton. Every time they do, he gives them an old fashioned Arkansas ass-whupping. You only have to go back a few years, to the budget fight that shut down the government and left the GOP looking like the Grinch who stole Christmas, to understand why the Republicans are reluctant to go to the mat with Clinton.

### BEAU ELLIOT

In this year's version of budget WWF, the White House and the Republican leaders reached a compromise Sunday night over the contentious issue of abortion-rights and the United States' U.N. dues. The conservatives in Congress will finally let the United States pay its long-overdue U.N. bill, and the administration will let the conservatives cut off U.S. funding for international organizations that promote abortion rights overseas.

The U.N. debt thing — the United States owes something on the order of \$925 million, which is real money to everyone except Bill Gates — has been rather a large embarrassment for the United States and for Clinton in particular. It just looks bad if you're the richest country in the world, running around all over the place, sticking your nose into everybody's business and yet you don't pay your bills. The debt had gotten so large and so overdue that the United States was threatened with losing its vote in the U.N. General Assembly.

The conservatives have this thing about the United Nations — they don't like it. The more wacky among them believe in the One-World Government conspiracy, complete with the infamous black helicopters and secret codes on U.S. highway signs, and even the less wacky regard the organization with the same love and respect that they once gave the Soviet Union.

Pat Buchanan is a good example of this (well, even Buchanan has to be a good example once in awhile). A few weeks ago, voicing the thoughts of many conservatives, he said that if U.N. Secretary-General Kofi Anan stripped the United States of its U.N. vote, the nation should just kick the United Nations out of New York, where it's been squatting since the late '40s.

Unfortunately, Buchanan, like many conservatives, had his information wrong. First of all, Anan cannot strip any country of its voting rights — it's right in the U.N. charter, which the United States helped to write — any country that falls behind in its bills loses its vote. Second, the United States cannot kick the United Nations out of New York because the United States doesn't own the land on which the U.N. complex sits. The United Nations does. The land was a gift from the Rockefellers.

So the Clinton administration was finally able to effect a compromise on the U.N. debt by surrendering on abortion rights. It's a typical Clinton move. Poor women in far away countries don't vote in U.S. elections, obviously, and even more importantly, they don't have any say in what the Clinton legacy will be (which sounds more and more like an oxymoron every day). So it's easy for him to give away their rights.

It's a sad day when you let anti-abortion fanatics run your foreign policy. But that's Clinton for you. He's so desperately afraid that he'll be remembered mostly for making Monica Lewinsky a household name that he'll do just about anything to be remembered for something else.

Somebody should tell him: It's too late, Bill. For you, it'll always be the famous (non-dry cleaned) blue dress and the many uses for a cigar, none of which seemed to involve inhaling.

Have a happy time in history.

Beau Elliot is a *DI* columnist.

## EDITORIAL

### Planning behind "Rock the Vote" falls short of potential

Based on last week's events, it is clear that the organizations behind the Rock the Vote movement can't do their jobs correctly. Providing students with the opportunity to register to vote and allowing equal representation of political parties at a rally is not a lot to ask of the group. Unfortunately, the sponsors of Rock the Vote — the Aliber/Hillel Jewish Student Center and Associated Residence Halls — haven't gotten either of these jobs done.

The plan is to enlist as many people as possible to register to vote. The organizers' dedication to the cause, however, seems insincere since the latest rally was held at an odd hour for a short period of time. The Nov. 11 rally took place from noon to 1 p.m. on the Pentacrest. The one hour allotted obviously did not allow a high turnout rate — only a couple dozen people were reported to have registered at the event. Perhaps if the groups realized that most students are in class or eating lunch during that time, they wouldn't have wasted an hour of their time while people were as far away as possible from the booths.

The Nov. 11 rally also involved a "miscommunication." Students for Bradley was not informed until the night before the event that it could have set up a booth at the rally. Meanwhile, those behind Rock the Vote misinformed Students for Gore about the time of the rally. The president of Students for Gore received an e-mail stating the starting time of the rally as 1 p.m., but when Students for Gore showed up at 12:45 p.m. to set up, everyone else was leaving.

The only student organization that showed up was Students for Bush. It is saddening that only one political group was represented and now has that much of an advantage (as small as it is) over the others.

The Rock the Vote movement on campus is not as effective as it is intended to be. Perhaps if its sponsors put more thought and organization into its rallies, they would not become such a joke.

Mary Mroch is a *DI* editorial writer.

## LETTERS TO THE EDITOR

### Pappajohn tree is part of a good cause

We are sorry that Joseph Plambeck was offended by the holiday tree that stands on the first floor of the Pappajohn Business Building. The intent of the college's Elected Staff Council, which sponsors the tree, is not to offend nor to maximize the profits of area merchants. It is to provide a focal point for an initiative through which the faculty, staff and students of the College of Business can give something to the children of the Iowa City community. As such, the tree is not intended to be a symbol of Christmas, only of good will.

Boxes were placed beside the tree to allow anyone interested to donate children's books, games, toys or art supplies, as well as nonperishable food for the needy. These items will be divided between the Pediatrics Unit of the UI Hospitals and Clinics, a local day-care center for homeless children and a food pantry. It is the hope of the College of Business Elected Staff Council that these items will provide pleasure to youngsters of the area throughout the coming year.

Because this is a season of appreciation and giving for many Americans, we selected the Thanksgiving period as the kick-off time for our effort on behalf of Iowa children and the needy. If the signs announcing our intent had been placed beside the tree when it was put up, our purpose would have been clear. Our timing may have been bad, but our intentions are not.

Joyce Ruplinger  
elected staff council chairwoman  
Tripple College of Business

### Rock the Vote gets bum rap

Thursday afternoon, the Aliber/Hillel Jewish Student Center and Associated Residence Halls sponsored a Rock the Vote rally intended to encourage students to register to vote. The *DI*'s coverage of the event ("Rock the Vote doesn't rock some," *DI*, Nov. 12) focused almost exclusively on the confusion of the Gore and Bradley campaigns concerning the rally's starting time.

The *DI* implies that Hillel failed to notify the Gore and Bradley campaigns of the change in the time of the rally. The truth is that when we contacted representatives of both campaigns by telephone to arrange for their participation, we indicated that the rally was to begin at noon. Further,

our press release and the news articles concerning the rally all indicated the noon start time. The *DI* took one small snag in an otherwise well-organized event and published a full article about it.

The *DI* did not send a reporter to the rally. Had there been no controversy about the start time, it is conceivable that the rally would not have been covered at all. I hope that in the future, the *DI* pays greater attention to student-organized events such as the Rock the Vote rally.

Gerald L. Sorokin  
director, Aliber/Hillel Jewish Student Center

### UI parking charges a rip-off

The other day I drove to the Main Library and parked in the English-Philosophy Building parking lot, assuming that it was all right to do so. Upon returning to my car, I saw a \$20 ticket on the window. I neglected to pay the ticket and received two more similar tickets.

Later I noticed that my UI-Bill seemed about \$60 too high. I asked a man at the UI Department of Transportation about the price of the tickets. He explained that \$10 of the fee is because the parking lot is for out-of-town students between 7 a.m. and 9 p.m., and the other \$10 is because the car was not registered. Why did the car have to be registered, I asked.

"So that the university will know you are a student," he said. This seemed funny, because if the university did not know that I was a student, how could it put the tickets on my student UI-Bill? What kind of crackhead school charges you for not being a student on a student bill?

I guess I understand that it is important to make rules that give commuting students a place to park. But it also seems that sometimes these rules were created to screw students out of more money, and it does not seem fair.

Ryan A. Mohr  
UI junior

## Aping corporate models at the UI

As DEO of a unit in the CLA, I get a lot of junk mail. Perhaps I should translate: My readers probably know the abbreviation for the College of Liberal Arts, and what junkmail is, but may not realize that, some years back — around the time Wal-Mart started calling its salespeople "Associates," the CLA upgraded its department chairmen and women to "Departmental Executive Officers" (DEOs) and started calling academic departments "units."

Anyhow, a recent bit of e-flotsam was an invitation from the "associate vice president of finance and university services and director of human resources" to attend a three-hour "motivational seminar" given by Michele Hunt, "author of the best-selling book, *Dream Makers*." The seminar is titled "Visioning the Future at the University of Iowa" and is said to "draw on our new strategic plan, *New Century Iowa: Bridges to the Next Horizon*."

It will, according to the message, "explore how the power of shared values and a compelling vision can mobilize people to collectively achieve extraordinary results."

### GUEST OPINION

PHILIP LUTGENDORF

Hunt's clients include Mobil Oil, Hewlett-Packard, Motorola, and Harvard University. The seminar, to be held during working hours, costs \$79. What's wrong with this picture?

In the corporate world, motivational seminars are an accepted ritual, and through a trickle-down effect, they have infiltrated all sorts of organizations — from civic and religious groups to summer camps and Girl Scout troops. Corporate managers, it seems, need to be periodically pumped-up with the conviction that they have "shared values and a compelling vision." Perhaps this is because their companies' "values" frequently boil down to an obvious "bottom line," and they often demonstrate that they do not truly value the people who work for them — e.g., when they are "downsized" to increase shareholder profits.

Workers respond in kind, by showing little loyalty to employers. Moreover, studies inform us that the majority of Americans do not like their jobs. This being so, one can see the potential market for Hunt. But corporate managers — the CEOs we dimly ape — command enormous incomes, prestige and power in our culture. They are our elite, and imitation, besides being the sincerest form of flattery, is also a kind of wishful thinking.

But now consider a research university. Here, the driving principle is not monetary profit, but "the acquisition, preservation and dissemination of knowledge." Unlike corporate managers, university faculty and researchers are generally highly motivated, and surprisingly, their zest for what they do is not always proportional to the financial reward they receive for their labor. They are driven by a passion for their fields of inquiry and by the love of sharing this passion with others.

Without motivational prodding, they actually enjoy spending their days (and sometimes nights, too) finding better ways to communicate things — such as the wisdom of an ancient poet, or the elegance and mystery of a genetic code, linguistic structure or algebraic equation. Maintaining a large and diverse "gene-pool" of such persons is an expensive proposition, of course, and in a society oriented toward bottom-line thinking, it is an enterprise that is often assailed, despite its continuing prestige value.

Universities consume large amounts of material resources and generate airy or even risky things such as knowledge, self-confidence ... and self-doubt. How to defend this to an audience (for state universities) taxpayers, legislators and regents — the latter themselves often politically appointed corporate CEOs?

Increasingly of late, this is done by trying to make the university look and feel more like a corporation. Apart from the newspeak labels noted earlier, chairmen/women and faculty members are increasingly asked to spend their time generating reports, assessments, "vision" and "mission statements" and "strategic plans."

The vision and mission statement assignments, however, suggest that we do not know what we are doing — this despite the fact that most of us are held to be good at it and also hold Ph.D.s from reputable institutions qualifying us to do it.

The vacuity and frustration of these exercises — which by their very nature cannot reflect what most of us really do here — is only enhanced by the threat behind them: that future "distribution of resources" will depend on the rhetoric we generate now.

The irony is that this corporate trickle-down busywork in fact eats up a significant amount of the faculty's time, impinging on the research (most of us will not neglect our teaching) that we love to do and should be doing, and that would ultimately — through a long-term trickle-up effect — enhance the prestige of the university and attract to it better students and colleagues.

And the bottom line is: That ain't cost-effective.

Philip Lutgendorf is an associate professor of Hindi and "DEO," Department of Asian Languages and Literature.

## On the SPOT

### Do you think intolerance and hate crimes are problems in Iowa City?

"It's a problem everyone has to deal with."

Steph Dempsey  
UI senior

"Because Iowa City is an academic environment, people are more educated to look beyond race; they focus on more important issues."

Sharan Ramaswamy  
UI graduate student

"I don't see it as a problem, but I think it's something that needs to be addressed. I think people are pretty tolerant in Iowa City."

Brad Cavanagh  
UI senior

"I have experienced it more in Cedar Rapids than in Iowa City. I think Iowa City people are pretty diverse and open-minded."

Pic Sayasenh

# Tipper Gore talks of health and dignity

**■ Gore, whose husband is running for president, discusses health-care issues with selected area women.**

By Steve Schmadeke  
The Daily Iowan

In a Gore 2000 campaign stop in Iowa City Monday, Tipper Gore met with selected influential women and spoke about her husband's health-care plan.

Gore visited the Pappajohn Business Building and the Java House, 211 1/2 E. Washington St., where she answered questions about health care and pitched her husband's multibillion-dollar plan. His plan, she said, would use the budget surplus to cover all children by the year 2005 and to "widen the circle of dignity" to provide prescription drugs to all who need them.

Gore was asked why voters should prefer her husband's plan over Bill Bradley's plan.

She said her husband's plan was more fiscally responsible before turning the question over to Elaine Baxter, the former Iowa secretary of State.

"He is the only candidate making a responsible proposal that doesn't break the budget," Baxter said.

Later, Gore made references to her husband's competition.

"Politicians promise everyone, 'I'll give you this and I'll give you that,'" she said. "But we need to be fiscally responsible. This is serious business."

While responding to concerns raised at the meetings, Gore also tried to encourage area women in their leadership roles.

"Thanks a lot for working on all these issues," she said to Adrienne Wing, a UI law professor who is interested in unpaid maternity leave, among other issues.

Wing, one of approximately 20 women invited to the discussion, said the lack of paid maternity leave at the UI creates situations in which "a broken arm is treated the same as having a baby."

Gore agreed with Wing's suggestion of an eight-week paid maternity leave and added that her husband wants to raise the minimum wage to make it easier for families to sup-

port themselves.

Minutes after the meeting at Pappajohn, with a cup of decaffeinated coffee balanced on her knee at the Java House, Gore announced for the second time Monday that a conference committee had just appropriated \$67 million for community mental-health grants. She received, for the second time, a mix of "oohs" and applause.

The informal coffeehouse setting provided a forum for eight undecided Democrats to ask questions about farm issues and pro-choice concerns.

"I thought she presented herself very well," said Beverly Jones, the Johnson County Democrats treasurer, in attendance at the coffeehouse session. "I'm leaning toward Al Gore."

UI reporter Steve Schmadeke can be reached at: steven-schmadeke@uiowa.edu

Matt Holst/The Daily Iowan  
Tipper Gore discusses issues Monday afternoon at the Java House as her chief of staff, Audrey Haynes, looks on.

LEGAL MATTERS

POLICE

**Lucas P. Kreh**, 28, 2521 Mayfield St., was charged with operating while intoxicated at the intersection of Riverside Drive and Burlington Street on Nov. 15 at 1:39 a.m.

**Demonica Eston**, 28, 308 Melrose Court, was charged with fraudulent practices — use of credit cards at various locations in Iowa City on charges beginning on Oct. 4.

**Mark G. Thomas**, 44, address unknown, was charged with public intoxication and fifth-degree theft on the Pedestrian Mall on charges from July 26 at 2:20 p.m.

**Joshua W. Baxley**, 21, O'Fallon, Ill., was charged with public urination at 100 E. College St. on Nov. 14 at 1:45 a.m.

**Michael M. Deming**, 24, 650 S. Johnson St. Apt. 4, was charged with possession of a schedule I controlled substance at 650 S. Johnson St. Apt. 4 on Nov. 14 at 4 a.m.

PUBLIC SAFETY

**Justin A. Oaks**, 16, West Branch, was charged with failing to obey a traffic-control device at the intersection of Burlington and Madison streets on Nov. 12 at 10:20 p.m.

**Jeffery A. Miller**, 23, Coralville, was charged with driving the wrong way on a two-way highway and operating while intoxicated at the intersection of Dubuque and Brown streets on Nov. 13 at 1 a.m.

**Pauline A. Crist**, 21, Coralville, was charged with giving false reports at the UI Art Building on Nov. 13 at 1:39 a.m.

**Edward Rozell III**, 23, Chicago, was charged with public intoxication at Stanley Residence Hall on Nov. 13 at 4:40 a.m.

**Dinul-Islam N. Muhammad**, 21, 2654 Roberts Road Apt. 1C, was charged with theft by deception at Lot 13N on Nov. 13 at 11:47 a.m.

**Nick C. Moudry**, 21, 326 N. Johnson St., was charged with failure to obey a traffic-control device at the intersection of Park Road and Hancher access on Nov. 13 at 7:12 p.m.

**Shawn W. Greve**, 25, Fishers, Ind., was charged with operating while intoxicated at the intersection of Highway 6 and Valley Ave. on Nov. 14 at 1:39 a.m.

**Nathaniel B. Beal**, 20, Rock Island, Ill., was charged with operating while intoxicated and possession of a schedule I controlled substance at the intersection of Grand Avenue and Riverside Drive on Nov. 14 at 3:00 a.m.

**Scott M. Durkin**, 21, Barrington, Ill., was charged with possession of a schedule I controlled substance at Lot 12 on Nov. 15 at 1:41 a.m.

— compiled by Gil Levy

COURTS

Magistrate

**Public intoxication** — Charles D. Amburn, Winfield, Iowa, was fined \$155; Jordan T. Driscoll, Cedar Rapids, was fined \$155; Tony M. Eckrich, Riverside, was fined \$155; Heather K. Elwood, 613 S. Dubuque St. Apt. 10, was fined \$155; Brandy S. Goodman, Cedar Rapids, was fined \$155; Brett D. Grego, Liberty, Mo., was fined \$155; Matthew J. McEnany, Cedar Rapids, was fined \$155; Juan C. Rios, Melrose Park, Ill., was fined \$155; Edward Rozell III, Chicago, was fined \$155; Joshua T. Rubner, Cedar Rapids, was fined \$155; Christopher L. Smith, Charles City, Iowa, was fined \$155; Laurretta T. Stringer, 813 Third Ave., was fined \$155; Samuel J. Winberg, 2135 Broadway, was fined \$155; Virginia M. Wisnan, Wonderlake, Ill., was fined \$155.

**Indecent conduct** — Terrel K. Chang, Omaha, Neb., was fined \$90.

**False reports** — Pauline A. Crist, Coralville, was fined \$155; Jay M. Smith, Toddville, Iowa, was fined \$155.

**Obstructing officers** — Anthony J. Germano, Blue Springs, Mo., was fined \$155; Samuel J. Winberg, 2135 Broadway, was fined \$155.

**Interference with official acts** — Brett D. Grego, Liberty, Mo., was fined \$350.

**Disorderly conduct** — Brett D. Grego, Liberty, Mo., was fined \$155; Juan C. Rios, Melrose Park, Ill., was fined \$155.

**Theft, fifth degree** — Robert E. Hartley, Coralville, was fined \$90.

**Criminal trespass** — Larry Hartsell, 424 S. Johnson St., was fined \$155.

District

**Possession of controlled substance** — Linda A. Veasey, Rock Island, Ill., preliminary hearing has been set for Nov. 24 at 2 p.m.; Michael R. Brodie, 202 Finkbine Lane Apt. 3, preliminary hearing has been set for Dec. 6 at 2 p.m.;

**NATION BRIEF**

**Athletes videotaped rape, police say**

TIFFIN, Ohio (AP) — A football player and a wrestler at Heidelberg College were arrested and expelled from school after being accused of videotaping themselves raping an unconscious woman and then showing the tape to other students. "They were proud of it," said Sarah Smith, an 18-year-old freshman from Canton. "I talked to someone who's seen it. They asked them if they wanted to watch it." Students who saw the videotape went to school officials, who then called police. Nicholas Klingler, 19, of

Circleville, and Nelson Pixler, 18, of Defiance, were charged on Nov. 12 with three counts of rape and released on \$60,000 bond each. The alleged attack happened late on Nov. 10 and into the morning of Nov. 11, detective Ron Green said. The videotape was found in a police search later that day, he said. The victim, an 18-year-old Bowling Green State University student, was visiting friends on campus and didn't know the two men, police said. She told police that she had been drinking at a dorm party and went into a friend's room to sleep. "She doesn't remember anything," police Lt. Michelle Craig said Monday.

The victim told police that she did not consent to any sexual activity. Police said they were investigating whether any others were involved or knew about the alleged rape, but would not discuss any other details. "This is a very tightly knit community," said school spokesman Jamie Abel. "Everybody feels somewhat violated." Heidelberg is a private liberal arts school with 1,700 students in a largely rural part of Ohio 80 miles north of Columbus. Klingler, a freshman linebacker, and Pixler, a freshman wrestler, are barred from campus unless escorted, Abel said.

**UISG to help out rape-victim support program**

**RVAP**

*Continued from Page 1*

Current funding for the program comes from the Iowa Victims of Crime Act, which suffered a 25 percent cut in funds this year because of a decrease in criminal fines and penalties paid to the government. As a result, programs such as the

rape-victim service were funded for only nine months, instead of for 12. The availability of supplemental funds has increased for all student groups this year. Zak said UISG will use as much money as possible from supplemental funds. There have been five sexual assaults reported at the UI this fall; 11 assaults were reported in the

1998-99 school year. Karrel said the number of assaults doesn't surprise the program's staff. The program is vital to the UI in providing a crisis line and support, free of charge, for students who might not be able to afford other medical services, she said. *DI reporter Corrie Dosh can be reached at: cldosh@aol.com*

**Library's future down to 2 options**

**LIBRARY**

*Continued from Page 1*

lion — for library materials during construction, Huberty said. The city can sell the property on which the current library is located for an estimated \$2 million, reducing the cost of the project to \$12.3 million, he said. The second option — remodeling the current building and purchasing the space to the west for expansion

— is designed to include a 20,000-square-foot commercial space, Huberty said. Remodeling the building would force the library to make multiple moves during construction, but the parking lot to the south could continue to be used for library parking, he said. "I think option two is the best option," said Councilor Mike O'Donnell. "I think it enhances all our questions."

Other options that the council and board eliminated included expanding to the south and closing off the Pedestrian Mall, adding a third floor with trusses to support the building and demolishing the current building and rebuilding on the site, Huberty said. One of the two library expansion options will be chosen by January and put on a referendum to be voted on by the public. *DI reporter Heather Pavnica can be reached at: heather-pavnica@uiowa.edu*

**Bacterial meningitis not a shot in the dark**

**MENINGITIS**

make everyone get the vaccine?" she said. "It should be required, like the measles immunizations." The UI requires that each student receive two measles vaccine shots before he or she completes her or his first year of school. A meningitis immunization is not required at most universities, including the UI, because of the low rate of infection,

Affi said. According to Student Health records, there were two cases of bacterial meningitis on campus last year. There have been no reported cases this year. Student Health does offer the immunization service; the vaccine doesn't cover all varieties of meningitis, but it is effective against the bacterial strain, Affi said. "We have been getting quite a few of them," she said, referring to students scheduling appointments to

receive meningitis immunizations. The cost for the shot is \$67, Affi said, and most insurance plans do not cover vaccinations. The vaccine is considered to be safe and protects 90 percent of those who receive it. The bacteria that causes meningitis is spread by droplets in the air from coughing or sneezing; the disease can also be spread by sharing cups, toothbrushes, eating utensils or by kissing. *DI reporter Carrie Johnston can be reached at: eirrac12@aol.com*

## Gettin' big, bold and brassy

■ The 31st Annual Band Extravaganza features three ensembles and a vast selection of tunes.

By Deanna Thomann  
 The Daily Iowan

Robust rhythms, swingin' melodies and symphonic phrases will fill Hancher Auditorium today and Wednesday at 7:30 p.m. during the 31st annual Band Extravaganza.

The extravaganza, one of the UI School of Music's most popular events, features three ensembles: the Hawkeye Marching Band, under the direction of Kevin Kastens; the Johnson County Landmark jazz band, directed by John Rapson; and the Symphony Band, conducted by Myron Welch.

Michael Strabala, a UI sophomore and saxophone player for the Hawkeye Marching Band, says the extravaganza provides an informal outlet for the musicians involved.

"We can just sit back and relax, and the audience can listen to our music, and the sound isn't filtered as it is on a football field," he said. "It's an informal, fun performance."

The Hawkeye Marching Band will play selections from its 1999 football season half-time shows, including the traditional UI songs "On Iowa" and the "Iowa Fight Song." The

The program should be inspirational. The students will hear works performed at a high level ...

— Gordon Dyer,  
 instructor of Highland bands

band will also entertain audiences with a drum-line performance and traditional band skits.

The Johnson County Landmark jazz band will perform a variety of pieces, including "Tulip Jive Dance" by Rapson, "Pootin' It," "Black, Brown and Beautiful" and "Fast Circle."

The pieces Rapson chose for this year's extravaganza run the gamut of jazz.

"Our program is geared to show off fun things," he said. "I deliberately chose pieces that are very different from one another. Some are traditional, others are more contemporary ... We're anxious to put on a show that displays our wares and is also attractive."

Like Rapson, Welch has put together a program of diverse works, including "Commando March," "Mars" and "Symphonic Metamorphosis."

"The symphony will be playing various works that will appeal to the many people attending the concert," Welch said. "This is a special audience made up of those from school age to adults, and I kept this diverse audience in mind when

choosing the music."

Many Eastern Iowa high school bands and ensembles attend the extravaganza each year to hear quality works at the college level. The Highland High School band of Riverside will attend tonight's concert.

"The program should be inspirational," said Gordon Dyer, instructor of Highland bands. "The students will hear works performed at a high level, which will give them a chance to see where their talents might take them."

Strabala hopes that high school students find the fun within the extravaganza.

"Hopefully, they'll realize that band can be fun ... and that the groups they see want to be there on stage, performing and having fun," he said. "We'll give them a taste of what we do and hopefully recruit some students as well."

Tickets for the Band Extravaganza are \$4 and can be purchased at the Hancher Box Office. For further information, call 335-1160.

### ARTS BRIEFS

#### Caught up in the act

NEW YORK (AP) — Andy Kaufman died in 1984, but the actor many considered a comedic genius spent more time on the set of an upcoming movie about his life than the film's star, Jim Carrey.

Carrey

Kaufman, DeVito's friend and co-star from "Taxi."

Carrey was so caught up in the role of the habitually wacky Kaufman that he rarely showed up for work out of character, DeVito told the *Daily News*.

One morning "Andy" arrived driving an ice cream truck.

"He would give you ice cream," DeVito said, "but you couldn't get your ice cream till you sang him a song."

#### Porn reunites brothers

NEW YORK (AP) — Real-life siblings Charlie Sheen and Emilio Estevez will play porn-making brothers in their first movie together in six years.

Showtime's *Rated X* casts Sheen and Estevez as Artie and Jim Mitchell, the brothers who established the pornography industry in San Francisco. Jim Mitchell was eventually convicted in 1992 of fatally shooting his brother and sentenced to six years in prison.

According to Sheen, the Mitchells should not be considered just makers of sleaze.

"They were pioneers of a counterculture business," he told *TV Guide* in its Nov. 20 issue.

## EgyptAir probe may shift to FBI

■ There is a possibility that a criminal act brought down the plane, some officials are hinting.

By Glen Johnson  
 Associated Press

WASHINGTON — The chairman of the National Transportation Safety Board questioned Monday whether his agency would continue leading the investigation of the crash of EgyptAir Flight 990, raising the specter that the plane was downed by a criminal act.

Jim Hall also met with FBI Director Louis J. Freeh to discuss having the law-enforcement agency take over the investigation after the plane's cockpit voice recorder taped one of the crew members making a questionable statement.

A federal law-enforcement official told the Associated Press that the question of whether to open a criminal investigation was raised because "one view is that a crew member is heard on the cockpit tape to say something religious in nature."

The official, who spoke on the condition of anonymity, added: "There is no desire for the FBI to rush into this." The decision after Monday's meeting between Hall and Freeh was to wait and see what else can be drawn from the tape recording.

CBS News reported, meanwhile, that the system recorded what sounded like the cockpit door opening and a voice saying something to the effect of "what's going on?"

Hall told a news conference he was confident the jetliner's advanced flight-data recorder would

provide information needed to resolve questions about the Oct. 31 crash, which killed all 217 aboard.

Hall said work on the plane's other "black box," the cockpit voice recorder, was being slowed because of the need to translate the recorded conversations to English from the pilots' native Arabic.

He acknowledged that there have been "many rumors, theories and stories" circulating about whether the crash was caused by mechanical failure or a criminal act such as a hijacking, crew fight or pilot suicide.

That prompted him to say: "We are concentrating our efforts on determining from the evidence, including the cockpit voice recorder, whether or not this investigation is to remain under the leadership of the National Transportation Safety Board."

The board's charter says that it will be the primary investigative authority for transportation accidents until there is evidence of a crime.

Safety board spokesman Ted Lopatkiewicz said the only time in recent memory the board transferred oversight to the FBI under similar circumstances was in 1987, when a Pacific Southwest Airlines plane crashed north of Los Angeles.

The FBI and the board later concluded that a disgruntled worker shot the crew members, causing the plane to crash and kill all 43 aboard.

Besides Hall's statements at the

news conference, there were other signs the probe may turn into a criminal investigation:

• Hall pledged over the weekend that the cockpit voice tape would be reviewed Monday by a group that included Boeing, which made the 767 that crashed, and Pratt & Whitney, which made the plane's engines.

That meeting was canceled, a government official close to the investigation told AP, and a smaller group primarily including safety board officials and FBI agents reviewed the tape instead.

• Hall's meeting with Freeh and other officials to discuss whether there was enough evidence to open a criminal investigation, said an official who requested anonymity.

"Not everyone agrees over what to make of some things on the (cockpit) tape," the official said.

The EgyptAir Boeing 767 crashed into the Atlantic early Halloween morning approximately 40 minutes after takeoff from New York. It was heading to Cairo from Los Angeles after an intermediate stop at Kennedy International Airport.

Speculation about a possible hijacking, crew fight or pilot suicide lingers because the flight data recorder shows that the plane was cruising normally at 33,000 feet until its autopilot was turned off, its nose was pointed sharply down, its throttles were cut back, and its engines then shut off.

### NATION BRIEF

#### U.S., China reach major trade deal

WASHINGTON — The United States and China reached a major trade agreement Monday that offers the prospect of billions of dollars in increased overseas sales for American manufacturers, farmers and high-tech industries. But labor unions said they would fight the deal in Congress as a job-killer.

After being criticized by business leaders for walking away from an April trade agreement with China, President Clinton moved in recent weeks to restart the stalled talks through personal phone calls to Chinese President Jiang Zemin, who gave the go-ahead a week ago for Clinton to send a high-level bargaining team to Beijing.

"This is a good agreement for China, for America and for the world," an elated Clinton told reporters at a news conference in Ankara, Turkey.

Major business groups, including the U.S. Chamber of Commerce and the Business Roundtable, joined him in praising the agreement and pledged to work for congressional approval.

But the package was denounced by labor unions, the U.S. textile industry and others who face intense competition from lower-priced Chinese imports.

**Best teams discontented in the NFL**

■ Even the teams with the NFL's best records are struggling offensively.

By Dave Goldberg  
Associated Press

This is how bizarre this NFL season has become.

The coaches of the teams that entered the weekend with the league's best records — Jacksonville and Miami — both came out of it fuming because their offenses were awful.

Welcome to reality, 1999 style, when a touchdown is often an endangered species.

"It's nice to have the best record in the league, but it's unfortunate offensively we have to go through this up-and-down business," Tom Coughlin said after his Jaguars (8-1) beat Baltimore 6-3. "You have to have offense."

That was mild compared to Jimmy Johnson, whose Dolphins went into Buffalo 7-1 after a debate in South Florida over whether the injured Dan Marino should get his job back from Damon Huard, who was 3-0 as a starter and also won a game in relief.

After the Bills won 23-3, holding the Miami offense to just 101 yards, Jimmy went ballistic.

"We had a lot of things going, talking about how good we were and quarterback controversies and everything in the world except talk about our opponent — an opponent that beat us pretty good before," he said.

The Dolphins actually are part of the problem in what has become the most bizarre season since the AFL-NFL merger in

Alex Horvath/Associated Press

Miami Dolphins head coach Jimmy Johnson argues with head linesman Terry Gierke, middle, and side judge Doug Toole, right, during a game against Buffalo Sunday, 1970.

Though they remain tied for first in the NFL's toughest division, they've been playing a prevent offense since Marino went out. Huard was told to take sacks, not risk interceptions and let the defense do the work. The same is true of other teams — the Giants, Steelers, Ravens and Chargers to name two contenders and two noncontenders.

But even the best defenses have off days, as the Dolphins did Sunday.

Moreover, Johnson lost Cecil Collins, his starting running back, with a broken leg. That just about leaves him bare at a position that was too deep until he cut Tyrone Wheatley and traded John Avery and Karim Abdul-Jabbar.

Coughlin's worries are about the playoffs.

Playing in a division that

includes the Browns, Bengals and Ravens, the Jaguars could lock up home field in the AFC without playing well. But then they have to start playing the likes of the Dolphins, Bills, Seahawks, Colts and Patriots.

Here's the operative stat: Running back Fred Taylor, who reinjured his hamstring early in Sunday's game, has played only three complete games this year. Jacksonville has averaged 37 points in them, 16 points in the others.

The deceptive stat may be 79 points allowed in nine games against some of the league's worst offenses. Would the Jaguars hold Indianapolis or New England to 9 points a game?

So Coughlin worries. "I am frustrated. I am disappointed," he says. "I'm embarrassed, to be honest."

Penn shies away from topping his '98 prediction

■ Last year Scoonie Penn said Ohio State would make the Tournament. In 1999 he did not predict anything—especially a Final Four.

COLUMBUS, Ohio (AP) — More point guard than prophet, Scoonie Penn isn't willing to make any more bold predictions.

A year after saying that the Buckeyes — 8-22 the year before — would go to the NCAA tournament, Penn is taking a quieter tack this year.

"I feel we have to watch what we say," Penn said prior to a pre-season workout.

A year ago, coach Jim O'Brien heard what Penn said and rolled his eyes. This year, O'Brien spoke to Penn before Penn could speak to reporters.

"Of course, I heard it from coach O'Brien," Penn said through a grin. "When that comes up, I get his eyes looking at me, specifically, you know, saying, 'Watch what you say.'"

Penn is an on-court extension of O'Brien, a confident, low-profile competitor. He enters his senior year billed as a first-team All-American by The Associated Press, one of the two best players in the Big Ten and among the leading candidates for national player of the year.

"I think that Scoonie and Michael Redd think they're as good as anybody they're going to

Jay LaPrete/Associated Press

Ohio State's Scoonie Penn enters his senior year billed as a first-team All-American by The Associated Press, one of the two best players in the Big Ten and among the leading candidates for national player of the year.

play against," O'Brien said, "but they're not running around preaching it."

Penn said he and his teammates are humble. He's a pretty good player, he'll say.

"I feel I have nothing to have a big head about," Penn said. "I'm happy to see myself on the magazines and getting all the notoriety because I think I work hard and I think I deserve it. But then again I feel like I'm still hungry, and I'm not a person that's going to settle

for that and feel like, 'OK, I've accomplished what I wanted to accomplish, now I'm going to sit back and be comfortable.'

"It's good to be recognized, but I want more than that."

Penn and his coach are in their fifth season together — the first two came at Boston College — and O'Brien trusts his judgment.

"He knows how to handle himself," O'Brien said. "He's not going to be somebody that's going to let this get to his head."

Penn said it never has, not when he was scoring 30 points per game at Salem High School in Massachusetts, nor when he started as a freshman at Boston College, directed the team to the NCAA tournament and was voted rookie of the year in the Big East Conference.

"I was complimented a lot for my accomplishments growing up, but my family let me know that there's more to it than that," he said. "They told me it's going to take other people to help you out, it's not something you can do all by yourself."

Away from home, he has O'Brien and his teammates to keep him on an even keel.

"They don't treat me like I'm Mr. Wonderful," Penn said.

Behind the closed doors and windowless four walls of the practice gym, O'Brien can blister blue chips as well as Bob Knight ever has. And if Penn ever stoops to deliver some smack to a teammate, he can count on being backed down into the low post and made to feel smaller than he already is at 5 feet 10.

"He'll get carried away a little at times. It's natural," said Redd, who is 6-6. "I just post him up and we'll go at it. It brings him down to earth. He needs it at times. We all do."

A pitfall the fifth-ranked Buckeyes must try to avoid this season is being brought down to earth by other Big Ten

Younger runners given a chance to compete in 1999

CROSS COUNTRY

Continued from Page 14

the season by edging out Eastern Kentucky for the title of the twelve team competition.

Iowa ran all year without Reed Steele, last year's Big Ten Freshman of the Year. Steele took a redshirt year after coming into the season with soreness in his hip.

"It hurt not having Reed Steele this year," said coach Larry Wiecek. "It is fair to say we needed him and Trent Corey to get the job done."

Corey was an all-region selection during his freshman season in 1997 but was also not able to run this season due to injuries.

With all the injuries, Iowa had to rely on Bobby Atkins, a true freshman, to provide depth for the team. Atkins also had his best

meet of the year at the Loyola Invitational. The freshman placed ninth overall and third on the Iowa team.

Iowa will return a majority of its runners next year. The Hawkeyes will only lose two seniors off this year's squad—Tim Pleskac and Andy Morris.

The senior co-captains were among Iowa's top runners this year.

Morris, a standout track runner, finished the season with the best run of his career. He placed 32nd overall at the NCAA Regional meet running a time of 31:56 for the 10,000 meter race.

"It was a good feeling to see Morris run as well as he did," Wiecek said. "I believed he could step up like that."

strength when the Hawkeyes take the field on Friday.

After the incident, Toepel showed good sportsmanship by coming up to Carr and making sure she was okay before continuing the game.

"That stuff happens. We both went for the ball and she turned her body and hit me with her stick," Carr said. "It still hurts, but I think I will be fine."

With one weekend left in the season, Beglin has talked to her

team about what it takes to be a champion and is looking for the Hawkeyes to respond with a great performance on Friday.

"I think we have kept the people of the state of Iowa spoiled frankly with our past success," Beglin said. "Our two years out of the tournament were killer and you are not always going to win a national championship. But the pursuit in getting there makes a champion."

DI sportswriter Robert Yarborough can be reached at ryarboro@blue.weeg.uiowa.edu

Kansas State player sentenced for battery

MANHATTAN, Kan. (AP) — Kansas State defensive tackle Cliff Holloman has been ordered to serve two days in jail for domestic battery.

Holloman, 22, was arrested Oct. 31 following what witnesses said was a

fight with his girlfriend outside a Manhattan bar.

He pleaded no contest Nov. 9 in Manhattan Municipal Court and was sentenced to 30 days, but must serve only two days before he is given parole, court secretary Stacey Keller said Monday. He was also fined \$245.

Holloman is to begin the sentence Dec. 4, which is also the day of the

Huggins wants team to handle ranking better

BASKETBALL

Continued from Page 14

place votes and 1,605 points from the national media panel. Michigan State had one less first-place vote and 1,573 points. Auburn got eight first-place votes and finished 22 points behind Michigan State.

Ohio State had seven first-place votes and was followed by North Carolina, Temple, Florida, Connecticut, Stanford and Arizona.

Stanford, which won the Coaches vs. Cancer Classic with victories over Duke and Iowa, moved up four spots to No. 9.

Duke, off to an 0-2 start for the first time since 1958-59, dropped from No. 10 to No. 18, ending the longest current run of consecutive polls in the Top Ten at 43.

Connecticut, which lost to Iowa in its opener, has the longest current streak at 28 polls, starting in the middle of the 1997-98 season.

Iowa's upset to start its first season under coach Steve Alford moved it into the Top 25 at No. 21. The Hawkeyes were ranked for 14 weeks, get-

ting as high as No. 12, last season under coach Tom Davis.

The last time Cincinnati made it to No. 1, the campus was abuzz and the players were flattered. The Bearcats hadn't been atop the poll for 34 years.

Those heady days didn't last long. Cincinnati lost to crosstown rival Xavier on its home court in the second game of the season and never made it back to No. 1.

"I hope we're a little better prepared to handle it this time around," Huggins said. "I think we'll do a better job maybe of handling the things that come with it than we did the last time."

Fletcher was part of the last No. 1 team, which finished 26-8, failed to win the Conference USA tournament and lost in the second round of the NCAA tournament.

"It's just like in '96 when we were No. 1. It all comes down to producing in March," Fletcher said. "If you don't win in March, people really aren't going to care that you were preseason No. 1 or No. 1 sometime during the season."

POINT-COUNTERPOINT

Is Iowa as good as they showed against UConn

Beating the No. 1 team in the first game of the season does not mean that coach Steve Alford is a basketball savior

nor does it mean Iowa is worthy of being regarded as one of the most elite teams in the nation.

But the team that showed up in the season opener is capable of pulling off more wins like that. Next time, they won't come as such a shock to basketball fans around the country.

Jacob Jaacks answered his skeptics against Connecticut. He did not get into foul trouble and led the team in scoring against one of the most highly-regarded centers in the Big East.

Sure, he is only 6-foot-8 and that showed on Friday. But, with only a few exceptions, the Big Ten is not big up front this season.

Many teams cite lack of experienced height as their problem, just like Iowa. If Marcelo Gomes and Joe Fermino play consistently well, Iowa is capable of more big victories.

The strength of the conference this season is guard play and Iowa can roll with the best of them. Despite what Dick Vitale and Co. said, the reason Khalid El-Amin did not score much in the first half was because of Dean Oliver's defense.

On the wing, Rob Griffin showed the quick first step necessary to becoming a big-time player in the Big Ten. He did not choke under pressure and his athleticism more than accounted for any inexperience with the offensive systems.

Iowa is not yet an elite team, nor will they be this season. What the victory over UConn proved was that they can beat anyone in the country.

-Mike Kelly

SAID WHAT?

'There are no words to describe this. We're just not very good. We're letting some things snowball on us. We better stop it or it could get pretty embarrassing.'

-San Francisco defensive back Tim McDonald on how poorly his team has played this season.

HAWKEYEBUZZ

Iowa City kicker commits to Iowa

IOWA CITY, Iowa (AP) — Kicker Nate Kaeding of Iowa City West will play his college football at Iowa, and he sees a chance to help right away.

Iowa's kicker for most of the season, Tim Douglas, is a senior. He was replaced in the Hawkeyes' 41-3 loss at Wisconsin on Saturday by Greg McLaughlin, who made a 22-yard field goal but missed from 29 yards.

"No one has actually come out and told me that, but with Douglas leaving after the season, I'm hoping I can be in competition for the job," Kaeding said.

"I feel I can make big plays just like quarterback and tailbacks. The fact that some people are skeptical about coaches offering kickers scholarships is further motivation for me."

Iowa State also offered Kaeding a scholarship. He has not missed an extra point this season and is 10-of-18 on field goals, including a 50-yarder. His kickoffs have resulted in touchbacks 60 percent of the time.

SPORTSWATCH

IOC insists drug agency poses no conflict

SYDNEY, Australia (AP) — The International Olympic Committee insisted Monday that its new drug agency would operate independently and that the United States was misguided in fearing a conflict of interest.

Barry McCaffrey, the White House's chief drug adviser, contended the new World Anti-Doping Agency was too closely linked to the IOC. The agency is run by IOC vice president Dick Pound and is temporarily based in Lausanne, Switzerland, the headquarters of the IOC.

"It looks to us as though it will be dominated by the IOC," McCaffrey said on the opening day of an international "Drugs in Sports" summit. "That, to us, is unacceptable."

Lewis has everything but one title

LAS VEGAS — Lennox Lewis has everything an undisputed heavyweight champion could want — except one of his belts.

Eight months after boxing's most coveted prize slipped from him because of questionable scoring, Lewis got the benefit of some more favorable judging Saturday night to unify the heavyweight title for the first time in seven years.

That didn't stop the IBF from spoiling things a bit by withholding its belt in a dispute over payment of a \$300,000 sanctioning fee. But even that couldn't take away from a moment Lewis had been waiting more than a decade for.

"Now is a time to be happy. I'm the undisputed heavyweight champion of the world," Lewis said.

Bearcats new No. 1

Iowa jumps into the AP poll at No. 22 after their upset victory over former No. 1 UConn.

By Joe Kay Associated Press

CINCINNATI — The only team to beat No. 1 Duke in the regular season last year finds itself opening this season with a role reversal.

Cincinnati moved up to No. 1 in the The Associated Press college basketball poll Monday, taking advantage of upsets in an early tournament. Connecticut's season-opening loss dropped it to eighth and opened the way for the Bearcats to move up from No. 2.

It's the Bearcats' first time at No. 1 since a three-week run started with the 1996-97 preseason poll.

"It just adds pressure for us to perform every night," senior forward Ryan Fletcher said. "You know that whoever we're playing has a great opportunity like we did last year to knock off the No. 1 team in the nation."

The Bearcats stunned Duke 77-75 with a last-second basket in the Great Alaska Shootout last November, the high point of a season that ended with another second-round loss in the NCAA tournament.

"There was a chance for us to go in there and prove to everybody that we were a better team than what people thought we were," Fletcher said of the Duke game. "It made us the hunter rather than the hunted. I think we played better as the underdog."

They're underdogs no more. The question is whether their freshman-heavy backcourt is up to defending a top ranking. Cincinnati opens its season Saturday against Youngstown State.

"I don't know how good we are and I don't know how anybody else does, either," coach Bob Huggins said. "I think we're in the mix somewhere, but we may not be in that mix until later in the year. I don't know what's going to happen when the freshmen have to tee it up."

The Bearcats received 25 first-

Johnson becomes second to win Cy Young in both leagues

By Ronald Blum Associated Press

The Arizona star beat out Houston's Mike Hampton to win the award for the NL's best pitcher.

NEW YORK — Randy Johnson got a lot more support from Cy Young voters than he did from the Arizona Diamondbacks.

Looking past a won-lost record that wasn't nearly as good as Mike Hampton's, baseball writers made the Big Unit only the second pitcher to win a Cy Young Award in each league, giving his a large victory Monday in voting for the National League prize.

"I'd like to think this award isn't solely based on wins and losses," said Johnson, 17-9 with a 2.48 ERA. "There was a lot more to the season I had than wins and losses. Quite honestly, I feel still this was the best year I had in my career."

He received 20 first-place votes, 11 seconds and one third for 134 points in balloting by the Baseball Writers' Association of America.

Hampton, who went 22-4 for Houston and led the NL in wins, was second with 11 first-place votes, 17

seconds and four thirds for 110 points. Atlanta's Kevin Millwood was third with one first, four seconds and 18 thirds for 36 points.

"I don't think the voters could have gone wrong picking either of the three," Johnson said.

Looking past his record, Johnson was dominating.

The 6-foot-10 left-hander led the major leagues with 12 complete games and 364 strikeouts in 271 2-3 innings.

He was 19 short of the knockout record set by Nolan Ryan in 1973, winding up with the fourth-highest single-season total, and struck out 10 or more 23 times, matching the record Ryan set with the California Angels in 1973.

"The one thing that was the least in his control was the wins and losses," Diamondbacks manager Buck

Shawalter said. "Scoring runs and catching the baseball, that's the thing he couldn't control. Thank goodness people realized that."

Arizona scored just 11 runs in his nine losses, and he left four games with leads the bullpen failed to hold.

From June 25-July 10, Johnson had a stretch of four starts in which his team was shut out. He allowed just six runs during that stretch, but Arizona got only six hits — the Diamondbacks were no-hit by the Cardinals' Jose Jimenez, one-hit by Cincinnati, two-hit by St. Louis and three-hit by Oakland.

"I didn't dwell on it," Johnson said. "I never complained about anything because I realized it was part of the game and sometimes whatever goes around comes around."

Johnson had a 1.41 ERA in those games, but his record dropped from 9-3 to 9-7.

"Sometimes I've pitched extremely well and the opposing pitcher has pitched that much better," Johnson said. "I have respectable numbers outside the won-loss record."

Iowa ready, black eyes and all

Despite being banged up, Iowa coach Beth Beglin said her team has what it takes to win.

By Robert Yarborough The Daily Iowan

The Iowa field hockey team has exactly two more days to learn anything and everything about Maryland.

With NCAA tournament play continuing this Friday against the No. 1 seed Terps, the Hawkeyes are leaving Iowa City Wednesday with the intent of getting on the practice field at Northeastern University on Thursday, in preparation for the match.

Top-seed Maryland (22-1) showed some vulnerability in a 3-2 overtime win against No. 7 Old Dominion in College Park, Md. on Sunday to advance to the national semifinals. No. 4 Iowa will meet the Terps in the third round at 11:30 a.m. Friday in Boston, Mass.

"The coaches already have the tapes and I am sure now we can make a good game plan," senior Sarah Thorn said. "You can't really get too high after a win like this."

The Hawkeyes are still riding high after defeating No. 8 North Carolina this past weekend to advance to the finals, but have already started working on a strategy to upset Maryland. Iowa coach Beth Beglin believes that Maryland has proven itself as the No. 1 team in the country this year, yet she is quick to

add that the Hawkeyes have a dangerous weapon which could affect the outcome of the game — teamwork.

"Maryland is supposed to win this game and no one is really giving us a chance except ourselves," Beglin said. "They are a lot like we were in the past in that they have tremendous individual talent. But our team play has been a strength all year for us and so

we are hoping to turn the tables this time."

In the meantime, Iowa will also use the days off to heal some nagging injuries. Junior Natalie Dawson and sophomore Anita Miller have been battling leg injuries throughout the season. Ironically, one of the healthiest Hawkeyes this season has been Quan Nim who has not missed one single minute of any game

after battling back from two knee surgeries.

Sophomore Gina Carr also was dealt a heavy blow to her left eye on Sunday when North Carolina star Jana Toepel went for the ball and ended up whacking Carr in the face with her stick. After the game Carr sported a new shiner, but was fine and should be at full

Jaacks earns Big Ten honor

Iowa's Jacob Jaacks took home the honor after his stellar performance in the Coaches vs. Cancer Classic.

By Greg Wallace The Daily Iowan

Iowa center Jacob Jaacks was honored Monday as the Big Ten's Player of the Week after an impressive weekend in New York City.

Jaacks keyed an upset win over then-No. 1 UConn Thursday night, with 20 points and six rebounds. He held Huskie center Jake Voskuhl to no points and one rebound. The win avenged a 78-68 loss to UConn in last spring's NCAA tournament.

"We are a team of virtual nobodies," Jaacks said after Iowa beat the Huskies Thursday night. "They are a team of everybodies. This is big."

On Friday, the 6'8" Jaacks had 13 points and 7 rebounds against the taller Collins twins of Stanford. Iowa lost, but Jaacks was the only Hawkeye named to the IKON Coaches Vs. Cancer all-tournament team. Jaacks is averaging 16.5 points and 6.5 rebounds per game. His efforts have helped Iowa climb into the national AP rankings at No. 22.

Iowa is Jaacks' third college. The Cedar Rapids native previously attended the University of South Dakota and Marshalltown Community College before coming to Iowa.

DI sportswriter Greg Wallace can be reached at gwallace@blue.weeg.uiowa.edu.

Injuries, inconsistencies hinder Iowa cross country

Paul Nordheim led the Hawkeyes in four out of five meets this season.

By Troy Shoen The Daily Iowan

After a season filled with inconsistencies, the Iowa men's cross country team is hopeful of a return to the top next year after finishing this season on a strong note.

Despite the loss of several key runners from the NCAA Championship qualifying team of 1998, the Hawkeyes placed sixth at the NCAA Regional meet on Nov. 13 to end the season.

The Hawkeyes got strong performances at the regional meet from Nick Nordheim and Paul Sarris. The junior duo was named to the all-region team for the second year in a row.

The strong finish at the meet makes the runners optimistic about the future.

"We have to believe in our abilities again," Sarris said. "We had some

inconsistencies this year. But through it all, Nordheim remained really consistent."

Nordheim was Iowa's top runner in four of the five meets he ran in this year.

For Nordheim, the highlight of the season came at the Loyola Invitational in Chicago, Ill. He placed second overall among the team runners with a season best time of 24:46 for the 8,000 meter race.

Nordheim was able to lead former Olympic runner Paul McMullen for the majority of the race before getting passed by him at the end.

"Being able to run ahead of McMullen is something I will remember for a long time," Nordheim said. "It motivates me and gives me a lot of confidence in my abilities."

The meet gave Iowa its only win of
