most flooding occurred, the city declared a state of emergency and ordered residents in the area above the building to evacuate.

Mayor Frank Bolduc said Monday night’s City Council meeting was a “good first step” toward recovery efforts in Iowa City. “We have a lot of work to do,” Bolduc said. “We’re in the beginning stages of a very complex problem.”

Long road back for Hancher

By Katie Hanson

Seats in Hancher Auditorium were still submerged on June 15, but Hancher reached the stage floor.

Because of extensive flood damage, Hancher Auditorium will be closed for the 2009-2010 season.

However, officials say the auditorium is taking baby steps rather than limping toward responding.

“We’re getting to an assessment of damage and then beginning to think about repair and recovery,” said Judy Hart, the auditorium’s director.

Water has been drained from the stage and hancher’s machinery and room, which has given Hancher staff at least a limited picture of the state of the facility.

“The situation for our water is that you have a good amount of water on the stage and went back to Row D,” said Executive Director Charlie Swan.

“But in terms of operation, the theater’s mechanical system has been destroyed.”

Both Hart and Swan are disappointed about losing the Sprungwood Stage, which was custom-built in layers of rubber and plywood to give dancers extra buoyancy. The venue will also need new seating, because the value seats have absorbed mold and cannot be salvaged.

“This seems to be the worst destruction the theater has ever experienced, which has allowed Hancher administration to comment on how we might deal with it.”

“We moved the two Steinway pianos into one room with the electrical equipment,” said Swan.

“It’s very heartbreaking, but we’re trying to take a real positive spin and make汉彻’s better than it ever was.”

The auditorium was especially happy to have retrieved costumes from Brazilian percussionist Cyro Baptista’s performances last season, he said.

The costumes, on lease from a shop in Spencer, Iowa, so impressed Baptista that he asked the outfit’s assistants to design identical pieces. The costumes were kept in basements on the stage but suffered no water damage, Swan said.

Hancher opened again, the theater’s staff has moved to the Lindquist Center’s Stock Building.

“The university did a great job of releasing Hancher,” said Hart.

“And we’ve been well taken care of by the university. It’s been a real positive spin and make Hancher’s better than it ever was.”

A lot of high schools and churches have offered their buildings for Hancher shows, Hart said, and has also been impressed by the nationwide support.

“Many people take pride in Hancher,” she said. “People want at least as far as their event to us as possible to move forward.”

An outpouring of donations and support have heart- ened Swan, who is confident about the auditorium’s future.

“Hancher is a gem; we just need to get that gem back in working order,” he said. “We’re going to do it.”

Afghanistan deaths pass Iraq

By Jason Straziuso

KABUL, Afghanistan — Militants killed more U.S. and NATO troops in Afghanistan in June than in Iraq for the second straight month, a mark that worries officials who say that commitment into success.

Defense Secretary Robert Gates has noted that more international troops died in Afghanistan than in Iraq in May, the first time in a long while.

Hannull, while that trend — per the Associated Press —

Grow Iowa Values Fund needs retooling to be tool for growth

The recent floods came at the worst possible time for Iowa's economy, with its struggling agriculture already in peril. However, not all of Iowa's economic troubles are attributable to outside forces. As it turns out, wasteful spending and corporate handouts continue to plague Iowa's already struggling financial infrastructure — the result of legislation drafted within the state's own borders.

The Grow Iowa Values Fund was implemented in 2003, during the first year of former Gov. Tom Vilsack's second term. Lauded as a way of encouraging both firms to sign short-term contracts, after which they are free to pack up and leave. Hence, while companies are vigorously motivated to show up, they have little or no incentive to stay.

Another problem lies in the difficulty inherent in assessing the fund's progress. Because we cannot observe how the funding is allocat-

ed within a given company there is no way to judge what improvements are direct results of the fund. That is, it is often impossible to tell whether any newly created jobs would or could have been created oth-
erwise. Despite this uncertainty, some of the fund's appropriations are more dubious than others. Wally Fogo, for example, received funding in return for its decision to bring more jobs to Iowa. However, considering the net worth of Wally Fogo, it would seem that a few million dollars would do little to improve any disaster that would not simply have been made

more.

This ‘traveling circus,’ once a highly unorganized festival, is now a well-organized, well-attended outdoor variety show coming to a venue near you.

By Kathleen Serino

Steve Carlson is one of those artists who have a goal in mind that is beyond pure entertainment and help raise money for a cause. This time, Carlson’s dreams of a festival with friends was made true in 2004 when 88 bands, artists, and comedians came together to raise money to help flood relief in Iowa. This year Carlson finally realized his dream and organized the Tour F*** Yeah Festival. Carlson has done this before. He teamed up with corporate subsidiaries and organized the tour. Carlson has said they’ve had mini-tours in cities before but they did not have the same atmosphere. Carlson hopes to raise money possible, you wonder? Money?! Girl, gave up the hand and learning that relief doesn’t have to be a plan. They don’t have to. It’s the best thing that has happened to the area in such a mess.

Carlson’s “circus” will play tonight at the Englert Theatre. This ‘traveling circus,’ once a highly unorganized festival, is now a well-organized, well-attended outdoor variety show coming to a venue near you.

Kelly hungry for next year

Vinton Merchant head coach Joe Wilson decided to up the tempo in the second half, using his three guards, Kelly, Johnson and Farokhmanesh, to outrun their opponents.

“We thought they were going to be a little slowed, and then we decided to pick up the intensity and put a little bit in the second half,” the coach said.

With 5:10 left in the game, Vinton Merchant led by 14 at 41-27. Goodfellow/Imprinted trapped on defense down the stretch to try to keep the ball out of the hands of trendsetters.

In the end, though, it was too late to turn back the mark down from previous years, and Vinton Merchant made its free throw routine.

For Goodfellow/Imprinted, former Hawkeyes forward Greg Bruner had another strong game, scoring 24 points and collecting 12 rebounds. After the game, he told the AP that he had just concentrated on playing defense.

“I’m just working on being smarter and obviously stronger, and in our offense, we can’t afford to take ‘easy’ shots,” he said.

With a year under his belt, Kelly should have an integral role in coming to play for the Hawkeyes this season. The 2008-09 squad will look forward to having a solid supporting cast alongside him.

“We have a lot of support from our seniors, and it is a shame to let them down like that,” he said. “We believe that we have some good leaders here, and we’re working extremely hard. We’ll be there next year.”

**Primetime from 10**

anticipation for the upcoming Hawkeye basketball season.

After a tumultuous year that saw a head coaching change and Todd Lindsay navigate the Hawkeyes through a 12-19 Big Ten season, Kelly is anxious for new beginnings.

“It is a sour taste in my mouth to end, losing all these games,” he said.

The 6-4, 185-pound Kelly has been praised by coaches and fans alike for his multifaceted game.

“I think he’s a very well-rounded player, and he’s learning,” said Lind. “We’ll see how he matures and continues to improve.”

Despite his growth and development, there were times when the Hawkeye was getting too much of a good thing.

“I expect big things to stay in shape and lifting weights, Kelly is using the summer and the Prime Time to improve his skill set to make him more than a threat.

“Jake Kelly

Hometown: Coralville.
Class: Senior.
Position: Guard.
Expected college: Iowa.
Expected year: 2009-10.

“I am very excited to see this year. I think we have a really good chance of winning the conference and making it to the NCAA tournament,” he said.

Medical

Physical Therapist Manager
Ames Rehabilitation Center is proud to announce the appointment of Scott Gano as the Physical Therapist Manager at our clinic in Ames.

Gano brings over 10 years of experience to the role, having previously worked at another physical therapy clinic in the area. He holds a Bachelor of Science degree in Exercise Science from the University of Iowa and is certified by the American Physical Therapy Association (APTA).

Gano’s expertise includes treating a wide range of orthopedic conditions, including sports injuries, post-surgery rehabilitation, and musculoskeletal pain. He is also skilled in working with patients who have sustained traumatic brain injuries, spinal cord injuries, and stroke.

Gano has extensive experience in both inpatient and outpatient settings, and is committed to providing individualized care to each patient to help them achieve their goals.

Required:
- A Bachelor of Science degree in Exercise Science from a recognized institution
- Certification as a physical therapist by the American Physical Therapy Association (APTA)
- A minimum of 10 years of experience in the field of physical therapy

Interested individuals should submit their resume and cover letter to the attention of Scott Gano at AmesRehab@uiowa.edu. The position is open until filled.

Curtis, Hickey to compete

Although A.J. Curtis and John Hickey had less than stellar performances three weeks ago at the Division II NCAA Track and Field Championships, both are expected to do well again for the USA at the 2008 Summer Olympics in Beijing next month.

Hickey will be in Toluca, Mexico, for the North American Central American, and Caribbean Under 23 track and field trials in July. He will take part in the shot put, where he is a two-time Big Ten champion.

Curtis will compete in the 100 meter hurdles in Seattle and later placed fourth at the International Association of Athletics Federation world junior championships, which also took place in Oregon.

--- by Brendan Stiles

SWIMMING

Dwyer finishes 52nd

In a Round Robin competition against the best in the nation, Hawkeye men’s swimmer Conor Dwyer placed 52nd in the 100 meter freestyle on Monday in the 200 Division-I swimming championships at the U.S. Olympic Training Center in Omaha. The time was 5.51.25.

Dwyer's time was 5.51 seconds slower than the 2010 NCAA 100-meter freestyle gold medalist Michael Phelps, who won the event in 46.36. The fastest time was 44.25 seconds by pocketing his way to the top of the podium.

The race was the first of five for the men with a chance to qualify for London. The first set of meets pit a world-class level of competition. Sunday, Phelps set a world-class record with a time of 44.26.

The race was the first of five for the men with a chance to qualify for London. The first set of meets pit a world-class level of competition.

Hickey could not have qualified for the 100-meter freestyle, because he placed 1.13 seconds slower than the 2010 NCAA 100-meter freestyle gold medalist Michael Phelps, who won the event in 46.36. The fastest time was 44.25 seconds by pocketing his way to the top of the podium.
