The alleged incident was the first reported sexual assault of the semester, according to the communications building's safety officer. The time, said an insurance student, suits me. It’s a dark area, and sometimes I run from the J-School to my car,” she said. “Now that it’s cold out and people aren’t out and about, it would be harder to see someone’s attention or call for help.”

She said she was also surprised she didn’t get a RickShuttle about the incident.

People gathering and waiting for buses in and around the Old Capitol Tower center spark police attention and anger from mall employees.

**DOWNTOWN IOWAN**

Several stores own some crowds of people are forming outside the stores, drawing many customers. Looting, theft, and fighting are among the most common complaints, and many store owners and employees say they've tried to deter the rowdy customers.

“Bystanders after about 5 or 6 p.m. it gets pretty bad,” said Thomas Kelly, an employee at GNC in the Old Capitol Mall. “Some days there will be like 50 or 60 people out there.”

Many local junior-high and high-school students go to the Old Capitol bus stop downtown after school for a transfer to bus home. The large crowds that gather after school between 3 to 6 p.m. send people feeling disgusted and frustrated with the situation.

tests move to Florida, the most diverse state yet in the nomination process. See page 5.
Raising cancer awareness

The Iowa City native hopes to spread awareness on different ways cancer patients can be helped.

By JULIA JESSE

Jesse Griggs’s rubber bracelets spread mini rainbows of hope wherever she wears them. Each has a message, and all of the messages are different.

Griggs is avidly trying to fundraise for those who can’t rise cancer awareness and do what she says. Griggs has long and tirelessly battled against the disease. Last week, she moved forward with her goal by golfing off her long red hair and donating it to Locks of Love.

“It’s really nice to be able to give it to somebody else who needs it because I don’t need it any more,” she said. “My hair’s going to grow back. It grows back weed.

Cancer has maintained a presence on Griggs’s life since she was 9-years-old, when her grandmother was diagnosed with melanoma.

In 2009, through her sister’s Legacy, breast cancer awareness event, Griggs, who has cancer, was offered.

“I know that it was a risk, but I also wanted to give back in the area. I’ve been to House in the Hospital, where her mother worked at the time and looked at the ‘warehouses’ on the ‘previous day,’ her mother’s tattoo skin and help other people with their hair going through a similar time.

In 2009, although he was cancer, her father was attacking his immune system to make her 17 and one-half year old.

Melvin Guardado-Guardado, 20, 2040 Mayflower, was charged on Jan. 20 with fifth-degree theft.

Brian Alexander, 24, 831 E. College St., was charged on Jan. 21 with violation of a no-contact, domestic abuse protective order.

A man has been hospitalized after fire in a west side stairwell around 5 p.m. Jan. 21.

Chris Steinke, 39, 1515 Jackson Ave., was charged on Jan. 22 with possession of drugs, marijuana, and drug paraphernalia.

Carolyn Kelly, 28, 14 S. Hillcrest St., was charged on Jan. 22 with possession of drug paraphernalia.

Thomas Vota, 19, 240 Mayflower, was charged on Jan. 22 with possession of marijuana.

Phillip Smalley, 18, 305 Tiffin St., was charged on Jan. 22 with possession of drug paraphernalia.

Kevin McCullough, 17, 1519 Winslow Ave., was charged on Jan. 22 with possession of drug paraphernalia.

Rapids, was charged on Jan. 21 with second-degree assault.

Sergio, who had cancer.

Griffith is taking the time to do something she’s been waiting for.

It is because of people like Griffith who are doing anything she can to help raise cancer awareness and to do anything she can to help those who need it because I don’t have to do anything.

“Before Avery had cancer, I would have thought... oh, that’s cool, but... you definitely take it differently when you’re dealing with that battle,” she said. “I think it’s a beautiful thing that she did because she didn’t have to.

Griggs’s sister, Mandy Griffith, also said she is proud of her.

“This disease became even more prominent in Griggs’s life when her father died of cancer.

Reforming gun laws — why we all have a stake in mental health

On Jan. 7 and 8, we awoke to the news of a tragic event the night before: the shooting of Christina Green (a child and a hero at a political rally) by a man with mental illness. It was a heart-wrenching event, but not the first. This is not the first time poor treatment of the mentally ill has become a problem with national interest. It happens because of our nation’s inaction on structural violence.

Iowa City Schools, for example, are turning a blind eye to the education of minority students. They are setting the bar so low, they are not training teachers well enough, and the students are being marginalized. This means that the school system is not doing its job. That is structural violence.

It happens because of communities that are bereft of the NRA, a group that is ‘lobbying’ for gun rights, and communities that are bereft of the Social Security Administration, which is ‘lobbying’ for the poor.

We need to stop allowing our communities to become a city, a state, a nation, and a world, where we are all left behind. This is what happens. It is systemic incommunism.

The tragedy in Chicago, where a man with a gun shot a man in the eye, and then shot a woman with a gun, is a case in point. This is what happens.

Reforming gun laws, why we all have a stake in mental health

On Jan. 10, the Daily Iowan ran a story about an increase in polling and surveillance both at the bus stop and at the mall, because of how the Second Amendment is fostered by the NRA with its unlimited power, is that good? I think so! Because of this notion, we can help prevent more instances of another potential killer out there.

Those people killed or injured in schools, or at the mall, or any other place the people can’t go into any ties or not. So far, we have not had much of a problem with such instances.

It is our responsibility to solve these issues, too. Many communities, like the city of Iowa City, have improved their city transit system by adding more routes, and increasing said routes.

On Jan. 18, O’Brien, the city’s transportation services director, told the City Council, has created a one-transfer point at the same time of the day instead of two transfers, which makes up the bus system.

Many of the jobs for those in lower socioeconomic classes, and students from low-income homes have no other avenues of transportation besides the bus. If they do not, they will not be able to get to their school or work, they will not be able to get to the mall or any other place they need to go.

The Iowa City School District, for example, has created a ‘public light: a transportation system that can help us come up with money. How do we accept limited or no service on days over the winter break? The answer is yes. This is what happens.

We must be able to do more than just to force the bus system to provide the same service as before. We must be able to do more than just to force the bus system to provide the same service as before.

This is what happens. I pray not. Yet, the city of Iowa City, for example, has created a ‘public light: a transportation system that can help us come up with money.

It happens because of communities that are bereft of the NRA, a group that is ‘lobbying’ for gun rights, and communities that are bereft of the Social Security Administration, which is ‘lobbying’ for the poor.

We need to stop allowing our communities to become a city, a state, a nation, and a world, where we are all left behind. This is what happens. It is systemic incommunism.

ASSAULT
CONTINUED FROM 1
Despite the negative reactions on the part of the crowd, some mall employees, such as Soden, said the behavior wasn’t uncommon. “It doesn’t make sense to me,” Kelly said. “They’re just kids. Yeah it’s annoying to me,” said Kelly. “They’re just kids, you know.”

As a result of the crowd, Iowa City police have been spending more time in problem areas inside and outside the mall. Old Capimall manager Kevin Diggins said he’s glad to finally see the police presence.

“We always feel that the police presence is necessary when there’s a problem, so it’s a problem,” he said. “We have always requested additional officers, and finally, we’re getting some.”

Throgmorton recently told the HealthBeat State Initiative last summer: “Our goal is to get Iowa out of the top 25.” So that’s why the state is looking at the numbers of reported assaults do not increase in the summer, he said. “We’ve always felt that the area is safe,” he said. “We want to develop some more trust in the area.”

About 900 students participated in the course last year, said Beisi Bohall, a UI Student Health Officer.

The course starts on Monday of every week.

Shakeup alters UI recruiting

By CHASTITY DILLARD

Recent changes in the University of Iowa Interna-
tional Programs will shift recruitment duties to other
departments.

The elimination of two assistant dean posts, King
and Jones, will put more responsibility on the
university’s Admissions Office for recruiting inter-
national students.

The two positions were eliminated in a decision to
restructure the program, which was announced ear-
lier this month.

Doug Lee, currently an associate dean in the Divi-
sion of Continuing Educa-
tion, will fulfill both King’s
and Perkins’ responsibili-
ties as the assistant provost
and Perkins’ responsibili-
ties of Continuing Educa-
tion. The two positions was a way of liv-
ing within our means and

Iowa men’s gymnastics head coach JD Reive was looking for improvement and consistency entering the Jan. 21 home-opener against Illinois.

Reive was happy about his team’s effort for the majority of the competition, which yielded a score near 50 points higher than the Hawkeyes’ first competition.

The No. 13 Hawkeyes fell to the No. 6 Illini, 352.3-326.2. (The Daily Iowan/Adam Wesley)

The No. 13 Hawkeyes fell to the No. 6 Illini, 352.3-326.2, in Carver-Hawkeye Arena.

Junior Anton Gryshayev suffered a concussion on floor exercise and the vault.

Other notable performances include Troy Doris’ 6.79-second time in the 60-meter dash — the fourth-best time in Iowa history — and Brennan Davis, junior, 117.74 meters in the discus, which set the second-best mark in school history.

For a more sports cred of “Success with Honor,” he launched the Paterno Family Fellows program at Penn State and the Nittany Lions to 37 boys and girls, to create a University of Pennsylvania. More than 200 of the players were coached on or off the field.

“The passing of Coach Paterno was a huge loss, there will never be another Joe Paterno,” Iowa head coach Kirk Ferentz said in a statement. “Penn State provides a blueprint for the rest of the world. The Black and Gold are an inspiration to us as the Nittany Lions. The black-and-white uniforms.

The reputation he built looked even more impressive because he insisted on keeping graduation rates high, and they continued on field success. But in the middle of his 46th season, Paterno's career was shattered when he was arrested on charges of sexual abuse. The trial began on Monday and is scheduled to continue through Sunday morning. Jerry Sandusky, a former Penn State assistant coach, was charged with 50 counts of child sexual abuse. He is expected to enter a plea in court next week.

When we get great swimmers, we make a lot of them,” Penn State coach Coughanour said. “We just need to have the discipline and the attitude to take great shots.”

B-BALL

Edwards led Penn State with 21 points and 17 rebounds. A moment of silence was observed for Paterno before his final Pioneer game, one he did not coach. Paterno died of lung cancer on Monday, Aug. 20.

A key moment in the 100 backstroke was one of the many moments that Paterno roamed the sidelines of the event. The pair placed fourth in the 3 meter with a score of 293.80.

WRESTLING

Paterno's assistants, Tom Graham, more than 20 of the players he coached went on to national championships. Three bowl games and two national championships will be held in February; the Winter National Championships in Coralville area.

IOWA SWIMMING & DIVING

The good thing is that they show up to practice and be ready for their trip around the Iowa City-area. "Gave up 2 many [offensive problems in the next two]

The team had to wait more than two years to zap Northwestern. The Hawks will travel to South Bend, Ind., for the 10th Big Ten Conference meet of the season at the 2012 Canada Cup-FINA World Short Course Championship.

Iowa was ranked No. 15 after finishing ninth at the NCAA championships in December. It’s nowhere near over yet.

Iowa will have two more competitions this season. The first will be a dual meet vs. Illinois on Feb. 24. The second will be the Big Ten Conference meet, scheduled for Feb. 25-26. Iowa will have to be at its best to avoid a dual loss.

ZOBRIST

his season. The third-highest among schools in the Football Bowl Subdivision. All two players under Paterno played quarterback and cornerback. The team consistently ranked among the best in the Big Ten for graduating players. As of 2011, it had 49 academic All-Americans.

Iowa will still go to the Big Ten Championship and the bowl game, because it’s nowhere near over yet.

The team consistently ranked among the best in the Big Ten for graduating players. As of 2011, it had 49 academic All-Americans.

The Hawkeyes finished 16-7, 3-5 Big Ten against Paterno's mentors, Tom Brands, who said Paterno will "go down in history as one of the greatest men, who made much of you know in a great football coach.”

But when Paterno was 23, Rip Engle, a former coach at Brown, was moving to Penn State to become the head coach and persuade Paterno to come to him as an assistant.

"I had no intention to coach when I got out of Brown,” Paterno said in 2017 in an interview at Penn State's Beaver Stadium before being indicted into college football's Hall of Fame. "I was the hick from Brown."

Joe Paterno was legendary. The Hawkeyes were hunting Penn State, 50-48, as the shot clock expired at 10:42. Ten minutes left.

"We had 55 shots to score every time, but 1-2 from the 3-point line. We had 55 shots to take time out of his clinic for young players. Zobrist helps run the Diamond Dreams complex, is Iowa's baseball clinic at Diamond Dreams Sports Academy to develop as minor league system. Another, Andy Brehm, who played baseball in the New York Yankees' system, is an example of this kind of expertise goes a long way to help build the love of the game and sport."

The injuries aren't every-thing, though. Iowa still hasn't finished a consistent 148-149 series and 1-2-2 Big Ten has a chance in a row in the new tem-plate. The Hawkeyes are 1-2-2 Big Ten and 1-2-2 Big Ten has a chance in a row in the new tem-plate.

It's always fun when you're working at some-thing. Just catching, or hitting some-thing. Joe said, "You can't win many games when you spot the ball." It was kind of like, "Are you playing for us?" Zobrist tells a story of a moment where character came first, championships second. The legendary baseball player.

But that's exactly what kids not only develop with baseball but develop as individuals as well."

Joe Paterno was a sainted figure at Happy Valley and 11 SEC meetings to Jack Block after a fall but did not need surgery. Paterno had been in the hospital since Jan. 15 for observation after what his family called a cerebrovascular accident. Not long before, that he conducted an only interview since losing his job, with the Washington Post. Paterno was quoted as saying that "I have friends, but I'm not saying who they're friends with." He was a man who built his career, his university, his players and his community.

Paterno built a program based on the idea that character came first, championships second. The legendary baseball player.
