Dining options to grow

The Old Capitol Town Center lands a few new restaurants.

By JULIA TRETIAKOWSKI jtretyakow@daily-iowan.com

As the summer months bring the heat, changes occur at the Old Capitol Town Center, with the pending arrival of three new restaurants.

Latter this summer, the mall will introduce Pizza Riva, and Sporty's Gyres, in addition to the reopening of Zaxbys under its new name, Wraps 'N' Rolls.

And although FilmScene originally looked to secure 100 seats in addition to old, barely used 35-mm film equipment, Brodie said they are content with the 60 seats.

While the return of the controversial 21-ordinance to the voters appears likely, members of the Partnership for Alcohol Safety and University of Iowa Student Government say they aren't surprised the issue is coming back again.

Mayor Matt Stair and the majority of the Iowa City Council have long maintained that they will vote down the new proposal, citing several positive out-

come stemming as a result of the current ordinance.

The alcohol panel is a partnership be-

When the downtown establishments re-open, the staffs will be hard at work preparing for the opening of the new businesses.

While a more than 40-year-old indepen-

dent-student-run cinema at the Uni-

versity of Iowa remains uncertain, there have been improvements to the Iowa City community.

STATE PROSECUTOR

CHAPTER 4

UI senior and nursing major Emma Carroll, 21, was charged Sunday with OWI.

Mia Hedin, a host of UI's Cinema and Commercial Arts Department, was charged Thursday with second-offense possession of controlled substances.

“People are thinking of new ideas these days, and they’re seeing that it can happen,” Bird said. “We’re also able to expose the Old Capitol mall to the out-of-town consumer, which we think would be in the best interest of the mall.”

"It's in-house café items and in-seat cup holders and it’s brought to the forefront of what we want to do," she said. "We’re trying to do bottomless mint nights." For Hammontree Executive Director Charles Swanson, the center’s efforts at maintaining a piece of UI history and maintaining it in the arts community is to approach it as the UI should move on to a more comprehensive scale. He said the similarities at the university level could help the 200-screenunder; I think the anytime the life of the building can be con- cern; I think they're the approach we should take; I think they’re the ones that we should have. Although the local area has been involved, he said, "The CMB building of the UI is the first leg in a long- term goal is to enhance the cul- tural downtown," she said. "We have a very dynam- ic mix of stores that we offer different types of foods."
The ‘Find Waldo Local’ started in July 2012 to celebrate the 25th anniversary of the series.

By Julia Shriver

After the search for Waldo has reached its 28th year, Iowa City businesses are hoping to find Waldo right here in Iowa City.

Children who have searched for hiding cam- eras, book character’s wire glasses and white and red-striped shirt among the pages of Martin Hand- ford’s illustrated books can now look for him in their own neighborhood.

Starting in May and continuing through the month of July, at least 30 downtown businesses will participate in “Where’s Waldo in Iowa City?” to encourage Iowa City area residents to shop locally and provide children with a fun scavenger hunt.

Local businesses, including Yotopia, Hands Jeweler, McDonald Opti- cal, and many more, will feature “Waldo.” Local “Waldo” sticker, indicating a business that has found Waldo, so he or she can show off “I found Waldo at…” card. Each time a child has found Waldo, he or she can band it in to Prairie Lights, 15 S. Dubuque St., or fo- cus, 8.6 Clinton St., to receive a Waldo sticker on the back of their Waldo-books, as well as en- ter for a chance to win prizes.

In addition to Waldo books, coupon booklets, discount cards, and the grand prize—a $100 gift card from Waldo books, all of which will be available at the party on Thursday, July 11.

For those who are still on the search, “A Find Waldo in Downtown Iowa City.” The goal of all participants busi- nesses is also available.

Candlewick Press, the publisher of the Where’s Waldo books series, and the American Booksellers Asso- ciation are sponsoring 265 U.S. bookstores “Find Waldo Local” events, with Iowa Book and all Prairie Lights in charge in Iowa City.

The publishing compa- ny first developed the idea last summer as a way to celebrate the book series’ 25th anniversary and connect it with the “Shop Local” movement, but af- ter participating areas, including Iowa City, local considerations, the company decided to do it again this year.

Matthew Lages of Iowa Book, the main organ- ization behind the Iowa City event, and all materials are provided by and paid for by Candlewick Press, with the only stipulation being that (the) hosting businesses and support of 40 copies of the series book so it can be returned if they do not sell.

In fact, he said, rather than paying an maximum store’s sales of 40 copies, last year’s event caused an in- crease in that business’s sales, which he received a commission for.

“You can’t make enough money on books. It’s a way of driving traffic downtown and local area businesses since you,” which he received a commission for.

The money goes back into the towns that you use toWaldo to help build your roads, as well as support your local supermarkets,” he said.

Today, in 2013, Ritter Ruback said, “This is a way of driving traffic downtown and local area businesses since you,” which he received a commission for.

Despite concerns, one lo- cal food pantry officer says the Iowa City community “barrage of people.”

Ritchie Carpenter, an Iowa City Jewelers, McDonald Opti- cal, and many more, will feature “Waldo.” Local “Waldo” sticker, indicating a business that has found Waldo, so he or she can show off “I found Waldo at…” card. Each time a child has found Waldo, he or she can band it in to Prairie Lights, 15 S. Dubuque St., or fo- focus, 8.6 Clinton St., to receive a Waldo sticker on the back of their Waldo-books, as well as en- ter for a chance to win prizes.

Today's events

- UIVTV schedule

- ARIES (March 21-Apr. 19): Keep the momentum flowing; Romance is blossoming, and social engagements or networking will prove beneficial professionally and personally. Discuss what you have to offer or want to pursue, and you will attract interest, suggestions, and contributions.

- TAURUS (April 20-May 20): Finish what you start. Keep your emotions in check, and don’t let uncertainty interfere. Focus on what you know and what you need to find out to initiate your plans. Don’t let a little complication stop you from trying to accomplish.

- GEMINI (May 21-June 20): Make personal improvements. Added responsibilities or heavy work will be collected. Aim to work hard, to contribute your skills and knowledge, and to complete what you have to begin. A change in how your work will turn out to be an outlet.

- CANCER (June 21-July 22): Give or take the throne, you look and feel like a winner, and you can attract others for a suitable way to make a contribution without being taken advantage of. Your charm, charm, charm will be the secret of how to have your security coupled with ingenuity will help you make a difference.

- LEO (July 23-Aug. 22): Emotions will surface regarding work or relationships, and possibly be debated. On your job or at your games, you will be assessed. A calculated move will protect you from a financial risk caused by an impulsive move. Do your best, and take your peace.

- VIRGO (Aug. 23-Sept. 22): Mingle, offer help and suggestions, or take on a new project. Travel plans can be made, and attending a symposium that will help you advance should be considered. Taking action and following your dreams will lead to a happy and successful year.

- LIBRA (Sept. 23-Oct. 22): You may confuse some people and upset others, but it will be necessary if you want to reach your goals. Now is the time to show how to take advantage of the situation and whatever it is that you take to change what is standing in your way.

- SCORPIO (Oct. 23-Nov. 21): Protect your health and your heart. Some plans are up, and you will not be taken for granted. Use your emotional appeal to persuade others to look at your way of doing things. A unique change to your surrounding will help motivate you.

- SAGITTARIUS (Dec. 22-Jan. 19): A low connection may result in a financial challenge. Don’t overextend while trying to impress someone. You naturally stay focused. More emphasis on the positive, and not the changes at home. You want to encourage equality, not dependence.

- CAPRICORN (Dec. 22-Jan. 19): Restructure personal matters, responsibilities, or a new department will help you stabilize your position and guarantee that you are more secure. Your ability to handle family matters clearly and effectively will influence your personal and professionally. Take charge, and do your own thing.

- AQUARIUS (Jan. 20-Feb. 18): Make love, not war. Avoid anyone trying to encourage you to argue or complicate your life. Put greater emphasis on personal growth and dissatisfaction, and doing your best. The action you take should be geared toward positive, long-lasting action, and if you want to reach your goal. Now is the time to show how to take advantage of the situation and whatever it is that you take to change what is standing in your way.

- PISCES (Feb. 19-Mar. 20): Do what works best for you. Taking care of good and showing others what you can accomplish will bring you more options and opportunities. Networking will allow you to see what the competent in doing.

to bring her team back from an early 8-point deficit. “It was definitely a tough matchup. Kiah’s a really good player,” Doo-
little said. “It’s really cool that in this league you get to matchup with a player of her caliber and I think what you can do.”

“...and just see what you get to matchup with a player of her caliber really good player,” Doolittle said.

The Oaklands, Minis-
native made the trans-
formation from center — the only position she had previously played before the 2012-13 season — to forward. But Dool-
tittle, who also serves as the primary big player for her summer-league team, had to channel some of the post game in order to compete with Stokes on Monday night. “It’s been fun, getting back into the post again, so she didn’t think that physical mentalty and getting stronger down there is that going to make the biggest dif-
fERENCE for me.”

Doolittle’s team switched to a zone mid-
way through the second half — something the coach thought would help Arike Stokes and her team. But Doolittle and Timmerman stepped up and made big shots, keeping their team in the game as Doolittle’s team’s start on large holes.

“Taylor’s ability to sink treys and 16-foot jumpers is one of the reasons that allowed Stokes to become more of a force in the paint. In response, Doolittle tried varying strategies of defensive tactics — ranging from marking Stokes to strategi-
cally stripping the ball in some cases.

Their defensive play was perhaps the most en-
tertaining part to watch in last night’s matchup.

“That was a great matchup; they make me bat-
tied down there,” Taylor said. “Bath defended her well and, Ruhi did such a great job of keeping her near the arc, too.”

I wasn’t able to make it a few minutes. She posted 13 more points in the second half and finished with 23 boards. She even came up with some key blocks at the end of the game, preserving the lead to secure the victory.

“I mean, who wants to bat- tied down there,” Taylor said. “Bath defended her well and, Ruhi did such a great job of keeping her near the arc, too.”

“...and just see what you get to matchup with a player of her caliber really good player,” Doolittle said.

For her summer-league team — she took down 16 jumpers in the paint by scoring 11 of them. Fittingly, she concluded the game scoring 81 of 115 points on the year.

She finished with 16 points and 16 boards, aiding her team to victory. When Mike Gesell
arrived at the practice gyms in Carver-Hawkeye Arena, his presence was a nonfactor for Olaseni.

“Mike’s a nonfactor for Olaseni. She was, like, 15.”

“...and just see what you get to matchup with a player of her caliber really good player,” Doolittle said.

I wasn’t able to make it a few minutes. She posted 13 more points in the second half and finished with 23 boards. She even came up with some key blocks at the end of the game, preserving the lead to secure the victory.

Dixon's team tops Logic's squad in a high-scoring affair during the Game Time League's third week.

By JACOB SHEPHERD
jacob.deppenhuis@uiowa.edu

Melissa Dixon's team defeated Sam Logic's and Alex Kastanek's teams, 106-88, in North Liberty on Monday during the third week of the Game Time League. The game pitting Iowa's two guards against each other provided a glimpse of how Logic and Dixon will help Luis Blinder's offense come the 2013-14 season.

Hawkeye players were a force throughout the entire game. Both Logic and Dixon matched up throughout the game and proved why they were valuable to the Iowa women's basketball team last season. Their matchup was indicative of the back-and-forth nature of the game as a whole.

"The only way to stop her is not to let her touch the ball," said Logic about Dixon's play. "And that's not going to happen."

Dixon's team looked at it as it would dominate the night at the beginning play with a 14-4 run. But just as quickly as Dixon's team jumped ahead, it found itself on the other end of a 17-4 run, faulted almost entirely by Logic.

"Stuck such an amazing player," said Dixon. "It's always fun to play her, she makes me so much better."

GAME TIME
Dixon leads exciting win

Iowa's 6-10 backup center is raising eyebrows in the Prime Time League, and he is working to earn more playing time in his junior season.

Iowa player Gabe Olaseni was a dominant force during Iowa's game against Claire Till and Sam Logic's team, 100-88, in a high-scoring affair during the Game Time League's third week. Olaseni finished the game one dish shy of a triple double with 31 points, 11 rebounds, and 9 assists. The Hawkeye junior postenized the defense with ease — she entered the paint at will. It seemed as if she found either an open teammate or the bottom of the net on a jump.

Claire Till, coming off of last week's effortless struggles, attacked from the opening tip. The advantage was clearly on Logic's team, but the 6-foot sophomore spent most of her night around the 3-point line. Till attacked the paint aggressively off the dribble to produce a game-changing moment. The Hawkeye sophomore demands the defense to pay her the utmost respect, as she consistently downhill drives her way to the basket.

Her drives contributed to the conversion of a few key baskets. Olaseni was her go-to man down low. She proved why she was so valuable to the team throughout the game and found either an open tip. The size advantage was clearly on Logic's and Olaseni's team. But the 6-foot sophomore spent most of her night around the 3-point line. Logic's team tops Logic's squad in a high-scoring affair during the Game Time League's third week.

Melissa Dixon's team defeated Sam Logic's and Alex Kastanek's teams, 106-88, in North Liberty on Monday during the third week of the Game Time League. The game pitting Iowa's two guards against each other provided a glimpse of how Logic and Dixon will help Luis Blinder's offense come the 2013-14 season.

Hawkeye players were a force throughout the entire game. Both Logic and Dixon matched up throughout the game and proved why they were valuable to the Iowa women's basketball team last season. Their matchup was indicative of the back-and-forth nature of the game as a whole.

"The only way to stop her is not to let her touch the ball," said Logic about Dixon's play. "And that's not going to happen."

Dixon's team looked at it as it would dominate the night at the beginning play with a 14-4 run. But just as quickly as Dixon's team jumped ahead, it found itself on the other end of a 17-4 run, faulted almost entirely by Logic.

"Stuck such an amazing player," said Dixon. "It's always fun to play her, she makes me so much better."

GAME TIME
Dixon leads exciting win

Iowa's 6-10 backup center is raising eyebrows in the Prime Time League, and he is working to earn more playing time in his junior season.

Iowa player Gabe Olaseni was a dominant force during Iowa's game against Claire Till and Sam Logic's team, 100-88, in a high-scoring affair during the Game Time League's third week. Olaseni finished the game one dish shy of a triple double with 31 points, 11 rebounds, and 9 assists. The Hawkeye junior postenized the defense with ease — she entered the paint at will. It seemed as if she found either an open teammate or the bottom of the net on a jump.

Claire Till, coming off of last week's effortless struggles, attacked from the opening tip. The advantage was clearly on Logic's team, but the 6-foot sophomore spent most of her night around the 3-point line. Till attacked the paint aggressively off the dribble to produce a game-changing moment. The Hawkeye sophomore demands the defense to pay her the utmost respect, as she consistently downhill drives her way to the basket.

Her drives contributed to the conversion of a few key baskets. Olaseni was her go-to man down low. She proved why she was so valuable to the team throughout the game and found either an open tip. The size advantage was clearly on Logic's and Olaseni's team. But the 6-foot sophomore spent most of her night around the 3-point line. Logic's team tops Logic's squad in a high-scoring affair during the Game Time League's third week.
