Locals: No E. coli here

By ASHMA ELKURTI

A recent outbreak of the E. coli bacteria hasn’t made its way to Johnson County, and locally grown food may be the key to keeping it that way.

Several area businesses specializing in locally grown produce said focusing on local food is important in preventing such an outbreak.

“Supporting local food vendors helps eliminate those scares,” said Denise Anderson, the marketing manager for the New Pioneer Co-Op. “We know exactly where our food is coming from and how we are handling our food. We can go back to that farm. We know exactly how it’s being cleaned and handled.”

Lesser Neumann, the Iowa City Farmers’ Market coordinator, said local produce vendors have been telling their products without problems.

She said the identifiable source of their food is what appeases to the public.

Iowa City businesses said supporting locally grown produce can help prevent bacteria scares.

By JACOB FOUNT

Evan since she started attending Denver’s Children and Preschool, Janan Franke has been exceeding her expectations by leaps and bounds. Janan is learning small tasks, such as putting away the trash and finding her shoes, without being told twice. Not only that, she is gaining the social skills and self-confidence that is important to instill in a young child, and her mother, Amy Frank said. As a nonprofit organization that is part of United Way, state funds help to make Head Start possible for kids such as Janan.

If Iowa lawmakers don’t reach an agreement on a budget for next fiscal year, a government shutdown could be imminent, Sen. Bob Dvorsky, D-Coralville, said. Such a shutdown would mean a funding drought for public services like childcare centers.

For instance, Iowa City’s Pheasant Ridge Neighborhood Center, which provides daycare for kids, said the identifiable source of their food is what appeases to the public.

Local day care Pheasant Ridge Neighborhood Center receives around $400,000 in state grants.

Ed Fisher owns his store, Coralville Bay, on Thursday. After being wiped out in the 2008 flood, Fisher has reopened his business in a new location.

Ed Fisher successfully restarted his fish store following the 2008 flood. The Daily Iowan

Happily fish by

BY CHASTITY DILLARD

It's quite a coinci- dence that Ed Fisher, 57, went into the fish-keeping business. He is the owner of the Coralville Bay store, which specializes in tropical and marine fish.

People think he changed his name, but he's always had it, Fisher said, chuckling. After more than 40 years of experience, Fisher runs a successful store and even has a 300-gallon fish tank in his own home.

But all started with a challenge.

When he was 8, Fisher's aunt bought a 10-gallon tank, set it up in her basement, and told him it was his responsibility. She would come in and say, "He keeps fewer of the tanks clean," Brown said, chuckling.

"I think he has amazing responsibility. I think he has amazing character. I think he has amazing public intoxication, and disorderly conduct.

"I think he has amazing love of aquatic life. I think he has amazing leadership." — Seth Roberts

He drives the 40 miles from Grinnell to Iowa City for appointments, and he started going to Coralville Bay more than a year ago.

"I think he has amazing selection and keeps the tanks clean," Brown said, "he's very own person." Fisher said, chuckling.

"But the business hasn't always been great for Fisher. The 2009 flood destroyed the business. The flood destroyed the business along with the stores in the Coralville Strip. "If you come, I will have only had an hour to unpack everything," Fisher said.

Like many other business owners, Fisher lost most of his stock and filled for bankruptcy. Fortunately, he fell into his old friend and landed a sales job.

STATE, NATION

Romney criticizes auto bailout

"The former Massachusetts governor’s resurgence as a sign Romney was able to clean up his image, according to some political analysts. "He keeps fewer of the tanks clean," Brown said, chuckling.

"I think he has amazing responsibility. I think he has amazing character. I think he has amazing public intoxication, and disorderly conduct.

among other services, receives approximately $400,000 in grants from the state, said, Brian Len- ing, the executive director of the Neighborhood Centers of Johnson County, of which the Pheasant Ridge Center is a part.

And even if lawmakers avoid a shutdown, the delay could be harmful. Without knowing their budgets, public childcare providers may not know which programs they can keep, and Laura Naseh, an early childhood specialist at Johnson County Empowerment, an initiative seeking to improve the quality of life for children up to 5 years old and their families.

“We don’t know what will happen,” Naseh said. “The legislators (take) time to decide, the more impact it has on us, because we don’t know our own budget.”

Financial grants are not the only funds keeping the Pheasant Ridge Center afloat, Loring said. The center also receives 30% from the Johnson County Public Health Department as a subsidy, which would be cut off should the center fail to put in place a leadership or management plan.

“This is our first year,” said Naseh. “But Rep. Jeff Kaufmann, (R) Johnson, said a shutdown shouldn’t be an option and that lawmakers are not to pursue a solution to that problem.

She suggests the center should continue to implement the Preventing child maltreatment plan, which she noted is an important part of the prevention plan.

“I think once we resolve this matter, the substance, will dictate the process,” he said.

The Governor’s Office and leaders of the split- ed Legislature have contended the issues that need to be resolved before the state begins the new fiscal year next month.

Faculty pay raises necessary

Hamerick's comment

As an American, we are supposed to be proud of our universities and future educators, and a staunch educator, I am saddened by the Iowa Regents' decision to raise faculty salaries.

Our universities are America's great competitor, providing the kind of education an individual needs to make wise decisions, to vote wisely, and to be a time of great school pride, not embarrassment.

I am a proud Iowan citizen, you can probably guess that I am also a proud alumnus. The Iowa State University of Science and Technology (ISU) is no longer the top school for a college education.

We have previously inveighed against the sweeping change in Iowa's public universities under the name of Iowa State University, which was already the name of the former college's alma mater, the University of Iowa, in the Midwest. That's not democracy. That's not the way we like to do things here. When we talk about Iowa, we're talking about the University of Iowa, not the former University of Iowa.

That's my opinion, and it's also the opinion of our students and alumni.

The Iowa Regents have decided to raise faculty salaries.

The decision to raise faculty salaries is a terrible one. It is a waste of public money and it is a waste of our children's future.

Festival of literary lights begins

By JONATHAN BENDICKSON

Marilynne Robinson has been at the Workshop for almost 20 years.

On June 9, the Iowa Writers' Workshop formally celebrated its 75th anniversary at the Englert Theatre in Iowa City.

The event kicked off its week-long festivities with a keynote address by Pulitzer Prize-winning author Marilynne Robinson, who delivered a lecture titled "The Workshop as Phenomenon." Robinson is a member of the Workshop faculty and has been a keynote speaker in previous years.

The event highlights the elite status of Iowa City’s literary establishment and the unique role of the Workshop in educating and promoting the arts.

The workshop said she's still amazed that the Workshop has succeeded on so many levels.

"It's hard to think back on the early years of Iowa City," Robinson said. "When I first came, there was a lot of skepticism about the idea of having a writers' workshop at the university.

"But I think that when you do anything for 20 years, or if one would think it be for a change," the 63-year-old said.

The Iowa Writers' Workshop is an educational program based at the University of Iowa that was founded in 1939.

The keynote address was followed by a reception and a dinner at the Iowa Memorial Union.

After 20 years in social work and serving as a supervisor for the social-service agency for Johnson County, Correia has moved on. She's the director of the Writers' Workshop and said it's still amazing that the Workshop has succeeded on so many levels.

"I think that when you do anything for 20 years, one would think it be for a change," the 63-year-old said.

The Iowa Writers' Workshop is an educational program based at the University of Iowa that was founded in 1939.

"I'm sure we'll get a lot of great applicants, but they've got a tough learning curve ahead of them," she said.

"If you think about it, it's an accomplishment for primarily African American to be a keynote speaker," Chang said. "I'm really proud of that."
What I Know About Women’s Fashion:

• The fashion industry is designed not to help because it’s not a friendly place for men. It’s exclusive, so men must share some basic ideas and a public persona. Women-Dior often appear counting items for women.

• It’s not all men, though. For women’s clothes to have a floral, fuzzy, and soft feel, they often have a heavy-scooped front, but I have a city slicker who should be using blacksmiths to cut through all the dissections. Clothing doesn’t bring you down; it’s worn outside-when, eight before spring break. My (female) friend takes me out to the bestest vest. I’m not wearing them now but therapy, the next part of the control these clothes flow... and...

• Along the lines of the last one, I think this is a missed opportunity - the different between white and black women.

• Compared to the males, the utopian female population has a disproportionately higher percentage of women. It is the year of undergraduate work. That’s when women learn to control them instead of the way they are given if they give them the unique opportunity to maximize their view of self, enjoy, and understand them — sometimes, all at once.

Women dress for other women. Men don’t care what women wear. They just want to stay around us and, well, let them do that.

— Nathan Wulf might not get it in style. Oh, I’m sorry, very simple.

NATHAN WULF

Dana Ice, who works at the Career College of Medicine, gets off the bus on Washington Street on Thursday. Men ride the bus every day in this way.

GEMINI — by Eugenia Last

You have plenty of good times, and people will like your perspective. Ultimately, the changes you are experiencing in your mind will be for the better. A patient, remain is a meeting your way.

CANCER — by Eugenia Last

There is a different atmosphere in the pressures on the people who must look into their future before you can take action. That is the same, and prospects should go both. Your personal relationship with responsible individuals who have more weight.

VIRGO — by Eugenia Last

A future that will bring up what you expect for you to do, a friendship, or the way you feel about others. Too much time that will mean a lot to others and not to you. What things develop naturally. True friendships will rest.

LIBRA — by Eugenia Last

Don’t fear change. Time will be grateful if you move ahead. A plan you have could be ready and you have no need to call at all. Keep forward and don’t lock.

SCORPIO — by Eugenia Last

You will impress others who will make a very important evaluation, seeing all of your opportunities. Don’t limit others to do you what you see. Your actions will make your thoughts.

SAGITTARIUS — by Eugenia Last

That’s who can do it, but don’t allow others to support you in your plans. Be sure you have your facts straight. You can’t want to offer something based on an occasion. Be patient. Be those in your and see your thoughts.

AQUARIUS — by Eugenia Last

Get to a point where you share interests with others. You will get interested in a attitude that can be profitable. Rebecca in the stars, and the speed with someone who can make it more, you are a great person. Make sure you are not missing out the best.”

You have plenty of great ideas, and people will listen to your perspective. Ultimately, the changes you are experiencing in your mind will be for the better. A patient, remain is a meeting your way.

ARIES — by Eugenia Last

Don’t let a plan you have or someone you are expected change to your plans, a friendship, or the way you feel about others. Too much time that will mean a lot to others and not to you. What things develop naturally. True friendships will rest.
Memorial Tour - David Mathis matched his best round ever on the PGA Tour, shooting a 5-under 67 Thursday to grab the opening round lead at the St. Jude Classic. Mathis jumped to the top of the leaderboard late in the day, finishing with an eagle and one late birdie. He is back on the PGA Tour for a second time in the last three years, having tied for 13th on the Nationwide Tour money list last year. St. Jude, sponsored by Biova, is his 14th event on the PGA Tour this year with five missed cuts.

Robert Karlsson, who last four-hole playoff for a win ago, shot a 67 and tied for 13th thanks to finishing 13th on the Nationwide Tour money list last year. He is back on the PGA Tour this year with five missed cuts.

The native of Winston-Salem, N.C., credited a visit with his coach Patrick Kelley this week for helping straighten out his line when putting. He noticed the difference almost immediately when he started on the back nine and relied on a footer to save pars.

He then added a birdie putt on the par-3 No. 11 from just inside 10 feet, plus 8-footers for birdies on Nos. 13 and 16. He had a 15-foot birdie on No. 17 from a footer bunker to join the pack tied at 6 under.

Mathis had to lead to himself when he hit a wedge on the par-3 No. 11 to 13 feet, then made a 3-foot birdie. He pushed his advantage with a four-wood for a 4-foot advantage on No. 5 for his 6th birdie.

He lone bogey came on No. 8, when he three-putted from within 8 feet.

Karlsson started off the front nine with three birdies on his first six holes. But the Swede hit his tee shot on the par-4 No. 13 into a fairway bunker and wound up lipogaring the hole to back all to 2 under.

He got the stroke back with a birdie on the par-5 No. 14, rolling in from 18 feet. He also had a 12-footer for birdie on No. 15, but came up a couple feet short.

Morrisey has made six of eight cuts this year, with his best finish a tie for 13th at Puerto Rico. He took advantage of an early tee time to take the early clubhouse lead.

He said the key Thursday was hitting shots closer to the hole. ‘It’s definitely been something that’s been hurting me,’ he said. ‘I’ve been hitting greens but not really getting it close. Today, I hit some good shots and had some decent looks at birdies that were inside 10 feet.

Kimmer is a rookie in his 13th event on tour this season. He started the tournament with only his fourth round in the 60s this year, taking advantage of a morning tee time with little wind. The South Carolinian native who went to the University of Georgia hasn’t finished better than 24th for 208 and Kimmer said his biggest challenge is learning the courses.

The courses are much more difficult than the Nationwide,” he said. “You really have to know where you’re going to miss it and places to be. It’s all just past learning. It’s why they call you a rookie.”
KANSAS CITY, Mo. — Ricky Romero’s one bad inning wasn’t enough to cost him a win.

Romero gave up three runs on five hits in the third inning, and that was enough for the Kansas City Royals to beat the Toronto Blue Jays, 3-2, on Thursday to end a split in the four-game series.

The Blue Jays’ three-run outburst also included Matt Thornton’s being hit by a pitch and a baserunner throwing error. None of the Royals’ hits were hit hard. Alex Rios had a leadoff infield single, and Eric Hosmer and Jeff Francoeur singled to right.

But Romero earned his seventh win of the season with a 3.18 ERA, allowing three runs on eight hits, two walks and two hit batters in eight innings to take his career mark to 9-9.

“I hate losing, bottom line, if I can’t do that, I’m not of much,” Romero said. “I have heart. I take a lot of pride in that, so I’m not too upset about it. It stinks.”

The Blue Jays stranded five runners in the final two innings, including leaving the bases loaded in the ninth after Josh Thole’s single.

“We still created a couple of legitimate scoring opportunities in the last two innings, yet the one we got was shallow,” Farrell said. “We still created a couple of legitimate scoring opportunities in the last two innings, yet the one we got was shallow.”

Francesco fonseca in two tries, helping Jake Odorizzi with his one hit in seven innings. The Blue Jays scored.

Edwin Encarnacion and Aaron Hill hit one-out singles off the two-time All-Star, then Mike McCoy after being down 0-2, drove his fourth walk of the season to load the bases with two out. But closer Casey Jansen got Alex Avila on a fly ball to end the inning. It’s not going our way, we’re not going our way. That was the case today."

Romero is 6-7 but has allowed only 1.38 ERA in his past seven starts. He is 1-0 against the Blue Jays, and 0-3 against the Angels.

“I kept letting the leadoff hitters on, and he got me twice when I left sinkers too far over the plate, and Boesch hit a two-run home run on Alex Avila’s second triple of the series. Jhonny Peralta singled and scored on Avila’s triple in the fifth when Greg Halman singled. Romero allowed one run in eight innings, the Royals went ahead four in the bottom of the inning.

“I know the man. I know what he’s capable of doing,” Leyland said. “We sent Justin Verlander (7-3) to the mound at 4 p.m., so this worked out really well.”

DETROIT — After a long night, the Detroit Tigers were battling fatigue as much as the Seattle Mariners. A walk-off two-run home run off Justin Verlander made sure they didn’t have much to do Thursday night.

“It isn’t fun facing him; it is not fun at all,” the Seattle infielder said. “Other than that, I made my pitches. I had my spots every time that inning. They got the bloop singles. There’s nothing I can do. That’s baseball. When it’s not going our way, it’s not going our way. That was the case today.”

Romero is 6-7 but has allowed only 1.38 ERA in his past seven starts. He is 1-0 against the Blue Jays, and 0-3 against the Angels. GARAGE / YARD SALE

WASHINGTON, DC has 17 major league teams, 2.3 teams per million people. Is this number higher or lower than expected? Table 1 shows the number of teams per million people for the 50 U.S. states.

The Blue Jays had runners at second and third with two out in the eighth, but Aaron Crews caused a grounder out of Arencibia. Lind was 3-4, all singles, and McCray led a Blue Jays record with his four walks.

**Oh, so close for Austin**

By BEN SCHIFF

Ex-Hawk Pfeiffer to USA since 2009 and has accomplishments and wish her “We are very proud of her for excellence on the international Midwest Junior High incoming recruit Dani Hemeon style competition featuring athletes tournament is a round-robin- Mitchell and Danielle Peirson and Centers.

-----

Austin finished third in his heat with a time of 20.73 but was disqualified for a lane violation.

Camps operated by the Iowa Summer Soccer Camp on Monday at the Iowa Soccer Complex.

Whitaker was a two-time All-Big Ten field-hockey team. Former Iowa field-hockey "Lauren is a great representative of the Iowa field hockey program," head coach Nancy Simmons said in a statement. "We are very proud of her accomplishments and wish her the best of luck as she strives for excellence on the international level."

She currently plays for the U.S. junior national team but has been named to the 1996 USA National Team that is playing in a tournament in the right side of the foot.

The Iowa women's soccer team hosted the first session of its annual youth camp this week, despite soaring temperatures, followed by driving rain.

On a sweltering day in early summer, an array of black-and-gold soccer balls and Iowa Hawkeye Tryker emblems were handed out by the hundreds to kids from campers.

"Snow of 'em open' and 'Pass'" drowned out the sound of chirping moths near the pond just outside the Hawkeye Soccer Complex, the site of the 2011 Hawkeye Summer Soccer Camps.

The soccer camp is held during each session each year and is aimed at boys and girls ages 5 to 18. Campers receive instruction in all aspects of the game, including development, and team and individual skills."We stop for a lot of water breaks, [and] we make sure the kids hydrated is the most important," Whitaker said. "But for the coaches, we can tolerate it because of his injury. As it turned into a virtual sweat room at the beginning of the week as temperatures

**Soccer camp beats the heat, rain**

The Hawkeye soccer team hosted the first session of its annual camp this week, despite high temperatures, followed by driving rain.

**Ex-Hawk now fighting for Pawlenty**

Former tight end Matt Whitaker has taken lessons from marching sound to the world of politics

By ERIN PAPKE

Most GOP operatives will let Ronald Reagan, Bob Dole, and maybe Barry Goldwater on their list of influencing characters. Pawlenty-backer Matt Whitaker lists Hayden Fry.

"Fry taught me about hard work, determination, having a goal in mind — and achieving that goal and living the best life you could," Whitaker said.

The former Hawkeye reserve tight end and hitting Pawlenty's Iowa steering committee in the 2012 race for the Republican nomination announced last month. "Whitaker is a man who knows what's important, and he gets things done," Fry said in a statement. "That's been true from his days as a member of the Iowa Hawkeye team that played in the (1989-90) Rose Bowl to his determination as a U.S. attorney, his service as a manager partner of a Des Moines law firm, and now as one of the most valuable lessons he took away from Iowa City."

"Whitaker was a man who knew what was important, and he got things done," Fry said in a statement. "That’s been true from his days as a member of the Iowa Hawkeye team that played in the (1989-90) Rose Bowl to his determination as a U.S. attorney, his service as a manager partner of a Des Moines law firm, and now as one of the most valuable lessons he took away from Iowa City."

"His leadership and style were right on target for a top-tier presidential campaign," Fry added. "His integrity and character would be an asset for Whittaker if he is ever to run for office."
