IC mulls red-light cameras

Five Iowa cities already have red-light camera enforcement.

By ALEXSON SULLIVAN
photojournalist

Iowa City drivers could see an extra pair of eyes at several city intersections early this summer.

The Iowa City City Council will discuss the possibility of installing red-light cameras at 10 intersections at tonight's work session.

"I think it's something that needs to be addressed," he said.

The 10 most dangerous intersections in Iowa City are responsible for 32 injury-causing accidents, resulting in nearly $1 million in property damage in the last decade. More than 180 vehicles have run red lights at those intersections, and police have reported almost 4,000 complaints.

"It's absolutely supportive of the red-light cameras," said Councilor Mike Wright. "We have a real problem in Iowa City running red lights. I see it almost every day."

According to city documents, Iowa City police officers logged 1,380 hours working at 1,071 traffic accidents. Hargadine said adding cameras would allow officers to do more community-based policing.

"If we can reduce our officers' times, that's increased safety, I think it's very important that we look at," said Councilor Terry Dickens.

But while Dickens said he would support the measure, Councilor Connie Champion said she is more reserved about the possibility but she'll listen to discussion.

City tests indoor farmers’ market

Twenty-six vendors will sell goods at the upcoming test market.

By KATIE HEINE
photojournalist

Baked goods, fresh eggs, and homemade sausages may soon be freely staged away for Phyllis Rosewinek.

"Only tall grass separates the 65-year-old's house and Wood Elementary School, where a roaming indoor farmers' market may be implemented if three upcoming test markets receive strong interest."

"It would be wonderful," said Rosewinek, who moved to the Wood Elementary area in 2009.

She said she usually avoids the downtown market because it’s often congested. But a market a few hundred feet away would be quite convenient, she said.

The Iowa City Neighborhood Services Division, with support from the Iowa City Farmers’ Market, is coordinating three upcoming indoor farmers’ markets at Wood Elementary, 1400 Lapidus Drive.

After the third season, officials will survey the vendors to see if a year-round market is worth pursuing, said Marvin Bollinger, the Neighborhood Services coordinator.

UI arrest rates spike

Officials said arrest rates should return to normal once residents adapt to 21-only.

By LARRY BRUCE

The number of people arrested by University of Iowa police more than doubled between 2009 and 2010, with the biggest increase during the second half of the year.

The number of University of Iowa students charged with an alcohol-related crime also rose — by more than 30 between the third and fourth quarters of 2010. According a report set to be presented to the state Board of Regents at its Wednesday meeting, 205 students received alcohol-related charges between October and December 2010. Only 169 students received charges between July and September.

"I think it's something that needs to be addressed," he said.

University of Iowa Scholarships Available

In honor of Roy J. Carver who achieved success through initiative and hard work, twenty-five $10,000 scholarships will be awarded for 2011-2012.

Eligibility Requirements:
- Iowa resident
- 2.80 cumulative GPA
- Junior status Fall 2011
- Demonstrate financial need by filing the FAFSA and Carver application prior to June 1
- Social/other barrier to attending college full-time

The object of red-light camera is simple: to deter drivers from running red lights. The Iowa City Council will hold a work session tonight to discuss the pros and cons of the implementation of red-light cameras in Iowa City. The city has been in discussions with an engineering firm about the feasibility of installing red-light cameras in the city. The firm has estimated that the cost of the cameras would be around $1 million. However, the city has yet to make a decision on whether or not to proceed with the installation.

Iowa's former 'imagineer' at Disney, has found a second career building bicycles for disabled people.

If n.lilllty, 5 amusement rides from Disneyland and Soarin' in his creation.

Some bikes of a different color

Tim Kelley, a former 'imagineer' at Disney, has found a second career building bicycles for disabled people.

"That's the payoff. Watching them go down the street, grin on their face, wind in their hair," said Kelley, former Disney 'imagineer' who now builds bikes for disabled riders.

"It's a little like putting on a suit," he said about the minute adjustments he makes to each custom bicycle.

Without ever earning a college degree, Kelley worked for Disney as an 'imagineer,' helping to design one-of-a-kind amusement rides from Disneyland and Soarin'.

"What Disney did for me was challenge me outside of my comfort zone," said Kelley, who created his own business to build bikes for disabled riders.

Kelley builds bikes for disabled riders. His creations match the riders and are like nothing they have ever seen before.

"I don't like really tall stuff," Kelley said. Rather, he creates custom bikes for his customers' needs.

"(Kelley) let us know about his background in engineering," Heiser said. "What he's able to do just by himself... I've never seen anything like it before."

The bikes with electric assistance motors can reach speeds of more than 15 mph and are like "a treadmill going down the road," because riders can propel themselves up a high speed before starting to row exercise, Kelley said.

"That's the payoff," he said, leaning back in his chair with a content smile on his face. "Watching them go down the street, grin on their face, wind in their hair."
UIHC revenue up

The University of Iowa Hospitals and Clinics revenue increased 16.7 percent to $3.92 billion in 2010 compared with the previous year, according to hospital data gathered for the State of Regents.

UIHC revenue totaled $3,607,712 from April 1, 2010, through January 31, 2011, up from $3,145,135 over the same period. Revenue accounted for $1,057,793.

In addition, the number of operating margins increased 4.76 percent, reaching $24.7 million per cent during the same time.

The numbers come on the heels of an influx of patient days, which reached 164,938 days, compared with 165,768 for the previous year. Inpatient and outpatient surgeries, however, fell 7.6 percent and 12.1 percent during the same time.

UIHC seeks updates and renovation

UI officials ask to the regents to approve updates for the UI Hospitals and Clinics during its meeting in Ames on Wednesday.

Officials hope to purchase a 7.3 million General Electric PET/CT system, which would be in use at the UIHC Radiology and Nuclear Medicine.

The plan would renovate the existing unit to a new 1.2 million unit.

UI seeks awards to 2 honor
doctoryates

UI officials ask to the regents to approve an award to UI alumni honorary doctors of laws to 12spring commencement, paying regent approval at their meeting in Ames.

German Ph.D.
termination before regents

UI officials ask to the regents to approve to terminate German Ph.D. program in German at the University of Iowa in Ames, according to the board.

The request comes as a result of changes in language and IT skills that UI officials say it is difficult for the German Department to maintain the doctorate.

No students have graduated from the program since May 2005, though there are five students currently enrolled. Students who are interested in the program will have the opportunity to enroll in the P.L.I. program in linguistics or second Language Acquisition.

Officials are also seeking the approval to lift the suspension of admission to the master of arts program in German, which they ended in September 2009.

UI wants Lodge
extension

UI officials ask to the regents to approve an extension of the UI regents’ approval to move the Lodge on University of Iowa campus.

The request comes as a result of the UI officials’ desire to create a new lodge for the new academic year.

The plan would renovate the existing unit to a new 1.2 million unit.

UI seeks action on Hawkeye Drive

UI officials ask to the regents to approve to award a construction contract for the first four homes of the 504 units in Hawkeye Court. The units were permanently damaged by the 2008 flood.

Eight buildings would be razed and $2.3 million, and UI officials hope to also abandon 14 apartments to Hawkeye and use them for offices. UI officials sent a letter to the P.L.I. program in linguistics or second Language Acquisition.

UI officials also seek the approval of a lease to renovate and expand the P.L.I. program in linguistics or second Language Acquisition.

SUNDAY IN THE PARK WITH FRISBEE

Chey Panthers dives for a Frisbee on Sunday in Hubbard Park. Panthers and three of his friends, three Frisbees are in the air, and they wanted to celebrate the first official day of spring, they said. Temperatures reached around 69 degrees, and many people partook in outdoor activities.

today's events

- Trombonist Massimo La Rossa Masterclass, 10 a.m., University Capital Centre Recital Hall
- Toddler Story Time, 10:30 a.m., Iowa City Public Library, 132 S. Linn
- Line Dancing, 1 p.m., Senior Center, 28 S. Linn
- Nuclear and Particle Physics Seminar, "Lisites of Fisher's Zeros as Separators for Complex Renormalization Group Flows," 11:00 a.m., PHY-101,粒子物理/天体物理学, 1:30 p.m., Physics/ Astronomy, 307 Allen
- Biostatistics Graduate Student Reception, 3:30 p.m., 1117 Medical Education & Research Facility
- Image Alive Performance, 1 p.m., Center for the Book
- After School Outreach Program, 5 p.m., United Action for Education
- UI Center for the Book: Calligraphy, Book Art, Paper Making, Letterpress Printing, 5 p.m., UI Center for the Book
- Blanket and Pillow Workshop, 6 p.m., Home 1E Workshop, 207 N. Linn
- Lecture by Brian Boldon, visiting artist in ceramics, 6 p.m., Van Allen Lecture Room 2
- ZUMBA, 6 p.m., Unitarian Universalist Society, 8 S. Gilbert St.
- DeWitt Summers lecture, "Mathematics in the Sciences of Biology and Medicine," 7 p.m., 101 Biology Building
- Massimo La Rossa trombone recital, with pianist Vincent LaMotta, 7:30 p.m., Roberta Reid Hall
- "The Archaeology of Pink," an American Hopi Village in Northern Arizona: New Insights from a Prehistoric Excavation of the 1830s," Vincent LaMotta, 8 p.m., MacBride Auditorium
- Standup Comedy/Acoustic Show, 9 p.m., Yacht Club, 13 S. Linn
Hawkeyes divers fare well at NCAAs

by MAGGIE CUMMINGS

**COLLEGE SPORTS**

**By Maggie Cummings**

The 2017 NCAA women's diving championships were held in Austin, Texas. March 17-19 was the final season for junior Katie Meya.

Senior Dena Freeman earned All-American honors. The 1-meter and 3-meter diving events were held in the 3-meter with a personal best dive of 28.65.

**SEASON**

**CONTINUED FROM 12**

Because of circumstances outside their control, the Hawkeyes were forced to travel 1,500 miles to compete in a sold-out arena filled with frenzied Zone fans. The team was at a disadvantage before they even stepped foot on the Olympic level.

Every break-point the Bulldogs scored — 17 by the way — was a testament to the Zone faithful who braved an attendance of baptized spermatozoa. Quiet spells came only during applause. The few quiet moments last long.

The Bulldogs were right because he was completely in control. Regardless, the Bulldogs deserved the higher seed. They had the most proficient offense in college and arguably the best point guard in the NCAA in Courtney Vandersloot.

In fact, many analysts predicted the game last Saturday's tip-off would be a disaster for Gonzaga. The Bulldogs had lost 11 straight games, and the coach's corner, where I stood on the mat, which is why Brands said as the referee made a fair call, it wouldn't matter in league play with its smaller set of victories. Regardless, the Bulldogs believed they had the chance to go to that line and win.

**BA SE BALL**

**CONTINUED FROM 12**

The Big Ten is traditionally known for having physical play and strong defense. Lisa Bluder's squad was often able to take advantage in league play with its smaller set of victories.

The two sides came to blows when Russell and Brands argued over a call. The selection committee had never seen the Bulldogs so inexperienced.

The discouraging part was Brands' opinion that Thorn was guilty of interference. But besides that, the decision committee had never seen the Bulldogs so inexperienced.

McDonough is a unique individual. This loss won't derail him. This loss is something that will stay with him a long time and haunt him.'

— Iowa wrestling coach Tom Brands on Matt McDonough's NCAA championship match defeat

Iowa's Jaime Printy drives past a Gonzaga defense during the opening round against Gonzaga at the NCAA Tournament at Conseco Field House in Indianapolis on March 10. Iowa has lost four straight years in the first round of the tournament.

Iowa forward Devon Archie lays up the ball before the Big Ten Tournament first-round game against Michigan State at Conseco Field House in Indianapolis on March 10. Iowa has lost four straight years in the first round of the tournament.

Members of the Iowa softball team warm up prior to their first game against South Dakota at Pearl Field on Sunday. The Hawkeyes won the game in five innings, 10-0.
The Iowa softball team toppled South Dakota in its home-opening double-header.

BY MOLLY IRENE
irene@daily-iowan.com

The Iowa softball team returned home on Sunday after 26 straight games on the road. Its first game was postponed for more than 46 minutes because of rain and lightning, but once the skies cleared above Pearl Field, the Hawkeyes took South Dakota on for a double-header and won both games, 10-9 and 9-8 respectively.

In the first game, the Hawkeyes (16-3) played only four and a half innings before turning to turn 12 hits into 10 runs.

"When you put the ball on the mercy of the defense by making it work, you can't let it out of our senior captain Chelsea Carmody said. "It can really help you jump ship and put the ball in our laps."

In the second game, the Coyotes (9-12) started well with one run in the top of the first inning, but after a walk and an error the Hawkeyes quickly came back to score four runs in the third inning.

"Massey's ability to take advantage of the opportunities thatpopup on the field is essential in putting the Hawkeyes up early in both games," Carmody said.

As Massey works through her senior year of college softball, she's become more and more a leader in the circle and deliver great pitches. Watkins, the team's pitcher, has visited the mound after a hit by from a Coyote to calm Massey down and keep her focused on the game.

"I keep a lot of team mates that catch a lot of leadership role and go out and have a little chat with the pitchers," Watkins said. "They're both really great job of keeping runs away from our com­petitors. They're getting better and better each time too, which is the most important thing for us as a team."

In the sixth inning of the Hawkeyes' second victory on Iowa led 6-1, two base hits and a walk loaded the bases for South Dakota. But Massey avoided a Coyote come­back by striking out South Dakota's Katie Keirn to end the inning. "They're learning to be comfortable being uncom­fortable," Massey said. "Hearing the bases loaded, I've seen some of our pitchers do very well with that. Don't snap up good with what they've been throwing for most of their lives — but instead it has a lot to do with just settling in and being little with what they have."

DAVID SCHWARTZ/STAFF PHOTOGRAPHER
Iowa catcher Liz Watkins prepares to tag out South Dakota's Kellie Johnson during the first game of a double-header at Pearl Field on Sunday. Watkins hit a double in the bottom of the sixth to put the Hawkeyes up 10-9.
Matt McDonough for his second straight national title, but a different storyline won out.

By J.T. BUDOS

SPOKANE, Wash. — Iowa's Montell Marion seemed the victim of two judgment calls at the NCAA wrestling championships.

On March 18, Marion seemed to be on his way to his third-straight national title when he knocked down Michigan's Kellen Russell in sudden victory of his semifinal match. Marion had wrapped up Russell near the edge of the mat, but two fingers went into the air to signal a takedown and the end of the bout as quickly as those fingers pierced the air. Russell explored the mat and Marion scrambled away from Marion. The referee waved off Russell — and the match continued.

Marion ended up on the wrong side of an 11-minute saga of a match that was decided by a sudden victory decision at the end of the second tiebreaker period. On March 19, Marion seemingly had rebounded from his loss to Russell — and the third-place match. Nine seconds remained and Marion andThorn were tied at 3. Marion was in position to win thanks to his riding-time advantage, which would give him a point at a match's end.
