IOWA CITY, IOWA, SATURDAY, APRIL 30, 1881.

NO. 28.

THE big man of the Senior class has been persuaded by his friends not to challenge the "musical junior," if the Junior will not go across the street for candy.

A meeting was held in the chapel last Wednesday noon to settle a Decoration Day service. A committee was appointed to confer with the prominent citizens, so that we may agree to a called meeting to-night at 7:30 P. M., at Metropolitan Hall.

Several of the students were elected officers for the ensuing year, at a meeting of the Good Templar Lodge, last Monday evening. After the election the customary public reading of the literary literature, went down and brought up the treats. Installation will take place next Monday evening. The Lodge is in a pretty peripatetic condition, and all the members are advocates of the Amendment.

The Freshmen, with characteristic enterprise, have organized two nine, and have been playing a series of games in which No. 2 shows itself equal, if not superior, to No. 1. They played a match with the town boys this morning, and the contest which is for the city. Scores, 30 to 17.

One of the Republican canvassers, while taking orders for the new directory the other day, asked a lady the name of the man who gave him the order, and received this answer: "Well, only I have forgotten. We have been married only two years. He must have taken him on himself, and I don't know where.

There was a lively scene at the Republican office today. When two fair Catholic maiden came in to solicit votes, the heads of printers were seen disappearing through every door and passage. The formal demands on the possibility of his position, bravely stood his ground. His honesty only cost him about five dollars.

Last night Joe Jefferson was greeted by one of the largest audiences that has ever attended our Opera House this year. To draw such a large audience in Iowa City at this time of the season is a compliment to Mr. Jefferson, and shows the appreciation of our people for true talent. As Rip Van Winkle, His entire naturalness made the play seem so real that one might almost imagine that he stood before me. Then the old fellow was listening to the Identical Rip, or saw him awakening from his sleep of twenty years on the bluffs of the Hudson. All were delighted, and should Mr. Jefferson return, he would be sure of a crowded house.

The harp that once through Tara's halls
The soul of minstrelshad,
Now hangs as mute on Tara's walls
As that sad south bell.

So sleep the princes of former days,
So glory's thrall is o'er,
And hearts, that once beat high for

Now feel that pales no more.

Now more to chiefs and ladies white
The harp of Tara swells;
The shroud alone, that breaks at night.

To tell some heart-broken breaks,
To show that still she lives.

Thus Freedom now so seldom wakens,
The only throb she gives
In when some heart-haunting breaks,

We were walking out, a Junior and I. He was discoursing most eloquently on the glory of the coming Senior class, when a beautiful plaster bust in a window caught his eye. The "windows of his soul" lighted up with the fervent fires of thought, kindled by the associations which hung around all casts of Grecian art. Striking a familiar attitude, he broke forth: "In fancy, upon the wings of the poetic genius..."

We were both engrossed, and considered the subject, that true one of the "many-voiced sea." High above me looms the "pillar of the window," before which stretches that grand old mother of poetry, art, and song.

Do not tell me it is not true. If I hear the clarion voice of Democritus, I will thrice this instant rush at the entrance of the Universalist church at 10 A.M., and all are cordially invited to attend.

The Reporter makes the impertinent declaration this morning, that it has dug up the hatchet, and is now on the war-path against popular vices. We have noticed in a public order some time past an anxious and careworn look upon the faces of the reporters. We under- stand, the cause of it now. The Reporter men, like Prince Gauta- ma, have been meditating upon the sins and sorrows of their fellows, and their meditations are to find expression in a series of articles. We agree with the Reporter editors, there is need of reform among the students, and are in sympathy with their undertaking to bring it about.

To go to George Fink's for your tobacco and cigars.

Mr. Chute has been giving a lecture of very interesting character to his class upon the "Great Re- ligions" of the world. Next Sun- day morning Mr. Chute will give a lecture upon the "Principles of Mohammedanism," one of the greatest religious movements the world has ever known, and a knowledge of which is necessary to a correct understanding of the tendencies of thought even in our own times. Mr. Chute will be given in the parlor of the Universalist church at 10 A.M., and all are cordially invited to attend.
