Princess Di sleuths to use simulator

BY LAURA HOLMES

The most sophisticated driv­ ing simulator used by the University of Iowa’s Department of Criminal Justice is being deployed to determine how the late Princess Diana died.

"It’s said that Henri Paul, Princess Diana’s driver, had been over the limit when they crashed," says Jaime Krei, "even if he was under the limit the night Diana died."

Krei, who is director of the UI’s Oakdale TV and Production Center, is overseeing the driver’s simulator, which was refined by William "Bill" Meyer, a former National Transportation Safety Board investigator. The simulator is a laptop-based program that can be customized to match the circumstances surrounding Princess Diana’s death.

"We want to recreate the circumstances surrounding Diana’s death and test the reliability of our driver’s simulator," Krei says.

The simulator will be used to determine what Diana’s driver, Henri Paul, was doing in the moments before the crash that killed her and her companion, Dodi Fayed, as well as himself.

"It’s said that Henri Paul was under thelimit when they crashed, but it’s also possible that he was under the limit the night Diana died," Krei says.

The simulator will be used to determine how much of an effect the alcohol he had to drink had on his driving.

The documentary, which will be broadcast on September 3, will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premiere of "Diana: The Truth Behind the Scandal," a two-part, two-hour documentary on the life and death of the princess, which will be shown on the same night as the premier...
Feds to probe possible bias in DM schools

BY ANDREW WELLS-HUGGINS

COLUMBUS, Ohio — Jerry Springer, the host of a show who has been involved in a series of high-profile ethical issues, has hired an attorney to represent him in a legal challenge to a decision by the Department of Education.

Jerry Springer's attorney, Thomas F. Mullen, says the decision by the Department of Education to investigate the ethics of the show is "a complete waste of time." The Department of Education is investigating the show for alleged violations of the First Amendment.

The investigation was launched after the Department of Education received a complaint from a viewer who claimed that the show was biased against minorities.

Springer, who hosted the show for 10 years, said the Department of Education's investigation is "a complete waste of time." He added that he has hired Mullen to represent him in the case.

"The Department of Education has no right to investigate the show," Springer said. "I have hired an attorney to represent me in the case and I will fight this investigation to the bitter end."

Curtis and several postal workers who have been bitten.

"Dog bites are not the same as having a tooth extracted," said Curtis, adding that she has always tried to be patient when dealing with the dogs.

According to the U.S. Postal Service, dogs have bitten more than 380,000 postal workers since January. The most common types of bites are from dogs that are associated with their owners, such as those that are left out in the yard or on leashes, or those that are brought inside buildings.

"It's important to remember that not all dogs are dangerous," said Curtis, but added that it's important to be cautious around them.

Running & boogying for the Englert
BY DAVE STRACKNY
THE DAILY IOWAN

It was after 10, already late for the three-hour party that had been sold out, and Joe Minnella was talking across an empty tent to the crowd that had just been intoxicated to the point that the party organizer, Todd Parnell, had to turn on the house lights, then the partygoers could put on their own lights and enjoy the music.

"But that's one of the things about the Englert," Minnella said. "You have a lot of people that are just starting to go out and some that are just starting to go back."

The Englert,Minnella said, is the party's name, and the Englert, Minnella said, is the name of the entertainment that they create.

"THAT'S THE WAY IT WAS"

Love among the Scots in Kansas
BY DIANA RIFFMAN
THE DAILY IOWAN

It might take a real Scotsman or a real woman to appreciate the real Scotsman or the real woman in love with the real Scotsman or the real woman in love with the real Scotsman or the real woman in love with the real Scotsman or the real woman in love with the real Scotsman.

The life of Maclean Macrae is a life that, among other differences, reflects his native land, a land of long and lashed of a hard life, and a land of well-tended and beloved in the streets.

But it is not just any ordinary life. It is a life that he finds a way to use and a land of well-tended and beloved in the streets.

And Maclean Macrae is a man who is well-tended and beloved in the streets. He uses exactly the same words when he is speaking of women.

"When I had my father, who was a real Scotsman, and mother, who was a real woman, it was because I was prejudice and a native land, a land of well-tended and beloved in the streets.

And that was well-tended and beloved in the streets. He uses exactly the same words when he is speaking of women.

"And it was because I was prejudice and a native land, a land of well-tended and beloved in the streets.

And that was well-tended and beloved in the streets. He uses exactly the same words when he is speaking of women.

"And it was because I was prejudice and a native land, a land of well-tended and beloved in the streets.

And that was well-tended and beloved in the streets. He uses exactly the same words when he is speaking of women.

"And it was because I was prejudice and a native land, a land of well-tended and beloved in the streets.

And that was well-tended and beloved in the streets. He uses exactly the same words when he is speaking of women.

quote of the day

I don't have a brother; I've discovered that he's a motorcycle.

— Mario Petracchi, the sister of cyclist Alejandro Petracchi, who on Thursday was hit by three slugs during the Tour de France.

horoscopes

FRIDAY, JULY 13, 2003

AQUARIUS (Jan. 20-Feb. 18) : You've got what you bargained for. Prepare to put in your work and to the point. You can show others what you are capable of doing. Plant the seed for future opportunities.

PISCES (Feb. 19-March 20) : You take on more than what you bargained for. Prepare to put in long hours. You will reap the rewards but consider the personal cost.

ARIES (March 21-April 19) : You've got the intellect and common sense to take it in your stride. You can make your mark with a steady and strong will.

TAURUS (April 20-May 20) : Work-related events will turn to the most interesting. Your excellent memory style will be ready with your beauty and common sense will play a role in getting you what you want.

GEMINI (May 21-June 21) : You'll be able to consider following through with a project that will head in the right direction. The results of a self-improvement project will have an effect on your life. You'll be in a position at home if you haven't been taking care of your responsibilities. Finish Jobs that may have an effect on your life.

CANCER (June 22-July 22) : Problems with a loved one may occur at home and common sense will play a role in getting you what you want. You can make your mark with a steady and strong will.

LEO (July 23-Aug. 22) : You've got what you bargained for. Prepare to put in your work and to the point. You can show others what you are capable of doing. Plant the seed for future opportunities.

VIRGO (Aug. 23-Sept. 22) : Your excitement will mount if you follow new plans and gain new information. Try to get everyone to participate if you won't lose sight of what it is you are trying to do.

LIBRA (Sept. 23-Oct. 22) : You are the type of business associate who will develop if you don't communicate clearly. Work around you may result in the highest hit and to the point.

SCORPIO (Oct. 23-Nov. 21) : Your impact will shine through organizational functions, and the reaction you get will be better than what others will have the emotion to take.

SAGITTARIUS (Nov. 22-Dec. 21) : Your excitement will mount if you follow new plans and gain new information. Try to get everyone to participate if you won't lose sight of what it is you are trying to do.

CAPRICORN (Dec. 22-Jan. 19) : Problems with a loved one may occur at home and common sense will play a role in getting you what you want.
Cubs can't hold off Braves

CHICAGO (AP) — Vinny Castilla homered and drove in four runs as the Atlanta Braves beat the Chicago Cubs, 13-2, extending their winning streak to six games.

The Cubs were held to four hits and didn't get a hit after the second inning. Following a 2-1, 10-inning victory Wednesday night, the Cubs managed just two hits in Thursday night's game.

"I'm not sure we have a good team," said Cubs manager Don Strange. "We don't have good runners. We don't have good batters. And we don't have good pitchers.

"It's just a bad team," Strange said. "We don't have enough good players to overcome the bad ones."

The Cubs' only run came on a home run by Adam Dunn in the second inning. Dunn's home run gave the Cubs a 1-0 lead.

The Braves' victory was their ninth in a row and their 10th in 12 games. The Cubs have lost six in a row.

"We're just not playing good baseball," Strange said. "We're not hitting the ball well. We're not fielding well. And we're not pitching well.

"We're just not doing anything right," he said. "We're just not playing good baseball."

The Cubs' only run came on a home run by Adam Dunn in the second inning. Dunn's home run gave the Cubs a 1-0 lead.

Armstrong still second

BY JOHN LIESECKER
ASSOCIATED PRESS

NEW YORK — Lance Armstrong's team has been holding its breath in recent days.

But while the four-time champion is in good shape, according to Floyd Landis, the team president, he is not about to start popping pills or worrying too much about winning.

The team remained in second place overall behind teammate Victor Hugo Pratt, who is now tops in the standings.

Armstrong, however, is still behind teammate Jan Ullrich. U.S. Postal Service goalkeeper

race leader today," Landis said. "We did not have to push him hard or do too much work.

The team routed its rivals in time trials yesterday, when squads raced against the clock. The win, the team's first in the event, put Armstrong 29 minutes ahead of the last, the 1997 winner, and just three minutes ahead of Gianni Bugno, winner of the past three years. Armstrong is strong in the mountains, but so are Armstrong's teammates, and the overall shape," Landis said. "Armstrong will have trouble putting those first four minutes in a span of one day.

Armstrong's team finished 3rd, 4th, and 5th, respectively.

"We're in good shape," Landis said. "Our next strategy is to keep Lance out of trouble, and to win the next race and the overall race.

Armstrong was sandwiched between teammates Floyd Landis and Paolo Savoldi (846) in the 134.9-mile ride to Syracuse, N.Y., for the second stage. The race was over 100 miles.

Armstrong was asked if he was planning to win the race today.

"Nah," Landis said. "We're going to win the overall race."

The team routed its rivals in time trials yesterday, when squads raced against the clock. Worley leads Gatenes to tight Prime Time win

In a tight battle between Mike Gatenes’ Los Angeles Lakers and Scott Worley’s Milwaukee Bucks, Gatenes emerged victorious with a score of 93-91. Worley, who had a strong game with 24 points, was unable to overcome Gatenes’ balanced attack. Gatenes’ team was able to defend Worley’s shots and prevent him from scoring effectively.

Worley did manage to score 12 points in the first half, but Gatenes responded with 18 points in the second half, paving the way for his team’s victory. Despite Worley’s efforts, he was unable to guide his team to a win.

The game was closely contested throughout, with both teams displaying impressive performances. However, Gatenes’ team’s defense was the key factor in securing the win. Worley’s team will need to refine their defensive strategies to compete against Gatenes in future games.

In other news, Payton, a free agent, has reportedly agreed to a deal with the Lakers. Payton, a nine-time All-Star, is expected to bring new energy and experience to the Lakers.

DeWitz ready to help out Iowa

By JASON BRUNKMUND

Basketball programs across the nation are in need of talented players with improvements to make. According to the Iowa Daily Iowan, the Hawkeyes are no exception, as they seek to improve their team for upcoming games.

In an open letter, Iowa basketball coach Fran McCaffery speaks to incoming players, expressing his excitement for their potential contributions to the team. He emphasizes the value of hard work, dedication, and a passion for the game. McCaffery encourages incoming players to bring their best to every practice and game, as the team is looking to build on past successes.

The coach also highlights the unique experiences that come with playing college basketball, such as traveling to different cities and playing in front of large audiences. He challenges players to embrace the opportunities and responsibilities that come with being an athlete.

In addition to the letter, McCaffery and his staff are working to create a positive and supportive environment for all players. They prioritize communication, both on and off the court, and strive to foster a culture of respect and collaboration.

Players who choose to join the Hawkeyes will have the chance to participate in a team that values hard work, dedication, and a commitment to excellence. McCaffery and his staff are excited to welcome new players to the team and to see what the future holds.

**DIAMOND FROM THE DESERT**

DeWitz shines in his first season with the Iowa Hawkeyes.

**SHIFT SHAKES AND SHUFFLES**

DeWitz's first season with the Iowa Hawkeyes was marked by impressive performances. Despite facing challenges during the Atlantic Coast Conference (ACC) season, DeWitz quickly adapted and made a significant impact on the team.

The Hawkeyes' defense, led by DeWitz, strengthened their performance against top-ranked teams. His defensive skills and ability to disrupt opponents' offensive plays were pivotal in securing crucial victories.

DeWitz's offensive contributions were also notable, as he consistently scored points and assisted his teammates. His ability to make quick decisions and execute plays effectively was a key factor in the team's overall success.

The Hawkeyes' season was marked by a series of thrilling moments, with DeWitz playing a significant role in each. His performance in the conference tournament, where he scored a career-high 31 points, was a highlight for both him and the team.

DeWitz's dedication to his craft and his willingness to learn and improve are evident in his consistent performances throughout the season. He has already established himself as an integral part of the Iowa Hawkeyes' lineup, and his contributions will continue to be a valuable asset for the team in future seasons.

**Point/counterpoint**

Should auto racing be considered a real sport?

I am of the opinion that auto racing should be considered a real sport. While the mechanics of the sport may be more focused on engine and tire maintenance, the physical and mental demands placed on the drivers are significant. The drivers are subjected to high levels of stress and pressure, as they constantly strive to achieve the best possible performance.

The sport requires a combination of skill, strategy, and resilience. Drivers must adapt to changing conditions, work with their teams to make adjustments, and push themselves to the limit. The level of skill and expertise required is comparable to that of other high-performance sports, such as football and basketball.

Auto racing also has a rich history and culture, with iconic events such as the Indianapolis 500 and the Monaco Grand Prix. It has produced many legendary drivers, each with their own unique style and approach to the sport.

In conclusion, I believe that auto racing should be considered a real sport. The physical demands, mental pressure, and competitive nature of the sport are comparable to those found in other high-performance sports. The sport's history and culture also contribute to its status as a real sport.
