Officials get annex input

The first public input session was held Tuesday for the proposed courthouse annex.

Members of the community will have another chance to vote on a courthouse extension.

Yet this time around, officials are requesting more input in order to create the plan that will go to the voters in November. The Johnson County Board of Supervisors held the first public input meeting for the proposed courthouse annex on Tuesday. Officials could use suggestions from several meetings to come up with a design plan.

The proposed 72,000-square-foot, $20.8 million annex-three-story courthouse annex would be adjacent to the current more than 110-year-old courthouse.

Representatives of Neumann Monson Architects and Venture Architects presented design options and potential locations in the proposed list to be used for the annex.

“I don’t think that anyone would argue that it has to be the promontory of the existing courthouse,” said John Cain, a Venture Architects representative. “But relative to certain effects of dignity and how you would define that, and I guess in my mind, it should not look like a shopping mall, I kind of feel like student housing. I’m not being critical of either of those, but I’m simply saying there is imagery of a dignified building that is required.”

On Nov. 4, the courthouse extension proposal referendum will be on the ballot for voters.

Program feeds local kids

One neighborhood food program has grown its first year.

By REBEKAH MOWIN

One local program is working to keep children from going hungry. The Gossen, Operation Backpack Program, provides supplementary weekend food backpacks for children who qualify.

Since its inception in September 2013, the number of students receiving supplementary weekend food backpacks has doubled.

The program started with 10 children, and by the end of the year 24 children were receiving packs. The program can’t look to expanding any time soon.

“At the beginning of the school year, we will add more children,” said Mindy Davison, a program coordinator for the Gossen Oper- nation Backpack Program. “It is much easier to add children into the program during the school year and we can accommodate the need for students.

The backpack program is focused on the elementary schools who attend Mann Elementary. However, there are several backpack programs in other neighbor- hood areas.

“The work that the backpack program does in such an important program when a back- pack program comes in to a community,” Davi- son said. “It really helps to bring light of education of people in the state of Iowa who are food insecure — this is one way to help provide meals for those children.

Kirkwood, Tawain, and Grant Wood elementary schools were the first schools to participate in the backpack program. Of the 53 schools participating in the program, 32 are from John- son County, with 281 students receiving food.

“It’s a critical element in the backpack program as the backpack is a communia- ntiy partner; that would be the group of folks that provide a volunteer ser- vices,” said Greg Goodall, backpack program coor- dinator at HACAP Office, the funding and the manpower to do the logis- tics to make it work.

Although the program only runs during the school year, Davison said, the program will continue to provide a number of student backpacks during the summer.

Twelve students attending summer school from July 6 to Aug. 8 will receive the backpacks.

“The school districts have other ways of pro- viding and different free lunch meal sites,” Davi- son said. “So our hope is that the children not coming to the summer program have access to these sites, and those who are at the summer program get the bags.

The backpack program isn’t the only way stu- dents can get food.

The Iowa City School District partners with the North Central Clin- ics for Johnson Coun- ty to purchase food, lunch, and snacks to chil- dren during the summer.

“It’s a great option for students in the summer,” said Alison Domin, the di- rector of Nutrition Services for the School District.

City Council mulls sales-tax option

Clarification in language has halted the Iowa City City Council's preliminary plans to put a new local-option sales tax on the November ballot.

By PAUL OSGERBY

The Daily Iowan

Recent state tax reforms have Iowa City officials questioning whether a new sales tax they say they would provide an adequate source of revenue should be placed on the November ballot.

And while city councilors were engaged in back-and-forth discussions at Tuesday evening's work session, they did not reach a decision on the levy, which is meant to be in lieu of raising property taxes.

Mayor Matt Hayek said the logistics behind the proposed tax are still in their infancy, and so they need to be reconsidered further.

Last year, the state of Iowa passed tax reforms that will begin to take effect July 1, the beginning of fiscal 2015.

Many groups that the new regulations will hinder the city's financial ability for maintaining public infrastructure.

By adopting a local-option sales tax, Iowa City Finance Director Dennis Bockenstedt, who serves as the city's finance director and serves on the Local-Option Sales Tax Exploratory Committee, said 1 percent additional sales tax could potentially generate $89 million to $91 million annually.

The model could be later adopted by other neighboring Johnson County municipalities, which would create a larger pool of revenue.

The money would then be distributed evenly across the participating municipalities based on population and revenue earned. Each local government would use the funds to allocate evenly across the participating municipalities.

On Sunday, the San Antonio Spurs advanced to the final round of the NBA Finals, much to the delight of San Antonio residents — and the rest of the world.

MIAMI — Garrett Jones hit a 3-run homer in the seventh inning Tuesday night, and the Miami Mar-
lins rallied to beat the Chi-

Adeiny Hechavarria started the Marlins’ sev-
enth with a bunt single for his fourth hit this season. Han-joon Choo drove in the winning run with a sacrifice fly to score Giancarlo Stanton, who came into the game leading the NL in home runs and had struck out five. The Marlins' 6-5 win run-
erned in the first when Chicago lost a 3-4-3 double play, and short-
stop Starlin Castro’s errant throw allowed Furcal to come home from third.

Luis Valbuena’s RBI double in the seventh gave Chicago a 4-3 lead and left Samardzija in line for on-
ly his third win. But Miami rallied against Brian Schlitter (2-2).

Jones’ one-out drive hit the top of the wall and bounced into the bullpen for his 9th home run, his first since May 23. Junis Lake hit his 9th home run, and both in five games against the Marlins they twice went 0-4 with runners in scor-
ning position. The Marlins were 2-6-1.

Miami, which leads the majors in home victories, improved to 24-14 at Marlins Park.

Miami rookie Anthony DeSclafani, recalled from the minors Monday, gave up four runs in 6 1-3 innings. Sam Dyson (1-0) pitched 1 1-3 scoreless innings for his first career win.

Lester retired the first four Chicago batters before giving up a run in the ninth on Justin Morneau’s sacrifice fly, striking out Anthony Rizzo with the bases empty to earn his 16th save in 17 chances.

Boston's Holt scores twice in 2-1 win

BOSTON — Brock Holt scored both Boston runs, Jon Lester weathered a shaky start, and pitched six-plus strong innings as the Red Sox finished up the Red Sox off the Minnesota Twins, 2-1, on Tuesday night.

Lester (8-7) has a winning record for the first time this season. The Red Sox have won two straight and four of six.

After needing 33 pitches to get out of the first inning on a hot, muggy night at Fenway Park, Lester settled down and took a shutout into the sixth. He left with one out in the seventh after striking out 6 and holding the Twins to 1 run, 4 hits, and a walk.

Edward Mujica pitched the ninth and earned his second save.

Phil Hughes (7-3) took the loss for the Twins, who have dropped four straight. The Red Sox have held Minnesota to 1 run and 7 hits in the first two games of the series.

Hughes gave up 2 runs and 8 hits in eight innings and struck out six.

Holt started in center field, his sixth position of the season, and made a sensational catch at left whenJenny Gomes lost a pop fly in the lights. Holt ran from nowhere and made an acrobatic catch to end the inning.

He received an ovation during his entire trot to the dugout and several high-
fives and pats on the back from teammates. Holt led off the inning with a dou-
ble, the 26th overall for Boston this year, and stole third, and scored on a sacrifice fly to put the Red Sox up 2-0.

After Danny Santana opened the game with a sin-
gle, Lester retired 13 of the next 14 batters and didn’t allow another hit until Kurt Suzuki singled with one out in the sixth.

Minnesota cut it to 2-1 in the seventh when Santana led off with a double, moved to third on a bunt by Brian Dozier, and scored on Joe Mauer’s double.

Dustin Pedroia nearly broke up the game on a fly ball to left that was inches short of a 2-run homer in the third. A sliding catch, and Pedroia was caught in a rundown. The play was reviewed for several

Aeroflot: An Apartheid State?

Is there any truth at all in this oft-repeated calumny?

At many universities, Arab militants and other radical students hold Israel Apartheid Week. Even some establishment politicians have taken to using the word “apartheid” to describe policies of Israel becoming a segregationist state. What justification is there for this absurd claim?

What are the facts?

South African Apartheid

“The Dutch-Africans term for separation, was the social order of the former South Africa. It meant exactly the Black majoritv of the nation and the localized Coloured, Indian and White minority in separate, but equally oppressive, races.”

Apartheid was the legal and de-facto separation of races in South Africa.

Apartheid was imposed by a South African government.

Apartheid was a system of racial segregation, discrimination, and supremacy.

Apartheid ended in 1994.

Israel and the Palestinians

In the context of Israel and the Palestinians, apartheid is often used to describe the policies of the Israeli occupation and settlement program.

The Israel-Palestinian conflict has been described as a conflict between two nations, with each nation having a right to self-determination and self-governance.

Israel and the apartheid

The term “apartheid” is often used to describe the policies of Israel in its treatment of the Palestinian people.

Israel is often accused of apartheid by some people.

Some people argue that the policies of the Israeli government are similar to those of the South African apartheid regime.

To call Israel an apartheid state is to falsely equate it with the concept of apartheid, which is a legal and social system designed to oppress and discriminate against a group.

Many people believe that it is not accurate to use the term “apartheid” to describe the situation in Israel.

To call Israel an apartheid state is to ignore the fact that the Israeli government allows a high degree of freedom and rights to all its citizens, regardless of race or religion.

To call Israel an apartheid state is to ignore the fact that the Israeli government has taken steps to improve the lives of the Palestinian people.

Ramos, who has wrestled his way to the top of the world, will continue his pursuit of a gold medal at the 2014 World Championships in Tashkent, Uzbekistan.

Ramos’ road to success

Ramos’ journey began at Hightower High School in Houston, Texas, where he won a state title in 2009. He then moved on to North Carolina State University, where he won a NCAA championship in 2012.

Ramos graduated from North Carolina State University in 2013 and immediately began training for the 2013 World Championship in Tashkent, Uzbekistan. He won the 57-kilogram weight class and was named the Most Outstanding Wrestler of the tournament.

Ramos’ success in Tashkent was followed by a strong performance at the 2014 World Championships in Astana, Kazakhstan. He advanced to the semifinals, where he won his first Olympic qualifier, and finished the tournament as the runner-up.

Ramos’ next goal is to win a gold medal at the 2020 Olympic Games in Tokyo, Japan. He has already qualified for the tournament and is currently ranked second in the world in his weight class.

Ramos’ dedication to wrestling

Ramos is known for his dedication to wrestling and his ability to train at a high level.

“Tony has always been a student of the game,” said his coach, Steve Jones. “He is always looking to improve and get better.”

Ramos’ success in the sport is not just limited to the mat. He is also a successful entrepreneur, owning his own company, Ramos Wrestling, which provides wrestling equipment and apparel.

Ramos’ impact on the sport

Ramos has had a significant impact on wrestling at both the collegiate and international level.

“I think Tony has done a great job of raising the profile of wrestling in the United States,” said Jones. “He has helped bring attention to the sport and shown what is possible with hard work and dedication.”

Ramos’ future

Ramos’ ultimate goal is to win a gold medal at the 2020 Olympic Games in Tokyo, Japan.

“Tony is one of the best wrestlers in the world and he has a great chance to win a gold medal,” said Jones. “He is a great competitor and a great person.”

Ramos’ advice for young wrestlers

Ramos has some advice for young wrestlers who are looking to follow in his footsteps.

“Hard work and dedication are key,” said Ramos. “You have to be willing to put in the time and effort to become a successful wrestler.”

Ramos’ legacy

Ramos’ legacy is one of hard work, dedication, and success.

“He set the standard for what it means to be a world-class wrestler,” said Jones. “He showed everyone what is possible with hard work and dedication.”

Ramos’ impact on the sport is seen not just on the mat, but also off the mat.

“Tony has helped to change the culture of wrestling,” said Jones. “He has shown that wrestlers can be successful in the classroom and on the mat.”

Ramos’ future looks bright and he is poised to continue his success both in and out of the wrestling room.

“Tony is a great representative of the sport of wrestling,” said Jones. “He has done a great job of raising the profile of wrestling and showing what is possible with hard work and dedication.”

Ramos’ medal count

As of 2019, Ramos has won the following medals:
