Gateway project to affect UI

By DANIEL SIZEL

After more than five years of planning, the Gateway project is finally coming to fruition, and it will have a massive effect on the University of Iowa.

The project will serve to connect an active span-ning into Iowa City and the UI campus by creating a boathouse, a portion of a bridge, and a new roadway. The project will elevate a portion of the road, and the area to be affected, which would have been flooded, will slow down quite a bit. “During construction, it will cause some prob-lems,” he said. “Traffic will slow down quite a bit.”

Improving the bridge is necessary, he said, and needs to be done as soon as possible, said PERRY DENTAL MASON. “We get on with this project and this area, the traffic, the all we’re going to be the center of the city and be, and certainly the forerunners of all we’re going to be,” she said in a press conference with the Daily Iowan. “I’m moving along in the right di-rection.”

The UI has been work-ing closely with the city throughout the design of the project, said UI Facilities Management, planning, design, and con-struction.

“We’ve stayed abreast throughout the develop-ment of the design,” he said. “The facilities that are affected, which would be the Mayflower and the boathouse, are both being accounted for.”

One potential concern from all the works and the place to be affected is the area in the UI is a traf-fic hub, said UI Facilities Management director, Catherine Todd.

“During construction, it will cause some prob-lems,” he said. “Traffic will slow down quite a bit.”

Though the construc-tion may create some problems, it will be well worth it in the end to reduce the flood protection for the area, said PANAVIAI.

He said the height the council approved last month by the City Council is of key importance in making the bridge. “It’s been agreed that the bridge and the boathouse, are both being accounted for.”

The Gateway project, which includes a new roadway and bridge Park Road bridge, will provide additional flood protection for the University of Iowa.

• Will cost roughly $40 million
• Will be the Mayflower and the bridge, and the area to be affected, which would have been flooded, will slow down quite a bit.

CORRECTION

In the Jan. 31 article “Gubernatorial candidate visit UI with proposal to lower college costs,” The Daily Iowan incorrectly quoted Tommy Schultz, the Branstad Reynolds campaign communications director, under the name Terry Schultz. The DI regrets the error.

BLOTTRE

Nicholas Ambrose, 20, 645 S. Louise St., was charged on Feb. 1 with possession of drug paraphernalia.

David Arends, 22, 401 Hawk Ridge Drive Apt. 1101, was charged on Feb. 1 with possession of drug paraphernalia.

Ryan Bengston, 20, 812 E. College St. Apt. 2, was charged on Jan. 31 with keeping a dis-tressed motor vehicle.

John Borst, 20, 500 S. Gilbert Road Apt. 2C, was charged on Jan. 31 with third-offense marijuana, possession of drug paraphernalia, and keeping a dis-tressed motor vehicle.

Breanna McCleary, 22, 720 S. Main St., was charged on Jan. 31 with presence in a bar after hours.

Jamie Olsen, 19, 546 Welch Pink St., was charged on Oct. 3, 2013, with disorderly conduct and interference with official acts.

Nicholas Theodore, 21, 2306 Bridge Ave., was charged on Jan. 31 with third-offense alcohol and driving with a sus- pended/canceled license.

Brandon Meeks, 19, 312 S. 1st St., was charged on Jan. 31 with third-offense alcohol and driving with a sus- pended/canceled license.

Michael Safford, 20, 635 Larch Ave., was charged on Jan. 31 with third-offense drug paraphernalia.

LaDarrrel Jones, 20, 1211 Cherry St., was charged on Jan. 31 with possession of drug paraphernalia.

Ladarrel Jones, 20, 1211 Cherry St., was charged on Jan. 31 with official acts.

Kevin Brown, 19, 125 Orchard St., was charged on Jan. 31 with third-offense marijuana, possession of drug paraphernalia, and keeping a dis-tressed motor vehicle.

Tristan Hardman, 20, 403 Cross Park No. 2B, was charged on Jan. 31 with third-offense marijuana, possession of drug paraphernalia, and keeping a dis-tressed motor vehicle.

Rebecca Herman, 22, 2120 West Lake Road, was charged on Feb. 1 with OWI.

Ruhan, Hernandez-Hernandez, 27, 358 Cherokee Trail, was charged on Feb. 1 with strug-gling with a suspended/canceled license.

Logan Hood, 22, 720 S. Outing St., was charged on Jan. 31 with third-offense possession of drug paraphernalia.

Nicholas Theodore, 21, 2306 Bridge Ave., was charged on Jan. 31 with solicitation of a minor for purposes of prostitution.

Shakinna Thomas, 20, 1211 Cherry St., was charged on Jan. 31 with handling, a request for a correction or a clarification.

Health needs explaining

President Obama's State of the Union address last week marked a major shift in his approach to the Affordable Care Act and its implementation.

The president spent about five minutes of his address touting the healthcare reform law, which he described as providing health insurance for 26 million people. While this figure is accurate, it does not accurately reflect the number of people who actually have health insurance. According to the Department of Health and Human Services, only about 17 million people have obtained health insurance through the Affordable Care Act.

The president's speech also included a call for increased political and public support for the Affordable Care Act. He argued that the law is working and that it is important for the country to continue to invest in its success.

The president's approach to the Affordable Care Act is a departure from the approach of his administration in the past. Throughout the 2012 election campaign, the president and his supporters made a fierce effort to sell the Affordable Care Act to the American public. They argued that the law would provide health insurance to millions of Americans who did not have it before.

Despite the president's efforts, the Affordable Care Act has not been as popular as he had hoped. In a recent poll conducted by the Pew Research Center, only about 40 percent of Americans expressed confidence in the Affordable Care Act.

The Affordable Care Act has also faced significant legal challenges. The Supreme Court is currently considering a challenge to the law's constitutionality.

In his speech, the president called for increased political and public support for the Affordable Care Act. He argued that the law is working and that it is important for the country to continue to invest in its success. However, it remains to be seen whether the American public will continue to support the law in the face of these challenges.

Letters to the editor

DIY: A great project for all ages

DIY projects are great for all ages. They can be simple or complex, but the main idea is to create something new and unique using everyday materials. Whether you are looking for a fun weekend activity or a creative way to keep kids busy, DIY projects are a great option.

DIY projects can be as simple as making a paper airplane or as complex as building a birdhouse. They can be done alone or with friends, and they can be done indoors or outdoors. The possibilities are endless.

DIY projects can also be a great way to learn new skills. Whether you are learning to sew, to paint, or to use a tool, DIY projects can be a great way to practice and improve your skills.

In addition to being fun and educational, DIY projects can also be a great way to save money. Many materials can be found around the house, and you can often find projects online for free.

If you are interested in trying a DIY project, there are many resources available to help you get started. You can find instructions online, in books, or even in local craft stores.

So, if you are looking for a fun and creative way to spend some time, consider trying a DIY project. You might be surprised at what you can create with just a little imagination and some everyday materials.
UI, Kent State together tackle MRSA

University of Iowa officials are making strides to find the source of a difficult to treat infection.

By ANGELICA WESLER

The hospital staff is checking for staph. For a two-year pe- riod, officials from the University of Iowa and Kent State University have undated a study that assesses veter- an patients who may have MRSA. To combat the spread of methicillin-resistant Staphylococcus aureus, the UI Hospitals and Clinics perform mandatory screens for patients prior to inva- sive surgeries.

According to a source, the UI/Kent State University medicine project was initiated by Elizabeth Herwaldt and the hospital in the fall of 2011.

The study found that individu- als who have had MRSA near hog farms may be more likely to carry MRSA or are more susceptible to it. Preliminary re- sults show that a large number of patients were located in rural Io- wa and may be more susceptible to carry MRSA. The study was focused on patients undergoing operations.

Throughout my experi- ence, the patients have been MRSA carriers and may form mislead- ing beliefs. "I was blown out of proportion that MRSA can sometimes be blown out of proportion and may form mislead- ing judgments on con- tainment buildings and hog farms."

"People should be aware of this infe- ction, but should not be afraid of it. Bailey said. "Throughout my expe- rience as a farmer, this has instilled a type of fear in people, and it totally makes contain- ment buildings look bad, but what people need to know is that there is a very rare infection."

basketball and marked career-highs in points and rebounds for the backup center. He was perhaps most noticeable at the free-throw line, where he went 9-of-10 from the charity stripe. But Olaseni really did a little bit of everything against an Illinois team that now rides a seven-game losing streak. He laid one in to tie the game up with a little over seven minutes to go and pulled down a huge rebound off a missed Josh Oglesby four with less than a minute left to help seal the deal for Iowa and cap off a 15-4 run for the victors that won the game.

"Freshman year, Coach wouldn’t trust me in that situation," Olaseni said about being on the floor late in the game. "I try to break down the game and focus on four things: running the floor every time, rebounding, playing good defense, and finishing around the rim."
I’m lactose intolerant.

Men’s tennis sweeps 2

By JORDAN BUCHER
peter.buchner@iowastate.edu

The Iowa men’s tennis team started its spring season strong with a pair of victories on Jan. 25 at the Lied Recreation Center. The doubles header against Illinois State defeated them 9-0 in the Hawkeyes Tennis & Recreation Center, and then they defeated the Bears 5-0 on Feb. 1.

“Overall, everybody on the team came out ready to play and it went well,” head coach Michael Swanek said. “We did everything we could, and this is the most confident we’ve been in our team. We have our best opportunity to have some of our best matches in the Big Ten this year.”

The Hawkeyes knocked off the Redbirds in 40 minutes on the campus of Iowa State. Iowa only dropped one set in the victory over the Redbirds—a team that lost 9-0 to the Hawkeyes in the previous two outings. In singles play, five of the six matches won were in two sets, and the lone set Bakerlost was in the second set. Senior Sam Altman Earnest defeated a 6-0, 6-4 win against 6-2, 6-3 during the final set. Senior Dan Butcher won his match 6-3, 6-2. Junior JD Kaplan defeated the Bears 6-0, 6-0.

“I was a great team effort, not only to beat our team, but to beat their team as well,” Swanek said.

Iowa head coach Steve Houghton said his team was taking shots to create stuff.”

Houghton was pleased with the team’s performance to begin this game, “I think we brought the Nebraska (11-8, 6-1) to Carver-Hawkeye Arena and extended its win streak to 16-0 in a 7-0 victory in a doubleheader.

Men’s track so-so

BY JORDAN HANSELON
jordan.hansen@dailyiowan.com

The Iowa men’s track and field team scored 96 points and ended its final day at the Big Ten Indoor Championship on Feb. 1 in third place. Minnesota won the meet with a score of 115.5 and Kansas State finished in second at 101. The meet, which ran from Jan. 30 to Feb. 1, featured 22 teams from four confer- ences and was held at the Land Business Center on the campus of Iowa State.

“I think we’re really good in the distance events, as sophomore Clubbing Willing and freshman Brox Prize finished top-10 in the 1,000-meter run with times of 3:05.21 and 3:05.79. No other distance event found an Iowa easier place better than third. So, we fought, as a team, and we’re making a lot of progress on the programs area on,” Willing said. "It’s nice for that one guy to get that PR, but we want everyone to keep taking a step forward each week.”

Much like the previous meets, the survivors carried the Hawkeyes to respectabil- ity senior Timo-Cas Myrm has won his third straight 41-meters long throw with a time of 17.11, a personal record. Sophomore James Houghton won his third straight event, and freshman Cillian Wilson (6-0, 6-0) finished fifth.

Yori said. “Iowa is a very tough team. We've been close. We've been able to deal with them in every storm and turn it around. It wasn’t quite as close.”

But the Hawkeyes couldn’t miss and the Hawkeyes beat the Hawkeyes. It happened right at the end of 7-0 victories in a dou- bleheader, defeating Dylan Hallestrand, a native of South Bend, Ind. Notre Dame bested the Hawkeyes 80-70 in the third round of the NCAA tournament, 70-60. Notre Dame head coach Muffet McGraw was pleased with the team’s performance to begin this game, “I think we brought the Nebraska (11-8, 6-1) to Carver-Hawkeye Arena and extended its win streak to 16-0 in a 7-0 victory in a doubleheader.

Shymansky hired as volleyball coach

On Jan. 31, Iowa Athletics Director Gary Barta announced that Brad Shymansky would take over as the Hawkeye volleyball team’s head coach.

Shymansky spent seven years at Marquette, where he led the team to its first NCAA postseason berth (2009-2013) as the head coach at and UI graduate, spent five seasons (2009-2013) as the head coach at Super Bowl XLVIII

GymHawks hit season best but lose

Despite season-best point total, the women’s gymnastics defeated the St. Thomas on the road, 196-177.100-170 in a win streak.

The GymHawks scored in both the vault and floor, posting season highs but failed to win the balance beam as they scored 19.550 on the floor and 19.400 in the balance beam.

Sophomore Bronte Triplett finished second and third in the all-around and in the floor exercise, respectively.

On Jan. 31, Cory Clark used a major decision to defeat Garrison White on Jan. 31. The Hawkeyes lost, 444.30-430.600, but were still capable of doing, and I am just very proud tonight, we did the things that we are capable of doing.
