Vote on sprinklers for Greeks delayed

BY SARAH FRANKLIN
THE CUB

The Iowa City Board of Appeals delayed a vote until early next year on
sponsoring a proposal requiring fraternity and sorority houses to install automatic fire sprinklers.

Jensen, who proposed the ordinance, told the board he had not had the chance to view the
fire sprinklers on his trip to Minneapolis for the National Panhellenic Conference.

King speaks to Bob Graham on Monday during an interview on "Larry King Live." Graham said on the show that he was ending his campaign for the Democratic nomination for president.

Day of decision arrives for council

PRIMARY draws youthful yawns

SUNY MIN KIM

Despite a race inundated with issues targeting the college demographics, young voters may not be drawn to today's Iowa City Council election.

The number of early voting ballots cast is slightly lower than recent elections, said Johnson County Auditor Dan Skoetek, adding that early voting
habits are usually a reliable indicator of results on the election day.

As of 6 p.m. Monday, approximately 1,026 early votes had been cast for today's primary — slightly fewer than the 1,066 early votes cast in the 2001 primary.

Graham bows out of Dem race

BY MEDIA PICKER
\*\*\*\*

WASHINGTON — Bob Gra-
ham, a political veteran whose low-key style failed to gain trac-
tion in the crowded Democratic presidential race, Monday
night was he ending his campaign.

"I'm leaving because I have made the judgment that I cannot be elected president of the Unit-
ed States," Graham said in announcing his exit from the run-on "Larry King Live." He said he was too unsuccessful, because his ideas were too late and had resulted in misleading money.

Graham, one of the most pop-
ular lawmakers in his home
state of Florida, said he has de-
cided whether he will run for
the presidency in 1996, which
he has held since 1987.

During the campaign, Gra-
ham cast himself as the Demo-
cratic candidate who was not a
presidential candidate, but who
struggled over the nature of the
10-way nomination race.

In seven months of fund rais-
ing, he brought in around $6
million, not enough to compete
with six Democratic rivals who
ran at least as much.

Jensen, who proposed the ordinance, said at-large candidate
Dan Skoetek directly affect them, "The
higher voter turnout will allow for better involvement with the students voted
in this election of any candidates," he said.

Some of the candidates raised $2,935, others $4,000 and $6,000.

The electoral process gives the students who speak at large votes, said Kathy
Ray, who raised $710 and spent 30 percent
of it.

"But, as long as you speak to your audience, money shouldn't have as much as an effect as the issues.

The candidate's campaign

SEVERAL CANDIDATES

STRESS IMPORTANCE OF STUDENT VOTING

BY ALEX LANG
THE CUB

After months of prepara-
tion, the candidates for the Iowa City Council hope to reap the rewards of hard work in today's primary election.

The primary will reduce the number of candidates from three to two in the last Council seat, and will also reduce the number of candidates for the two at-large seats from five to two.

One strategy that many candidates are using to gain support is to persuade more UI students to vote.

"It is important for univer-
sities students to vote because they are young, excited and passionate about the issues," said Kathy Ray, who raised $710 and spent 30 percent of it.

The candidate's campaign money talks, especially at the polls in today's Iowa City Council primary election.

Following the money trail

Some candidates are hoping that money talks, especially at the polls in today's Iowa City Council primary election.

Dan Skoetek directly affect them, "The
higher voter turnout will allow for better involvement with the students voted
in this election of any candidates," he said.

Some of the candidates raised $2,935, others $4,000 and $6,000.

The electoral process gives the students who speak at large votes, said Kathy
Ray, who raised $710 and spent 30 percent
of it.

"But, as long as you speak to your audience, money shouldn't have as much as an effect as the issues.

City Web site offers off-campus advice

By PAULA MAVRIOUDES

Efforts to improve community and student awareness have been furthered with a new link on the city’s Web site that will provide information and advice to students residing off-campus.

The link, "Living Off-Campus: a Survival Guide," for the City of Iowa City, launches on nearly every menu from a new context menu to find community organizers to find a good place to live. It was created because there was a "lot of misinformation," according to the Community Services Coordinator.

The problem, she said, is that when students move out of town, they don’t know how to get involved in their community. They have to "be their own advocates."

The idea for the guide came from an Iowa State student who shared their experiences with the city’s Web site. The guide was developed in partnership with the University of Iowa Students Union. It was written by the UI Student Government and the City of Iowa City's Community Services Coordinator.

The guide can be found at www.ci.iowa.edu/dept/comm sav.html. It includes information on how to get involved in the community, what to do if you’re concerned about your safety, and where to find resources for students.

The guide is intended to help students who are new to the area or who are struggling to find their way around. It also includes information on how to get involved in the community, what to do if you’re concerned about your safety, and where to find resources for students.

The guide was developed in partnership with the University of Iowa Students Union. It includes information on how to get involved in the community, what to do if you’re concerned about your safety, and where to find resources for students.

Recall vote fluid, experts say

BY WILLIAM BOOTH AND RENE MORISSEY

WASHINGTON — The personal
triumph of the California recall
campaign centered on an end
run around the democratic gover­
nor’s failure to govern — a phe­
menon that seems to create a
model for today’s hyper-polarized
Republican congressmen, who are
paying a steep price for their stap­
le of ambitious legislation and ag­
gressive spending.

Just a few months ago, Gov.
Gray Davis denounced the mov­
ement as a “joke,” nothing more
than a “political stunt” by a
crowd of right-wing goblins and
talk show hacks. But on Monday,
Davis stood before his supporters as a real, thin, Florida Senate Square
Bogus, California’s, par­
ticularly Democrats, apt to al­
though in his hour of need.

Davis concluded his speech by
warning the crowd that Davis’s
race was “a race to the bottom” if
not to beat President Bush
in 2004.

Most of the more than 1,000
speeches were straightforward,
mean spirited and other nudity often
in political campaigns.

In Davis’s case, it was a
bunch of angry voters who
spoke admiringly of Adolf Hitler’s
movie star fighting to
Square, par­
ticularly don him in his hour of need.

Court lets stand conviction in
cocaine/stillbirth

BY DAVID G. SAVAGE

WASHINGTON — The Supreme
Court refused to hear an appeal by a
South Carolina woman who was
sentenced to life in prison for
using illegal drugs during preg­
ancy. In 1996, Regina McKnight —
then 30 years old and newly
wed, had a stillborn child.

When medical tests showed the
baby had trace elements from cocaine exposure, McKnight was
indicted for “fetal demise by child abuse.”

The South Carolina court
earlier held a new trial and
replaced the state’s
prosecution’s “guilty causa­tion of law” because
the law was initially written
but did not extend its coverage to the
lifestyle of pregnant
women.

“We’re disappointed this
woman could spend a good per­
tion of her life in prison,
there was no initial intent here,”
said Wendi Anderson of the
National Advocates for Pregnant
Women, a group that worked on
McKnight’s appeal.

This is “the first homicide conviction ever of a woman for
suffering a stillbirth,” said the Drug Policy Alliance, a
national group that promotes sustained solutions to drug
problems.

State prosecutors said McK­
night did not have a “naming”
that caused abuse during the
death of her child, but she was
criticized and given a 10-year
sentence. McKnight’s lawyer
appealed the conviction, and
sent the case to a higher
court.

A second trial ended with
the same results.

The state’s
clearly tightened.

“We only_spectrumed our
budget this year,” Davis said, say­
ing next year would be an issue
with an anticipated $10 billion
shortfall. He also noted that
Schwarzenegger promised to elim­
invehicle registration fees, he is
speaking without realizing that
are less on foot, not state fees.

While the most recent pub­
litude in population.

**Iraqi cell-phone contract awarded**

BY EDMUND SANDERS

LAGHMAN, Afghanistan — The war in Afghanistan is having a new loser: the United States.

In an election campaign stunt to demonstrate the benefits of a stable government, President Bush has awarded a $600 million contract for Afghanistan's first cell-phone network to a Russian company, which has no experience in the telecommunications business.

The contract, announced Monday, was confirmed by the State Department and the White House.

The winner, Degtyaryovskiy Telekomunikatsiyi, or DTK, is a small company with just a few hundred employees.

The company, which is based in Moscow, has never built a cell-phone network before, and has no experience in the telecommunications business.

The contract was awarded through a competitive bidding process, which included a $2 billion offer from a French company.

The Russian company said it would create a new company to run the network, and that it would be managed by a team of international experts.

The contract is intended to help Afghanistan's economy, and to provide a communication system for the country's many soldiers and civilians.

The Russian company has been in business for more than a decade, and has won contracts in other countries, including Russia.

The contract is expected to create thousands of jobs, and to boost Afghanistan's economic growth.

The announcement of the contract has been met with mixed reactions, with some Afghan officials expressing concern about the company's experience and capabilities.

The contract is the latest in a series of major contracts awarded by the United States to Russian companies.

**Iraqi Shiites call for Bush to withdraw from Iraq**

BY GLENN KESSEL

WASHINGTON — President Bush on Monday defended his decision to deploy more than 20,000 troops to Iraq, saying the United States must keep the country under control until a political settlement can be reached.

The president said the United States was not ready to pull out completely, but rather to transfer power to the Iraqi government.

He said that the United States had a responsibility to provide security to the Iraqi people and to help them build a stable democracy.

The president also said that the United States was committed to achieving a solution to the Israeli-Palestinian conflict, and that it would continue to work with both sides to find a peaceful resolution.

**Bush in Syria to push for peace talks**

By ERIC BOLLEN

The United States has increased its diplomatic efforts in Syria, seeking to persuade the Syrian government to back a plan to end the violence in the country.

The effort has been met with mixed responses, with some Syrian officials expressing skepticism about the United States' intentions.

The United States has been pushing for a political transition in Syria for several years, but has faced opposition from the Damascus government.

The United States has been negotiating with both sides, offering to help mediate talks between the government and the opposition.

The United States has been working with the United Nations, which is attempting to facilitate a political solution to the crisis.

The United States has also been engaging with regional partners, including Jordan and Turkey, to try to find a way forward.

The United States has been offering to help create a transitional government, and to provide humanitarian aid to the Syrian people.

The United States has been pressing for the release of prisoners of war, and has been calling for an end to the use of force against civilians.

The United States has been engaging with the United Nations, which is attempting to facilitate a political solution to the crisis.

**LETTERS**

**Race matters**

Race is a difficult subject in America. Politicians often set black and white Americans at odds in civil rights and affirmative action issues. We as citizens have the responsibility of being aware of the real problems with race. It is not enough to simply say that we are "living in a post-racial America." Because we live in an intersectional world, both black and white citizens must be aware of any inequality or injustices that affect other groups.

**Rush Limbaugh'sidency**

Rush Limbaugh has been in the public eye for many years. His positions on race and politics have often been controversial. However, he has also been known to make insightful comments on various issues. In this letter, the author discusses the importance of Rush Limbaugh'sidency and its potential impact on American politics.

Of Persephone and poker

BY SARA CONRAD
THE DAILY IOWAN

Longtime friends Rachel Badeck and Katy Lederer will share their writing styles, and maybe a laugh or two, as they read from their individual works and share Bald "lore. Poker from poetry, from prose, and from personal life, the two world and world will read from their work together.

Reading in the Underworld is based on the ancient Greek halls of Hades. The myth posits that Persephone was kidnaped by Hades, the King of the Underworld, and her mother, Demeter, searched by the sea until death with her daughter. In an attempt to return to the Underworld, Persephone refused to accept her mother's offer of a crown of golden wheat. Having resisted his daughter into "etern," Demeter wrote to her daughter in the Underworld, and the myth became the source of the "Underworld." The poem's metaphor of the poem's role in the context of Socrates' "pokene," is a playful poem in the power of the gods of the underworld.

While craft beer lures fans to bars to tap into its popularity, the craft beer scene is also growing in Iowa City, with many bars and breweries in the area. The craft beer trend began with the "Sublime" which is a popular beer in the area. Despite the trend, many local bars and breweries are still finding their niche in the market.

"Sublime" is a popular craft beer in the area. It is a pale ale with a hint of spice and a unique flavor. "Sublime" was first introduced by Deschutes Brewery in 2002 and has since gained a large following in the craft beer world.

Colts hold on for OT win

**TAMPA, Fla. (AP) — Mike Vanderjagt’s 39-yard field goal with 3:47 remaining in overtime capped one of the greatest comebacks in NFL history and gave the Indianapolis Colts a 35-33 victory over the Tampa Bay Buccaneers on Monday night.**

Peyton Manning rallied the Colts from a 14-point deficit with four minutes left in regulation, sending the game into overtime on Ricky Watters’ 1-yard touchdown run with 35 seconds to play. Marion Barber, who had two touchdowns earlier, set up the tying score with a 55-yard reception to the Tampa Bay 5.

When the Colts held on for a potential game-winning field goal from 39 yards wide right at a play earlier — it would have been his first miss of the season in 13 attempts — but Tampa Bay’s B.J. Young was called for holding and landing on a teammate, and the Colts got another chance.

Vanderjagt made the second kick, barely as it went off the right upright and through, finishing the comeback.

Marvin Harrison’s 37-yard TD catch put the Colts, 11-6, into the lead for good with 11:15 left and gave them an insurance score to go with the tying touchdown.

Williams, part of a committee of running backs filling in for the injured Edgerrin James, had 15 TDs in 13 games during the 1995 season. He finished with 116 yards on 21 carries against the Buccaneers.

Harrison, who trailed the league in scoring with 11 TDs, had 52 catches for 850 yards and eight touchdowns.

Vanderjagt had missed a potential game-winning field goal from his own 13. He had crucial third-down passes in five games.

**That’s so furious, so smarting from a defensive standpoint,** Manning said. "It’s just that because their passing game had hit us so hard, so many times..."
Penguins reach deal with No. 1 pick Fleury

By MEL REIDNER
Associated Press

TEMPE, Ariz. - NHL free-agent signing Fleury has reached a deal with the Pittsburgh Penguins, theburgh Penguins' top pick in the 2003 draft, just beating a signing deadline that would have forced him to spend the season in junior hockey.

The deal avoided a potential multi-relations disaster for the Penguins, who were under considerable pressure to sign their first No. 1 pick since Mario Lemieux in 1984. It also means Fleury could begin the season as their starting goalie at age 18.

Penguins' general manager Bill Armstrong confirmed the deal Sunday, saying Fleury signed with the Penguins in March, will start working out, and his signing will be announced at a later date.

"I know he's handled it with extreme professionalism, handled the whole situation with extreme grace," McGinnis said.

The deal would have created a minimum of two new jobs in the Penguins' front office and would require a coach to be reassigned or fired.

Team orthopedist Russell Smith said Fleury will be eligible to begin his career after signing a contract and thorough physical exams.

"We are extremely happy about the addition of Marc-Andre Fleury to the Penguins," said marketing director Dan Petry.

Smith said Fleury, who was the Penguins' first-round pick in 2003, has been given a time frame on whether his season was over.

"I'm just glad it's over," Smith said.

"Hopefully, our running game will work, we can make it work - enough that we have to run all three of them," McGinnis said. "But so far, we've had trouble getting enough carries for one guy."
