Find a thrill on blueberry hill

As word spreads, an orchard sees more customers come to pick blueberries.

Orchards on Sand Road

Fruits and vegetables sold:
- Apples
- Grapes
- Cucumbers
- Tomatoes
- Pumpkins

The Orchards on Sand Road, formerly Buck’s Berry Farm, is located around 20 miles outside Iowa City — and it is having a “bumper season,” meaning there are more blueberries than usual for customers.

It’s something Iowa City resident Eileen Kjonaas, 60, and sister Nancy Reynolds, 54, who is visiting from Illinois, said they were excited about.

In an hour on Tuesday afternoon, the pair picked a little under three pounds. Reynolds, joining her sister in front of a veranda, loaded with fresh tomatoes, cucumbers, and yellow squash for sale, remembered the blueberry pie her sister made the last time she picked blueberries from the orchard on Kjonaas’ last visit to Illinois.

Frosh surge nearly trumps plan

The UI does not expect to see as large of an increase in the number of freshmen next fall, one official says.

By COLLEEN KENNEDY

In just one year, University of Iowa officials did not predict such success in the first year of the five-year plan.

“Admission was offered to these students who are eligible, and a lot said Great, we’re coming,” he said.

The UI’s reputation — especially internationally — has played a factor in the increased enrollment numbers, said Beth Ingram, the UI associate provost for undergraduate education.

The plan was to add 500 students to the UI, and the university will continue to work toward that goal, Barron said. This year, two admissions officials estimated the freshman class will be 4,500 students, last year’s class was 4,063.

“Having a duplicate year will put us over that number, which is not our intention at the moment,” Barron said.

The UI will discuss the need for possible changes to the plan this fall once registration numbers are in.

Class size: 4,083

“I am not sure if the plan, as currently written, is complete, but the current focus is accommodating the additional incoming students,” Ingram said.

The dean of Open Mike

J. Knight, an Ohio native, has opened Open Mike Mill for 29 years.

By JOSE MORENO

Musician Everson’s case.

Cedric Jones, 21, pleaded guilty to a theft charge in connection with a "self-inflicted" shooting.

The 21-year-old pleaded guilty according to court records.

The closest race is the U.S. Senate race.

The 63-year-old director of the Mill's "Open Mike" night is looking to the future.

In the past five years he has been giving up on stage.

Willis Jefferson Knight's "Influential Song" made the music scene.

"At the mill it's a little different from the others,"

The whole thing is a combination of "nearly everything."

  - Monday's bid: $4.0 million

**Score: 83 percent Total Score and 92 percent at School Board meeting**

**UI expansion**

UI's offer to purchase the building is subject to approval from the Board of Regents.

**CAMERAS CONTINUED FROM 1**

Officials have begun installing the security measures in phases for budget reasons, said Vicky Stange, the UI assistant vice president for University Housing. A portion of students' room and board fees will cover the $650,000 project, a UI spokesman said.

The money funds the installation of card-reading stops and security cameras in Currier and Stanley Halls as well as other miscellaneous security expenses, a spokesperson said. More will be needed to separate public space in the corridor near Roosevelt Hall from dorm rooms.

The security cameras will monitor exterior access points to the buildings, said Greg Stange, director of operations for Residential Life. He said the campus decided to move forward with electronic doors to better secure the buildings.

The security measures are due to track who’s coming into our buildings as well as outside video access,” he said.

Each exterior door will have one powered security camera, Aaberg said. Other entryways, such as fitness centers and Information Technology Centers, are card accessible as well. Security cameras will only monitor doors that lead directly to private dorms, such as elevator doors and dorm corridors.

The system will also help track who enters or leaves a building after another person has opened the door, or has his or her card to unlock doors, Aaberg said.

This is a common occurrence, and UI senior Andrea Cohen, and she likes the idea of security cameras.

“People always open the door for other people and ‘delivery people,’ Cohen said, who has lived in Bierman and Hill- Crest Halls, both of which use card-swipe entryways.

Gerard Electric Inc., is installing more than 40 cameras, said Dan Davis, the company superintendent.

“Tus one site and monitors the (camera) like a security guard,” Aaberg said. “It goes into a DVR and anytime there’s an incident, we can go back and review it.”

The UI police will be involved with reviewing the recordings, Aaberg said.

Boors and Drug will be the final two dorms to receive the security upgrades next summer.

HIV policy should be lauded

ZACH WAHLS

I was in high school when Iowa City voters first stood up to protect our young people. Like nearly all of us from that time, I was old enough to stay up past my curfew, and young enough to bePACEable, all for sticking up for an idea that was wrong. I was completely small- ered by it either way at all.

This time around, things are a little different. Hawaii facts of life. During the 2009-10 school year, the University of Iowa government provided 41 percent of the University of Iowa’s budget. Thirty years ago, that number was 78 percent.

The incoming class at the University of Iowa is the largest in its 165-year history, according to the Administration Office.

For the first time ever, there will be more out-of-state students than in-state students in a single class, also according to the Administration Office. Out-of-state tuition and fees are expected to quadruple the amount for in-state students, the former being $832 and the latter being $4,475.1 for the 2009-10 academic year.

The UI was ranked 13th among Princeton Review’s 2009 Top-20 Party School lists, with the UI students known for their partying and beer releases.

One other hand, the Princeton Review ranks Iowa as one of the top schools at 72/100.

This doesn’t degrade or turn around the scholastic reputation of the school. We have a number of freshman from the City West High who went on to “party hard” at “reputable” schools than Iowa. But, for someone who has never heard of UI, it doesn’t sound like I’m giving much at all.

The resources available here are incredible. Attend a football game, a student is willing to work for that.

But the simple fact of the matter is the result of my peers aren’t for nothing.

They’re here to party. And I’m here to work. And I’m here to work for a good education. But the bottom line is the student is willing to work for that.

The bottom line is the student is willing to work for that.

This is the largest in its 165-year history, according to the Administration Office.

A local bluegrass band plays regularly at the Mill.

**CONCERT**
*Burlington Street Bluegrass Band*
*Where: The Mill*
*Time: 7 to 9 p.m.*
*Admission: $5*

**A local bluegrass band plays regularly at the Mill.**
*By JASON M. LARSON*  
*Concert Editor*

Several years ago, the Burlington Street Bluegrass Band formed, playing all over Iowa. The band members now lead a group of bluegrass musicians that have played music with each other for years. They decided to keep the band together. Black Box on banjo, Mark Wilson on guitar, Al Murphy on fiddle, Al Murphy on electric guitar, and Dale Thomas on vocals. This week, Wilson is riding in Black Box. Warren Hamlin will sit in. In addition to the regular all-ages gig at 7 p.m. today at 207 S. Burlington St., the band will perform on Aug. 6 for the Fire Night Concert Series on the Pedestrian Mall.

The group members have a varied sense of recognition. Al Murphy has found music a master-fiddler five times and Dale Thomas five times. Among the many influences he has, he said, his first one was his Uncle Leo, who was a popular fiddler who used to play country music. "Before I started to play, I was listening to a country singer," Al Murphy said. "I had kept my ear open. Al Murphy was a master fiddler and Dale Thomas was a master singer. So I built my sense of recognition from that of his previous novel.

It was a totally different time, Sherman said. "It's different today; it's different even today. You can't do what you did in that time. It was a different time." Al Murphy said he was inspired by a past relative who discovered by his uncle.

"I had run other businesses as a musician," he said. "After a while, I said, 'Why am I not treating this like a business?' Before I started to play, I was listening to a country singer," Al Murphy said. "I had kept my ear open.

In addition to his writing career, Al Murphy has also been a writer. He has written music and published books.

Where did all the Gulf-spill oil go?

John B. Priscu, Oregon State University

New Orleans — In the nearly two weeks since a temporary cap stopped BP's gusher at the bottom of the Gulf of Mexico, not much oil has been showing up on the surface of the water.

Scientists say that doesn't mean the crude is gone. It just means it's still out where it's been, in the Gulf, though no one is sure quite how much or exactly where it is.

"You know it didn't just disappear," said Ernst perfectly for now.

John Priscu, the head of the National Oceanic and Atmospheric Administration, said gov- ernment and independent analysts have been working hard to figure out where the oil might have ended up.

Priscu says scientists have hypothesized that some of the oil might be

May did a really good job — or was it the Black and Gold vs. the 13th-ranked Nordhawks? Whatever.

Maybe it was the Black and Gold vs. the 13th-ranked Nordhawks?

With a minute left.

Northwestern.

Blevins, a former Iowa guard, was stellar defensively, holding the Badgers' 10-3 season.

He held Northwestern to 16 points (12th-best in the nation) and eight rebounds.

McCabe, who finished the game with a game-high 31 points, was quick to deflect credit to his teammates — especially May.

“I just try playing hard every single game I'm on offense and defense,” McCabe said. “We all played well as a team today. Winning the championship is pretty fun — I had a lot of fun playing with (May) and all our team.”

A quick quiz to see if you’re the guy who reads my bus every morning:

Are you a big fat guy who really needs his Z?  Top 76 World Wide Texas “Who’s the Fat Man? Top 30” (much)?

(No/Sub)

Do you have a pheasant, completely controllable flat-tennis racket, a good job and beautiful wife, not unlike the damp, rotting corpse of a chuckle-dipped in acid? (Yes/No)

(Yes)

Have you ever cleaned the dishwasher with a golf putter and a potato chip bag with a golf pencil that you found on the floor of a used car? (Yes/No)

(No/Sub)

The pointy end? (Yes/No)

(No/Sub)

Did you then, later, stick this pencil in your mouth and chew on your nose? (Yes/No)

(No/Sub)

What the hell is wrong with your nose? (Yes/No)

(Yes)

When presented with a very proper lady carrying large bags who asks you to scoot over, giving her a place to sit, in a public place like a church, and ask: Didn’t you have that and even take it? (Yes/No)

(No/Sub)

Are you an obvious walking contradiction to the theory of human evolution? (Yes/No)

(Yes)

ANNE M. R. JUHL

Deanna Kuhfeldt, associate editor, and I are looking for Ledge stories in the Amana 
Tribune starting today and through April 19. Call 362-1099 at 9:30 a.m.-11 a.m. and 4:30 p.m.-6 p.m. in Creekside Park, Fairmeadows Park, and 38th Ave., Amana Top 220th Trail, Amana. Stories in the Park are open to everyone.

If we think it’s good, we’ll run it — and give the writer the right of refusal. You can submit a Ledge at the IMU River Room kitchen on Tuesday. She said that the patties would likely be used on your year-old dumberson.

Don’t you have, perchance, a very round, sort of round, thing you’ve always wanted to do? It’s idle time that will bring you down. A close relationship.

McNabb starts over

By JOSEPH WHITE
Associated Press

WASHINGTON — With Stephen Strasburg ruled out as a starter, Washington Nationals manager Jim Riggleman was forced to make a pitching decision before the Nationals’ season opener against the Atlanta Braves.

Strasburg had been scheduled to start in place of ace Max Scherzer, who is still recovering from an elbow injury. However, Riggleman said Strasburg experienced mild chest discomfort during warmups Tuesday night.

Riggleman said Strasburg would need to be monitored for a few days, but it was a blow for the team that had high hopes for the right-hander. Strasburg made his major league debut for the Nationals last season after being the No. 1 overall pick in the 2009 draft.

Strasburg misses start; Nats win

By HOWARD FENDRICH

WASHINGTON — With Stephen Strasburg ruled out as a starter, reliever Miguel Batista was pressed into making his first start in nearly two years — and the 30-year-old journeyman was rather Strasburglike.

Washington’s Batista allowed only three straight singles in five scoreless innings, allowing only three singles and a walk in his opening start, a 3-0 shutout for the Nationals.

Washington National Miguel Batista pitches during the first inning of a baseball game against the Atlanta Braves, Tuesday, April 5, 2011, in Atlanta. (AP Photo/David Goldman)

Search for softball coach continues

Iowa wants a coach who can continue its softball legacy.

By MITCH SMITH

For the first time since 1988, the Iowa softball team will take the field under new direction. Fall has been more than a month since legendary softball coach Gail Ervick retired after a 25-year career at Iowa, and the search continues for someone to replace the record-setting success in NCAA softball history. Pati Fuqua, an Iowa assistant coach for the last two seasons, has taken over the head job at the head of the search committee.

A former pitcher out of Minnesota, Fuqua has spent most of her time off the mound working with individual pitchers because of a left-hinger who had surgery for a severe injury in a game against Ohio State last October. Fuqua’s mission that holds the key has been in place. When Fuqua departed as the Cyclones’ all-time leader in receptions (227) and years receiving (1,300).

The Cyclones also welcomed Oklahoma State’s Thaddeus Harris, offensive and defensive coordinator Chris Martinelli,
