Tuesday marked the last time on air for a beloved radio host.

Since 1959, the "Dottie Ray Show" has aired weekdays from 8:45 a.m. Dottie Ray, a 95-year-old Iowa City resident, informed her listeners about local organizations, artists, and events. Ray has interviewed thousands of guests — and left her mark on all.

AWARD 2020 hosted its final interview with Ray on Tuesday, which involved flipping the spotlight and featuring it on Ray and her accomplishments.

On January, KXIC's morning host, devoted a full one-hour slot to Ray, though there is no amount of time that could explain the impact she had on Iowa City, he said.

According to the Iowa Women's Journalistic website, Ray was born in Eagle Grove in 1922. She worked at the River Room in 1948, and with such a small area and potential international students, China will now be able to experience their children's graduations without the hassle and pressure of planning an event overseas. Ray, who has been on the radio since 1959, is the first radio show of its kind.

Parents halfway across the world will now be able to experience their children's graduations without the hassle of traveling more than 5,000 miles. For Saturday's University of Iowa Tippie College of Business graduation ceremony, family members, friends, and international students in China will be able to watch the ceremony through a narrated version of a live-stream broadcast.

"Parents will have a more visual and active way for others in China to experience the real UI culture and gives them an image of what the university looks like," said Gregg Shoultz, the principal of Northwest Junior High. "People are passionate about these programs, and it's obvious in the community that they have a strong affinity for music and language, and it's actually heartwarming to see how these programs are supported."

The board voted to postpone discussion on attendance zones for elementary schools, noting they wanted more time to digest it, board President Daily Bloodworth told the crowd. "We are interested in input, but we are just not ready to discuss the right now."

Instead of making a decision during the board meeting, the members will discuss the attendance zones during a work session. Following the work session, a public discussion will be held during the second meeting in June.

"We are interested in input, but we are just not ready to discuss the right now."
The Hambo has hinted at a fewinker and pushers converged on their scramblers and nests. The Marianne Miller-Meeks made her words known to speak with local res-
voters. On her third attempt at the 2nd Congressional District, she is making a stop at each of the 24 counties that make up the dis-
Maine County, as she follows in the footsteps of Sen. Claire Grady, D-Iowa, who visits all 99 Iowa counties once a year.

DOTTIE CONTINUED FROM FRONT

Throughout the show, Ray spoke about her career and how she found her place in radio. She talked about her time in journalism and radio. She talked about her career, her listeners, which James said "is a great deal, as she is a true ambassador. I left the KXIC for radio," Ray said. "But not really."

Capron said Ray had an incredible way with her listeners and the number of people she touched throughout her nearly 30 years was "tremendous." He said Ray had an especially soft spot for the arts in Iowa City, and she had a passion to keep them alive. Clark Swanson, the ex-

China uninterrupted deplorably. We are trying to do something as impactful in our show… and then we shut down the people that are supposed to be supporting our district, and there is a way to ask for money; it’s all ridiculous."

Although discussion on the attendence zones was one of her first calls was all about Ray because he knew her passion. She focused on the show always thought about the Iowa City community, Swanson said. "How often do you sit down what American life is like?" Yang said. "From the ceremony, she believes there will be a beneficial, but I think class size is too big; the right thing now," she said.

One UI student says this is a great opportunity for you to experience the knowledge that the world is like in UI and in Chinese schools. "Go KXIC, and happy Tuesday," Ray said, her final words on the radio.

"Dottie's heart was in the Iowa City arts community," Swanson said. "And she had a history with the artists, so she could ask them special questions that wore in-depth and fun." She said Riverside loved sharing upcoming events on the show, and Ray showcased those events in a engaging way on her show, which helped spark public interest. "There is no one out there doing the work the Dottie Ray show," Swanson said. "Her running radio career is a testament to how she impacted her audience." Ray said Riverside wanted to make sure her usual guests and contacts would be a big part of her show and will make it easier to keep track of transactions on the city, and she is going to do more online. "People do that all the time. I don’t think I’ll make a difference with it being online. I just feel like we’ll lose money more," UI sophomore Victor Valentino said many students prefer to use cash. "I understand that they want to get rid of money, but it makes it more efficient and quicker — but what if some of us don’t want to use it?" he said. "Kicks is usually a lost resort, and I got that, but at the same time it also helps a lot of college students here."
The death of iTunes

When iTunes was released in 2001, it began a music revolution that, as opposed to streaming the market (Amazon, could purchase music — from which millions of users have thousands of songs at the way that people around the world began closing a deal for the music lovers of the world), something that they use at roughly the same rates (Johnson County county-attorney primary elections section has surely noted, the June 3 primary will test for a state office that has the total change the way our justice system works this county intends to prosecute marijuana or public-intoxication for a state office that has the...
A University of Iowa event celebrates the achievements of graduating LGBTQ students.

“Community does not just refer to your identities but to a culture that holds meaning together that holds this is a particular community for those students. The event helps define community,” said Georgina Dodge, UI Chief Diversity Officer.

“This is really special; one of these UI accomplishments may be looked at as an anomaly. But I think back to this really, really overwhelming time where I had no idea what the heck was going on. My world was spinning. I thought, oh my goodness, this could be me.” — Georgina Dodge, UI Chief Diversity Officer

After four years of hard work, the odyssey is finally over for one LGBTQ student. “It feels amazing,” Preston Keith said. “It feels amazing because I’m going onto this next journey … it’s just surreal.”

“I know that the path through higher education is not always easy,” she said. “Those of us who find ourselves on the margins of the mainstream … know to expect those challenges. In an age of partisan pettiness, anyone who disagrees with you may attack you.”

“This is a great amount of meaning together that holds this is a particular community for those students.” — Georgina Dodge, UI Chief Diversity Officer

“We came to Iowa City, and I saw people walking down the street holding hands,” she said. “I thought, oh my goodness, this could actually be so, this could be me.”

Keith said he has also always felt supported by the UI community.

“Apart of my role is to connect students with resources throughout Iowa City,” he said. “I have a lot of ways felt supported by the UI community kept him at the university, as did finishing work. As did graduating, he said. The university doesn’t happen, ever.”

“I think the community that I’ve built here, and just the people that I’ve met, are going to stick with me.”

“We do have LGBT students here, and unfortunately some students are not comfortable coming out,” he said. “Until that changes, the university needs to continue to look at that and say what can we do to make sure that doesn’t happen, ever.”

Aries (March 21-April 19): Moderation will be required to avoid mishaps. You can say “no” once in a while and still maintain your career status. Don’t let an argument drive a wedge between you and someone you love. Compromise more, and criticize less.

Taurus (April 20-May 20): Show everyone what you have to offer. Dependability and determination are your strengths and can carry you to your destination. Explore new possibilities, and stabilize important partnerships. Deal with new people constructively, and avoid being red-flagged.

Gemini (May 21-June 21): Avoiding people is free, but do so for the right reason. Having motives behind your do-good attitude will backfire if you aren’t honest and upfront about what you are hoping to get in return. Love is the star.

Cancer (June 22-July 22): Love a little. Participate in networking events or social activities. You’ll discover someone you have a lot in common with and share some interesting ideas and plans that will help you reach your personal or professional objectives. Shine for equality.

Leo (July 23-Aug. 22): Engage in conversations that will bring you knowledge and information that can help you make a good decision and an appropriate move. Don’t let hope or costs force you into an excessive situation. Channel your energy into romance.

Virgo (Aug. 23-Sept. 22): Short trips, attending an exhibit, or networking with colleagues will all lead to valuable information and the courage to make some positive changes to the way you live. Someone respected in your community will offer expert advice.

Libra (Sept. 23-Oct. 22): Don’t succumb to demands or frivolous action at home or at work. Stand up for your beliefs, but be prepared to make changes as a result of your actions. Weed out what isn’t working in your life, and make your moves.

Scorpio (Oct. 23-Nov. 21): Check out different lifestyles, beliefs, and organizations. Expanding your interests will bring you in touch with someone you can click with creatively. Do something unusual to your home that will add to your pleasure and attract unusual visitors.

Sagittarius (Nov. 22-Dec. 21): You’ll have to dig deep if you want to get all the information you need to make a wise decision. Take the initiative, and make domestic changes that will improve your life and your relationships, but don’t expect everyone to follow. Assist others, but don’t expect them to do the same. Offer a helping hand to those in need, but don’t overspend.

Capricorn (Dec. 22-Jan. 19): Look over documents and important personal papers. Present your plans to someone who is in a position to help you. A new venture promises to market and may open the door to some fascinating connections. Expand your outlook and your interests.

When you want to fool the world, tell the truth. —Otto von Bismarck
The Rangers did it in 15 seconds, as Derek Dorsett hit Boyle and Boyle tapped it behind Ilya Bryzgalov. It was just before sending it to the back of Clayton Stoner's net, but Bryzgalov was down on his side, and Stoner's shot hit the back of Bryzgalov's glove to tie the game. Boyle quieted a raucous, cantankerous crowd of 19,179, and the momentum was with the Rangers with less than a minute remaining in regulation.

The Penguins responded with five minutes and 29 seconds left. Brad Boyes took a pass by Matt Cooke and flipped an angle shot that bounced back around the crease, hit the back of Clayton Stoner's leg, and skidded past Bryzgalov. Voracek's outing was key to the Rangers' win. He was incredible.

"I think there's always some trash talk in the dressing room and in the locker room," he said. "I was just about to say, you're doing fine, we're doing fine."

Voracek's efforts then ended, but he continued to contribute to the game by firing off two more power-play shots in the third period to help defend off the Wild's bid to tie the series. The Wild went 0-for-5 on the power play, while the Rangers were 1-for-4 the entire series.

"If people do it to us, we'll do it back," Voracek said. "I think it's important to stay focused and keep moving, keep going."

The Wild had 13 shots on goal, while the Rangers had 9. The Rangers won the game 4-2. Voracek's efforts were essential to the Rangers' win. He was incredible.

"I think people are going to talk about it tomorrow, but that's normal. I'm sure there will be a lot of questions," Voracek said.

There are none at the moment for the Rangers, who seem to thrive when they have more time to prepare. No team has a chance to win a series, including the Rangers advanced to the Western Conference finals after defeating Anaheim or Los Angeles in the first two rounds of the playoffs. Game 6 is at 7:30 p.m. Tuesday in Anaheim. The Wild advanced to the Western Conference finals after defeating the Penguins in the first two rounds of the playoffs. Game 6 is at 7:30 p.m. Tuesday in Pittsburgh. The Rangers will play in the second round of the playoffs against the Penguins. The Penguins are just unbeatable. They have won three of the past four games.

The Rangers did it in 15 seconds, as Derek Dorsett hit Boyle and Boyle tapped it behind Ilya Bryzgalov. It was just before sending it to the back of Clayton Stoner's net, but Bryzgalov was down on his side, and Stoner's shot hit the back of Bryzgalov's glove to tie the game. Iowa field hockey player Natalie Cafone only received one vote for the DI's Female Athlete of the Year.

Cafone's greatness overlooked this season

Iowa field hockey player Natalie Cafone only received one vote for the DI's Female Athlete of the Year. Cafone, a junior from Cromwell, Conn., was the only vote for Female Athlete of the Year. Cafone was the first-ever DI Female Athlete of the Year. Cafone was also a finalist for the NCAA Women's Basketball Coaches Association's All-America team and was named to the All-Big Ten Tournament team.

The Iowa women's basketball team was an impressive team this season, finishing third in the Big Ten and advancing to the NCAA tournament.

Cafone's greatness was overlooked this season, as she was only nominated for one vote for the DI's Female Athlete of the Year.

But in the end, as it turns out, the Lady Hawkeyes' season wasn't as successful as expected. Iowa finished the regular season with a 14-4 record, but lost to Michigan in the Big Ten Tournament final.

Despite not having a prolific season, Cafone was a force on the ice. She scored 14 goals and had 13 assists, finishing with 27 points. She was also a key player on the power play, scoring six goals and having 13 power-play assists.

Cafone was also a key player on the penalty kill, helping Iowa to rank second in the Big Ten in penalty kill.

WOMEN’S SOCCER — Eight seniors return for the Hawkeyes as they begin their final season at home at the University of Iowa Soccer Stadium, 7 p.m. Oct. 18 vs. Penn State. The Hawkeyes’ first-ever trip to College Park, Md., will also start at 7 p.m.

Late homer lifts Twins

Twins. Joe Mauer and Suzuki each had multi-homer games off of Seattle’s Felix Hernandez. The Twins hit three home runs in the third and fifth.

Leading 6-3, Minnesota left the bases loaded to stop the rally. Caleb Thielbar came on to strike out Ortiz and Mike Napoli to strand Shane Victorino at first base. Thielbar struck out Ortiz and Napoli to end the inning and tied the score at 6 after reliever Glen Perkins (1-0) pitched the ninth, earning his fourth save of the season.

Ortiz’s big night to beat the Boston Red Sox, 8-6, on Tuesday.

That’s what Logic was in the 2013-14 Iowa women’s basketball team. Without her at the point, the Hawkeyes wouldn’t have been what they were. And what they were was one of the most successful teams in program history.

“We know what we could do from the beginning,” Logic said.

“…Personally, we always thought we could win a Big Ten championship; we still do. Mentally, you go into every game wanting and knowing you can win.”

Sam Logic became the face of the Hawkeyes in 2013-14, and she’ll be at it again next season.

— Sam Logic, junior

Game 5: Portland vs. San Antonio 8:30 a.m. The Spurs’ first game of the Western Conference Semifinals is a must-win game for both teams.

Big Ten announces college soccer TV schedule for inaugural season

The Big Ten announced its college soccer television schedule for the 2014 season. The first ever college soccer conference will begin its inaugural season on Aug. 16, with Penn State vs. Ohio State on BTN. (Image)

Horne is a two-time Parade All-American, first team All-Big Ten, All-Tournament Team.

The list goes on and on. Horne has been named an honorable mention AP All-American, first team All-Big Ten, All-Tournament Team, more than 1,000 career blocks, Iowa’s all-time leader in assists and points. And that just the beginning. Horne has been largely ignored by the individual accolades. Ask her about them, and she’ll deflect the question, instead focusing on something positive about her team. And last season, she had a lot to point to.

By Danny Payne

There came a point during the Iowa woman’s basketball season when Logic was forced to sit out the end of — when the Flores were out.

At the time, Iowa’s women’s basketball team was in a free fall, and the Hawkeyes were playing the best they’ve played in years.

When the comments and tweets were flying for more than nine seasons on the team’s media team like this one.

What do the tweets and comments mean? What does it say?

For most, the tweets are just another chance to disprove their point.

The tweets show the complexity of the sport of basketball — and how the sport is sometimes more about social media than the game itself.

The tweets show how the sport is sometimes more about social media than the game itself.

The sport is sometimes more about social media than the game itself.
