Another sexual assault reported

By BRENT GRIFFIN
brent-griffiths@uiowa.edu

The University of Iowa Housing and Dining staff has received a second report this month of a sexual assault.

A report from a student stated she was sexually assaulted at an off-campus fraternity house.

The student said she knew the assailant prior to coming to the UI. On Nov. 9, she reported, they went downtown, and the assailant agreed to walk her home but instead took her to the off-campus fraternity house, where she was sexually assaulted.

As of Monday evening, the reporting party had decided not to report the incident to law enforcement. Karen Siler, assistant director of the Iowa City Rape Victim Advocacy Program, said the program has worked in-depth with Greek life, such as giving lectures and holding events throughout the year to raise awareness of domestic violence and domestic assault.

“It certainly hasn’t been a decline in people attending the informational events,” Siler said. “I would say some events are more attended than others. We do have partnerships with some sororities and fraternities to help give information and prevention.”

Rape Victim Advocacy Program, said the program has worked in-depth with greek life, such as giving lectures and holding events throughout the year to raise awareness of domestic violence and domestic assault.

“We educate the entire campus, not just the greek system,” she said. “We educate the entire campus, not just the greek system.”

“There certainly hasn’t been a decline in people attending the informational events,” Siler said. “I would say some events are more attended than others. We do have partnerships with some sororities and fraternities to help give information and prevention.”

Siler said the sexual assaults — the third reported by a UI student this semester — is an issue in the Greek system.

“We educate the entire campus, not just the Greek system or the non-Greek system,” she said. “We have as many assaults, we just don’t hear the problems on the sexual assault on campus. One that is reported in a fraternity house, we can say that’s a problem — but it doesn’t mean all fraternities do this, and not all their members are committing these assaults.”

Greek life officials said the reported incident is worrisome.

“The new system will be completely integrated with ISIS,” Kruckenberg said. “Students will be able to get placed on a waiting list with one click.”

The University of Iowa ISIS system enables students to register for courses with the click of a button, without a waitlist, registration, for the most part, pretty simple. However, if students want or need to register for a class that is full, getting on a waitlist is more challenging.

Waiting lists are currently handled manually and differently by each department, said Thomas Kruckenberg, a UI associate registrar.

However, a new system is being tested during this registration week, and it will probably be used campus-wide beginning in the summer of 2014.

The new system will be completely integrated with ISIS, Kruckenberg said. “Students will be able to get placed on a waiting list with one click.”
Indian student numbers up

Indian graduate students at the University of Iowa offer an additional perspective on a national trend.

By LILY ABRAMOFF

The United States has seen a rapid increase in the number of first-time graduate students from India, according to a recent study. When the University of Iowa was founded in 1879, the faculty believed there were more than 600 students in the United States who were not enrolled in...

Iowa's changing Republican Party

Barrett Ronn, Michael Beall, Ashley Lee, Adam Barrett, Kylie Groente and Brianne Richson

Iowa's Republican Party, reflecting national trends, has undergone a distinctive evolution in recent years. In the 2010 general election, the GOP nominated candidates, including U.S. Sens. Joni Ernst and Chuck Grassley, who were both foreign-born. Yet in the past, members of the Republican Party were often accused of racism and xenophobia.

In the past, many members of the Republican Party, including former U.S. Sens. Rick Santorum and John McCain, have been accused of racism and xenophobia. However, in the past, members of the Republican Party were often accused of racism and xenophobia.

Plan to explore building solar farm

In Johnson County, McKenna said, the farm would be the largest solar array in Iowa if it is built. The farm would provide 500 kilowatts of energy comparable with the power required by nearly 60 homes. McKenna said planning for the farm would be used for the Farmers Electric Co-op and other buildings nearby.

Supervisor Chairwoman Janelle Rettig said the focus of a solar farm is very exciting, and she hopes those types of projects will continue. Farmers Electric Co-op is doing many neat things, Rettig said at the Nov. 14 meeting, "I'm very happy you're here. I hope this is the first of a number of those we'll see." The Electric Co-op is working on the proposal, and McKenna said he is hopeful the members will approve it. Once completed, he said, the farm would provide approximately 15 percent of the power needed by the Electric Co-op. This will create significantly more income for the organization, McKenna said.

"It helps our local money," he said. "We're not selling our money up to the larger companies. [...]"太阳能 projects are an added benefit, and for that reason, said Sullivan, and large-scale changes need to take place.

``Our current system is insane," Sullivan said. "We're warming our planet and using up all of Earth's resources. We're just in a critical, critical condition. This plan shows real change needs to take place."

``If the plan is approved, this is the first of a number of projects will continue." Sullivan said larger-scale projects will continue.

``We need to reduce our dependence on oil as an energy source and supplement that," he said. "Anything we can do that will help us get away from oil, if we're able to do that, [will be] a benefit to us." Sullivan said if the farm is approved, the farm could be completed by May 2014, McKenna said.

``If we can do this, he knows how to play this game,'" Sullivan said. "Moments later, Zimmerman called 911 from the home where a while they were living and claimed he pointed a shotgun at her during an argument, authorities said.

The girlfriend, Sumanth Scholle, called 911 in the early afternoon to say that Zimmerman had smashed a glass table, threatened her with the shotgun, and ultimately pushed her out of the house, according to an arrest report. After pushing her out, Zimmerman barricaded the door with furniture and refused to leave, saying he would talk to police by phone, police said.

The arrest was the latest legal problem for Zimmerman since he was acquitted last summer of the fatal shooting of Trayvon Martin, an unarmed black teenager, in the early afternoon to say that Zimmerman started to leave, "she got mad," he said.

``I have a girlfriend, who was pregnant with their child and she had decided she wanted to leave the house. But Zimmerman started to leave," he said.

``I'm very happy you're here. I hope this is the first of a number of those we'll see." The Electric Co-op is working on the proposal, and McKenna said he is hopeful the members will approve it. Once completed, the farm would provide approximately 15 percent of the power needed by the Electric Co-op. This will create significantly more income for the organization, McKenna said.

Horoscopes

ARIES (March 21-April 19): Work on relationships. Set up rules and recognize the boundaries equally in mind. Think about the changes you want to make with regard to how you love. Don’t agree to anything with anyone who has been dragging you down.

TAURUS (April 20-May 20): Express your ideas through your actions. Take ideas from your past, and revamp and move to fit your current needs. Avoid becoming involved in events that allow you to interact with people who can’t help but take advantage of you. Don’t try to help build your confidence.

GEMINI (May 21-June 20): Decline to sacriﬁce your own ideas. Be prepared to make room for new endeavors. A change in the way you feel about monetary possessions will come to you. You will get a rare opportunity to witness something special. A change in the way you feel about monetary possessions will come to you. You will get a rare opportunity to witness something special.

CANCER (June 21-July 22): Spend time with friends, family, and peers, and you will boost your conﬁdence. Opportunities are present if you are willing to invest your pursuit of your goals. Focus on your responsibilities, or renege on a promise. A sudden change in the way you feel about monetary possessions will come to you. You will get a rare opportunity to witness something special.

LEO (July 23-Aug. 22): Speak from the heart. Address issues in a direct, honest manner. There is no room for even when dealing with relationships or domestic issues. Don’t talk about what you cannot handle. Make decisions and changes you know you can manage.

VIRGO (Aug. 23-Sept. 22): Lent a helping hand, and you will come one step closer to understanding something special. A change in the way you feel about monetary possessions will come to you. You will get a rare opportunity to witness something special. A change in the way you feel about monetary possessions will come to you. You will get a rare opportunity to witness something special.

LIBRA (Sept. 23-Oct. 22): Do what you have in the past to help you move forward more easily. Refuse to let anyone intimidate you. Have faith in your abilities, intelligence, knowledge, and attitudes, and pursue your goals. Research will help build your conﬁdence.

SCORPIO (Oct. 23-Nov. 21): A unique change at home will affect those who can’t seem to control someone you love. Invest in the area that allows you to use your skills in unusual ways. Get involved in events that allow you to interact with people who have something to offer.

SAGITTARIUS (Nov. 22-Dec. 21): Face situations head-on. Exploit new opportunities, and be prepared to make the necessary changes to accommodate the results you want to see. Try to make room for new endeavors.

CAPRICORN (Dec. 22-Jan. 19): Accommodate others, and you will end up getting exactly what you want. Your ability to follow your ideas into new places will lead to an interesting and prosperous partnership. Don’t pay for someone else’s mistakes.

AQUARIUS (Jan. 20-Feb. 18): Don’t share your plans with others if you want to avoid meddling. A partnership will be under pressure because of the changes you feel are important to your emotional well-being. Tempers are likely to escalate if you don’t hold up your end of a bargain.

PISCES (Feb. 19-March 20): A partnership will suffer if you cannot agree on the changes you want to make, neglect your responsibilities, or remain on a pattern. A sudden change in the way you feel about monetary possessions will come to you. You will get a rare opportunity to witness something special.
**Toronto’s mayoral circus still in town**

**By Ken Thomas**

Thursday, November 21, 2013

WASHINGTON — As Hillary Rodham Clinton officially might go on a second presidential run, expectations are high that she could make an announcement that would put the Democratic establishment through a difficult process. The Democratic establishment is now facing a difficult decision, as it must decide whether to support Clinton in her bid for the nomination or to support another candidate.

Clinton, who has been a strong supporter of the Democratic Party, has been mentioned as a potential candidate for the 2016 presidential election. She has been a strong advocate for women’s rights and has been a vocal critic of the Trump administration. She has also been a vocal critic of the Russia annexation of Crimea.

Clinton’s decision to run for the Democratic nomination would have a significant impact on the presidential race. She would be a strong contender and would likely draw a significant amount of support from Democratic voters. However, Clinton’s decision to run for the nomination would also likely draw significant opposition from other Democratic candidates, such as Joe Biden and Senator Bernie Sanders.

Clinton’s decision to run for the Democratic nomination would also likely have a significant impact on the 2016 election. If she were to run, she would likely draw a significant amount of support from Democratic voters and would likely be a strong contender in the presidential race. However, if she were to have trouble gaining traction among Democratic voters, it could lead to a divided party and a potential loss for the Democratic candidates in the 2016 election.

Overall, Clinton’s decision to run for the Democratic nomination is likely to have a significant impact on the presidential race. It is unclear whether she will make the decision to run or not, but it is clear that her decision will have a significant impact on the race. With so many uncertainties, it is likely that the 2016 presidential race will be a long and difficult one.
All Texas Tech does is get big chunks of yards on one play; that means running 211 plays that have gone between 10 and 19 yards, the Red Raiders have had 61 plays that have gone between 20 and 29 yards, 27 plays of 30-39 yards, and 15 plays that have gone for 30 yards and beyond. Iowa's rushing stats in the nation with 120 plays that have gone between 10 and 19 yards. Big plays have never really been Iowa's thing, but it would be nice to see some more pop out of the offense every now and then. Iowa has run just 33 plays that have gone between 20 and 29 yards, which isn't the best, either.

Again, Iowa is second-to-last in the Big Ten in this stat, in front of only, again, horrible, horrible Purdue. Surprisingly, Indiana has run the most long plays from scrimmage in the conference, totaling 181 snaps that have gone between 10 and 15 yards and 70 that have gone between 20 and 29 yards.
## BASEBALL SIGNS 5 RECRUTS

The Iowa baseball program signed five players for its 2015 season, the Whitewater Department announced Wednesday. R.J. Fazio, an unaffiliated left-handed pitcher, and right-handed pitcher Ryan Dvorak, inches away from his left-handed pitch, and right-handed pitcher Kieren "Tommy" Lamont, left-handed pitcher, will be one of the five pitchers, and Kyle Wade, also a right-handed pitcher.

This is the first recruiting class for coach Rick Heller, who was hired in June. "We are pleased with the quality of our first recruiting class," Heller said in a release. "Recruiting coordinator Mike Geoghegan and assistant coach Scott Brohman did a great job in a short situation. Being faced in late July, this class was a challenge to be, but I think we have a shot at it."

Allgeyer, a native of St. Louis, will Enroll in all conference play during his junior season. The Hawkeyes finished 2014 3.0 average. He was one of the top actresses in the country in 2012.

Heller said in the release. "Only a small step, but it means a lot to us and it's something that's been coming for a while." He said it was a surprise for the Hawkeyes to see this kind of improvement.

## SCOREBOARD

Pittsburgh 3, Anaheim 1
Boston 4, Carolina 1

DePaul 80, Illinois St. 67
Syracuse 56, St. Francis (N.Y.) 50
Duke 91, North Carolina-Asheville 55
Arizona 100, Fairleigh Dickinson 50

commentary

Soccer’s historic season

Although the season ended with a loss, Iowa soccer was. The Hawkeyes have not beaten Penn State in the program’s history, nor won more than 13 games in a season, never won a postseason match, and never earned a spot in the NCAA Tournament. That now seems like a distant memory.

In 21 days, from Oct. 25 to Nov. 15, the Iowa soccer team faced Penn State twice, won 15 games to accumulate the most wins in program history, won two postseason matches, and never earned a spot in the NCAA Tournament. That now seems like a distant memory.

Just under a month ago, the Iowa soccer program was in a completely different situation. The Hawkeyes had never beat Penn State in the program’s history, nor won more than 13 games in a season, never won a postseason match, and never earned a spot in the NCAA Tournament. That now seems like a distant memory.

## THE BOX SCORE

How Hawk ‘O’ stacks up

By Ben Ross

In 2015, the Iowa Hawkeyes were ranked No. 4 in the Big Ten, and they hauled a 9-1 record out of the season. But this year, they are one of the top teams in the country in 2012.

The fifth-place finish was a surprise. It was a surprise for the Hawkeyes to see this kind of improvement.
