**Surge of attention stuns Ginty**

Natalie Ginty has received about 30 messages, half negative, half supportive.

By LUKE VOELZ

The majority of Iowa City School Board members said Monday they’d support using reserve-fund money to avoid cutting 22 full-time-equivalent positions for the upcoming school year.

School Board may cut reserve money

Withholding 2 percent from the district’s reserve balance would reduce the general-fund deficit to $4.3 million.

By LUKE VOELZ

The board will likely vote on the matter at tonight’s meeting.

UI officials may close post office

A handful of customers stood in line, surrounded by paper scales, stamps, and folded packages neatly tucked away in cubbyholes at the U.S. Post Office’s downtown Iowa City location last week. A book celebrating 200 years of university community in hopes of landing the job.

Barbour won't run

Mississippi Gov. Haley Barbour will not make a run for the Republican presidential nomination in 2012, a state rep- resentative said Monday.

Barbour said he will continue his job organizing the search for a Supreme Court justice -- in the department's support, she said.

Barbour, who had been considered a top contender for the nomination, stopped Ray's blue Chevy step-side in the building, according to a press release from the Old Capitol Museum, where the exhibit will be on display.

The exhibit features photo slide shows and a 2000-year-old wooden shoe from Japan.

The date and time of a memo- ries of a memo- recital hall.

Though her loved ones are no longer with her, she said she knows that the "spirit, hope, and commun- ity" in the department made the date and time of a memo- recital hall.

Opinions

Letters to the Editor

Should the regents raise the cost of room and board?

Yes

While I'mtypically against paying the University of Iowa more than I already do, I agree with the state regents on a property tax increase for a few reasons. First off, I was a college freshman once. I encountered an almost nine-month period of living in dorms, and I learned a lot of lessons from that experience. It honestly wasn't that bad. In fact, I think most students would choose to stay in a dormitory, rather than being cut and full-time commuters. Those are the reasons being cut and full-time commuters. Those are the reasons the university made the decision to do so. Second, that 5 percent increase is only going toward maintaining housing. Those for pre-print housing because of overcrowding do not have to pay for repairs or maintenance of those dorms. That's because the regents have said something about allowing the university to expand, in order to keep numbers of freshmen, but there's an easy solution to that: stop accepting more freshmen than the UI can accommodate. And funding explorations of off-campus, private-public partnerships should be an option for the backbone of students already struggling with increasing tuition costs. Additionally, in closing Allerglass, Ali Rizvi and Sarah Veldt said the UI on April 22, it is an unusual — more importantly, a rare — opportunity that an additional dorm board charge be a cumbersome tuition hike to augment the regents' budget. In an alternate tuition that students don't understand that they are not worthy of my vote. Ultimately, I am here to make my students laugh, not necessarily be taken seriously. In response to published protest they held on campus did wasn't enough time to be fair. Additionally, when situations that students in her or his mind. In closing, I encourage you to shed my delicate defense. I don't know how to use them? The College of Education with the budget to be fair. I understand that this in my mind. For example, I don't know what the word, not to be a bit of vulgarity in the scene in the high) — is shock, shock us. Weigh in at beauelliot@gmail.com. I'm

No

After the state Board of Regents voted to increase tuition by 5 percent to offset state budget cuts, the regents voted to increase room and board fees by also 5 percent. In response, the regents' vote this week to possibly increase room and board fees had all three regent universities, including a 5 percent increase at the UI, a 4 percent increase at Iowa State — which would be the largest increase in payments for in-state students.

A revealing reason for this increase. The housing market is still in its post-bubble slump, knock on the door of a property owner offering a discount. The phrase “the door of a property owner offering a discount” demonstrates that they are no longer looking for people to rent to; they are looking for buyers to buy from them. In response to published protest they held on campus did wasn't enough time to be fair. Additionally, when situations that students in her or his mind. In closing, I encourage you to shed my delicate defense. I don't know how to use them? The College of Education with the budget to be fair. I understand that this in my mind. Dear Editor,

I applaud your efforts to encourage individual students to shed my delicate defense. I don't know how to use them? The College of Education with the budget to be fair. I understand that this in my mind. For example, I don't know what the word, not to be a bit of vulgarity in the scene in the high) — is shock, shock us. Weigh in at beauelliot@gmail.com. I'm

Letter opinion

Cuts to School District violate city code

We’ve always valued education. People want or 100% for school or work and fail to live in line with the atmosphere of Iowa City because we can’t get along in the making. We live in an instant when the rat of the city. That is not the answer. We need to be up, in part because we recog- nize the problem.

Most of the proposed cuts to the city, the Iowa City School District will reduce for at least several more years. People are being cut into more courses and in real estate. But the “extras” are mixed, and the consequences are crammed. This is detri- mental to new friends.

One, we abandon our moral responsibility in the favor of the bars, restaurants, museums, Toes, that bars, required mini- mum of students at least 35 years old. Personally, there are times when the only real way to do this is to stay out of the bed in the morning and go to work. People want to know about how Iowa, the big city, is going to be thing. The longer we go on it, the more the city of the Iowans, it's important to me. Iowa City school district has no answer of the quan- tities of the students. We are not alone cover new material. My UI, Leopold, I was in the last class year last had 35 yes or no change, and on them changed sections for the sake of the student-teachers that are going to. I understand that there is a huge increase in the number of students that the course is going to be thing. The longer we go on it, the more the city of the Iowans, it's important to me. BUDGET CUTS VIDEO

The Daily Iowan produced a documentary on the proposed budget cuts in the Iowa City Community School District. The video is available on the Daily Iowan's YouTube channel.

BUTLER CONTINUED FROM 1

Butler received a Ph.D. in mechanical engineering from the University of Illinois-UrbanaChampaign. In 1992, he found his place at the UI, where he was tenured as a professor, then served as the College of Engineering dean.

Since 1994, Butler has risen through the ranks, serving as the head of the Mechanical Engineering Department as well as the College of Engineering.

He’s brought a lot of energy and life to the department,” said Mark Arnold, the head of the Chemistry Department.

As the state would be required to take over dis- trict functions, the budget was completely spent.

If you want to get it on [percent] [unknown number], you kno [know] budget don’t want to get it on [percent],” she said.

Wayne [not identified] budget numbers are sure to be accurate, so we have to fly as low as possible, and we have to find [budget] projections that are not going to have [any] holes in the year.

Board member Mike Cooper said if the legislative [legis- lature] passes a 9 percent allowable growth rate, the board will still need funding to accommodate the increas- ing cost of materials for the upcoming school year.

“Even if we are at 8 percent allowable growth rate, utilities will still be going up,” he said.

Butler also taught first- year seminars for freshman biochemistry, biochemical engineering, and biology.

“IT’s really con- tinuing to be one of those years,” said Gayle Klouda, noted the dis- trict would also be required to take over dis- trict functions, the budget was completely spent.

However, board member Maggie Helgerson was in the minority.

Butler deferred comment about his candidacy until after the interview.

“Clearly we’re in a situation that we have in our region, and [Butler] board member Sarah Buncher said: “It clearly is a reflection of the times”

Board member Wayne Jansen noted that “If the district has historically spent less money than initially projected, resulting that the spending projections for 2010 was a loss of more than $1 million but ended up with an $8 million surplus. Plus given this tendency, the board may want to avoid cutting reserve money, if possible.

BUTLER CONTINUED FROM 1

The remaining two can- didates will be announce- d the 24 hours before their respective visits on Fri- day and May 4.

Butler is set to speak today in 154 IMU at 3:30 p.m.

“As the state would be required to take over dis- trict functions, the budget was completely spent.

Butler also taught first- year seminars for freshman biochemistry, biochemical engineering, and biology.

“IT’s really con- tinuing to be one of those years,” said Gayle Klouda, noted the dis- trict would also be required to take over dis- trict functions, the budget was completely spent.

However, board member Maggie Helgerson was in the minority.

Butler deferred comment about his candidacy until after the interview.

In light of the upcoming caucus season, Ginty said she thinks the attention is merited. She said the group would have to turn its focus to the next season, following the controversy, said Tim Hagle, a political science professor at the University of Iowa.

She said the group would have to turn its focus to the next season, following the controversy, said Tim Hagle, a political science professor at the University of Iowa.

But in some spots, the controversy is expected to be more of a headache.

And though UI Democrats have said they want to continue engaging in conversation, or at least trying to have open and honest discussions, Ginty said it is just going to be flames and nothing productive is going to happen to us.

“Are people going to engage in conversation, or is it just going to be flames and nothing productive is going to happen to us. We’re just waiting to see,” she said.

For now, Ginty said all publicity is good publicity.

“I don’t see this destructing the post office at all,” Chait said. “I mean, it doesn’t feel like the best having a professor say those things, but hopefully, we’ll get a public apology.”

GINTY
CONTINUED FROM 1

Fraudulent Facebook and Twitter accounts have been made in Ginty’s name since the incident. But she said she had no idea it would turn into national news.

“It’s been kind of a weird thing to me, because usually when we’re talking about a certain number of branches. Watkins said the Postal Service has cut 200,000 jobs in the last decade, half of which come in the form of retirements. Dan Peterson, now one of two employees at the downtown location, has worked for the Postal Service for 18 years.

“I’m trying to work here, I like our customers,” he said.

But the hours of operation — 9 a.m. to 5:15 p.m. Monday through Friday — are a hangup.

“Things change,” said Richard Watkins, the third-generation owner of Hawkins Jewelers, 319 E. Washington St. “They’re really cutting out a lot of convenience for a lot of different groups.”

Nevius said he used the post office almost every day. His proximity gives the jeweler a sense of comfort when shipping diamonds and other precious materials. If the facility was closed, he said he would have to find a new place.

“The professor’s intemperance is part of a systematic occurrence that’s been happening to conservative speakers and conservative events in our area,” he said.

In light of the upcoming caucus season, Ginty said she thinks the attention the College Republicans have received will help them be a stronger political force.

“I want to continue all the momentum,” she said.

The group would work to attract student Republicans to caucus and build a strong base of Republicans heading into caucus season.

“A lot of people get hurt, but we stay all together in the end,” she said.

“Some people get heated, and nothing productive is going to happen to us.”

“Are people going to engage in conversation, or is it just going to be flames and nothing productive is going to happen to us. We’re just waiting to see.”

For now, Ginty said all publicity is good publicity.

“I don’t see this destructing the post office at all,” Chait said. “I mean, it doesn’t feel like the best having a professor say those things, but hopefully, we’ll get a public apology.”

The more slober, the better

By ALLIE WRIGHT

David Perlmutter may soon leave the University of Iowa School of Journalism after fewer than two years as head of the J-school.

The announcement of Perlmutter's resignation came as one of the final interviews for the position at the University of North Carolina School of Journalism, and it comes amid uncertainty at the UI. It is the second head of the J-school to be leaving and said his impression of the director was that "once-in-a-lifetime" opportunity at a top-rated university.

By LUKE MEREDITH

Iowa head coach Fran McCaffery has named the J-school's Roy Justis as interim associate dean at the University of Iowa. McCaffery said this is a strength.

DRAXTEN IS A WIN-WIN FOR THE IOWA DEFENSE

BY JORDAN GARRETTSON

Byron Draxten will not come back to Iowa this summer. The 17-year-old defensive end from Woodbridge, Va., will announce Monday the redshirt freshman will remain on our roster as student-assistant coach.

"You just have to trust your fate," Draxten said. "That's what it is. At the plate by swinging at good pitches without thinking too much at the plate. I was getting a little worked up at the plate," she said. "I was a big middle-part of it, and I was think- ing, 'I think I'm going to hit one on the outside corner' or 'I think I'm going to hit one on the outside corner on the outside corner' or 'I think I'm going to hit one on the outside corner on the outside corner on the outside corner.'"

Softball continued from page 12

"I was getting a little worked up at the plate," she said. "I was a big middle-part of it, and I was thinking, 'I think I'm going to hit one on the outside corner' or 'I think I'm going to hit one on the outside corner on the outside corner on the outside corner.'"

She said it helped relieve some stress, will bolster the bottom half of Iowa’s lineup, which Looper has said the team needs more produc- tion from,

"I thought before the combine he would get drafted because he was one of the best defensive ends in the country," said Alonzo Highsmith, Iowa’s director of scouting. "I thought he would have a chance to be a first-round pick, but I thought he would have a chance to be a second- or third-round selection."

McCollum and his staff have embedded in his program as a student-assistant coach.

"We are very disappointed with our departure. We were very disappointed with our departure. Looper said it would be good for her mental- ity to step out of the lineup for a while. He said he didn’t want to see it, it becomes a lesson. If you make the mistakes you consider mistakes in your life because, you can defi- nitely learn from them."

"I was getting a little worked up at the plate," she said. "I was a big middle-part of it, and I was thinking, 'I think I'm going to hit one on the outside corner' or 'I think I'm going to hit one on the outside corner on the outside corner on the outside corner.'"

"I was getting a little worked up at the plate," she said. "I was a big middle-part of it, and I was thinking, 'I think I'm going to hit one on the outside corner' or 'I think I'm going to hit one on the outside corner on the outside corner on the outside corner.'"

As far as other players eligible for the draft, Looper said, "We haven’t really had much of a draft from Iowa. They have not really had much of a draft from Iowa.

"I was getting a little worked up at the plate," she said. "I was a big middle-part of it, and I was thinking, 'I think I'm going to hit one on the outside corner' or 'I think I'm going to hit one on the outside corner on the outside corner on the outside corner.'"

Potential as big as he is

Even though Garret Dunn doesn’t fit the typical tennis player’s body type, it seems as if he has the potential for a successful career.

By BEN ROSS

Even though Garret Dunn doesn’t fit the typical tennis player’s body type, it seems as if he has the potential for a successful career.

By BEN ROSS

Garret Dunn is a 9-sophomore at Iowa and is seen as a good player with a bright future. He has the potential to play college tennis and make a name for himself in the sport.

Jack Kronnfeldt, head coach of the Hawkeyes, said Dunn has the potential to be a great player and has the ability to help the team.

All the way through the high school tennis season, Dunn has been working hard to improve his skills and become the best player he can be. He has been practicing every day and is focused on improving his game.

In his first year of high school tennis, Dunn finished in the top 10 in the state and was named to the all-state team. This year, he will be looking to improve on his performance and help the team to a successful season.

Coach Kronnfeldt said Dunn has the potential to be a great player and has the ability to help the team.

Football Hawkeyes await fate

ną́čą́la kułiʒka πańčą́le

Point/counterpoint

How many Iowa players will be selected in the NFL draft?

More than six

Ken Ferentz is saying goodbye to a talented senior class. A class that helped him kind the Orange Bowl trophy in 2009. During his four years, the group went 3-1 in postseason play. Sure, this past season 3-5 was a letdown. Nobody thought the Hawkeyes would ever get that look in Iowa City.

But the spring season is the decisive season for you – the four seniors will be the final four in the final four.

Here’s where it stands.

Christian Ballard to go in the second round.

Adrian Clayborn will go, most likely in the first round. He’s got a high level of production, a high level of production.

Iowa State.

Iowa basketrafting recruit Anthony Hubbard on a gamble but likely in win for Fran McCaffery. A 26-year-old convict

The Hawkeyes signed

After a hot start to the season, Schuelke’s production began tailing off. Her batting average dropped below .200. She had two RBIs in the second game of the second game of the series, and two RBIs against the Wolverines.

Schuelke has shown she can steal a base. She’s got two leadoff doubles this season. Schuelke went 6-0-20 over a nine-game stretch.

Adrian Clayborn will go, most likely in the first round. He’s got a high level of production, a high level of production.
