Fall Field Meet.

A Most Perfect Day and a Successful Meet for Our Athletes.

A Large Crowd and Great Enthusiasm.

This afternoon saw the consummation of the most successful field meet ever held at the State University of Iowa. Credit may be given to many for the success of the day, but no one can deny to Chantland the most of the honor which was conferred by the enthusiastic as the instalment of the event. The track- Captain, in his former post, has worked indefatigably, and his scheme of procuring an intercollegiate cup added to the interest and enthusiasm of contestants and spectators alike.

The first event was called almost on time, and what is still more phenomenal the track was kept reasonably clear. More than 1,000 entries were made, and each contestant appeared to take the game seriously.

Think of over one hundred entries in a full fieldday, and the manner with which the spectators conducted themselves is still more creditable to the State Meet, and no one can have the least fear that next spring's meet will not remain right where it is.

As was announced at the track, the class cup, medals, and prizes, will be presented to the winners at Close Hall, at 4 o'clock this evening.

The entries in the various events, and who did it in a creditable business-like way were as follows: Lee, Vogel, field and hurdles, Frederick, clerk of course, Fred A. Hara, assistant; Prof. W. C. L. Bremner, field and hurdles; Is. W. S. B. M. Schuman, hurdles and racing, Fred B. S. B. McDaniel, hurdles and racing; John G. Smith, P. A. McMaster, A. M. Van Gelder, hurdles and racing; and, last, E. J. Lindsey, acted as referee.

The first event, 100 yd. dash and shuttle, was run at 1:14.6, but there was considerable delay in starting. A strong wind was on, but the starting was made at 1:16, but it was generally conceded that Grum would win, judging by his performances at State Field Day. A light wind blew down the track and was some assistance in this race. Kalberg acted as starter, and Grum showed his training and got the advantage of a good start, which he maintained to the end, winning by five feet. He was followed by Young and Rowell third by a good finish.

The time as announced was 1:14.6, but the watches were probably well off.

Rogers, 91, won the shuttle, and his time was 1:19.5, in 2:02 ft. in. Littig, 92, 2d, 3d, 2 ft. in. This time will place on the stretch east of the grand stand and was not seen by many of the spectators.

The half-mile bicycle race was a petty event, but Smith was not pushed, and his time was 1:27.6, which was far behind the stretch, but Smith easily pushed him past and won by five yards. Cox was second, and Miller third.

Clark ran a good half mile and won with considerable ease. The time was announced as 1:21.8. Brown was a fair second, and Brookway third.

In the running broad jump Chantland won with 18 ft. 16 in. and Victor second with 14 ft. 19 in. There was no third.

The presence of Lindsay in the two-mile bicycle race would have added interest to the contest, as it proved the race finally narrowed down to Smith and Cox. Hill set the pace for the first half and then dropped out. On the second Cox went to the front and led for two laps, keeping his position well into the fourth round. But Smith had been riding along easily and in the home stretch got to the front and good start and ended the race in 3:04.

Thursday's Foot-Ball Practice.

Since the game at Beaver, a feeling more or less pronounced has been universal, current in the mind of the student body, that there are a number of things in the playing of the "Varsity" eleven that are open to improvement. As our coach has now left us and the captain personally takes part in all the work, we have deemed it our duty to watch the play of the men from the side lines more closely than that has been done before, in order to be able to make an intelligent and impartial estimate of each man's playing.

The criticism of the candidates is given primarily for their benefit. No one need take offense at the remarks herein made as they are offered in good faith and in all fairness, for the sole and only purpose of correcting faults by calling the attention of the candidates to them and in so doing to render as strong as possible the team that is to represent us.

To begin at the middle Rogers at center plays a steady game and possesses all the qualifications necessary for the position, strength, ability, and a cool head. It would be well for him to break through a little oftener and to indulge in some tackling occasionally when the opponents have the ball.

Ingoenius at left guard is a strong man but inclined to too slow. He seldom breaks through, even when playing against men that weigh 140 pounds less than himself. He should be taught to surge forward with all the vim of the 200 pounds that he carries, the moment the ball is snapped.

He must play lower also.

Pithead at right guard does not improve so rapidly as he should. He does not seem to be able to keep track of both the ball and his man. He at all ways allows his opponent to get the lung on him and consequently is often brushed aside.

Adleth at left tackle is playing very well. He is hard to budge and when the ball is given him seldom fails to make a gain. He is learning to get in the new style of interference and with a little more practice will do some good blocking.

Van Oosterhout at right tackle plays in his last year's position, and shows some improvement over last year's form. He only worked for a few moments the other day, so he was not feeling well and Tyrrell was put in his place.

Tyrrell's true position however in our opinion is on the end. He tackles low and hard and is not afraid to jump head foremost into the interference and break it to pieces. He usually drops men behind his man

Robinson is on the right and shows a lack of nerve apparently. He seems afraid to go into the interference from In front and invariably tries to jump on the man's back to and tackle him from behind. This style of playing will not do for a man on the Varsity team, the interference must be broken back of the line and not after the ball had been carried thirty or forty yards in the field.

White who also plays at end is in charge of all the candidates for that position with the possible exception of Tyrrell. He goes down in the game, but on the other hand is not afraid to jump head foremost into the interference and always gets in.

He would get the runner off if he would attempt to dodge in the first place, and jump on the man's back instead of running himself dead against, a single one of the opponents.

Shaw seems to be quite good at fullback. He is a quick player and is calculable. His blocking is excellent and is as quick as the swift man back of the line, he always covers up to the line of scrimmage with the man with the ball. Where ever else the term may be, he never is not at quarter as long as "Prince" is at his post.

Myers at left half though not as speedy as many back him. It is not always for any short coming in this respect by the head work that he introduces all into his playing. He starts the moment the ball is in motion and follows his blocker very well in the backfield.

The position of left half is not definitely spoken for at present.

Dexer has been playing here for a part or two of his best points are his grip and self possession. He lacks strength, attention, and experience, three qualities which a successful half back can not be without.

Captain Elliott is at full doing good work. He plays better today than he did two weeks ago, and his blocking is fully up to the standard. His line smashing is getting better but he should learn to go still lower if he is to make the most of his opportunities. He would not make a mistake in our opinion if he could play the game better than the men are in line.

Space does not permit us to extend our remarkings in a consideration of the playing of the scrub team.

Allen and Collins are playing a husky game at guard and it behooves the Varsity players to look to their laurels.

At tackle we have Bush and Littig each putting up a fairly good game, but neither of them in their play being aggressive enough for their own good. There are other men equally good on the second eleven but they show some of the characteristics of those if the Varsity is to come out successful in the end the players must be put through the baptism of fire and they must be fired with the fire which two foot ball suite, play hard and disgrace the dead timber the eleven if there is any that needs displacing.

The VIDETTE-REPORTER

Pharmacy Department.
J. M. Bernhardt, Sr., has instructed the Junior class in working Pharmacy problems, as at the morning hour the past week.

The Class meeting on Thursday, at 1:30 p. m., addressed by several and old-gold, for class colors. A committee was appointed to have the colors ready for class at 8 o’clock, Saturday morning.

Dr. of Morning Sun; Kirkpatrick, of Wellman; and Bassheuer, of Columbus City, will spend Sunday at their respective homes.

To show our sympathy for the death of one of our Junior members, Chas. Gibbons, the class met after the 8 o’clock recitation Friday, and adopted the following resolutions:

Whereas it has pleased an all loving Father to take a bright member from the Junior Pharmacy class therefore be it:

Resolved: That we the class, extend to his bereaved parents our heartfelt sympathies, in this the hour of their afflictions.

Resolved: That a copy of these resolutions be sent to his parents.
