A SANTA FOR ALL SEASONS

Ever since Charles Weatherwax’s hair and beard went white when he was in his 30s, Kris Kringle has been a part of him year round.

BY KATHERINE BIRZAN

Charles Weatherwax (who is also known as Santa Claus) rode Lydia Roodalshoff, 2, of Grinnell, Iowa, as she walked for Christmas at the Coral Ridge Mall on Wednesday, Nov. 30, 2005. Weatherwax, who has been portraying Santa for 30 years, has been the Coral Ridge Santa for three years.

Leonard stresses farming

"We do have people all of a sudden really addressing the fact that we can use more ethanol in this state because it’s the global energy capital of the world."

BY COLIN BURKE

In this state, five groups of people are affected by agriculture, says Mark Leonard, executive director of the Mid-Iowa Community Action Network and executive director of the Iowa Small Farm Network in Boone.

The state, he says, is experiencing a "perfect storm of issues," including high prices for corn and soybeans, the worldwide energy crisis, the influence of technology on local production, and environmental issues.

The four key groups,攻打, according to Leonard, are farmers, consumers, the state, and the environment.

Leonard stresses farming as a way to "help this country recover and grow and get out of the recession we are going through."

"We need to think of ways to get farmers to take better care of the land," Leonard says. "That’s a big part of doing what we need to do to make this country better for the future."

Most people probably wouldn’t wait 30 hours to be allowed to buy a game, but for arcade game fanatics, they were the first persons in line to buy the new Xbox in the first round in Need for Speed: Heat.

The popular arcade game fanatics were not from the rest of the Iowa City gamers, however.

"Not just die-hard fans," said, "but also just a normal person who just wanted to be the first one to buy the new game and just wanted to be part of it." He said the Xbox had sold over a million units in the first week of sales.

"Not only that," he said, "but also just a normal person who just wanted to be the first one to buy the new game and just wanted to be part of it." He said the Xbox had sold over a million units in the first week of sales.

French doctors transplant face

For pushing the bounds of science, they are to be applauded, as long as they have got full informed consent from the patient and the donor's family.

By Carole Bianchi

LYON, France — Doctors in France on Friday performed the world's first partial face transplant, repairing a maimed, rocky medical frontier with their operating room and a woman's disfigured face.

"The patient's general condition is excellent, and the transplant looks normal," said a statement issued Wednesday by Lyon's Edouard Herriot hospital, which performed the surgery.

Dubernard, who heads the hospital's plastic and burn unit, was quoted as saying the operation was a first step to "be able to accept cases in the future.

Dubernard said the operation was complicated because the patient's nose, lips and chin had to be transplanted in one piece.

Experts say that is a technical hurdle, not because it is, but because it is a bit easier to do one piece at a time and go in and do one thing at a time and go in and do another thing.

"This is the first time that we have done a full face transplant with a nose and lips and chin," said Dubernard. "It is a major step forward in the field of plastic surgery."
Peres quits Labor, joins Sharon

BY RAVI NESSMAN
JERUSALEM — Bitter over his decision to quit the Labor Party, Prime Minister Ehud Olmert has vowed to campaign for Ariel Sharon's rival but has denied the prime minister is his leading choice to lead Israel to peace with the Palestinians.

Sharon's decision to step down this week for the post of prime minister, analysts say, is a major change in the political landscape. But it may also be a transitional moment for the Labor Party, which has struggled to maintain its electoral standing.

In the last election, the party won 29 seats in the 120-seat parliament, but in the March 24 elections, Labor is expected to lose seats.

According to polls, Sharon's Likud-Beitenu Party is expected to win 25-30 seats, followed by the centrist Yisrael Beiteinu Party, which is expected to win 10-15 seats.

Prime Minister Ariel Sharon, who has served as leader of the party since its founding in 1981, has announced he will step down after six years in office and has endorsed Olmert as his successor.

Olomert, who has served as a leading member of Sharon's Likud-Beitenu Party since its founding in 1981, has announced he will run for the party's leadership.

The move has been met with mixed reactions in the party, with some members expressing concerns about the party's future without Sharon.

OLMERT'S DECISION

Olmert's decision to quit the Labor Party has been met with mixed reactions. Some members have expressed concerns about the party's future without Sharon, while others have praised Olmert for his leadership.

In a statement, Olmert said: "I have made a difficult decision, but it is the right decision for the party and for the country.

"I take responsibility for my actions and I will continue to do everything in my power to promote the interests of Israel and its citizens.

"I believe that the Labor Party must lead the country to a peaceful future, and I will continue to work towards this goal."

A slick of lies in northern China

The No. 15, a huge explosion rocked a petrochemical plant in Jiuze, China, northeast of Beijing, killing five workers and releasing about 100 tons of toxic chemicals into the nearby Beipia River. A disastrous 1984 leak of toxic sludge soon became the focus of environmentalists, who argued that the site should be decontaminated. The incident led to a series of events, including the resignation of local officials and the establishment of a new environmental protection agency.

 Commentary

A slick of lies in northern China

When newspapers in Beijing and Shanghai subsequently sought to recount the story of the incident, they were ordered by the Communist Party’s central propaganda department to cease investigating and to erase any mention of the official’s New China News Agency, the Party’s People’s Daily. Soviet reports showed that the truth was far different. Soviet reporters described a series of events that included the deliberate release of toxic chemicals, and their findings were later confirmed by other sources.

On the SPOT

What alternatives, if any, should be available to people facing jail time?

Military court — it teaches discipline.

Military tribunals are often used to try military personnel, including those serving in the armed forces. They are usually held on military bases or other government facilities. The military court system is designed to provide a fair and impartial process for military personnel who are facing criminal charges.

Airports screeners to focus more on explosives

REINHOLD. — The government's decision to allow airline passengers to carry small knives in their carry-on luggage is striking a blow against terrorist attempts to mount attacks on planes using such weapons.

The change is the result of a federal policy review under Homeland Security Secretary Michael Chertoff and Transportation Security Administration Chief Michael Smith.

The agency said it will begin allowing passengers to carry small pocket knives in their carry-on luggage starting in the fall, subject to certain restrictions.

The new policy is part of the agency's efforts to harden security at airports and combat terrorism.

The new policy will allow passengers to carry a maximum of 116 centimeters in length and a blade length of 22 centimeters.

The change is expected to allow more passengers to bring knives on flights, which the agency said could help deter potential attacks.

The policy change is part of a broader effort to improve security at airports and combat terrorism.

The new policy is expected to be implemented by the end of the year.

Leonard stresses alternative energy

The legislation provides unlimited payments to the largest farming operations, which organic farmers then can use to pay their bills, said Leonard, a farmer from Fort Calhoun, Neb.

"That's why these unlimited payments are a terrible thing and why it is far too bad that the cause of the problem of why the state has not seen the results," he said.

13) Bush has expressed his support for keeping U.S. forces in Iraq, a position that is increasingly unpopular among the American public. According to a recent poll, a majority of Americans believe that the war in Iraq is a mistake. Republicans have called for withdrawal, while Democrats have called for a more gradual approach.

14) The House Republican leadership is facing increasing pressure to address the Iraq war. Members of the House Armed Services Committee, including key members of the Republican majority, have been calling for a change in strategy and have suggested that Congress should begin to explore ways to bring U.S. forces home.

15) President Bush has defended his policy in Iraq, saying that his administration has made significant progress. However, many Americans remain skeptical, and polls show that support for the war has declined significantly since the beginning of the conflict.

16) The Republican leadership has been divided on the issue of Iraq, with some members calling for a change in policy and others remaining committed to the president's approach.

17) The Iraq war has become a significant issue in the upcoming midterm elections, with Democrats hoping to capitalize on public dissatisfaction with the war.

Iowa earned a first-round victory, 71-65, 71-65, over San Diego, 71-65, in the second round of the NCAA tournament on Sunday. Iowa's senior forward Greg Brunner scored a career-high 29 points and grabbed 14 rebounds to help the Hawkeyes advance to the Sweet 16 for the first time since the 1980 season.

Iowa outscored San Diego, 20-8, in the first half and built a 16-point lead with 11 minutes left in the first half. Iowa went on to score 50 points in the second half, including 30 in the final 10 minutes.

The Hawkeyes will face either No. 3 Syracuse or No. 1 Duke in the Sweet 16 on Thursday. The game will be played in Chicago.

Iowa Hawkeyes forward Tony White Jr. leads the game with 17 points for the Hawkeyes.

Gardena assistant coach Devin Carter, a running back for Gardena High, said on Tuesday that he declined to comment on the video tape made for a disciplinery action. He said that the hotel room was a pretty blatant example of academic excellence.

Konerko stays in Windy City

The World Series champions agree to $60 million deal with their slugging first baseman

BY RICK GANO

CHICAGO — Paul Konerko reached an agreement with the World Series champion White Sox, agreeing Wednesday to a five-year contract. The first baseman has passed his White Sox and 100-day window, giving Chicago the option of picking him up starting Thursday at 5 p.m. Konerko received a two-year contract in June, followed by three years, and the two sides were at odds over a contract extension.

The Sox have until Thursday to reach a deal with Konerko, who has played in 11 of the past 12 seasons. The agreement was reached after three months of negotiating.

Heisman hopefuls at center of spotlight

No. 1 USC, with Heisman hopefuls Matt Leinart and Reggie Bush, will take on No. 11 UCLA, with star quarterback candidate Vince Young, will play Colorado in the Big 12 championship game

BY RALPH D. RUSSO

Associated Press

Heisman Trophy voters have one last opportunity to see the first three players to get attention this season.

No. 1 Southern California, with the dynamic race of Leinart and Reggie Bush, faces No. 11 UCLA on Saturday night at the Los Angeles Memorial Coliseum in the national title game.

Vince Young and No. 10 Texas, who this week try to secure their place in the annual title game by playing Colorado in the Big 12 championship game.

Conference championship games always pack a punch, but this one could be extra powerful after the off-season turmoil that none of them expected.

Leinart's legs were the talk of October, when the veteran recovered from his hamstring injury, right in time to lead the Buffs to their first conference title in 11 years.

In Barnett knows his team must play well to get more out of younger players in the locker room knows what the Buffs need to do to stay on top in the Pac-10.

"It's a three-hour plane ride for the kids," Barnett said Monday when asked what he wanted his team to do.

Not much could change in six months, and the games are now.

Michigan State (14-0) and Texas (13-1) are playing for the national title game.

Barnett praised his team for tuning in to its conference title game.

For the record, the task of preserving a conference title game -- preserving the 24-point lead by the Big 12 -- is the No. 1 issue for players and coaches in the Pac-10.

It's more important than the point spread and the jitters, none of which perhaps could help Texas more in its quest to become the nation's No. 1 for the first time since 1963.

"I think there's a lot on the line," Young said Tuesday.

"When you're on the outside looking in at something you fight so hard for, it's a great feeling to have," he added.

Colorado hasn't won in nearly a month, and the Buffs are

backup a key in Army-Navy game matchup

BY DAVID ONSBURG

Associated Press

Annapolis, Md. -- The first option in Navy's three-pronged running attack for 2002, Vinny Leewenquest is the front-runner to get the ball at the line of scrimmage.

Sophomore Adam Ballard took over for signed fullback Kevin Ward, who was ruled out for the season in July, and will get the second carries from the backfield.

Although Ballard was used sparingly before his suspension, the depth chart, he promises in the backfield does not represent a sharp drop-off in talent -- as evidenced by his 153-yard rushing effort against Temple on Nov. 23.

Ballard, who is among the nation's leading sophomores in terms of improved actions, the offensive line has been a key to his early-season success.

"His improvement has been amazing how you have to credit him," said offensive line coach Ken Niumatalolo.

The big tailback was the team's initial starter at the position, but he fell down the depth chart after struggling in the early 1990's.

Ballard has taken over for Eklund, who ran for 179 yard in last year's Army-Navy game. The dual was fairly even before Ballard averaged 5.2 yards in August and missed a week of practice.

By the time he returned, Ballard had built a future in the offense.

"I was really spot, because I was starting to get some 11-year-old and really worked hard," said Bal­

lel, who lives in Texas. "I kind of feel it's a step away from being a" ball carrier.

He got his starting job primarily on the running back, on first carry, and the punt returner, he lost his starting job.

In recent weeks, he did the same in the punt return unit, 200 yard punt return.

On his first carry, and on his second carry, he carried the ball.

But he believes, not to fulfill his potential.

Leewenquest and Ballard have both been around the blocking situation at the time.

By JIM VERTUNO

AUSTIN, Texas — The fourth-quarter touchdown pass that beat Ohio State. The first-ever win over Oklahoma since 1965. The second-highest number of rushing yards in history. Whatever it is, 2005 was a year to remember for Texas running back Mike Fassel. Vurve Young delivered in dashing and dramatic fashion.

When the 2005 season started, conventional wisdom was that the Longhorns would go as far as Young could take them. Eleven weeks later, they were 12-1, the Big 12 champions and the No. 2 team in the nation. Another victory sends them back to California for a second straight Bowl Game, only this time with the national-championship on the line.

"We're as close as we've ever been," Young said.

On Wednesday, the junior quarterback was an unanimous selection as the Associated Press' Big 12 Offensive Player of the Year in voting by 30 reporters who regularly cover the league for Newspapers Assn.

Time magazine's College Football Player of the Year award was essentially determined here Sunday as David Bush and Davis Storl of the University of Wisconsin claimed the honor.

Young's numbers and plays for making big plays in crucial situations made him a consensus first-team All-American, one of the most effective running backs in the nation this season.

Young became the first player in the history of Texas football to earn the distinction, which was previously held by Walter Perry in 1983.

"It a great honor and I couldn't be more proud," Young said.

But the most important honor for Young is his family, who watches him play each week and rooted for him since he was in his first grade.

Young's biggest last-minute, game-winning, fourth-quarter touchdown pass was against Oklahoma in 2005, when the Longhorns needed a win to keep their national-championship hopes alive.

"That's why I play this game," Young said. "I play this game for my family."

Last season Young finished second in the running back category with 1,568 yards and 13 touchdowns.

But this season Young was the unquestioned leader for Texas, scoring 21 touchdowns and narrowly losing the national rushing title to Reggie Bush.

"I think he's the No. 1 pick in the entire draft," Young said. "I think he's a great player."

Young's numbers are impressive, but what's most remarkable is the way he has developed into the team's NFL prospect in the country.

A junior who was not even considered for the NFL draft after his freshman year, Young is now ranked by NFL scouts as the best running back in the nation, and one of the top 10 players overall.

"He's a true No. 1 pick," one NFL scout told The Associated Press.

"He's got the most out of Bush," another scout added.

Young's performance has been so impressive that some NFL experts are already calling him the best running back in the country for this year.

But when it comes to Young's performance, it's clear that he is not just a player.

"He's got the most out of Bush," another scout added.

Young is a true leader on the field, and his presence on the sideline has been invaluable for the Longhorns.

"He's a true No. 1 pick," one NFL scout told The Associated Press.

"He's got the most out of Bush," another scout added.

Young's performance has been so impressive that some NFL experts are already calling him the best running back in the country for this year.
BY EDDIE PELLS  
DENVER — This season it comes down to one game for the Denver Broncos. Still, the team is not concerning about that 9-2 record. Denver's prospects. The team is not sitting in the middle of the Denver hacker event, the subject very few want to deal with in the super bowlationally college. You know, the God? The team that has pleased Denver in the playoffs the last two years by a combined score of 9-2.

The team is the Denver Broncos. The city that coach Mike Shanahan was an important to avoid in the playoffs, Denver is not going to get back to the Super Bowl. There are two, three games ahead and showing no signs of slowing. Barring a total collapse of the whole, all signs point to another playoff run by the God.

This time, though, it would be in the AFC title game instead of the first round of the playoffs.

"They're undefeated," coaches say in conference. "So far, we have to look at them." Denver remains unbeaten, but it's not as if we spend any time thinking about it. We're just in worry about sports."

That, by and large, is the company line among the Broncos, predictably. They talk about taking them one game at a time. A year ago, they were about one week, not the playoffs.

For the most part, that strategy has worked. At 9-2, the Broncos have not avoided the midseason slump, the likes of which have plagued playoff teams. They have a two-game lead over San Diego and Kansas City in the AFC West, with a game at Kansas City Sunday at Dec. 4. Denver has positioned itself to be a serious title, a home playoff game, and a bye week. All would be monumental. The Broncos have earned any of those since 1996, the year they won their second Super Bowl. That team is considered as their last playoff win.

Despite all that promising news, the Broncos have an important game up in the Super Bowl on Sunday. They would be a second seed, with a bye, if they were in the playoffs.

It would mean another week of prepping for Peyton Manning. On the turf.

In two games, the Broncos have missed the backfield that they had two weeks ago, when they gave up a combined 133 yards rushing in a pair of embarrassments. The pass rash has improved, with the addition of Courtney Brown and Scot .

QJ~

Life as a

CABARET

BY LOUIS VIRTEL

Cruel King and British Bloode never had the chance to perform as a duo, but their timeless talents made up Riverside Theatre's Riverside Theatre's 25 Years of Musical Theatre and Big Dinner. The opera, running Friday through Dec. 4 at the Excalibur Theatre, highlights the most enthralling music from the company's repertoire, showcasing songs and gags for the simplicity of musical theatre.

Performing with a quick, 7-foot grand piano, Riverside Cabaret serves as a family-friendly alternative to Riverside Theatre's 213 New York's Tony Award-winning director, Cindy Haas, with David Metal and Judy Herbold, along with director Michael Sokoloff, select 20 songs from 25 years of past productions. Opening with an oddly guttural, German tones of "Boot the Earth," a cut from Riverside's 1984 production of George Tabori's Brute on Brute, the show morphs into hilarity, energy, and classification in all the same song.

"It's just thrilling," Clark said. "It's great, great songs and top-notch performers and the ending is killer." Riverside Cabaret features three male and three female performers, including Kristen Medford, a former Broadway chanteuse in Luc Robitaille and one-time "Violets" star and the Founders Award recipient for best performance together through short narrations by Clark, who offers a chronological perspective on Riverside's past.

"I originally directed Brute on Brute, has also directed A, My Name is Alice, Spectacy The Magic of Carol King, and Blood Brothers," Clark said. "This play is all represented in the cabaret, and it's all visually visually, and as a director, it's to pull them together," he said. "But with this production, I had to have the vision of the piece, a physical world to support the piece, where there was really no narrative."

ILLUSTRATION: Dan Willberger-CF
Anders Simmons (right) poses during a break from performing a casual country-western song as pianist and vocalist Jennifer McKey (left) and Rod Hal dane (center) play during a rehearsal for University Cabaret '23: Many of Musical Theatre and Big Train at the Englert Theatre on Tuesday night. The performance, directed by Michael Siedentopf, is a collection of some of the best pieces performed at University Cabaret over the past 23 years.

A Riverside retrospective after 25 years

Kristen Dobruch and Amber Auman bell out tunes during a rehearsal for Riverside Cabaret: 25 Years of Musical Theatre and Big Bands on Tuesday evening in the Englert Theatre. The revue will be performed today through Dec. 10, at the Englert.

CABARET
CONTINUED FROM PAGE 1C

Notable places referenced in the two-letter aisle included the Café and the New York, Paris, and Reno, where they said, "Speak softly and carry a big stick." Their own words were "The Locomotion" and "Yes, I Can Fly." -- Lisa Bessar (173) about Riverside Cabaret.

The vivacious mishmash of musical-theater trinkets in its 25th year, with former director Renee Harris Pil- loted the feminist revue "Perfect, Now Change," wowed audiences with its eclectic mix of original music, dance, and comedy. When the curtain closed, Harris and her cast and crew received a standing ovation, a testament to the production's success.

"People needed gathering places, and the theater provided that," said Harris, who was inspired to create the revue after seeing a performance in Paris, "The Locomotion," a big hit in the 1970s.

"I saw the production of a show in Paris, and I was so impressed," Harris said. "I felt like people could talk together in the theater and shoulder to shoulder together in the theater and we could talk about what was happening in our lives.

"I think the theater provided that for people, and the theater provided that for me."
BY CHARLIE MORAN

WHAT: A new signing.
WHERE: The Big Bang Theory, Kansas City, Mo.
WHEN: The band will release a new album this spring.

Butterworth is a label that's developed a strong following in the past few years, thanks to its collaborations with artists like The Nadas and The Black Keys. The band's latest album, "Listen Through the Static," is set to be released in April, and it's already generating buzz among music critics.

"Listen Through the Static" is a collection of 10 tracks that showcase Butterworth's signature sound: a mix of psychedelic rock, blues, and folk. The album features songs like "Peer Pressure," "Last Call," and "The Long Way Down," which have all received positive reviews from critics.

Butterworth formed in 2014 as a four-piece band, and it has quickly become one of the most talked-about acts in the local music scene. The band's成员 are: Newt Smythe (vocals, guitar), Todd Butterworth (guitar, backing vocals), Rob Butterworth (bass), and Josh Butterworth (drums).

Butterworth has performed at numerous festivals and venues throughout the Midwest, including the Midwest Music Festival, the Kansas City Blues Festival, and the Independence Day Concert. The band is currently on tour and will be playing at several venues in the coming months.

"Listen Through the Static" is available for pre-order now on the band's website, and it's sure to be a hit with fans of psychedelic rock and folk music alike. Don't miss out on this incredible new release from Butterworth!
