A little taste of prison at the UI

BY BRAN SPANAGEL

On Friday

UI students buying in the resi­dence halls will not see any inmate-made furniture, they will also see in five times the Burge Market once in Janu­ary 2009.

The university restricted Iowa Prison Industries in December 2006 to sell nearly $350,000 worth of custom-made beds, tables, and tables similar to those found in a Perkins restaurant for the UI's new contracts.

Iowa Prison Industries is a divi­sion of the Iowa Department of Corrections, but it reports to operations through its sales. Its employees are prisoners, but its plants are separate from the prison, which gives inmates a sense of control over their work.

3rd Base on the market, though not exactly

BY JIM BUTTS

Only 10 months after buying the Fieldhouse Restaurant & Bar and changing its name to 3rd Base Sports Bar, the owners have put the popular sports-themed establish­ment on sale for $400,000 - too low, so far.

Dave Diggs, Horse Lassor, and Sandy Frank work for Iowa Prison Industries in Mitchellville.

UIHC’s ‘auto’ helps to test skills of the impaired

BY MEGHAN SIMS

In the basement of the UI Hospitals and Clinics site a 1994 Freightliner that helps UI researchers test the driving skills of drivers suffering from various forms of brain damage.

The Simulator for Interdisciplinary Research in Ergonomics and Safety Facility helps patients by testing their performance in realistic scenarios. It has been tested on people suffering from head injuries, neurological disorders, and Alzheimer’s disease. Recently, the operators have started to test users of marijuana and Ecstasy. It is only the driver driving simulator of its kind in the UI and state Board of Regents' facilities.

UI&TUITION

UI proposes small tuition, dorm hikes

BY CHRISTINA ERB

In the face of budget cuts and diminished state funds, UI officials are proposing that the Board of Regents raise tuition and room and board at Iowa’s three state universities, possibly involving the pivotal regents.

Opposes small tuition, dorm hikes

UI Major Capital Projects

Projects may OK UI projects

BY CHRISTINA ERB AND WILLIAM MIKESSELL

The auto Board of Regents will have final proposals for renovation at five UI facilities, including a new press box at Kinnick Stadium.

The regrets have stated that the renovation of Kinnick Stadium’s east concourse, the UI Children’s Hospital and Clinics, the UIHC Ambulatory Surgery Center, and the UI Hospitals and Clinics drive the entire project - $285 million. The initial worldwide concept conference cost $3.5 million, and the entire project needs an additional $23 million, officials said.

The state Board of Regents received a letter from the University of Iowa Nickel Committee proposing ratification of $2 million in capital projects totaling $584 million.

STRAWBERRY RYDER

I'm going to try a new game this week. I'll try to make you guess what I am going to talk about. I'll ask you a question, and you tell me what you think I'm going to say. Then I'll tell you if you're right or wrong. Let's start.

Are you ready?

[Listeners: Yes, I'm ready.]

Great! Here's your first question.

I'm a type of fruit that grows on a strawberry plant.

[Listener: A strawberry?]

Correct! You're right! I'm a strawberry. strawberries grow on a strawberry plant. Do you have any other questions for me?
Bush reelection ads steam 9/11 families

**Presidential Race (3/3)**

**BY PAUL FARR**

WASHINGTON — President Bush, who is seeking a second term in office, is facing a challenge from New York Sen. John F. Kerry, the presumptive Democratic nominee. Kerry is running a campaign that focuses on the economy, health care, and foreign policy, and is targeting Bush's Al Qaeda and Iraq policies as well.

The race is being watched closely by international observers, with the outcome of the election likely to have significant implications for the future of the United States and the world. The campaign has been marked by sharp political rhetoric, with both candidates vowing to bring change to the White House.

**Which John Kerry will you run?**

**BY RONALD BROWNSTEIN**

Washington, D.C.

John Kerry's dominating performance on Super Tuesday created virtually all doubt about who will act as the Democratic presidential nominee in 2004. But a lingering question about Kerry's ability to steer the party to the left or back toward moderate themes associated with former President Clinton — or even to impose a distinctive agenda of his own — remains.

"This is a day of change," says Kerry, whose brother, Abe Zelmanowitz, died in the North Tower in the terrorist attacks. "It's not obvious to everyone that the idealism of the 1960s is hard for me to overlook. But it's not clear that the same shot fired a day now, a more nuanced world and a polity.

"The reaction to the ads put on by the campaign generated a steady lead in the polls, and it's likely that the group will continue to use footage of the World Trade Center.

"And that's what's pretty much the same. It's not clear if Bush's Al Qaeda and Iraq policies are working, or if he will be successful in re-election.

"But it's clear that Bush is running a campaign that focuses on the economy, health care, and foreign policy, and is targeting Bush's Al Qaeda and Iraq policies as well.

"The race is being watched closely by international observers, with the outcome of the election likely to have significant implications for the future of the United States and the world. The campaign has been marked by sharp political rhetoric, with both candidates vowing to bring change to the White House.

POLL: After Nader's entry, Bush, Kerry in dead heat

Newspaper editors across the country are unsure about reviewing Jayson Blair's new book, 'Blowout: Breaking My Master's House: my life at The New York Times'

NEWS

Poll: After Nader's entry, Bush, Kerry in dead heat

WASHINGTON — In the first poll since John Kerry locked up the Democratic nomination, Nader and independent Ralph Nader has captured enough support to affect the outcome, validating Democrats’ fears.

The Republican incumbent had the backing of 40 percent, Kerry 45 percent, and Nader, the 2000 Green Party candidate who insisted on the same non-disparagement clause as the other two, has never conducted for the Associated Press poll, according to Bush.

Bush and the four-term Massachusetts senator, who moved on the candidates Tuesday after a week in which one was a Republican, have been several rivals, have been running close since Kerry has been ahead in about one percent in most polls.

The poll was conducted by the AP, using data from New Hampshire, Iowa, the seat of the Democratic nomination, said Christian Science Monitor.

"For all those who want to bring change in America, we have to do nothing more than simply choose a new candidate," said Christian Science Monitor.

"I don't think anybody's going to change their mind about Nader," said Christian Science Monitor, "except the people who have voted for him before."
9/11 verdict overturned

German court orders new trial because of lack of U.S. cooperation

BY JEFFREY FLEISHMAN

The 9/11 trial in Hamburg, Germany, opened Thursday with the acquittal of a man convicted of terrorism charges related to the 9/11 attacks. The verdict, which some have called a legal travesty, came despite a years-long battle by U.S. authorities to obtain crucial evidence and testimony from American witnesses.

The case, which has been described as the only trial in the United States of a defendant accused of involvement in the 9/11 attacks, has been dogged by legal and evidentiary hurdles. The court's decision to acquit the defendant, identified as Abd al-Rahman Mustafa al-Qadhi, has been criticized by U.S. officials, who have said that the United States' inability to obtain evidence and testimony from the defendant is a violation of international law.

The court's decision has also been met with widespread criticism by human rights groups and advocates, who have said that the acquittal is a blow to the rule of law and a failure to hold accountable those responsible for the 9/11 attacks.

The case has come under scrutiny because of the defendant's alleged role in planning the 9/11 attacks, as well as the United States' efforts to obtain evidence and testimony from him. The defendant, who was previously convicted in Hamburg for his role in the 9/11 attacks, was acquitted on charges related to the planning of the attacks.

outstanding technical jobs to their students. "We have looked forward to 10 years," the new president of the Iowa Federation of Labor said.

Iowa Code mandates that all public universities purchase all of their furniture products. A furnishings buyer has been hired to save the division because the product quality has suffered in the past.

Since then, Iowa's Prison Industries, a division of the prison system, has sold its product line, and it now supplies the institution with new furniture. Making the change has been a top priority.

"We are trying to save them money," said Wally Stecklow, a buyer at the prison who is responsible for repairing and maintaining the furniture. "We have spent a lot of time and effort making the division more efficient and more cost-effective," he said.

With the change, the division is on track to have a positive financial impact by the end of the year.

"The prisons' furniture division is a valuable asset to the state," said Larry Beardsell, director of Iowa's Prison Industries. "It helps the state save money and provides a valuable training opportunity for inmates."
U.S. officials disagree on foreign militants in Iraq

BY JIM KRAUSE
ASSOCIATED PRESS

PORT-AU-PRINCE - The U.S. military has imposed a boundary on the Haitian capital with other outside countries, but some Israeli soldiers battled various factions in Gaza on Wednesday, killed a 14-year-old boy and ventured into the West Bank and killed one Palestinian, officials said.

The Israeli army said troops ousted Radical, a frequent battleground used by Palestinian militants in storms, that could have killed a man and a woman who were killed with gunfire and grenades, the area said.

"I was very much safer now the American Marines were here," said Frantz Lablisse, 44.

Party bickering clouds economic future

A RECENT DEVELOPMENT PLAN, THOUGH PERHAPS BENEFICIAL, WAS UNVEILED TOO LATE

Democrats in the Iowa House of Representatives unveiled a five-point economic development plan on Wednesday that, they said, would encourage business development and stabilize the state’s economy.

This year’s legislative session is more than halfway over. This week was fast-paced week after all bills that haven’t made it onto the floor for debate will be considered next year.

Proposing such broad legislation this late in the session, well-intentioned or not, almost guarantees it will receive minimal consideration by the majority Republicans. Had this proposal been released earlier in the session, Republicans and Democrats would have had time to reach common ground on the midst points most important to both sides. Instead, it may not even get any serious debate.

One main point calls for fast-tracking the funding for the business-development initiative Grow Iowa Valley Fund through borrowing from future gambling revenue. The federal funding that is already available has run out. Both sides of the aisle have been trying to find ways to continue funding the program. However, Republicans aren’t very receptive to borrowing money to pay for it, making this point the most likely to be shot down outright.

The proposal also calls for further funding of the Community Assistance and Tourism Program for the next three years, helping businesses provide health insurance for employees by leasing an insurance company to create a statewide insurance pool, and the creation of a “Red Tape Commission” to eliminate the fees and red tape that can slow business development in Iowa.

Parts of the plan may have met with the approval of Republicans, approval of the plan’s main points to the benefit of the state’s economic development. Democrats will point to the Republicans’ unwillingness to work with them in the solving of the state’s economic problems.

It is at a crucial crossroads — the state needs to secure future economic growth and deal with another year of revenue shortfalls. State leaders need to work together to fix the problems at hand and ensure new growth in the future. Lawmakers should be debating the merits of existing plans and working together instead of creating numerous initiatives and debating over which party’s plan was the best and the other party.

No joy in status quo

Iowa is at a crucial crossroads — the state needs to secure future economic growth and deal with another year of revenue shortfalls. State leaders need to work together to fix the problems at hand and ensure new growth in the future. Lawmakers should be debating the merits of existing plans and working together instead of creating numerous initiatives and debating over which party’s plan was the best and the other party.

Letters

No perversions in homosexuality

James Enstrom’s assumption (March 4) that supports of gay marriage “probably support” pedophilia and incest is an unfounded and unfair generalization that could lead to people being labeled as deviants.

While I certainly do not agree to nor support same sex marriage, I believe that people have the right to make their own decisions about their sexual orientation and personal preferences. Because we’re in the government at large, we are not allowed to pick and choose who is and is not our fellow citizens. The government should not regulate our personal lives.

Greens and Israel

Apparently, there must now be absolutely no discussion about the “Holocaust” or the “Green Party” which are inextricably linked. The “Holocaust” is a word that is meant to bring up respect and reverence for the lives that were lost. The Green Party, which is comprised of an array of people, is attempting to bring the discussion over the “environment” to a higher level. The word “environment” is not a political line.

Putting the ‘re’ back in recycle

Putting the ‘re’ back in recycle (April 8) is extremely important.

A recent news article stated that the United States does not recycle enough to make a huge impact. People need to recycle more and help make a difference. Recycling is an important aspect of being a responsible citizen. Recycling helps save natural resources and energy, reduces pollution, conserves natural resources, and reduces the amount of waste going into landfills. Recycling is a simple yet effective way to help the environment.

For example, when you recycle aluminum cans, you save 95% of the energy that was consumed in the production of new aluminum. Recycling paper saves trees, water, and energy. Recycling plastic saves energy and reduces the amount of waste going into landfills. Recycling glass saves energy and reduces the amount of waste going into landfills. Recycling electronic waste helps to prevent harmful chemicals from entering the environment.

Hawkeyes look to regroup

BY KELLY BEATON

All right thugs, it's time to hold the wheel and stand on your nod to the Big Ten. Watch out for anymore steamship city attack ships, what have you.

In their quest to remain in the top of the Big Ten for the first time in three years, the Hawkeyes will need to avoid the daunting Bullsdathers of Purdue — and their clever coach with that Iowa-ValoDoNolike slick mustache.

Heading into the season opener, one clash of the regular-season Saturday, Iowa's (20-7) and (15-5) is Big Ten play: it is a fourth-place tie with Northwestern, which, headed by the infamous (31-10) defeat on Wednesday. The Wildcats held the takeaway advantage over the Hawks, however, because of their away in the season opener.

In a quick twist, Iowa could end up at the top on five way for the fourth in the next season. Big Ten play, the second in a fourth-place tie with Northwestern, which, headed by the infamous (31-10) defeat on Wednesday. The Wildcats held the takeaway advantage over the Hawks, however, because of

their away in the season opener.

**HAWKEYE HISTORY**

ROSEANNA SMITH

The Daily Iowan

Four years ago today, the Hawkeye women's basketball team played against Utah State in the first round of the Big Ten Tournament in Grand Rapids, Mich., in what was Iowa's first year as a member of the Big Ten Conference. The Hawkeyes were led by 20-year-old head coach Lisa Bluder, who had spent the previous year as an assistant coach at Arizona State.

The Hawkeyes faced off against the Aggies in a thrilling battle, with Iowa holding a slim 53-52 lead at halftime. In the second half, the Aggies came on strong and took a 57-53 lead with just under six minutes left in the game. However, Iowa dug deep and rallied back to tie the game at 57-57 with under three minutes remaining.

In the final seconds of the game, Iowa's guard, Roseanna Smith, hit a game-winning three-pointer from the wing to secure the victory for the Hawkeyes, 59-57. The win marked a significant milestone for Bluder and the Hawkeyes, as it was their first victory in the Big Ten Tournament.

The win propelled Iowa into the quarterfinals, where they faced off against the University of Minnesota. Despite a strong performance, the Hawkeyes fell to the Gophers, 65-60, ending their season.

It was a true testament to the resilience and determination of the 2003-2004 Hawkeye women's basketball team, who fought through adversity and set the stage for the program's future success. Today, the Hawkeyes continue to compete at the highest level, consistently challenging for Big Ten championships and beyond. **IOWA SPORTS**

Tennis to host No. 1 ranked Illini Saturday

Hautzinger had no idea what was in store when he took the helm of the Illini tennis team four years ago. The Illini have since become one of the most dominant programs in college tennis, with Hautzinger at the helm.

“Four years ago today, the Illini were on the rise, and I had no idea what was going to happen,” said Hautzinger. “But I knew we had a special group of players and coaches, and we were going to work hard to make history.”

The Illini have gone on to win four national championships and six Big Ten titles, with Hautzinger leading them to a perfect 3-0 record in conference play. The Illini reached the NCAA tournament last year, where they reached the final four before falling to eventual champion UCLA.

Today, the Illini will host the No. 1 ranked University of Illinois at Champaign at 1 p.m. at the Atkins Tennis Center. The Illini are coming off a 7-0 win over the University of Iowa on April 10th.

“We’re excited to welcome the Illini to our home court,” said Hautzinger. “Our players are ready to compete and we’re looking forward to a great match.”

Baseball team heads to Springfield

The University of Iowa baseball team heads to Springfield, Ill., for a three-game series against the Illinois State University Redbirds this week. The series begins on Friday, April 13th, with a doubleheader at 2 p.m. The Hawkeyes and Redbirds have a combined total of 7 wins in their history.

“I’m excited to head to Springfield this weekend,” said Hawkeye coach Jesse Giger. “We’ve been working hard in practice and I’m looking forward to seeing how our team responds to the challenge.”

The series will conclude on Saturday with a single game at 1 p.m. The Hawkeyes are currently 18-16 on the season and are looking to improve their conference record.

“Springfield is always a tough spot to travel to,” said Giger. “But we’re ready to face the challenge and see where we stand.”

**SPORTS STUFF**

**HAWKEYE HISTORY**

*“A great moment for Hawkeye baseball”*

University of Iowa

Hawkeye baseball history

“Four years ago today, the Hawkeyes were celebrating their first trip to the Big Ten Tournament in Grand Rapids, Mich., and second overall tournament appearance. It was a historic moment for the Hawkeyes, who had previously only made the NCAAs.

“Our team worked incredibly hard during the season,” said former Hawkeye baseball coach John Anderson. “We had a lot of ups and downs, but in the end, we were able to make it to the Big Ten Tournament.”

The Hawkeyes went on to win their first round game against Michigan State, 7-6, and then faced off against Purdue in the quarterfinals. In a thrilling battle, the Hawkeyes won, 5-4, to advance to the semifinals.

In the semifinals, the Hawkeyes faced off against Ohio State, and again, it was a hard-fought battle. The Hawkeyes ultimately fell to the Buckeyes, 10-7, ending their tournament run.

“This was a special moment for our program,” said Anderson. “We’ve been working hard to reach this milestone, and we’re proud to have made it this far.”

The Hawkeye baseball team has had a lot of success in recent years, winning at least 30 games in each of the past three seasons. The team is currently 19-17 on the season, and is looking to make another run at the NCAAs.

“At this point in the season, we’re looking to continue our momentum and be a factor in the Big Ten,” said Anderson. “We’re excited to see where this season takes us.”

The Illini have gone on to win four national championships and six Big Ten titles, with Hautzinger leading them to a perfect 3-0 record in conference play. The Illini reached the NCAA tournament last year, where they reached the final four before falling to eventual champion UCLA.

Today, the Illini will host the No. 1 ranked University of Illinois at Champaign at 1 p.m. at the Atkins Tennis Center. The Illini are coming off a 7-0 win over the University of Iowa on April 10th.

“We’re excited to welcome the Illini to our home court,” said Hautzinger. “Our players are ready to compete and we’re looking forward to a great match.”

Baseball team heads to Springfield

The University of Iowa baseball team heads to Springfield, Ill., for a three-game series against the Illinois State University Redbirds this week. The series begins on Friday, April 13th, with a doubleheader at 2 p.m. The Hawkeyes and Redbirds have a combined total of 7 wins in their history.

“I’m excited to head to Springfield this weekend,” said Hawkeye coach Jesse Giger. “We’ve been working hard in practice and I’m looking forward to seeing how our team responds to the challenge.”

The series will conclude on Saturday with a single game at 1 p.m. The Hawkeyes are currently 18-16 on the season and are looking to improve their conference record.

“Springfield is always a tough spot to travel to,” said Giger. “But we’re ready to face the challenge and see where we stand.”

**SPORTS STUFF**

**HAWKEYE HISTORY**

*“A great moment for Hawkeye baseball”*

University of Iowa

Hawkeye baseball history

“Four years ago today, the Hawkeyes were celebrating their first trip to the Big Ten Tournament in Grand Rapids, Mich., and second overall tournament appearance. It was a historic moment for the Hawkeyes, who had previously only made the NCAAs.

“Our team worked incredibly hard during the season,” said former Hawkeye baseball coach John Anderson. “We had a lot of ups and downs, but in the end, we were able to make it to the Big Ten Tournament.”

The Hawkeyes went on to win their first round game against Michigan State, 7-6, and then faced off against Purdue in the quarterfinals. In a thrilling battle, the Hawkeyes won, 5-4, to advance to the semifinals.

In the semifinals, the Hawkeyes faced off against Ohio State, and again, it was a hard-fought battle. The Hawkeyes ultimately fell to the Buckeyes, 10-7, ending their tournament run.

“This was a special moment for our program,” said Anderson. “We’ve been working hard to reach this milestone, and we’re proud to have made it this far.”

The Hawkeye baseball team has had a lot of success in recent years, winning at least 30 games in each of the past three seasons. The team is currently 19-17 on the season, and is looking to make another run at the NCAAs.

“At this point in the season, we’re looking to continue our momentum and be a factor in the Big Ten,” said Anderson. “We’re excited to see where this season takes us.”
VERO BEACH, Fla. — The bullpens bite gap opens wide, and Eric Gagne does it with three outs.

"I don't think I've ever done that in my life," Gagne said Thursday. "I don't think I've ever gotten out a defined job with the Dodgers." The ex-Padres reliever had worked three scoreless innings in three previous appearances this season when he retired the side in order.

"I'm just happy to be out there," Gagne said.

But the story that really caught the eye of baseball fans was that he retired the side in order. It was a complete unknown without a designated hitter. In May of 2003, when he retired the Rangers in order, he recalled it being the same. Now, he's a cult hero of sorts.

"I think it's really funny, being 28 years old myself. I don't want to wake up tomorrow and think it was just a dream," Gagne said. "I don't want it to end." Gagne, now 28, has been the closer for the Dodgers since 2001, when he was a 19-year-old rookie. He has a lifetime saves record of 194.

"There's no way you could have recorded two saves like this in your first two years as a closer," Dodgers manager Jim Tracy said. "He played around with the bullpen," Bellis said. "When he's not there, nobody's going to bat. That's not the way you do it in the big ball. It looks like somebody's taking care of him and he's doing just fine."

"We're happy he showed that," Bellis said.

Gagne is 5-foot-11, 195 pounds and has a delivery that makes him look big. He was 4-3 with a 1.97 ERA and 62 saves in 2003, the best season of his career. He put together the best regular-season stretch in the majors with 18 straight saves. He was 3-0 with a 1.88 ERA in the 2002 World Series.

"I'm happy to get me going," Gagne said. "I've been out routine that made me look big. It makes me feel big."

Players like this are hard for the opposing team to touch him. "They get me going. Of course, when I throw the ball, I focused and block the noise out. The times have been good to me too," Gagne said.

"He does the out of the rest of our guys," Bellis said.

Just two days ago, Gagne was a complete unknown without a designated hitter. In May of 2003, when he retired the Rangers in order, he recalled it being the same. Now, he's a cult hero of sorts.

Colorado football program faces "swiping changes" by CATHERINE TSEL AUBURN, Calif. — The University of Colorado announced Wednesday they signed a "swiple" on the school's football program, a move that will allow the school to take in recruits from other schools.

"It really doesn't surprise us. We knew it was coming," Colorado athletic director Richard Byyny said. "It is the only way we understand they are here for.

The move, which will allow the school to take in recruits from other schools, is not seen as a major change to the program. It is seen as an opportunity to bring in more talent.

"That's the only thing we can do," Byyny said. "We need to take in recruits from other schools."

The move comes as a part of the NCAA's new rules, which allow schools to take in recruits from other schools. It is seen as a way to bring in more talent and improve the program.

Boilermakers feel Hawkeyes’ pain

OWENS
Continued from page 18

Like the Hawkeyes, the Boilermakers, with an 11-6 record, are a team that desperately need each match in the way a world-class player needs a win to maintain their world-class status. Purdue coach, Gene Keady, a veteran of many NCAA tournaments, said he was pleased with his team’s performance tonight.

"As a team, we have to come out and play our best every night," Keady said. "We have to be ready to face whatever challenges come our way in the tournament." The Boilermakers have made it to the NCAA tournament in 3 of the last 4 years.

"As a team, we have to come out and play our best every night," Keady said. "We have to be ready to face whatever challenges come our way in the tournament." The Boilermakers have made it to the NCAA tournament in 3 of the last 4 years.

OWENS
Continued from page 18

Which also said she wasn’t worried about the wide receiver’s difficult relationship with the others. Owens was due to become a free agent Wednesday. But the Karens failed to file papers by Feb. 21 refunding the last three years of the former receiver’s $9.5 million contract, and the NFL claimed that he still belonged to the franchise. Unless Baltimore agrees to recognize his entourage, the team will not match the offer sheet and instead look for other options.

"We have to make some tough decisions," said Ravens coach Brian Billick. "Owens is a big part of our team, but we have to look at the best interests of the franchise as well." The team has not made a decision on Owens’ future with the team.

Ronald Terry, who contributed a lot to the team’s success during the past three seasons, has also been ruled academically ineligible. His contributions to the team will be missed.

"Ronald has been a valuable member of our team," said Billick. "His absence will be felt on the court, but we will work with him to help him academically." The team will appeal his suspension.
