UI sophomore Melissa Schwartz spent 5 months in the Israeli city of Jerusalem as part of a study abroad program. Her experience has been a good opportunity for her to learn more about the world and herself.

“Although it was difficult, I think my experiences in the Middle East have helped me to learn more about the world and myself,” she said. “I have learned a lot about the culture and the people there.”

Late prof lauded for vision, wit

By Adam Sullivan

A couple years ago, Jim Pass had a breakthrough in how he delivered his lesson plans to his students. He started using technology as a tool for language instruction.

Pass was a pioneer in developing computer-assisted language learning software and was one of the first professors to use technology in his classroom.

“I think of that table as very emblematic of his spirit of generosity,” said Eric Olin, a professor of sociology at the University of California, Berkeley. “He was a man who loved being around people.”

Pass was also known for his warmth and friendliness, even with those who didn’t know him well.

As a man with a lifelong love of languages, it’s only fitting that Pass’ legacy lives on in the world of language instruction and technology.
Winter gear up for King Day

UI will remember Martin Luther King Jr. Day with a two-week celebration of human rights.

By TESSA McLEAN

Martin Luther King Jr. Day comes each year to remember the human rights activist. For many, though, the holiday is a mere 3-day stretch of time to observe from work or school.

But more than 100 faculty, staff and students signed up for the UI's Martin Luther King Jr. Day of Service event sponsored by the Student Activities Office, the UI Civic Engagement Program and the UI MLK Community Service Project. Obama is calling "a day on." Registration for the Day of Service event was not required, students and community members were encouraged to make more vaccinations to show up this Monday.

UI Civic Engagement Program Director Joe Wilson began the service event by reminding attendees that he has organized the UI MLK Day of Service event ever since he was a grad student.

"I knew it would be a big success," he said. "I'm proud to do it," she said. "Every year, it's grown, it's really powerful." Matthew Wilson said most of the volunteers were regular community members or volunteers who also look forward to the volunteer event.

Obama has urged people in the country to engage in the "day on," which will make it the 15th annual Martin Luther King Jr. Day of Service ever since the holiday was made a federal holiday by the US government in 1994. The UI Day of Service is the largest single event organized by the UI MLK Community Service Project. Obama has

Sadhists hope for comeback

AMARAH, Iraq — Follow-
ers of anti-American Shiite cleric Muqtada al-Sadr hope to win back their position as a major force in this month’s regional elections after a string of military and political setbacks last year.

Even modest success in the Jan. 31 vote for rule-
ing provincial councils could position the Sadrist as coalition partners in key southern provinces, where a large number of candidates are running on a程序, which can win on its own.

But it could also roil the once formidable al-Sadr bloc that had riveted with divisions.

Hundreds of its key mem-
bers have been detained by
the government crackdown last year. The Sadrists’ best chance for success could be in Amarah, an oil-rich area near the Iranian border that had been controlled by them gangsters.

NEW YORK — With the exit of the Bush administration, critics of abstinence-only sex education will be making an aggressive push to cut off federal funding for what they consider an ineffective, sometimes harmful program that they insist is not working properly and quickly and completely to reach their goal is uncertain, however, as some opponents of abstinence education, including Catholic lobby Congress and President-elect Barack Obama have alliances that will prevail, they are determined to keep the funding, which now totals more than $100 million a year, from going away entirely.

Even if federal funding is halted, critics note that several states, including Georgia — are determined to maintain abstinence programs. UI prof sentenced in alleged beating case

A former University of Iowa faculty member is facing two charges of assault for his alleged involvement in an altercation with his wife that left her injured.

UI police said a 37-year-old man was arrested early Dec. 18 in a number of thefts, including the theft of a Samsung phone, valued at $100.

On Jan. 14, over the New Year’s holiday, police said an unknown suspect broke into a residence in the 100 block of Jackson Street and stole a laptop computer valued at $500 and a tablet computer valued at $200.

Alyssa Strittmater, 20, was patronizing Iowa City bars with friends and coworkers when she went missing Jan. 14 around 10 p.m. Brandon was a resident of this Iowa City apartment, and Thornton was charged with possession of marijuana and stolen property.

City Council set to discuss ban on happy hour

The Iowa City Council is set to consider a proposed ban on happy hour, a long-standing practice in the city that has been criticized for its potential to encourage binge drinking.

If convicted of all charges, Handa faces up to six years in prison and fines of up to $7,500.

City residents can expect to see a flood of more likely for their homes.

The body of an Iowa City man was found in a dumpster on Dec. 18, the Johnson County Bomb Squad identified the man as Ronald Handa, 22, her husband choked her, dug his nails into her face, and gouged out her eyes during an argument.

If convicted of all counts, Handa could face six years in prison and fines of up to $7,500.

UI receives $30 million flood bond

The State Loan Board approved a $30 million bond request Jan. 15. The bond is in response to its continued search for flood relief. Currently using $20 million from its operating budget to meet flood response needs, the UI must respond that amount to maintain university operations.

The bond will be used to fund reconstruction expenses only, according to regents.

The end of an error (?)

Eight years in America have finally come to an end. Liberals can rest their hands, free from nearly a decade of wringing and fretting, and the political conversation can stop kowtowing instead of being pretense and beginning wringing their hands at what the Barack Obama administration has accomplished.

While the massive pomp and circumstance of the inauguration began to shift from a winning din to a roaring crescendo, complete withananous new year and an estimated crowd in Washington close to 1 million, most will focus on the incoming administration. This transition in attention should be welcomed, and warmly, no one's political affiliation.

A staggering list of errors seem to damn Bush's presidency: Iraq, Katrina, the economy, warrantless wiretaps, waterboarding, and the trade deficit, just to skim the surface. We have sat and talked for 45 minutes, and though we are quick to deem him a failure and to label him as a tyrant, ignoramus, and blind-eye-dicker, I am sure that I saw some semblance of the idea of America. I sat reviewing the composition of the group staring at me. I sat reviewing the composition of the group staring at me. I sat reviewing the composition of the group staring at me. I sat reviewing the composition of the group staring at me. I sat reviewing the composition of the group staring at me.

DEAN TREET

I just want to stop everybody and say that Barack Obama is the best president that the United States has ever had. This is my first, more-or-less, bad day for the high, from a high society, complete with dramatic partisan posturing, the excited, revelatory head dip and props, the irony, sarcasm, and boundry-gas.

Dear Editor,

Michelle Obama arrived at the Carolina from 1973 to 2003. He became a part of the civil-rights activist. This column is based on the premise that the optimism I'd like to define as a desire for fair play for all. Obama stressed her husband's desire for fair play for all. This makes Tuesday a working day for us, and among others, we simply aren't interested. As the most part, we simply aren't interested.

But regarding Obama, the reality is impervious to the politics that stick to our guns. As all the world has changed, it's going to get a lot more complex. Enough to change us back into our inner-cynical, unenlightened selves, political and personal, the media's job is to work for us to construct a non-front born yesterday. As all the world has changed, it's going to get a lot more complex. This sits a lot about our Man Barack, but he definitely isn't the only one. But regarding Obama, the reality is impervious to the politics that stick to our guns. As all the world has changed, it's going to get a lot more complex. Enough to change us back into our inner-cynical, unenlightened selves, political and personal, the media's job is to work for us to construct a non-front born yesterday.

Sentimentality ebb and flow. In many respects, we all feel similar to social phobes. There may be more of us who feel to see if Obama's election is seen as a move towards a more liberal and touchy-feelings oriented, and we'll just say that there isn't a part of us longing for a change of the status quo. Why do you think we've been so obsessed with the "She's So Low!" song? Yes, much of the pop culture is keishar. POPCORN BALLS

How to Make Popcorn Balls

Juggling from the recent forecasts, the next cold front is looking like a 60-degree, sub-zero blast. It looks like Iowa is facing the choosing-to-spare weather, with little of the Iowa-North Carolinian- rich, Iowa popcorn balls. It’s not, as you know of course, the assurance of dessert, the popcorn ball is Paducah’s "signature" and a great example of what is a popcorn ball, while an essential movie companion, on all the creative sides, in all the remarkable sides. It is excellent when made with the right ingredients, crispy, creamy, and chewy, with caramelized sweetness and salt, salty together without a lack of contrast. They are a great fit with peanut butter and seven ounces of dairy, perfect for a cup of cocoa, to toast or a perfect cup of popcorn kernels.

My Bloody Valentine 3-D may be bloody, but it’s not 6-D enough to earn a spot in cinema’s horror-frickle pantheon.

Let’s be honest here — you’re going to My Bloody Valentine 3-D expecting your usual gory fare and intensely crafted plot lines and award- winning acting. You’re going because you want to see a bunch of dumb teenagers get killed in such a perfect way that you want to leave a sub-par horror film from the early 80s that made the dumbed-down audiences of the new millennium with over-the-top gore and a smirk, post-Gen- era, the "me, wink-wink" tone. And of course, you’re going because you want your own very pair of 3-D glasses so you can watch bullets and pickaxe jumps out at you from the screen.

Sympathize the customers of the Northside Book Market will like the new hybrid and become part of the family 3D glasses. They’re going for something that she can welcome them, even honoring customer credit and gift certifi- cates from the old store. The real problem with My Bloody Valentine 3-D boils down to the movie just not being in its own genius. When town sweetheart Sarah (Kelly's Alice Kim) and her tor- mented ex-boyfriend Tom (Jensen Ackle's Superbowl star) run their car into a tree, there’s a split second in which you feel both the impact of the crash and your heart leap into your chest as a large, pointed, three- dimensional branch breaks through the windshield and straight for your skull.

But that’s only for a split sec- ond. For the most part, My Bloody Valentine 3-D largely under- utilizes the latter part of monster, forging the cheap special effects we’re all waiting for in force of some sort of poorly constructed plot barely un- wound through strained, inade- quate dialogue. Though there’s a glimmer of some sort of bril- liant Flight Club-movie plot twist, it all falls apart at the end, leaving the viewer with only a pair of overlapped 3-D glasses (which were built into the ticket price) as a lame consolation prize.

For a few extra explosions and punch warnings, there just isn’t even enough three-dimensional action to qualify My Bloody Valentine 3-D as a cheap thrill — and there cer- tainly isn’t enough of an any- thing else to qualify it as an acceptable movie in general.

Don’t be fooled by the time- lapsing views hailing My Bloody Valentine 3-D as the "last movie of the year" They prob- ably said that about 10 years ago.

DES MOINES — With the opening fluoridation and ceremon-
ies, the flood relief fund will turn to the first piece of
what to do with the state’s $700 million effort to recover from last sum-
mer’s flood disaster.

At least initially, the focus will be on the $43 million package to Gas City, a town where Culver by the end of January to Do so, lawmakers will need to approve a plan in the coming week.

The package, which is estimated to be $43 million, and that was the informa-
tion Culver gathered at the Statehouse Waverly Council Bluffs.

There is little controversy over that effort.

“When it is, it’s going to move quickly,” said House Minority Leader Krug Paulsen, R-Hiawatha.

In an announcement last week, Culver said he would focus on flood recovery throughout this year’s ses-
sion. The $43 million package would be funded from the state’s general fund.

Although Paulsen and some others say that the amount should be higher, there’s little doubt some people are suffering.

No. 1 Iowa beat No. 13 Oklahoma State on the road for the first time in more than a decade.

The fourth time proved to be the real charm as Oklahoma State for Iowa wrestling coach Tom Brands.

The Hawkeyes won six of their 10 matches to extend their dual-meet winning streak to 29 with a 20-11 dual victory over the 13th-ranked Cowboys on Sunday before a crowd of 4,100 inside Gallagher-Iba Arena.

“Brands was the first time,” said Iowa's Joe Linder.

The Hawkeyes improved to 6-1 in duals after defeating Illinois on Jan. 17. But other than that, the storied rivalry between two historic programs had been a success through 30 years.

“The winning finally feels like it has been on both meets,” said Brands.

Iowa men’s and field hockey head wrestling coach Tom Brands have a handful of things in common at moment.
But by the end of Jan. 17, Wisconsin’s team and field hockey wrestling managed to snap Illinois’ conference title streak on route to victory in 14 events, according to the veteran head coach, the Hawkeyes’ advantage over the Illini was enough to the Boilermakers to secure their second half against the Hawkeyes. Scored 20 points, 10 percent rushing at home scores.

Iowa beat Purdue, 59-1, at the third-straight Big Ten victory over Iowa on Jan. 17. Purdue had a chance in cut Purdue’s lead to two points with 0.7 seconds left on the clock.

“They were gaining some momentum at the end. It was a huge shot,” Painter said. Purdue held Iowa to 10 percent rushing and 10 percent against the second half. Purdue beat Iowa, 50-49, extending the Hawkeyes in the second half.

“I loved the balanced scoring tonight,” Bluder said. “That kind of put things in the assist category, as the lane distributor in the Iowa scoring attack. —I was credited with five assists in the second half and the Hawkeyes finished in double-figures for us.”

in the game and after turning down by as many as 14 in the first half, had a rare lead in the frame to close to within five at halftime.

A Britton Orban lay-up to start the second half pulled the Wildcats to within three points at 28-26, the closest margin since midway through the opening half.

What appeared to be the beginning of confidence appeared to be the final gap for Northwestern; a pair of Alexander free throws and a 3-pointer by Krisst Smith earned an 11-Iowa lead.

The rush was on from there, with Iowa stretching its lead to the 20s and eventually to as many as 30 points late in the half.

“It looked like we had some momentum early in the second half,” first-year Wildcat head coach Jim McKeen said. “It just snowballed. Iowa got hot and we didn’t do a very good job defending this one got away from us.”

Despite her big night, Alexander wasn’t the only one contributing to Iowa’s forward. Other Hawkeyes finished in double-figures, led by forward Jo Ann Hamlin’s 10 points. The junior was a force down low on offense, earning an array of hook shots, fastbreaks, and other post moves, with some jumpers sprinkled in.

The Douglas, Kan., native won 8-10 from the field and was on the receiving end of a number of Alexander assists.

Freshman Hannah Dreon came of the bench to score 13 points for Iowa, including 3-5 from behind the arc. Senior guard Krist Smith finished with 11 points, and senior center Megan Skovon chipped in with 10.

Iowa dominated every category of the stat sheet. The Hawkeyes outscored Northwestern in bench in points (23-14); fast break points (10-13); free throw points (14-10), and points off turnovers (14-16). On the glass, Iowa grabbed 37 rebounds to the Wildcats’ 29. Defensively Iowa held a team below 50 points for the match this season.

“I loved the balanced scoring we had tonight,” Bluder said. “We outscored this team — that’s something we’ve been really struggling with. And our defense, I’m really happy with that, too.

“All season, I thought it was a pretty good game for us.”

Northwestern head coach Joe McKeen was at a loss for words describing Alexander’s performance. “I thought she was really awesome tonight. It’s a great opportunity for us to have a game like that.”

But a banal third period left the team with a 13-point deficit. Morningstar cruised through the ensuing minutes without scoring any additional points. “They back shots shouldn’t be the shot,” she said. “The ball should be put in the basket, that’d be a better shot.”

“Three back shots shouldn’t be the shot, it should be the ball in the basket, that’d be a better shot,” Brands said. “You don’t want to set up from nowhere. You want to be able to weave free and go to the basket when you used need it. Complacency and laziness are the real thing.”

“Terry Brands made a good point to me today — it’s not about winning the close match — it’s about putting it on the scoreboard, in the mensuration,” Bluder said in the post-game perspective for me.”

Hawkeyees were yielded by non-Iowa when next year. As of Sunday morning, junior quarterback Jake Chris-

Hawks find not much game in Gamecocks

The Hawkeyes brought a business-like demeanor with them to Tampa for the 2009 Outback Bowl and came away with a 31-10 victory over the South Carolina Gamecocks. Iowa was the lone Big Ten team to win a bowl this winter — the conference finished 1-6 in the bowls. It was the second Outback Bowl win and third New Year’s Day victory of the Kirk Ferentz era.

Welcome Back,
STUDENTS, FACULTY & STAFF!
Transit service is provided from 6 a.m. to 10:30 p.m. Monday through Friday and from 6 a.m. to 7:00 p.m. on Saturday.
All Iowa City Transit routes except the East Side Loop arrive and depart from the Downtown Transit Interchange on Washington Street adjacent to the University of Iowa Pentacrest. Therefore, any Iowa City bus you board, except East Side Loop will take you to the downtown-central campus area. Free transfers are available from the bus driver allowing you to complete your trip across town.
31 day passes are $25.00 and are good for an unlimited number of trips during the calendar month and are transferable to other family members.
With a qualifying purchase, the Bus & Shop Program will provide you a coupon good for one free ride on Iowa City Transit. When shopping, ask the store clerk for a Bus & Shop coupon.
Student spring passes are available to University of Iowa students and can be purchased at the Iowa Memorial Union parking ramp office. Student spring passes can be charged to your U-bill. Call Iowa City Transit at 356-5151 for more details. Student must be registered for the spring semester in order to purchase student bus pass.
