The 21st-annual Dance Marathon will begin today.

By AYANNA GUDWYN

Every fall, students hold mini recruitment events to get people to learn what Dance Marathon is, spread the word across campus, and hopefully encourage people to participate. Displays were held on the Pentacrest throughout the week; free merchandise was handed out to people who were registered, and partnerships with the Campus Activities Board led to a showing of the documentary “Legends of the Knight.”

To celebrate that the Big Event’s coming in 100 days, the IMU held an event to get people excited. It was also a reminder that there was still time to raise money.

BEHIND THE BIG EVENT

LIME DAYS 2014

SEPT. 22-28

This was the first year that Dance Marathon partnered with the UI Lecture Committee to host Alex Sheen to present his message “Because I Said I Would” lecture.

5K & PICNIC DAY 2014

SEPT. 28

This was the first year that Dance Marathon sponsored a combined 5K run and family picnic. Organizers decided to hold a fundraising marathon at Lower City Park following the 5K. A total of $15,000 was raised for the cause through registration fees and merchandise sold.

100 DAYS OUT CELEBRATION 2014

NOV. 1

To celebrate that the Big Event’s coming in 100 days, the IMU held an event to get people excited. It was also a reminder that there was still time to raise money.

A NIGHT IN THE LIME LIGHT 2015

JAN. 23

This was the first year for this event, held in the Levitt Center, to thank sponsors and supporters around campus. It included university and hospital officials. The purpose of the event was to inform the nonprofits what goes on through out the year and what work goes on behind the scenes in preparation for the Big Event.

DANCE MARATHON FUNDRAISING OVER THE YEARS

Coral Ridge Mall

Dance Marathon raises money by hosting a number of events to get people to learn what Dance Marathon is, spread the word across campus, and hopefully encourage people to participate. Displays were held on the Pentacrest throughout the week; free merchandise was handed out to people who were registered, and partnerships with the Campus Activities Board led to a showing of the documentary “Legends of the Knight.”

AIB moves shovels forward

BY CARY MATTHEW

CEDAR FALLS — The University of Iowa will not have a campus in Des Moines after all, even though officials had previously announced that the Community College of the District of Columbia and the University of Iowa would be forming a joint venture.

Instead, UI President Sally Mason told the state Board of Regents on Thursday that AIB College of Business would continue its operations in Des Moines.

"The UI will assume ownership of the facility and turn it over to another sort of (two other regents)," she said. "I hope we can agree to the agreement coming forward." Regents President Bruce Rastetter said in a press conference following the regents' meeting "I am glad we could stop teaching students on June 30, 2016, and UI programming will begin on July 1."

Rastetter said, "The accreditation of both universities would be jeopardized."

"One of the things we consistently hear from the Des Moines business community is the interest in the courses and offerings from the Iowa public universities, in particular the UI business school," Rastetter said. "I think this is a great opportunity, with the gift from AIB, for the regent system to be able to accomplish what in Des Moines is the largest metropolitan area and growth area."

"Because there will be a new owner, not all students who will study there will necessarily factor into the UI's enrollment numbers. Mason said some students might be enrolled through Iowa State University, University of Northern Iowa, or other institutions.

"They're (UI) students, some of them; some of them may be other students but not starting until 2016," Mason said. "The invitation is open to all and all courses, but I include our sister institutions because they're obviously very important in this re-booster forward going."" Originally it was pro-

comedian and a musician,” said UI senior Drake Wilbur, Dance Marathon’s public relations and marketing director.

“The comedian is Brooks Wheelan, a UI alumnus who has appeared on “Saturday Night Live.” Kevin Valentine, a musician from Nashville, will also attend.

“We’re really excited to have them,” Wilbur said.

In addition to the entertainment, Dance Marathon officials also expect a large number of people to attend.

“We are very optimistic about our numbers,” Wilbur said. “We think we’ve had so much engagement throughout the year with our participants, we’re excited to see them raise their money and come to the Big Event.”

UI senior Brian Wall, the Dance Marathon executive family-relations director, said the group expects more than 1,000 Dance Marathon families to be at this Big Event.

“That’s our goal every year,” he said. “It really is rewarding, because all these families are really, really appreciative of what we do.”

One such family is the Phillips family, whose son, Carter, was diagnosed with leukemia at 27 months old.

“Carter is now 11 and cancer-free, but the Phillips family still looks forward to the Big Event every year,” Wilbur said. “We haven’t missed one since,” said George Phillips, Carter’s father. “This will be our 11th (Dance Marathon.)”

Phillips said that Carter has grown older, but he must be more involved by hanging out with the college dancers and viewing them as friends and role models.

“Go to go and see all the dancers and see all of your friends,” Carter said. “It’s really cool, because there are a bunch of different things you can do. You can go dance, or you can go to the video-game ring. There are board games and a bounce house.”

Phillips said that the Big Event is about sharing their family’s calender and building just as high a priority as anything else.

“I think Dance Marathon is by far one of the most incredible organizations you can ever hope to be affiliated with,” he said. “You could not ask for more amazing support when you’re going through that battle with childhood cancer.”

The Daily Iowan Editorial Board believes that legalizing fantasy sports in Iowa is a necessary step to renewing the trust of people in a system that looks to be flawed from those of us who look at the conduct of police officers or sheriff’s deputies. There is a direct responsibility in dealing with the day-to-day conduct of people; many people in the courthouse are attorneys, but there is also a strict budget that prevents the means for the courthouse to function properly and to uphold the Government for a redo of presences of generosities.

On Feb. 3, NBC News ran a story about the 18-year-old member of the Chicago Bears, Akiem Hicks. Hicks, who is from the southern part of Minnesota, was the 12th pick in the 2015 NFL Draft. Hicks is currently enrolled at the University of Illinois. Hicks is a defensive end and has been a starter at every level since high school.

In November 2014, area residents made their voices heard loud and clear in the Daily Iowan. For a third consecutive time, the referendum for a Johnson County Courthouse annex was defeated. The project failed to convince many of the electorate that it was a necessary and appropriate course of action.

Steve Albrecht got any shred of momentum for the Wolverines, as he missed 9-of-10 from the floor (3-of-5 from the 3-point arc) and finished the game with double-digit scoring, and Uthoff was not ejected from the game.

The Wolverines only managed to get the game back to single-digits in the second period, as Iowa’s offenses worked the ball into the paint and finished with 42 points from inside the paint.

The only time Michigan got any shred of momentum was around the nine-minute mark. White was given two technicals in the contest; the first came after he blocked a Ricky Doyle layup attempt down low. A handful of possessions later, White got a pass from Mike Gesicki as he was driving to the basket, dinked the ball, and pulled himself up on the rim. The latter was ruled a class-two technical, and White was not ejected from the game.

The only time Michigan got any shred of momentum was around the nine-minute mark. White was given two technicals in the contest; the first came after he blocked a Ricky Doyle layup attempt down low. A handful of possessions later, White got a pass from Mike Gesicki as he was driving to the basket, dinked the ball, and pulled himself up on the rim. The latter was ruled a class-two technical, and White was not ejected from the game.

The Wolverines had the game within 9 points, but Uthoff responded with a triple, putting the brakes on the mini-run.

Anytime you’re up double digits, they get it; they put it right back up on the next possession, that’s obviously a huge momentum thing,” McCaffery said.

The Hawkeyes finished the first half on a 9-0 run, with Aaron White scoring 4 of his 7 first-half points during that stretch. The other 6 came from Adam Woodbury, Jarrod Uthoff, and others.

The Wolverines only managed to get the game back to single-digits in the second period, as Iowa’s offenses worked the ball into the paint and finished with 42 points from inside the paint.

Four Iowa field-hockey players have filed a Title IX complaint against the University of Iowa, ESPNEWS reported Thursday. The University of Iowa, however, claims that the school's actions were appropriate.

The report was filed to the U.S. Department of Education and Chicago branch of the Office of Civil Rights on Jan. 28. The complaint makes five allegations about gender and sex stereotyping the university employs. The play- ers assert the following harm Hawkeyes student-athletes:

* The school uses different practices and standards when investigating female coaches; and

* The school permits male coaches to use coaching methods that female coaches aren't permitted; and

* The school generally holds female coaches to a higher or different standard from male coaches.

On why it's harmful, the four student-athletes wrote the following:

* The university's stereotype-motivated reaction to a minority group of females on the team who are emotionally upset by the methods of the female coach also harms the females who complained. It enables stereo- types about them as well as the coach and completely undermines the experience of the entire team.*

The university has yet to comment on the situation, saying it has yet to receive the complaint, "so we can't comment on it," Iowa director of athletics communications Steve Bux told The Daily Iowan. Further, he said, the Office of Civil Rights hasn't contacted the university, and Iowa doesn't know if it will be contacted.

"We do want to reiterate that Tracey Griesbaum's employment as head coach of the UI field-hockey pro- gram was not terminated based on her gender," Steve Roe told The Daily Iowan. Griesbaum was fired after a summertime investiga- tion into complaints from two former Hawkeyes. The
